

Edited for the British Pharmacological Society by

W. D. M. Paton (*Chairman*) H. M. Adam (*Secretary*)
Margaret Day (*Press Editor*)
J. D. Stephenson (*Assistant Press Editor*)

R. B. Barlow	J. Maddox (co-opted)
J. M. Barnes	J. F. Mitchell
J. W. Black	P. A. Nasmyth
W. C. Bowman	M. W. Parkes
P. B. Bradley	Mary Pickford
A. W. Cuthbert	H. P. Rang
C. T. Dollery	H. O. Schild
W. S. Feldberg	D. F. Sharman
D. F. Hawkins	A. P. Silverman
F. Hobbiger	M. A. Simmonds
Margarethe Holzbauer	A. D. Smith (co-opted)
D. B. Hope	F. M. Sullivan
H. W. Kosterlitz	A. Ungar
G. P. Lewis	J. R. Vane

Editorial assistance is provided by the staff of Nature

Papers will be considered for publication on all aspects of drug action, including chemotherapy.

Manuscripts (two copies) should be sent to Dr. H. M. Adam, Department of Pharmacology, University of Edinburgh Medical School, 1 George Square, Edinburgh EH8 9JZ. Authors should consult the suggestions inside the back cover.

Subscriptions. Three volumes of the journal are published annually, each volume containing four numbers. The annual subscription rate is £26.50 in the United Kingdom and the rest of the world; £32.00 U.S.A. and Canada. Subscriptions should be sent to: Subscriptions Department, Macmillan Journals Ltd., Brunel Road, Basingstoke, Hampshire, England. Alternatively, the journal can be ordered through a subscription agent or bookseller.

Advertisements: Applications for advertising space and rates should be sent to: Advertisement Department, *British Journal of Pharmacology*, Macmillan Journals Ltd., 4 Little Essex Street, London, WC2R 3LF, England. Tel: 01-836 6633.

SUBJECT INDEX

A

- (±) - 1 - (2 - acetyl - 4 - n - butyramido - phenoxy) - 2-hydroxy-3-isopropylaminopropane hydrochloride (M&B 17,803A), β -adrenoceptor blocking properties and cardioselectivity of, 198
- Acetylcholine**, effects of microiontophoretic applications of, on spontaneously active brain stem neurones, 212
- , release from the rabbit isolated superior cervical ganglion preparation, 225
- , concentration in rat brain increased by prostaglandin E₁, 80
- , effect of morphine on contractile response of longitudinal muscle induced by, 655
- , effects of on the dog heart *in vivo*, 612
- , effect of angiotensin on intestinal smooth muscle response to, 288
- , further studies on the interaction between anticholinesterases and on cat soleus muscle, 361P
- , response of the rat ileum, uterus and vas deferens to, following repeated daily administration of a cholinesterase inhibitor, 418
- Acetylcholine chloride**, action of on denervated salivary myoepithelium, 73
- Acetylcholine release**, does stimulation of Na⁺-K⁺Mg²⁺-activated ATP-ase inhibit? 346P
- Acetylsalicylic acid**, effect on inflammation in the rat's paw, 88
- Acrylic bone cement**, effect of, on the circulation in the rabbit, 330P
- ¹⁴C-labelled adenine nucleotides, rate of production measured, 505
- Adenosine**, effects of desensitization to, and nerve-mediated inhibition of mechanical activity in duodenum, 302
- Adenosine diphosphate**, effect of on mechanical activity in rabbit duodenum, 302
- Adenosine monophosphate**, effect of on mechanical activity in rabbit duodenum, 302
- Adenosine triphosphate**, effect on calcium in tissues, 496
- , effect of on mechanical activity in rabbit duodenum, 302
- Adenyl cyclase**, related to other ATP utilizing enzymes in the brain, 505
- Adrenaline**, prolongation of functional refractory period in rabbit atrium, 132
- , a pro-inflammatory effect of, in thermal injury, 335P
- , effect of morphine on depressant effect of on longitudinal muscle, 655
- , effect on cyclic AMP accumulation, 516
- Adrenaline bitartrate**, action of on denervated salivary myoepithelium, 73
- (±)-adrenaline bitartrate, effect of on acetylcholine in isolated superior cervical ganglion, 225
- Adrenergic neurone**, some characteristics of the, blocking action of dehydroemetine, 314
- α -adrenoceptors, characterization of in the myocardium, 132
- , effect of cocaine on affinity of for nor-adrenaline, 139
- β -adrenoceptor, blocking properties and cardioselectivity of M&B 17,803A, 198
- , some observations on the β -adrenoceptor agonist properties of the isomers of salbutamol, 144
- β -adrenoceptor antagonists, further studies regarding the structure activity relationships of, 686
- β -adrenoceptor blockade, detection of differential, in the cat, 676
- Adrenoceptive blocking drug**, a new type of cardioselective, 340P
- β -alanine, effect of strychnine on in cuneo-thalamic relay cells, 387
- Aldehyde dehydrogenase activity**, in the striatum of rats after 6-hydroxydopamine lesion of the nigrostriatal pathway, 175
- Allopurinol**, influence of on drug metabolism in man, 693
- Amiloride**, kinetics and bioavailability of two formulations of, 646
- Amines**, biogenic, *in vivo* changes in the concentration of cerebral cyclic AMP, phosphorylase *a* and glycogen induced by, 353P
- , sympathomimetic, prolongation of functional refractory period in rabbit left atrium mediated by α -adrenoceptors, 132
- γ -aminobutyric acid, effect of penicillin on increase in membrane conductance induced by, 318
- , effect of strychnine on in the cuneo-thalamic relay cells, 387
- γ -aminobutyric acid antagonists, a method for comparing the potencies of, on single cortical neurones using micro-iontophoretic techniques, 1
- γ -aminobutyric acid receptors, pharmacology of on the cuneo-thalamic relay cells of the cat, 369
- ¹⁴C-aminobutyric acid, GABA and ³H-dopamine in the rabbit retina, 355P
- Aminophylline**, influence on plasma and brain tryptophan, 352P
- Aminophylline-dextran solution**, possible mechanisms of action of, when used in conjunction with endotoxin administration, 555
- Anaphylactic histamine secretion**, acted on by lanthanum and manganese, 527
- Anaphylaxis**, acute systemic, in the horse, 426
- , induced in isolated guinea-pig hearts by burimamide, 620
- , in the guinea-pig isolated heart, 620
- Angiotensin**, effect on blood pressure of pithed toads, 456
- Angiotensin II**, potentiation by, of noradrenaline-induced contractions of a rabbit isolated thoracic aorta, 338P
- 4-ala-angiotensin**, compared in potency with angiotensin, 288
- 6-ala-angiotensin**, compared in potency with angiotensin, 288
- 7-ala-angiotensin**, compared in potency with ^{ATII}, 288
- Angiotensin agonists**, substitution of 4-Tyr, 6-His or 7-Pro with L-Ala or with Gly and 1-amino-cyclopentane carboxylic acid, in analogues of angiotensin, 288
- Angiotensin receptors**, characterization of, in vascular and intestinal smooth muscles, 288
- Anticholinesterases**, further studies on the interaction between acetylcholine antagonists and on cat soleus muscle, 361P
- Anti-inflammatory drugs**, effect on the binding of calcium to cellular membranes in tissues, 496
- Arthus reaction**, biochemical and cellular changes in the, 333P
- Arylaminooureas**, predictions of the antimalarial activity of, 650

- Ascorbic acid**, mobilization of, by fenfluramine, 326P
- Aspirin**, effect of on bolus injection of endotoxin in cats, 555
- , some observations on blood level data following oral administration of, as tablets and capsules, 336P
- Atropine**, effect of, on contractions caused by 5,6-dihydroxytryptamine in isolated preparations, 245
- , attenuation of adrenergic cardiovascular responses by acetylcholine prevented by, 612
- , sensitivity of transmission and facilitation in the rabbit superior cervical ganglion, 349P
- Atropine sulphate**, action of on denervated salivary myoepithelium, 73
- , failure to alter prostaglandin E_1 -induced sedation in rat brain, 80
- Atropine+hexamethonium**, and renin release from the ischaemic kidney, 97
- B**
- Barbiturates**, effect of, on neuromuscular transmission, 48
- Benadryl**, effect on inflammation in rat's paw, 88
- Benzilycholine**, interaction of benzilycholine mustard, benzilylcholine and lachesine with the histamine receptor in the longitudinal muscle of guinea-pig, 148
- Benzilycholine mustard**, interaction of and benzilylcholine and lachesine with the histamine receptor in the longitudinal muscle of guinea-pig ileum, 148
- Bethanechol**, as stimulant of gastric acid secretion, 550
- Bicuculline**, as blocker of depressant action of γ -aminobutyric acid, 369
- Bicuculline**, effect of on synaptic inhibition of cuneate relay neurones, 396
- , comparison of potencies of, on single cortical neurones using micro-iontophoretic techniques, 1
- ^{14}C -bishydroxycoumarin**, effect of salicylate on the biliary excretion of, 278
- Bombesin**, the action of on the kidney, 438
- Bradykinin**, effects of in the horse, 426
- , synthetic, competitive inhibition of, by cryogenine, chlorpromazine, and flufenamic acid, and non-competitive antagonism by indomethacin and tetraabenazine, 255
- Burimamide**, antagonism by of inhibitions induced by histamine in plexus-containing longitudinal muscle preparations from guinea-pig ileum, 362P
- , the action of, histamine H_2 -receptors in the sheep bronchus and cat trachea, 321
- , selective inhibition by of the positive inotropic and chronotropic effects of released histamine, 620
- 1 - t - butylamino - 3 - (methoxyphenoxy) - 2 - propanol**, testing of ortho (M66,527) and para (M66,368) analogues of, in dogs for β -adrenoceptor blocking activity, 686
- Butylphenoxy-1-N-isopropylamine-3 propanol-2 oxalate acid (L8429)**, testing of para substituted tertiary, in dogs for β -adrenoceptor blocking activity, 686
- C**
- Caffeine**, twitch enhancement effects compared with quazodine and theophylline, 409
- Calcium carbaspirin**, effect of, on rat paw thermal oedema, 255
- Capillary filtration coefficient**, the actions of histamine on, 332P
- Carbachol**, response of the rat ileum, uterus and vas deferens to, following repeated daily administration of a cholinesterase inhibitor, 418
- Carrageenin**, pharmacological analysis of the acute inflammatory process induced in the rat's paw by local injection of, 88
- Cigarette smoking**, stimulant and depressant effects of on brain activity in man, 517
- Chlordiazepoxide**, influence of on social interaction of golden hamsters, 538
- p-chlorophenylalanine**, blocking of behavioural effects of prostaglandin E_1 in rat brain, 80
- , effect of on hypothermic response to ketamine, 570
- , inhibitor of pethidine or imipramine induced hyperthermia in pargyline pretreated rabbits, 12
- Chlorpromazine**, effect of pre- and neonatal administration on noradrenaline metabolism, 364P
- Cholesterol**, mobilization of, by fenfluramine, 326P
- Cholinesterase inhibitors**, resulting in sub-sensitivity to cholinergic agents, 418
- Cholpromazine**, competitive inhibitor of synthetic bradykinin, 255
- Chronotropic effect**, in isolated atria, 464
- Clomiphene**, anti-oestrogenic activity in compounds related to, 345P
- Cocaine**, effect of on the affinity of α -adrenoceptors for noradrenaline, 139
- , effects of on response of isolated cat spleen to noradrenaline and (—)-isoprenaline, 667
- , effect of, on nerve stimulation, 36
- , and the adrenergic neurone blocking action of dehydroemetine, 314
- Cocaine hydrochloride**, action of on denervated salivary myoepithelium, 73
- Co-operativity**, in receptor mechanisms, 475
- Cortical neurones**, a method for comparing potencies of γ -aminobutyric acid antagonists on, using micro-iontophoretic techniques, 1
- Cryogenine**, evaluation of, on rat paw thermal oedema and rat isolated uterus, 255
- Cuneo-thalamic relay cells**, pharmacology of glycine receptors on, 387
- , pharmacology of the γ -aminobutyric acid receptors on, 369
- , the pharmacology of ascending, descending and recurrent post-synaptic inhibition on, 396
- Cyclic AMP**, accumulation in brain by NaF, 505
- , accumulation in brain by adrenaline, ouabain and Mn^{++} , 516
- , dibutylryl, as stimulant of gastric acid secretion, 550
- , cerebral, *in vivo* changes in the concentration induced by biogenic amines, 353P
- 5-(2-cyclohexylidenethyl)-5-ethyl barbituric acid (CHEB)**, effect of, on neuromuscular transmission, 48
- Cyclopentolate**, in treatment of sarin miosis, 309
- Cyclophosphamide**, a new approach for studying the influence of, upon the rejection of rabbit skin homografts, 334P
- Cyproheptadine**, effect of, on water and food intake and on body weight in the fasted adult and weanling rat, 328P
- , effect on feeding behaviour in albino rats, 553

D

- Dansyl technique**, application of to an investigation into the identity of the primary sensory transmitter in the spinal cord, 356P
- DBH**, effects of vinblastine on in heart, sympathetic ganglion and adrenal glands of rat, 106
- DEDTC**, effect on hypothermic effect of ketamine, 570
- Dehydroemetine**, some characteristics of the adrenergic neurone blocking action of, 314
- Desensitization**, as a result of agonist drug, 475
- Desipramine**, comparison of the effects of imipramine and on single cortical neurones, 358P
- Desipramine level**, in isolated atria, 464
- Desmethylinipramine**, effect of pretreatment with on dog hearts infused *in vivo* with nicotine and acetylcholine, 612
- Dextrorphan**, lethality of, 718
- 5,6-diacetoxtryptamine**, and 5-hydroxytryptamine-like actions of 5,6-dihydroxytryptamine, 245
- α' -[4 - (β - diethylaminoethoxy) - 3,5 - xylyl] - 4 - methoxystilbene (P781), anti-oestrogenic activity of, and of the α -bromo and di-hydro-derivatives of, 345P
- α - [4 - (β - diethylaminoethoxy) - 3,4 - xylyl] - α - phenyl- β -4-methoxyphenylethanol (P642), anti-oestrogenic activity of, 345P
- Diethyldithiocarbamate**, effect on the concentration of glycogen in the brain, 19
- Dihydroergotamine**, studies of mechanism of action of, on the vascular bed of cat skeletal muscle, 331P
- Dihydroergotamine methansulphonate**, action of on denervated salivary myoepithelium, 73
- Dihydroxyindole fluorimetric assay**, the determination of dopamine by a modification of the, 699
- 5,6-dihydroxytryptamine**, 5-hydroxytryptamine-like actions of, 245
- Diphenhydramine**, and renin release from the ischaemic kidney, 97
- 2,3-diphosphoglycerate**, a working model of the haemoglobin molecule as a receptor for, 363P
- DOPA**, effect of on histamine concentrations in the brain and hypophysis of rabbit, 577
- Dopamine**, determination of, by a modification of the dihydroxyindole fluorimetric assay, 699
- , effect of morphine on depressant effect of, on longitudinal muscle, 655
- , prolongation of functional refractory period in rabbit atrium, 132
- Dopamine- β -hydroxylase**, effects of vinblastine on, in heart, sympathetic ganglion and adrenal glands of rat, 106
- ³H-dopamine, subcellular distribution of in the rabbit retina, 355P
- Doxapram**, modification of the analgesic action of pethidine and morphine by, 326P
- Drug metabolism**, influence of allopurinol on, in man, 693

E

- Endotoxin**, further observations of mesenteric vasoconstriction following administration of, 555
- Enzymes**, catecholamine-biosynthetic, effects of vinblastine on, 106
- Epinephrine**, prolongations of functional refractory period in rabbit atrium, 132
- Ethanol dependence**, evidence of a role for brain monoamines, 354P

- Ethanoxytriphetol (MER 25)**, anti-oestrogenic activity in compounds related to, 345P
- Ethylene glycol dinitrate**, effect on formation of methaemoglobin, 162
- Extracerebral decarboxylase**, inhibition of, blocking levodopa sustained pressor response after inhibition of monoamine oxidase, 194

F

- Fenfluramine**, ascorbic acid and cholesterol mobilization by, 326P
- Flufenamic acid**, competitive inhibitor of synthetic bradykinin, 255
- Fluorinated decahydroquinoline derivative**, L7810, effects on cardiac muscle and nerve, rapidly absorbed after oral administration, 183
- Fluoride ion**, effects on ADP, ATP, and PDE, 505
- Folic acid**, some studies of the convulsant action of, 350P

G

- GABA**, the subcellular distribution of in the rabbit retina, 355P
- Gallamine**, passage of from blood into the liquor space in man and in dog, 640
- Gastric acid**, enhancement by propranolol of, secretion in response to pentagastrin, 431P
- Glibenclamide**, the effect of, on two enzymes important in gluconeogenesis, 327P
- Gluconeogenesis**, effect of glibenclamide on two enzymes important in, 327P
- Glucose-6-phosphatase**, effect of glibenclamide on, 327P
- Glutamate**, additional evidence for its role as the sensory transmitter in the spinal cord, 356P
- 8-Gly-angiotensin**, and angiotensin receptors in intestinal smooth muscle, 288
- Glyceryl trinitrate**, and methaemoglobin formation, 162
- Glycine receptors**, pharmacology of on the cuneo-thalamic relay cells of the cat, 387
- Glycogen**, effect of depletion of cerebral monoamines on the concentration of, in the brain, 19
- , *in vivo* changes in the concentration of induced by biogenic amines, 353P
- Glycogenolysis**, amphetamine-induced, effect of depletion of cerebral monoamines on, in the brain, 19
- Glycopeptide**, sulphated, effect on rat gastric acid secretion, 550
- Guanethidine**, effect of, on perivascular stimulation, 302
- , and renin release from the ischaemic kidney, 97
- , effect of, on sperm transport and fertility of rats, 30
- β -guanidion-propionic acid**, effect of strychnine on in the cuneo-thalamic relay cells, 387
- , effect of on cuneate neurones, 369
- Guinea-pig trachea**, evidence for a non-adrenergic inhibitory nervous pathway in, 360P

H

- Haemoglobin molecule**, a 'working' model of, as a receptor for 2,3-diphosphoglycerate, 363P
- Hepatic bile**, dog, nitrofurantoin excretion in, 273
- Heptabarbitone**, impaired performance of delayed matching in monkeys by, 347P
- Hexadimethrine bromide**, effect on inflammation in rat's paw, 88

- Hexamethonium**, effect of, on hypotensive effect induced by 5,6-dihydroxytryptamine, 245
- Histamine**, antagonism by burimamide of inhibitions induced by in plexus-containing longitudinal muscle preparations from guinea-pig ileum, 362P
- , release by MCDP (401), a peptide from the venom of the honey bee, 337P
- , the actions of, on blood flow and capillary filtration coefficient, 332P
- , depressor responses and biphasic effects on horse, 426
- , selective inhibition by burimamide of the positive inotropic and chronotropic effects of released, 620
- , concentration of in different parts of the brain and hypophysis of rabbit: effect of treatment with histidine, certain other amino acids and histamine, 577
- , as stimulant of gastric acid secretion, 550
- Histamine receptors**, vascular, in the rabbit, 363P
- , in longitudinal muscle in guinea-pig ileum, interaction of benzilycholine, mustard, benzilycholine and lachesine with, 148
- Histamine H₂-receptors**, the action of burimamide in the sheep bronchus and cat trachea, 321
- Histidine**, effect of treatment with on concentrations of histamine in different parts of the brain and hypophysis of rabbit, 577
- Histidine decarboxylase**, alterations in the activities of, provoked by testosterone in mice, 113
- 5-HT**, responses of midbrain neurones to iontophoretically applied, 357P
- Hydrocortisone**, effect of, on rat paw thermal oedema, 255
- 6-hydroxydopamine**, and renin release from the ischaemic kidney, 97
- , rapid recovery of vascular adrenergic nerves in the rat after chemical sympathectomy with, 59
- 4-(2-hydroxy-3-isopropylaminopropoxy) phenyl acetamide**, a new type of cardioselective adrenoceptive blocking drug, (ICI-66082), 340P
- 5-HT**, effect of on histamine concentrations in the brain and hypophysis of rabbit, 577
- 5-hydroxytryptamine**, interaction between picrotoxin and, in the superior cervical ganglion, 232
- , role of in ketamine-induced hypothermia in the rat, 570
- , effects of microiontophoretic applications of, on spontaneously active brain stem neurones, 212
- , effect of angiotensin on intestinal smooth muscle response to, 288
- , turnover increased in rat brain by prostaglandin E₁, 80
- , effect of pyridinolcarbamate on heart, vascular and brain biogenic amines 179
- , effects on the horse, 426
- , effect of depletion of, on the concentration of glycogen and on amphetamine-induced glycogenolysis, 19
- Hyoscine**, effect on peristalsis, 36
- , effect of, on nerve blocking action of strychnine, 36
- Hypothermia**, ketamine induced, role of 5-hydroxytryptamine in, in the rat, 570
- I**
- ICI-66082**, the blocking effects of, on the peripheral vascular responses to isoprenaline, 342P
- , the action of, on the heart, 340P
- Imipramine**, effect of pre- and neonatal administration on noradrenaline metabolism, 364P
- , comparison of the effects of disipramine and on single cortical neurones, 358P
- , role of brain monoamines in the fatal hyperthermia induced by, in rabbits pretreated with a monoamine oxidase inhibitor, 12
- Indomethacin**, effect of on rat paw thermal oedema and rat isolated uterus, 255
- , effects of on contractor effects of oxytocin acetylcholine and prostaglandin F₂ on isolated uterus of non-pregnant rat, 629
- , effect on inflammation in rat's paw, 88
- (+)-INPEA**, effect of intraperitoneal administration of, on oxytocin and prostaglandin evoked responses of the isolated rat uterus, 344P
- Insulin**, influence on plasma and brain tryptophan, 352P
- Iproniazid**, interaction between tyramine and, on guinea-pig atria, 609
- Isoprenaline**, L7810 no blocking action on the chronotropic or positive inotropic actions of, on isolated atrial muscle, 183
- , and mechanical activity in rabbit duodenum, 302
- , the blocking effects of propranolol practolol and ICI-66082 on the peripheral vascular responses to, 342P
- , effect of morphine on depressant effect of, on longitudinal muscle, 655
- , influence on plasma and brain tryptophan, 352P
- , effects on contractions of directly stimulated fast and slow skeletal muscle of the guinea-pig, 121
- (-)-isoprenaline**, effects of cocaine or denervation on responses of isolated cat spleen to, 667
- Isopropyl methyl phosphonofluoridate**, effect of cyclopentolate in treatment of, induced miosis, 309
- K**
- Ketamine-induced hypothermia**, role of 5-hydroxytryptamine in, in the rat, 570
- L**
- L7810**, fluorinated decahydroquinoline derivative, effects on cardiac muscle and nerve, rapidly absorbed after oral administration 183
- LB-46**, and renin release from the ischaemic kidney, 97
- Lachesine**, interaction of benzilycholine, benzilycholine mustard and, with the histamine receptor in the longitudinal muscle of the guinea-pig ileum, 148
- Lanthanum**, action of on anaphylactic histamine secretion, 527
- 8-Leu-angiotensin**, and angiotensin receptors in intestinal smooth muscle, 288
- Levallorphan**, modification of the analgesic action of pethidine and morphine by, 326P
- Levodopa**, actions of, on the blood pressure of conscious rabbits, 194
- Levorphanol**, lethality of, 718
- Lithium chloride**, effect of replacing sodium chloride in bathing solution with, on release of acetylcholine in isolated superior cervical ganglion, 225

Lysergic acid diethylamide, contractions in isolated preparations caused by 5,6-dihydroxytryptamine antagonised by, 245

M

3 μ M, effect of on output of acetylcholine in isolated superior cervical ganglion, 225

M&B 17,803A, β -adrenoceptor blocking properties and cardioselectivity of, 198

MCDP (401), a peptide from the venom of the honey bee, histamine release by, 337P

Manganese, action of on anaphylactic histamine secretion, 527

Meclofenamate, effects of on contractor effects of oxytocin, acetylcholine and prostaglandin F₂ on isolated rat uterus, 629

Mepyramine, the action of, histamine H₂-receptors in the sheep bronchus and cat trachea, 321
—, effect on peristalsis, 36

MER 25, anti-oestrogenic activity in compounds related to, 345P

Mesenteric vasoconstriction, further observations on, after endotoxin administration, 555

Methacholine chloride, action of on denervated salivary myoepithelium, 73

Methaemoglobin formation after nitrate ester administration in the rat, role of inorganic nitrite, 162

Methylamphetamine, effect of pre- and neonatal administration on noradrenaline metabolism in discrete areas of rat brain, 364P

α -methyl dopa, effect of on histamine concentrations in the brain and hypophysis of rabbit, 577

α -methyl-p-tyrosine, effect on the concentration of glucogen in the brain, 19

—, failure to prevent pethidine or imipramine induced hyperthermia in pargyline pretreated rabbits, 12

Methysergide, and renin release from the ischaemic kidney, 97

—, contractions in isolated preparations caused by 5,6-dihydroxytryptamine antagonised by, 245

—, effect on inflammation in rat's paw, 88

—, effect of, on peristalsis, 36

Microiontophoretic release, of drugs from micropipettes, 156

Micro-iontophoretic techniques, use of in comparison of potencies of γ -aminobutyric acid antagonists on single cortical neurones, 1

Microelectrophoresis, a simple low-cost circuit for the programmed application of ejecting and retaining currents, 365P

MJ1988, see quazodine, 409

Mn⁺⁺, effect on cyclic AMP accumulation, 516

MAO, inhibition by iproniazid antagonized by tyramine, 609

Monoamines, brain, evidence for a role for in ethanol dependence, 354P

—, brain, role of, in the fatal hyperthermia induced by pethidine or imipramine in rabbits pretreated with a monoamine oxidase inhibitor, 12

—, in rat arteries, evidence for different forms and selective localization, 590

—, cerebral, effect of depletion of, on the concentration of glycogen and on amphetamine-induced glycogenolysis, 19

—, activity and the oestrous cycle, 602

Monoamine metabolism changes, associated with CO₂-induced amnesia in rats, 351P

Monoamine oxidase, activity in the striatum of rats after 6-hydroxydopamine lesion of the nigrostriatal pathway, 175

—, after inhibition of, levodopa induces sustained pressor response, 194

Monoamine oxidase inhibitor, role of brain monoamines in the fatal hyperthermia induced by pethidine and imipramine in rabbits pretreated with, 12

Monoarticular arthritis, rabbit, and synovial prostaglandins, 343P

Morphine, effect of, on peristalsis, 36

—, modification of the analgesic action of, 326P

Morphine-tolerant longitudinal muscle strip from guinea-pig ileum, 655

Morphinan isomers, levorphanol and dextrorphan, lethality of, 718

MRL 37, anti-oestrogenic activity in compounds related to, 345P

N

²⁴Na, use of as a model for microiontophoretic release of drugs from micropipettes, 156

NaF, effect on cyclic AMP accumulation, 505

Na⁺-K⁺-Mg²⁺-activated ATP-ase, does stimulation of inhibit acetylcholine release from nerve terminals?, 346P

Nalorphine, modification of the analgesic action of morphine and pethidine by, 326P

Naloxene, antagonization of depressant action of morphine on longitudinal muscle strip from guinea-pig ileum, 655

—, modification of the analgesic action of pethidine and morphine by, 326P

Nerve-mediated inhibition, of mechanical activity in rabbit duodenum, and effect of desensitization to adenosine and several of its derivatives, 302

Neurones, cortical, comparison of the effects of imipramine and desipramine on, 358P

—, midbrain, responses of to iontophoretically applied 5-HT, 357P

Nicotine, effects of on brain activity in man, 517

—, effects of on the dog heart *in vivo*, 612

—, effect on peristalsis, 36

Nicotinic acid, influence on plasma and brain tryptophan, 352P

Nikethamide, modification of the analgesic action of pethidine and morphine by, 326P

Nitrate ester, role of inorganic nitrite in methaemoglobin formation after, administered to the rat, 162

Nitrite, inorganic, role of in methaemoglobin formation after nitrate ester administration in the rat, 163

Nitrofurantoin, excretion in dog hepatic bile, 273

Nitrofurantoin sodium, intravenous administration of, and enterohepatic cycling, 273

Noradrenaline, and mechanical activity in rabbit duodenum, 302

—, exposure of reserpine-treated guinea-pig atria to, leading to return of a positive inotropic response to tyramine, 609

—, and the adrenergic neurone blocking action of dehydroemetine, 314

—, effect of pyridinolcarbamate on heart, vascular and brain biogenic amines, 179

—, effect of angiotensin on intestinal smooth muscle response to, 288

—, effect of cocaine on the affinity of α -adrenoceptors for noradrenaline, 139

Noradrenaline (contd.)

- , prolongation of functional refractory period in rabbit atrium, 132
- , potentiation by angiotensin II of, -induced contractions of isolated thoracic aorta, 338P

N

- (—)-**noradrenaline**, effects of cocaine or denervation on responses of isolated strips of cat spleen, to, 667
- (—)-**noradrenaline** ((—)NA), effects of microiontophoretic applications of, on spontaneously active brain stem neurones, 212
- (—)-**noradrenaline uptake**, in isolated atria, 464
- (—)-**Noradrenaline bitartrate**, effect of on output of acetylcholine in isolated superior cervical ganglion, 225
- noradrenaline bitartrate**, action of on denervated salivary myoepithelium, 73
- Noradrenaline depletion** produced by 6-hydroxydopamine, 59
- Noradrenaline metabolism**, affected by pre- and neonatal administration of psychotropic drugs, 364P
- Norphenylephrine**, prolongation of functional refractory period in rabbit atrium, 132

O

- Oestradiol**, effect of on MAO activity, 602
- Oestrous cycle**, the, and monoamine oxidase activity, 602
- Ornithine decarboxylase**, alterations in the activities of provoked by testosterone in mice, 113
- Ototoxic effects**, laboratory testing for, of drugs, 325P
- Ouabain**, effect on cyclic AMP accumulation, 516
- Oxytocin**, distribution of, in the, hypothalamo-neurohypophyseal system of the guinea-pig, 263
- , effect of intraperitoneal administration of (+)-INPEA on, evoked responses of the isolated rat uterus, 344P

P

- P707**, anti-oestrogenic activity of, 345P
- P778**, anti-oestrogenic activity of, 345P
- P781**, anti-oestrogenic activity of, 345P
- Papaverine**, effect of on peristalsis, 36
- Pargyline**, blocking of behavioural effects of prostaglandin E₁ in rat brain, 80
- , interaction with pethidine and imipramine in induction of fatal hyperthermia in pre-treated rabbits, 12
- PCPA**, effect of on hypothermia responses to ketamine, 570
- Penicillin**, effect of, on increase in membrane conductance induced by γ -aminobutyric acid, 318
- Pentagastrin**, as stimulant of gastric acid secretion 550
- , enhancement by propranolol of gastric acid secretion in response to, 341P
- Pentobarbitone sodium**, impaired performance of delayed matching in monkeys by, 347P
- Peristalsis**, myogenic, in isolated preparations of chicken oesophagus, 36
- Pethidine**, modifications of the analgesic action of, 326P

Pethidine (contd.)

- , role of brain monoamines in the fatal hypothermia induced by, in rabbits pretreated with a monoamine oxidase inhibitor, 12
- 4-Phe-angiotensin**, compared in potency with angiotensin, 288
- Phencyclidine**, effect of pre- and neonatal administration on noradrenaline metabolism, 364P
- Phenobarbitone**, effect of, on neuromuscular transmission, 48
- Phenoxybenzamine**, effect of cocaine on block of α -adrenoceptors by, 139
- , effect of pre-treatment with in dog hearts infused *in vivo* with nicotine and acetylcholine, 612
- , blocking of receptors in rabbit atrium, 132
- , as inhibitor of adrenaline-induced cyclic AMP accumulation, 516
- , and renin release from the ischaemic kidney, 97
- Phosphodiesterase (PDE)**, related to activity of ATP utilizing enzymes in the brain, 505
- Phentolamine**, blocking of receptors in rabbit atrium, 132
- , effect of on the release of acetylcholine in isolated superior cervical ganglion, 225
- , +propranolol, effect on perivascular stimulation, 302
- , effect on peristalsis, 36
- , and renin release from the ischaemic kidney, 97
- Phenylbutazone**, effect of, on rat paw thermal oedema, 255
- , influence of allopurinol on metabolism of, in man, 693
- Phenylephrine**, and mechanical activity in rabbit duodenum, 302
- , inotropic effect of mediated by α -adrenoceptors in rabbit atrium, 132
- , prolongation of functional refractory period in rabbit atrium, 132
- Phenylephrine hydrochloride**, action of on denervated salivary myoepithelium, 73
- Phenylethanolamine-N-methyl transferase (PNMT)**, effects of vinblastine on, in heart, sympathetic ganglion and adrenal glands in rat, 106
- Phospho(enol)pyruvate carboxykinase**, effect of glibenclamide on, 327P
- Phosphorylase a**, *in vivo* changes in the concentration of induced by biogenic amines, 353P
- Physotigmine**, effect of presence of on acetylcholine release in isolated superior cervical ganglion, 225
- Picrotoxin**, comparison of potencies of, on single cortical neurones using microiontophoretic techniques, 1
- , effect of on cuneate neurones, 369
- , effect of on synaptic inhibition of cuneate relay neurones, 396
- , interaction between, and 5-hydroxytryptamine in the superior cervical ganglion, 232
- Plasma corticosterone levels**, during pregnancy in the mouse, 346P
- Post-synaptic inhibition**, ascending, descending and recurrent, the pharmacology of the cuneothalamic relay cells, 396
- Potassium**, and the adrenergic neurone blocking action of dehydroemetine, 314
- Potassium-rich bathing solution**, effect of, on release of acetylcholine in isolated superior cervical ganglion, 225

- Practolol**, compared with M&B 17,803A as β -adrenoceptor blocking agent, 198
 —, the blocking effects of, on the peripheral vascular responses to isoprenaline, 342P
- Probenecid**, potentiation of behavioural effects of prostaglandin E₁ in rat brain, 80
- Procaine**, local anaesthetic effect compared with L7810, 183
- Pronethalol**, as inhibitor of adrenaline-induced cyclic AMP accumulation, 516
- Propranolol**, effect on peristalsis, 36
 —, and renin release from the ischaemic kidney, 97
 —, compared with M&B 17,803A as β -adrenoceptor blocking agent, 198
 —, enhancement by, of gastric acid secretion in response to pentagastrin, 431P
 —, hepatic clearance of, in dogs, 336P
 —, the influence of on abnormal behaviour induced in rats by prolonged isolation —an animal model for mania?, 348P
 —, the central hypotensive effect of, in the rabbit, 343P
 —, the blocking effects of, on the peripheral vascular responses to isoprenaline 342P
- Progesterone**, stimulating effect of on uterine, ovarian and adrenal MAO activity, 602
 —, + phentolamine, effect on perivascular stimulation, 302
- Propranolol hydrochloride**, action of on denervated salivary myoepithelium, 73
- Prostaglandin**, effect of intraperitoneal administration if (+)-INPEA on, evoked responses of the isolated rat uterus, 344P
- Prostaglandins**, C₁ and C₂, the cardiovascular actions of in the cat (T), 363P
- Prostaglandin E₁** causes sedation and increases 5-hydroxytryptamine turnover in rat brain, 80
 — production, contractions of the isolated uterus of the rat, 629
- Psychotropic drugs**, administered pre- and neonatally effecting noradrenaline metabolism in discrete areas of rat brain, 364P
- Pyridinolcarbamate**, effects of on hearts vascular and brain biogenic amines, 179
- Pyridostigmine pharmacokinetics**, urinary elimination of the metabolites of pyridostigmine, 329P

Q

- Quinalbarbitone sodium**, impaired performance of delayed matching in monkeys by, 347P
- Quazodine**, effects of on contractions of the isolated hemidiaphragm of the rat and the biventer-cervicis muscle of the chick, 409

R

- Receptor activation**, two systems model, 475
- Receptor mechanisms**, Fourth Gaddum Memorial Lecture, 475
- Renin**, release from the ischaemic kidney, 97
- Reserpine**, and renin release from the ischaemic kidney, 97
 —, depletion of brain monoamines by, completely preventing ketamine-induced hypothermia, 570
 —, effect of, on perivascular stimulation, 302
 —, effect of pretreatment with, on contractions caused by 5,6-dihydroxytryptamine in isolated preparations, 245
 —, effect of, on the concentration of glycogen in the brain, 19

Reserpine (contd.)

- , failure to prevent pethidine or imipramine induced hyperthermia in pargyline pretreated rabbits, 12
- (+)-salbutamol, pharmacological activity of, 144
- (-)-salbutamol, pharmacological activity of, 144

S

- Salicylate**, effect of, on the biliary excretion of ¹⁴C-bishydroxycoumarin in rat, 278
- Sarin**, effect of cyclopentolate in treatment of, miosis, 309
- Scintillation counting**: channels ratio and external standard channels ratio for the determination of counting efficiency in Triton X-100 based scintillants, 366P
- Sensory irritant materials**, screening tests for assessing the relative potency of, 367P
- Sodium**, and the adrenergic neurone blocking action of dehydroemetine, 314
 —, diethyldithiocarbamate, no effect on hypothermic effect of ketamine, 570
 — salicylate, effect of, on the biliary excretion of ¹⁴C-BHC, 278
- Sperm transport**, effect of guanethidine on, 30
- Spirometry**, a device for cycle-by-cycle spirometry, 676
- Strychnine**, as blocker to glycine in the cuneo-thalamic relay cells, 387
 —, comparison of potencies of, on single cortical neurones using microinjection techniques, 1
- Succinylcholine**, sensitivity of the nictitating membrane of the cat, to, after decentralization and denervation, 172
- Synovial prostaglandins**, rabbit monoarticular arthritis and, 343P

T

- Testosterone**, alterations in the activities of ornithine and histidine decarboxylases provoked by in mice, 113
- Tetrabenazine**, non-competitive antagonism of synthetic bradykinin, 255
- Δ^9 -tetrahydrocannabinol, reduction of in the blood pressure of hypertensive rats bearing regenerated adrenal glands, 169
- Tetrodotoxin**, effect of, on release of acetylcholine in isolated superior cervical ganglion, 225
 —, electrically induced contractions of guinea-pig isolated ileum resistant to, 359P
 —, effect of, on nerve stimulation, 36
 —, and the adrenergic neurone blocking action of dehydroemetine, 314
 —, effect of, on intramural and perivascular stimulation, 302
- Theophylline**, as inhibitor of PDE, 505
 —, effect of on rat and chicken muscle, 409
- TH**, effects of vinblastine on, in hearts, sympathetic ganglion and adrenal glands of rat, 106
- Transmitter substances**, modification of the responses of brain stem neurones to, by anaesthetic agents, 212
- Tryptophan**, brain and plasma drugs influencing, 352P
- Tryptophan metabolism**, in characterized neurones of *Helix*, 546
- Tubocurarine**, effect of peristalsis, 36
 —, neuromuscular blocking activity enhanced by quazodine, 409

Tyramine, interaction between and iproniazid on guinea-pig atria, 609

Tyrosine hydroxylase (TH), effects of vinblastine on, in hearts, sympathetic ganglion and adrenal glands of rat, 106

V

Vasocostriction, mesenteric, further observations on after endotoxin administration, 555

Vasopressin, distribution of, in the hypothalamoneurohypophyseal system of the guinea-pig, 263

Vinblastine, effects of on catecholamine-biosynthetic enzymes in heart, sympathetic ganglion and adrenal glands in rats, 106

W

Warfarin, influence of allopurinol on metabolism of, in man, 693

Instructions to Authors

1. **Manuscripts** (2 copies) should be typed in double spacing on one side of paper not larger than foolscap (33×20.5 cm). There should be a separate title page giving the names and addresses of the authors in alphabetical order. A short title containing not more than 40 letters should also be suggested.
2. **A short summary of results and conclusions** (arranged in numbered paragraphs), **tables and legends to figures** should be typed on separate sheets of paper.
3. **References** should be collected at the end of the paper. They should include the authors' names, year of publication, title of article, title of publication (abbreviated in accordance with the fourth edition of the *World List of Scientific Periodicals*), volume number and first and last page numbers. References to books should, in addition, include the names of editors, the edition number, where appropriate, and the town of origin and name of publisher.
4. **Figures** should NOT BE LARGER THAN FOOLSCAP (33×20.5 cm) and may be in the form of original drawings, recorded tracings or high quality photographic prints made from them. Negative prints of kymograph tracings (black on white) should be provided and both ordinates and abscissae should be calibrated.
5. **Lettering** on figures should be inserted in PENCIL. Symbols which are to appear in figures or legends should be chosen from the following:

× + ● ■ ○ □ △ ▲ ▽ ▼ ○ ● ◇
6. **Photographs and photomicrographs** should be printed on glossy paper and should be larger than the size required for reproduction.
7. **Tables** ideally should not have more than 84 characters to a line (counting spaces between columns as 4 characters) and certainly not more than 130 characters to a line, unless absolutely unavoidable.
8. **An abstract** of about 100 words suitable for inclusion in *International Abstracts of Biological Sciences* should be typed on a separate sheet, giving the author's name and address and the title of the paper.

General remarks. A recent issue of the journal is a good guide to style. Papers are accepted only if accompanied by a statement that they have not and will not be published in whole or in part in any other Journal.

Two page proofs will be supplied, one of which may be retained by the authors. The other should be corrected immediately and returned to the Press Editor. Corrections should be kept to a minimum.

Twenty-five reprints will be supplied to the authors free of charge. Additional reprints can be purchased. A reprint order form, which should be returned promptly, will be sent out with the proofs. No reprints of abstracts are supplied.
