BOUDOIR INSPIRATION

1. What does boudoir/glamours photography mean to you?

Is like the idea of being perceived as an untouchable person that you can only see and not touch; I like the thought of being admired by others and take their attention.

2. When and why did you choose to pursue a career as a model?

I feel like I've always been good at pursuing this career, since I was younger, I wanted to being able to entertain someone with your gaze and body movements without saying a word.

3. Can you describe a typical day in the life as a full time / part time model (whichever applies)?

I travel a lot, I'm always on the train and I really enjoy being able to always see different people and different places.

4. Where do you live and how is life there as a model?

I am currently leaving in Venice where I can carry on my study together with the modeling activities. However most of the modeling time is spent around Italian main places.

5. Where do you shop for boudoir and what do you buy?

I really enjoy vintage shops because the clothes are unique and classics.

6. What is the greatest challenge you have faced as a boudoir model?

Probably the fact that I have to trust the photographer, I can say that I've worked with different photographers, and I have seen some really nice and helpful in making me comfortable and some quite rude and "nasty."

7. What steps have you been taking to develop as a model?

I really had to go out of my comfort zone, I was a very shy girl once, but with these opportunities I can say that I'm becoming more confident and more secure of myself.

Model: Selene222r @selene222r

8. What is the most rewarding part of modelling for you?

Probably being able to express myself to others and keep up with my creative side

9. What are the advantages and disadvantages of being a freelance model ?

Freelance on one hand may be a bit more risky as you never know with what kind of photographer you are going to shoot and in a sense you are less "secure", on the other hand you can organize your own time and space as you like and this really help me to be more independent

10. From this set, which photo is your favorite? Why?

it's an head to head between the one with the red fabric and the one in the mirror with old gramophone. Reason is that one pretty simple and clean and the other is recalling vintage atmosphere that I love.

11. What do you like to do outside of modelling?

I'm student and I love fashion and everything that come with it so I'm always informing myself about this fashion world

12. Do you have any advice for people looking to get into modelling?

to be always motivated and don't put yourself down in front at the first inconvenience.

14. Finally, what does your ideal future look like in modelling and where is the best place for people to contact you?

I would love to being a full-time model and put all my effort and dedication on this passion of mine. You can contact me directly on my email [righanna04@gmail.com](mailto:righanna04@gmail.com) or on my IG shooting account: [@selene222r](https://www.instagram.com/selene222r)
