

AUTHOR INDEX TO VOLUME 25 (1986)

- Abad, C., see Braco, L. 297
- Amemiya, Y., see Tanaka, H. 161
- Beneventi, S. and G. Onori
Effect of ethanol on the thermal stability of tRNA molecules 181
- Bierzyński, A., M. Dadlez, M. Sobocińska and G. Kupryszewski
Conformational study of two synthetic peptides with sequence analogies to the N-terminal fragment of RNase A 127
- Baño, M.C. see Braco, L. 297
- Braco, L., M.C. Baño, F. Chillaron and C. Abad
Conformational species of gramicidin A in non-polar solvent. A kinetic and thermodynamic treatment in the absence and presence of phosphatidylcholine as studied by high-performance liquid chromatography 297
- Brumbaugh, E.E., see Chun, P.W. 223
- Bucci, E., see Sassaroli, M. 283
- Burghardt, T.P., see Thompson, N.L. 91
- Chillaron, F., see Braco, L. 297
- Chou, K.-C.
Origin of low-frequency motions in biological macromolecules. A view of recent progress in the quasi-continuity model 105
- Chun, P.W., E.E. Brumbaugh and R.B. Shiremann
Interaction of human low density lipoprotein and apolipoprotein B with ternary lipid microemulsion. Physical and functional properties 223
- Dadlez, M., see Bierzyński, A. 127
- Eftink, M.R. and K.A. Hagaman
Viscosity dependence of the solute quenching of the tryptophanyl fluorescence of proteins 277
- Endo, S., see Hanai, R. 27
- Eshel, D. and Z. Priel
Spectral characterization of ciliary beating. Temperature dependence on spectral parameters 215
- Frehland, E. and P. Solleder
Nonequilibrium voltage fluctuations in biological membranes. I. General framework of charge transport in discrete systems and related voltage noise 135
- Frehland, E., see Solleder, P. 147
- Fronticelli, C., see Sassaroli, M. 283
- Fujime, S., see Masai, J. 253
- Giesen, U., see Langowski, J. 191
- Gō, N., see Mizuno, H. 73
- Hagaman, K.A., see Eftink, M.R. 277
- Hamed, M.M., see Hilal, R. 17
- Hanai, R., S. Endo and A. Wada
Elution-band relaxation method. A method to analyze isomerization kinetics by HPLC and application to protein denaturation-renaturation 27
- Hilal, R., M.M. Hamed and H. Moustafa
Comparative MO investigation of hindered rotation and thermal decomposition of carbamates and thiocarbamates 17
- Hill, T.L.
A theoretical study of cooperative dual linear aggregation and the vermer effect 1
- Homble, F., see Jenard, A. 287
- Hurwitz, H.D., see Jenard, A. 287
- Ishiwata, S., see Masai, J. 253
- Izumiya, N., see Mizuno, H. 73
- Jenard, A., H.D. Hurwitz and F. Homble
A simple theoretical model of steady-state electrogenic transfer of reactive species across membranes. The case of *Chara corallina* 287
- Kato, T., see Mizuno, H. 73
- Kobayashi, T., see Tanaka, H. 161
- Kodera, Y., see Mizuno, H. 73
- Kowalczyk, J., see Sassaroli, M. 283
- Kupryszewski, G., see Bierzyński, A. 127
- Kuznetsova, I.M., see Turoverov, K.K. 315
- Langowski, J., U. Giesen and C. Lehmann
Dynamics of superhelical DNA studied by photon correlation spectroscopy 191
- Lavery, R., see Zakrzewska, K. 201
- Lee, S., see Mizuno, H. 73
- Lehmann, C., see Langowski, J. 191
- Masai, J., S. Ishiwata and S. Fujime
Dynamic light-scattering study on polymerization process of muscle actin 253
- Melo, T.B. and G. Reisæter
The physicochemical state of protoporphyrin IX in aqueous solution investigated by fluorescence and light scattering 99

- Ménassa, P.E. and C. Sandorfy
A study of the permeation of dihexadecyl phosphate vesicles by various anesthetics 175
- Mizuno, H., S. Lee, H. Nakamura, Y. Kodera, T. Kato, N. Gō and N. Izumiya,
Conformations of cyclo(L- or D-Phe-L-Pro-Aca) and cyclo(L-Pro-L- or D-Phe-Aca). Cyclized dipeptide models for specific types of β -bends 73
- Moustafa, H., see Hilal, R. 17
- Nakamura, H., see Mizuno, H. 73
- Nii, N., see Tamura, K. 169
- Norisuye, T., see Sho, T. 307
- Onori, G., see Beneventi, S. 181
- Peacock-Lopez, E. and J.A. Ramirez
The effect of diffusion on the trapping of membrane-bound receptors by localized coated pits 117
- Priel, Z., see Eshel, D. 215
- Pullman, B., see Zakrzewska, K. 201
- Ramirez, J.A., see Peacock-Lopez, E. 117
- Reisæter, G., see Melø, T.B. 99
- Rubinson, K.A.
The effects of *n*-pentane on voltage-clamped squid nerve sodium currents. A reinterpretation using kinetics of ordered systems 43
- Rubinson, K.A.
Closed channel-open channel equilibrium of the sodium channel of nerve. Simple models of macromolecular equilibria 57
- Sandorfy, C., see Ménassa, P.E. 175
- Sassaroli, M., C. Fronticelli, J. Kowalczyk, E. Bucci and A.E. Shamoo
Librational motions of membrane-embedded Ca^{2+} -ATPase of sarcoplasmic reticulum labeled with fluorescein isothiocyanate 283
- Sato, T., see Sho, T. 307
- Shamoo, A.E., see Sassaroli, M. 283
- Shiremann, R.B., see Chun, P.W. 223
- Sho, T., T. Sato and T. Norisuye
Viscosity behaviour and persistence length of sodium xanthan in aqueous sodium chloride 307
- Sobocińska, M., see Bierzynski, A. 127
- Solleder, P. and E. Frehland
Nonequilibrium voltage fluctuations in biological membranes. II. Voltage and current noise generated by ion carriers, channels and electrogenic pumps 147
- Solleder, P., see Frehland, E. 135
- Suzuki, A., see Tamura, K. 169
- Tajmir-Riahi, H.A.
Vitamin C interaction with cobalt-ammine cations. Synthesis, spectroscopic and structural characterization of cobalt-pentammine and cobalt-tetrammine sugar complexes containing L-ascorbate anion 37
- Tajmir-Riahi, H.A.
Sugar adducts with alkaline earth metal ions. Interaction of L-arabinose with Sr(II) and Ba(II) ions and the effects of metal ion binding on the sugar anomeric configurations 271
- Tamura, K., N. Nii and A. Suzuki
Effects of pressure and potassium chloride on the aggregation of poly(γ -benzyl-L-glutamate) in liposomal bilayers 169
- Tanaka, H., T. Kobayashi, Y. Amemiya and K. Wakabayashi
Time-resolved X-ray diffraction studies of frog skeletal muscle isometrically twitched by two successive stimuli using synchrotron radiation 161
- Thompson, N.L. and T.P. Burghardt
Total internal reflection fluorescence. Measurement of spatial and orientational distributions of fluorophores near planar dielectric interfaces 91
- Turoverov, K.K. and I.M. Kuznetsova
What causes the depolarization of trypsin and trypsinogen fluorescence. Intramolecular mobility or non-radiative energy transfer? 315
- Wada, A., see Hanai, R. 27
- Wakabayashi, K., see Tanaka, H. 161
- Wills, P.R., see Winzor, D.J. 243
- Winzor, D.J. and P.R. Wills
Effects of thermodynamic nonideality on protein interactions. Equivalence of interpretations based on excluded volume and preferential solvation 243
- Zakrzewska, K., R. Lavery and B. Pullman
Theoretical studies on the interaction of proteins and nucleic acid. II. The binding of α -helix to B-DNA 201
