"STATION LISTENING INDEX" is computed from the total station questions "To what program were you listening, pleuse?" and "Over weed of persons found to be listening to the radio. Excluded from this bare "Not at home," those who are "Not isteming" and those who, althou

*Every rated hour given equal weight. For this reason this Total Index is not an arithmetic average of the Day-Part Indexes.

3 out of 3...3 out of 5

Our last couple of W-I-T-H ads have been about Hooper Tonight we're busting out all over in glee! Even if it ratings in Baltimore. And here's another victory for our independent over the big boys. In the first ad, W-I-T-H led all 4 network stations in total rated time. That was the July Hooper.

In the 2nd ad, W-I-T-H did it again in total rated time. This was the August Hooper. Now the September Baltimore Hooper is available as this is written.

In total rated time W-I-T-H is again out in front of the network setups. But bigger than that-W-I-T-H led all stations in 3 out of 5 rated time periods!

never happens again! We've been telling you that W-I-T-H, the successful independent, delivers more listeners-perdollar-spent than any other station in town. And it's a fact!

> and the FM Station W3XMB Baltimore, Md.

WLS programs for people

"Morning Devotions" fills the daily spiritual needs of Midwest Millions

Tamily worship at home is still a vital institution across the broad, grain-growing prairies—and so WLS service to the people has long included the spiritual side.

Our inspirational programming is carefully planned to help all

our people, regardless of creed. Dr. John Holland, our own ordained pastor, speaks words of hope and love and faith for all—and his daily mail shows the value of his work, the straightness of his aim.

Morning Devotions everyday—the international Sunday School lesson on Saturday—the Little Brown Church Sunday morning—these are our contributions to a basic Midwest need.

Like Dinner Bell and the news, like School Time and Quizdown and Feature Foods, Morning Devotions is shaped by direct contact, personal and mail, with the folks who live in range of our clear channel signal. It is another service to fill a need—a WLS program for people.

a Clear Channel Station

50,000 watts, 890 KC, American Affiliate, Represented by JOHN BLAIR & COMPANY, Affiliated in Management with KOY, Phoenix, and the ARIZONA NETWORK — KOY, Phoenix • KTUC, Tucson • KSUN, Bisbee-Lowell-Douglas

There's a daytime program Philadelphians really go for. They say so to the tune of 5000 to 6000 letters a week.

They've overflowed the studios and even caused traffic jams in Philadelphia streets.

They have deluged astounded advertisers by streaming into their stores in unforeseen torrents.

Yet the program we speak of costs only 29c per minute announcement per 1000 radio families.

Anywhere, these figures tell a story. In the nation's third market they shout a golden opportunity to the radio-wise.

If you are interested in selling more to more Philadelphians at a sweet and low advertising cost, look into this now. We will gladly give you full facts about progressive WPEN's Mighty 950 Club.

THE EVENING BULLETIN STATION

BROAD CASTING ... at deadline

Closed Circuit

MORE THAN cursory consideration being given these days by old-line networks to "clock-time" broadcasts as means of eliminating repeats and at same time overcoming time change headache. Plan of William B. Lewis, Kenyon & Eckhardt vice president [Broadcasting, Oct. 21], plus Bing Crosby-ABC transcribed innovation have provoked network advisory committee activity. NBC's SPAC committee may have occasion at least to appraise matter at New York meetings this week, while CBS policy level is giving plan something more than lip service.

FIRST of year will see resignation of E. C. Page as engineering vice president of Mutual to re-enter private consulting practice in Washington and New York. Mutual, however, will retain him as engineering consultant. Army radio chief in Mediterranean during war, Col. Page pioneered in consulting field prior to 1941.

FCC-NAB entente cordiale which got under way last Monday at first of monthly meetings of Acting Chairman Charles R. Denny Jr. and NAB President Justin Miller was off the record but about records. FCC's proposed revised transcription identification rule was prime topic [CLOSED CIRCUIT, Nov. 4]. Result secret, of course. Just a guess: 5-15 minute transcriptions to be identified before rendition; 30 minutes or longer, to be identified before and after; one minute recorded spots or less, no identifying announcements.

OUT OF ALL that sound and fury surrounding BMB comes word that release in December of area reports by BMB should bring order out of chaos. Whether it does or not, all concerned convinced that a little cooling-off will help, pending NAB district circuit riding which gets under way in January.

FINAL PHASE of clear channel hearings, expected to get under way early next year, in for another delay. Best guess now is late January or early February will see start of technical case when revolutionary plan of Clear Channel Broadcasting Service for 750,000 watts power [Broadcasting, Oct. 28] will be formally presented.

INDICATIONS that FCC is tightening up on special service authorizations for daytime stations on clear channels reflected last week in wholesale denials of requests of such stations to broadcast election returns. Both Commissioners Jett and Hyde, sitting on motions docket, denied requests largely on ground that rural audiences were entitled to clear channel service for election broadcasts as well as metropolitan audiences.

A EUROPEAN scientist in occupied territory has succeeded in duplicating feat of "shooting the moon" by radar with crude surplus equip-

Bulletins

PORTENTS of nationwide AFRA strike that could paralyze radio seen in action late Friday night of New York AFRA local, authorizing executive board to effect work-stoppage if and when board deems it advisable in wage negotiations. New York local overwhelmingly passed strike resolution, covering transcriptions and live broadcasts, following similar action by Los Angeles local (see page 17). Chicago and San Francisco locals expected to take similar action Friday night but no word from either as BROADCASTING went to press.

RADIO MOST IMPORTANT MEDIUM SAYS TURNBULL

RADIO "was by far and away" most important medium used by New York Republicans in campaign, said Henry Turnbull, Gev. Thomas E. Dewey's radio adviser and 1944 campaign radio director, Republican National Committee. "We believe radio is the most effective way to reach people with a sound political message. Not only that, but we also believe radio should be free," he added.

Republicans spent three times as much on radio in New York campaign than in any previous one, Mr. Turnbull said. Republicans throughout nation used radio heavily, although not on large scale as New York, according to Mr. Turnbull. He explained New York GOP candidates used everything from spot announcements to half-hour programs.

GEORGE M. BURBACH Jr., for last two years in radio department, McCann-Erickson, N. Y., resigned effective Nov. 15.

Business Briefly

GENERAL FOODS SIGNS © General Foods, N. Y., (Gaines Dog Food) Friday was to sign for Juvenile Jury, currently 8:30-9 p.m. Sat., MBS, but under sponsorship to move to Sunday 1:30-2 p.m. Agency, Benton & Bowles, N. Y.

MINERVA PLANS ● Minerva Corp. of America, N. Y., set manufacturers, appointed Herbert Chason Co., N. Y., to handle advertising. Radio will be used in 1947.

RAILROAD RENEWS Southern Pacific Co., San Francisco, renewed half-hour weekly Main Line on 13 stations of Don Lee Network for 52 weeks. Agency, Foote, Cone & Belding, San Francisco.

TEXACO IN MARKET ● Texas Co., sponsoring Eddie Bracken Show, Sundays on CBS, considering another midweek evening show. Agency, Buchanan & Co., N. Y.

MBS RENEWAL ● Young People's Church of the Air, N. Y., Dec. 1 for 52 weeks renews Young People's Church of the Air, MBS, Sun., 9-9:30 a.m. Agency, Erwin, Wasey & Co., N. Y.

WEEU PRICE UP?

UNIQUE PROVISO in agreement for sale of WEEU Reading, approved by FCC Oct. 31 [BROADCASTING, Nov. 4], may raise sales price from \$300,000 to about \$360,000. Agreement specified \$300,000 figure was based on "purchasing value of U. S. currency" when contract signed last May, and provided for adjustment in line with change in cost of living between then and FCC approval, as reported by Bureau of Labor Statistics Cost of Living Index. Now estimated Index when sale consummated last of November will show about 20% increase, raising WEEU price by \$60,000. Purchasers are Reading Eagle and Times publishers, headed by Hawley Quier; sellers: George J. Feinberg (75%), N. Y. textile manufacturer, and associates.

RWG, NBC AGREE ON SCALE

ALTHOUGH Radio Writers Guild and NBC officials still negotiating over clauses on general working conditions of NBC newswriters, salary agreement reached last week. New weekly salary, on graduated scale, \$75 to \$110, former salary scale \$75 to \$90.

Networks Appeal to State Dept., Stalin

STATE DEPT. intervention with Russia asked and direct plea to Josef Stalin made late Friday by U. S. networks in effort to resume broadcasts from Moscow (earlier story page 18).

CBS asked State Dept. intervention to obtain shortwave facilities which Soviet denied U. S. networks. Edward R. Murrow, CBS vice president, cabled Stalin, advising network would withdraw Moscow correspondent, unless Russia reconsidered earlier ban on pickups.

Robert E. Kintner, ABC vice president, cabled Lt. Gen. Walter Bedell Smith, U. S.

Ambassador to Moscow, urging he use "good offices in an effort to permit all American radio networks to resume their broadcasts." Mr. Kintner told Gen. Smith American broadcasts from Russia "contribute to American understanding between our country and Russia." ABC asked information as to "why we are being deprived of the means of broadcasting from Russia."

NBC declined comment, said may have statement later. Mutual has no Moscow correspondent, not affected, said spokesman.

3 cities for CBS

When the sun comes up on the morning of January 1, 1947, it will find the Columbia Broadcasting System bigger by three important cities.

Three cities—and yet just one new station. That's typical of WTRY...always doing things in an extra-measure way. For WTRY, you see, joins CBS at the first of the year as a basic affiliate. WTRY will bring vastly improved reception of Columbia Network programs to homes in Albany, Troy and Schenectady (the three cities) and to eight buying-conscious counties where WTRY's coverage is primary.

This all makes a generous package, loaded with 200,000 radio families who earned so close to a billion dollars last year that the difference isn't worth mentioning. Here's a big audience that has always had a warm spot in its heart for WTRY—and an audience we're happy to share with CBS. We'd be happy to share it with you, too.

Represented by Headley-Reed Co. Other H. C. Wilder stations are WSYR, Syracuse and WELI, New Haven

Albany-Troy-Schenectady with studios in Troy and Albany 980 kilocycles—1000 watts

"How a broadcast from North Carolina brought me to my senses in Pennsylvania"

I. "It happened a little after midnight on the main highway outside of Hummelstown, Pennsylvania. Six hours of steady driving on top of a half-month of sleepless nights had left me completely worn out. I caught myself drowsing...nodding over the wheel. To keep from falling asleep...

4. "Maybe the driver who killed my son hadn't been criminally careless—but merely tired like myself tonight. As I drove along, I kept thinking about how that broadcast had winged along back roads and busy highways to brake the pace of speeding cars. At the next diner, I stopped.

5. "I ordered coffee—'black and strong.' But before I drank it I slipped into a telephone booth and put through a long distance call to WBT's Night Mayor: 'I had to tell you about this incident, and to thank you. Your broadcast brought me back to my senses. It may have saved my life—and someone else's too.'"

"I snapped on my dashboard radio: This is your Night Mayor with vlife-and-death message for all motorists listening to the WBT Midight Dancing Party. If you're speeding, cut it out. Drive slowly... afely...sanely. Remember it's better to arrive late than not at all.' I vinced: a car had struck down and killed my son two weeks ago.

3. "Perhaps my boy would be alive today, if that reckless driver had heard this broadcast and kept his speed under 45, as I always did. Casually, I glanced at the speedometer. The needle hovered at 80! As I jerked my foot off the gas a new thought flashed to mind...

. Every night, the Night Mayor—Kurt Webster—campaigns for safe briving on WBT's "Midnight Dancing Party" (11:30 p.m.-1:00 a.m.). And every day, WBT follows through with fifteen announcements, eminding motorists they hold human life in their hands. The true tory here is typical of listener response to WBT's Safety Campaign. Other results: hundreds of other telephone calls, and thousands of etters from 45 states and from every county in the rich WBT-delivered larolinas.

Here is eloquent evidence that WBT has the power to shape the lriving (and buying) habits of its millions of listeners.

Feature of the Week

ELEVEN Steubenville, O hio, clergymen who asked to be appointed as a special vice squad to clean up their town were aroused to action following a newscast editorial by Harry Cochran, local news editor of WSTV.

The fatal night-club shooting of a Marine veteran seemed to call for more than a straight news story to Mr. Cochran who interpreted the event as a culmination of years of disrespect for law in Steubenville. He charged that the community itself, through its officials, had allowed gambling, vice and other lawlessness to flourish, and was, therefore, responsible for the killing.

Members of the Steubenville Ministerial Assn. who heard the broadcast decided to do something about it. The following Sunday, the 11 pastors preached on the same topic, "Enemies Within Our Gates." They accused public officials of "either cowardice or corruption," demanded adequate law enforcement, and named names of alleged law violators.

The ministers next drafted a let-

Early Bird

FIRST advertisements in the New York newspaper PM, which last week discharged its former adless policy, were inserted by WCBS New York, the CBS key station, according to Jules Dundes, WCBS promotion manager, who placed ads before newspaper even had time to establish rates.

ter to the City Council requesting that they be appointed with 20 World War II veterans as special policemen "to go out and bring the gamblers and cheaters in." WSTV carried the first broadcast of the letter which made national news.

The City Council held a special meeting last Thursday, Nov. 7, for the ministers to present their case in person. WSTV received a letter from the Ministerial Assn., praising the station and Mr. Cochran. John Laux is general manager of the station.

PROFITABLE BUY This alert station reaches a rich industrial and agricultural section—assures advertisers excellent sales results.

HE STORY of the radio career of Robert Reuschle, chief timebuyer for Sullivan, Stauffer, Colwell & Bayes, New York, might well be titled "Over The Wave Lengths" or "He Went to Sea to See The Light." All of which is a dubious play on words to point out that Mr. Reuschle spilled over into radio from his post in 1933 as crew member on the schooner Seth Parker, then embarked under Capt. Phil

Lord (head of Lord Productions Inc.) on its Cruise of the Seth Parker series sponsored by Frigidaire. When the world cruise was disbanded after ship weathered a hurricane in the South Pacific and company funds were exhausted, Mr. Reuschle returned the York to join the Phil Lord office.

He helped create such Lord productions as G-Men sponsored by Chevrolet, Three Minute Thrills sponsored by Philip Morris, Gangbusters sponsored by Colgate-

Palmolive-Peet and We The People sponsored by Calumet Baking Powder.

In 1938 when Young & Rubicam took over the production of We The People, Mr. Reuschle joined the agency to head the research department for the show. About a year later he assumed the same

duties on the Hobby Lobby show for the agency.

It was in 1940 that he shifted to the agency's radio station relations and time buying department. From that date until 1943 when he joined the U. S. Merchant Marine Service as a lieutenant (navigator), he handled spot and local programs for the following accounts: Rath Packing Co., Dunlop Milling Co., Sanka Coffee, Gulfstray, Johnson & Johnson, The Borden Co. and others.

Mr. Reuschle was released from the Merchant Marine in September 1945 and returned to his timebuying duties at Young & Rubicam. And on Oct. 1, 1946, he was named chief timebuyer of Sullivan, Stauffer, Colwell & Bayles. He will buy time for such accounts as Arrid, Carter Products Inc., Noxzema, Smith Bros., etc.

As for vital statistics, Robert Reuschle was born on Sept. 29, 1915, on Long Island, N. Y.

He is married to the former Bernice Simms. The Reuschle's have two sons, Robert, 5, and Jeffrey 21/2. They live in their own home at Mamaroneck, Westchester, N. Y.

Horseback riding and boating are his favorite sports. He spends weekends on a cutter owned by a friend.

Represented Nationally by

STATION WNICA NEW YORK

TAKES PLEASURE IN ANNOUNCING
THE APPOINTMENT OF

FREE & PETERS, INC.

AS ITS EXCLUSIVE REPRESENTATIVE
NATIONALLY

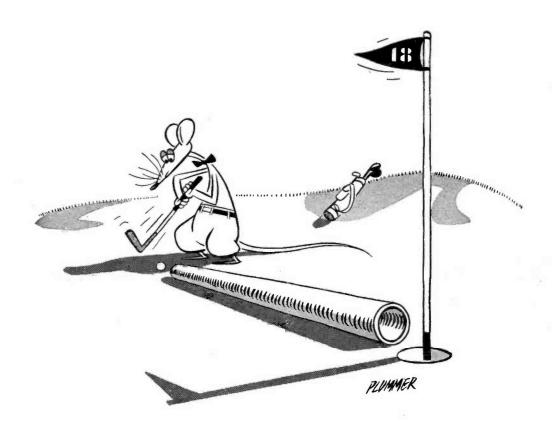

Commencing November 1st. 1946

- You'll be hearing and seeing a lot of WMCA in the months to come. With the addition of Free & Peters to our own sales staff in New York City, WMCA now gives you a crack team of representatives—a team working constantly to provide maximum service and information to our advertisers and their advertising agencies.
- WMCA account executives and Free & Peters representatives will keep you posted about the latest availabilities on the station...help you produce for your clients the distinctive live and recorded musical programs famous at WMCA...guide you in reaching the largest audience for your product at the lowest cost through spot campaigns.
- The Free & Peters offices in Chicago, Atlanta, Detroit, San Francisco and Hollywood—plus its New York organization and the WMCA staff—join in the station's greatest effort to establish *direct*, *informative* contact with its clients from coast-to-coast, bringing you up-to-the-minute data on WMCA—data on programs that *sell!*

AMERICA'S LEADING INDEPENDENT STATION

A LITTLE EXTRA EFFORT OFTEN GETS A BIG RESULT:

■Well, yes — maybe our artist has gone a bit too far, above, in depicting another way that extra effort gets extra results. After all, Mr. Plummer, that sort of pipe-line thing really ain't cricket in golf, y'know!

Still and all, it is true that a little extra head-work, now and then, is a mighty fine thing. Take for instance that new media study F&P got out a while ago — "Radio—25 years". Showing as it does that an advertiser can reach more people at less cost with spot broadcasting than with newspapers, magazines or network radio, this impressive (and original) study has actually created a lot of "spot" business. Would you like a copy?

FCC Is Expected to Furl Sails for Blow

Porter Will Likely Be President Of BMI

By SOL TAISHOFF

REPUBLICAN control of Congress overwhelmingly ordained last week in the off-year elections, presages profound changes in the radio regulatory scene and in the complexion of the FCC itself.

The GOP Congress, of course, does not take over until Jan. 3, and nothing drastic is expected until the reorganization is completed. But immediate manifestations of the change can be expected in the demeanor of the FCC itself, which is expected to proceed with unusual caution, and in filling of the existing Commission vacancy by President Truman.

Porter's Plans

It looks now as though OPA Administrator Paul A. Porter will not return to the Commission chairmanship, ostensibly held open for him since he took over the OPA task last February. Mr. Porter is expected to return to private life. A likely prospect is the presidency of Broadcast Music Inc., radioowned music subsidiary established in 1939 to compete with ASCAP. NAB President Justin Miller will discuss that with him this week.

Here are a few of the radio-connected outcroppings of the Republican landslide, which sweeps the New Deal out of legislative power after 14 unbroken years:

Resolutions to investigate the FCC will be reintroduced by Senator Tobey (R-N. H.) and Rep. Wigglesworth (R-Mass.) looking into purported censorship via the Blue Book route, and alleged manhandling of FM allocations.

Sen. Wallace H. White Jr, of Maine, minority leader last session, is expected to assume the chairmanshio of the new Interstate and Foreign Commerce Committee and, by dint of his co-authorship of the present radio law and his espousal of a modernized statute, will get behind new legislation spelling out the limits of FCC power.

Talk of a "ripper bill" to abolish the present FCC, end the tenures of the present commissioners, and create a new licensing authority.

Hard sledding for the FCC on appropriations, with Rep. John Taber, of New York, an acid critic of the FCC, assuming chairmanship of the Appropriations Committee, and with Mr. Wigglesworth inheriting chairmanship of the Independent Offices Subcommittee, which passes on FCC funds.

Little Progress in Law

The FCC, oratorically, has been a favorite whipping boy of the Republican minority in Congress. Legislatively, however, practically nothing has been accomplished in 14 years of New Deal Congressional control, and the Radio Law retains, without substantive change, the provisions of the original Radio Act of 1927. That law incidentally, was the handiwork largely of Senator White, then chairman of the House Merchant Marine, Radio and Fisheries Committee,

and of former Sen. C. C. Dill of Washington.

Because of President Roosevelt's dislike of the press and his fondness for radio as an alternate means of reaching the people, the New Deal was disposed to clutch radio to its breast almost to the point of suffocation. FDR kept in intimate touch with its regulation by the FCC and frustrated repeated Congressional efforts to investigate that agency. The last episode was the House Select (Cox) Committee investigation, which wound up a complete bust. The Administration hampered it largely through use of wartime emergency

The new GOP majority in Congress isn't happy about the FCC. Mr. Porter was a Congressional favorite, on both sides of the chambers, during his 18-month tenure, interrupted by his "trouble-shooting" OPA appointment. But that vexatious OPA assignment brought strafing fire from minority members. He might have a rough time

WITH the FCC beholden to a new master in the Republican Congress elected last week, some far-reaching changes may be anticipated in the radio regulation picture. The accompanying article examines just what probabilities are in store in view of personalities and issues involved, and on the basis of past experience.

getting confirmed by the upcoming Republican Senate, even if reappointed.

Acting Chairman Charles R. Denny Jr. has kept out of the Congressional line of fire, except for sporadic letter-writing clashes, such as those with the two Democratic Senators from Tennessee, reported elsewhere in this issue. It is to be presumed that President Truman will name him to the chairmanship once Mr. Porter formally is eliminated from consid-

(Continued on page 14)

Blue Book Issues Revealed by FCC

Four Points Specified In WTOL, KONO, KMAC Cases

By RUFUS CARTER

FCC last week specified, for the first time, the issues on which it is willing to test its Blue Book in court if need be.

Eight months and a day after its March 7 report on a licensee's public service responsibilities, the Commission last Friday released the issues on which it proposes to hear and judge the renewal applications of three of the seven stations awaiting hearings on program considerations.

Virtually identical, they include:
1. Comparison of program promises with performance.

2. "Full information" on program service including commercial vs. sustaining time; average and maximum number of spot announcements in a typical day, and the average during any 15-minute period; time devoted to discussions of controversial issues; time devoted to local live talent programs; "nature and

character" of programs substituted for network sustaining shows; percentages devoted to (a) sustaining, (b) commercial, and (c) live talent programs between 6 and 11 p.m.

3. "Full information" regarding the applicant's investment in the station, net broadcast revenues, and program expenditures.

4. Station policy regarding matters covered in No. 2.

The three stations on which issues were released were from the six which the Commission designated on Sept. 19 [BROADCASTING, Sept. 23]. They are WTOL Toledo, and KMAC and KONO, both in San Antonio. All are 250-w outlets.

Yet to come are issues on the three other applications designated at the same time: WIBG Philadelphia, KBIX Muskogee, Okla., and KGFJ Los Angeles.

Still unannounced also are the issues for the hearing of WBAL Baltimore, whose designation last

February, preceding the Blue Book, was the first of the seven.

WBAL, a 50-kw clear channel outlet which was cited in the Blue Book for the extent of its commercial programming, also faces the prospect of a battle with Drew Pearson and Robert S. Allen, noted newsmen, who have an application pending for WBAL's operating assignment [BROADCASTING, Sept. 23]. The station contends, however, that when the issues are announced it will be able to "meet" them to the satisfaction of the Commission [BROADCASTING, Sept. 301.

The renewal hearing is now set for Dec. 1, but since the issues have not appeared observers think a postponement is likely in view of FCC's policy of giving 30 days' advance notice.

Whether the issues on the four remaining cases will be as nearly identical as those on the first

(Continued on page 75)

Commission Turns Its Back on Pressure— Southern Senators Chagrined: Page 77

Election-FCC

(Continued from page 13)

eration. That should come almost any time. The chairmanship is not subject to Senatorial confirmation.

When Mr. Truman will fill the FCC vacancy is anybody's guess. There's very little conversation about it, what with the Administration still staggering under the impact of the GOP tidal wave. There is growing support for the appointment of a practical broadcaster. The name of John Morgan Davis, Philadelphia attorney and owner of WALL Middletown, N. Y., again has been heard. He is a former general counsel for labor relations of the NAB, and formerly was identified with Philadelphia station operations.

Vacancy Democrat

The vacancy is Democratic. It is for the unexpired term not only of Mr. Porter but of former Chairman James Lawrence Fly, which expires on June 30, 1949. Some issue might be raised by Republican Senators about the propriety of a Democratic appointment, because of the makeup of the present commission. The law specifies that not more than four of the seven members shall be of the same political faith.

Chairman Denny is a Democrat. Other Democrats are Paul A. Walker, vice chairman, and Clifford J. Durr. Ray C. Wakefield, whose term expires next June 30, was name as a Republican, but has voted largely with the Democratic majority. His Republicanism has been questioned in party circles. It isn't known whether he will be a candidate for reappointment.

Comr. E. K. Jett, former chief engineer, was named as an Independent by President Roosevelt. He had never registered or voted prior to his appointment. The Senate Committee raised some question about his political faith. But Commissioner Jett now is more highly regarded by holdover legislators of both parties than any other FCC member. Senator White, particularly, is his champion.

Hyde a Republican

Comr. Rosel Hyde, junior member of the FCC and a staff member since 1928, was named as an Idaho Republican. His party status also has been questioned privately by Republicans, since his primary endorsements for the appointment were from Democrats.

Because of these known factors, it appears evident that if a Democrat is appointed to fill the existing vacancy, the Senate Committee will be disposed to inquire closely into his qualifications and perhaps again raise the question of party balance.

Commissioner Durr, arch liberal Wallace-school New Dealer, is certain to figure in any Republican onslaught involving the FCC. His term runs until June 30, 1948.

(Continued on page 71)

"ON THE BASIS OF LATE RETURNS . . ."

WORKING at speedy pace election night were network newsmen. In top photo, at CBS headquarters, are (1 to r): George Herman, newswriter; Charles Collingwood, commentator; John Mosman, an assistant director; Bob Trout; Jess Zousmer, news writer, and Ned Calmer, commentator. Directing ABC news center (center photo) are: John Madigan, national news editor; Thomas Velotta, director of news and special events for the network; Robert E. Kintner, vice president, and Charles C. Barry, national program director. Three top MBS reporters (lower photo) together for first time since the war are: Arthur Gaeth, Don Bell and Leslie Nichols.

IN THE NBC NEWSROOM, election-night huddlers included (1 to r): William F. Brooks, network vice president in charge of news and international relations; Francis C. McCall, manager of operations of the news and special events department; Burroughs H. (Buck) Prince, news editor; Adolph J. Schneider, assistant manager of operations; Morgan Beatty, NBC Washington commentator.

Election Balloting Given by Television

WCBS-TV Blends Horse Show And Results of Election

USING a simple two-bay studio set-up, one for national, the other for local returns, WCBS-TV New York gave the city's televiewers a clear and effective picture of the progress of the Nov. 5 ballot-counting through the evening hours. Pictures of the opposing candidates for each major office were mounted on the walls of the bays with a paper pad immediately beneath each photo for registering the latest ballot count.

A map of the nation on which the States were labeled "R" or "D" as the voting indicated, and a table showing the gains or losses of each party, gave the home audience an easily grasped view of the national status at any time. In the local bay the map and table showed how the tide was going in the metropolitan area and in neighboring states.

Left in Mid-Air

Staff newscasters Jim McMullin and Tom O'Connor handled the national and local commentaries, respectively, with Gil Fates, of the station's program staff, serving as overall m.c. Entire WCBS-TV staff was drafted for service in manning phones, news tickers and typewriters, or in maintaining liaison with the CBS radio coverage of the election.

The election telecasts were of relatively short duration and were cut into the station's continuing program from Madison Square Garden where its mobile unit was picking up the first postwar National Horse Show. The two programs of completely contrasting nature added up to a good evening's video viewing, except for the fact that the switches from horse show to election usually occurred just as the horse was taking off for a jump, fading it out in mid-air with a somewhat disconcerting effect on the viewer.

Entire set-up was supervised by Bob Bendick, WCBS-TV director of news and special events. Fred Rickey directed the studio election coverage. Bob Edge, sports director, and Jack Creamer, sportscaster, announced the horse show program, which was produced by Herbert Bayard Swone Jr.

Herbert Bayard Swope Jr.

WNBT, NBC's New York video station, did not cover the election.

WABD, Du Mont station, confined its coverage to the INS newstape super-imposed over the station's test pattern, which was kept on the air through the evening past WABD's regular sign-off time.

C-P-P Renews Two

COLGATE - PALMOLIVE - PEET Co., Jersey City, N. J., has renewed for 52 weeks Can You Top This on NBC, Sat. 9:30-10 p.m. and the Judy Canova Show on NBC, Sat. 10-10:30 p.m. Agency is Ted Bates Inc., New York.

Hell Is Located on a Washington Hill

At Least That's the Way It Looks Now For FCC

By BILL BAILEY

THAT LONG-promised "sweeping investigation" of the FCC will begin early in the next session of Congress, which convenes Jan. 3.

That was the word late last week, after the Republican landslide, from such stalwarts as Senator Charles W. Tobey (R-N. H.), Rep. Joseph W. Martin Jr. (R-Mass.), who becomes the new Speaker, and Rep. Richard B. Wigglesworth (R-Mass.), who will head the House Appropriations Subcommittee on Independent Offices.

That the GOP—starved of power for 14 years—will pitch in next January with a vengeance to probe into the inner-most depths of the New Deal Administration and its various agencies was confirmed by Rep. Clarence J. Brown (R-Ohio), campaign director of the Republican National Committee and head of its Executive Committee. Said Mr. Brown, who stands a good chance of becoming Majority Leader:

Prayer and Probe

"We will open every session of the House with a prayer and close it with a probe. We believe in the old Gospel hymn, 'Let the Sunlight In.' The American people have a right to know how their money has been spent and how their Government has been conducted. These things have not yet been completely exposed."

While virtually every Government agency from the Office of War Mobilization & Reconversion, and OPA on down to the lowliest will be scrutinized by the victorious Republicans, the FCC will be given one of the most thoroughgoing investigations ever attempted, according to Republican leaders.

There was talk last week of a "ripper bill" abolishing the FCC shortly after the first of the year and setting up a three or five-man temporary commission, pending outcome of the investigation. Specifically the Republican Congress wants to know:

1. By what authority the FCC deigns to tell a station how much time it may or may not sell.

2. From what source does the Commission acquire authority to determine what programs a station should or should not broadcast, aside from prohibitions spelled out in the Communications Act?

3. Who authorized the Commission to require stations for sale to be advertised and placed on the auction block?

4. Why was FM shifted from the 50 mc band to 88-108 mc in face of almost unanimous opposition

from industry's foremost engineers and propagation experts?

5. Why did the FCC make a "free and competitive radio" virtually impossible by restricting the FM band, rather than allocating more space to this service?

6. Why did the Commission hold up applications—some for several years—then suddenly the week before election turn out a record number of grants?

7. Why did the FCC deny a construction permit to an applicant who had the endorsement of his two Senators, one of whom was instrumental in reducing a Commission appropriation, but grant a station to the son of another Senator who fought successfully to have a budget cut restored? And why did the Commission grant construction permits for three stations to a group in which the son of a Senator held an alleged undisclosed interest, not long after ordering revocation of the license of a 15-year-

old station because of hidden minority ownership?

8. Background of all Commission personnel, particularly those in the Law Dept. who have written certain opinions and orders.

Tobey Resolution

Sen. Tobey told BROADCASTING by long-distance from his home in New Hampshire that he would reintroduce his resolution (S-307) to investigate the FCC. The resolution was presented last July but died in Interstate Commerce Committee for lack of action [BROADCASTING, July 29].

"I introduced that resolution in all sincerity and I intend to reintroduce it as soon as the new Congress opens," said Sen. Tobey. His resolution called for an investigation by the Interstate Commerce Committee of (1) "the exercise of control by the FCC over radio broadcasting programs," (2) the effect upon public interest of such control; (3) the manner in which the FCC has administered

WITH now-dominant Republicans determined to turn the floodlight of investigation into every dark nook and cranny of a Democratic administration unchallenged for 14 years, the FCC stands high on the list of Government agencies to be probed. Who will do the investigating and what questions they will ask are discussed here.

allocation of frequencies to stations, both AM and FM; (4) the effect on the rural population of shifting FM from the 50 mc to the 100 mc band; (5) the overall effect of shifting FM; (6) the administration generally by the FCC of provisions of the Communications Act "which relate in any manner to radio communication."

Although Rep. Martin said he was "not ready to say" just what would take place, he expressed the view that "the FCC certainly must be investigated."

"My statement of Oct. 28 still stands," said Mr. Martin, referring to his demand for a Congressional investigation of the FCC,

(Continued on page 72)

FCC Nears End of Call Letter List

New, Revised System May Be Necessary To Fill Need

FCC is nearing the bottom of its barrel of unassigned call letters, and is on a search for new ones.

While it is not thought likely that the Commission will choose to tamper with the present system of broadcast station calls, authorities feel that new or revised systems may be necessary in at least some of the dozen of other services licensed by FCC.

Informed quarters hope that FCC may recapture, for its own use, thousands of four-letter calls now allotted for use by other Government agencies.

18-Month Supply

At present FCC has approximately 1,800 four-letter "W" and 5,000 four-letter "K" calls left for assignment in the various services it licenses. It has been estimated that at the present rate these would be virtually dissipated within 18 months, Broadcasting's demand for them is comparatively small as against aviation ground stations, police, railroad, utilities, etc.

In line with the search for additional assignable combinations, Lynne C. Smeby, Washington consulting radio engineer and president of Ohio-Michigan Broadcasting Corp. which is applying for a new AM station at Toledo, last week appealed to the Signal Corps to release some of its unused calls for the use of broadcast stations beginning at once.

In his letter, a copy of which was sent to the FCC, Mr. Smeby

emphasized the "public relations" value of the Army's releasing call letters, starting now, "for special use by broadcast stations who apply for them."

FCC authorities point out that the Army wishes to shift its Signal Corps stations to "A" calls, part of which FCC is now using for assignment to ships.

But the shift would vacate a large number of other combinations now in use by the Army. Officials feel that if these and other "W" and "K" calls could be reclaimed by FCC from other Government branches, at least part of the present shortage could be dispelled.

The Commission has reached no decision on what solution to recommend, but it is thought likely

that some proposal will crystallize within a few weeks.

For some time FCC has been encouraging licensees to conserve the present supply of calls as much as possible.

In the broadcast field, it has suggested that AM stations acquiring FM or television affiliates designate these affiliates by appending "FM" or "TV" to the AM call instead of using entirely different letters

For stations in other services, FCC already has started, in some instances, to depart from the past policy of assigning separate calls for every station within a group, and, instead, has assigned a single "blanket" call to a group.

As an indication of the shortage (Continued on page 69)

Freedom for All Media, Say Newsmen

Commission Trend Is Discussed by Leaders

By ROBERT K. RICHARDS DOES THE TREND in present day radio regulation place in jeopardy America's most precious charter—freedom of speech?

Those who issued the FCC's Blue Book on programming—six members of the FCC, voting unanimously—believe the cry of "freedom of speech" in relation to that document is a "red herring."

Acting Chairman Charles R. Denny Jr., speaking at the NAB annual convention in Chicago, two weeks ago said: "I say that as applied to the Blue Book the cry of 'free speech' is a red herring."

Earlier he had said, "The remarks I . . . make have the approval of all of the members of the Commission."

Who dissented from this view? Justin Miller, NAB president, who said: "I say it is not a red herring. I say it is a whale of a big problem."

Byron Price-vice president, Motion Picture Assn. of America, wartime Director of Censorship and former executive editor of AP who said: "The power to license is the power to censor." He added, "So long as radio stations must go back to Washington at short intervals for renewal of licenses, just so long will freedom of speech on the radio stand more or less in jeopardy."

John S. Knight, publisher of the Chicago Daily News, and other newspapers, observed that he was prepared to stand with the NAB and others in a firm policy for "freedom of expression for all me-

Summary of Opinion

BROADCASTING last week attempted to sound out opinion on the subject among others who have distinguished themselves as guardians of freedom of speech. Respondents were asked:

"Because of your interest in news freedom we would appreciate a brief statement of your views on this fundamental issue.

Here are the replies:

American Newspaper Publishers Assn. and a Scripps-Howard executive: "To destroy our liberty, a tyrant must first destroy our freedom of speech in gatherings, in the press and on the radio.'

Robert R. McCormick, publisher, The Chicago Tribune: "At one time, all land was public land. To become useful it had to pass into private ownership with secure title. Wave lengths should become the property of those who operate

"When the FCC steps beyond its bounds, the courts are there to act. I believe it would be fine if some broadcaster would put the issue to test." He failed to explain whether or not a broadcaster could put the issue to test without first having his license revoked.

Kent Cooper, executive director, AP, warned against tendencies toward "Government control of the

sel, BMI, in May of this year:

American radio is in good hands. With many w stations possible by virtue of the opening of these ew frontiers by our scientists and engineers, the free competition of the present will become even freer. The American system has worked and must keep Regulation by natural forces of competition, even with obvious concomitant shortcomings, is to be preferred over rigid Governmental regulation of a medium that by its very nature must be maintained as free as the press. I salute America's broadcasters who have been, oir fashion, warriors for our common purpose and ir continued zeal in the cause of freedom and

THIS IS what President Truman has to say about freedom of radio. The excerpt is from a letter directed to Broadcasting and published July 9, 1945

cerely yours

them and the public authorities should have no more right to interfere with them than they have in other forms of property where nuisances may be abated. Until that happens, they will be domi-nated by the Administration in power."

Earlier [BROADCASTING, May 6, 1946], The Chicano Tribune had said editorially: "The Commission doesn't promulgate these (Blue Book stipulations) as regulations. It merely sets them up as standards by which it may choose to extend or withhold a license. As such, they are not subject to legal review. Not until a station has been denied its license could the matter be brought before a court. This is censorship by blackmail."

Commissioner Clifford J. Durr of the FCC, whose enthusiasm for the Blue Book was principally responsible for its issuance, had said in a debate with Sydney Kaye, W. G. Chambler, president, vice president and general counradio, the press and the motion pictures" in the fall of 1945. [Broadcasting, Oct. 22, 1945]. In response to the BRDADCASTING question last week, he said: "Two hundred years ago in New York City there was established by a verdict in the Zenger case the right to speak and print the truth without Government censorship or control. Out of that action came the Bill of Rights. We have just gone through the most destructive period in the world's history because a few ambitious people with a lust for power denied freedom to the people to speak and write the truth. If that right had not been denied there would have been no war. Yet today, because some of us have been vocal in trying to get the principle of freedom of expression extended to the whole world, there are alarming manifestations that evidence moves not only to frustrate the proposals but to foreclose against their adoption

in many countries.

"It is never wise to take anything for granted and the people should always be on their guard to retain their rights-even here, for it is possible that there could be an adverse trend even in this country.

"I am convinced that the only way to prevent another major catastrophe is to allow unrestricted access to the facts and to permit those seeking the truth freely and without restraint to express themselves. No matter what the medium may be, whether it is the press, the radio, the movies, the platform, literature, etc., there are many more right-thinking people in the world than otherwise and given the right freely to express their views we will have a better world in which to live."

Pulitzer's Ideas

Joseph Pulitzer, publisher, St. Louis Post-Dispatch "I yield to no one in my opposition to peace-time censorship of press or radio. I believe, however, that the radio industry must clean house or sooner or later the Government is likely to do the cleaning. This means less advertising. No offensive advertising and no interruption of news broadcasts by plug-uglies or middle commercials. Are advertisers making a smart investment when they offend even a minority of their listeners? I doubt it."

Mr. Pulitzer's Post-Dispatch, licensee of KSD St. Louis, long has been campaigning in its editorial columns against "radio's advertising excesses."

Morris L. Ernst, a New York lawyer who has been in the forefront of American Civil Liberties Union activity, was asked for his comment. The ACLU's radio committee announced in the summer of this year that the Union approved the Blue Book and saw no peril to basic freedoms in it. Mr. Ernst, stating that he could not comment on the sentiments expressed by Messrs. Knight and Price, since he had not heard them, observed: "The press, the movies and the radio are in great peril. The peace of the world depends on the freedom of human thoughts as soon as we get to the minds of the

(Continued on page 74)

FCC Ignores Pressure; McKellar Boils

Sen. Stewart Joins In Castigating Commission

Hon. Charles R. Denny Acting Chairman Federal Communications Commis-

Dear Mr. Chairman:

I have a copy of 96808 concerning application of the various corporations at Nashville, Tennessee.

I suppose it will do no good to protest this matter now but I would like for you and the other members of your Commission to know that this is about the most contemptible (sic) deal I have ever had perpetrated on me since

Sen. STEWART

I have been in Washington. It was nothing more than an effort to embarrass my good friend and colleague, Senator McKellar, since the award you made was to a man who had assisted in the fight to defeat Senator McKellar in his campaign for renomination to the United States Senate. I suppose it will be your policy in the future to always penalize our friends.

Reasons for Award

I have read the reasons you have assigned for making the award and I think they are about the most absurd excuses I have ever heard. You certainly could not have called them reasonable. In my judgment they lack anything that approaches reason.

The applicants in which Senator McKellar and I were particularly interested both had sons overseas but you seem to take a delight in discriminating against overseas

Yours very truly, /s/ Tom: Stewart

August 12, 1946

IS POLITICAL pressure exerted upon the FCC?

The letters in the adjacent columns tell their own sordid story. Senator McKellar of Tennesee is president pro tempore of the Senate. Senator Stewart is the junior Senator from Tennessee. Both are Democrats.

This journal often has criticized the FCC for its arrogation of power beyond that intended by Congress. We have attacked individual commissioners for playing partisan politics, or for flouting the law. Members of Congress often have criticized the FCC for the same thing.

How can members of Congress criticize the FCC for playing political favorites when such brazen, unembellished thrusts as those published here, are made to force action for favored constituents or political cronies?

We have not gone into the merits of these applications. They were disputed docket cases. The FCC, it must be presumed. decided them on the record. Otherwise, it would not have courted the wrath of such stalwart patronage-dispensers as the august Senators from Tennessee.

In replies to the Senators a few days after their letters were received, Acting Chairman Charles R. Denny Jr. said he regretted their feeling that proper consideration was not given their recommendations, but that the Commission studied the applications thoroughly and, on their merits, reached a decision which it thought would best serve the public.

It will be recalled that at the last session of Congress, the Senate Appropriations Committee held up an FCC appropriation approved by the House largely at the instigation of the Tennessee Senators. That was because the Commission, under the chairmanship of Paul Porter, refused to yield to pressures on pending applications.

Now, because Acting Chairman Denny has held fast against similar pressures, it can be expected that the FCC will have

rough sledding again.

Only by withstanding such pressures from politicians can the FCC retain its self-respect and the respect of the public. Chairman Denny deserves commendation for his stand against political log-rolling, coming as it did from within his own party. Contempt should be the lot of those who contrive to manipulate and browbeat those holding quasi-judicial status in Government.

Recording Firms Offer AFRA 17½% Increase on Disc Shows

TRANSCRIPTION companies met last Monday with AFRA executives and offered the union a 171/2% salary rise for recorded programs. This latest offer is an increase in the companies' original offer during negotiation meetings held a week earlier at which time a 10% overall increase was proposed in answer to AFRA's suggestion of 35% overall wage increase.

With the new offer of 171/2 % the transcription companies pointed out that the fees for transcribed programs have increased 61 1/2 % since the AFRA-transcription code was originally written in 1941. In the same five-year period the rate for spots has increased up to 252 1/2 %, the companies also contended.

In addition to the increased proposal the transcription representatives offered the union a "Crosby Clause" which would protect the salary scale of actors working on current live shows which might be changing to transcription shows

(similar to the Bing Crosby type of program). In other words this type of show would continue to pay AFRA members the live scale even though the show would be transcribed. Currently there is a 10% difference between the live and transcribed show.

The transcription companies' proposals were to be reported to the AFRA membership on Nov. 8 in New York, Chicago and San Francisco. Los Angeles AFRA Thursday voted to support the national organization in a strike against the networks. Memberships were to decide on the transcription wage scale as well as a possible strike vote on live shows because of the "Unfair Stations Clause" [BROAD-CASTING, Nov. 4]. AFRA has demanded that the networks withhold service from stations which refused to negotiate with the union. Terming it the "Unfair Station Clause" the networks have refused to include the clause and negotiations have been temporarily halted.

Grant for Political Enemy Draws Hot Letter

Hon, Charles R. Denny Federal Communications Commission

Dear Mr. Denny:

I have just received your notice that you had granted the application of the Capital Broadcasting Company, owned by A. G. Beaman and T. B. Baker, Jr., at Nashville, Tennessee.

I want to protest against this. Senator Stewart recommended to you that you grant a station to the Tennessee Broadcasters owned by Mr. E. E. Murrey, Frank Hobbs and others, and to the Tennessee Radio Corporation owned by Mr.

Sen. McKELLAR

W. D. Hudson and his three sons. Mr. Hudson was in World War I and also in World War II.

We recall that in talking to your predecessor about it he said he did not see how he could turn down a family of four soldiers with the splendid records they had, but you have turned them down. I think you have made a great mistake. Is it too late to mend?

Where the other station that you granted to Mr. A. G. Beaman and T. B. Baker, Jr., will finally go I do not know. It seems to me that you could not have made a worse choice.

There was another application before you-that of Mr. J. W. Birdwell whom we recommended. It seems that your office takes pleasure in turning down our recommendations. Senator Stewart and I were together in all of these recommendations. Of course you know all about Tennessee and We know nothing. Very frankly, Mr. Denny, I resent very much your

Denny, 1 resent very maction in the matter.

Very sincerely yours,

7s/ Kenneth McKellar

Russia Cuts Off U.S. Network Pick-ups

Joint Note to Stalin Discussed; State Dept. Silent

MAJOR NETWORKS late last week were considering a direct protest to Premier Josef Stalin after it became known that the Soviet broadcasts to the U.S. from Russia.

While State Dept. was watching developments, a spokesman said no formal action was likely since the incident was an "informal proceeding" between the networks and their Moscow correspondents and was something that should be worked out between radio and the Soviet Government on an "informal basis."

It was learned Friday that on Oct. 7 the Russian Government suddenly deprived the network correspondents of the use of Russian shortwave facilities for direct broadcasts to the U. S. First inkling of the Soviet's intention to deny its facilities to American broadcasters came in written messages which the correspondents were permitted to file to their home offices.

Russian spokesmen advised the correspondents, it was reported, that the Government's new winter schedule of shortwave broadcasts would not permit the use of facilities for other than Soviet programs. U. S. correspondents reported that repeated requests for further explanation had produced no replies.

One correspondent was reported to have advised his network that the Russian foreign office "recognizes the right" of American newsmen to broadcast, but that the Government Radio Committee had

insisted that facilities were inadequate to accommodate them.

It was known that Lt. Gen. Walter Bedell Smith, U. S. Ambassador to Moscow, had informed the State Dept. of the Russian order soon after it was issued.

Since imposition of the Russian order, networks had been attempting to obtain clarification and possibly a relaxing of the order through their Moscow correspondents. One was said to have attempted to make representations to Soviet Foreign Minister Vyacheslav M. Molotov, who is in the U. S., but that thus far the effort had failed. It was not known

Stevens, who broadcasts for ABC, also is a correspondent for the Christian Science Monitor, and Robert Magidoff, NBC's reporter, represents the London Daily Telegraph. Mutual's string man in Moscow is John Fisher, a representative of the Australian mines.

Network news chiefs pointed out that the Russian Government has long been chary of permitting U. S. newsmen to broadcast live from Moscow. Several years ago, the Soviet insisted that the correspondents record their broadcasts for later playback so that Russian censors could listen to a recorded

WHILE Benjamin Cohen, United Nations Assistant Secretary General, took issue with Soviet charges that international broadcasting by the UN would be a waste of funds, it became known that on Oct. 7 the U.S.S.R. cut off all U. S. network broadcasts originating in Moscow. Networks consider protesting direct to Josef Stalin, as State Dept. says incident is purely "informal" between radio and Russia.

whether this meant that the network had reached Mr. Molotov or whether he had rejected the representations.

Message to Stalin?

One network news chief was understood to have suggested that CBS, NBC and ABC, the three networks whose correspondents are most active in Moscow, dispatch a joint message to Josef Stalin seeking clarification of the situation. NBC and ABC, however, had not chosen to follow that course.

The only network which maintains its own correspondent in Moscow is CBS. Its representative is Richard C. Hottelet, Edmund

broadcast before it was put on the air.

Meanwhile State Department, International Broadcasting Division, went ahead with plans announced a fortnight ago to begin Russian language broadcasts after the first of the year. Although William B. Benton, Assistant Secretary of State, announced last December that the State Department would beam programs to Russia, officials were reluctant to carry out the plans after Russia is reported to have mildly protested the U. S. broadcasts. The Soviet Union began beaming programs to the U.S. in English several months

"NEW ERA" in NAB-FCC relationship got under way last Monday when FCC Chairman Charles R. Denny lunched with NAB President Justin Miller in private dining room of Carlton Hotel, Washington. Monthly meetings are planned. Around table (seated, I to r): Clair R. McCollough, WGAL Lancaster, NAB

Craven, Cowles stations, NAB board member. Standing, Don Petty, NAB general counsel; A. D. Willard Jr., NAB executive vice president.

Soviet UN Radio Views Opposed By Cohen

By EDWIN H. JAMES

BENJAMIN COHEN, United Nations Assistant Secretary General in charge of public information, last week took issue with Soviet charges that international broadcasting by the UN, to provide worldwide reports of its activities, was a waste of funds.

Mr. Cohen explained his position in response to four questions which BROADCASTING put to him after the economy-minded U. S. S. R., in a general attack on the UN's estimated 1947 budget, had demanded the abandonment of an appropriation of \$594,750 for world broadcasting. The Soviet attack, before the General Assembly Committee which directs administrative and budgetary affairs, had been prosecuted by Fedor T. Gusev, a deputy foreign minister, who characterized the broadcasting as a "vast output of propaganda."

In contradistinction to the Soviet charge, Mr. Cohen declared that the UN could "achieve the promises contained in the charter" only if all peoples were kept abreast of UN activities and that radio provided the quickest means of keeping the peoples thus informed.

Questions Asked

The questions asked of Mr. Cohen, and his answers, follow:

Q. Does the Assistant Secretary General in charge of the department of public information consider the worldwide dissemination of adequate, impartial information concerning the United Nations to be essential to the future effectiveness of the United Nations?

A. Yes. We consider it not only essential, but vital. The United Nations can never fully succeed unless the peoples of the world are fully and constantly informed of the activities and achievements of the United Nations. Only through an informed public can the United Nations achieve the promises contained in the charter.

Q. Is it considered that the proposed system of international broadcasting by the United Nations is essential to the future effectiveness of the United Nations?

A. Broadcasting is one of the most important media of information. It is a means through which information about the United Nations can be brought most quickly to the peoples of the world. Certainly the United Nations should utilize radio as effectively to create a lasting peace as did the

(Continued on page 85)

BROADCASTING . Telecasting

?-?-?-?-?-?-?-?-?-?-?-

What's the value of a PREFERRED station as compared with a HEARD-REGULARLY

station?

F YOU KNOW the answer to that question, your radio advertising will be many times more effective than otherwise. Yet that question is only one of dozens that will be completely clarified for you by the 1946 Iowa Radio Audience Survey.

Based on returns from 7,939 Iowa families (one for every 80 radio homes in Iowa), the 1946 Survey was conducted by Dr. F. L. Whan of the University of Wichita. Approved sampling procedure was followed. The result is an over-all picture of this year's Iowa listening habits which any large advertiser or agency would gladly pay thousands of dollars to have exclusively.

OTHER EXAMPLES

of the questions answered are: What stations are "listened-to-most" by what percentages of Iowa people? Urban people? Town people? Farm people?

In what counties is each station "listened-to-most"? What stations are preferred for News in Iowa? For Farm Programs? At what hours?

What is the relative importance of radio, newspapers and magazines, for News?

What percentage of adults in Iowa listen to the radio, in each quarter-hour from 5:00 a.m. to 1:00 a.m.? And many others!

COVERAGE IN PHILADELPHIA

WDAS, Philadelphia's Outstanding Full-Time Independent Radio Station covers the largest cross-section of the buying public in the Greater Philadelphia Area...at lowest cost.

That's why 78 per cent of this station's sponsors have been renewing regularly for more than a quarter of a century.

Middlebrooks Leaves NAB for ABC; Kibler Resigns for Own Law Practice

TWO headquarters officials of the NAB-James L. Middlebrooks, director of Engineering Dept., and Milton J. Kibler, assistant director of the Employe-Employer Relations Dept., announced their resignations last week.

Mr. Middlebrooks on Nov. 15 becomes chief facilities engineer of

Mr. Kibler

ABC network. He succeeds Ben Adler, who resigned to become engineering vice president of Transmitter Equipment Engineering Co. Mr. Kibler will return to private practice of law, specializing in broadcasting labor relations.

Before joining NAB last July 1 Mr. Middlebrooks had been a commander in the Navy, serving as officer in charge of the Shore Electronics Section, Electronics Division, Bureau of Ships. He was responsible for installation and maintenance of all electronics equipment and facilities at continental and foreign shore establishments. Before the war he was chief construction engineer of CBS from March 1936 to February 1942.

Aided in Expansion

At NAB he completed the NAB Engineering Handbook, now coming off the presses; (see separate story page 69); drew plans for reconversion of the Canadian Embassy Annex at 1771 N St., Washington, into a new NAB headquarters building; prepared plans for expansion of the Engineering Dept.; participated in proposals to change engineering standards.

Mr. Middlebrooks

Mr. Kibler jointly directed expansion of the Employe-Employer Relations Dept. activities last year with Ivar Peterson, also an assistant director, Richard P. Doherty was named department head last September. Mr. Kibler joined NAB in March 1945 as an attorney, later becoming assistant general counsel. Before joining NAB he had served in the Army as a major, being retired in 1944 because of service injuries.

He represented NAB in the New Mexico tax case in which KGFL Roswell has challenged validity of the New Mexico franchise tax. He will continue to participate in the case with Lake Frazier, KGFL counsel, until the litigation has been finally decided.

AD PIONEER COINED GOP SLOGAN

Karl Frost, President of Agency, First Offered - 'Had Enough? Vote Republican!'—

A PIONEER in broadcast advertising provided the Republican party with its winning slogan— "Had Enough? Vote Republican!"

He is Karl M. Frost, president of the Harry M. Frost Co., Boston, who was placing radio business in the early 20's before rate cards were heard of, and whose firm still handles a large radio budget.

Archibald Giroux, Republican State chairman in Massachusetts, and Charles Nichols, secretary, early last summer asked Mr. Frost to submit ideas for a slogan to be used on posters in the Massachusetts Republican campaign. Mr. Frost came up with: "Have you had enough?" "Have you had enough of the alphabet?" "Had enough shortages?"

He tossed them into the hopper for his associates, Charles Bauer, Harold E. Bessom and Sherman

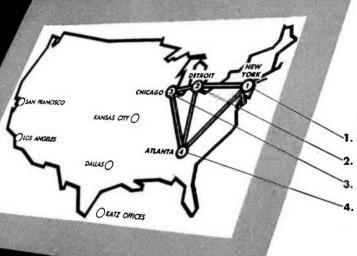

Keene, to mull over. Out came the two words-"Had Enough?" State GOP headquarters officials said of the slogan, "It stinks." Their views were shared by others.

An outdoor board, purchased by the Republican State Central Committee, was temporarily unused. The slogan was tried out. Painted on the board were these words: "Had Enough?-Vote Republican."

"The paint was hardly dry before we began to get telephone calls praising the slogan," said Secretary Nichols of the Massachusetts GOP. Newsweek, Time and other periodicals and newspapers carried the story of Boston's signboard. Orders from other Republican quarters for posters began coming in. GOP national headquarters in Washington ordered a supply. The slogan was used throughout the country.

Manpower + Method

WIP WINS DISPUTE, STATION HEAD SAYS

WIP Philadelphia last week won both points at issue in a dispute with American Communications Assn. (CIO), following a strike by the union last summer [BROAD-CASTING, Aug. 5], Benedict Gimbel Jr., president and general manager of the station, announced.

The two arbitrated issues were (1) the union's charge that an employe was fired because of union activity, and (2) a dispute on hours of work in the program department's seven-day schedule. The arbitrator, chosen by both management and union, was Bert W. Levy, a local attorney, in cooperation with the American Arbitration Assn.

During the two-week strike, management operated the station despite a walk-out of technicians and program department employes, represented by ACA.

NARND to Select Committee For News Award Competition

AN AWARDS Committee to select two stations annually for commendation for "exceptionally outstanding news service to their areas" will be named shortly by the board of directors of the newly-organized National Assn. of Radio News Directors (NARND), John Hogan, news director of WCSH Portland, Me., president, announced last week.

At its first annual convention in Cleveland late last month the NARND adopted resolutions urging that locally-originated news be gathered, written and presented by personnel trained in news writing and evaluation; that news be written and presented accurately and without bias; that the autonomy of the news director and his de-

partment should be recognized, and that news directors should be directly responsible only to their "journalistic principles and ideals" and to station general managers.

Officers, in addition to President Hogan, are: Sig Mickelson, WCCO Minneapolis, and Jack Shelley, WHO Des Moines, vice presidents; John Murphy, WCKY Cincinnati, treasurer; Edward Wallace, WTAM Cleveland, executive secretary. Serving as directors with the officers are: Jack Krueger, WTMJ Milwaukee; Tom Eaton, WTIC Hartford; Robert B. Mahoney, KWKH Shreveport; Soren Munkhof, WOW Omaha; Ben Chatfield, WMAZ Macon; David Kessler, WHAM Rochester.

The 68 delegates voted to restrict

"give me a place to stand and I will move the earth"

Archimedes, who voiced this interestingly rash statement, believed that great accomplishments are possible at a minimum of effort if only you have the proper vantage point.

That's why he discovered the principle of the lever...an idea that applies in many ways.

For example, implanting an idea in the minds of several million people all at once seems like an impossible task, particularly when you scatter those people throughout 123 different counties in five different states. It's a task that would have worried even Archimedes.

But WWVA handles it with ease, every day

of the year. Backed by 50,000 watts, it can carry your sales story into more than 2,000,000 radio homes. And WWVA has the leverage of acceptance and popularity that will move them to spend some of their \$4,000,000,000 yearly income for what you're selling.

Talk to them through the voice of WWVA. They'll be listening—and they're ready to be moved.

AFRA Softens

AFTER Bible Institute of Los Angeles pleaded for special concession, American Federation of Radio Artists granted it a waiver to use a missionary students choir on the new Bible Institute Hour, MBS commercial program. In keeping with its national code, the union at first insisted that professional singers be hired or the student group join AFRA. Neither AFRA nor the Tullis Co., Hollywood agency handling the religious account, would disclose details or the reason for the concession.

full membership to the men actively in charge of station news. Other editors and writers will be admitted to associate membership, although all delegates attending the Cleveland convention will remain as charter members for one year, at the end of which the board again will take up the question of associate memberships. Radio news wire services will be accorded associate memberships. Dues for the NARND are \$10 per year. The following registered at the Cleveland meeting:

Agency Radio Head Warns Stations

'One-Legged Promotion' Endangers Old Accounts

A CHICAGO advertising executive, Harlow P. Roberts, vice president and radio director of Good-kind, Joice & Morgan, sounded a warning against what he terms

"one-legged pro-motion" on the motion" part of local station sales managers.

At a meeting of Taylor-Howe-Snowden execu-tives following tives the NAB conven-

Mr. Roberts

tion, and before groups of advertisers in several midwest cities visited by Mr. Roberts during the past three months, he has scored station management for its growing indifference to local advertisers and to sales representatives of national accounts.

It is not sufficient, Mr. Roberts declared, for individual stations to bombard the sponsor and agency with success stories consisting largely of coverage claims, mail pulls, and Hooper ratings. This he termed "one-legged promotion."

Close Contact

Mr. Roberts compared local stations' complacency toward well established accounts to a woman wearing the same dress day after day. After awhile, he said, you lose sight of her identity. What the radio station must do, in Mr. Roberts' opinion, is to give her a new bonnet.

This can best be accomplished by local station salesmen keeping in close contact with the manufacturers' and distributors' sales forces and with local retail outlets.

As proof of his argument. Mr. Roberts cited Dept. of Commerce figures showing the tremendous upsurge in national population. As compared with 105,710,620 people in the United States at the end of World War I, there are now over 139,000,000.

Total families in 1920 were 24,-351,676 as compared with 37,500-000 in 1945, he said. This is an increase of 159%, an increase even greater than that in population. Average size of the American familv in 1920 was 4.4. In 1945 it was 3.9, indicating that thousands of smaller families have established homes of their own.

Age groups also indicate the prospects for millions in additional advertising revenue at the local level, he explained. Today 24,000,-000 persons are in the nine years or under classification. Thirty-two million are between 20-29 years of age. It is this group who will contribute the largest share of purchases for new homes, furnishings, cars, radios and appliances. The national income in 1920 was only 70 billion. In 1941 it was 160 billion. Today, Mr. Roberts said it is beginning to level off. What does advertising intend to do to check its fall, Mr. Roberts asks.

Based on figures supplied by the Dept. of Commerce, Mr. Roberts said the nation can expect a 67 1/2 % increase in home construction, manufacture of cars, radios and home appliances. With 34 million radio homes in 1945, as compared to 60,000 in 1920, broadcasting is in a position to reap a golden harvest if it will concentrate on local spot and national spot business instead of trumpeting about network programs, Mr. Roberts believes.

Ranid Growth

The growth of broadcast advertising from \$20 million in 1927 to \$400 million in 1945 is only a portent of its future, he declared. But, he warned, broadcasters face the stiffest competition from other media, as well as their own, in their history.

The battle for the advertising dollar is on in earnest, he told the Taylor-Howe-Snowden group, and the day when business flies in through the transom is at an end. The influx of new AM applicants and the addition of an estimated 3000 FM licensees will mean an end to easy money enjoyed during the war years by hundreds of AM stations.

Advertisers cannot, he warned, afford reckless advertising expenditures. The greater the number of media-which grossed \$138,200,-000 in 1945 compared to \$20,900,-000 in 1920-the more careful must be the advertisers' selection.

Mr. Roberts said radio's biggest problem is to justify the continued expenditure of long established advertisers who are now being subjected to the heavy guns of printed media.

"For the past nine months there has been much attention to getting more wages, higher rates, etc. Nobody seems to think of greater output, more service, larger audience. The public is getting tired of going without. What are you (the local station) doing about it?" Mr. Roberts asked.

Spur to Dealers

The radio executive said that in too many instances, local station salesmen do not even know the sponsor's local representatives. He cites the case of a large company, a large user of local radio, which added color insertions in the local newspaper. The response was enthusiastic, because the dealer could see the evidence of increased effort on his behalf. But, he declared, the same product had been advertised on the spot program for over three months, and the company had been

ALL-CHANNEL

TELEVISION TRANSMITTER

RCA's new 5-kw, 54 to 216 mc, Type TT-5A

One transmitter . . . one standard of quality . . . for all 12 metropolitan channels

This revolutionary, new RCA television transmitter, we believe, offers the last word in convenience, operating economy, and performance. Here, in one attractively styled group of cabinets, are all the necessary components of both the visual and aural transmitters.

Take a look at some of its features:

- Simplicity of operation ... complete unification of control ... no trick circuits ... no neutralization of modulated power-amplifier stage required on any channel ... only one easily adjusted modulated stage.
- Roomy, "walk-in" type construction . . . easy access to all parts through full-length front and rear doors . . . ease of handling and installation (each section only 25 by 36 by 80 inches).
- A revolutionary new tube used in both sound and picture power amplifiers—the RCA-8D21, a dual tetrode. Sets new records for stability, gain per stage, low grid current, linearity, and

band width by employing advanced principles of screening, cooling, and electron optics.

- The separate, sideband filter used in RCA's high-level system (i.e., only last stage modulated) means more straightforward circuits; eliminates complicated adjustments; assures better picture quality.
- "Reflectometers" incorporated in both the aural and visual output circuits. Basically, these are uni-directional vacuum-tube voltmeters which provide an instantaneous check of the standing-wave ratio on the transmission line and peak power output; also used as safety devices to protect transmission line from power arcs caused by lightning, etc.
- Manual or automatic sequence starting. In automatic position, a three-shot recycling sequence returns transmitter to the air three times in case of momentary overload.
- A special "hold-in" circuit. Provides instantaneous return to air after momentary power-line failure.
- Console provides four-position, push-button monitoring of visual signal—transmitter input, modulator output, sideband-filter output, and "off the air." (Third or fourth position measures percentage modulation of visual carrier.)

Outstanding features like these—of benefit to the station engineer, manager, owner, and audience—have been built into all the new items in RCA's complete television line. Deliveries on existing orders from 20 top broadcasters have already begun on such items as portable field equipment, synchronizing generators, and monoscope cameras. *Initial* shipments of transmitters and other equipment will be made this fall.

An early indication from you of your television plans will help us meet your delivery requirements. Write or call: Engineering Products Department, Radio Corporation of America, Camden, New Jersey.

if you can't take 'em all, take the BEST!

Naturally, you can't buy <u>all</u> the radio stations in the market you want, unless you have an unlimited budget.

It makes sense, then, to take the best radio station in the market you want. WMC is first in Memphis, according to Hooper--first by every yardstick of measurement in evaluating radio stations.

-the station with the billion dollar market

PACKAGING THE NORTHWEST

Fifteen Stations in Washington and Oregon

Form Group for Local Coverage

FIFTEEN 250-w stations have formed Oregon-Washington Radio Group to tell the story of their market and to sell time on a group or individual basis.

Three station operators first developed the idea back in 1943 when they became concerned because timebuyers were using metropolitan stations in the expectation of getting reception in smaller communities. These three men-Fred Goddard, KXRO Aberdeen, Wash.; Tom Olsen, KGY Olympia. Wash.; and Joe Chytil, KELA Centralia, Wash .- were convinced that eastern timebuyers were unaware of the mountainous terrain that kills long distance reception in the Northwest. They decided to band together to spread the word that local coverage is essential in their area.

As pioneers they encountered slow going in uniting the other stations, but in the fall of 1944, two more stations joined, KWLK Longview-Kelso, Wash., home of timber industries, and KAST Astoria, Ore. This brought the area the group covered to a population of 300,000 with 80,000 radio homes. Early the next year, six Oregon stations were added: KSLM Salem, KORE Eugene, KBND Bend, KOOS Coos Bay, KRNR Roseburg, and KWIL Albany.

This spring the list was completed by KFLW Klamath Falls, Ore.; KVOS Bellingham, Wash.; KRKO Everett, Wash., and KPQ Wenatchee, Wash. At an October meeting, with Mr. Goddard, the originator, as chairman, the group set up a first year budget, selected Short and Baum Adv., Portland, as its agency, and laid plans for national promotion. Detailed information about the market is to be released through the Homer Griffith Co.

Roberts

(Continued from page 24)

a consistent advertiser on the station for over five years. The dealer's attitude toward the product had been, "Fine, when I get some calls, I'll stock it." But when he was shown the printed media, he placed an order.

Radio. Mr. Roberts said, is too intangible for the inexperienced retail salesman to sell. It is up to the local station to do its own job of selling itself.

Local grocers, department stores and appliance dealers who are among the largest users of newspaper space still do not use much radio, largely because they do not understand it. The fault lies chiefly with the local stations' failure to promote their own medium at the local level, Mr. Roberts believes.

Taking local grocers as an example, Mr. Roberts produced a breakdown of media used by this type of advertiser. based on a survey by the Saturday Evening Post and the National Association of Retail Grocers among 1251 dealers last August.

The survey shows that 68.4% of grocers use newspapers; 32% use printed circulars; 9.4% use mimeograph ads; 9% use radio; 8.7% use post cards; 4.8% use letters; 2.1% use billboards and 11.6% use other media. Thus radio stands fifth among all media used by this type of advertiser, he said.

Sales clinics, closer contact with retail salesmen and dealers, and overall promotion of the station's local services will do much to combat the "one-legged promotion" which has caused radio to fall behind in the race by other media for the advertising dollar, Mr. Roberts said.

WFBC TRANSMITTER CLAIM QUESTIONED

EDITOR, BROADCASTING:

In BROADCASTING Magazine of October 28, 1946 I find a picture and story appearing on page 56 in which WFBC of Greenville, S. C.. claims to have purchased the first 50 kw FM transmitter in the South.

WRAL purchased a 50 kw FM transmitter from REL, Long Island, New York and signed the contract under date of May 24, 1946. You might ask WFBC to give the date of this signing. If they had been intending to claim this distinction and signed contract antedating WRAL's contract with REL, they waited a mighty long time to do it. Will you publicize the above facts?

The writer was probably the first man from the entire Southland to contact Major Armstrong about FM and we were the first to establish FM in North Carolina in or near any city or town of this state.

When it comes to FMing WRAL does not propose to take a back seat in favor of anybody.

A. J. Fletcher, President Capitol Broadcasting Co. Raleigh, N. C.

WAUX Plans Start

WAUX Waukesha, Wis., expects to be on the air about Dec. 15, Russ Salter, secretary-treasurer, announced last week. The station will operate on 1510 kc with 250 w day-time. A Gates transmitter and Wincharger antenna will be used. Meldgar Figi is general manager. Owners, besides Mr. Salter, are Carl Taylor, president, and Lloyd Burlingham, vice president.

WTOL Wins Motion To Reopen Hearing

Toledo Outlet Will Present Corrected Exhibit

MOTION of WTOL Toledo to reopen consolidated hearing in which WTOL seeks to change frequency from 1230 to ke to 980 ke and increase power from 250 w to 5 kw, with directional antenna nights, was granted last week by Comr. E. K. Jett, sitting as motions chairman.

Theodore Pierson, counsel for Community Broadcasting Co., WTOL licensee, requested that the hearing be reopened to present a corrected exhibit regarding commercial and sustaining programs carried in a two-year period by the Toledo station. At the close of hearings last May, in conjunction with the applications of Skyland Broadcasting Corp., Dayton, and Ohio-Michigan Broadcasting Corp., Toledo, for 980 kc with 5 kw power, Commission counsel requested that WTOL file a summary of sustaining programs carried over a two-year period, 1944-45 inclusive.

Andrew W. Bennett, counsel for Ohio-Michigan Broadcasting Corp., on Oct. 14 filed a letter with the Commission, challenging the accuracy of the WTOL program exhibit as submitted. He charged that "the examination of the entire period covered by the exhibit appears to disclose a clear plan for increasing the purported hours of sustaining time in such a way that its decision could only be by comparison of each item of an entire month with the daily program logs."

Mr. Pierson said that when Commission counsel, John McCoy, requested the WTOL program exhibit, the station was given two weeks to prepare it and staff members, faced with examining some 9,000 pages of log, took sample weeks and projected them over a period of time, in order to meet the FCC two-week deadline. A more thorough examination of the WTOL program logs disclosed the discrepancies and WTOL will submit a corrected exhibit, Mr. Pierson informed the FCC.

Rehearing is set for Dec. 11.

AMA Meet Set

THE REGULAR New York chapter meeting of American Marketing Assn. will be held Nov. 27 in the west ballroom of the Hotel Commodore, New York, and will be titled "Looking into the Future." Leon Henderson, director of the Research Institute of America, Washington, will speak on "Indications of Things to Come in the United States," and Isador Lubin, U. S. Delegate to the UN, former head of the Bureau of Labor Statistics and president of the American Statistical Assn., will address the meeting on "Indications of Things to Come in Europe."

A modern town crier, with soothing music, a plaintive manner of persuasion and an amazing following, is heard over WGN six nights a week from midnight until 1 A.M. His name is Guy Wallace . . . his program "Curfew Time."

"Curfew Time" started in May, 1945. The following October Guy made four requests for mail on consecutive programs . . . his mail for the ensuing month was well over 3000 . . . it came from 36 different states and Canada . . . it proved beyond doubt the popularity of the program and the effective coverage of WGN.

Today "Curfew Time" is proving the commercial value of "fringe" time, properly handled, by doing a real selling job for a variety of sponsors. Inquiries will be welcomed.

ACCESSORY EQUIPMENT for ASSURED PERFORMANCE.

Everything for the Broadcasting Station
FROM A SINGLE SOURCE

The GATES line of Broadcasting Equipment from Transmitters to Studio wire is complete for adaptability, versatility, broadcasting technique and high fidelity performance. You may equip your Broadcasting Studio complete from this single

source. Back of all equipment bearing the GATES name is a quarter of a century of engineering "Know How" and development. Only representative items are shown herein. Write for Catalog showing the complete GATES line. No obligation.

MODEL 6-C BROADCAST AMPLIFIER

A flexible amplifier which may be used for auditions, recording, monitoring and line amplifying. Has three audio stages, above average gain, wide and uniform frequency response and very low noise level.

MODEL MO-2696 MULTI-PURPOSE AMPLIFIER

Far monitoring and recording — both AM or FM. It fills many services in any radio Station. Has ample power for driving many Speakers and most Recorders and possesses high fidelity for AM or FM installations.

MODEL MO-2694 LINE AMPLIFIER

Far AM or FM installation. It easily satisfies fidelity requirements for AM broadcasting and possesses fine adaptabilities for FM systems. Notable for its versatility in termination arrangements, appearance and inherent engineering design.

MODEL 28-CO LIMITING AMPLIFIER

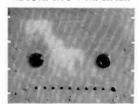

This Unit is outstanding for its engineering developments assuring low distortion, limiting action (if provides a dual limiter circuit), compactness and troublefree performance.

MODELS 60A, 61A PREAMPLIFIERS

Both models are designed to furnish ample gain far any transcription pickups. Model 61A has the added feature of a gain control so when used in a preamplification circuit its output level may be adjusted to equal other transcription pickup circuits in the installation.

MODEL RA-10 RECORDING AMPLIFIER

This Unit is designed to produce proper frequency response curves for making various types of recordings. A 3-position switch on front panel affords quick selection of proper filter circuit within the amplifler.

Since "the Beginning of Radio 7ime"-1946 =

QUALITY . SERVICE . DELIVERY

MODEL SC-1 POWER SUPPLY

Specially designed for use in experimental laboratories of varying types. This is but one of a series of Units available of GATES that will supply campletely variable voltages at high or low current - either AC or DC.

MODELS M-100, M-101 METER PANELS

The panel illustrated provides 2 DC Milliammeters and 1 DC Voltmeter. Is ardinarily installed with relay rack equipment for measuring the valtages and currents in the vacuum tube circuits. The notched ends permit mounting on any standard 19 in. relay rack.

SERIES 7 **VOLUME INDICATOR PANELS**

Provides the reading of volume level of audio circuits. Valuable in taking frequency response measurements, checking level of incoming remote lines and making comparative level measurements of various circuits where the levels are critical.

"3 ACES" for REMOTE BROADCASTING

REMOTE FOURSOME

Designed for versatility this Unit will handle both small and large remote jobs. Assembly of component parts in attractive and convenient carrying case, the Foursome is superb for adaptability far those special events as well as for performance.

Dynamote Remote Amplifier

This is one of the most popular remote amplifiers in use today. In engineering design, modern styling for showmanship and adaptability, it is in a class ta itself for on-the-spot broadcasts.

REMOTE CONDITIONER

This is a 3-stage amplifier complete with power supply all housed in one cabinet. Campactness and easy mobility plus performance has given it wide acceptance. Accommodates microphones of any standard impedance.

Survey Says Stations Merit Tax Relief

Statistical Research Inc. Presents 70-Page Tabulation

A SURVEY intended to demonstrate to Internal Revenue Bureau that radio stations are eligible for tax relief under excess profit provisions despite power increases during base years of 1936-1940 has been prepared by Statistical Research Inc., Chicago.

The survey, contained in over 70 pages of tabulations, described in a letter the research firm has sent to stations throughout the nation. Statistical Research, which obtained tax relief for WJJD Chicago in 1944, undertook the study, according to A. R. Ellman who supervised its preparation, in order to clarify procedures for obtaining relief.

The survey shows that 274 sta-

tions which were doing business Jan. 1, 1936 to Dec. 31, 1939—the base tax period—increased power during that period and increased rates an average of 36.38%. On the other hand, 279 stations which did not boost power increased rates an average of 17.6%.

Specific Mention

He said the radio industry is in a particularly advantageous position to obtain such relief inasmuch as it is specifically mentioned in the excess tax regulation describing Sec. 722 as follows:

"A radio station increased its power during the base period 1936-1939 inclusive necessitating changes and expansion of physical property of the station and thus enlarged the area it served. The station is thereby enabled to increase its volume of advertising and advertising rates. Such radio

station is deemed to have effected a change in its capacity for production or operation."

On the strength of the above quotation many stations filed applications for relief but failed in many instances because the Internal Revenue Bureau did not accept the increase in power as automatic cause for granting relief, Mr. Ellman said. The objection raised by the bureau, he declared, was that advertising rates increased generally whether or not accompanied by an increase in power. The Internal Revenue Bureau's argument can now be successfully invalidated, Mr. Ellman said.

Mr. Ellman said the successful prosecution of such claims can only be obtained by a mutual interchange of information between stations. Some means should be established to provide a central

WFMJ Park

THE WFMJ Broadcasting Co. has presented the Village of Boardman, Ohio, with 72 acres of woods and level land for park and playground purposes. Tract is five miles south of Youngstown and adjoins the site on which WFMJ's new 5,000-w AM and 50,000-w FM transmitters are to be located.

clearing house whereby radio stations' claims can be compared without the release of confidential information in reference to operations.

Figures Obtained

As an extreme example Mr. Ellman cited the increase of one station from 2500 w in 1936 to 5000 w in 1940. It increased its rate 62.72%. Another 2500 w station made no increase in power but its rates were advanced only 11.98% during same period. A comparison of these two stations shows an increase of 74.70% in rates that could have been possible under an increase in power for the second outlet cited.

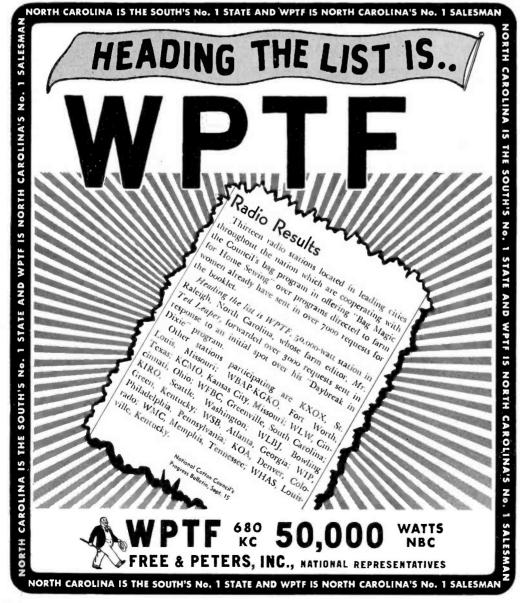

ATLASS RECOVERING, MUST REST 6 WEEKS

H. LESLIE ATLASS, vice-president and general manager of CBS Western Division, Chicago, was reported by his physician to be "much improved" after suffering a heart attack while driving one of his prize ponies Nov. 2, during the Chicago Horse Show at the Chicago Coliseum.

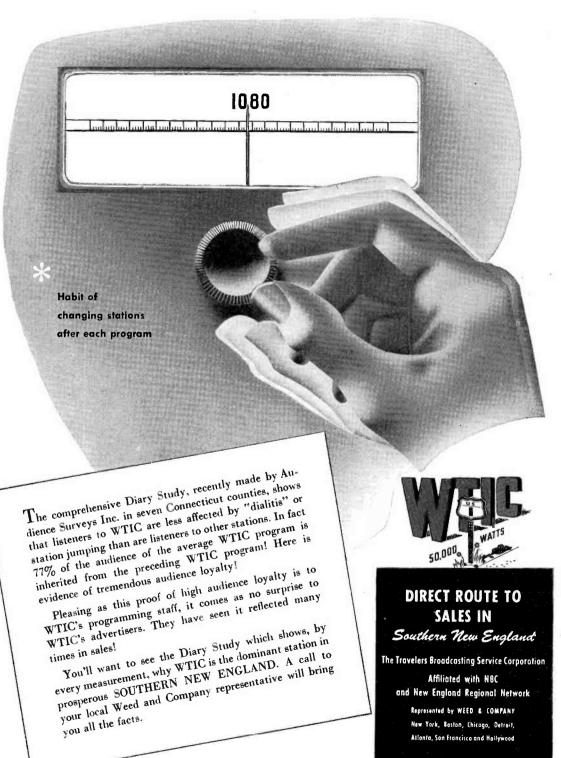

Mr. Atlass, 51, was driving "GI Joe" a pony valued at \$20,000 when he slumped to the floor of the pony-rig. He was rushed to St. Luke's hospital where he was placed in an oxygen tent. Hospital attendents said at first there were serious doubts that the CBS executive would recover but Monday he told friends he felt much better. His physician said he had recommended that Mr. Atlass remain in bed for "at least six weeks."

Mr. Atlass was not the only CBS-WBBM executive to require hospital care within the past two weeks. Ted Robertson, WBBM producer, collapsed from excitement in a studio when Neil Hamilton, currently appearing in State of the Union in Chicago, failed to arrive for a scheduled broadcast until two minutes of airtime. Mr. Robertson was sent home where he has been recting

Monday, two of WBBM's announcers, Art Mercier and George Watson were struck by a lumber truck outside Chicago when they stopped their car to examine a flat tire. The pair were returning from a hunting trip in Minnesota. Both suffered severe bruises but were able to return to their homes after treatment at a hospital.

DIALITIS** among WTIC listeners!

Prefers Judge

HOLDER of several honorary degrees and countless other titles, NAB President Justin Miller prefers "Judge" to Dr., Dean, Prof., Justice, Mr., or any of the other appellations to which he is entitled. Legal title, of course, is merited by service on the bench of the U. S. Court of Appeals for the District of Columbia.

Bishop Returns

WALTER R. BISHOP, after four years in the Navy and released as lieutenant commander, has rejoined WRVA Richmond, Va., as public relations director. While overseas he was in charge of the shortwave station on Guam which relayed accounts of the atom bomb tests at Bikini to the U. S.

Ben Franklin Foresaw Radio, NAB President Tells College

BENJAMIN FRANKLIN, the scientist, undoubtedly had in mind scientific miracles that would extend the range of the human voice when he championed the cause of freedom of speech, Justin Miller, NAB president, declared in his Nov. 1 address at the Founders Day Celebration, Franklin & Marshall College, Lancaster, Pa. He was awarded an honorary degree of Doctor of Laws by the college [BROADCASTING, Nov. 4].

When Congress enacted the Communications Act in 1934, Mr. Miller said, it specified that freedom of speech as used in the Constitution "included speech, broadcast through the air, by a radio transmitter and expressly enjoined the Commission (FCC) not to inter-

fere with that freedom. I have no doubt that, if and when the question is presented to the Supreme Court, it will uphold the interpretation which Congress has placed upon these words."

In exploring the writings of Franklin along with the observations of commentators he found four main categories: Franklin as a scientist, as an editor, as a champion of the people's liberties including freedom of speech and as a statesman in the give and take of public life.

Mr. Miller reviewed scientific experiments of Franklin, ranging from characteristics and possibilities of electricity to invention of the harmonica and studies in phenomena of nature. He outlined Frank-

JUDGE MILLER

lin's daring use of hypothesis and experiment as an editor, along with his willingness to admit error and start over again. He suggested that Franklin as an editor faced many of the problems now confronting broadcasters.

Historical Parallel

Tracing the oppressive English administration to the Colonies, Mr. Miller said, "It's important to note that in this country, during the last 25 or 30 years, the same type of administrative government has been developing; a breaking away from these guarantees and from the theory of separation of powers contemplated by the Constitution. We find among our people an increasing spirit of protest against over-reaching upon the part of administrative officerswho are not responsible directly to the people-we find examples of arrogance and insolence very similar to those suffered by the colonists prior to the Revolution. If we can profit by the lesson of history, we should take note of what happened 175 years ago and nip these present tendencies in the bud."

Franklin as a statesman, Mr. Miller said, was able to look through the details of little issues to those which were fundamental, and in his last speech at the concluding session of the Constitutional Convention in 1787 voiced astonishment that the compromise document approached so near to perfection.

Mr. Miller drew a comparison between broadcasting today and Franklin's observations by saying, "It astonishes me to find it [broadcasting] approaching so near to perfection as it does. May it be always a blessing to our people; a means of preserving that which our forefathers wrought for us; may it help, long, to prevent the despotism which comes only when people become so corrupted as to need despotic government."

Durex Test

DUREX BLADE Co., New York, Nov. 18 for four weeks will start a test spot campaign on 12 stations in five cities for new razor blade. Cities to be tested are St. Louis, Kansas City, Detroit, New York and Cleveland. Agency is Peck Adv., New York.

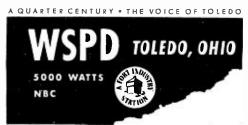

What's the matter George? If you were a horse and in a hurry to reach the Toledo market, you wouldn't want to walk, would you?

But, of course, there's an even quicker, better way—one that a lot of happy advertisers are using. WSPD bears their messages into this

great industrial area of Northwestern Ohio a lot faster than any pullman, and with more penetration than a streamliner going through a brick wall.

Within 1/3500th of a second (or quicker), WSPD can carry your message to a rich primary area where some 300,000 radio families live. And it can get you your share of the \$700,000,000 they spend every year. Interested?

At presentation were: (1 to r) Maynard Coe, director of National Safety Council's Agricultural Division; Wayne Griffin, announcer for series; Robert White, ABC's director of agriculture and producer of the program and Ned Dearborn, NSC president.

Feltis Cautions Researchers About Misuse of BMB Data

A WORD of caution to "feel your way slowly and carefully in the use of BMB station and network audience information" was given by BMB President Hugh Feltis on Monday in a talk to the radio group of the New York chapter, American Marketing Assn.

"Don't rush to conclusions," Mr. Feltis warned. "Test and experiment to see how the information can be validly used. Guard against misuses and misinterpretations that may lead to costly wrong de-

Basic Agreement

Speaking on the subject, "First Impressions of BMB." Mr. Feltis reported that they have been of two broad categories, "reactions concerning the BMB measurements as such and reactions with respect to specific findings and their uses." Most people, he said, whether advertisers, agencies or broadcasters. "are thoroughly in agreement with the broad basic principle which motivates BMB: the establishment of a uniform, comparable measurement of station and network audiences. But," he added, "they do not all agree on the precise meaning of the phrase 'station audience.'

"In some quarters," Mr. Feltis continued. "it is felt that families who listen to a station only once a week should not be included in its audience, for the likelihood that they will listen to any specific program is quite small. Others feel they should be included, just as a magazine's circulation includes those who only buy it occasionally. In much the same way, some people feel that a county in which only 10% or 15% of the radio families listen to the station at least once a week should not be included in its audience area.

"These are matters that cannot be determined arbitrarily," stated. "You marketing people and researchers are in an excellent position to study and analyze the BMB data and help find the an-

swers to these questions," he said. Reactions in the second group, concerning specific data and their uses, Mr. Feltis reported, have been chiefly questions from broadcasters, such as: "Just what does BMB report mean? How should I interpret it? How can I use its findings? Will it help me in programming, in engineering, in selling? Is there any correlation between my total audience as shown by BMB and the average number. of listeners per minute as shown by other types of surveys? What should I call my primary audience area?"

These questions, showing "that broadcasters are anxious to present a true and valid picture of their station audiences to you marketing men and researchers, . . . may take some little time to answer," Mr. Feltis said, asking his audience "not to be impatient."

So far, he said, BMB has produced facts that are important, basic, uniform and comparable. "The next job for the industry is to evaluate these facts, interpret them, see how they may be coordinated with other facts gained from other research, determine how they may be used and what broad conclusions may be drawn from them."

Reviewing the first BMB study and the three reports-the individual station reports which have been issued and the forthcoming area and network reports-Mr. Feltis stressed that BMB's objective had been to determine only two things: how many families listen to a station, and where they live. "This," he said, "is quite different from measuring the number of families that listen to an individual program. Neither measurement is a substitute for the other."

ATLAS Corp. has purchased "a large, but not controlling, financial interest" in Jefferson-Travers Corp., owners of Musicraft Records.

Playback Time = 15 Minutes ± Zero

- ▶ Directly gear-driven at both 78.26 and 33.33 rpm by a synchronous motor, the playing time of recordings made on the Presto 14-A corresponds to the original program time with split-second accuracy. The only deviation in speed may be due to variations in power supply frequency which seldom exceed 0.1%. Rotational flutter and background noise from mechanical sources are at an absolute minimum.
- ▶ The Presto 14-A represents a major advancement in the design of recording turntables, having all of the performance characteristics demanded by experienced engineers. Illustrated below is the new 14-A gear drive.

WORLD'S LARGEST MANUFACTURER OF INSTANTANEOUS SOUND RECORDING EQUIPMENT & DISCS

Miami, Freeport, Port Arthur Each Receive Proposed Grant

LOCAL RESIDENCE, experience in radio, and plans for active participation in station operation were deciding factors in proposed decisions issued by FCC last Monday looking toward new stations for Miami, Freeport, Ill., and Port

The proposed grants went to Vincent S. Barker, assistant engineer in charge, WNBC New York, and Mrs. Barker for a daytime station on 1570 kc with 1 kw at Freeport; Paul Brake, former WQAM Miami control room operator, for use of 1450 kc with 250 w fulltime at Miami; and Port Arthur Broadcasting Co. for 1340 kc with 250 w fulltime at Port Arthur.

Given proposed denials, because they are mutually exclusive with those nominated for grants, were the applications of Kenneth G. Zweifel, Freeport; Broadcasting Corp., Coral Gables, and Everglades Broadcasting Co., Miami; and Harry Francis Banker, Gilmore Keith Phares, Aubrey Edna Scott and Eliot Payson Tucker trading as Lake Side Broadcasting Co., Port Arthur.

At the same time the Commission made final its proposed decisions granting applications of:

Albert S. and Robert A. Drohlich doing business as Drohlich Brothers (former licensee KDRO Sedalia, Mo.), for 1470 ke with 1 kw fulltime at Flint, Mich. [BR)AD-CASTING, Aug. 12]; Wade R. Sperry, Edgar J. Sperry (general manager, WLAY Muscle Shoals. Ala.) and Josephine T. Sperry (WLAY

program director), doing business as Daytona Beach Broadcasting Co., for 1340 kc with 250 w fulltime at Daytona Beach [BROAD-CASTING, Oct. 14]; Atlantic Shores Broadcasting Ltd., 1490 kc with 250 w fulltime at Coral Gables, Fla. [BROADCASTING, Aug. 19].

Final Denials

Proposed denials made final in the same cases were for: Booth Radio Stations Inc. (WJLB), seeking new station at Grand Rapids; News Journal Corp. and Roderick T. Peacock Sr. and Roderick T. Peacock Jr. trading as Daytona Beach Broadcasting Co., requesting new stations at Daytona Beach; Southern Media Corp. and Miami Beach Publishing Co., requesting new stations at Coral Gables and Miami Beach, respectively.

Mr. and Mrs. Barker, winner of the proposed decision for Freeport, were found by FCC to have "greater familiarity with Free-

port" and "superior knowledge of broadcast station operations" the competing applicant, Mr. Zweifel, who is in the bottling business at New Glarus, near Freeport.

Mr. Barker, with NBC technical department for the last 13 years, would be manager and chief engineer of his proposed station. Freeport now has no AM outlet and receives no primary service from any existing station, FCC reported. The Barker application was filed in the name of Freeport Broadcasting Co.

Port Arthur Broadcasting Co., nominated for a grant for Port Arthur, is an equal partnership composed of Branch C. Todd, Mary A. Petru and Gray R. Harrower, who were associated in H. W. Cornell Assoc. selling classified advertising to several Texas newspapers, and Socs N. Vratis, organizer and former general manager and vice president of Inter-Mountain Network, Salt Lake City. Recently he has been associated with his brother in the restaurant business at Beaumont, Tex.

Greater Integration

FCC noted that Port Arthur Broadcasting Co. "offers a greater degree of integration of ownership and daily operation of the station than the competing applicant, Lake Side Broadcasting Co., owned by local business and professional men. Mr. Vratis would be station manager; Mr. Todd, business manager; Mr. Harrower, sales manager, and Miss Petru, program di-

In the Miami-Coral Gables case, the Commission said it could make no distinction between the applicants on a basis of relative needs of the communities. Plans of all three applicants were found "well designed to serve the needs of the Greater Miami area." But the Brake and Everglades applications were preferred, FCC said, because of plans for more extensive participation by the applicants in station affairs.

Choosing Mr. Brake for the proposed grant, the Commission noted that he has been a Miami resident for 12 years, "has an excellent background in radio communications" including experience with WQAM, has no other business interests, and would devote fulltime to the station. Mr. Brake was a Navy commander in the war.

Everglades is owned by Joseph B. Falt Jr. (60%), of Chase Nursery Co., Huntsville, Ala., who would be general manager, and Harold E. Sheffers (40%) of Miami, formerly of the commercial department of WOL Washington and with several other stations, who would be station man-ager. Peninsular is owned by George W. Thorpe (57.85%), advertising director of Miami Daily News, who would be general manager; P. J. Manson of Miami Shores, physician and surgeon, and Martha E. Manson, who have 19.16% each, and Thomas H. Anderson (3.83%), attorney.

Small Hit on the NAB Convention

Styled for Tomorrow by

tem Veyfus S.

Working closely with Henry Dreyfuss—one of America's leading industrial designers—the engineers of Bell Telephone Laboratories have created a truly outstanding line of FM transmitters.

Their TRANSVIEW design is functional design at its best. It contributes to sparkling, business-like beauty—to improved circuit design and equipment layout—to ease of operation and maintenance.

Western Electric

FM Transmitters featuring TRANSVIEW design

HERE'S WHY broadcasters who saw the 1 kw TRANSVIEW design FM transmitter at the NAB Convention were so enthusiastic.

They liked the full-length glass doors, which provide an unobstructed view of all tubes at all times.

They liked its striking modern appearance—and its attractive station call letters.

They liked its big, easy-to-read meters and its ease of access to components.

Most of all they liked its *low* intermodulation, its *low* harmonic distortion and all the other top-notch operating characteristics which put it as far out in front in performance as it is in appearance.

For full details: ask your local Graybar Broadcast Representative—or write Graybar Electric Co., 420 Lexington Avenue, New York 17, N. Y.

Editorial

GOP Tide & Radio

THE REPUBLICAN landslide inevitably means rough sledding ahead for the FCC, predominantly a New Deal agency since its creation twelve years ago. Sternest critics of the FCC will be in control of the legislative processes when the new Republican-controlled Congress convenes Jan. 3.

An investigation of the FCC is likely. Legislation to reorganize the FCC is possible. Legislators like Senator White of Maine, Senator Tobey of New Hampshire and Representative Wigglesworth of Massachusetts, heretofore a frustrated but vocal minority, will be in the legislative saddle.

There is an FCC vacancy. It is unlikely now that OPA Administrator Paul A. Porter, ostensibly "on leave" from the chairmanship, will be renamed by President Truman. Presumably he would prefer to return to private life. An able man who bore the burden of Government's most unsavory task in the postwar economy, Mr. Porter is urged for the presidency of Broadcast Music Inc., radio'sowned music source. We hope he accepts. The job is big, what with ASCAP contracts expiring in 1948. It takes a big man.

The Commission does not have a member with any practical broadcasting experience, yet it devotes 90% of its time to broadcast matters. The FCC has suffered because it has not had the broadcasters' viewpoint presented in its private sessions. The Blue Book is a shining example.

A practical broadcaster should be named, irrespective of party labels. The unexpired Porter term runs until June 30, 1949.

Earlier this year we suggested that a man of the calibre of C. W. (Chuck) Myers, founder of KOIN Portland, would make a fine choice. He had just sold his station-one of the nation's best in point of program attainment and public service.

Another broadcaster who, in our judgment, would prove a boon on the regulatory body is Paul W. Morency, general manager of WTIC Hartford since 1929. He has the respect and confidence of his fellow broadcasters. He has worked hard for better radio both on the NAB board of directors as a head of numerous important committee functions. His station has a fine reputation.

We don't know whether Mr. Morency or Mr. Myers would be available. We don't know their politics, if any. We do know that they represent the calibre of broadcasters capable of performing outstandingly on the FCC.

Time for a Time Change

THE TIME-BOMB didn't explode at the NAB convention. Broadcasters, who were expected to break precedent with a demand for relief from the DST chaos, succeeded merely in getting through an innocuous resolution.

This resolution took cognizance of the "confusion to listeners and the disruption of orderly broadcasting" brought about by the switchovers in April and September, and endorsed the principle of "uniform time systems." It requested officers of NAB to promote Federal legislation to establish uniform time. It further resolved that, pending Federal action, it "recommended that the networks give serious consideration to the feasibility of operating on standard time.'

These things the resolution didn't mention:

That listening habit is the cornerstone upon hich a radio audience is built and any change time not only causes confusion but curtails

in time not only causes building stimulates advertisers in taking a summer hiatus and hurts radio in general.

That a majority of stations operate in non-new areas

That radio in about three-fourths of the country is sold short to benefit the other fourth in which network programs originate.

The resolution should have stated flatly that the NAB favors elimination of DST during the summer until there is Federal action establishing uniform time nationally.

Railroads and airplanes and ships and buslines operate on local standard time. We imagine the birds and the bees do it.

So why not radio?

Free Speakers

PUBLISHED in this issue are the comments of some of our nation's best-known contemporary defenders of liberty on the issue of freedom of speech.

There are those who have spoken up before against unwarranted encroachments upon basic liberties by Government. Their words might have meaning today in the face of such arrogations as those implied in the FCC's Blue Book, which its defenders say is to remain "unbleached."

Here are a few selected words from the mouths and pens of a few selected gentlemen. Embroidered in silk, embossed in bronze or merely chalked on the wall, they might lend practical as well as esthetic value to the decor of some Governmental offices.

The arts of power and its minions are the same in all countries and in all ages. It marks its victim; denounces it; and excites the public odium and the public hatred, to conceal its own abuses and encroachments.

-Henry Clay ... freedom of religion; freedom of press; freedom of person under the protection of the habeas corpus; and trial by juries impartially selected,-these principles form the bright constellation which has gone before us, and guided our steps through an age of revolution and reformation.

-Thomas Jefferson Even when laws have been written down, they ought not always to remain unaltered. -Aristotle

The remedy is worse than the disease. -Francis Bacon

That fellow seems to me but to possess one idea, and that is a wrong one. -Samuel Johnson

The newspapers! Sir, they are the most villainous, licentious, abominable, infernal -Not that I ever read them! No, I make it a rule never to look into a newspaper. -Richard Brinsley Sheridan

Whoever would overthrow the liberty of a nation must begin by subduing the freeness of speech.

-Benjamin Franklin

The office of Government is not to confer happiness, but to give men opportunity to work out happiness for themselves.

-William Ellery Channing (On reflection, we recommend that copies be struck off for the offices of all who participate in broadcasting-to be hung on the walls of network executive offices, in the foyers of broadcasting stations, in the council chambers of national associations and-let us be last to take the narrow view-in the prisms occupied by editors and publishers.)

Our Respects To-

KEITH SINCLAIR ROGERS

T'S ALMOST forty years since Keith Sinclair Rogers first went on the air. There's no mistake in the count. It was in 1907, when he had just turned 15, that he had a one inch spark coil transmitter on the air, used a coherer relay, and decoherer as receiver.

Keith Rogers has never left radio since. Today he is owner of CFCY Charlottetown, P. E. I., a 5 kw station which grew up from a 10 watter in 1921, and still operates an amateur station VE1HI. He is president of the Maritime Association of Broadcasters and last Wednesday he was named honorary president of the Canadian Association of Broadcasters.

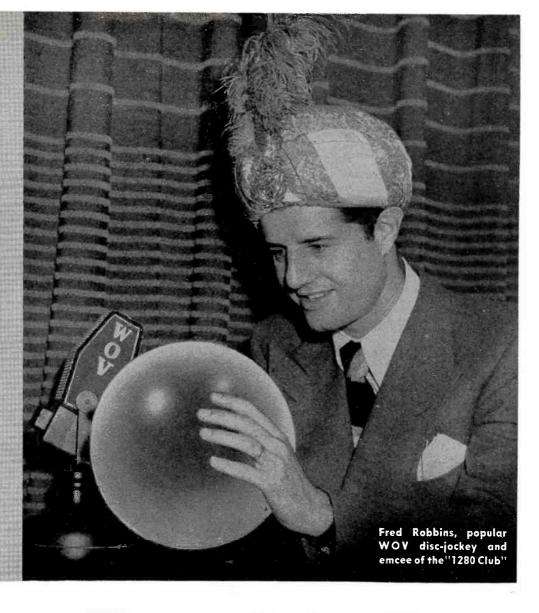

Keith Rogers' interest in radio has permeated his entire family. Mrs. Keith Rogers (Flora Smith till she was married in 1912) is vice-president of Island Radio Broadcasting Co., owners of CFCY, and is also musical director of the station. She is as well-known to Canadian broadcasters as is her husband, the two always appearing at meetings of the industry. Their eldest daughter, Margaret Elizabeth, is director of women's programs and continuity editor of CFCY, and her husband, R. F. Large, is program director and chief engineer. Second daughter, Marianne Grantham, was on CFCY's staff before her marriage to Lieut. Commdr. A. K. Morrow, maritime regional director of agricultural broadcasting for Canadian Broadcasting Corp., at Halifax. Their only son, William Keith, was a wireless mechanic in the Royal Canadian Air Force, is now studying at the Juilliard School of Music in New York. Their two grandchildren, Brenda Large and Andrew Keith Morrow, can be expected to follow in radio when they reach the kindergarten stage.

Lest anyone should get the impression that the Rogers family is the full staff of CFCY, the record shows that the staff numbers 25, of whom 14 are war veterans. Mr. Rogers still recalls that the first CFCY, licensed under those call letters in 1924 as the first commercial broadcasting station in eastern Canada, had a full staff of two people, himself and a teen-aged assistant.

Quiet-spoken, genial, grey-haired Keith Rogers is typical of the small town Canadian broadcaster who has his community interest at heart. In his case the community covers most of Canada's smallest province, Prince Edward Island, a rural area in the Gulf of St. Lawrence, whose people live largely by the produce of the land and the sea. CFCY is located in the provincial capital, and caters in its programming to the desires of the people of the province. A basic station on the CBC

Age, Sex, Income, Where and How They Live-NOW, All the Facts on "1280 Club" Listeners

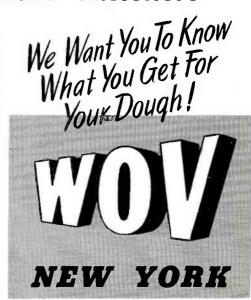

TO our knowledge, WOV's Fred Robbins is the only emcee of a radio show who can tell you everything there is to know about his listening audience.

Recently, "The Pulse, Inc." analyzed the first 25,000 registered members of, and ardent listeners to, WOV's "1280 Club", broadcast nightly from 6:30 to 9:00 p.m.

The results are astounding and reveal the actual "who, what, where and when" of an audience. For example: The "1280 Club" delivers 1280 listeners for a dollar.

Their average age is 23 years and eight months.

MUTUAL **Opponents** Whatever was left Almost a century ago, the Mutual Club of New York fought a stirring baseball contest with the Brooklyn Atlantics for "The Championship of the United States." Score: 12 to 13. "A vast assemblage"-see it under the elms in the background?-watched this great grand-daddy of today's World Series.

How times have changed! In 1946, Mutual (the World's Largest Network) again broadcast exclusively the classic that clicks in one out of every three U.S. homes - seven afternoons straight! Today, the assemblage is truly vast, with over 60.6% of all citizens taking in one game or more at their Mutual kilocycle. To Gillette and Baseball, Inc., Mutual says "thanks."

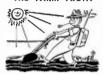

On the strength of this showing, Mutual invites you to look at the complete box-score of radio values. We can demonstrate Mutual's penetration of metropolitan markets...show how its single station ratings go sky-higher still ... and how Mutual coverage and programs have made us the "More for Your Money" buy in national sales.

1946 MUTUAL WORLD SERIES RATING A (Ave. of 2, Sundays)

REPORT FROM THE FARM FRONT

With only a modicum of press razzle-dazzle, KFI's "NOON FARM REPORTER" goes about the urgent business of bringing farmers in the Pacific Southwest a daily program that is tailored exclusively to their needs. This five-year-old Public Interest feature has no peer in America's richest agricultural area, due largely to the prodigious efforts of the program's emcee-Nelson McIninch. Young and personable, Reporter McIninch combines long-time air experience with a vast knowledge of modern farm practices. He has built up an amazing network of contacts with both private and governmental agricultural organizations to insure the utmost in accuracy and timely service in his daily broadcasts.

To illustrate the helpfulness of the "NOON FARM REPORTER" in all matters pertaining to the soil, here is a recent testimonial from an executive in the Los Angeles County Farm Loan Association. This gentleman asked KFI to mention the availability of loans to ex-servicemen who are seriously intent upon becoming farmers. One announcement regarding the loans was made on the "NOON FARM REPORTER" program as a public service. Result was an extended jamming of switchboards not only at the Los Angeles County office but at the Loan Association office in every county in Southern California. Let KFI jam a switchboard for you.

Commercial

Tom Peterson, manager of the Chicago office for Taylor-Howe-Snowden Radio Sales since 1944, has been named assistant general manager of the organization. His expanded duties will include coordination of THS sales offices in New York, Chicago, Dallas, Los Angeles and San Francisco. In addition he will supervise research department. Representation of the THS stations has been taken over by Keenan & Elckelberg, West Coast firm, with WILBUR EICKELBERG in charge of Los Angeles office and HUBBARD KEENAN in charge of San Francisco office. In addition to off San Francisco office. In addition to THS list. Keenan & Eickelberg also handles West Coast sales for WOR New York and WGN Chicago.

MODEL transmitter housing of WOPI-FM Bristol, Tenn., located atop Virginia's White Top Mountain, is expected to be completed by Nov. 30, according to W. A. Wilson, president and general manager of WOPI, with exception of transmitter itself.

Two-story fire-proof structure is being built of concrete, cinder block and steel, will contain two bedrooms, kitchenette, bath, transmitter room and control room on second floor and fuel oil steam heating plant, laundry room, storage room and space for three automobiles on first floor. Station already has purchased snow-plowequipped jeep. Complete spring water and sewage systems are being installed. Antenna tower will be self-supporting, 187.5 feet high, 2,210 feet above average terrain. Three-bay turnstile RCA antenna and beacon will be employed. Programs will be relayed by radio link from Bristol studios, 35 miles airline distant.

WOPI-FM is to begin operations Jan. 1, will serve about 3,500,000 people.

Respects

(Continued from page 46)

Dominion network, it brings its audience in addition to local programs, a variety of programs from other sections of Canada and the U.S.

His interests in communal affairs are not exclusively through CFCY. In the early days of broadcasting he became a voluntary instructor on radio in the provincial government technical school at Charlottetown

In 1922 he brought the first broadcast from outside Charlottetown to an audience at the school. including the governor and premier of the province when receivers he had built picked up WGY Schenec-

tady for an hour's program.

He has been a leading figure in Chamber of Commerce development in the area, being currently president of the Maritime Board of Trade, and a national councillor of the Canadian Chamber of Commerce. He has always been interested in education, boys and girls work in the province, programs, many educational and youth programs on CFCY.

Mr. Rogers was born at Summerside, P. E. I., Jan. 19, 1892. His schooling was at Charlottetown, and he graduated from Prince of Wales College in that city. After selling life insurance for a while, he became manager of the Prince Edward Island branch of the Canada Life Insurance Co., a post he held for nine years, after which he formed W. K. Rogers Agencies Ltd.

His radio career after his first spark coil transmitter was continued with a 500 w rotary spark transmitter in 1911, and a year's service as a wireless operator at sea. In 1911 he received a commission as lieutenant in the Canadian Signal Corps, and at Petewawa military camp in Ontario, he built the Canadian Army's first portable field wireless station. In 1912 on a crystal detector he heard his first radiotelephone broadcasts from the DeForest laboratories in New York.

During World War I he served as a signal officer in eastern Canada was communications officer at Halifax when U. S. Coast Guard

ships sailed into Halifax in 1916, using radiophone communication between ships and shore. At the end of World War I he held the rank of lieutenant-colonel.

In 1921 Keith Rogers built his first radiophone station, the 10-w 9AK, using batteries for all power. This station gave eastern Canada its first broadcast entertainment. was followed the next year with a 25 w station under the call of 10AS. In 1924 CFCY was licensed with 100 w, operated three hours daily. Station has been on the air ever since, has grown in power and service, is now on the air 161/2 hours daily.

When he is not busy with radio, he likes taking color movies, fishing for salmon and trout, shooting with rifle and shotgun. He can always turn to amateur station VE1HI and talk to other amateurs the world over on 10 and 20 meters. He belongs to the Charlottetown Club, is a vice president of the P. E. I. Fish and Game Association, is a Rotarian and Kinsmen, is a member of the Radio 20 Year Club and the Canadian Radio Quarter Century Club.

Opening Night Interviews

NEW wire recorded program, "Going Places," featuring interviews at opening nights of theatre, night club and sporting events has started on WCFL Chicago. Program is prepared by Malcolm-Howard Adv., Chicago, and is sponsored by Newart's Dept. Store. Guy Savage is m.c.

JEWISH GROUP HITS N. Y. TV APPLICANT

AMERICAN JEWISH CON-GRESS, which opposed the New York Daily News' FM application with charges that the newspaper is anti-Semitic and anti-Negro, has asked FCC to consider the same charges in passing upon the News' application for a New York television station.

The News, which in a four-day hearing on its FM application opposed consideration of the AJC claims in the first place and then sought to discredit the charges [BROADCASTING, Oct. 7], in a counter-petition last week objected to an extension of the evidence to the television case, which was heard some five months [BROADCASTING, June 10].

FCC, the News argued, lacks jurisdiction to consider evidence relating to the newspapers editorial and news content. Further, it contended, AJC was aware of the video application before the record was closed but made no effort to enter the hearing at that time.

The Congress petition claims evidence in the FM hearing "shows that the public interest, conveni-ence and necessity will not be served" by a grant to the News, and that the evidence is also applicable in the television case.

In Eastern North Carolina your product is sold when you use ...

Local advertisers know when they get results from their advertising dollar. In the rich agricultural belt of Eastern North Carolina, WRRF is the favorite of local advertisers, because they know it sells their market . . . a market with an annual income from tobacco alone of over \$175,000,000.00.

One merchant used WRRF exclusively to advertise his services. He is now happily building a new, enlarged plant to take care of his increased business. A food product concentrated its advertising budget for the area on WRRF and increased its sales volume 400 per cent throughout this territory of 600,000 potential buyers.

By concentrating your sales effort on WRRF, you too can cash in on this "as good as gold" market . . . if you want to sell Eastern North Carolina. write us for details.

HEADLEY-REED, National Representatives

GATHERED for opening of Derby Foods' Sky King, first radio venture for the company which makes Peter Pan Peanut Butter, are (1 to r):
E. R. Borroff, vice president, ABC Central Division; E. M. Thiele, advertising manager, Derby Foods; C. W. Beilfuss, president of Derby Foods, and A. O. Lane, sales manager. The ABC show is aired Monday through Friday at 4:15 p.m. CST.

Higher Wage Scales Mentioned as UE Meets Today to Reexamine Pay Policy

THE UNITED Electrical, Radio and Machine Workers of America (CIO), which last winter and spring prosecuted a prolonged strike against three of the biggest electrical manufacturing concerns in the nation, last week announced its intentions to reexamine its wage policies.

A meeting of UE delegates from locals in General Electric Co., Westinghouse Electric Corp., General Motors electrical division, RCA, Sylvania Electric Corp., and General Cable Co. was called for today (Nov. 11) in New York

day (Nov. 11) in New York.

Albert J. Fitzgerald, general president of the UE, said the meeting was "to chart plans for the immediate future on wage questions in the face of a high and rapidly increasing cost of living." The delegates would be asked to formulate a wage policy which, it seemed plain, would involve higher scales than those won in the bitter strikes against Westinghouse, GE and General Motors.

A survey of UE workers had disclosed that "because of the higher cost of necessities, workers have

"He wants to get on that WFDF School Workshop program."

substantially reduced their purchase of milk, butter, eggs and clothes for their families" and have been compelled to "use their meager savings to get along," Mr. Fitzgerald reported.

A general wage policy, including the statement that "wages must be substantially increased," adopted at the International Convention of the UE last September. At that time, the UE members emphasized the tactical wisdom of unifying their demands with those of other great CIO unions like the United Steelworkers and the United Auto Workers. It was recalled last week that Walter Reuther, president of UAW, had lately been trumpeting warnings that wages. as well as prices, must rise.

Ed Pamphilon to Manage New Upper Darby Outlet

SUBURBAN Broadcasting Corp., which received a construction permit for a new AM station on 1170 kc at Upper Darby, Pa., Nov. 1 announced last week that Ed Pamphilon, president of the firm, will manage its new station.

Mr. Pamphilon, former technical supervisor of WFIL and WFIL-FM Philadelphia, also is president of Airdesign & Fabrication Inc., Upper Darby, which manufactures transformers, and of Orthopedic Appliances Inc., Philadelphia. W. Claude Faust, treasurer of the licensee firm, will be sales manager. Ewing Julstedt, former WFIL engineer, will be vice president and technical director.

Uses New Cameras

ABC inaugurated its first regular series of sports programs Nov. 6 using image orthicon cameras, telecasting professional hockey games from both Philadelpoia and Chicago. Philadelphia series is telecast on WPIT2 and the Chicago games on WBKB. In both cities programs are scheduled for Wed. 8:30-11 p.m.

Agencies Enfranchised

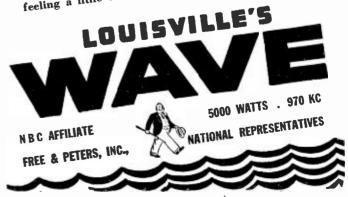

FORTY-EIGHT Canadian advertising agencies have been enfranchised by the Canadian Association of Broadcasters for the current fiscal year, the CAB has announced at Toronto. Included in the list of agencies are nine Canadian branches of American agencies: Atherton & Currier, Toronto; Dancer-Fitzgerald-Sample (Canada), Toronto; D'Arcy Adv., Toronto; Ellis Adv., Toronto; Kenyon & Eckhardt, Montreal; Ruthrauff & Ryan, Toronto and Montreal; J. Walter Thompson Co., Toronto and Montreal; Erwin Wasey of Canada, Toronto; Young & Rubicam, Toronto and Montreal.

Lights on Again

KLZ Denver was called recently by the Rural Electrification Adm. to aid in keeping rural power lines intact. Station was asked to broadcast request that hunters desist and cease from shooting telephone and electric power insulators in remote areas just for target practice. Seems that lights were going out all over the mountains as result of the potshots. REA now reports fewer such complaints, following KLZ announcements.

WUZ YOU BURNT IN RED HOT (Ky.)?

Time was when radio advertisers thought that, to sell any stuff, they had to cover every hamlet in Kentucky. (Red Hot, for instance — and no joke, that's a genuine Kentucky town!) But now most advertisers know that WAVE alone — with only 5000 watts — gives them \$\text{VAVE}\$ alone — with only 5000 watts — gives them \$\text{51.9%}\$ as much retail sales as Kentucky's total, and at a lot less cost. How about it, pal — aren't you really at a lot less cost about Red Hot, these days?

WNAX STUDIES GUATEMALA CORN

Midwest Station Sends Its Farm Director

-To Observe Latin Practices

CORN grows 10 feet high in Guatemala and is practically impervious to disease, insects and drought. That's why Chris Mack, farm service director of WNAX Yankton, S. D., has been sent down there.

Since early October he has been working with wire recorder in even

Mr. Mack (r) and Mr. Elder tru to uproot sturdy stock of Guatemalan Corn

the remotest sections of that country to get the story for the farm audience of WNAX. Mr. Mack has been studying agricultural practices and visiting the Iowa State College Guatemala Tropical Research Center, a corn study station 60 miles from Guatemala City. Iowa State College is cooperating

in the trip and its information director, C. R. Elder, has accompanied Mr. Mack.

Researchers of the college believe their Guatemala experiments will establish new corn-growing practices and improve crops in the Midwest. In addition to daily interviews and stories which Mr. Mack has been airmailing to WNAX on wire recordings, he has taken color movies and stills to be used in lectures before farm groups on his return this month to the U.S.

Mr. Mack and Mr. Elder have been received by the Guatemalan Foreign Minister and Minister of Agriculture. Latter arranged for a plane and interpreter to reach an inaccessible part of the country where an agricultural resettlement program is underway. Pair also were guests at a presidential reception on Oct. 20.

Overseas Salute

Overseas Salute
CITY of Dunkirk, New York, Nov. 28,
Thanksgiving Day, will bring the "one
world" concept closer to reality when
its pays tribute to its French namesake, Dunkerque, France, on a halfhour CBs program, 3:30-4 p.m. Program will include a five-minute pickup from Dunkerque with Mayor Robelet of the French city responding to
the speech of Mayor Murray of the
American city. Charles Boyer, film star,
has accepted town's invitation to act
as m.c. and Elsa Maxwell also will participate.

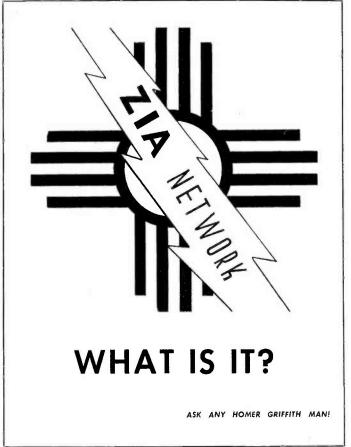

RADIO CONTINUITY

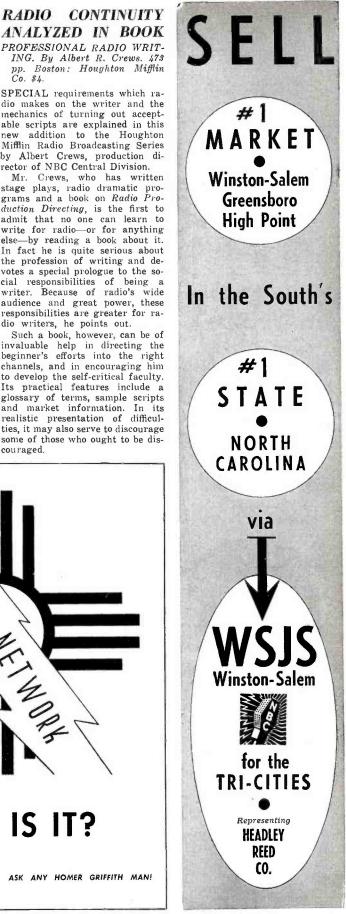

pp. Boston: Houghton Mifflin

SPECIAL requirements which radio makes on the writer and the mechanics of turning out acceptable scripts are explained in this new addition to the Houghton Mifflin Radio Broadcasting Series by Albert Crews, production director of NBC Central Division.

Mr. Crews, who has written stage plays, radio dramatic programs and a book on Radio Production Directing, is the first to admit that no one can learn to write for radio-or for anything else-by reading a book about it. In fact he is quite serious about the profession of writing and devotes a special prologue to the social responsibilities of being a writer. Because of radio's wide audience and great power, these responsibilities are greater for radio writers, he points out.

Such a book, however, can be of invaluable help in directing the beginner's efforts into the right channels, and in encouraging him to develop the self-critical faculty. Its practical features include a glossary of terms, sample scripts and market information. In its realistic presentation of difficulties, it may also serve to discourage some of those who ought to be discouraged

A. BITTER, former chief engineer for Unity Corp., owner of WTOD Toledo, has formed his own consulting engineering firm, Bitter Assoc., in Toledo.

STEVIE KOLOM has joined the operating staff of CKGB Timmins, Ont. WILLIAM KELLY, has joined the operating staff of CKWS Kingston, Ont.

KENNETH HADLOCK, control engineer at WFEA Manchester, N. H., is the father of a boy born Oct. 29.

JIM BRAY, engineer at WGBS Miami, Fla., is the father of a boy.

PAUL FLYNN of the engineering staff of WTAG Worcester, Mass., is the father of a boy.

CHARLES J. KAYKO, in charge of en-gineering and production for Sparks-

Withington Co., Cleveland, since 1926, has been elected vice president of the firm.

STROMBERG-CARLSON is manufac-turing a simple, low-priced converter which is said would restore the useful-ness of many of the 350,000 pre-war FM radio receivers. Called the Driscoll FM Adaptor, device functions as a re-placement for the conventional, built-in FM antenna. It will retail for \$6.35 plus installation charges.

Tolg, BBDO, Chicago; I. Keith Tyler, Ohio State U., Co-lumbus; Judith Waller, NBC Chicago; Earl Williams, KFAB Omaha; and William O. Wiseman, WOW Omaha.

Two Join MBS

F. CARLETON McVARISH, former director of merchandising and research for the Yankee Network, and George Comtois, former account executive in New York for WLW Cincinnati, have joined MBS as manager of audience promotion and account executive of the eastern sales staff, respectively. During the war Mr. McVarish served with AAF and shortly afterward was appointed assistant distribution chief of the Research and Analysis Branch of the OSS. Previous to his association with WLW Mr. Comtois was for five years radio director of Federal Adv., New York.

NEWS

GEORGE GRAY, announcer at WGBS Miami, Fla., has been appointed news editor of the station.

ELMO CRONK has assumed charge of the farm news bureau of WJNC Jack-sonville, N. C. He also is handling hill-billy shows for station.

JACK BARRETT, sports announcer of WRHP Tallahassee, Fla., new outlet is the father of a boy.

PETER STURSBERG, formerly of CBR Vancouver and war correspondent in Europe for the CBC, now on foreign staff of the London Dally Herald in Paris in Oct. married Jessamy Anderson Robertson of Inverness, Scotland. KERWIN HOOVER, news writer of KFI Los Angeles, is father of boy born Oct. 21. HARRY ZON, former chief, Federated Press Washington bureau, has been named news editor of WQQW Washing-ton, new 500-w daytime station.

DREW PEARSON, ABC commentator, Nov. 7 was presented the annual Unity Award of the Golden Slipper Square Club, Philadelphia fraternal and chari-table organization.

JOE ALVIN, former NBC Western Divi-sion manager of news and special events, has joined the Society of Mo-tion Picture Producers Assn. as assist-ant to Donald Nelson, president. He will handle SMPPA public relations. NEAL MOYLAN, special events director of WPBL Syracuse, N. Y., is the father of a girl, Nancy Lee, born Oct. 31.

of a girl, Nancy Lee, born Oct. 31.
BEN CHATFIELD, news director of
WMAZ Macon, Ga., has been initiated
into the Emory U., Atlanta, chapter
Sigma Delta Chi, national journalis
fraternity. Same honor was paid last
year to WMAZ general manager, WILTON COBB. Station sustains all newscasts as public service features. Five
full-time and four space-rate correspondents from Macon colleges and
high schools are employed by WMAZ
to cover local news. Washington bureau also is maintained.

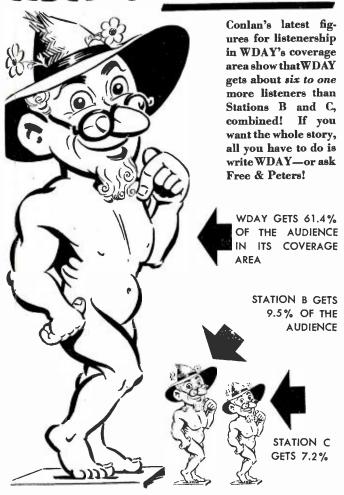

Bob Burns Helps WKY 'Oklahoma' Celebration

BOB BURNS will originate his NBC show at WKY Oklahoma City Nov. 24 in connection with festivities celebrating the appearance of the musical comedy "Oklahoma" in its native locale the following night. Although the Oklahoma City municipal auditorium seats 6,000 mail orders have been so large that an additional performance beyond the eight scheduled has been arranged.

A parade on Nov. 25 will include a 450-piece band. With WKY. Gov. Robert S. Kerr of Oklahoma, one of the principal owners of West Central Broadcasting Co., has taken a leading part in arranging the celebration. West Central holds a construction permit for a new station in Peoria, Ill.

EY! LOOK AT NDAY'S FIGGERS!

FCC Lists at Least 89 FM Outlets as Now in Operation

AT LEAST 89 FM stations are in operation and "nearly all" are employing interim equipment pending completion of full construction, FCC declared last week.

The list of outlets now in operation exceeded the last previous compilation by 33. The previous list, prepared on the basis of FCC records, was carried in the Oct. 21 issue of BROADCASTING.

"About half of the stations listed were licensed before the war, and some of these stations are continuing to operate equipment in the old band [42-50 mc] on a temporary basis," the Commission reported in a statement accompanying the new list. Twenty-seven stations were shown in this category.

Responses from questionnaires being distributed to grantees along with their construction permits [BROADCASTING, July 29], indicate that in most instances regular equipment has been promised for delivery not later than mid-1947, although in a few isolated cases the promised delivery dates run into 1948.

A great many of the grantees indicate plans to start interim operation by the end of 1946 or in the early months of 1947, FCC authorities said. There has been no breakdown of the returns to show exactly how many plan interim operation and how many do not.

Among those reporting no interim plans, chief reasons assigned are inavailability of even interim equipment and belief that regular equipment may be secured as soon—or almost as soon—as that for temporary operation.

It was pointed out that most of the grantees, on the basis of questionnaires returned, have lined upstudio and transmitter locations, although several instances of construction difficulties due to Civilian Production Administration requirements were noted.

Stations added to the "in-operation" group since the earlier list was compiled are shown below, reflecting the picture as of Oct. 15. One of these, WINX-FM Washington, is operating in the low band (43.2 mc) pending transfer to its regular assignment. In addition, FM program service is being provided by developmental stations in Cleveland and Washington, D. C.

The list is as follows (designation of station as "A" indicates community class; "B," as metropolitan or rural):

ANSWERS CRITICISM Listener Not Always Right, Says WCBS

"MAYBE you don't know how to listen . . ." was the caption given a unique full page ad in the Nov. 3 New York Times by Columbia's key station in New York, WCBS, formerly WABC.

The page was designed for "certain groups under the impression that radio is not adequately alive to the central problems and critical dilemmas which the world is now facing."

The WCBS layout points out that it brings to its audience 130 separate broadcasts of objective news report and analysis each week and lists other WCBS programs designed to "provide the listener with a wider understanding of the world he lives in."

Of radio's critics, the advertisement asks: "Could it be that your opinion is based on what you happen to hear instead of what you try to hear? No one, we believe, claims that every program on the air will please or interest every listener. Nor does anyone claim that radio is not guilty at times of the same immaturity of taste and viewpoint as any popular agency of communication. But to believe that this is the rule rather than the exception, or that radio is insensitive to its times, is perhaps to listen carelessly or to ignore the evidence."

K&K Production

FOLLOWING the lead of several other Chicago agencies, Kuttner & Kuttner, Chicago, this week announced the formation of their own radio production company.

Title of the new firm is Continental Productions Inc., and all of the agency's spot and national radio business will be handled through its offices.

Larry Kurtze, former CBS production staff member, will supervise production, with Robert D. Schoenbrod in charge of promotion and sales.

Unshackled Radio Urged by IACRS

President of Inter-American Group in New York

PRESERVATION of the freedom of radio, uncontrolled by government regulations, was urged last week by Lorenzo Balerio Sicco, president of the Inter-American Congress of Radio Stations.

In New York following the close of the new organization's first meeting in Mexico City, Mr. Balerio Sicco, who is also president of the Uruguayan Assn. of Broadcasters and of Difusoras del Uruguay, said the Congress had five major aims:

"Our first aim," he said, "is to preserve freedom of speech...to have the same freedom in speaking as in writing. Secondly, we are striving for creation of a basic, uniform legislative body governing radio."

Mr. Balerio Sicco gave the third aim of the new association as "freedom to listen to whatever one wants or desires to hear over the air, without being restricted by any country of the Americas or by any tax on radio sets as exists now in Great Britain."

The fourth purpose of the Inter-American Congress of Radio Stations is "to facilitate harmony between broadcasters." This would include regular exchange of programs. Finally, the association president stated its fifth aim as being one "to create a very high professional standard of ethics between broadcasters of the Americas."

Mr. Balerio Sicco returned to Uruguay last Tuesday after several conferences with Clark-Wandless Co., U. S. representatives of his two Montevideo stations.

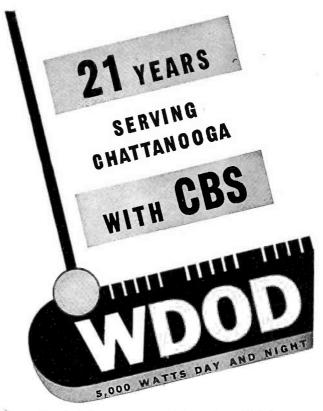

FCC LACKS QUORUM, DELAYS ARGUMENTS

FOR WANT of a quorum of FCC Commissioners, oral arguments scheduled for last Wednesday were postponed. No new date was set.

Of the six commissioners, Paul A. Walker was attending a convention of the National Assn. of Utilities and Railroad Commissioners in Los Angeles, Clifford J. Durr had not returned from international telecommunications and telegraph conferences in Moscow and London, and Ray C. Wakefield was ill

Cases which had been scheduled for oral argument were the Commission's proposed denial, without prejudice, of the license renewal application of WJOL Joliet, Ill., and proposed decisions on the 1230 kc applications of Fetzer Broadcasting Co. (WJEF Grand Rapids) and Ashbacker Radio Corp. (WKBZ Muskegon), and on the 1300 kc requests of Cleveland Broadcasting Co. and Scripps-Howard Radio, Cleveland.

classics as well as new books. Friday
series reviews latest books at public
library.

Remotes Resumed

Remotes Resumed

Remotes Resumed

WCAU Philadelphia, after wartime layoff of remote pickups, will expand this
type of programming when it installa
lines to the Mocambo, new Philadelphia night club. Two pickups a week
are scheduled in addition to two remotes weekly from the Click, another
new night spot.

Visits to Classrooms

ACTUAL classroom procedure now is aired on Thursday edition of WKXL Concord, N. H., "Ladies Do You Know?" program in order to better acquaint parents with educational aims and methods. Schools rotate from week to week.

Series on Ghosts

PROGRAM titled "Do You Believe in Ghosts" has been started on WJNC Jacksonville, N. C., featuring stories of ghost lore in that area. Program is conducted by Edward Cox.

Transcribed Messages

SIX MORNINGS each week WDRC Hartford, Conn., now presents five-minute transcribed messages prepared and delivered by local ministers of various faiths. Each minister develops a theme for a series of six programs.

Winter Talk Schedule

WINTER PROGRAM of women's talks on CBC networks includes series on community clubs, cooking school, topical news and views, school for parents, careers of women leaders, con-

tribution of women to human progress, tales of early western settlers, housing and sewing school. Each series includes seven or eight broadcast talks. Programs are planned for Monday through Friday.

Student Quiz

CKOC Hamilton, Ont., has started half-CKOC Hamilton, Ont., has started half-hour high school students quiz show Saturday evenings, sponsored by Hamilton Co-op Creameries. Program is called "Little Red Schoolhouse" and features two teams from Hamilton schools, with winning team appearing next week with that of another school. Cash prizes are awarded.

Managers of CBS Owned Stations Meet in N. Y.

SEMI-ANNUAL three-day meeting of the station managers of Columbia-owned stations was held last week in New York with Howard S. Meighan, vice president and director of station administration, presiding. Network and station problems were discussed.

Those attending were: Arthur Hull Hayes, general manager WABC New York; Frank Falknor. assistant general manager, WBBM Chicago; Harold E. Fellows, general manager, WEEI Boston, and manager of New England Operations for CBS; A. E. Joscelyn, general manager, WCCO St. Paul-Minneapolis; D. W. Thornburgh, general manager, KNX Hollywood. and vice president in charge of Western Division; Wendell B. Campbell, general manager, KMOX St. Louis, and Carl Burkland, general manager, WTOP Washington.

Foley Denies Charges

FOLEY & Co., Chicago, and its agency, A. M. Salomon, trading as Lauesen & Salomon, Chicago, have entered categorical denials to Federal Trade Commission complaints of "misrepresentation" in advertising of Foley's Pain Relief Tablets. The answer said the representations quoted in the complaint have not been made for several years and that those quoted by FTC were excerpts and do not reveal the full import of the complete statements, FTC announced. The answer said Lauesen & Salomon has not edited, composed or placed any advertisement of the product for a number of years. Hearings will be held "in due course," said FTC.

Mexico to Advertise

MEXICO will spend \$400,000 in 1947 in an advertising and publicity campaign to attract visitors from the U.S. and other countries, the Mexican National Tourist Assn. announced last week in Mexico City.

O F

24 YEARS OF ENGINEERING PROGRESS

... In the early days of broadcasting, long before fundamental designs were standardized, transmission of radio programs was on a "cut and try" basis. It was then that the General Electric Company, envisioning the future possibilities of broadcasting, established a Development Laboratory at Schenectady using WGY as its proving ground.

As a result of the early developments in this radio laboratory, WGY became one of the first stations in the country to operate regularly with crystal control and 50,000 watts of power and soon after, the first to broadcast a signal of 100,000 watts.

These and a score of other engineering firsts have helped give WGY the fine reputation it enjoys today for its high fidelity signal, its enviable record of uninterrupted hours on the air and the technical excellence of its studio program

Represented Nationally by NBC Spot Sales

Bristol-Myers, Standard and Firestone Lead Way in TV Network Programming

BRISTOL-MYERS Co., New York, on Oct. 27 became the first advertiser to sponsor a network television program on a commercial basis. The program, Geographically Speaking, advertising Minit Rub and Trushay, was televised by WNBT New York and relayed to WPTZ Philadelphia for simultaneous broadcast. WPTZ recently became the first affiliate of NBC's video network, linking up with WNBT, NBC key video station in New York, on a regular contract basis. NBC commercial television programs previously relayed to WPTZ and other stations have been paid for on WNBT only, with the other stations carrying them without charge, NBC said

Close behind Bristol-Myers as television's earliest network clients are Standard Oil Co. of New Jersey, New York, whose Esso Television Reporter series expanded from WNBT to the two-station network on Oct. 31, and Firestone Tire & Rubber Co., Akron, which Nov. 4 started its video film series on a network basis. All three series originate in New York and are sent to Philadelphia via radio relay. When programs of Philadelphia origin are sent to New York AT&T's coaxial cable is used.

Agency for Bristol-Myers is Young & Rubicam, New York; for Esso is Marschalk & Pratt, New York, and for Firestone is Sweeney & James Co., Cleveland.

Philadelphia Quiz

First network commercial series to originate in Philadelphia and to be sent to New York is Visi-Quiz, sponsored by Sears, Roebuck

Shaffer Directing New Spartanburg FM Outlet

FIRST FM station in South Carolina, WSPA-FM Spartanburg, began regular broadcasting on a sixhour-a-day schedule Nov. 3. After a month of testing, the station offers programs from 11 a.m. to 1 p.m. and from 5 p.m. to 9 p.m.

Walter Brown, general manager of WSPA and WSPA-FM, both owned by Spartanburg Advertising Co., announced Roger Shaffer, assistant general manager of Spartanburg Advertising Co., is in direct charge of the FM outlet, which has its own staff. WSPA-FM broadcasts on 92.1 mc with temporary power of 250 w, and now uses the WSPA transmitting site. The licensee holds a construction permit for a 50 kw FM station atop Hogback Mountain, 3200 feet high. Present installation consists of an RCA super-style antenna, fed by a Western Electric transmitter. Dedication of the new station is set for Feb. 17, 1947, the 17th anniversary of WSPA.

& Co. After running for some time on WPTZ, during November the Thursday evening half-hour audience participation show will also be broadcast on WNBT under the same sponsorship. Benjamin Eshleman Co., Philadelphia, is the agency.

For network programs received from New York, WPTZ has established network rates of \$250 for an hour program, \$170 for a halfhour, \$130 for a quarter-hour and \$105 for 10 minutes. WNBT rates for originating network programs are the same as for local programs, including a transmitter charge of \$75 for 10 minutes or less and \$100 for 11 minutes to an hour, and base program charges of \$750 an hour for a live program or \$250 an hour for a film program. WNBT's half-hour program charge is \$500 live, \$200 film; for a quarter-hour it is \$300 live, \$150 film; for 10 minutes it is \$250 live, \$125 film.

A half-hour live network program originating at WNBT would add up to \$770. However, as an inducement to sign up early, NBC is offering advertisers a discount of \$50 per program, effective immediately and continuing through the first 13 weeks of 1947.

THE GREATEST SELLING POWER IN THE SOUTH'S GREATEST CITY 50,000 Watts - Clear Channel CBS Affiliate

Represented Nationally by The Katz Agency, Inc.

As new industries spring up in lowa's oldest city, Dubuque is well deserving of its title, "Fastest Growing City in the Hawkeye State," and provides an ever-increasing buying audience for your radio program.

A survey by Robert S. Conlon and Associates proved that more Dubuque people listen to WKBB—morning, noon, and night—than to any other radio station. In fact, the highest rating any outside station reached was only 13.3% of the Dubuque audience.

Take advantage of this high listenership by advertising your product on Dubuque's most popular radio station, WKBB.

BROADCASTING

Call Letters

(Continued from page 15)

of combinations available, it was pointed out that grantees on the average submit 18 or 20 combinations before finding one that is not already in use.

Mr. Smeby sent his appeal to Maj. Gen. H. C. Ingles, Chief Signal Officer, to whom he was directly responsible in his wartime post as deputy director of the Operational Research Staff.

He noted that FCC has authorized new broadcast stations at an unprecedented rate since the war and that hundreds of applications await action.

"These new stations all require call letters and many of the operators will desire certain call letters," he wrote. "The right combination of letters is often valuable to a station... There are probably on the order of 300 broadcast station calls in the country that have a particular meaning.

Sometimes Reserved

"Sometimes a successful applicant for a broadcast station construction permit finds that the call he desires is reserved for possible future use by ship, aeronautical police, fire department or Signal Corps operation. Successful applicants have been able, in many cases in the past, to obtain these calls from the users."

Despite the work which would be required of Signal Corps personnel to make calls available, he said, it would be good public relations to do so because then station members would be able to tell inquirers that "the call had been in use by the Signal Corps but it was released for use by the broadcast station."

Mr. Smeby said he had been informed that the Signal Corps would release "quite a number" of "W" calls when it shifts to the "A" series. But "lasting public relations benefits" would result, he felt, if it started now to release calls for use "by broadcast stations who apply for them."

Radio Technical Developments Reviewed in NAB Handbook

COMPREHENSIVE series of technical articles providing an encyclopedia of essential facts is coming off the presses, according to James L. Middlebrooks, who leaves NAB next week as Engineering Dept. director to become chief facilities engineer of ABC network.

Titled Engineering Handbook of the NAB, the five-ring looseleaf volume contains 330 pages. It is the first handbook issued since the 1941 revision of the original 1938 edition. It includes FM, television and standard broadcast engineering standards of the FCC along with proposed changes in the standard broadcast standards.

Article on Antennas

Important contribution to antenna knowledge is contained in an article titled "Directional Antennas" by Carl Smith, chief engineer of United Broadcasting Co., according to Mr. Middlebrooks. The article contains excerpts from a book soon to be published by Mr. Smith, who was author of an article on circular polarization in the Oct. 21 BROADCASTING.

Among other articles are these: "Field Intensity Surveys"; "Radio Frequency Networks," by Arthur C. Stewart, KFAB Lincoln; chart to determine coupling and tuning capacities for various antennas, by Frank H. McIntosh, consulting engineer; "Operation and Maintenance of Transmitter Power Tubes," by CBS Engineering Dept.; "Simple Test for Defects of Damage to Vacuum Tubes," by Paul M. Reyling, Freeland & Olscher Products; "UHF Coil Design," reprinted from Electronics; "Practical Analysis of UHF, Transmission Lines, Resonant Sections, Resonant Cavities and Wave Guides," by J. R. Meagher and H. J. Markley, RCA Service Co.

P. A. Young, propagation engineer of Crosley Broadcasting Corp., is author of an article titled "Radio Interference in Areas of High Field Intensities." RCA Victor contributes a chapter on location of television transmitters.

A series of charts shows characteristic impedance of two-conductor open wire transmission lines; impedance of concentric transmission lines; concentric line loss (500-1500 kc, 40-160 mc); average antenna characteristics of three self-supporting towers; vertical plane radiation characteristics of constant cross-section vertical radiators; rapid fading zone curves; curve showing series impedance of T phase shifting network as well as shunt; reactance chart.

Other articles include: "Studio, Audio & Control Circuits," by W. E. McDowell, Naval Research Lab.; "General Considerations for Good Room Acoustics," by Ed. J. Content; "Polycylindrical Diffus-

ers in Room Acoustic Design," by John E. Volkman, RCA-Victor; "Locating the Television Studio," by RCA-Victor; "Interconnecting Facilities for Broadcasting," by AT&T; "Measurement of Audio Distortion," by H. H. Scott; "Glossary of Disc Recording Terms," by H. A. Chinn, CBS; "NAB Recording and Transcription Standards"; "Video Amplifier Design," by Elliott A. Henry, RCA-Victor; Chart showing resistance values of symmetrical attenuation networks,

by Frank H. McIntosh; charts showing bridging loss at various impedance ratios; decibel tables; recommended technical library; bibliography.

Radio Demonstration

REPRESENTATIVES of Texas and Southwest railways and other industries Nov. 12 will attend operational demonstration of railroad radio to be conducted in Dallas by the Texas and Pacific Railway Co. in association with Farnsworth Television and Radio Corp., Fort Wayne, Ind. Event will climax a series of tests in two-way radio communications by railroad.

Twenty-five cents out of every dollar spent for general merchandise in all Virginia is spent by people who live in WDBJ's actual area of listening . . . comparable to the goods purchased in cities like Pittsburgh, or New Orleans.

ONLY with WDBJ can you reach ALL the radio families in Roanoke and most of Southwest Virginia. Ask us—or Free & Peters—about the very low costs involved.

Modification of CP
KOMO-FM Seattle, Wash.—Modification of CP which authorized a new FM
broadcast station, to change type of
transmitter, transmitter site, studio location and make changes in antenna
system.

APPLICATIONS DISMISSED:

Modification of CP

Modification of CP
WSFA Montgomery, Ala.—Modification
of CP which authorized increase in
power and installation of directional
antenna—night, for increase in power
from 1 to 5 kw, installation of new
transmitter, change in type of directional antenna for night use, transmitter location and extension of commencement and completion dates. DISMISSED—request of applicant.

AM—620 kc
Luis Ramos Rodriguez, San Juan, P. R.
—CP for a new standard broadcast station to be operated on 620 kc, 5 kw, directional antenna day and night and unlimited hours of operation. DIS-MISSED—request of attorney.

Statue Replicas

Statue Replicas

FIVE THOUSAND replicas of "The
Thinker," world famous statue by Rodin,
have been distributed by the promotion and educational departments of
WJR Detroit as a supplementary aid
to listeners of the Detroit Public
School's broadcast, "School Spotlight,"
a program based on "The Thinker"
over WJR. Mailing pieces included, in
addition to explanatory copy, a 4 x 5
inch replica of the Rodin statue which
stands in front of the Institute of Fine
arts in Detroit.

Wyatt for Crosby

JACK WYATT former account executive and radio director for Buchanan & Co., New York, has been named radio director of Cecil & Presbrey, that city, succeeding Del Crosby.

(Continued from page 14)

Most of his liberal friends in both House and Senate will not return. He is anathema to conservative Republicans, and Democrats too.

Should "ripper" legislation be passed, it logically is presumed that President Truman would veto it. To override a presidential veto, a two-thirds vote of both Houses is required. The Republican pluralities alone are not sufficient to accomplish that.

The same might be true of legislation to curtail the FCC's appropriation. But the FCC fund would be only one small segment of the Independent Offices Appropriations Bill, and it is doubted whether urgent legislation would be stymied to accomplish that single end. The Republican Congress, however, has served notice that it is economybent. The FCC is seeking an appropriation of about \$7,000,000-its wartime peak-because of the heavy workload engendered by literally hundreds of new station applications in all classes. There is already talk of clipping the FCC to about \$4,000,000 or \$5,000,000.

Porter Decision Soon

Whether Mr. Porter will return to the private broadcasting field he left in 1942 to enter wartime Government may be decided this week. NAB President Miller, now president of BMI also, is disposed to relinquish the latter post because of the pressure of other activities and because BMI's resurgence in the music licensing field is indicated now. ASCAP contracts expire at the end of 1948. BMI was created to give radio its own independent music source. It has fulfilled that task but it requires development particularly in the popular music field.

Should Mr. Porter be retained by BMI, it is presumed he would become its president and directing head. M. O. Tompkins, vice president and general manager, would continue in that capacity, however, retaining responsibility for day to day operations. Sydney M. Kaye, vice president and general counsel, like Judge Miller, is understood to be desirous of devoting more time to his law practice as partner in the firm of Rosenman, Goldmark, Colin & Kaye, but would continue as chief legal counsel for the music concern.

Need for a BMI president of important stature was discussed both at the BMI and the NAB board meetings last month. It was not known then whether Mr. Porter would find himself available. Salary on the order of \$35,000 to \$40,000 a year was discussed.

After 14 lean years, during which they have been forced to take the patronage crumbs, the Republicans are hell-bent for remaking the whole Washington pattern. But between now and Jan. 3 things are certain to cool off with

Goldberg in New York Sun

BUSINESS TO FACE KEEN COMPETITION

MANY businesses coasting along on a high-spirited "sellers' market", will soon find themselves facing the keenest competitive conditions the country has ever known, in the opinion of Allen T. Preyer, chairman of the AFA's board of directors and chairman of Morse International, New York.

Mr. Preyer addressed a joint meeting of the Columbus Advertising Club and the Advertising Copy Clinic sponsored by the College of Commerce and Administration of the Ohio State U., Columbus, Nov. 8.

"Spoiled by the luxury of easy sales, a great many of our business executives have kidded themselves into believing that they can take care of the situation when conditions change," continued Mr. Preyer. "They feel that the time to start selling and advertising is

the realization that nothing can be accomplished if the Democratic administration and the Republican Congress are constantly at swords points.

Where radio is concerned, it is doubted whether any radical innovations, like a new edition of the Blue Book, or public inspection of financial records, or a rash of new questionnaires going into programs, finances or business, will be undertaken in the next two years.

when sales begin to taper off. When the orders have slackened at the factory it is already too late. When this happens it is a sign that the consumer demand has already been satisfied some time ago, and that recent production has been heavy enough to fill the recently empty pipelines, in addition to providing the amount necessary for current use by consumers."

"You can't make new customers overnight," warned Mr. Preyer, "And you can't suddenly pull back into the fold those old customers who have strayed away to greener fields. As every new business knows, it takes time to build up sales volume and advertising good will and many old businesses will have to learn this over again."

"Advertising and advertising people have a big job to do right now, helping business to recover our selling way of life—the tough, though healthy, way to progress," he concluded.

e concluded.

Radio in Awards

THE NEWSPAPER GUILD of New York will make 28 Page One Awards for 1946 achievements in a dozen fields of endeavor at its annual Page One Ball to be held Jan. 6 at the Waldorf Astoria. Among prize winners of interest to broadcasters are: Henry Morgan and Fred Allen, radio comedians; Howard K. Smith and William Gailmor, commentators, and Superman, program.

LIVE DANGEROUSLY, SAYS FANNIE HURST

URGING radio to "live dangerously," Fannie Hurst, novelist, speaking at a luncheon meeting of the New York Radio Executives Club last week, lashed out against the "low calory program diet" heard on the air today because radio is "handcuffed to the low standards of American commercialism."

The writer, who lately became critic for WJZ New York, was the first of three personalities to address the club on the subject, "If I Were Running Radio." H. V. Kaltenborn, commentator, will speak Nov. 21 and Brock Pemberton, theatrical producer, Dec. 5.

"Most (radio) programs depend upon the commercial for bread, butter and jam, and of course paradoxically, ironically and dangerously, it is the hand which feeds these programs—the advertiser's hand—that has become the whiphand," she said. "That hand is over-reaching."

Miss Hurst said, "If I were running radio, I would gamble more on the dignity of the human race by crediting it with something more than a composite state of sub-adolescence and delayed development." She said she does not advocate government control of radio. She proposed that better programs could be obtained if an educational campaign were set up to educate the advertiser and the agency, as well as radio itself.

NLRB Orders WFHR

NATIONAL Labor Relations Board has ordered WFHR Wisconsin Rapids, Wis., to end interference with employes in restraining or coercing them in their self-organizing rights to join or assist Radio Broadcast Technicians Local 175, IBEW, AFL or any other labor organization. Company has been ordered to post compliance notices for 60 days. Simultaneously, the NLRB dismissed the complaint insofar as it alleged company dis-crimination against one employe and insofar as it alleged that the company, by granting an increase in wages, interfered with the employes' self-organization rights.

Conference on 30-40 mc INFORMAL engineering conference on FCC's proposal for frequency service allocations to non-Government services in the 30-40 mc band [BROADCASTING, Nov. 4] will be conducted by the Commission on Dec. 2 starting at 9:30 a.m., with all interested persons invited. FCC said "widespread interest" had been shown, indicating an informal conference might help resolve issues and clarify purposes before formal oral argument is held Dec. 16. If the plan is revised as a result of the conference, the Commission added, oral argument would have to be postponed.

Election Shorts

NEW BMB coverage map was used by KRNT Des Moines as guide for setting up special election returns reporting service in Nov. 5 vote. Listener percentages in various sections gave key for coverage spotting.

Opportunity to hear all candidates at one sitting was unique offering of WPEN Philadelphia on Nov. 4 Election Parade broadcast. With dramatic interest inserted, program featured recorded messages from those unable to appear personally.

When WOL Washington News Director Al Warner cut into MBS' Michael Shane—Detective on election night to report, "Republicans are leading in most races around the country and in nearby Maryland," the fade pickup brought humorous twist as female character on mystery play continued with "What a nice job of strangling."

WTIC Hartford, Conn., to give comprehensive coverage, organized in addition to its own staff some 271 special reporters, 53 tabulators and telephone operators plus nine remote pickup crews throughout the state. Thomas J. Dodd, back from Nuremberg and prosecution of Nazi war criminals, turned election reporter on WTIC from his home town of Lebanon.

Election-Hill

(Continued from page 15)

made exclusively to BROADCASTING.

Rep. Wigglesworth, former member of the House Select Committee to Investigate the FCC (78th Congress), said that while he had contemplated introducing a resolution to investigate the Commission, his definite plans would not be announced until the steering committee meets this week.

Probe Needed

"I've always felt that a thorough investigation of the Commission was necessary," said Mr. Wigglesworth. "We certainly need remedial legislation. The investigation should be conducted as soon as possible."

Informed that Senator Tobey had announced he would reintroduce his resolution, Rep. Wigglesworth said: "Well, there won't be any conflict. Since we control both Houses I would say that we'll decide whether the Senate or House will handle the FCC investigation."

Rep. Martin, one-time chairman of the Republican National Committee, said: "We'll have so much to investigate that we'll have to divide it up between the Senate and House. Now that we control both we won't have any conflict or difficulty."

Among subjects scheduled for legislative action are these:

- (1) Spelling out the Commission's powers.
- (2) Taking Commission-created restrictions off broadcasting.
- (3) Lifting the 50 kw power limitation on clear-channel stations to afford wider rural coverage.
- (4) Modernizing Commission procedure.
- (5) Rotating the chairmanship annually.
- (6) Possibly requiring the FCC to extend the FM band down to 50 mc or thereabouts, thereby making more channels available and permitting competition free of Government control.
- (7) Increasing the license period of stations from three to five or ten years, leading to greater stability and security of investments, thereby giving incentive for better programming.
- (8) Restricting the Commission from (a) using programs as a basis for "public interest" determination; (b) attempting to dictate business practices or program policies; (c) denying all aggrieved parties a right to appeal to the courts from Commission decisions, and (d) writing "law" into memorandum opinions and orders.

Committee Makeup

Makeup of the new committees will be a leading factor in all investigations, observers pointed out. Sen. Robert A. Taft (R-Ohio) and Rep. Martin have called their respective steering committees for a meeting Thursday (Nov. 14) in Washington to reorganize both Houses. Mr. Martin said he would call a meeting of all Republican Representatives-elect for Dec. 2.

Inasmuch as the Republicans pledged themselves to carry out the Congressional reorganization, adopted in the last session, it was deemed likely that a complete reshuffling of committee assignments would result. Both Houses are expected to follow the seniority tradition, choosing in the Senate, chairmen from the first 15 eligibles, and in the House from the first 19.

Senate committees are reduced from 33 to 15 and House committees from 48 to 19. No Senator may serve on more than two committees, except those on the District of Columbia Committee may serve on three. In the House no member may serve on more than one committee, except those on the Un-American Activities and District committees may be named to one other.

Likely choice to head the Senate Interstate and Foreign Commerce Committee (composite of the old Interstate Commerce, Commerce, and Manufactures committees) is Sen. Wallace H. White Jr. (R-Me.), Minority Leader in the present Congress and mentioned as chairman of the new Steering Committee.

Should Sen. White become Majority Leader, as some observers predict, the committee chairmanship then could go to Sen. Clyde McReed, Parsons, Kan., publisher and former Governor of Kansas. Sen. Robert A. Taft of Cincinnati, however, was considered by some as the likely choice for Majority Leader.

Sen. White long has been an advocate of new radio legislation. Often he has expressed the view that the FCC has "gone beyond the intent of Congress in its interpretations of the Communications Act." Sen. White as a member of the House played a leading role in writing the original Radio Act of 1927 and later, as a Senator, in drafting the Communications Act of 1934, which embodied the principles of the original Radio Act.

He was co-author with Sen. Burton K. Wheeler (D-Mont.) of the White-Wheeler Bill (S-817) in the 78th Congress to revise the Communications Act, but which died in Committee.

Ranking Member

Slated to head the House Interstate & Foreign Commerce Committee is Rep. Charles A. Wolverton (R-N. J.), ranking member of that group in the 79th Congress. Mr. Wolverton also was ranking member of the Interstate & Foreign Commerce subcommittee on communications.

Heading the Senate Appropriations Committee probably will be Sen. Styles Bridges (R-N. H.), outspoken critic of the FCC, while Rep. John Taber (R-N. Y.), who demanded a few months ago that President Truman remove OPA Administrator Paul A. Porter (former FCC chairman), will head the House Appropriations Committee.

Rep. Harold Knutson (R-Minn.) was considered a cinch for chairmanship of the powerful House Ways & Means Committee, in which tax legislation originates. Mr. Knutson at one time expressed himself in favor of a franchise tax on broadcasting licenses.

Newspapers on Strike, WMAS Issues Bulletin

WMAS Springfield, Mass., is distributing several hundred daily copies of a news summary during a strike of mechanical workers in the four Springfield newspapers. The papers haven't published since Sept. 26, and demand for WMAS' one-page mimeographed summary has grown steadily.

Distribution was started in downtown restaurants, but requests have come from many other sources. The library gets eight copies daily for filing, and the Springfield Republican is clipping the sheet in an effort to keep its morgue up to date.

Adieu WEAF, WABC

FIRST CUE when WEAF became WNBC was given to Niles Trammell (1), president of NBC, who served as announcer, by Gov. Thomas E. Dewey of New York.

REMINISCING about the old days of WABC New York, when the station changed its call letters to WCBS, were Arthur Hull Hayes (1), general manager of the station, and Arthur Godfrey, narrator of the special commemorative broadcast.

ESTATE OF \$500,000 IS LEFT BY DOBYNS

C. MERWIN DOBYNS, owner and general manager of KGER Long Beach, Calif., who died in Washington, D. C., on Oct. 15 [BROADCASTING, Oct. 21], left an estate estimated at \$500,000, according to will filed in Los Angeles probate court Nov. 2.

Principal beneficiaries are his widow, Evalyn; two adopted sons, Frank and Harlan; and his secretary of many years, Constance Brown. Mr. Dobyns also left various small bequests to a total of 152 individuals and organizations.

Will provides that 24 years after his death funds from a trust fund are to be used to establish "The Dobyns Foundation," an educational and public affairs forum devoted to "the advancement of social justice." In addition to KGER, Mr. Dobyns was founder of Dobyns Footwear, Long Beach shoe store.

Union Group Plan

CONSOLIDATED front for Hollywood radio unions is developing with first organizational meeting of "Council of Radio Unions" scheduled for Nov. 21. Similar to movie industry's Conference of Studio Unions, new group will have delegates of Radio Writers Guild, Local 47 AFM, Radio Directors Guild and Screen Publicists Guild. Latter union represents publicists at ABC and CBS.

Mobs Jam Stores Showing TV Sets Orders Placed by Thousands Who See RCA Receivers

CROWDING into the television display rooms of radio and department stores in New York, Chicago, Philadelphia, Albany and Newark in such numbers that some stores were forced to call the police, the public last week greeted initial showings of RCA's postwar video sets with an enthusiasm that more than justified advance estimates.

They were there to buy as well as to look. Thursday morning, three days after the RCA sets first went on sale in New York, David Wagman, manager of radio and television receiver sales for Bruno-New York, RCA distributor in that city, estimated that orders had been placed for between 3,000 and 4,000 sets, with deliveries to start this week. At \$350 per set, plus another \$50 installation and service charge, this represents a public investment in television far in excess of a million dollars, which might have reached two million by the time stores closed Saturday.

Traffic Blocked

RCA Victor's Camden headquarters was unable or unwilling to disclose sales figures for other cities but had much to say about the size and interest of the first day spectators, who were estimated to total 400,000 in New York and 250,000 in Chicago. At Macy's in New York a special store policeman was detailed to keep the people, standing 12 deep to watch the sets, outside the guardrails around each receiver. Chicagoans blocked traffic in front of the Loop stores of Goldblatt Brothers and Lyon & Healey, which displayed the new video sets in their windows. The Bright radio shop in Flushing, N. Y., had to call for police protection from the crowds threatened to crush in its windows.

The crowds had been built up by full-page RCA ads in the Sunday papers, followed by ads of individual dealers when their displays were ready. Their reactions to the receivers, particularly their purchases, were sufficiently impressive to lead one dealer to offer Bruno-New York a certified check for a million dollars worth of the sets, and a chain of stores to try to place an order for 2,000 of them.

By the weekend RCA expected to have sets on display at some 800 stores in cities where commercial television stations are now operating.

Albert Van Antwerp

ALBERT VAN ANTWERP, writer of Red Ryder series on Don Lee Broadcasting System, died at his home in Mendicino, Calif., following an extended illness. Actor and writer for more than 25 years, he was one of early stars on KHJ Hollywood.

Free Radio

(Continued from page 16)

Russian people that there is no peace in the world because democracies can only engage in defensive wars and dictatorships are built for offensive war. With a tradition of the bill of rights, our real fight is not against governmental controls but against economic bottlenecks which are resulting in increasing lack of diversity of thought in the mass media channels of communication. The basis of our religion of freedom of thought has shifted from the right to utter to the right to read, to see and to hear. If the monopolies of the mind of man continues in the hands of a few score owners of radio, press and movies I am fearful that the American Marxists will persuade our people to allow the government to take over these instruments. We cannot afford to lose another thousand daily papers. The loss of 3,500 weeklies is more than a minor peril. We are in dire danger in the hundred areas where the only newspaper owns the only radio station. The United States Supreme Court has condemned as anti-free enterprise the Associated Press and has in effect condemned the monopoly trend of the great radio networks which own 90 per cent of the night time power of the nation. A high court has recently declared that the major motion picture companies throttle the free dissemination of the movies. Senator Murray's proposed Senate investigation on how to save the small dailies and weeklies of the nation is one of the hopes of freedom in America. I have been urging Mr. Knight to participate in that great inquiry into free enterprise. Even for small businessmen as well as giants I suggest that the broadcasters' association might look into the telephone company wire charges which in effect perpetuate the domination of the market place of broadcasting in the hands of the four companies.

Program Time Rates

Do the broadcasters really believe that it has been ordained from heaven that two independent stations wishing to have a joint program must buy telephone service for an hour even though they want to use it for only fifteen minutes of time? Hundreds of unsound burdens such as this one are the American peril on the score of freedom, although the economic restraints of our market place of thought still leave us with freedom unknown under communism or facism. Surely we will be more effective in cutting the iron curtain if we remove those economic restraints in this country which place unreasonable burdens on small enterprises entering these fields. It is just too bad that there does not appear to be in the press, radio or movies among the giants which control the fields, any leadership having enough

imagination to appreciate the need of restoring free enterprise in mass media businesses. The iron curtain can be cut only by celluloid, ether and type but our knife is dulled as long as Kent Cooper and David Sarnoff are the chief spokesmen in the attack on the Russian iron curtain. For they themselves have not been disinclined to obtain a nylon curtain of their own."

Arthur Hays Sulzberger, publisher New York Times, which owns WQXR and WQXQ: "I am fearful of the licensing power of government when in any way it touches upon the distribution of information. In the case of newspapers the question of such licensing does not arise. In the case of radio, however, some form of licensing seems to be inevitable if the limited number of radio channels are to be divided among a larger number of applicants and the channels then kept free from interference.

"In performing such duty it would seem proper that the relative merits of applicants be viewed by the licensing authority and that all factors relevant to such application be taken into consideration before licensing takes place. This automatically brings into play an element of judgment which would again be exercised if, as I believe necessary, the licensing authority is charged with watching the licensee's performance for the benefit of the public. There is very real and justified concern about this element of judgment and yet I see no escape from the dilemma if either chaos or misuse of the public domain is to be avoided. I am afraid there is no answer to the problem other than the eternal vigilance of the industry, the Federal Communications Commission and the public."

Asks Vigorous Defense

Seymour Berkson, general manager, International News Service, had this to say: "Any assault upon freedom of information-whether it be aimed at the press or radio-is an assault upon the fundamental American concept of liberty and democracy.

"The eleven simple words which guarantee freedom of the press in the United States were written into the American Constitution at a time when radio was not even dreamt of. Had the founding fathers been able to foresee this tremendous vehicle for public information they certainly would have included it more specifically in the same basic concept of freedom.

"In a world still beset on all sides with sinister efforts to control and manipulate public opinion it is imperative and vital that we defend with the utmost vigor the full freedom of ALL channels of public information.

"We must guard against government encroachments of any kind that tend to limit, curtail or imperil that freedom to serve the American public to the best of our

"If such encroachments are successfully engineered in the case of one of the mass media, it may not be long before the same dictatorial tactics are applied to all of the others.

"Public opinion itself is the soundest regulatory force in a democracy. The American people have a happy faculty of thinking things out for themselves and showing their preferences in no uncertain terms.

"Public acceptance or rejection of this or that mass media or individual element thereof is the most potent and legitimate form of regulation in a democracy.

"Thomas Jefferson, author of the American Declaration of Independence, declared: 'That people is best governed which is least governed.' Those words still remain among the wisest precepts of a true democracy.'

N. R. Howard, Editor, Cleveland News; first vice-president of American Society of Newspaper Editors,

"I am certain that any licensing will be the ending of the freedom of the press, as I can see it has been to freedom of expression by the radio. It has not ended all free speech on the radio, but it has put a limit on it, and any limit on freedom is less than freedom."

There has been no test in court of the specific powers of the FCC to invoke the "standards" set forth in the Blue Book. Lawyers cite, however, the WOKO case-January of 1946-as indicative of how the courts might view a test.

In that case, where the issue was hidden ownership, the U.S. Court of Appeals held that the "guiding of the FCC in regulating rastar" dio is fixed by statute in that phraseology having to do with service "in the interest, convenience and necessity of the public," The Communications Act of 1934, said the court, does not give the FCC "punitive jurisdiction."

Against this interpretation some have imposed the words of Mr. Denny spoken at the NAB Convention: "The Blue Book says that American radio is over-commercial." And his subsequent utterance, "Of the 322 applications pending for renewal at the time the Blue Book was issued, seven have now been set down for hearing."

There is cited among those who look upon the Blue Book as an abridgment of a Constitutional freedom, this direct quotation from the radio act (our italics): "No regulation or condition shall be promulgated or fixed by the Commission which should interfere with the right of free speech by means of radio communication."

On School Outlets
CHICAGO Board of Education is now presenting the WLS-Chicago Times "Quiz-Down" program (10 a.m. CST) on its FM station, WBEZ, with over 150 school outlets. "Quiz-Down" is produced by Carol Moody and features contestants from the fourth to sixth grades exclusively. Under arrangement with the Times, the radio council of the Board of Education transcribes each saturday broadcast for presentation the following Monday.

Blue Book Issues

(Continued from page 13)

three has not been indicated.

Of the three which the Commission started sending out last Friday, virtually the only difference regarding programming was that in the case of KONO, a non-network station, FCC omitted the reference to programs substituted for network sustainers.

The issues for WTOL, another station cited in the Blue Book, cover its FM as well as its renewal application. The FM application previously was set for hearing in consolidation with that of Toledo Blade Co., which later was dismissed without prejudice at the applicant's request. In its order setting forth the issues on the WTOL renewal, FCC redesignated the WTOL FM application for consideration along with the renewal request.

Meanwhile the FCC granted WTOL's motion to reopen its consolidated hearing on application to change frequency and increase power, heard jointly with two other applicants (see story page 30).

Issues for the three hearings were adopted Oct. 31—the day the Commission set an all-time record for volume of actions taken [BROAD-CASTING, Nov. 4].

In one of the three they are as follows, and except for perhaps one or two minor variations of wording (and deletion of the network reference in the case of the non-network station) the others are the same:

- To determine whether the applicant has carried out, or has failed to carry out, its representations and proposals heretofore made to the Commission with respect to program service.
- To obtain full information concerning the nature and character of the program service which has been rendered by the station with particular reference to the following:
 - (a) The percentage of time which has been devoted to the broadcasting of commercial programs and of sustaining programs.
 - and of sustaining programs.

 (b) The average and maximum number of commercial spot announcements which have been made on the station during a typical broadcast day, and the average number of such announcements during any 15-minute segment of a typical broadcast day.
- (c) The amount of time which the station has devoted to the broad-

- casting of discussions upon controversial issues of public im-
- portance.

 (d) The percentage of time which has been devoted to the broadcasting of local live talent programs.
- (e) The nature and character of the programs which have been broadcast in lieu of network sustaining programs which were available to the station but were not accepted and broadcast by it.
- (f) The percentage of time which the station has devoted to the broadcasting of (a) sustaining programs. (b) commercial programs, and (c) live talent programs, between the hours of 6:00 p.m. and 11:00 p.m.
- To obtain full information concerning applicant's investment in the station, the net broadcast revenues derived from its operation, and the amounts expended on programs.
- To determine the policy of the applicant for the future with respect to the matters covered in issue No. 2, above.

WELCOMING the return from military service of Worth White (1) is R. H. Mason, manager of WPTF Raleigh, N. C. Mr. White was the last member of WPTF program staff to return. Unidentified guest at homecoming party shown in foreground.

CONTROL REQUEST IS FILED BY KRIS

FCC APPROVAL of "concentration of negative control" of KRIS Corpus Christi, Tex., in President T. Frank Smith is requested in an application reported by the Commission last Thursday.

The application notes that Mr. Smith acquired 12½% interest in KRIS from M. Tilford Jones, his cousin, in 1940, and an additional 37½% on Oct. 30, 1945. There was no cash consideration for this transfer, it was pointed out, but Mr. Smith transferred to Mr. Jones 125 shares of KXYZ Houston common stock, thus separating their radio interests. Mr. Smith then resigned as president and manager of KXYZ, the application reports.

Mr. Smith now owns 49.5% interest in KRIS and is beneficial owner of 0.5% held by F. L. Suber, giving him negative control. When the transfer was accomplished, Mr. Smith did not feel it was necessary to report it to FCC, the application explains, adding that since then the Commission has indicated that an application is necessary. KRIS operates with 1 kw on 1360 kc. Mr. Smith also owns 60% interest in KVAL Brownsville, Tex.

Milestones

COMPLETION of 21 years of broadcast service by WRVA Richmond, Va., has been noted this month with simple extension of appreciation to friends, sponsors, entertainers and listeners for their cooperation which has made achivements possible. . . . Sponsored by Robert Keith Inc., Kansas City home furnishing firm, the Kansas City Philharmonic has started its fourth consecutive season on KMBC that city. Arrangements are being completed to carry programs on KMBC-FM.

In religious field, weekly quarterhour program, Proof That Christian Science Heals, has started its third year on some 214 stations in the U.S. and Canada. Program is transcribed in The First Church of Christ, Scientist, Boston. Account handled by H. B. Humphrey Co., Boston. . . . Contract also has been renewed for another year by group of local banks of Spelling Bee and Quiz program for students on WENT Gloversville, N. Y. High schools of Gloversville and Johnstown compete on program each Thursday evening. . . . From agencies, Klitten & Thomas, Los Angeles, reports on first birthday that firm services 34 accounts as against five at start,

Special programs and talks have been presented by CBC on occasion of its 10th anniversary. Nov. 10 half-hour salute from BBC was aired. Report to listeners in booklet form is being distributed on request . . . KYW Philadelphia is beginning to promote its forthsilver anniversary coming broadcasting. Station has commissioned plane bearing KYW streamers to fly over Pennsylvania's Franklyn Field each Saturday during football season . . . Radio Week Promotion Plans Ready

Announcements, Breaks Prepared for Local Station Use

BROADCASTERS in every city and town in the nation are expected to prepare special programs and carry announcements promoting National Radio Week Nov. 24-30, under plans being prepared at NAB for the industry's part in observance of the 26th anniversary of broadcasting.

Some 30,000 dealers handling radio sets are receiving from Radio Manufacturers Assn. promotion packets consisting of posters, two types of streamers, folders of suggestions for local promotion and press releases adaptable to local use. With the aid of this material individual dealers will be able to draw wide attention to National Radio Week and at the same time acquaint the public with the latest models in sets, combination and multi-band receivers.

Packets Ready

All broadcast stations are to receive packets next week containing announcements, station breaks, news releases and the RMA promotion kits. NAB is preparing a set of scripts incorporating the

Ask Radio Week Observance

BROADCASTERS and set producers and sellers were called on Friday to observe National Radio Week Nov. 24-30 in a joint statement by Justin Miller, NAB president, and Ray C. Cosgrove, president of Radio Manufacturers Assn. and vice president of Crosley Corp. The statement follows:

"We welcome this opportunity not only to call public attention to the achievements of radio but also to remind ourselves of the serious responsibilities of broadcasters and manufacturers alike to serve the public interest.

interest. "National Radio Week this year will find radio with expanded facilities, better prepared than ever before to fulfill these responsibilities. Broadcasting stations everywhere are improving their facilities and programs, new stations are being built and postwar radio receivers are being produced at record rates. FM and television are establishing themselves as new media for public enjoyment.

"We hope that everyone associated with radio broadcasting—station owners and their staffs, advertisers and agencies, program producers and participants, radio manufacturers and their merchandising representatives—will join in the observance of National Radio Week Nov. 24-30, and that the millions of listeners will take time to consider the vital role which radio plays in their daily lives."

best material used by stations in the 25th anniversary celebration last year.

week wrote network presidents, asking their cooperation in the plans. Networks will take the lead in promoting the week on the national level, with stations and dealers cooperating in individual cities and towns.

Partcipating in the dealer phase ers and electrical appliance retailers. Working with them, besides RMA, are National Dry Goods Assn., National Retail Furniture Assn., National Music Markets Assn. and National Electrical Retailers Assn.

In completing its nationwide promotion campaign RMA noted that 13,000,000 receiving sets will have been produced since observance of the first National Radio Week last year. This production is 50% above the highest rate attained in the last prewar year, 1941.

One phase of NAB's campaign is already under way. This is the nationwide letter contest to be conducted by the Assn. of Women Directors, under direction of Alma Kitchell, WJZ New York, AWD president, and Dorothy Lewis, NAB director of listener activity.

RMA has approved donation of 204 receiving sets, with 12 sets to be given away in each of the 17 NAB districts. Letters are to be not over 200 words, covering the subject "What I Think About Ra-

PROGRAM BY BLIND Children Produce Show They -Wrote in Braille-

SIX blind Maryland school children prepared a radio script in braille and produced the show, entitled When the Teacher Is Late over WCBM Baltimore.

The program dealt with embarrassing situations in which blind people find themselves, and pointed up their sense of humor. WCBM described the show as highly successful and found audience reaction excellent. A part of the stations regular Children's Theatre of the Air, broadcast each Saturday, 11-11:30 a. m., the youngsters from the Maryland School for the Blind, Overlea, Md., aired their program Nov. 2.

Each of the six participants had his own script in braille. Program was produced in Sear's Auditorium, adjacent to WCBM. Newell Warner of WCBM is m. c. and director of the Children's Theatre.

dio." They are to be sent not later than Dec. 6 to the woman broadcaster over whose program the contest is announced. Winners are to be announced about Feb. 1, according to Mrs. Lewis.

RMA is developing a separate promotion campaign based on the slogan "A Radio in Every Room —A Radio for Every Purpose." With 90% of homes in America having at least one set, RMA notes that only 50% have two or more sets. Final approval rests with the RMA board of directors.

The RMA Radio Week campaign is being directed by W. B. McGill, advertising director of Westinghouse Radio Stations Inc., who is chairman of a special subcommittee of the RMA Advertising Committee. NAB's plans are being prepared under direction of Edward J. Heffron, executive assistant-public relations.

POTTER TO PRESIDE AT KENTUCKY MEET

MEETING of Kentucky Broadcasters Assn. will be held Nov. 15-16 at Lafayette Hotel, Lexington, Ky., with President Hugh O. Potter, WOMI Owensboro, presiding. Sessions open at 1 p. m. Friday with a talk on "Small Market Station Operations" by J. Allen Brown, head of the NAB Small Market Stations Division.

Arthur C. Stringer, NAB director of special services, will give a talk on "Radio News" with William H. Cartwright, Edward Petry & Co., Detroit, speaking on "What Radio Research Forgot."

Saturday meeting opens at 9:15 a. m. with Elmer Sulzer, U. of Kentucky, discussing "Department of Radio Arts." Business session will be held, with election of officers, followed by a luncheon at which the Nunn stations will be hosts. Delegates will attend the Kentucky-W. Va. football game in the afternoon. Other association officers are J. E. Willis, Nunn stations, first vice president; Harry McTigue, WINN Louisville, second vice president; Harry Callaway, WHAS Louisville, secretary-treas-

Newsmen Name Board

RADIO NEWSMEN of Southern California, newly organized, elected four directors Nov. 6. On the board are: Vance Graham, KMPC Hollywood news editor: Harry W. Flannery, CBS commentator; Adele Ullman, ABC news staff, and Pat Bishop, KFI Los Angeles news editor. They authorized a Grievance Committee, headed by Chet Huntley, CBS Hollywood director of public affairs and president of the group, to deal with such problems as radio representation on equal status with the press.

Press Cooperates on Radio Listings

Papers Usually Carry Program Schedules, NAB Finds

NEWSPAPERS in general are friendly and cooperative in printing broadcast program listings, according to Kenneth H. Baker, NAB director of research. Dr. Baker based this finding on a questionnaire survey conducted among 732 AM commercial stations in which a return of 79% was attained.

The results of the survey reflect a marked improvement in radionewspaper relations in the last decade.

Only 4% of broadcasters reported to the NAB that local papers refused to carry any of their listings. Another 3% said that some, but not all, of their local papers will not carry listings.

"The practice of refusing space to broadcasters is more characteristically a small-town phenomenon, especially in towns of less than 50,000 population," Dr. Baker said.

Charged for Listings

Also limited to small towns is the not too prevalent practice of charging radio stations for printing their listings. No such cases were reported by clear-channel stations but 22 regionals and 50 locals, 13% of total reporting stations, said they paid for separate listings of their programs, with 81% not paying and 6% not answering the question.

The space for program listings is bought separately by each station required to pay for it, the survey revealed, with no sharing of expense by other stations appearing in the listings.

Dr. Baker found that 13% of stations whose listings appear in local newspapers have trade arrangements with the papers whereby space is exchanged for time on the air, with the practice more pronounced in cities under 50,000.

Asked if their listings appear daily, 89% of the responding stations answered "yes", with 9% saying "no" and 2% failing to answer. Of listings that do not appear daily 43% appear in weekly newspapers and 18% appear

NOTICE

(Signed) James F. Hopkins

irregularly; 39% did not answer the question.

Listings always appear on the same page, 51% of stations reported, but the survey showed no relation to city size. Mentioned most frequently were the radio page, amusement page, theatre page and comic page, though significance of these answers is reduced because half of the respondents failed to mention any special page.

Advertising Figures

Dr. Baker found that 79% of stations buy newspaper space for promotion of their station or program promotion, or both, with no relation shown to city size. Three out of five of those who do not buy extra newspaper space cited station policy as the reason.

Asked how many papers in the city carry listings, 81% replied

ORLANDO TRANSFER SOUGHT FROM FCC

TRANSFER of control of Orlando Daily Newspapers Inc.'s conditional FM grant for Orlando—based on a 1945 contract by which Martin Andersen, 39.2% stockholder, acquired voting control and may ultimately acquire the remaining stock for \$624,275—is sought in an application pending before the FCC.

The transfer would be from General Newspapers Inc. to Mr. Andersen individually and as trustee for his wife and daughter. Under the 1945 contract, Charles E. Marsh and members of his family, controlling stockholders of General Newspapers, exchanged control in Orlando Daily Newspapers for Mr. Andersen's onethird interest in Macon Telegraph Publishing Co. Mr. Andersen has voting control of the Orlando company, the Marsh shares became preferred as to cumulative dividends at a rate of \$5 monthly for a total of \$40,500 annually, and at the end of 10 years Mr. Andersen may purchase these shares for \$624,275 payable over a 10-year period. If dividend payments are defaulted for two years, Mr. Marsh reacquires voting rights.

In addition to the conditional FM grant, Orlando Daily Newspapers won a proposed grant of its AM application for 990 kc with 10 kw day and 5 kw night, directionalized fulltime [BROADCASTING, Nov. 4]. Macon Telegraph Publishing Co., from which Mr. Andersen is withdrawing, has an FM application pending.

WARL Makes Debut

WARL in Arlington, Va., Washington suburb, took the air at 1:15 p.m. Nov. 7 with 1000 w daytime on 780 kc. Station is owned by Kilbourne Castell and Frank U. Fletcher, with Frank Blair as program director.

that they appear in all local papers in their communities. Listings of 90% of clear-channel stations are carried in all of the papers, with 83% for regionals and 73% for local stations. Thirty-nine percent of the stations reported their listings appear in one or more newspapers outside the city in which main studios are located.

Ownership affiliation with a newspaper was reported by 30% of stations; 68% reported no affiliation and 2% did not answer.

Cooperative or friendly relations with newspapers were reported by 51% of clear-channel stations, 56% of regionals, 41% of locals. Complaint that listings are printed in small type, buried, uncorrected or partial was voiced by 17% of clears, 9% of regionals and 9% of locals. Failure to cooperate or an attitude of enmity on the part of papers was reported by 3% of regionals and 8% of clears. Highest ad rates must be paid for listings according to 2% of clears, 5% of regionals and 8% of locals.

Thirteen stations—four regionals and nine locals—stated it was necessary for them to carry their listings as part of the advertisement of a local retailer, with four of the 13 sharing the cost.

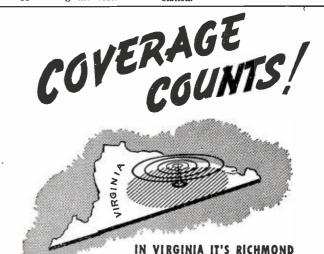

FCC GROUP VISITS PHILCO'S FACTORY

HEADED by Acting Chairman Charles R. Denny Jr. and two Commissioners, a delegation from FCC made a "general inspection" of Philco Corp. production and developments, including television, at Philadelphia last Friday.

The all-day tour was one of about eight the Commission has made in the past several months for first-hand examinations of industry production and plans. The group included:

Acting Chairman Denny and Comrs. E. K. Jett and Rosel H. Hyde; Chief Engineer George P. Adair; Chief Accountant William J. Norfleet; Assistants General Counsel Harry M. Plotkin and Vernon L. Wilkinson; Assistant Chief Accountant Dallas W. Smythe; Charles S. Hyneman and Earl A. Minderman, assistants to the chairman; Walter E. James, assistant to the general counsel; James A. Barr, chief of AM division, broadcast branch; Curtis B. Plummer, chief of TV division, broadcast branch; William C. Boese and Charles R. Weeks, chiefs of sections, engineering depart-

CKPG Prince George, B. C., 250 w on 1230 kc, has joined the CBC Trans-Canada network as a supplementary station.

Y & R Radio Executive Says Research Not Final Word

KEYNOTING his talk to convention theme of "Distribution or Joseph A. Morna, New York associate radio director of Young & Rubicam Inc., at Pacific Council of AAAA ninth annual Western States Convention, advised delegates that, "unless the commercials are good--no matter how good radio distribution isradio's a bust."

With his speech broadcast over KIST, he was principal speaker at a three-day convention at Biltmore Hotel, Santa Barbara, Calif., ending Nov. 6. H. E. Cassidy, vice president of the McCarty Co., Los Angeles and outgoing chairman of Pacific Council, presided. Only other speaker touching on radio was Linnea Nelson, timebuyer, J. Walter Thompson Co., New York.

Dramatizing costliness of commercials, Mr. Moran said that some sponsors pay from \$10,000 to \$13,000 a minute for their commercials

Frankly appraising commercials, Mr. Moran admitted that there is room for improvement but urged consideration of progress already made in past few years. Sketching progress in light of his own agency's operations, he underlined the need for simplicity.

Research Not Final

Although "research is a mighty big factor, in improving commercials," Mr. Moran cautioned, "it isn't the last word. . . . Experience and skill and advertising judg-ment are just as important," he said.

Giving research its due, he reviewed electronic audience measurements which enabled radio producers to obtain a reaction curve for an entire show from groups of people. For first time it was possible to break this down "second by second," thereby determining among other things "why each element of the show is liked or disliked." With that knowledge remedies are possible, he advised.

"A radio department is as good as the last commercial broadcast." he said. Reminding his listeners that "radio copies an awful lot from itself . . . often without knowing why," he urged careful thought.

Recalling Sir Henry Irving, Shakespearean actor who dragged his feet off stage because of a club foot, he said that many other Shakespearean actors did likewise without even knowing why.

Oral Experience

When radio commercials first took to the air, they were written by those whose experience was in other media, Mr. Moran said. To capitalize on oral appeal, he pointed out that advertising next turned to showmen, already familiar with the spoken word. At this point, he said, Young & Rubicam took showmen and made them into advertising men. They took people who knew about the spoken word and taught them advertising, thus forming the first group of people whose job it was to write radio advertising copy exclusively.

Mr. Moran described entry of Dr. George Gallup into Young & Rubicam organization and his resultant research which quickly began to embrace radio. Following properly controlled tests, it was found that each commercial was most effective covering only one specific point about a product. Next, he said, research showed the value of tying program personalities in with commercials.

Tracing progress made, he explained that commercials were read to clients, instead of pre-

COMPETITOR DENIED W IBW INTERVENTION

FCC refused to allow Southern Broadcasting Corp., applicant for a new station at New Orleans on the operating assignment of WJBW there [BROADCASTING, Nov. 4], to intervene in the WJBW hearing which was held last week.

The hearing involved WJBW's renewal application and a request of Mrs. Louise C. Carlson, former wife of WJBK licensee Charles C. Carlson, that she be given the station's assignment-1230 kc, 250 w, fulltime-for a station of her own. The hearing was held at New Orleans.

Southern Broadcasting's application for the facilities was filed shortly before the hearing was scheduled. This presumably was the basis of FCC's denial of the petition to intervene. The application itself was not acted upon.

Southern Broadcasting is owned in equal shares by Robert L. Sanders, president and technical director of WSKB McComb, Miss., and George Blumenstock, WSKB general manager and treasurer. Messrs. Sanders and Blumenstock have a suit pending against Mr. Carlson based on a management contract involving WJBW several years ago.

Upcoming

Nov. 15: Women in Radio Conference (NAB-AWD), Denver U., Denver, Col. Nov. 15-16: Two conferences on radio in education for Washington, Oregon and Alaska area, Portland, Ore.
Nov. 15-16: Kentucky Broadcasters Assn.. general membership meeting, Lafayette Hotel, Lexington, Ky. (postponed from Oct. 8-9).
Nov. 18: 1946 Eastern Annual Conference, AAAA, Waldorf-Astoria Hotel, New York.

Nov. 18: 1946 Eastern Annual Conference, AAAAA, Waldorf-Astoria Hotel, New York.

sented like magazine and newspaper copy. Commercial writers were included in client meetings to fuse policy with copy. Emphasizing importance of this step, he contended "changing of a word or phrase by a person who hasn't built that commercial can result in loss of listener-interest at the point change is made."

Reviewing progress of BMB, Miss Nelson reminded agency executives attending convention that organization is "tri-partite" composed of NAB, ANA and AAAA. Therefore, she said, "everyone connected with business of advertising is responsible for success or failure of this" (BMB).

BMB Praised

To date, she reported, four networks and 706 stations have subscribed more than \$1,000,000 for the project. BMB has met every deadline, according to Miss Nelson, and has operated about 10% under estimated cost of operation. In her travels on the West Coast. she found station operators and agency executives extremely confident in BMB. They recognize need for such a service, and through its standardization, see increasing acceptance of radio as an advertising medium.

Warren E. Kraft, vice president and manager, Honig-Cooper Co., Seattle, was elected chairman of the Pacific Council for 1947. Charles E. Ferguson, vice president and manager of BBDO San Francisco, was retained as vice chairman with Charles H. Devlin, vice president and radio director, Joseph R. Gerber Co., Portland, elected secretary-treasurer. L. C. Cole, head of L. C. Cole Adv., San Francisco, continues on Board of Governors, with C. Burt Oliver, Hollywood manager of Foote, Cone & Belding, added as new member.

Routine Simplified

TO FURTHER reduce paperwork routine for both applicants and itself, FCC last week approved a proposed procedure whereby American Telephone and Telegraph Co. will be able to seek "blanket" authorization from year to year to cover annual programs of projects and to supplement existing facilities. Long Lines Dept. and associated companies of the Bell System are authorized to file before Dec. 1 of current year and Nov. 1 of succeeding years such blanket applications for ensuing year's projects. Commission took action under provisions of Sec. 214(a) of the Communications Act and Sec. 63.06 of its Rules and Regulations. Sec. 63.54 of Rules was waived to permit short cutting. Proposed procedure is not designed to cover construction to be undertaken and owned solely by any of the associated companies.

Comr. Jett Suggests Planning CBS WILL TELECAST DODGERS NEXT YEAR For FM to Develop Gradually

A REALISTIC approach to FM as an evolutionary as well as a revolutionary development in radio was advocated last week by FCC Comr. E. K. Jett who urged radio dealers to encourage public purchase of combination AM-FM receivers so that maximum benefits could be derived.

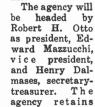

In an informal appearance in Hagerstown last Tuesday before some 100 distributors and dealers from western Maryland and contiguous areas in Virginia, West Virginia and Pennsylvania, Commissioner Jett cited the superior quality of FM but pointed out that AM service is destined to continue for some time and that clear channels probably will "remain permanently" to serve the remote rural dwellers. He spoke in the auditorium of WJEJ Hagerstown, at the invitation of Grover Crilly, owner of the Hagerstown station and an FM licensee.

Mr. Jett encouraged dealers to recommend purchase of combination receivers so that all broadcast stations, whether AM or FM, in given areas could be received. He predicted that FM eventually would replace AM insofar as regional and local operation are concerned, but pointed out that it will be "several years" before there are sufficient FM receivers in the hands of the public to bring

ROBERT OTTO FORMS OWN ORGANIZATION

AFTER the first of the year the New York and Buenos Aires offices of the Export Adv. Agency will begin operations as an independent organization under the

name of Robert Otto & Assoc., Inc.

the same offices and personnel with the addition of a new accounting and billing department. The agency's 35 clients will retain the services of Robert Otto & Assoc. Campaigns for these accounts will be run in Latin American countries. the Orient, Near East, Africa and Europe. The 35 accounts include: Bon Ami Co., Campbell Soup Co., Consolidated Razor Blade Co., Cream of Wheat Corp., Dorothy Gray, E. I. du Pont de Nemours & Co., Fisk Tire Export, General Motors Overseas Corp., Lehn & Fink Products Corp., P. Lorillard Co., Miles Laboratories, Inc., Lydia Pinkham Medicine Co. and others.

about that transition." Best estimates, he said, are that about five million sets incorporating FM will be produced in 1947. This will be produced in 1947, pace, however, he said, will be accelerated as the public demand for FM increases.

To Grow Rapidly

Because of the "superior quality" of FM the next two or three vears should see as many FM stations authorized and operating as there are AM stations, with the newer medium achieving in that short span what it has taken AM broadcasting a quarter century to attain.

To encourage combination set sales, Mr. Jett suggested that dealers demonstrate FM reception at night rather than daytime only. He pointed out that the consistent coverage of FM day and night would clearly demonstrate its advantages over AM. Since there are no daytime only assignments in FM whereas the bulk of the new AM authorizations are for daytime only or on local channels, the elimination of static and co-channel interference will be evident.

Mr. Jett cited as the primary advantages of FM over AM: (1) freedom from noise and static; (2) consistent day and night coverage; (3) high fidelity.

Two-for-One Stock Split Voted by Decca Records

STOCKHOLDERS of Decca Records Inc. last Wednesday approved the plan of a two-for-one stock split of Decca's capital shares and an increase in the authorized shares to 1,500,000 from 500,000. Trading in the shares began Nov. 8 on the New York Stock Exchange.

Consolidated net profit of Decca Records Inc. for the nine months ended Sept. 30, 1946, amounted to \$1,346,227 after provision of \$987,-903 for all estimated income taxes. This equals \$3.46 per share on 388,325 shares of capital stock outstanding Sept. 30, 1946, and compares with \$640,289 net profit, equal to \$1.65 per share on the same number of shares outstanding in the corresponding period of

Goldmark to Speak

DR. PETER C. GOLDMARK, director of engineering research and development at CBS, will talk about color television at the 611th meeting of the New York Electrical Society, Nov. 12 at 8 p.m. He will present some of the fundamental aspects of colorimetry as they relate to the use of colors and television. Dr. Goldmark also will describe the electrical standards and design features specific to color television in the ultra-high fre-

WCBS-TV New York will televise home games of the Brooklyn Dodgers starting in 1947 under an exclusive three-year contract for video rights to the games concluded last week between CBS and the Dodgers. In addition to the blackand-white coverage, CBS plans to televise some of the games in color using new equipment now being completed by the network's video engineers. Plans also include scouting the Dodgers spring training in Havana, presumably filming practice games and other training season highlights for broadcasting on WCBS-TV.

Agreement, announced jointly by CBS President Frank Stanton and Branch Rickey, president and general manager of the Dodgers. was negotiated for CBS by Lawrence W. Lowman, vice president in charge of television, and Leonard Hole, director of television plans, and for the Brooklyn ball club by Mr. Rickey, Walter F. O'Mallev. vice president, and John L. Smith, vice president and treas-

The baseball telecasts will bo available for sponsorship and George Moskovics, commercial manager of WCBS-TV, reported that already prospects are "lined up four deep." Ford Motor Co., currently sponsoring Saturday football games and a variety of special events and sports pickups from Madison Square Garden on the station, is understood to be interested in adding the Dodgers games to its video schedule.

While the immediate arrangement between CBS and baseball club is for New York telecasts only. the possibility of networking the programs to other cities by coaxial cable or radio relay is being considered. But before any network contract could be concluded CBS would have to arrange for video affiliates in the other city or cities to be included, and the Dodgers would have to work out an agreement with the ball clubs in those cities to permit the telecasts to invade their home territories.

Luckman Hits Business

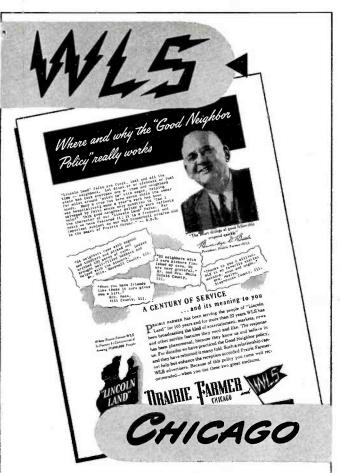

CHARLES LUCKMAN, president of Lever Brothers Co. (Lux soap), called upon "the leadership of American business to establish as its objective for 1970 at least a 100% higher standard of living for the American wage earner. Speaking at the Super Market Institute's annual meeting in Chicago Nov. 7, he demanded that business reform and stop opposing "everything that spells security" for "the little guy." He warned against complacency over the Republican landslide, and said business reform will have to precede labor reform.

WGAR Says WADC Estopped In Challenging FCC Authority

WGAR Cleveland contended last week that WADC Akron was out of order in challenging FCC's authority to consider program matters in passing upon an application for improved facilities [BROADCASTING, Nov. 4].

Replying to WADC's exceptions to the proposal of FCC to grant the WGAR application for 50 km on 1220 kc and deny WADC's, the Cleveland station argued that program service was one of the issues of the proceeding and was not questioned by WADC either before or during the hearing.

On the same grounds WGAR said WADC "is estopped" from challenging the relevancy of findings cited by the Commission as factors in its decision not to invoke the multiple ownership rule despite overlapping service between WGAR and its sister station, WJR Detroit.

"... counsel for WADC consistently took the position throughout the hearing that the Commission should have the widest possible scope in arriving at a decision, and that he would not object to anything on the ground of materiality," WGAR asserted.

Claiming that it "took the Blue Book seriously," WADC had argued that by carrying the complete CBS program schedule—a proposal which FCC found objectionable—it would become a "specialized" station. WGAR called this "an ingenious interpretation," declaring that the Blue Book made clear that a specialized service is "a preponderance of classical music . . . a preponderance of dance music, etc."

Further, WGAR asserted, the Blue Book indicated that a specialized service is justified only in large metropolitan areas "where a listener has his choice of several stations." WADC, it was noted, is "only one of two stations available to serve the local community needs of Akron."

WADC also overlooked the Blue Book's reference to the importance of local programs, WGAR contended.

WADC arguments that the Commission should have invoked the duopoly rule to deny WGAR's application were dismissed by the Cleveland station with the assertion that FCC made "thorough and accurate findings of fact on this subject" and reached a correct conclusion.

WGAR denied that a grant of its application would lead to a monopoly for WGAR-WJR owners, declaring that "stations in Detroit, including WJR, do not compete with stations in Cleveland."

When WGAR was granted use of 1220 kc with 5 kw in 1943, one of the conditions was that it take steps to increase its signal as soon as materials became available. In its reply to WADC's exceptions,

WGAR denied that this condition meant the selection of a new site rather than increased power. It noted that WADC, when it appealed to the U. S. Court of Appeals after the 1943 grant, itself argued that the condition anticipated 50 kw power for WGAR.

The Cleveland station claimed that WADC, when it complained of FCC's failure to consider that the financial return to a station is greater from local programs than from network shows, "completely overlooks the cost of producing local programs." If WGAR duplicated WADC's plan to carry the full CBS schedule, the station said, "it could dispense with three-fourths of its staff and nearly all of its talent, thus substantially reducing its overhead and increasing its profit."

Reed T. Rollo of the Washington law firm of Kirkland, Fleming, Green, Martin & Ellis filed WGAR's reply to the WADC exceptions, which were submitted by Paul M. Segal of the Washington firm of Segal, Smith, & Hennessey. Both WGAR and WADC now operate with 5 kw, WGAR on 1220 kc and WADC on 1350 kc.

COMPTON ABANDONS TELEVISION SETUP

COMPTON Adv., New York, Dec. 1 will eliminate its television department which was originally organized in July 1941. Agency has advocated television and had planned to refrain from live production (filmed), until further experiments with motion pictures were developed.

Wyllis Cooper, head of the television department, will resign from agency to do freelance writing. One of his first assignments is to write script for the Wynn Wright Assoc. half-hour Eddie Dowling-Esquire Show series. Program will dramatize Esquire magazine stories. James N. Manilla, Compton's associate producer of television and motion pictures, leaves agency to join motion picture advertising department of Eastman Kodak Co., Rochester, N. Y.

Future television projects will be handled by agency's radio department.

CAB Board Names Rogers, Sedgwick

REORGANIZATION of the Canadian Assn. of Broadcasters followed a three-day meeting of the CAB Board of Directors at Toronto, Nov. 4-6. Col. Keith Rogers, owner of CFCY Charlottetown, was appointed honorary president, with Harry Sedgwick, managing director of CFRB Toronto, remaining chairman of the board. Col. Rogers will spend part of his time at Toronto, it is understood.

Harry S. Dawson, engineer of CAB, was appointed manager of the CAB office at Toronto while continuing as consulting engineer for member stations. T. Jim Allard, manager of the Radio Bureau at Ottawa, operated cooperatively by independent stations, has been appointed to a new post, public service director, and will continue to supervise the Radio Bureau, commuting between Toronto and Ottawa.

Another new post was created, director of broadcast advertising, with Douglas Scott, account executive of Cockfield Brown & Co., Toronto agency, appointed to this office. Formerly advertising manager of E. B. Eddy Co., Ottawa, he handled network programs Singing Stars for York Knitting Mills, Toronto, and Rex Battle for Laura Secord Candy Shops, Toronto, at Cockfield Brown. T. Arthur Evans remains secretary-treasurer.

Crosley Is Constructing \$170,000 FM-TV Plant

CROSLEY Broadcasting Corp., Cincinnati, will start immediately on construction of a \$170,000 FM and television transmitter station with 575-foot tower, James D. Shouse, president, said last week.

Civilian Production Administration has approved the building to cost \$34,500. Remainder of the sum will go for equipment and the tower, Mr. Shouse explained. Site chosen is the old WSAI transmitter station at Warner and Chickasaw streets, facing the hill overlooking Cincinnati. Crosley sold WSAI several years ago but retained the tower and the site. Temporary FM and television broadcasts' will go out from the Carew Tower in downtown Cincinnati.

Radio Honored

COMPLIMENT to commercial radio was paid at cornerstone ceremonies for the new \$2,000,000 addition to the Sattler Dept. Store, Buffalo. Among articles placed in stone for posterity were series of six transcriptions explaining success of singing announcements, their development and exploitation, as well as a manuscript on sports prepared by Ralph Hubbell, sportscaster at WGR Buffalo. Sattler's publicity director, Robert S. Cornelius, stated "Radio singing announcements have played a mighty important part in our operation and have proven themselves not only as an institutional medium, but as an effective sales instrument as well."

WHOM WILL EXPAND IN PUBLIC SERVICE

GENEROSO POPE, president of Il Progresso Italo-Americano and new owner of WHOM Jersey City, in a statement of policy last week announced "a vastly expanded schedule of public service programs in four languages will dominate future programming" over his station.

"We believe," Mr. Pope stated, "that public service programming in foreign languages has not kept pace with English public service programs, generally speaking. It is our intention to intensify this type of programming, to bring home to our listeners the meaning of good citizenship, and to encourage noncitizens to become naturalized Americans."

Fortune R. Pope, newly-named executive vice president in charge of WHOM, denied the statement made by Drew Pearson over his broadcast Nov. 2 in which the syndicated columnist declared that a "liberal" network would soon be started along the East Coast by the WHOM owner.

"We do not have any immediate plans for expansion," Mr. Pope said, "and Mr. Pearson's radio statement is entirely unfounded."

Radio Link

CONSTRUCTION permits were granted by the FCC last week to Winfield Morton for two temporary provisional radio-telephone stations to serve an isolated ranch area in New Mexico. Using FM emission with 250 w on 39.54 mc, one station would be located at Santa Fe and the other at Abiquiu, 50 miles distant. Latter has 700 population and is without telephone contact. Authorization is for one year and is subject to revocation and to applicant endeavoring to obtain public service.

FCC ANSWERS WNEW PLEA WITH LETTER

IN A LAST-MINUTE pre-election interpretation, FCC last week held that the political section of the Communications Act (Sec. 315) requires that time be made available on a candidate-for-candidate basis.

If the broadcast discussion involves policies and platforms rather than candidates, the Commission held that then the parties should be alloted equal time.

The interpretation, given in a letter in response to a petition filed by WNEW New York [BROADCASTING, Oct. 14], was considered an approval of WNEW's policy of allowing the Democratic, American Labor, and Liberal parties, which had the same candidates for Governor and Senator, an amount of time aggregately equal to the time allotted to any other party for its own candidates for these offices.

WNEW pointed out that it made political time available on a sustaining basis, that the three parties with the same candidates for Governor and Senator felt that each of them should have the same amount of time allotted to other parties, and that the Republican party believed it should have time equal to the total allotted to the three for the support of their common candidates.

The station's petition, filed by Thomas W. Wilson of the Washington law firm of Dow, Lohnes & Albertson, had requested a declaratory ruling on the question. The Commission, however, responded with a letter, asserting that it lacked sufficient facts to justify a "decision" on the matter.

Rights Secured

LAMBERT & FEASLEY, agency for Lambert Pharmacal Co., Listerine toothpaste, has purchased from Al Buffington Co., Baltimore, exclusive rights to remainder of country for Quiz of Two Cities half-hour audience participation show. Lambert Pharmacal has been sponsoring program on 24 stations in various sections [BROADCASTING, Sept. 16]. Quiz show has been on air for nine years.

Free Ads

FREE ADVERTISING announcements for a month were unique give-away presented to Mrs. Evelyn Gastel of Pittsburgh when her "home-town" day came up Nov. 1 on the CBS Cinderella show. Free advertising was given Mrs. Gastel by CBS affiliate, WJAS Pittsburgh, for her husband when he opens his garage shortly.

RADIO TO SUPPORT PEACE BOND DRIVE

ALL the broadcasting industry—networks, local stations and sponsors—is giving full support in publicizing the new month-long peacetime savings bond campaign which begins today (Nov. 11), according to Brent O. Gunts, Treasury Dept. chief of radio.

ABC started the bond drive Nov. 10 with a special program at 8 p. m. featuring Paul Whiteman and the entire regular cast of his show. Today Secretary of the Treasury John W. Snyder will address the nation on the significance of the campaign on MBS at 7:15 p. m., and at 10:30 p. m. CBS will sound off the beginning of the drive with a special broadcast from Hollywood featuring Sweeney and March, comedians.

NBC has announced a line-up of

NBC has announced a line-up of 59 shows that will tie-in with the savings bond fall campaign which runs until Dec. 7.

More than 1000 stations throughout the country will present the savings bond transcribed program, Treasury Salute, featuring Robert Waldrop in stories from the American Notebook twice weekly during the campaign month, and approximately 500 stations will also present the 12 five-minute transcribed Sport Spots prepared by the savings bond radio section in cooperation with Joseph Katz Co., New York. In addition, practically every station in the country will carry the transcribed and live announcements prepared for the campaign as well as the transcribed version of the bond song, What's Your Favorite Dream.

committees, NAB pointed out last week. AAAA has renewed its perennial move by contacting sta-tions throughout the country, though NAB notes that a heavy majority of stations do not grant the discount to agencies.

At meetings earlier this year the NAB Sales Managers Executive Committee and the Small Market Stations Executive Committee took definite stands against the discount. at the same time observing that each station is free to grant the discount if it desires.

The NAB committees feel that the agency rather than the advertiser is the principal in the contract, and the agency assures payment of the account, under terms of the standard contract form and at the insistence of the agencies themselves. Thus stations lack the right of subrogation.

The committees argue that no further inducement is necessary for prompt payment by agencies. On the other hand the agencies argue that the discount enables them to collect promptly from the advertiser. The NAB committees feel, however, that this is a problem between agency and client in which stations should not become involved.

Franco Sends Letters

Carlos A. Franco, Young & Rubicam's manager of timebuying, last week appealed directly to stations to follow the example of networks and most newspapers and magazines in granting 2% cash discounts on national advertising.

In a letter sent to stations which do not follow this policy (about 75% of stations), Mr. Franco said the 2% discount had been recognized in national advertising as "an economic necessity, as being essential to the stability and financial responsibility of the industry." He pointed out that the four major networks, 95% of the general magazines and 93% of the daily newspapers now grant a 2% cash discount.

Predicting that "from now on the national advertiser is going to be increasingly important to you as a customer," Mr. Franco told stations that in the development of national business "there is one particular factor which we believe should receive your careful consideration at this time . . . the granting of the 2% cash discount on national advertising time charges paid within a specified short period."

In explanation of how the application of the discount may assist the growth of national advertising, Mr. Franco outlined the channels through which funds pass from advertiser to agency to station. Agencies, he said, have little working capital upon which to base credit ratings, hence must receive steady flow of funds from

CBS Dividend

CBS last week declared a cash dividend of \$1 per share on class A and class B stock of \$2.50 par value. Dividend will be paid Dec. 6 to stockholders of record at close of business Nov. 22. Net income of CBS during first nine months of 1946 was \$3.997 .-532. In same period of 1945, net income was \$4,271,261 but of this amount \$1,037,014 was gained from sale of WBT Charlotte to Jefferson Standard Life Insurance Co., Greensboro, N. C.

its client advertisers. If stations granted cash discounts to agencies, which pass them along to clients, a "persuasive inducement to prompt payment by advertisers" has been achieved, he said.

"The fact that your station is paid promptly and fully for national advertising is due in largest part to the stability which the cash discount has given to advertising financial operations," Mr. Franco wrote. "It is doubtful that without the cash discount such stable credit conditions could be maintained very long.

"We believe that it would be to your real advantage to join these other media in allowing the discount," said Mr. Franco.

"The proposal," he continued, "may look as if, for the sake of uncertain future gains, we are asking you to cut your rates now for our immediate benefit. You may very well argue that your rates are fair and you can see no reason why you should cut them. Allowing the cash discount does not mean cutting rates. Your rate schedules can be adjusted to provide for the discount without lowering them. You will suffer no loss, because you will continue to receive as much per time unit net as you have been receiving without the cash discount."

He pointed out that Young & Rubicam had "nothing to gain in the way of additional income, since the cash discount means no more money in our pockets."

"Our sole interest," he said, "is in building a sure foundation of sound, responsible financial operation that will mean for both of us safety in our commitments and confidence in the future."

More Amateur Bands

FCC LAST WEEK announced adoption of Order 130-J by which certain additional frequency bands are made available for use with type A1 emission (radiotelegraphy) by amateur radio stations. Effective Nov. 2, bands released are 7,000-7,150 kc, 14,000-14,100 kc and 14,300-14,400 kc. Although previously allotted for such amateur use by Part 12 of Commission's Rules Governing Amateur Radio Service, their use has been temporarily restricted.

Dr. Baker of GE Will Head Radio Engineers

DR. W. R. G. BAKER, vice president of the General Electric Co. in charge of electronics, has been elected president of the Institute of Radio Engineers for 1947. He will succeed Frederick B. Lewellyn of Bell Telephone Laboratories and will assume office Jan. 1.

Dr. Baker, a native of Lockport, N. Y., is also director of the Engineering Dept. of the Radio Manufacturers Assn., member of the board of governors of the National Electrical Manufacturers Assn., and chairman of the Electronics Committee of the American Institute of Electrical Engineers. He is a graduate of Union College.

Padway Says NAB Sponsored Lea Act

Admits Petrillo Is Guilty If Law Should Be Constitutional

By FRED SAMPLE

ALMOST SIX MONTHS after James Caesar Petrillo, AFM president, ordered a picket line thrown around WAAF Chicago for its refusal to meet his demands to employ three additional union musicians as platter-turners, the chunky music czar faced a Federal judge in the U.S. District Court of Northeast Illinois to show cause why he should not be convicted of willfully violating the Lea Act.

Flanked by his chief counsel, Joseph Padway, Mr. Petrillo presented himself before Judge Walter La Buy at 10 a.m., Monday, to argue his contentions that the Lea Act is unconstitutional.

Admits Strike

Mr. Padway, in his motion to dismiss the Government's bill of information filed June 10, admitted Petrillo notified Brad Eidmann, general manager of WAAF, Drover's Journal station, to employ three additional union employes and also that he ordered a picket to be placed in front of the station's entrances in the Palmer House in violation of the Lea Act [Broadcasting, May 27].

In his arguments, Mr. Padway repeated charges presented in his brief, filed Aug. 19, that the Lea Act violated the First, Fifth, Tenth and Thirteenth Amendments of the Constitution.

Mr. Padway, in questions asked of the court which he himself answered, said it was not illegal to ask an employer to employ additional persons, even if in the employer's opinion they were not needed or if they performed services not required.

Also, it was not illegal, under the Lea Act, to ask more money in lieu of additional employes, Mr. Padway contended. It was not illegal, he declared, because nowhere in the Lea Act does it specifically state that the objectives which Petrillo sought to obtain by "peaceful picketing" were in themselves illegal.

Reviews AFM Bans

He admitted that Petrillo committed the acts as charged in the Government's bill of information and that he was guilty of violation of the Lea Act. But, he argued, until the objectives themselves are legally considered as a crime, then the means used cannot be considered as a crime.

There can be no law under democratic processes that can force a man to work against his will for a private employer, Mr. Padway told the court.

He reviewed Mr. Petrillo's and fused by the employers. He said the AFM's controversies with NBC, the NAB and the radio industry actly this illustration and conceded

Huddling at recess during oral argument (l to r): Joseph Padway, James Caesar Petrillo, Henry Kaiser, member of AFM counsel.

in regard to the Interlochen, Mich. broadcasts, and Dr. Joseph E. Maddy, his edict against foreign broadcasts and against duplicate broadcasts on AM and FM stations.

"There are other matters to agitate the industry and to eliminate anything beneficial for the musicians, one of which was the amateur hour which was found to be a hindrance to the musician and it was decided it should be abolished," said Mr. Padway. "Another hindrance was the foreign broadcast and we wanted that limited. When the radio industry found they could do nothing about this, they found friends in Congress, among them Congressman Lea, who had a bill introduced."

He told the court that the AFM "had to object" to the broadcast of the Interlochen National Music Camp concerts because the programs were making inroads to the livelihood of union musicians. "The campaign of vilification continued," he said. "Petrillo was known as a czar and dictator, but if Maddy had come to Petrillo to discuss the matter, a setlement might have been reached."

At no time, Mr. Padway declared, had Mr. Petrillo said the networks or the stations could not broadcast programs by non-union musicians. Mr. Petrillo had only informed them that if such broadcasts were made then his union members would refuse to perform. This, he asserted, was fully in accord with each musician's constitutional rights

He said the Lea Act itself had been sponsored by the NAB merely to restrict Petrillo and the AFM and that the authors, in Congressional hearings, had admitted the union's right to strike. He quoted from the Congressional Record what he termed a "classic conclusion" that union musicians who felt in need of relief from "strenuous labor by the addition of additional employes" had a right to strike if these demands were refused by the employers. He said the WAAF situation paralleled exceptly this illustration paralleled exceptly this illustration and conceded.

the right of the station to refuse to employ no musicians at all if it so desired. By this very privilige, the AFM had an equal right to rufuse to work if the conditions imposed by the employer were unsatisfactory, he said.

Freedom of Speech

He told the court the Lea Act concedes the right of a union under constitutional law to engage in peaceful picketing. Further, he declared, picketing was merely another form of expression of free speech as guaranteed by the Bill of Rights.

If, he argued, the plaintiff (in this case the employer) can refuse to employ additional persons, cannot Petrillo avail himself of the same prerogative?

Mr. Padway concluded his arguments at 3:15 p.m. by telling the court that if the Lea Act could be proved constitutional, his client was guilty and would willingly accept the punishment of the court.

It took less than an hour for John Pratt, special assistant prosecutor for the Dept. of Justice, to sum up the Government's case.

Confining his arguments almost entirely to the findings of the House Interstate and Foreign Commerce Committee, which conducted hearings on the Lea Act prior to its passage 222-43 in the House and 47-3 in the Senate, Mr. Pratt told the court that although an invitation had been extended, no representative of the AFM had attended the hearings.

Against Public Interest

He said the Government based its case on the grounds that Petrillo's actions against the broadcasting industry were not only a disservice to other unions, but against the interests of the American public.

Millions have been extorted from the broadcasters every year, the price they paid for peace, declared Mr. Pratt. "But they didn't get that peace and Congress had to act."

He termed the purpose of the Lea Act as clear. The act, he said. was conceived and passed by Congress for the express purpose of protecting an industry serving the public against extortion and coercion. He said hundreds of stations depended upon networks for facilities to entertain and educate the public and that Petrillo's control of a necessary facility-in this case the music required for programming-constituted an illegal and coercive force. The only question before the court, he declared, was the Lea Act's constitutionality. In the Government's opinion the Lea Act is constitutional and Petrillo is guilty as charged.

He denied Mr. Padway's allegations that the Lea Act was an attempt to deprive the AFM of the right to earn a living, or that it was an attempt to replace musicians with labor saving mechanical devices.

It also, he declared, has nothing to do with any other coercion which Petrillo or the union may have em ployed (foreign broadcasts, or ducbroadcasts).

The Government's case, he said is based on the contention that Congress is empowered to act against coercion to force an employer to use employes he does not need.

At the conclusion of the Govern ment's argument, Mr. Padway offered a rebuttal to Mr. Pratt's contention that the AFM president had been guilty of coercion in ordering the WAAF walk-out.

No Concrete Example

No concrete example of extortion or coercion could be offered, he declared, inasmuch as the right to strike had not been outlawed or proved a means of coercion or extortion. He also cited the AFL's support of Mr. Petrillo and its declaration that the Lea Act was discriminatory not only to the AFM but to all organized labor. He said the Government's references to other court decisions relative to labor were not applicable to the present case.

Judge La Buy announced he would take the case under advisement. It is believed that decision will not be handed down before two or three weeks. Should the court find in favor of the Government, Mr. Petrillo can appeal to the U. S. Circuit Court of Appeals. If Petrillo's motion to dismiss is sustained, it is expected that the Dept. of Justice will ask the court to refer the case to the Supreme Court for a final decision on the legality of the Lea Act.

During the afternoon recess, Mr. Petrillo, nattily attired in a dark blue suit, posed with Mr. Padway for photographers in the corridors and chatted quietly with friends. His attitude was sober and dignified in contrast to his vehemence during recent negotiations with the record and transcription industries in which he successfully obtained wage increases of 37½% and 50% for his musicians.

No Reason to Meet

Ask when, or if, he would meet with Justin Miller, NAB president, Mr. Petrillo said, "Not until this thing is over, at least."

He added that he could see no reason for such a meeting inasmuch as there was nothing to discuss. He amplified this by saying that Mr. Miller himself admitted he had no authority to negotiate a contract or bargain on behalf of either networks or individual stations. He said he personally regretted this since he would prefer to negotiate with one individual rather than 900.

WDRC Expands

WDRC Hartford, which occupies 16th floor in Hartford-Connecticut Trust Co. Bldg., is soon to take over a section of the 15th floor.

United Nations in the struggle against the Axis.

Q. Would the budgetary reductions proposed by the U. S. S. R. seriously impair the program of international broadcasting which the United Nations has announced it hoped to undertake? If so, to what extent?

A. At the present time we have no way of knowing to what extent the budget will be reduced, if indeed it will be reduced at all. If the budget is reduced we may have to change our plans not only with regard to radio but also with regard to all other media of information.

Q. How much of the \$23,790,-008 estimated budget for 1947 was appropriated for the establishment of international broadcasting by the United Nations?

A. Two and a half percent.

Russian Objections

Russian objections to UN broadcasting, it was thought, were explainable on more than economic grounds.

Inherent in the Soviet argument were the idealogical differences which have upset many another UN committee meeting. Although no official comment from UN sources was available on the subject, it was plain that the Soviet would hardly be disposed to encourage the delivery of extensive, accurate news of UN doings to peoples everywhere, including those in Russia and her satellites.

The Budgetary Committee was scheduled to resume its examinations of the budget today. Some UN sources predicted that the committee would reach a decision as to its recommendations before the week was ended.

Priority

LISTENERS COME FIRST -even if it means tossing a commercial show off the air. That's what has happened at CJOR Vancouver. For nine years CJOR has had an early morning feature The Gee Gee Man. Recently, time shortages being what they are, CJOR booked a national transcribed show Two Ton Baker for Quaker Oats through Spitzer & Mills, Toronto, to run in the middle of the last half-hour of the morning show. Listeners objected by mail and telephone. They did not want another program, no matter how good, to interfere with their early morning show. CJOR contacted the agency, the commercial program was shifted to CKWX Vancouver, and CJOR lost a \$3,000 account to keep the listeners happy.

HOW best to apply the Sablon touch to new CBS series on which the French singer will star for DuBarry lipsticks and powders is being discussed by (1 to r): Dwight Mills, executive vice president, Kenyon & Eckhardt, agency for DuBarry; Jean Sablon; Elmer Bobst, president of the Wm. R. Warner Co., parent organization of Hudnut and DuBarry, and C. A. Pennock, president of Hudnut Sales Co. Inc.

PRIZE COLLECTIONS

VIP, New York Organization, Gets Gifts —For the 'Give-Away' Shows—

BILL MURPHY, a former radio writer, who says he has ulcers to prove it, last week was busily building a business which only the fabulous "Give-Away" era of radio programming could have spawned.

Mr. Murray was engaged in the exhausting work of collecting prizes for half a dozen of the most generous "Give-Away" shows. Last week his firm was collecting more than \$10,000 worth of largess per week.

The organization which Mr. Murphy represents is named VIP, Navy scuttlebut for very important person, and it makes a business of procuring for radio question and answer shows the hardto-get prizes that civilians can't buy . . . and at no cost to the sponsor. Here is the way Mr. Murphy stumbled into his job.

He came back from the Navy with an idea of capitalizing on comfort. So he contracted with several big firms to be their New York expediter in such unobtainable items as hotel rooms, theatre tickets and transportation reservations.

CBS asked him to obtain hotel accommodations for visiting program guests who appeared on Cinderella Inc. The former script writer then sold his old employer on the idea of "Leave it to me, I'll get it all Free."

Such large manufacturers as Westinghouse, Servel, Admiral, and North Star Blankets donate their scarce products to programs such as Cinderella Inc., Give and Take, Surprise Party, and The Mrs. Goes Shopping. Every time one of their items is given away as a prize, the manufacturers get a free plug. So everything is free. VIP contracts with the network on a 13-week basis and gets a flat fee for rounding up the prizes.

The business has grown to such enormous proportions that Mr. Murphy has set up a separate department within his organization to do nothing but contact manufacturers for prizes and tell them where and when to deliver their products for give away on a future program. In addition to the New York shows which VIP gets prizes for, the firm furnishes gifts to WFBR Baltimore's "Shopping Fun" and to WTOP Washington's "Meet the Mrs." Further expansion is contemplated in the near future when the firm's services will be extended to all New York independent stations, it hopes.

Staff Announced

STAFF of WRHP Tallahassee. Fla., new local outlet on 1450 kc. was announced by the station last week. Managed by Frank W. Pepper and with Frank W. Hazelton as vice president in charge of engineering, station staff includes: W. B. Fraker, commercial manager; Eddie Le Barber, sales; Charles Clifton, chief engineer; J. D. Saltsman, formerly of WSUN St. Petersburg, copy chief and announcer; Jack Barrett, sportscaster; Charles T. Lynch, former production and traffic manager of WBRY Waterbury, Conn., program manager; Mrs. Robert Meggs, traffic manager, and Fred Busby, operator.

British Film Industry Opposes TV Monopoly

BRITISH film industry opposes government monopoly of television and will fight for a right to share in television, J. Arthur Rank, British film chief, told the Radio Industries Club Oct. 29 at a London meeting. Mr. Rank said his group is financing experiments in largescreen television in conjuncton with the BBC engineering staffs and that prototype programs will be screened in theatres within a year.

Mr. Rank said the film group competes with eight large American firms but said there is a monopoly in broadcasting and warned of the danger of a similar television monopoly. The film industry has asked inclusion in the BBC charter of a clause giving private enterprise the right to televise on large screens.

Feature Show Set

WITH members of Washington officialdom as guests at initial broadcast, new half-hour show, It Seems to Us, starts tonight (Nov. 11) on WINX Washington. D. C., with syndicated recordings slated for a number of other outlets across the country [BROADCAST-ING, Aug. 19]. Using news commentary format with audience participation, regular panel members are Roscoe Drummond, head of the Washington bureau of the Christian Science Monitor, and Nathan Robertson, associate editor. New Republic. First night's guest, O. John Rogge, will participate in discussion of "American Fascism and World Peace." Show will originate each Mon. 7:30-8 p. m. from Washington's Hotel Raleigh. Ed Hart is moderator, Sol. Panitz producer.

Mark Buckley

MARK BUCKLEY, 35, partner in Harrington & Buckley Adv., San Francisco, died Nov. 6 as the result of injuries suffered the previous day when his car crashed through the restraining wall of the Funston Ave. approach to the Golden Gate Bridge, dropped 30 feet and rolled over.

At Deadline ...

SIX NEW STANDARD STATIONS GRANTED

GRANTS for five new daytime AM stations, including sixth outlet for Memphis area, and one 250-w fulltime local approved by three-man FCC board (Acting Chairman Denny, Comrs. Jett, Hyde) and announced Friday:

San Diego, Calif.—Balboa Radio Corp. 740 kc, 5 kw, day only. Principals: Emil Klicka. president San Diego Harbor Commission, president. 28.13%; Charles T. Leigh, vice president San Diego Chamber of Commerce. J. A. Donnelley, attorney, and J. W. Brennan, harbor master and port director for San Diego, 21.25% each; Burton D. Wood, attorney, 8.12%. (Paul L. Dodd, former manager KFAB Lincoln and KFMB San Diego, proposed manager; C. C. Frisk. chief engineer. Both to receive stock.) Granted Nov. 7.

chief engineer. Both to receive stock.) Granted Nov. 7.

Burlington, N. C.—Burlington-Graham Broadcasting Co. 1150 kc, 1 kw, day only. Principals: Several Burlington business and professional men including W. Bowman Sanders (president), Full-Knit Hostery Mills executive; Willie V. Coble, wholesale grocer; R. Homer Andrews, postmaster; L. E. Neese, furniture company president. Granted Nov. 7.

Clinton, N. C.—Sampson Broadcasting Co. 550 kc, 1 kw, day only. Partnership (20% each): James G. Thomas, insurance man; Lupert W. Bearefoot, retail merchant; Lawrence Gooding, radio engineer; Hector H. Clark and Stewart B. Warren, attorneys. Granted Nov. 7.

Canton, Ohio—P. C. Wilson, in program production for stations in Ohio, Pennsylvania, New York and Maryland for four years, in publishing and newspaper advertising for 19 years. 900 kc, 250 w, day only. Granted Nov. 7.

Fajardo, P. R.—Madrazo & Diaz. 1490 kc, 250 w, fulltime. Partnership: Jose R. Madrazo, former manager New York music concern and manager Casa Victor, dealing in records, radio and phonograph parts; Rubin Diaz Attles, formerly in radio advertising, one-time WIAC Hato Rey, P. R. announcer and control operator, operator of construction business since Army discharge. Granted Nov. 7.

Memphis, Tenn.—Bluff City Broadcasting Co. 730 kc, 250 w, day only. Partnership: E. R. Ferguson, former WJPR Greenville, Miss. station manager; J. R. Pepper, former owner WJPR. Granted Nov. 7.

WGR SALES AMONG FIVE CHANGES APPROVED BY FCC

SALE of WGR Buffalo (550 kc, 5 kw day, 1 kw night) by Buffalo Broadcasting Corp. to Leo J. Fitzpatrick, former vice president and general manager WJR Detroit, and I. R. (Ike) Lounsberry, Buffalo Broadcasting executive vice president until August, approved by three-man FCC board and announced Friday. Consideration: \$750,000, with consummation due within 20 days. Mr. Fitzpatrick owns 70%, Mr. Lounsberry 30% in purchasing company, WGR Broadcasting Corp. [BROADCASTING, Aug. 19]. Mr. Fitzpatrick, chairman of board, Mr. Lounsberry, president and general manager. Sale of WGR or sister station WKBW Buffalo required by duopoly rule.

Other transfers and assignments approved by FCC in AM, FM, and TV included \$155,000 sale of Assistant Secretary of State Donald S. Russell's 38.5% interest in WSPA Spartanburg, S. C. (950 kc, 5 kw) to WSPA President A. B. Taylor, already 38.5% owner [BROADCASTING, Nov. 4]. Others:

[BROADCASTING, Nov. 4]. Others:

Sale of KTNM Tucumcari, N. M. (1400 kc, 250 w) by Hoyt and Robert D. Houck and Walter G. Russell (equal owners) to R. B. McAlister, Dr. Pryde E. Hale, and Grady Maples doing business as McMa Agency, for \$45,000 [BROADCASTING, June 24]. Mr. McAlister, KICA Clovis general manager, to manage; Dr. Hale is Clovis surgeon; Mr. Maples, with KFJZ Ft. Worth.

Assignment of WMLT Dublin, Ga., license (1340 kc. 250 w) from George T. Morris, doing business as Dublin Broadcasting Co. to new corporation of same name, owned by Mr. Morris.

Similarly, assignments of FM conditional grant held by O. L. Taylor (KTOK), Oklahoma City, to KTOK Inc. which Mr. Taylor owns, and one for Corning, N. Y., held by W. A. Underhill and E. S. Underhill Jr., doing business as Evening Leader, to Corning Leader Inc., new firm Owned by Underhills in equal shares.

Assignment of experimental television CP and licenses (WiOXAF, WiOXAD), from Philco Products Inc. to Philco Corp., Philadelphia.

CONDITIONAL FM GRANTS AWARDED TO THREE

CONDITIONAL GRANTS for three FM stations, two to AM licensees and one to United Garage & Service Corp., Lakewood, Ohio, which bought WINK Fort Myers, Fla. from Ronald B. Woodyard for \$100,000 subject to FCC approval [BROADCASTING, Oct. 14], an-

nounced by Commission Friday.

Conditionals for Class B stations to Luther E. Gibson (KHUB Watsonville) for Salinas, Calif., and Myles H. Johns (WOSH Oshkosh) for Milwaukee. United Garage, given conditional for Class A at Lakewood, operates taxicabs in Cleveland, Akron, and Canton, and owns High Level Motors Inc. President is Arthur B. McBride, also owner Cleveland Browns football team, and with son, Arthur B. Jr., owns 50%. Harry and Daniel Sherby also own 25% each.

Grants made by three-member FCC board which also, on applicants' request, vacated conditional grants for Class B stations previously issued Hughes Tool Co. for San Francisco and Observer Publishing Co. for Washington, Pa. Other board actions included issuance of modified FM CPs to six permittees in lieu of conditions previously specified:

lieu of conditions previously specified:

Robert K. Hancock et al, d/b as Santa Maria Daily
Times, Santa Maria, Calif., Class A, 104.3 mc (Channel 282), 336 w, effective radiated power, antenna
height minus 295 feet; Southeastern Broadcasting
Co. (WMAZ), Macon, Ga., Class B, 101.9 mc (Channel 270), 32 kw, 440 ft.; Broadcasting Corp. of America (KPRO), Riverside, Calif., Class B, 102.1 mc (No.
271), 20 kw, 5,280 ft.; Capital Broadcasting Co.
(WANN), Annapolis, Md., Class B, 100.1 mc (No.
261), 16.6 kw, 370 ft.; Kingsport Broadcasting Co.
(WKPT), Kingsport, Tenn., Class B, 103.3 mc (No.
277), 44 kw, 930 ft.; Saviers Electrical Products
Corp., Reno, Nev. Class A, 104.3 mc (No. 282), 760
w, minus 1,170 ft.

GODOFSKY OPPOSES FCC INVESTIGATION

CONGRESSIONAL investigation of FCC would cause "further unnecessarily long delay in FM," Elias I. Godofsky, former WLIB Brooklyn owner, FM CP holder and AM applicant for Hempstead, N. Y., wrote Rep. Joseph W. Martin Jr. (R-Mass), slated to be House Speaker. It was first opposition to proposed probe by new Congress (see page 15).

Mr. Godofsky told Rep. Martin "for almost 10 years FM has been delayed" by set manufacturers and AM operators, but finally FM is "moving ahead at a fast pace." Investigation now would be viewed by "set manufacturers and some standard radio station operators' as "justifiable reason to again withhold FM," wrote the New York broadcaster.

BMB RECOMMENDATIONS

TECHNICAL RESEARCH COMMITTEE of BMB this week will recommend to BMB board proper presentation of BMB data by maps or tables in station advertising. Committee, with agency and station representatives participating as guests, Friday examined BMB data and best way for stations to present them to avoid invalid conclusions and to aid advertisers and agencies in comparing stations. Hugh Feltis, BMB president, Nov. 12 will discuss radio's first uniform measurement of station and network audiences before luncheon meeting of Cleveland Chapter, AMA.

HOOPER RATING of 24.0 for Bing Crosby on first transcribed program over ABC plummeted to 12.2 on fourth broadcast Nov. 6.

POLARIZATION METHOD GETS FCC APPROVAL

CIRCULAR or elliptical polarization approved by FCC for optional use by FM stations to supplement horizontal polarization, which remains standard and required form. Commission, announcing approval Friday, said no changes in present allocations standards pro-

"It is expected, however," FCC said, "that circular or elliptical polarization where used will decrease the antenna requirements for home and car radio receivers and materially increase the probability that a receiving antenna located at random will provide entirely satisfactory FM reception."

Circular or elliptical polarization "recently proved highly satisfactory in experimental operations," FCC said. One of leaders in development was Carl E. Smith, United Broadcasting Co., vice president in charge of engineering. Circular polarization methods and advantages described in detail by Mr. Smith

in article in Oct. 21 BROADCASTING.

FM Engineering Standards simultaneously amended, effective immediately, in line with approval of use of new method. Text of amendment will be carried in Nov. 18 BROADCASTING.

NEW FM ORGANIZATION SLATED FOR COMPLETION

COMPLETION of new FM promotional organization, born at NAB convention after FMBI dissolved [BROADCASTING, Oct. 28], scheduled for today (Nov. 11) when Steering Committee meets in offices of Jansky & Bailey, National Press Bldg., Washington. Objectives Committee was to meet Saturday in E. L. Dillard's Washington office, with Nominating and Finance committees meeting Sunday.

On Steering Committee: Roy Hofheinz, KTHT Houston, FM applicant, temporary chairman; C. M. Jansky Jr., Jansky & Bailey; Mr. Dillard; Wayne Coy, WINX-FM Washington; Stanley Ray, WRCM New Orleans; Gordon Gray, WMIT Winston-Salem; Raymond F Kehn, Allentown Page EM grants. mond F. Kohn, Allentown, Pa., FM grantee; Ira Hirschman, WABF New York; E. J. Hodel, WCFC Beckley, W. Va.; W. Russell David, General Electric Co.; Frank Gunther, Radio Engineering Labs.

FORT INDUSTRY MEETING

FOUR-DAY meeting of Fort Industry Co. executives opens today (Nov. 11) at Coronado Hotel, Miami Beach, with George B. Storer, president, presiding. General policies will be discussed.

VERN W. WILLIAMS, former merchandise and production manager, KGBX Springfield, Mo., named manager WCLO Janesville, Wis.
