

## Subject Index to Volume 56 (1995)

### **Actin**

Polymerization process; Specific antibodies (Houmeida, A. (56) 201)

### **Anion pump**

Halorhodopsin; Halobacteria; Bacteriorhodopsin; Retinal protein (Otomo, J. (56) 137)

### **Anisotropy**

Fluorescence; One-photon excitation; Two-photon excitation; Anisotropy spectra; Tyrosine; Tryptophan; Peptides; Proteins (Lakowicz, J.R. (56) 263)

### **Anisotropy spectra**

Fluorescence; Anisotropy; One-photon excitation; Two-photon excitation; Tyrosine; Tryptophan; Peptides; Proteins (Lakowicz, J.R. (56) 263)

### **Aspartic acid**

Chloride transport; Proton transfer (Mitrovich, Q.M. (56) 121)

### **Bacteriorhodopsin**

Rhodopsin; Photoaffinity labeling; Rhodopsin (chromophore location); Locked retinal analog; Side-chain methyls (Nakanishi, K. (56) 13)

Retinochrome analogues; 14-Substituted retinals; Non-protonated Schiff base; Counterion; Electronegativity; Rhodopsin (Sekiya, N. (56) 31)

Electron microscopy; Solid state NMR; Deuterium; Retinal; Membrane protein structure (Watts, A. (56) 41)

Vibrational spectra; Retinal conformers (Mathies, R.A. (56) 47)

Isotope labeling; FT-IR spectroscopy; Tyrosine; Cell-free protein synthesis; M intermediate (Liu, X.-M. (56) 63)

Intermediates; Electrostatic; Molecular dynamics simulation; Titration; Proton pump (Engels, M. (56) 95)

Parallel photocycles; Optical transient spectroscopy (Eisfeld, W. (56) 105)

Photocycle; Proton transport; Cooperativity; Purple membrane; *Halobacterium halobium* (Komrakov, A.Yu. (56) 113)

Halorhodopsin; Anion pump; Halobacteria; Retinal protein (Otomo, J. (56) 137)

Transport mechanism; X-ray diffraction; Schiff base proton; Protein conformation (Lanyi, J.K. (56) 143)

Sensory rhodopsin I; Proton pump; Transducer; HtrI (Spudich, J.L. (56) 165)

Optical processing (Wolperdinger, M. (56) 189)

### **Bacteriorhodopsin photocycle**

Spin labeling; Protein conformational change; Electron paramagnetic resonance spectroscopy (Steinhoff, H.-J. (56) 89)

### **Benzo[a]pyrene**

BPDE adducts; Polyacrylamide gel electrophoresis; Fluorescence spectroscopy (Suh, M. (56) 281)

### **Biosynthesis**

Bovine rhodopsin; Mutagenesis; Recombinant baculovirus; Photolysis; FT-IR spectroscopy (DeCaluwé, G.L.J. (56) 79)

### **BLM**

Retinal; Vectorial catalysis; Ion pump; Schiff base (Tittor, J. (56) 153)

### **Bovine rhodopsin**

Mutagenesis; Recombinant baculovirus; Biosynthesis; Photolysis; FT-IR spectroscopy (DeCaluwé, G.L.J. (56) 79)

### **BPDE adducts**

Benzo[a]pyrene; Polyacrylamide gel electrophoresis; Fluorescence spectroscopy (Suh, M. (56) 281)

### **Cell-free protein synthesis**

Isotope labeling; FT-IR spectroscopy; Bacteriorhodopsin; Tyrosine; M intermediate (Liu, X.-M. (56) 63)

### **Charge displacements**

Purple membrane; Orientation; Photosensation (Dér, A. (56) 159)

**Chicken iodopsin**

Photobleaching; Rhodopsin (Yoshizawa, T. (56) 57)

**Chloride transport**

Aspartic acid; Proton transfer (Mitrovich, Q.M. (56) 121)

**Circadian photoreception**

CSF-contacting neurons; Extraretinal photoreception; Opsin; Retinal degeneration (Argamaso, S.M. (56) 3)

**Coherent spectroscopy**

Rhodopsin; Raman; Vision; Picosecond spectroscopy (Popp, A. (56) 129)

**Control coefficients**

Non-ideal metabolic pathway (Kholodenko, B.N. (56) 215)

**Cooperativity**

Bacteriorhodopsin; Photocycle; Proton transport; Purple membrane; *Halobacterium halobium* (Komrakov, A.Yu. (56) 113)

**Counterion**

Retinochrome analogues; 14-Substituted retinals; Non-protonated Schiff base; Electronegativity; Rhodopsin; Bacteriorhodopsin (Sekiya, N. (56) 31)

**CSF-contacting neurons**

Circadian photoreception; Extraretinal photoreception; Opsin; Retinal degeneration (Argamaso, S.M. (56) 3)

**Deuterated retinals**

Rhodopsin; Hydrogen out-of-plane vibration; FT-IR spectroscopy; Lumirhodopsin; Metarhodopsin I (Ohkita, Y.J. (56) 71)

**Deuterium**

Bacteriorhodopsin; Electron microscopy; Solid state NMR; Retinal; Membrane protein structure (Watts, A. (56) 41)

**Differential scanning calorimetry**

Phospholipid mixture; Phase diagram; Mixing behavior; Headgroup interaction (Nibu, Y. (56) 273)

**Diffusion controlled reactions**

Random walk; Monte Carlo simulation; Lipid bilayer; Monolayers; Unilamellar vesicles (Bergling, S. (56) 227)

**Electronegativity**

Retinochrome analogues; 14-Substituted retinals; Non-protonated Schiff base; Counterion; Rhodopsin; Bacteriorhodopsin (Sekiya, N. (56) 31)

**Electron microscopy**

Bacteriorhodopsin; Solid state NMR; Deuterium; Retinal; Membrane protein structure (Watts, A. (56) 41)

**Electron paramagnetic resonance spectroscopy**

Spin labeling; Bacteriorhodopsin photocycle; Protein conformational change (Steinhoff, H.-J. (56) 89)

**Electrostatic**

Bacteriorhodopsin; Intermediates; Molecular dynamics simulation; Titration; Proton pump (Engels, M. (56) 95)

**Eubacteria**

Rhodopsin (Hoff, W.D. (56) 193)

**Extraretinal photoreception**

Circadian photoreception; CSF-contacting neurons; Opsin; Retinal degeneration (Argamaso, S.M. (56) 3)

**Fluorescence**

Anisotropy; One-photon excitation; Two-photon excitation; Anisotropy spectra; Tyrosine; Tryptophan; Peptides; Proteins (Lakowicz, J.R. (56) 263)

**Fluorescence spectroscopy**

Benzo[a]pyrene; BPDE adducts; Polyacrylamide gel electrophoresis (Suh, M. (56) 281)

**Fourier-transform-infrared**

G protein activation; Mutagenesis; Proton transfer; Secondary structure; Visual pigment (Fahmy, K. (56) 171)

**FT-IR spectroscopy**

Isotope labeling; Bacteriorhodopsin; Tyrosine; Cell-free protein synthesis; M intermediate (Liu, X.-M. (56) 63)

Rhodopsin; Hydrogen out-of-plane vibration; Lumirhodopsin; Metarhodopsin I; Deuterated retinals (Ohkita, Y.J. (56) 71)

Bovine rhodopsin; Mutagenesis; Recombinant baculovirus; Biosynthesis; Photolysis (DeCaluwé, G.L.J. (56) 79)

**G protein activation**

Fourier-transform-infrared; Mutagenesis; Proton transfer; Secondary structure; Visual pigment (Fahmy, K. (56) 171)

**Halobacteria**

Halorhodopsin; Anion pump; Bacteriorhodopsin; Retinal protein (Otomo, J. (56) 137)

***Halobacterium halobium***

Bacteriorhodopsin; Photocycle; Proton transport; Cooperativity; Purple membrane (Komrakov, A.Yu. (56) 113)

**Halorhodopsin**

Anion pump; Halobacteria; Bacteriorhodopsin; Retinal protein (Otomo, J. (56) 137)

**Headgroup interaction**

Phospholipid mixture; Phase diagram; Mixing behavior; Differential scanning calorimetry (Nibu, Y. (56) 273)

**HtrI**

Sensory rhodopsin I; Proton pump; Transducer; Bacteriorhodopsin (Spudich, J.L. (56) 165)

**Hydrogen out-of-plane vibration**

Rhodopsin; FT-IR spectroscopy; Lumirhodopsin; Metarhodopsin I; Deuterated retinals (Ohkita, Y.J. (56) 71)

**Intermediates**

Bacteriorhodopsin; Electrostatic; Molecular dynamics simulation; Titration; Proton pump (Engels, M. (56) 95)

**Inverse problem**

Photoacoustic diagnostics; Photoinduced volume changes; Relaxation kinetics; Regularization algorithm; Numerical simulation (Puchenkova, O.V. (56) 241)

**Ion pump**

BLM; Retinal; Vectorial catalysis; Schiff base (Tittor, J. (56) 153)

**Isotope labeling**

FT-IR spectroscopy; Bacteriorhodopsin; Tyrosine; Cell-free protein synthesis; M intermediate (Liu, X.-M. (56) 63)

**Lipid bilayer**

Random walk; Monte Carlo simulation; Diffusion controlled reactions; Monolayers; Unilamellar vesicles (Bergling, S. (56) 227)

**Locked retinal analog**

Rhodopsin; Bacteriorhodopsin; Photoaffinity labeling; Rhodopsin (chromophore location); Side-chain methyls (Nakanishi, K. (56) 13)

**Lumirhodopsin**

Rhodopsin; Hydrogen out-of-plane vibration; FT-IR spectroscopy; Metarhodopsin I; Deuterated retinals (Ohkita, Y.J. (56) 71)

**Membrane protein structure**

Bacteriorhodopsin; Electron microscopy; Solid state NMR; Deuterium; Retinal (Watts, A. (56) 41)

**Metarhodopsin I**

Rhodopsin; Hydrogen out-of-plane vibration; FT-IR spectroscopy; Lumirhodopsin; Deuterated retinals (Ohkita, Y.J. (56) 71)

**M intermediate**

Isotope labeling; FT-IR spectroscopy; Bacteriorhodopsin; Tyrosine; Cell-free protein synthesis (Liu, X.-M. (56) 63)

**Mixing behavior**

Phospholipid mixture; Phase diagram; Headgroup interaction; Differential scanning calorimetry (Nibu, Y. (56) 273)

**Molecular dynamics simulation**

Bacteriorhodopsin; Intermediates; Electrostatic; Titration; Proton pump (Engels, M. (56) 95)

**Molecular orbital calculation**

Rhodopsin; Solid-state NMR; Vision; Retinal (Han, M. (56) 23)

**Monolayers**

Random walk; Monte Carlo simulation; Diffusion controlled reactions; Lipid bilayer; Unilamellar vesicles (Bergling, S. (56) 227)

**Monte Carlo simulation**

Random walk; Diffusion controlled reactions; Lipid bilayer; Monolayers; Unilamellar vesicles (Bergling, S. (56) 227)

**Mutagenesis**

Bovine rhodopsin; Recombinant baculovirus; Biosynthesis; Photolysis; FT-IR spectroscopy (DeCaluwé, G.L.J. (56) 79)

Fourier-transform-infrared; G protein activation; Proton transfer; Secondary structure; Visual pigment (Fahmy, K. (56) 171)

**Non-ideal metabolic pathway**

Control coefficients (Kholodenko, B.N. (56) 215)

**Non-protonated Schiff base**

Retinochrome analogues; 14-Substituted retinals; Counterion; Electronegativity; Rhodopsin; Bacteriorhodopsin (Sekiya, N. (56) 31)

**Numerical simulation**

Photoacoustic diagnostics; Photoinduced volume changes; Relaxation kinetics; Inverse problem; Regularization algorithm (Puchenkova, O.V. (56) 241)

**One-photon excitation**

Fluorescence; Anisotropy; Two-photon excitation; Anisotropy spectra; Tyrosine; Tryptophan; Peptides; Proteins (Lakowicz, J.R. (56) 263)

**Opsin**

Circadian photoreception; CSF-contacting neurons; Extraretinal photoreception; Retinal degeneration (Argamaso, S.M. (56) 3)

**Optical processing**

Bacteriorhodopsin (Wolperding, M. (56) 189)

**Optical transient spectroscopy**

Bacteriorhodopsin; Parallel photocycles (Eisfeld, W. (56) 105)

**Orientation**

Purple membrane; Photoselection; Charge displacements (Dér, A. (56) 159)

**Parallel photocycles**

Bacteriorhodopsin; Optical transient spectroscopy (Eisfeld, W. (56) 105)

**Peptides**

Fluorescence; Anisotropy; One-photon excitation; Two-photon excitation; Anisotropy spectra; Tyrosine; Tryptophan; Proteins (Lakowicz, J.R. (56) 263)

**Phase diagram**

Phospholipid mixture; Mixing behavior; Headgroup interaction; Differential scanning calorimetry (Nibu, Y. (56) 273)

**Phospholipid mixture**

Phase diagram; Mixing behavior; Headgroup interaction; Differential scanning calorimetry (Nibu, Y. (56) 273)

**Photoacoustic diagnostics**

Photoinduced volume changes; Relaxation kinetics; Inverse problem; Regularization algorithm; Numerical simulation (Puchenkov, O.V. (56) 241)

**Photoaffinity labeling**

Rhodopsin; Bacteriorhodopsin; Rhodopsin (chromophore location); Locked retinal analog; Side-chain methyls (Nakanishi, K. (56) 13)

**Photobleaching**

Chicken iodopsin; Rhodopsin (Yoshizawa, T. (56) 57)

**Photocycle**

Bacteriorhodopsin; Proton transport; Cooperativity; Purple membrane; *Halobacterium halobium* (Komrakov, A.Yu. (56) 113)

**Photoinduced volume changes**

Photoacoustic diagnostics; Relaxation kinetics; Inverse problem; Regularization algorithm; Numerical simulation (Puchenkov, O.V. (56) 241)

**Photolysis**

Bovine rhodopsin; Mutagenesis; Recombinant baculovirus; Biosynthesis; FT-IR spectroscopy (DeCaluwé, G.L.J. (56) 79)

**Photoselection**

Purple membrane; Orientation; Charge displacements (Dér, A. (56) 159)

**Phototransduction**

Rhodopsin; Rhodopsin kinase; Rod outer segment (Zhao, X. (56) 183)

**Picosecond spectroscopy**

Rhodopsin; Raman; Vision; Coherent spectroscopy (Popp, A. (56) 129)

**Polyacrylamide gel electrophoresis**

Benzo[*a*]pyrene; BPDE adducts; Fluorescence spectroscopy (Suh, M. (56) 281)

**Polymerization process**

Actin; Specific antibodies (Houmeida, A. (56) 201)

**Protein conformation**

Bacteriorhodopsin; Transport mechanism; X-ray diffraction; Schiff base proton (Lanyi, J.K. (56) 143)

**Protein conformational change**

Spin labeling; Bacteriorhodopsin photocycle; Electron paramagnetic resonance spectroscopy (Steinhoff, H.-J. (56) 89)

**Proteins**

Fluorescence; Anisotropy; One-photon excitation; Two-photon excitation; Anisotropy spectra; Tyrosine; Tryptophan; Peptides (Lakowicz, J.R. (56) 263)

**Proton pump**

Bacteriorhodopsin; Intermediates; Electrostatic; Molecular dynamics simulation; Titration (Engels, M. (56) 95)

Sensory rhodopsin I; Transducer; HtrI; Bacteriorhodopsin (Spudich, J.L. (56) 165)

**Proton transfer**

Chloride transport; Aspartic acid (Mitrovich, Q.M. (56) 121)

Fourier-transform-infrared; G protein activation; Mutagenesis; Secondary structure; Visual pigment (Fahmy, K. (56) 171)

**Proton transport**

Bacteriorhodopsin; Photocycle; Cooperativity; Purple membrane; *Halobacterium halobium* (Komrakov, A.Yu. (56) 113)

**Purple membrane**

Bacteriorhodopsin; Photocycle; Proton transport; Cooperativity; *Halobacterium halobium* (Komrakov, A.Yu. (56) 113)

Orientation; Photoselection; Charge displacements (Dér, A. (56) 159)

**Raman**

Rhodopsin; Vision; Picosecond spectroscopy; Coherent spectroscopy (Popp, A. (56) 129)

**Random walk**

Monte Carlo simulation; Diffusion controlled reactions; Lipid bilayer; Monolayers; Unilamellar vesicles (Bergling, S. (56) 227)

**Recombinant baculovirus**

Bovine rhodopsin; Mutagenesis; Biosynthesis; Photolysis; FT-IR spectroscopy (DeCaluwé, G.L.J. (56) 79)

**Regularization algorithm**

Photoacoustic diagnostics; Photoinduced volume changes; Relaxation kinetics; Inverse problem; Numerical simulation (Puchenkov, O.V. (56) 241)

**Relaxation kinetics**

Photoacoustic diagnostics; Photoinduced volume changes; Inverse problem; Regularization algorithm; Numerical simulation (Puchenkov, O.V. (56) 241)

**Retinal**

Rhodopsin; Solid-state NMR; Molecular orbital calculation; Vision (Han, M. (56) 23)

Bacteriorhodopsin; Electron microscopy; Solid state NMR; Deuterium; Membrane protein structure (Watts, A. (56) 41)

BLM; Vectorial catalysis; Ion pump; Schiff base (Tittor, J. (56) 153)

#### **Retinal conformers**

Vibrational spectra; Bacteriorhodopsin (Mathies, R.A. (56) 47)

#### **Retinal degeneration**

Circadian photoreception; CSF-contacting neurons; Extraretinal photoreception; Opsin (Argamaso, S.M. (56) 3)

#### **Retinal protein**

Halorhodopsin; Anion pump; Halobacteria; Bacteriorhodopsin (Otomo, J. (56) 137)

#### **Retinochrome analogues**

14-Substituted retinals; Non-protonated Schiff base; Counterion; Electronegativity; Rhodopsin; Bacteriorhodopsin (Sekiya, N. (56) 31)

#### **Rhodopsin**

Bacteriorhodopsin; Photoaffinity labeling; Rhodopsin (chromophore location); Locked retinal analog; Side-chain methyls (Nakanishi, K. (56) 13)

Solid-state NMR; Molecular orbital calculation; Vision; Retinal (Han, M. (56) 23)

Retinochrome analogues; 14-Substituted retinals; Non-protonated Schiff base; Counterion; Electronegativity; Bacteriorhodopsin (Sekiya, N. (56) 31)

Photobleaching; Chicken iodopsin (Yoshizawa, T. (56) 57)

Hydrogen out-of-plane vibration; FT-IR spectroscopy; Lumirhodopsin; Metarhodopsin I; Deuterated retinals (Ohkita, Y.J. (56) 71)

Raman; Vision; Picosecond spectroscopy; Coherent spectroscopy (Popp, A. (56) 129)

Rhodopsin kinase; Phototransduction; Rod outer segment (Zhao, X. (56) 183)

Eubacteria (Hoff, W.D. (56) 193)

#### **Rhodopsin (chromophore location)**

Rhodopsin; Bacteriorhodopsin; Photoaffinity labeling; Locked retinal analog; Side-chain methyls (Nakanishi, K. (56) 13)

#### **Rhodopsin kinase**

Rhodopsin; Phototransduction; Rod outer segment (Zhao, X. (56) 183)

#### **Rod outer segment**

Rhodopsin; Rhodopsin kinase; Phototransduction (Zhao, X. (56) 183)

#### **Schiff base**

BLM; Retinal; Vectorial catalysis; Ion pump (Tittor, J. (56) 153)

#### **Schiff base proton**

Bacteriorhodopsin; Transport mechanism; X-ray diffraction; Protein conformation (Lanyi, J.K. (56) 143)

#### **Secondary structure**

Fourier-transform-infrared; G protein activation; Mutagenesis; Proton transfer; Visual pigment (Fahmy, K. (56) 171)

#### **Sensory rhodopsin I**

Proton pump; Transducer; HtrI; Bacteriorhodopsin (Spudich, J.L. (56) 165)

#### **Side-chain methyls**

Rhodopsin; Bacteriorhodopsin; Photoaffinity labeling; Rhodopsin (chromophore location); Locked retinal analog (Nakanishi, K. (56) 13)

#### **Solid-state NMR**

Rhodopsin; Molecular orbital calculation; Vision; Retinal (Han, M. (56) 23)

Bacteriorhodopsin; Electron microscopy; Deuterium; Retinal; Membrane protein structure (Watts, A. (56) 41)

#### **Specific antibodies**

Actin; Polymerization process (Houmeida, A. (56) 201)

#### **Spin labeling**

Bacteriorhodopsin photocycle; Protein conformational change; Electron paramagnetic resonance spectroscopy (Steinhoff, H.-J. (56) 89)

#### **14-Substituted retinals**

Retinochrome analogues; Non-protonated Schiff base; Counterion; Electronegativity; Rhodopsin; Bacteriorhodopsin (Sekiya, N. (56) 31)

#### **Titration**

Bacteriorhodopsin; Intermediates; Electrostatic; Molecular dynamics simulation; Proton pump (Engels, M. (56) 95)

#### **Transducer**

Sensory rhodopsin I; Proton pump; HtrI; Bacteriorhodopsin (Spudich, J.L. (56) 165)

#### **Transport mechanism**

Bacteriorhodopsin; X-ray diffraction; Schiff base proton; Protein conformation (Lanyi, J.K. (56) 143)

#### **Tryptophan**

Fluorescence; Anisotropy; One-photon excitation; Two-photon excitation; Anisotropy spectra; Tyrosine; Peptides; Proteins (Lakowicz, J.R. (56) 263)

**Two-photon excitation**

Fluorescence; Anisotropy; One-photon excitation; Anisotropy spectra; Tyrosine; Tryptophan; Peptides; Proteins (Lakowicz, J.R. (56) 263)

**Tyrosine**

Isotope labeling; FT-IR spectroscopy; Bacteriorhodopsin; Cell-free protein synthesis; M intermediate (Liu, X.-M. (56) 63)

Fluorescence; Anisotropy; One-photon excitation; Two-photon excitation; Anisotropy spectra; Tryptophan; Peptides; Proteins (Lakowicz, J.R. (56) 263)

**Unilamellar vesicles**

Random walk; Monte Carlo simulation; Diffusion controlled reactions; Lipid bilayer; Monolayers (Bergling, S. (56) 227)

**Vectorial catalysis**

BLM; Retinal; Ion pump; Schiff base (Tittor, J. (56) 153)

**Vibrational spectra**

Retinal conformers; Bacteriorhodopsin (Mathies, R.A. (56) 47)

**Vision**

Rhodopsin; Solid-state NMR; Molecular orbital calculation; Retinal (Han, M. (56) 23)

Rhodopsin; Raman; Picosecond spectroscopy; Coherent spectroscopy (Popp, A. (56) 129)

**Visual pigment**

Fourier-transform-infrared; G protein activation; Mutagenesis; Proton transfer; Secondary structure (Fahmy, K. (56) 171)

**X-ray diffraction**

Bacteriorhodopsin; Transport mechanism; Schiff base proton; Protein conformation (Lanyi, J.K. (56) 143)
