

Erratum: Cell Cycle Kinetics and Radiation-Induced Chromosomal Aberrations Studied with C¹⁴ and H³ Labels

Dear Sir:

I wish to call attention to an error in the printing of our manuscript which appeared in Volume 6, pages 247-260 of the May 1966 issue of *Biophysical Journal*. A copy of Fig. 4 was mistakenly substituted for Fig. 5 on page 254 after we had returned the corrected proof to the editorial office. The figure which appears below should replace the one on page 254. The legends for Fig. 4 and Fig. 5 are correct as originally printed.
