

Author Index to Volume 70

- Alberty, R.A.
Change in the binding of hydrogen ions and magnesium ions in the hydrolysis of ATP (70) 109
- Arikainen, N., see Kasyanenko, N. (70) 93
- Behlke, J. and Ristau, O.
An improved approximate solution of the Lamm equation for the simultaneous estimation of sedimentation and diffusion coefficients from sedimentation velocity experiments (70) 133
- Bera, S. and Ghosh, S.K.
Interaction of H⁺-ions with α -crystallin: solvent accessibility of ionizable side chains and surface charge (70) 147
- Bevering, C.J., Radke, C.J. and Blanch, H.W.
Adsorption dynamics of L-glutamic acid copolymers at a heptane/water interface (70) 121
- Britt, B.M., see Castro, C. (70) 87
- Brooks, B.R., see Lee, Y.S. (70) 203
- Bucci, E., see Ji, X. (70) 21
- Burlakova, A.A., see Lyubarev, A.E. (70) 247
- Byrne, C.D. and De Mello, A.J.
Photophysics of ethidium bromide complexed to ct-DNA: a maximum entropy study (70) 173
- Caiolfa, V.R., Gill, D. and Parola, A.H.
Probing the active site of adenosine deaminase by a pH responsive fluorescent competitive inhibitor (70) 41
- Castro, C. and Britt, B.M.
Evidence for a low temperature transition state binding preference in bovine adenosine deaminase (70) 87
- Chidichimo, G., see La Rosa, C. (70) 11
- Cho, T.-S., see Yun, B.H. (70) 1
- Costas, M., see Mancera, R.L. (70) 57
- Cullen, W.R., see Males, R.G. (70) 75
- De Mello, A.J., see Byrne, C.D. (70) 173
- Denny, R.C., see Pope, L.H. (70) 161
- Forsyth, T., see Pope, L.H. (70) 161
- Frisman, E., see Kasyanenko, N. (70) 93
- Fronticelli, C., see Ji, X. (70) 21
- Fuller, W., see Pope, L.H. (70) 161
- Gaber, M.H., Ghannam, M.M., Ali, S.A. and Khalil, W.A.
Interaction of Doxorubicin with phospholipid monolayer and liposomes (70) 223
- Ghosh, S.K., see Bera, S. (70) 147
- Gill, D., see Caiolfa, V.R. (70) 41
- Gilliland, G.L., see Ji, X. (70) 21
- Golemme, A., see La Rosa, C. (70) 11
- Grasso, D., see La Rosa, C. (70) 11
- Grieve, S.M., see Torres, A.M. (70) 231
- Gutheil, W.G.
Statistical analysis of data pertaining to complex state systems by stepwise regression with reformulated parameters; Application to spectroscopically monitored hemoglobin oxygen binding data (70) 185
- Hatori, K., Honda, H., Shimada, K. and Matsuno, K.
Staggered movement of an actin filament sliding on myosin molecules in the presence of ATP (70) 241
- Herring, F.G., see Males, R.G. (70) 75
- Hodoscek, M., see Lee, Y.S. (70) 203
- Honda, H., see Hatori, K. (70) 241
- Hughes, D.J., see Pope, L.H. (70) 161
- Jeon, S.H., see Yun, B.H. (70) 1
- Ji, X., Karavitis, M., Razynska, A., Kwansa, H., Vásquez, G., Fronticelli, C., Bucci, E. and Gilliland, G.L.
 α -Subunit oxidation in T-state crystals of a sebacyl cross-linked human hemoglobin with unusual autoxidation properties (70) 21
- Karavitis, M., see Ji, X. (70) 21
- Kasyanenko, N., Arikainen, N. and Frisman, E.
Investigation of DNA complexes with iron ions in solution (70) 93
- Kim, S.K., see Yun, B.H. (70) 1
- Kronberg, B., see Mancera, R.L. (70) 57
- Kuchel, P.W., see Torres, A.M. (70) 231
- Kurganov, B.I., see Lyubarev, A.E. (70) 247
- Kwansa, H., see Ji, X. (70) 21
- La Rosa, C., Grasso, D., Checchetti, A., Golemme, A., Chidichimo, G. and Westerman, P.
Anomalous phase transition in dipalmitoylphosphatidyl-ethanolamine/palmitoylphosphatidylcho line/water system (70) 11
- Lee, Y.S., Hodoscek, M., Brooks, B.R. and Kador, P.F.
Catalytic mechanism of aldose reductase studied by the combined potentials of quantum mechanics and molecular mechanics (70) 203

- Lyubarev, A.E., Kurganov, B.I., Burlakova, A.A. and Orlov, V.N.
Irreversible thermal denaturation of uridine phosphorylase from
Escherichia coli K-12 (70) 247
- Males, R.G., Nelson, J.C., Phillips, P.S., Cullen, W.R. and Herring, F.G.
Vesicular membrane permeability of monomethylarsonic and dimethylarsinic acids (70) 75
- Males, R.G., Phillips, P.S. and Herring, F.G.
Equations describing passive transport through vesicular membranes (70) 65
- Mancera, R.L., Kronberg, B., Costas, M. and Silveston, R.
Thermodynamics of the hydration of non-polar substances (70) 57
- Mattevi, A.
The PHBH fold: Not only flavoenzymes (70) 217
- Orlov, V.N., see Lyubarev, A.E. (70) 247
- Parola, A.H., see Caiolfa, V.R. (70) 41
- Phillips, P.S., see Males, R.G. (70) 65
- Phillips, P.S., see Males, R.G. (70) 75
- Pope, L.H., Shotton, M.W., Forsyth, T., Hughes, D.J., Denny, R.C. and Fuller, W.
Structural polymorphism in a tubercidin analogue of the DNA double helix (70) 161
- Quiocho, F.A., see Thomson, J. (70) 101
- Radke, C.J., see Beverung, C.J. (70) 121
- Razynska, A., see Ji, X. (70) 21
- Ristau, O., see Behlke, J. (70) 133
- Sehlistedt, U., see Yun, B.H. (70) 1
- Shimada, K., see Hatori, K. (70) 241
- Shotton, M.W., see Pope, L.H. (70) 161
- Silveston, R., see Mancera, R.L. (70) 57
- Sturtevant, J.M., see Thomson, J. (70) 101
- Thomson, J., Liu, Y., Sturtevant, J.M. and Quiocho, F.A.
A thermodynamic study of the binding of linear and cyclic oligosaccharides to the maltodextrin-binding protein of *Escherichia coli* (70) 101
- Torres, A.M., Grieve, S.M. and Kuchel, P.W.
NMR triple-quantum filtered relaxation analysis of ^{17}O -water in insulin solutions: an insight into the aggregation of insulin and the properties of its bound water (70) 231
- Westerman, P., see La Rosa, C. (70) 11
- Yi, S.Y., see Yun, B.H. (70) 1
- Yu, Z.-W. and Quinn, P.J.
Solvation effects of dimethyl sulfoxide on the structure of phospholipid bilayers (70) 35
- Yun, B.H., Jeon, S.H., Cho, T.-S., Yi, S.Y., Sehlistedt, U. and Kim, S.K.
Binding mode of porphyrins to poly[d(A-T)₂] and poly[d(G-C)₂] (70) 1
