

AUTHOR INDEX TO VOLUME 46 (1993)

- Aki, H. and Yamamoto, M.
 Biothermodynamic characterization of monocarboxylic and dicarboxylic aliphatic acids binding to human serum albumin: A flow microcalorimetric study (46) 89
- Allured, V.S., see Thayer, M.M. (46) 165
- Bacci, M., see Bizzarri, A.R. (46) 117
- Barghouthi, S. and Eftink, M.
 Fluorescence studies of a local anesthetic-phospholipid interaction (46) 13
- Barghouthi, S.A., Puri, R.K. and Eftink, M.R.
 Local anesthetic-phospholipid interactions. Effects of ionic strength, temperature, and phospholipid mixtures on the binding of dibucaine to phospholipids (46) 1
- Basser, P.J. and Grodzinsky, A.J.
 The Donnan model derived from microstructure (46) 57
- Bautsch, W., see Federwisch, M. (46) 237
- Bhattacharyya, M., Ghosh, A.N., Chaudhuri, U. and Poddar, R.K.
 Chlorpromazine induced aggregation of normal human hemoglobin. Electron microscopic evidence (Biophysical Chemistry 44 (1992) 209-217) (46) 295
- Bizzarri, A.R., Bacci, M. and Cannistraro, S.
 Distribution of the iron-heme displacement as resulting from myoglobin conformational substates: An AOM approach to the interpretation of the EPR spectra (46) 117
- Brilliantov, N.V., Vostrikova, N.G., Denisov, V.P., Petrusievich, Y.M. and Revokatov, O.P.
 Influence of dielectric friction and near-surface increase of viscosity on rotational Brownian motion of charged biopolymers in solutions (46) 227
- Cannistraro, S., see Bizzarri, A.R. (46) 117
- Cavatorta, P., see Favilla, R. (46) 217
- Chaudhuri, U., see Bhattacharyya, M. (46) 295
- Chinsky, L., see Jolles, B. (46) 179
- Cioni, P., Puntoni, A. and Strambini, G.B.
 Tryptophan phosphorescence as a monitor of the solution structure of phosphoglycerate kinase from yeast (46) 47
- Clarke, R.J.
 A theoretical description of non-steady-state diffusion of hydrophobic ions across lipid vesicle membranes including effects of ion-ion interactions in the aqueous phase (46) 131
- Denisov, V.P., see Brilliantov, N.V. (46) 227
- De Santis, P., Fuà, M., Palleschi, A. and Savino, M.
 Relationships between intrinsic and induced curvature in DNAs: Theoretical prediction of nucleosome positioning (46) 193
- Desoye, G. and Porschke, D.
 Structure and dynamics of peptide-polynucleotide complexes (46) 283
- Drakenberg, T., see Kierdaszuk, B. (46) 207
- Eftink, M., see Barghouthi, S. (46) 13
- Eftink, M.R., see Barghouthi, S.A. (46) 1
- Emde, M., see Federwisch, M. (46) 237
- Favilla, R., Stecconi, G., Cavatorta, P., Sartor, G. and Mazzini, A.
 The interaction of DAPI with phospholipid vesicles and micelles (46) 217
- Federwisch, M., Wollmer, A., Emde, M., Stühmer, T., Melcher, T., Klos, A., Köhl, J. and Bautsch, W.
 Tryptophan mutants of human C5a anaphylatoxin: A fluorescence anisotropy decay and energy transfer study (46) 237
- Frisman, E. and Zarubina, O.
 Effect of γ -irradiation on the conformation of the native DNA molecule (46) 37
- Fuà, M., see De Santis, P. (46) 193
- Fuchikami, N., Sawashima, N., Naito, M. and Kambara, T.
 Model of chemically excitable membranes generating autonomous chaotic oscillations (46) 249
- Ghosh, A.N., see Bhattacharyya, M. (46) 295
- Gilboa, H., see Sakhnini, A. (46) 21
- Gill, S.C., see Sijpkens, A.H. (46) 171
- Gill, S.C., see Thayer, M.M. (46) 165
- Gill, S.J., see Thayer, M.M. (46) 165
- Grodzinsky, A.J., see Basser, P.J. (46) 57
- Haltiwanger, R.C., see Thayer, M.M. (46) 165
- Hannah, E.B., see Peacock-López, E. (46) 261
- Hvidt, A., see Westh, P. (46) 27
- Johansson, C., see Kierdaszuk, B. (46) 207
- Johnson, M.L., see Maliwal, B.P. (46) 273
- Jolles, B., Laigle, A., Liquier, J. and Chinsky, L.
 Evaluation of the structural modifications induced by mitomycin C on nucleic acids (46) 179
- Kambara, T., see Fuchikami, N. (46) 249
- Kapuscinski, J. and Kimmel, M.
 Thermodynamical model of mixed aggregation of intercalators with caffeine in aqueous solution (46) 153
- Kierdaszuk, B., Johansson, C., Drakenberg, T., Stolarski, R. and Shugar, D.

- Mechanism of hydroxylamine mutagenesis: Role of tautomerism, conformation and proton exchange on base pairing between the promutagen *N*⁶-methoxyadenosine and uridine (46) 207
- Kimmel, M., see Kapuscinski, J. (46) 153
- Klos, A., see Federwisch, M. (46) 237
- Köhl, J., see Federwisch, M. (46) 237
- Kondo, T., see Ohshima, H. (46) 145
- Kušba, J., see Maliwal, B.P. (46) 273
- Laigle, A., see Jolles, B. (46) 179
- Lakowicz, J.R., see Maliwal, B.P. (46) 273
- Liquier, J., see Jolles, B. (46) 179
- Maliwal, B.P., Kušba, J., Wicz, W., Johnson, M.L. and Lakowicz, J.R.
End-to-end diffusion coefficients and distance distributions from fluorescence energy transfer measurements: Enhanced resolution by using multiple acceptors with different Förster distances (46) 273
- Mazzini, A., see Favilla, R. (46) 217
- Melcher, T., see Federwisch, M. (46) 237
- Naito, M., see Fuchikami, N. (46) 249
- Odijk, T.
Undulation-enhanced electrostatic forces in hexagonal polyelectrolyte gels (46) 69
- Ohshima, H. and Kondo, T.
Electrophoretic mobility of a "soft particle" with a non-uniformly charged surface layer as a model for cells (46) 145
- Palleschi, A., see De Santis, P. (46) 193
- Peacock-López, E. and Hannah, E.B.
Effect of linear reinsertion of receptor on the distribution of receptors around coated pits (46) 261
- Peacock-López, E., see Queeney, K.L. (46) 101
- Petrusievich, Y.M., see Brilliantov, N.V. (46) 227
- Poddar, R.K., see Bhattacharyya, M. (46) 295
- Porschke, D., see Desoye, G. (46) 283
- Puntoni, A., see Cioni, P. (46) 47
- Puri, R.K., see Barghouthi, S.A. (46) 1
- Queeney, K.L. and Peacock-López, E.
Complex dynamics in a minimal model of the alternative pathway of the complement system (46) 101
- Revokatov, O.P., see Brilliantov, N.V. (46) 227
- Ropp, T., see Royer, C.A. (46) 295
- Royer, C.A., Ropp, T. and Scarlata, S.F.
Solution studies of the interactions between the histone core proteins and DNA using fluorescence spectroscopy (Biophys. Chem. 43 (1992) 197–211) (46) 295
- Sakhnini, A. and Gilboa, H.
Double quantum sodium NMR studies of the halotolerant *Ba₁* bacterium (46) 21
- Sartor, G., see Favilla, R. (46) 217
- Savino, M., see De Santis, P. (46) 193
- Sawashima, N., see Fuchikami, N. (46) 249
- Scarlata, S.F., see Royer, C.A. (46) 295
- Shobana, S. and Vishveshwara, S.
Effect of constraints by threonine on proline containing α -helix—A molecular dynamics approach (46) 77
- Sugar, D., see Kierdaszuk, B. (46) 207
- Sijpkens, A.H., Van de Kleut, G.J. and Gill, S.C.
Urea-diketopiperazine interactions: A model for urea-induced denaturation of proteins (46) 171
- Steconci, G., see Favilla, R. (46) 217
- Stolarski, R., see Kierdaszuk, B. (46) 207
- Strambini, G.B., see Cioni, P. (46) 47
- Stühmer, T., see Federwisch, M. (46) 237
- Thayer, M.M., Haltiwanger, R.C., Allured, V.S., Gill, S.C. and Gill, S.J.
Peptide-urea interactions as observed in diketopiperazine-urea cocrystal (46) 165
- Thron, C.D.
Biochemical oscillations: The opposite dynamical effects of competitive and noncompetitive enzyme inhibitors (46) 187
- Van de Kleut, G.J., see Sijpkens, A.H. (46) 171
- Vishveshwara, S., see Shobana, S. (46) 77
- Vostrikova, N.G., see Brilliantov, N.V. (46) 227
- Westh, P. and Hvidt, A.
Heat capacity of aqueous solutions of monohydric alcohols at subzero temperatures (46) 27
- Wicz, W., see Maliwal, B.P. (46) 273
- Wollmer, A., see Federwisch, M. (46) 237
- Yamamoto, M., see Aki, H. (46) 89
- Zarubina, O., see Frisman, E. (46) 37
