

*Correction*

Ehrlich, Lorna S., Tianbo Liu, Suzanne Scarlata, Benjamin Chu, and Carol A. Carter. 2001. *Biophys. J.* 81:586–594.

On p. 592, column 1, line 33, the phrase “. . . an increase in dissociation . . .” should read “. . . a decrease in dissociation . . .”

Also, Figs. 3 and 5 were transposed. The correct Figures and legends are printed below:

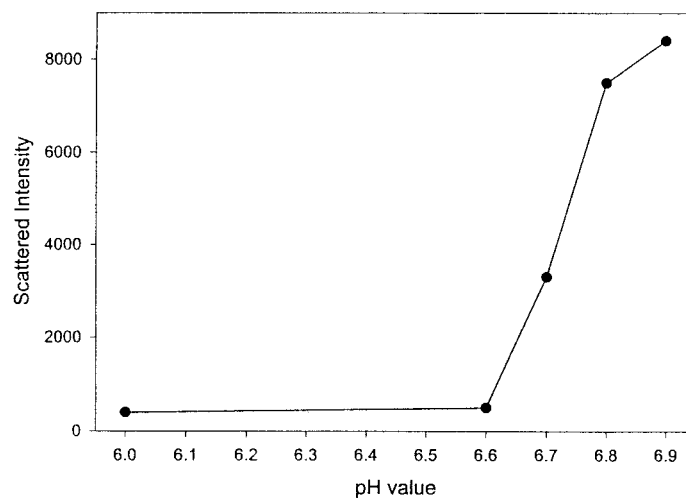

FIGURE 3 pH dependence of total scattered intensity of a 0.5 mg/ml CA protein solution, measured at 90° scattering angle.

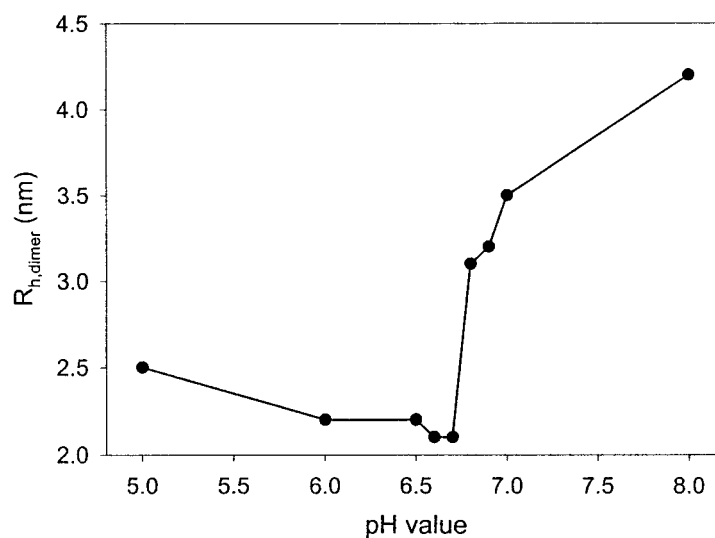

FIGURE 5 Apparent hydrodynamic radius ( $R_h$ ) of CA dimers at different pH values, measured by DLS at 90° scattering angle.
