

AUTHOR INDEX TO VOLUME 49 (1994)

- Alaeddin, S., see Nygren, H. (49) 263
- Alberty, R.A. and Goldberg, R.N.
Calorimetric determination of the standard transformed enthalpy of a biochemical reaction at specified pH and pMg (Biophysical Chemistry 47 (1993) 213–223) (49) 184
- Alberty, R.A.
Constraints in biochemical reactions (49) 251
- Alecio, M.R., see Cudmore, A.J. (49) 71
- Andersen, O.S., see He, K. (49) 83
- Bagiński, M., Gariboldi, P. and Borowski, E.
The role of amphotericin B amine group basicity in its antifungal action. A theoretical approach (49) 241
- Belushkin, A.V., see Lechner, R.E. (49) 91
- Bogdanov, V., see Gryczyński, I. (49) 223
- Borovyagin, V., see Semenova, G. (49) 59
- Borowski, E., see Bagiński, M. (49) 241
- Bradshaw, J.P., see Cudmore, A.J. (49) 71
- Büldt, G., see Lechner, R.E. (49) 91
- Butler, J., see Prütz, W.A. (49) 101
- Chang, Y.-c. and Ludescher, R.D.
Tryptophan photophysics in rabbit skeletal myosin rod (49) 113
- Charvolin, J.
Membrane in chloroplasts. A topological approach to grana and frets (49) 23
- Chou, K.-C.
Low-frequency collective motion in biomacromolecules and its biological functions (Biophysical Chemistry 30 (1988) 3–48) (49) 183
- Cudmore, A.J., Bradshaw, J.P. and Alecio, M.R.
X-ray diffraction studies using a novel synthetic phospholipid (49) 71
- Dencher, N.A., see Lechner, R.E. (49) 91
- Denicourt, N., Tancrede, P. and Teissié, J.
The main transition of dipalmitoylphosphatidylcholine monolayers: A liquid expanded to solid condensed high order transformation (49) 153
- Eftink, M.R., see Hu, D.D. (49) 233
- Fitter, J., see Lechner, R.E. (49) 91
- Fleischhauer, J., Grötzinger, J., Kramer, B., Krüger, P., Wollmer, A., Woody, R.W. and Zobel, E.
Calculation of the circular dichroism spectrum of cyclo-(L-tyr-L-tyr) based on a molecular dynamics simulation (49) 141
- Gariboldi, P., see Bagiński, M. (49) 241
- Goldberg, R.N., see Alberty, R.A. (49) 184
- Goldberg, R.N., see Kishore, N. (49) 163
- Gräslund, A., see Jernström, B. (49) 185
- Greathouse, D., see He, K. (49) 83
- Grotehans, S., see Lipowsky, R. (49) 27
- Grötzinger, J., see Fleischhauer, J. (49) 141
- Gryczyński, I., Bogdanov, V. and Lakowicz, J.R.
Light quenching and depolarization of fluorescence observed with laser pulses. A new experimental opportunity in time-resolved fluorescence spectroscopy (49) 223
- Hartung, J., Helfrich, W. and Klösigen, B.
Transformation of phosphatidylcholine multilayer systems in a large excess of water (49) 77
- He, K., Ludtke, S.J., Wu, Y., Huang, H.W., Andersen, O.S., Greathouse, D. and Koeppe II, R.E.
Closed state of gramicidin channel detected by X-ray in-plane scattering (49) 83
- Hedwig, G.R. and Høiland, H.
Thermodynamic properties of peptide solutions. Part 11. Partial molar isentropic pressure coefficients in aqueous solutions of some tripeptides that model protein side-chains (49) 175
- Helfrich, W., see Hartung, J. (49) 77
- Høiland, H., see Hedwig, G.R. (49) 175
- Hu, D.D. and Eftink, M.R.
Thermodynamic studies of the interaction of trp aporepressor with tryptophan analogs (49) 233
- Huang, H.W., see He, K. (49) 83
- Imanishi, Y., see Kato, E. (49) 215
- Jernström, B. and Gräslund, A.
Covalent binding of benzo[a]pyrene 7,8-dihydrodiol 9,10-epoxides to DNA: molecular structures, induced mutations and biological consequences (49) 185
- Kato, E., Ueda, T., Kimura, S. and Imanishi, Y.
Location of melittin fragment carrying spiropyran in phospholipid bilayer membrane determined by thermal isomerization (49) 215
- Kimura, S., see Kato, E. (49) 215
- Kishore, N., Tewari, Y.B., Yap, W.T. and Goldberg, R.N.
Thermodynamics of the hydrolysis of penicillin G and ampicillin (49) 163
- Klösigen, B., see Hartung, J. (49) 77
- Koeppe II, R.E., see He, K. (49) 83
- Kramer, B., see Fleischhauer, J. (49) 141
- Krüger, P., see Fleischhauer, J. (49) 141

- Lakowicz, J.R., see Gryczyński, I. (49) 223
- Land, E.J., see Prütz, W.A. (49) 101
- Langer, S.A., see Seifert, U. (49) 13
- Lechner, R.E., Dencher, N.A., Fitter, J., Büldt, G. and Belushkin, A.V.
Proton diffusion on purple membrane studied by neutron scattering (49) 91
- Lipowsky, R. and Grotehans, S.
Renormalization of hydration forces by collective protrusion modes (49) 27
- Ludescher, R.D., see Chang, Y.-c. (49) 113
- Ludtke, S.J., see He, K. (49) 83
- Lundström, I., see Nygren, H. (49) 263
- Magnusson, K.-E., see Nygren, H. (49) 263
- Nishio, T.
Monte Carlo simulations on potentiometric titration of cylindrical polyelectrolytes: Introduction of a method and its application to model systems without added salt (49) 201
- Nygren, H., Alaeddin, S., Lundström, I. and Magnusson, K.-E.
Effect of surface wettability on protein adsorption and lateral diffusion. Analysis of data and a statistical model (49) 263
- Pope, J.M., see Wolfe, J. (49) 51
- Porschke, D.
DNA double helices with positive electric dichroism and permanent dipole moments: Non-symmetric charge distributions and "frozen" configurations (49) 127
- Prütz, W.A., Butler, J. and Land, E.J.
The glutathione free radical equilibrium, $GS^{\cdot} + GS^{-} \rightleftharpoons GSS^{-}G$, mediating electron transfer to Fe(III)-cytochrome c (49) 101
- Seddon, J.M., see Templer, R.H. (49) 1
- Seifert, U. and Langer, S.A.
Hydrodynamics of membranes: the bilayer aspect and adhesion (49) 13
- Semenova, G., Vasilenko, I. and Borovyagin, V.
Structural changes in thylakoid membranes of chilling-resistant and sensitive plants after heating and glycerol dehydration as revealed by ^{31}P NMR and electron microscopy (49) 59
- Tancrède, P., see Denicourt, N. (49) 153
- Teissié, J., see Denicourt, N. (49) 153
- Templer, R.H., Seddon, J.M. and Warrender, N.A.
Measuring the elastic parameters for inverse bicontinuous cubic phases (49) 1
- Tewari, Y.B., see Kishore, N. (49) 163
- Ueda, T., see Kato, E. (49) 215
- Ulrich, A.S. and Watts, A.
Lipid headgroup hydration studied by 2H -NMR: a link between spectroscopy and thermodynamics (49) 39
- Vasilenko, I., see Semenova, G. (49) 59
- Warrender, N.A., see Templer, R.H. (49) 1
- Watts, A., see Ulrich, A.S. (49) 39
- Wolfe, J., Yan, Z. and Pope, J.M.
Hydration forces and membrane stresses: cryobiological implications and a new technique for measurement (49) 51
- Wollmer, A., see Fleischhauer, J. (49) 141
- Woody, R.W., see Fleischhauer, J. (49) 141
- Wu, Y., see He, K. (49) 83
- Yan, Z., see Wolfe, J. (49) 51
- Yap, W.T., see Kishore, N. (49) 163
- Zobel, E., see Fleischhauer, J. (49) 141
