

AUTHOR INDEX TO VOLUME 20 (1984)

- Adams, E.T. Jr. and J.M. Beckerdite
Analysis of self-associations from partition isotherms 73
- Allewell, N.M., see Maliwal, B.P. 209
- Asai, H., see Nagai, Y. 319
- Banerjee, S.K., see Johnson, R.E. 23
- Beckerdite, J.M., see Adams, E.T. Jr. 73
- Benjamin, M.J., see Geacintov, N.E. 121
- Boens, N., see Van den Zegel, M. 333
- Cahen, D., see LeGrange, J. 249
- Canaves, G., see Muñoz, F. 175
- Caplan, S.R., see LeGrange, J. 249
- Chou, K.-C.
The biological functions of low-frequency vibrations (phonons). 4. Resonance effects and allosteric transition 61
- Cohen-Armon, M.
An ion-site interaction model for sodium currents in the giant axon 285
- Corti, P., see Niccolai, N. 217
- Crossin, M.C., M. Tai and G. Kegeles
Perturbation of ribosome subunit interaction by glutaraldehyde fixation 95
- De Schryver, F.C., see Van den Zegel, M. 333
- Donoso, J., see Muñoz, F. 175
- Echevarria, G., see Muñoz, F. 175
- Eftink, M.R., see Hagaman, K.A. 201
- Ezaki, S. see Toko, K. 39
- Fujime, S., S. Ishiwata and T. Maeda
Dynamic light scattering study of muscle F-actin 1
- García Blanco, F., see Muñoz, F. 175
- Geacintov, N.E., H. Hibshoosh, V. Ibanez, M.J. Benjamin and R.G. Harvey
Mechanisms of reaction of benzo(a)pyrene-7,8-diol-9,10-epoxide with DNA in aqueous solutions 121
- Gibbons, W.A., see Niccolai, N. 217
- Goldbeter, A., see Morán, F. 149
- Goldstein, B., see Van Opheusden, J.H.J. 237
- Grothusen, J.R. and J.K. Zimmerman
A simple method of analyzing profiles in time-difference direct optical scanning gel chromatography 299
- Hagaman, K.A. and M.R. Eftink
Fluorescence quenching of Trp-314 of liver alcohol dehydrogenase by oxygen 201
- Harvey, R.G., see Geacintov, N.E. 121
- Havsteen, B.H.
Linear free energy relationship for osmotic water flow through a membrane 305
- Hibshoosh, H., see Geacintov, N.E. 121
- Huang, C.-H.C., M. Tai and G. Kegeles
Pressure-jump kinetics of bovine β -casein micellization 89
- Ibanez, V., see Geacintov, N.E. 121
- Ishiwata, S., see Fujime, S. 1
- Johnson, R.E., S.K. Banerjee and J.A. Rupley
Nucleotide-induced changes in the heat capacity of beef cardiac myosin 23
- Kegeles, G., see Crossin, M.C. 95
- Kegeles, G., see Huang, C.-H.C. 89
- Kegeles, G., see Tai, M. 81
- Lachapelle, M., see Ménard, R. 29
- Lakowicz, J.R., see Maliwal, B.P. 209
- LeGrange, J., S.R. Caplan and D. Cahen
Simulations of frequency-dependent photoacoustic magnitude signals and their implications for bacteriorhodopsin photocycle energetics 249
- Maeda, T., see Fujime, S. 1
- Maliwal, B.P., N.M. Allewell and J.R. Lakowicz
Structural fluctuations in aspartate transcarbamylase. Succinimide quenching and fluorescence depolarization of tryptophan and tyrosine residues 209
- Marion, C., see Mithieux, G. 111
- Matsubara, Y., see Yoshikawa, K. 107
- McConnell, B. and D. Politowski
Buffer catalysis of amino proton exchange in compounds of adenosine, cytidine and their endocyclic *N*-methylated derivatives 135
- Meier, H.-J., see Porschke, K. 225
- Ménard, R., M. Lachapelle and M. Zador
Interaction of (dien)Pd(II) with cytidine and cytidine 5'-monophosphate. Influence of the phosphate group on the kinetics and mechanism 29
- Mithieux, G., B. Roux and C. Marion
Structural properties of barley nucleosomes 111
- Morán, F. and A. Goldbeter
Onset of birhythmicity in a regulated biochemical system 149

Muñoz, F., G. Canaves, J. Donoso, G. Echevarria and F. Garcia Blanco Influence of pH on the removal of pyridoxal 5'-phosphate from phosphorylase <i>b</i>	175	Tai, M. and G. Kegeles A micelle model for the sedimentation behavior of bovine β -casein	81
Nagai, Y., H. Asai and T. Tsuchiya Polydispersity effects on head-to-tail polymerization of F-actin. A theoretical treatment	319	Tai, M., see Crossin, M.C.	95
Navon, G., see Shinar, H.	275	Tai, M., see Huang, C.-H.C.	89
Niccolai, N., L. Pogliani, C. Rossi, P. Corti and W.A. Gibbons Proton relaxation mechanisms and the measurements of r_ϕ , r_ψ and transannular interproton distances in gramicidin S	217	Toko, K., M. Tsukiji, S. Ezaki and K. Yamafuji Current-voltage characteristics and self-sustained oscillations in dioleoyl phosphate-Millipore membranes	39
Ota, T., see Yoshikawa, K.	107	Tsuchiya, T., see Nagai, Y.	319
Pogliani, L., see Niccolai, N.	217	Tsukiji, M., see Toko, K.	39
Politowski, D., see McConnell, B.	135	Uhlendorf, V. Fatty acid contamination and dielectric relaxation in phospholipid vesicle suspensions	261
Porschke, K., H.-J. Meier and J. Ronnenberg Interactions of nucleic acid double helices induced by electric field pulses	225	Van den Zegel, M., N. Boens and F.C. De Schryver Fluorescence decay of 1-methylpyrene in small unilamellar L- α -dimyristoylphosphatidylcholine vesicles. A temperature and concentration dependence study	333
Ronnenberg, J., see Porschke, K.	225	Van Opheusden, J.H.J., F.W. Wiegel and B. Goldstein Forward rate constants for receptor clusters. Variational methods for upper and lower bounds	237
Rossi, C., see Niccolai, N.	217	Wada, A., see Soda, K.	185
Roux, B., see Mithieux, G.	111	Wiegel, F.W., see Van Opheusden, J.H.J.	237
Rupley, J.A., see Johnson, R.E.	23	Yamafuji, K., see Toko, K.	39
Sakabe, K., see Yoshikawa, K.	107	Yoshikawa, K., K. Sakabe, Y. Matsubara and T. Ota Oscillation of electrical potential in a porous membrane doped with glycerol α -monooleate induced by an Na^+/K^+ concentration gradient	107
Schröder, H. Model calculations of polarization effects in elastic membrane channels	157	Zador, M., see Ménard, R.	29
