

7th International Conference on Surface and Colloid Science

Compiègne, France, 7–12 July 1991

The 7th ICSCS will be made up of six one-hour plenary lectures and twelve symposia devoted to the special topics below

Molecules at interfaces

Surfactancy and supramolecular self-assemblies

Characterization and modification of surfaces

Wetting and adhesion

Chemical processes on solid surfaces

Disperse systems

Nucleation phenomena

Aerosols

Preparation and characterization of colloidal particulates

Emulsions and suspensions

Biosystems

Biosurfactants

Food colloids

Biological macromolecules in microcompartmentalized media

Interactions between living systems and biomaterials
