

AUTHOR INDEX TO VOLUME 40 (1991)

- Advani, J.V., see Tewari, Y.B. (40) 263
- Alexandre, S. and Dunford, H.B.
A new model for oscillations in the peroxidase-oxidase reaction (40) 189
- And, , see Tewari, Y.B. (40) 263
- Andrade, M.A., Garcia-Tejedor, A.J. and Montero, F.
Study of an error-prone hypercycle formed from two kinetically distinguishable species (40) 43
- Armijo, M., see Verkman, A.S. (40) 117
- Barcellona, M.L. and Gratton, E.
A molecular approach to 4',6-diamidine-2-phenylindole (DAPI) photophysical behaviour at different pH values (40) 223
- Bell, D., see Goldberg, R.N. (40) 69
- Brabec, V., see Kogan, E.M. (40) 231
- Chen, F.-M., see Sarker, M. (40) 135
- Cheung, H.C., Gryczynski, I., Malak, H., Wicz, W., Johnson, M.L. and Lakowicz, J.R.
Conformational flexibility of the Cys 697-Cys 707 segment of myosin subfragment-1. Distance distributions by frequency-domain fluorometry (40) 1
- Cornell, B.A., see Price, W.S. (40) 329
- Czuryło, E.A., Emelyanenko, V.I., Permyakov, E.A. and Dąbrowska, R.
Spectrofluorimetric studies on C-terminal 34 kDa fragment of caldesmon (40) 181
- Dąbrowska, R., see Czuryło, E.A. (40) 181
- Dunford, H.B., see Alexandre, S. (40) 189
- Dyatlova, N.G., see Kogan, E.M. (40) 231
- Emelyanenko, V.I., see Czuryło, E.A. (40) 181
- Forgó, P., see Szilágyi, L. (40) 89
- Fraaije, J.G.E.M., Murris, R.M., Norde, W. and Lyklema, J.
Interfacial thermodynamics of protein adsorption, ion co-adsorption and ion binding in solution. I. Phenomenological linkage relations for ion exchange in lysozyme chromatography and titration in solution (40) 303
- Fraaije, J.G.E.M., Norde, W. and Lyklema, J.
Interfacial thermodynamics of protein adsorption, ion co-adsorption and ion binding in solution. II. Model interpretation of ion exchange in lysozyme chromatography (40) 317
- Frisch, H.L., see Trohalaki, S. (40) 197
- Fujiwara, M. and Ikegami, A.
Induced dipole moment of purple membranes. Theoretical analysis (40) 155
- Fukuda, Y., see Watanabe, K. (40) 293
- Fushimi, K., see Verkman, A.S. (40) 117
- Garcia-Tejedor, A.J., see Andrade, M.A. (40) 43
- Goldberg, R.N. and Tewari, Y.B.
Thermodynamics of the disproportionation of adenosine 5'-diphosphate to adenosine 5'-triphosphate and adenosine 5'-monophosphate. I. Equilibrium model (40) 241
- Goldberg, R.N., Bell, D., Tewari, Y.B. and McLaughlin, M.A.
Thermodynamics of hydrolysis of oligosaccharides (40) 69
- Goldberg, R.N., see Tewari, Y.B. (40) 263
- Goldberg, R.N., see Tewari, Y.B. (40) 59
- Gratton, E., see Barcellona, M.L. (40) 223
- Gryczynski, I., see Cheung, H.C. (40) 1
- Hirano, Y., see Mitaku, S. (40) 217
- Ikegami, A., see Fujiwara, M. (40) 155
- Inoue, T., see Yoshimura, T. (40) 277
- Ishido, S., see Mitaku, S. (40) 217
- Itoh, H., see Mitaku, S. (40) 217
- Jingdong, T., see Xun, S. (40) 161
- Johnson, M.L., see Cheung, H.C. (40) 1
- Kataoka, R., see Mitaku, S. (40) 217
- Kawakubo, T., see Suzuki, H. (40) 149
- Kogan, E.M., Dyatlova, N.G., Sidorova, N.S., Vilner, L.M., Vrána, O. and Brabec, V.
Biophysical studies of the complexes of polyriboguanilic acid with brominated and chlorinated polyribocytidylic acids (40) 231
- Kondo, T., see Tokugawa, R. (40) 77
- Kuchel, P.W., see Price, W.S. (40) 329
- Lahiri, A., see Sen, S. (40) 33
- Lakowicz, J.R., see Cheung, H.C. (40) 1
- Lara-Ochoa, F.
A dynamical model for phospholipid-calcium binding (40) 207
- Lerman, L.S., see Trohalaki, S. (40) 197
- Lyklema, J., see Fraaije, J.G.E.M. (40) 303
- Lyklema, J., see Fraaije, J.G.E.M. (40) 317

- Makino, K., see Tokugawa, R. (40) 77
- Malak, H., see Cheung, H.C. (40) 1
- McLaughlin, M.A., see Goldberg, R.N. (40) 69
- Mitaku, S., Ishido, S., Hirano, Y., Itoh, H., Kataoka, R. and Saitô, N.
Hydrophobic core of molten-globule state of bovine carbonic anhydrase B (40) 217
- Montero, F., see Andrade, M.A. (40) 43
- Murris, R.M., see Fraaije, J.G.E.M. (40) 303
- Nakamura, A., see Watanabe, K. (40) 293
- Nambi, P., see Srinivasan, R. (40) 81
- Nishio, T.
Development of an equation for potentiometric titration of polyelectrolytes using a periodic lattice model. A numerical analysis of interactions among ionizable groups (40) 19
- Noguchi, H., see Yoshimura, T. (40) 277
- Norde, W., see Fraaije, J.G.E.M. (40) 303
- Norde, W., see Fraaije, J.G.E.M. (40) 317
- Ohshima, H., see Tokugawa, R. (40) 77
- Permyakov, E.A., see Czurylo, E.A. (40) 181
- Porschke, D.
Persistence length and bending dynamics of DNA from electrooptical measurements at high salt concentrations (40) 169
- Price, W.S., Kuchel, P.W. and Cornell, B.A.
A ^{35}Cl and ^{37}Cl NMR study of chloride binding to the erythrocyte anion transport protein (40) 329
- Quirion, F. and St-Pierre, S.
Reduction of the *in vitro* hemolytic activity of soybean lecithin liposomes by treatment with a block copolymer (40) 129
- Riveros, O.J.
Dynamics of electron transfer in the oxidation of water by chlorophyll *a* dimer (40) 109
- Saitô, N., see Mitaku, S. (40) 217
- Saitô, N., see Watanabe, K. (40) 293
- Saitô, N., see Yoshimura, T. (40) 277
- Sankaramakrishnan, R., Sreerama, N. and Vishveshwara, S.
Characterization of proline-containing right-handed α -helix by molecular dynamics studies (40) 97
- Sarker, M. and Chen, F.-M.
Binding of Hg(II) to poly(dA): poly(dT) and its component single strands (40) 135
- Sen, S. and Lahiri, A.
Effect of supercoiling on the melting characteristics of heteropolynucleotides (40) 33
- Sidorova, N.S., see Kogan, E.M. (40) 231
- Sreerama, N., see Sankaramakrishnan, R. (40) 97
- Srinivasan, R. and Nambi, P.
Thermodynamic parameters for the glutamate dehydrogenase catalyzed α -imino acid- α -amino acid interconversion (40) 81
- St-Pierre, S., see Quirion, F. (40) 129
- Suzuki, H., Tsuchiya, Y. and Kawakubo, T.
A short period oscillation in a water/oil/water system (40) 149
- Szilágyi, L. and Forgó, P.
Enzyme-inhibitor complexes of lysozyme with glucosamine inhibitors. A molecular dynamics study through ^2H -NMR (40) 89
- Tewari, Y.B. and Goldberg, R.N.
Thermodynamics of hydrolysis of disaccharides. Lactulose, α -D-melibiose, palatinose, D-trehalose, D-turanose and 3- α -D-galactopyranosyl-D-arabinose (40) 59
- Tewari, Y.B., Goldberg, R.N., And, and Advani, J.V.
Thermodynamics of the disproportionation of adenosine 5'-diphosphate to adenosine 5'-triphosphate and adenosine 5'-monophosphate. II. Experimental data (40) 263
- Tewari, Y.B., see Goldberg, R.N. (40) 241
- Tewari, Y.B., see Goldberg, R.N. (40) 69
- Tokugawa, R., Makino, K., Ohshima, H. and Kondo, T.
Electrostatic interaction between ion-penetrable multi-layered membranes (40) 77
- Trohalaki, S., Frisch, H.L. and Lerman, L.S.
The effects of lithium, rubidium, cesium and magnesium ions on the close packing of persistence-length DNA fragments (40) 197
- Tsuchiya, Y., see Suzuki, H. (40) 149
- Verkman, A.S., Armijo, M. and Fushimi, K.
Construction and evaluation of a frequency-domain epifluorescence microscope for lifetime and anisotropy decay measurements in subcellular domains (40) 117
- Vilner, L.M., see Kogan, E.M. (40) 231
- Vishveshwara, S., see Sankaramakrishnan, R. (40) 97
- Vrána, O., see Kogan, E.M. (40) 231
- Watanabe, K., Nakamura, A., Fukuda, Y. and Saitô, N.
Mechanism of protein folding. III. Disulfide bonding (40) 293
- Wicz, W., see Cheung, H.C. (40) 1
- Xinyuan, L., see Xun, S. (40) 161
- Xun, S., Jingdong, T., Zhaonan, Z. and Xinyuan, L.
Chemiluminescence study on the peroxidation of linoleic acid initiated by the reaction of ferrous iron with hydrogen peroxide (40) 161
- Yoshimura, T., Noguchi, H., Inoue, T. and Saitô, N.
Mechanism of protein folding. II. Lysozyme and phospholipase (40) 277
- Zhaonan, Z., see Xun, S. (40) 161
