how a WOR sponsor's sales went up—

in smoke!

Wally Frank makes pipes (what ad man doesn't know that!)

Wally Frank wanted to sell *more* pipes—though it's no slouch when it comes to getting rid of high-priced briar.

Said they to WOR, "Hey, can you sell lots of pipes for us fast, at, mind you (they raised a warning finger) *low cost?*"

Said we, "Sure." Brass, you know.

Anyway, eight newscasts on WOR—just 8, remember—started 5,899 people dropping coins into phones to call Wally Frank and say, "Look, let's have a pipe." The result? \$23,301 in cold, hard cash for nice new pipes!

In other words, every dollar Wally Frank spent on WOR, produced \$7.00 in sales.

That's selling. We do it daily.
Can we do it for you?

Our address is—

WOR

—that power-full station at 1440 Broadway, in New York

Kentucky leads the nation...

in livestock production gains

This increase in livestock production spells cash-in-the-bank prosperity for Kentucky farmers . . . for livestock receipts represent well over one-half of Kentucky's total farm income.

Based on a recent University of Kentucky College of Agriculture report of livestock gains over a years period.

WHAS alone serves all of Kentuckiana

with the only complete
Farm Programming Service
for Kentucky
and Southern Indiana

The Kentuckiana farmer *depends* on WHAS Farm Coordinator Frank Cooley and Assistant Don Davis for up to the minute farm news and market reports.

50,000 WATTS ★ 1 A CLEAR CHANNEL ★ 840 KILOCYCLES

*The only radio station serving and selling
all of the rich Kentuckiana Market*

VICTOR A. SHOLIS, Director • NEIL D. CLINE, Sales Director

Phone Franklin 2-4392

P. S. I'll buy you a Scotch! (Johnny Walker Black Label, no less!)

Closed Circuit

BECAUSE WAYNE COY, FCC Chairman, has never been one to pull his punches, delegates to NAB Convention are awaiting with bated breath his speech tomorrow (Tuesday). Pre-convention speculation centers around prospect that Chairman will tell broadcasters facts of life under new radio-TV competitive order and probably marshal into one talk all of those controversial observations he has made concerning radio arts in last six months.

FCC LAWYERS are building case for overall investigation of network procedures and practices, including highly controversial network representation of affiliates in national spot raised by Natl. Assn. of Radio Station Representatives two years ago. Currently pending is preliminary report suggesting no determination of representation issue until full scale inquiry is undertaken.

RE ABOVE, it's presumed FCC action will await completion of functional reorganization which involves appointment of director of Broadcast Bureau, sitting directly under FCC. Harry Plotkin, senior assistant general counsel, regarded as most likely appointee and as such would direct network inquiry.

CREDIT for carrying first commercial color telecasts goes to NBC's WNBW (TV) Washington. So that FCC members can examine RCA color on their home receivers, NBC got permission to duplicate, in color, half-hour black-and-white participating variety show from 6:30 to 7 p.m. daily. Thus far commercials have been carried in black-and-white.

LOOK FOR another legislative blast deriding FCC because of purported indirect restraint upon stations which might editorialize. Complaints from constituents of West Coast Congressman may result in legislation to guarantee some recognition for radio from free speech standpoint as is accorded newspapers. FCC action in WLIB New York case (see this page) adds legislative fuel to editorial fire.

KNITTED-BROW departments working overtime on what to do about new labor series of International Assn. of Machinists titled *Sing a Labor Song*. If initial platters are criterion, series will handle disdainfully opulence of "bosses," as against plight of wage earners. Some stations rejecting series because they do not handle dramatizations of controversial issues; others on ground they do not sell such time but give it away.

AFTER SHOWING roughly half-million-dollar loss in 1949 attributable largely to substantial capital investments in TV real estate, construction and properties, ABC expected to show profit in overall operations for first quarter of 1949 (see story page 42).

NATIONAL BISCUIT Co. (Nabisco) through McCann-Erickson, New York, preparing radio campaign to start May 1 in 12 markets.

Upcoming

April 17-19: NAB Management Conference, Stevens Hotel, Chicago.

April 24-28: Society of Motion Picture and Television Engineers convention, Drake Hotel, Chicago.

May 4-7: Institute for Education by Radio, Ohio State U., Columbus, Ohio.

(Other Upcomings on page 54)

'MAYFLOWER DECISION' INTERPRETED BY FCC

INTERPRETING its "Mayflower Decision" on editorializing, FCC said Thursday that stations have "an affirmative duty to seek out, aid and encourage the broadcast of opposing views on controversial questions of public importance." Interpretation came in letter telling WLIB New York that station "erroneously interpreted" Mayflower Decision in carrying editorials supporting National Fair Employment Practices Commission without taking "affirmative steps to seek out and present" differing viewpoints. FCC asked for statement of WLIB's "future policies."

Comrs. Hyde and Jones reportedly did not concur in issuance of letter. Chairman Coy did not participate. Related editorializing question is pending in UAW-CIO complaint that WWJ Detroit would not sell time to union to discuss strike at Chrysler plant because Chrysler would not buy time to present its side.

7 AM, 16 FM CPs GRANTED BY FCC

SEVEN NEW AM and 16 FM stations granted Thursday by FCC, including eight Class A, two Class B FM's in Los Angeles area and three Class B's in Baltimore. Grants:

(AM): Tri-State Bcstg. Co., Summerville, Ga., 950 kc, 1 kw day; Blackfoot (Ida.) Bcstg. Co., 1490 kc, 250 w; Chet L. Gonce, Reno, Nev., 1230 kc, 250 w; Wilkes Bcstg. Co., Boone, N. C., 1450 kc, 250 w; Uniontown (Pa.) Newspapers Inc., 1300 kc, 1 kw day; Ft. Stockton (Tex.) Bcstg. Co., 860 kc, 250 w day; Pacific Bcstg. Co., Raymond, Wash., 1340 kc, 250 w. KREM Spokane granted change from 250 w on 1340 kc to 1 kw on 970 kc, directional night; KIEM Eureka, Calif., power boost from 1 kw to 5 kw directional, on 1480 kc. Order to revoke KWRZ Flagstaff, Ariz., set aside and KWRZ renewal bid set for hearing with bid of Flagstaff Bcstg. Co. for KWRZ facilities [BROADCASTING, Dec. 12, 1949].

(FM): Los Angeles area—Don C. Martin tr/as School of Radio Arts, Beverly Hills, Ch. 292; Wm. H. Haupt, Inglewood, Ch. 288; Centinela Valley Bcstg. Co., Inglewood, Ch. 224; KOWL Santa Monica, Ch. 232; KFOX Long Beach, Ch. 272; Alhambra Bcstrs. Inc., Alhambra, Ch. 296; Angelus Bcstg. Co., Temple City, Ch. 280; Whittier Bcstg. Co., Whittier, Ch. 240; Robert P. Adams, Glendale, Class B Ch. 270; Maranatha Bcstg. Co. Los Angeles, Class B Ch. 262 (formerly had conditional grant). Baltimore (All Class B)—WBAL-AM-TV, Ch. 238; WAAM (TV), Ch. 222; Tower Realty Co., Ch. 294; Others—WWPF Palatka, Fla., Ch. 252; KALE Richland, Wash., Ch. 280; WEWO Laurinburg, N. C., Class B Ch. 243.

WNEW NAMES PACK

RICHARD PACK, director of publicity and special events at WNEW New York, promoted to program director, succeeding Ted Cott, who resigned to become manager of WNBC-AM-FM and WNBTV (TV) New York.

Business Briefly

NBC-TV BUY ● Anchor-Hocking Glass Co., Lancaster, Ohio, buys NBC variety program to start May 16 on 14 NBC-TV stations, Mon.-Fri., 11-12 p.m. Schedule reportedly largest single time purchase in network TV. Contract, 52 weeks. Agency: William H. Weintraub, New York.

THOR SPOTS ● Automatic Washer Co., Newton, Iowa, for Thor washing machine, preparing series of one-minute TV spots to be placed nationally through Earle Ludgin Agency, Chicago.

KOBAK HITS NAB SERVICE, URGES HEADQUARTERS MOVE

PRACTICAL forums and free-for-alls instead of inspirational speeches should feature annual NAB Convention, Ed Kobak, business consultant, newly-elected NAB director and part owner of WTTA Thomson, Ga., declared in speech prepared for Sunday Independent's Day luncheon at Stevens Hotel, Chicago.

In basic attack on present association service, Mr. Kobak said NAB should move headquarters to New York or Chicago; set up AM, FM and TV divisions or else split into separate AM and TV trade associations. He warned against selling radio short in face of TV competition and cautioned AM industry not to be stampeded by rate pressure blocs; demanded strict self-regulation to prevent issuance of new Blue Book; opposed tripartite control of industry research, and approved recent elimination of confusion in duplicated network program rating services.

WMIE HEARING

JAMES M. COX (WSB Atlanta, WIOD Miami, WHIO Dayton) testified in FCC hearing on proposed transfer of WMIE Miami that Arthur McBride, millionaire Cleveland sportsman and taxicab owner, who is one of principals in proposed WMIE licensee, once tried to intercede with him in Gangster Al Capone's behalf. He said Mr. McBride approached him in 1930 when Mr. Cox's *Miami Daily News* was conducting anti-Capone campaign. Mr. McBride's Cleveland office issued statement quoting Mr. McBride as saying he "never knew Capone" and "never intervened for him with Cox or anyone else." Under cross-examination by Paul M. Segal, Washington attorney for WMIE, Gov. Cox denied it was *Daily News* policy to "slant" news against WMIE.

KYA SALE APPROVED

SALE OF KYA San Francisco by Dorothy Schiff for \$155,000-plus to J. Elroy McCaw and John Keating approved by FCC [BROADCASTING, March 20]. Buyers own KPOA Honolulu among other broadcast interests. FCC also approved \$50,175 sale of WCPM Middlesboro, Ky., by Elmer Dennis Smith and associates to group headed by A. G. Barton, on condition buyers dispose of WMIK there. WCAP-AM-FM Asbury Park, N. J., granted transfer from Radio Industries Bcstg. Co. to Asbury Park Press Inc. for \$75,200.

Packed with Profits...

These eight stations are foremost in the markets they serve. Every advertising dollar you spend on them gives you goodwill, profits. Write for sales facts and figures.

Represented by

ROBERT MEEKER ASSOCIATES • Chicago • San Francisco • New York • Los Angeles

Shown above is an architect's drawing of WFBM's new \$300,000 TV and AM studios which the station expects to occupy sometime next fall.

WFBM IS BUILDING FOR YOUR FUTURE, TOO!

● WFBM's expansion for the future is necessary, thanks to its tremendous success in Central Indiana. We need more room to continue providing the best possible TV and radio facilities to advertisers.

Even now, as the ground is being broken for our new studios, there are an estimated 38,500 television homes in our coverage area.

WFBM is first in audience and first in circulation... has been consistently tops in its 26 years of operation. And for promotion: WFBM's sales-stimulating merchandising campaigns have been deserving winners of many national awards. Add program excellence and you

have the reason why your clients belong on Indiana's first stations—WFBM and WFBM-TV.

First IN INDIANA ANY WAY YOU JUDGE!

Respects

(Continued from page 92)

balance, Mr. Kaye went to work for the theatrical Shuberts, as their counsel.

He had worked for the Shuberts for several years when Ralph F. Colin, a member of the firm of Rosenberg, Goldmark & Colin, then and now counsel for CBS, invited Mr. Kaye to join the firm. In 1932, two years after he had done so, Mr. Kaye became a partner.

In those days CBS did not maintain as extensive a law department of its own as it has in later years, and Mr. Kaye performed almost

all the network's legal work, except FCC matters. Although such labors were extensive, Mr. Kaye gratefully assumed other jobs, lest he languish in the torpor of a 10-hour day.

Through the '30s and early '40s he represented the NAB in copyright hearings before Congress.

He was a member of the broadcasters' committee that negotiated with ASCAP in the early '30s when the licensing group first invoked its percentage basis of assessing fees.

In 1939 he was retained by the NAB to blueprint the organization that eventually become BMI.

Mr. Kaye's role in the ensuing few years of the battle with ASCAP and the emergence of BMI was monolithic. In the formative period of BMI, even he was satisfied that there was enough to do. It was not unusual for Mr. Kaye to get in a day's work in New York, take a night plane to, say, Los Angeles, hold a two-hour conference with broadcasters there, return by plane to New York and, upon arrival, resume the work he had left upon departure. He was occasionally frustrated by such distractions as sleep during this hectic period, but he made every effort to keep them at a minimum.

As executive vice president and general counsel of BMI from its formation, Mr. Kaye, more than any other individual, was responsible for its success (see story this issue).

By 1947, when BMI's place in broadcasting music seemed assured, Mr. Kaye found the security of that situation alarming. He decided to quit as the chief executive officer so that he could devote time to his numerous other interests.

Called 'A Publisher'

The incident that provoked his decision was the appearance of his picture in a music trade magazine with the caption "prominent music publisher."

"I decided that it was time I returned to the law," he said.

Mr. Kaye stepped out of the executive vice presidency, although continuing as vice chairman of the board and general counsel. Carl

JACK HINES (l), program director of WTAM Cleveland, receives the Ohio Safety Council's "Outstanding Achievement Award" for the station's half-hour show, *Give Death a Holiday*. J. C. Hiestand, president of the safety council, makes the presentation. WTAM also contributed 822 safety announcements, a program featuring Ralph DiPalma, racing driver, and a show with J. T. Smith, vice president, Greater Cleveland Safety Council and chairman of the Mayor's Traffic Safety Education Committee.

Haverlin, at the time vice president in charge of station relations of MBS, became BMI president.

At the height of the BMI pressure, in 1941, Mr. Kaye was retained by the newspaper-radio committee to represent it at FCC proceedings looking into newspaper ownership of radio stations. Mr. Kaye regards his contribution to that work as one of the most satisfying of his career.

It was during those proceedings that he set a precedent in FCC procedures. Until then the right of cross-examination had not been granted at FCC hearings, and it was Mr. Kaye who successfully argued for the establishment of such a right.

The tactics used by Mr. Kaye to try the newspaper-radio case hinged upon his belief that newspaper-owned stations were indistinguishable from any other stations and that to deprive newspapers of the right of owning stations would be to imperil the rights of free speech.

Among the witnesses summoned by Mr. Kaye to support his plea was Arthur Garfield Hays, who provided eloquent testimony as to the belief that the abridgement of a newspaper's right to own a station would be also an abridgement of Constitutional guarantees of freedom of speech.

Another fulltime activity that Mr. Kaye undertook in the midst of the formation of BMI was marriage. In 1940 he wed a New York girl, Muriel Gray, who, like her husband, is not addicted to idleness. At the moment she is

director of the League of Women Voters in New York.

Such weekends and summer vacations as they find possible to take, the Kayes spend at their 170-acre farm at Cornwall Bridge, Conn., a two-and-a-half-hour trip from New York.

Their concept of lazy country weekends and summers is vigorous agriculture. Mr. Kaye in recent years has developed as shrewd an eye for a tomato as for a tort. He is in charge of the vegetable garden while Mrs. Kaye supervises the flowers.

Last summer, when Connecticut was plagued by prolonged drought, the gardens of the Yankee farmers who had worked the soil of Cornwall Bridge for generations shriveled and died. The crops of City Slicker Kaye, who was born, raised and still a resident in the same block on Manhattan, were bountiful. He had thoughtfully planted in shaded bottom lands. The amateur gardener kept his professional neighbors in vegetables throughout the summer.

Mr. Kaye's professional memberships are numerous. Last year he held chairmanships of the Copyright Committee of the Assn. of the Bar of the City of New York and of the copyright committee of the Patent, Trade Mark and Copyright Section of the American Bar Assn., the only instance of any individual holding both simultaneously.

He is a member of the UNESCO panel of copyright experts, of the New York State and County Bar Assns. and of the FCC Bar Assn. He belongs to the Lawyers Club, the Lotos Club of New York, the New York Radio Executives Club and to the Radio Pioneers Club.

OHIO U. PROJECT

Students Plan Ad Outlays

PLANNING and working out theoretical advertising budgets of \$50,000 each, in cooperation with Cincinnati advertising men, have resulted in prize awards to five Ohio State U. radio advertising students.

The project was sponsored by the Advertisers Club of Cincinnati under direction of Howard Campbell of Gardner Publications Inc., club board member. Each student, in effect, became advertising manager of a company and was given between March 1 and May 30 to set up their campaigns with the theoretical \$50,000 budget. Forty papers were submitted.

The winners, members of Dr. Kenneth Dameron's radio advertising class, are: Hilda Roller, Cleveland; William Smith, Parkersburg, W. Va.; Robert Rapp and Russell Raymond, both of Columbus, and Karl Dicken, West Jefferson, Ohio.

FM PROMOTION campaign at WTAG-AM-FM Worcester, Mass., given extra boost by switching station breaks to read, "WTAG-FM and AM."

Spot's High

(Continued from page 112)

for distribution or other reasons, they can not use network radio. The Entertainment and Amusement advertisers are a good case in point. Where they spent less than \$10,000 on the networks in 1949, their net spot appropriations were approximately \$2,352,000. The Publishing and Media field, which bought over \$2 million net in spot time, spent \$911,814 on the networks.

Spot users are a much more diversified group than those which buy network time. While there were only 241 network users reported in 1949, spot business was placed by several times this number of advertisers. The leading network user in 1949, Procter & Gamble Co., spent over \$17.3 million gross in the medium, more than was spent in all but the top spot product classification. Food and Food Products.

Network business is highly concentrated in the top five product classifications with a total of almost 74% of all expenditures. In the spot field only 52% went to the top five. On the networks these five product groups were: Food and Food Products, Toiletries, Smoking Materials, Drugs and Remedies, and Soaps, Cleansers and Polishes.

Average spot business received by the clear channel stations for the years 1946-48 totaled \$428,701 per station. This is based on data released by the FCC from station

financial reports and does not include network owned and operated outlets.

During the same period regional stations averaged \$73,943 per year from spot. The spot business on local stations averaged \$13,602.

The dollar appropriations made to total clear channel stations and total regional stations in the three-

year period were very similar. In 1948, for instance, approximately \$43.8 million was spent for spot on clear channel stations and \$41.2 million on regionals. In the other two years studied the variation was not this great. The difference in per station average revenue comes, of course, from the greater number of regional outlets.

KDYL At Store Opening

CLAIMING a new record in the Salt Lake City, Utah, market for concentration of remote broadcasts and telecasts for a store opening, KDYL-AM-TV has reported it handled nine radio remotes and a two-hour television variety show from the store for the opening of Beers-Bigelow, new Salt Lake City television and appliance mart. KDYL reported that radio and television coverage coincided with the three-day opening of the new show, March 31, April 1 and April 3.

Canada BBM Booklet

THE Bureau of Broadcast Measurement, Toronto, Ont., has announced publication of its booklet, *Canadian Radio Homes Estimates—1949*. The booklet, it was pointed out, consists of the basic figures that will be used in *BBM Station Reports* when the 1950 survey is completed. With the exception of Newfoundland, all Canadian provinces are covered. When data for that province has been compiled, tabulations will be issued for insertion in the booklet, it was stated.

DIFFERENT high school choirs from all over the country featured in six-week series, *Green Cross Song Festival*, over NBC.

REGULATORY PLAN

Canada Group Makes Proposal

SPECIFIC PROPOSALS for an independent Canadian radio regulatory body were made in a brief before the Royal Commission on Arts, Letters and Sciences at Ottawa on April 11 by the All-Canada Mutually Operated Stations. The proposal calls for creation of an Independent Radio Broadcasting Board consisting of a chairman from the judiciary and a number of persons selected for their ability to bring objective consideration to the matters submitted to them.

The Dept. of Transport would be the policing body to enforce regulations, to hear applications for licenses, and to suggest regulations. The board would be the final deciding body for license applications and regulations from the Dept. of Transport and others. The board would also set fines, cease and desist orders, suspension of license and other punishments for broadcasting stations, but there would be appeal from the board to the Governor-General-in-Council and the Supreme Court of Canada. Networks would be allowed private stations within certain protective legislation.

TRANSIT RADIO

St. Louis Plans Disaster Use

TRANSIT RADIO, now in operation on 1,000 of the busses and streetcars in St. Louis, would play a vital role in the emergency mobilization plans of the St. Louis police department, according to Lt. Col. Curtis Brostron, police inspector.

Lt. Col. Brostron made the observation April 6 at a meeting of representatives of public and civic organizations, the press and radio. The meeting resulted from initial steps toward formation of an overall liaison committee to cope with any major disaster. Under the committee's plans, busses of the public service company would be pressed into service for a wide variety of uses.

Outlining how Transit Radio (furnished in St. Louis by KXOK-FM) would be employed, Lt. Col. Brostron cited the example of a possible plane crash in the downtown area. Such an incident, he pointed out, would necessitate the "signal white" or second phase of the mobilization plan which is divided into three main phases. He said that additional police and personnel from agencies represented on the liaison committee, would mobilize at police headquarters. From there, he continued, they would be dispatched by bus to the emergency area and, while on their way to the scene of the disaster, would receive instructions by Transit Radio, avoiding any loss of time.

BIDS for \$15 million worth of tactical radio sets will be invited in latter part of this month by Army Signal Corps.

Production

ROBERT PERRY, m.c. of *Melody Merry Go Round* on WLAW Lawrence, Mass., appointed program consultant for station.

HELEN BROOKS, formerly director of childrens programs at KAVE Carlsbad, N. M., appointed director of women's programs for WFBR Baltimore. She succeeds MARTHA ROSS TEMPLE, resigned.

Miss Brooks

JOE VAN POPPEL, graduate of Academy of Radio Arts, Windsor, Ont., joins staff of CJIO St. Thomas, Ont., as announcer.

GUY WALLACE

named to handle live studio commercials on *Amalie Magic Theatre* on WCBS-TV New York. He was formerly on announcing staff of CBS Chicago and is affiliated with WFDR (FM) New York. LINDA STEVENS, former motion picture actress, joins WCBS-TV show as assistant to "The Great Volts."

VAUGHN STOREY, formerly staff man with WLBC Muncie, Ind., joins staff of WONE Dayton, Ohio. DAN PRICE, formerly with KWBE Beatrice, Neb., also joins WONE.

DICK COBB joins production staff of WBZ Boston, replacing JOHN McLEAN, moved to WBZ-TV production. JOE POTIER and DICK WARD also have joined production staff of WBZ.

HAL HACKADY, former CBS writer and author of *Quizzing The News*, on WJZ-TV New York, joins WNEW New York continuity department.

PHIL SANDY, formerly of CHML Hamilton, joins announcing staff of CHUM Toronto.

JOHN LEWELLEN, program director

of *Quiz Kids* (NBC AM-TV), awarded medal in Boys' Clubs of America 1950 Junior Books competition for *You and Atomic Energy*, which he wrote last year.

BOB STEVENSON, CBS announcer, replaces TERRY O'SULLIVAN as announcer on CBS Jack Smith, Dinah Shore, Margaret Whiting Oxydol Show.

SHELDON KAPLAN, recent U. of Southern California graduate, joins KLAC-TV Hollywood studio stage crew. CALVIN REED joins station's remote stage crew.

ED SULLIVAN, host of CBS' *Toast of the Town*, presented *TV Digest* Award by Philadelphia Mayor Bernard Samuel at special performance of program over WCAU-TV Philadelphia.

GEORGE COMTE, announcer at WTMJ Milwaukee, is author of song, "I Went for a Walk in Oconomowoc," which is due to be released by London Records.

MIRIAM MCGARVEY joins continuity editing staff at WBBM Chicago, replacing MARJORIE RETZKE, resigned to be married.

FRANK K. DANZIK, radio producer, is the father of a girl, Priscilla Ann.

AIEE North East Meet

THE North Eastern District of the American Institute of Electrical Engineers will hold a three-day meeting April 26-28, at the Sheraton-Biltmore Hotel, Providence, R. I. Highlight of the session will be a meeting of the institute's board of directors on Thursday, April 27. Information can be obtained from H. C. Rankin, chairman of the registration committee, % Narragansett Electric Co., Providence, R. I.

TULSA AM GRANT

Proposed for KOTV(TV) Owner

GEORGE E. CAMERON Jr., owner of KOTV (TV) Tulsa, won an FCC examiner's initial decision last week in his bid for authority to build a new Tulsa AM station on 1340 kc with 250 w.

On the basis of program plans and local ownership and operation, Examiner J. D. Bond proposed a grant of Mr. Cameron's application and denial of the application of Kenyon Brown, Texas-Oklahoma broadcaster, who is seeking the same facilities, also at Tulsa.

Under FCC procedure, an examiner's decision becomes final 40 days later unless Commission review is requested. A grant of either application would give Tulsa its seventh AM station.

Mr. Cameron, Tulsa oil man, plans to divide 30% of his 100% interest in the proposed station equally between Mrs. Helen Alvarez, proposed station manager, and John B. Hill, proposed commercial manager, as he did in the case of KOTV, FCC reported. Mrs. Alvarez and Mr. Hill hold positions with KOTV similar to those proposed for them in the AM operation.

Time for Duties

Examiner Bond pointed out that the rival applicant, Mr. Brown, who is general manager and 5% owner of KWFT Wichita Falls, Tex., expected to devote about 50% of his time to his proposed Tulsa station. Further, the decision said:

Mr. Brown's unfamiliarity with some network programs to be broadcast by him, his justification for offering them based upon their highly rated popularity and upon the necessity for carrying network commercial programs, his election to refrain from enlisting the cooperation and assistance of Tulsa civic, religious and educational groups in the local programs proposed, and his failure to detail by testimony or exhibits the nature and character of program service to be offered in the event of non-network operation, are persuasive evidence that he has exercised substantially less diligence and foresight than that exercised by Mr. Cameron and his associates in undertaking to gauge, ascertain and definitely serve the interests and needs of the listeners of the Tulsa community.

In contrast, the Cameron program proposal is supported by: an evident familiarity on the part of Mrs. Alvarez with the network and local programs to be broadcast; by per-

Technical

GEORGE HOOPER, WIBG Philadelphia transmitter supervisor, named chief engineer. He takes over position that has been vacant since October 1948, when JOHN HENNINGER was advanced from chief engineer to technical director of WIBG-AM-FM and also television for station. Mr. Hooper joined station's engineer staff in 1936 and became transmitter supervisor in 1943.

BILL SABO resigns from WCAE Pittsburgh, to join engineering staff of WWJ Detroit.

JOHN FULLER, engineer at WBBM Chicago, is father of a girl.

NEW CATALOG giving details on various microphone models manufactured by Turner Co., Cedar Rapids, Iowa, currently being distributed.

NEW voltage supply called "Solavolt" Type CVL, designed as precision source of regulated voltage with minimum harmonic distortion, is being manufactured by Sola Electric Co.

sonal explorations of the radio needs and interests of numerous Tulsa community leaders; and by detailed schedules of programs to be broadcast for either a network or a non-network operation. . . .

It was noted that both applicants submitted program data which assumed affiliation with Mutual. The decision continued: "In view of the fact that the Commission's records now indicate, as somewhat anticipated by each applicant, that a new and more powerful station in Tulsa has become affiliated with [Mutual], we cannot escape the conclusion that the type, character, origin, content, derivation and talent participants in the programs to be broadcast by Mr. Brown are virtually unknown to us and therefore cannot be held to promise a service in the public interest." (KOME is Mutual's Tulsa affiliate.)

Mr. Brown, in addition to his connection with KWFT, owns 18% of KGLC Miami, Okla., 24% of KBYE Oklahoma City, and is vice president and 0.025% owner of KEPO El Paso, Tex. He also engages in advertising consultant work and is part owner of a Dallas theatre.

Ayora Visits U. S.

ECUADORIAN radio official, Luis Fernando Ayora of Quito, who directs Ecuador's cultural radio station, Casa de la Cultura, spent two weeks in Washington on the first leg of his extended three-month tour of the United States. He is observing script-writing methods, announcing techniques and program direction employed by commercial U. S. stations and State Dept.'s Voice of America. Mr. Ayora formerly was program director of HCJB (La Voz de los Andes) and recently was named to head the cultural station, which is government-financed.

From where I sit by Joe Marsh

Gabby Enjoys Going to The Dentist

One of my molars was giving me a bad time Tuesday afternoon, so I slipped over to Doc Jones, hoping to catch him free. When I arrived, Gabby Jackson was sitting reading a magazine. I said hello to Gabby and he nodded.

Doc says I'm next. "Wait a minute," I says. (My tooth seemed to have stopped aching.) "How about Gabby—doesn't he have an appointment?" Doc smiles and says, "Gabby? Why, he's got the finest teeth in the county. He just comes up here and reads the magazines whenever he's in town!"

As Doc settled down to work he told me that he's glad to have Gabby come up and read magazines . . . they might not all be fresh off the newsstand, but if Gabby—or anyone wants to while away some time who is he to stand in their way?

From where I sit, this "live and let live" spirit helps make America what it is. If I happen to prefer a friendly glass of beer with my supper and you prefer milk—who's to say one's right and the other wrong?

Joe Marsh

STANDARD RADIO Transcription Services Inc. announces addition of Broadcast Relay Service, Valletta, Malta (G.C.) as subscriber to its full basic transcription library. Three quarter-hour weekly programs, *Sports Parade*, distributed today (April 17) to subscribers by firm. Designed for local sales, series is released to coincide with start of major league baseball season. Programs each include five-minute feature story on well known sports event or personality. Standard also is offering subscribers additional transcribed interviews with leading national sports figures, on separate fee basis.

WILLIAM RALSTON, public relations and television representative on staff of Mayor Fletcher Bowron, Los Angeles, resigns to enter commercial television work.

HARRY S. GOODMAN Radio Productions, New York, appointed exclusive distributor of TV films, *You Can Dance*. Films, produced by Telecraft Films Inc., are available for 15 minute programs.

RAYMOND KEANE Adv., Los Angeles, packaging quarter-hour transcribed *Bill Hay Reads The Bible*. Program will be offered to stations.

CHRIS MATHIESEN, former radio editor of *Washington (D. C.) Star* and in recent years on Capitol staff of that paper, resigns to become secretary to Rep. Burr P. Harrison (D-Va.).

ALERT PRODUCTIONS, radio and television production firm, opens offices at 8210 1/2 Sunset Blvd. Phone is Hollywood 9-7093. **JOHN LONGWELL** heads firm in charge of administration and sales, **JACK LITTLE** and **CHUCK BENEDICT** assist as co-production heads.

Equipment

LEONARD C. TRUESDELL elected vice president in charge of radio for Zenith Radio Corp., Chicago. He has been with company as sales manager of household radio and TV since September. He is former vice president in charge of marketing for Hotpoint and Kansas City manager for Frigidaire.

MILES F. LECHE, president of Leche & Leche Inc., Dallas advertising agency, is vice-president of newly-chartered Texas firm, Rogers, Leche & Wickman Inc., distributors of appliances in North Texas. Lines include Stromberg-Carlson television, radio and combination sets. Company has set up dealer organization of 700 retailers in 101 counties.

J. BENTON MINNICK appointed national merchandising manager of television for Motorola Inc. **HOWARD C. HANDWERG** appointed to similar post for auto radio division.

HARRY E. WHITEMORE Jr., formerly manager of Tower Lighting Div. of Hughey & Phillips, Los Angeles equipment manufacturer, forms his

own manufacturing company under name of **THE WHIT Co.**, at 313 N. Edinburgh Ave., that city.

FAIRCHILD RECORDING EQUIPMENT Corp., Whitestone, N. Y., puts new group of cartridges for disc playback on market. All styli are precision ground, uniformly polished and inspected diamond jewels, firm reports.

RICHMOND TELEVISION Corp. formed by **NATALIE KALMUS** of Technicolor Inc., and **J. A. RICHMOND**, Los Angeles furniture designer. Firm offering console size sets, with smallest screen 16 or 19 inches. Cabinets are made to accommodate new 23 inch screen when it appears on market. Sets to bear name "Natalie Kalmus Television" are made for black-and-white but can be converted to color, according to corporation principals.

RADIO-TV SET ADS

D. C. Group Sets Standards

VOLUNTARY standards designed to eliminate false and misleading advertising of radio and television sets have been adopted by the Better Business Bureau of Washington, D. C. The suggested standards are mainly designed to clean up "bait" advertising or sale copy in which the public is allegedly attracted into stores by claims which omit basic model data.

The bureau developed the standards after receiving numerous complaints from the public. Local retail organizations cooperated and agreed to subscribe to the provisions. Most Washington dealers are "in line," according to Mrs. Sally Muchmore, assistant bureau director who directed preparation of the standards. "Washington retailers should be congratulated for adopting the voluntary standards," she said.

HOOPER ERROR

KTUL Says Stations Not Notified

SERIES of charges involving accuracy of the Tulsa station ratings made by C. E. Hooper Inc. has been made by John Esau, KTUL Tulsa, newly elected NAB board member representing medium stations.

Mr. Esau further charges that after admitting the mistake in ratings the Hooper organization failed to take proper steps to undo the damage by notifying those who may have seen the original figures.

Mr. Esau told BROADCASTING last week that KTUL is "considering legal action to recover fees paid for dis-service rendered and punitive action to recover losses, both financial and prestige, because this has been allowed to go on and at this very writing [April 10] still no action has been taken to curb it."

KTUL's charges center around a series of Hooper calculations for Tulsa which inspired protests to W. Ward Dorrell, vice president of C. E. Hooper Inc. Despite the flaws which KTUL finds in the ratings, KTUL comes out in an excellent position, Mr. Esau claimed.

He declared Mr. Dorrell had conceded that mistakes had been made and added that in the case of one KTUL protest a new series of figures had been supplied. Mr. Esau added, however, that he felt the Hooper organization had not taken satisfactory steps to notify the proper persons about any mistakes that might have been made.

In an April 8 letter to Mr. Dorrell, Mr. Esau said after totaling month-to-month indexes:

It is my contention that 7% is far too great a margin to be considered ethical or correct. . . . It is my conviction that a statistical house must be without error, except for a slim calculation margin. We subscribe to such service as yours in the belief that errors such as these will not, cannot and must not happen. . . .

How much damage has resulted we have not yet analyzed but obviously, for the past 60 to 90 days at least,

★ KTUL has suffered revenue, position and prestige losses through the nationwide circulation of damagingly incorrect figures and information. If this is not so—then where lies the value of a correct Hooper? There also exists a breach of agreement. For a fee Hooper agrees to deliver correct ratings. We have paid the fee but have not received the service for

which we paid and a 'corrected index' though necessary at this time will not undo the harm wrought for the past few months or more.

Mr. Esau quoted a letter from Mr. Dorrell in part:

When your letter of March 28 was received, I immediately sent it up to our Production Dept. for a very careful check of our October 1949 through February 1950 Tulsa report. From a study of your letter, it was obvious that there was some error in the tabulation or calculation of the October through February and the January-February Station Audience Indexes. I regret that an error was made and hasten to give you the correct figures. . . .

Corrected indexes, with an accompanying Correction Bulletin, are being prepared and sent out at once. We are requesting clients to return the incorrect indexes. This will probably reach you by the time my letter does. Thanks for calling this to our attention. We sincerely regret any inconvenience that the publication of these incorrect figures may have caused.

VOCM St. John's, Nfld., granted increase in power from 250 w on 1000 kc, to 1 kw on 590 kc. CKOK Penticton, B. C., also given power increase from 250 w to 1 kw day and 500 w night on 800 kc. CKOC Hamilton given approval for emergency transmitter license.

AM-FM-TV SETS

Dillard Reports Survey

TWO out of every five TV models are equipped to receive FM radio programs, according to Everett L. Dillard, NAB director for FM stations and owner of WASH(FM) Washington. The figure is based on an analysis of TV receiver specifications by Caldwell-Clements Inc.

The analysis shows that of 329 TV models made by 34 set manufacturers, 93 are equipped to receive both FM and AM. Another 38 types of receivers are equipped to tune FM but not AM programs, according to Mr. Dillard. He pointed out that the Caldwell-Clements analysis reveals that TV-FM combination sets outnumber TV-AM combinations nearly 10 to 1.

Four TV models were equipped with AM-only radio, or 1.2%, he said, whereas 38, or 11.5%, provided for FM-only reception in addition to TV. Forty-six set makers have no provision for reception of FM broadcasts on their TV models, but only four of the group made sets with AM reception with the other 42 devoting their TV production to TV-only models.

Preen Names Mathes

A. S. HARRISON Co., South Norwalk, Conn. (Preen, a cleaning and polishing wax), has appointed J. M. Mathes Inc., New York, as its advertising agency. Spring and fall campaigns using radio and television are being planned.

Promotion

FINDING itself as top-station in first Pulse survey of St. Louis metropolitan area and four adjacent counties, KMOX St. Louis summarizes report as part of promotional campaign. KMOX claims survey gave it the nod for both its CBS network and local programs.

Televiewers' Center

REFOCUSING its eyes on TV sets in Syracuse area, WSYR-TV that city, during first month of telecasting co-operated with set distributors to set up TV Information Center to handle inquiries on set tuning, programs and technical matters. Station reports first month's operation found 4,238 telephone calls received. Center was promoted by daily newspaper ads and by TV distributors in area.

KFUO 1949 Report

REPORT reviewing 1949 at KFUE Clayton, Mo., Lutheran Church-Missouri Synod station, has been issued. Folder outlines high points in last year's operations, expansion plans, financial status, programs and administration. Year was silver anniversary for station, celebrating quarter-century of religious broadcasting, according to KFUE's promotion piece.

"The Big Pitch"

BLUE-AND-WHITE folder topped with screaming eagle introduces adver-

tising clubs and associations, media, agencies and advertisers organizations to "The Big Pitch", 16mm 20-minute color film offered by Raphael G. Wolff Studios, Hollywood 28, Calif. Film, dedicated "to better understanding, a greater appreciation of advertising", highlights advertising's place in the "American Way." Films available to advertising and related organizations at cost.

BAB's Last Call

BROADCAST Advertising Bureau's strip film, "How To Turn People Into Customers," issues "last call" to NAB member stations to turn in order blank for copies of 30-minute 35mm color movie. Film tells basic story of radio advertising to retailers. Also urged are last minute orders for BAB's direct mail series, which feature self-mailing jumbo-sized folders printed and illustrated in two colors. Price of film is \$15 a copy. Sets of BAB direct mail series are \$52 per complete set of 100 each of 13 different mailers.

Memos for Remembrance

ENGLISH morocco memo books have been distributed to advertisers by CKNW New Westminster, B. C. Books are 2 x 4-inch size and are engraved with advertiser's name on front and have CKNW microphone stamped in gold on inside cover. Pocket for business cards also is placed inside front cover.

Personnel

LOUIS C. OSWALD becomes publicity director of WHK Cleveland. He fills vacancy created by resignation of C. T. CHRISTENSEN who joins Philco Appliance Division of Strong, Carlisle, and Hammond. Mr. Oswald has been employee at WHK for more than three years in transcription department.

MAURICE E. BUNN appointed public relations director of CKY Winnipeg. HAROLD W. SHEPARD and NORMAN W. GLENN appointed to NBC's radio sales advertising and promotion department, as sales promotion writers. Previously, Mr. Shepard had been with Concord & Jerus Sales Co. as ad-

vertising manager and Mr. Glenn was advertising salesman for Crowell-Collier Publishing Co.

JACK SNOW appointed sales research director of WING Dayton. He formerly was copy writer in advertising-promotion department at NBC in New York. He is also an author, currently writing series of "Oz" books for children.

RICHARD P. SISSON, WINS New York promotion manager, leaves to join Criterion Service Inc.

NELS BLAIR promoted to sales promotion manager of CHUM Toronto.

WQXR MOVES

Is Now in Times Bldg.

WQXR New York moved yesterday (April 16) to new quarters, twice the size of its former offices and studios, in the building occupied by its owner, *The New York Times*.

Arthur Hays Sulzberger, *Times* publisher, described the transfer of the station to larger quarters as indicating the *Times*' belief in continued growth of radio.

"The studios and equipment installed here," said Mr. Sulzberger, "incorporate the latest developments in sound broadcasting. It is evidence that, in our opinion, basic policy of WQXR—good music and factual news reports—is fundamentally sound."

"We believe that television is not a substitute for good music and the prompt dissemination of news by radio. The new plant we have built here is further proof of 'The New York Times' confidence in the continuing growth of WQXR and its faith in radio."

The new offices of WQXR, which previously was located at 730 Fifth Ave., are on the ninth and tenth floors of The Times Bldg., 229 West 43 St.

CATHOLIC RADIO

N. Y. Record Firm Forms

FORMATION in New York of Catholic Broadcasting Service to furnish transcribed material to Catholic groups conducting programs on community stations has been announced by Michael O'Brien, head of the organization. The broadcasting service will supply Catholic groups with transcribed talks by members of the clergy as well as transcriptions of vocal and instrumental liturgical music, Mr. O'Brien said.

According to the service's plans, its facilities are intended to implement local features rather than replace them. "It is expected that such a service will enable already overburdened groups to sustain a high standard of quality in Catholic radio and to continue their own vitally important participation," Mr. O'Brien said. First recordings are expected to be available for distribution on May 1. Recording laboratories will be located in Long Island City. Chief assistant to Mr. O'Brien is Charles L. Dodson and Margaret Elizabeth Mahon is secretary.

HAHN ELECTED

Heads American Tobacco Co.

PAUL M. HAHN, vice president of the American Tobacco Co. since 1932 and president of American Cigarette & Cigar Co., a subsidiary, since 1940, has been elected president and chief executive of the company. He succeeds Vincent Riggio, who was elected chairman of the board at a meeting of the company's directors last week.

Mr. Riggio had declined to stand for re-election as president because of his age—he is 73. He had been president of the firm since the death of George W. Hill in 1946.

The new president of American Tobacco Co. joined the firm in 1931 as director and assistant to Mr. Hill. He has been president of American Cigarette & Cigar Co. (Pall Mall) for past 10 years. Last year sales of Pall Mall cigarettes were 12 times what they were in 1939 before Mr. Hahn took over.

Edmund A. Harvey, treasurer of the company since 1936, was elected vice president in charge of sales. He has been a director of the company since 1932.

Harry L. Hilyard, who has been assistant treasurer and a director since 1936, was elected treasurer. All other officers were re-elected.

ARROWHEAD

Operational Changes Set

OPERATIONAL changes are underway at Arrowhead Network, it was learned last week. Harry S. Hyett, station and commercial manager of WEAU Eau Claire, Wis., will also act as national sales manager of Arrowhead.

In another change already announced, Greg Rouleau, general and commercial manager of WJMC Rice Lake, Wis., becomes resident and promotion manager of WEBC Duluth, Minn., key station of the network. Walter C. Bridges, general manager of WEBC and of the network, continues in those capacities.

Further reshuffling is expected at other Arrowhead stations. The network includes WEAU WEBC WJMC WMFG Hibbing, Minn., WHLB Virginia, Minn., and WISC Madison, Wis.

ONE NOT
H. R. 7310
TO FORGET

Commercial

BILL KIRK, formerly with WEEK Peoria, Ill., joins local sales department of KFJH-AM-FM Wichita, Kan. JOHN EBERHARDT joins station as office manager.

GORDON D. WALKER joins KTSL (TV) Hollywood as account executive. He was formerly in sales department of Blake, Moffett & Towne (paper wholesalers) and prior to that with Guggenheim Enterprises in sales capacity.

KBUC Corona, Calif., appoints Joseph Hershey McGillivra Inc. as station representative.

VINCENT R. BLISS Jr. joins Chicago staff of H-R Representatives Inc. as salesman. He formerly was with Fred W. Amend Co. and Grant Adv. Inc., Chicago.

KPIX (TV) San Francisco appoints The Katz Agency Inc. as its national advertising representative. KPIX is affiliated with both CBS and DuMont networks.

CHUCK MILICI, member of WMGM New York sales department, is the father of a girl.

INDUSTRIAL FILM

'Mycalex Story' Debuts At GE

EIGHTY-FIVE engineers and drafting supervisors attended the world premier of "The Mycalex Story," an industrial film, at the General Electric Co. plant at Schenectady on April 4. Executives of the company stated after the showing that the reception was enthusiastic and resulted in discussions of applications for the material which took most of the day.

The film is intended to show the properties of Mycalex and was written and produced by Sam Freed & Assoc., of Philadelphia. Scenes are presented from the Mycalex executive offices, 30 Rockefeller Plaza, New York; from the plant at Clifton, N. J. and of different adaptations of the material in production and in actual use.

DEAN NAMED

Heads S. D. Broadcasters

ROBERT J. DEAN, president and general manager of KOTA Rapid City, was elected president of the South Dakota Broadcasters Assn. at its meeting in Merrill. James E. Sweet, co-manager of KIHQ Sioux Falls, is vice president, and Irving R. Merrill, general manager of KUSD Vermillion, was re-elected secretary-treasurer.

V. E. Montgomery, director of the business research bureau at the U. of South Dakota, spoke on "How the Business Research Bureau May Help South Dakota Broadcasters." The members passed a resolution commending activities of the Broadcast Advertising Bureau and recommended its continuation. Members heard a recorded speech by Maurice Mitchell, BAB director.

Two-year memberships on the

five-man board went to Mr. Merrill and Mr. Sweet. Mr. Dean appointed the following persons to the legislative committee: Mr. Sweet, Ray V. Eppel, president of KORN Mitchell, and Robert R. Tinscher, vice president and general manager of WNAX Yankton, retiring president.

Jones Elected

E. Z. JONES of WBBB Burlington, N. C., was elected president of the North Carolina Associated Press Broadcasters, at a meeting held March 23 in Greensboro. Mr. Jones succeeds E. J. Gluck of WSOC Charlotte. Others elected were: Ed Kirk of WPTF Raleigh, first vice president; William Melia, WWNC Asheville, second vice president, and Paul Hansell, Charlotte AP bureau chief, secretary. Gilbert Hutchinson, WBIG Greensboro, was host of the convention.

GENE AUTRY (with mike), station owner and radio-movie star, turns the tables on disc jockeys **Dick Campbell** (l), **Frank Raymond** (2d r) and **Charles Craig** of **WDVA** Danville, Va., on a recent visit to city. After having undergone four tape-recorded interviews for various programs, Mr. Autry took over the mike and began firing his own questions. **WDVA** also recorded the star's apology for the absence of his horse, **Champion**, to 1,000 kids and grownups in a local department store who had waited to see the famed equine

GRAY RECEPTION

Retiring Army Sec. Is Feted

PARADE and reception were held last Tuesday at Fort McNair, Washington, for retiring Army Secretary **Gordon Gray**, president of **WSJS** Winston-Salem, N. C. President **Truman**, prominent government officials and high-ranking Defense Dept. officers attended the ceremonies.

Mr. Gray has resigned to accept the presidency of the U. of North Carolina Sept. 1, but continues as special assistant to President **Truman**. He was nominated as assistant Army Secretary Sept. 24, 1947, and became acting secretary upon resignation of **Kenneth C. Royall**. On May 25, 1949, he was sworn in as Undersecretary of the Army and shortly afterward took oath of his recent office. Meanwhile, last Wednesday **Frank Pace Jr.** was sworn in to succeed Mr. Gray.

Hugh (Bud) Ernst

HUGH (Bud) **ERNST**, 39, producer of *Queen for a Day* on **MBS**, shot and killed himself in a New York hotel early last Tuesday. Marital difficulties were said to have prompted his suicide.

Programs

HOOVER Commission Report was theme of series of transcribed interviews with **Herbert Hoover**, broadcast over **WNJR** Newark during week of April 10 at 6:45 p.m. Broadcasts, pointing up Commission's probe of executive branch of government, summarize five reports covering general management, President and his cabinet, defense, government house-keeping, Post Office, and general inefficiency and health. Time for series contributed as public service by New Jersey Manufacturers Assn.

Aids Reading

READINGS of great novels launched by **WSTC-AM-FM** Stamford, Conn. today (Monday). Titled *Let's Read* and slated for broadcast Monday-Wednesday-Friday, 10-10:30 p.m., series is being offered in belief that novel and radio are closely related insofar as both rely on imagination for amplification of written or spoken word. Programs will give listeners an opportunity to "read" books—none will be dramatized or edited—in their original form.

Community Highlights

EACH Friday evening, **CKOY** Ottawa visits one of city's 15 community centers with mobile recording unit, covers highlights of community activities and rebroadcasts them on Saturday afternoons. Addresses by guest speakers at community center, ranging from Canada's chief justice to sports celebrities, are included in recordings at centers.

Questions Answered

QUESTIONS on newly formed local Fair Employment Commission are answered in show emceed by **Dick Merri**, news editor of **WRSR** Cleveland, Tuesday 7:45 p.m. Members of Fair Employment Commission are interviewed at their respective offices for on-the-scene coverage of subject. Over 500 questions have been received on subject to date, station reports.

Dogs' Problems

DOGS with problems, diagnosis and cure of them, is format of *The Animal Clinic*, new 15-minute program beginning this month on **WENR-TV** Chicago. Stars of show are **Dr. Wesley A. Young**, head of Chicago's Anti-Cruelty

Society, and his daughter, **Lorie**. Show's stage is examination room of vet's office where **Dr. Young** draws illustrations of problems on blackboard. Some situations are sent in by dog owners.

Direct from Florida

SPORTS Director **Harold** (Bud) **Saidt** of **WBUD** Trenton, N. J., has followed Trenton Giants baseball club to training camp in Florida. Interviews direct from there are heard on his *Sport Shots* show every evening at 6 p.m. Team's new manager, **Chick Genovese**, will be introduced to fans via Mr. **Saidt's** show.

Writers' Fuel

RADIO-MINDED aspirants vie thrice weekly in response to **CKNW** New Westminster, B. C.'s new program *Fuel For Thought*, aired Tuesday, at 8:15 a.m. **Hal Yerxa**, m. c., plays pop tune and asks listeners to write him telling how they would introduce number on the air. Following week, he presents best introduction sent in and sends winner small check as incentive to continue writing. Program is sponsored by **Strickland Fuels**.

WTIC Origination

WTIC Hartford's origination May 5 of *The Marjorie Mills Hour*, regular daily feature on New England Regional Network, will include tie-in with House and Garden Week, station reports. Show will be presented at Bushnell Auditorium where collection will be made to benefit Hartford Art School's scholarship fund. Horticulturist **Allen Wood**, who often appears on program, will tour gardens and broadcast his descriptions. He also will answer garden-problem questions submitted by audience at prebroadcast time.

ICE BREAKING

WBAY Holds Guessing Contest

IN WISCONSIN, when the ice of the Fox River goes out into Green Bay, it not only means that spring is near, but the breakup also occasions many friendly wagers as to whether or not it will occur by March 17. This year, **WBAY** Green Bay decided to capitalize on the event.

On a show called *Party Line*, **WBAY** announced that a raft of logs, painted bright red and sporting a gaily flying pennant, had been placed in the ice above a bridge near the heart of downtown Green Bay. **WBAY** stated that it wasn't offering any prizes but that the person who guessed closest to the time the raft would strike the bridge, would be honored as the epitome of something or other.

No sooner had the announcement been made than merchants started calling **WBAY**, offering all kinds of prizes to the winner. Thousands of guesses were sent in, the station

FIRE AT KICD

Damage Estimated at \$75,000

KICD Spencer, Iowa, last Monday began broadcasting from temporary quarters after a weekend fire of undetermined origin had leveled a one-story, 12-room structure and enveloped all of the station's possessions. Damage was placed between \$60,000 and \$75,000.

With only a broadcast transmitter and 395-ft. tower intact and its staff on hand, **KICD** resumed operation Monday at 6 a.m. after its program department rebuilt the station's complete commercial schedule by memory, according to **Ben Sanders**, president and general manager. **KICD** aired spots of over 200 accounts without a miss, he added.

Station lost only 17 hours broadcast time through the combined efforts of a score of staff members, and the ingenuity of Chief Engineer **Eldon Kanago** and Program Director **Mason Dixon**, Mr. **Sanders** said.

The fire broke out about 30 minutes after signoff time Saturday, April 8 and within two hours had demolished the building. (**KICD** had held its 12th annual Easter egg hunt that afternoon.) A call to **Collins Radio Co.** at Cedar Rapids, Iowa, brought forth a 250 w transmitter and other equipment while the fire was still raging. A crystal was located at **KBIZ** Ottumwa and sent by plane to **KICD**. A number of other midwest stations also offered to help.

KICD is drawing plans for construction of a new station and meanwhile will continue to operate in temporary quarters until the new building is completed, Mr. **Sanders** said.

WNAX Bowling Tourney

TWO-DAY championship finals of the Five-State Bowling Tournament sponsored by **WNAX** Yankton, S. D., were held on Saturday and Sunday (April 15-16) in Sioux City, Iowa, when 216 survivors from a field of 9,300 bowlers competed for merchandise trophies and cash awards. Award presentation ceremonies and a roundup of the tournament were scheduled for broadcast by **WNAX** yesterday.

reported, and on the morning of the last day, 6,800 cards and letters were received. The raft hit the bridge at 9:43:44 p.m. on March 23, and the young woman who guessed 9:45 on that day received all the awards, ranging from ham to a trip around the town in a taxicab. **WBAY** said the event will be one of its promotional features each year.

BELVEDERE CASE

FCC Would Deny Bid for AM

INITIAL DECISION to deny application of Belvedere Broadcasting Corp. for authority to construct a new 250 w standard broadcast station in Baltimore was issued last Monday by FCC. Denial was urged by Hearing Examiner Jack P. Blume on the ground that Belvedere's proposal falls short of compliance with the Commission's rules and engineering standards.

Examiner Blume noted FCC's Standards of Good Engineering Practice provides that, in selection of a transmitter site, a station should be able "to serve adequately the center of population in which the studio is located and to give maximum coverage to adjacent areas." Assignment of this facility to a city like Baltimore would not be "sound," he found, since FCC requires that service be provided to 90% of a metropolitan district.

Belvedere Broadcasting Corp. had applied for authority to construct the AM station on 1400 kc with 250 w, unlimited time, contingent upon Baltimore Broadcasting Corp., WCBM licensee, relinquishing these facilities under its CP to change frequency from 1400 kc to 680 kc. Belvedere operates WMCP (FM) Baltimore and proposes to duplicate the FM programming on the proposed AM station.

Class 27:

TRANSPORTATION, travel and resort advertising is not a major item of radio revenue. One account, the institutional Monday evening series on NBC of the American Assn. of Railroads, accounted for more than 90% of this group's network purchases last year. Hotel and resort advertising is usually seasonal and pretty much localized and —let's face it—newspapers are the traditional medium of this type of advertiser and with a few notable exceptions radio has not swung much of this business to the airwaves.

Forty-five states have tourist promotion bureaus with advertising budgets to use in attracting visitors within their boundaries, yet in 1949 BROADCASTING had only one report of any state using radio for the purpose. Admittedly our records are incomplete on localized campaigns, but if there had been any great volume of state advertising on the air it seems likely that it would have been reported.

Canadian Ads

The Canadian Government at the last minute last year allocated \$35,000 of its million-dollar travel promotion budget to American radio, after Maurice B. Mitchell, director of BAB, had registered an emphatic protest against early plans to buy space but to solicit free time. This year Mr. Mitchell has already submitted plans to the Canadian Travel Bureau for a \$200,000 announcement campaign on United States stations.

A half-dozen transportation services are among the regular users of spot radio: Trans World Airlines, which last year spent roughly \$250,000 for announcements on 36 stations in 11 cities; New York Central Railroad, using announcements in 15 cities; Northeast Airlines, currently with announcements on nine stations in a continuing campaign which used up to 15 stations at the peak of the summer travel season; United Airlines, using four stations; Flor-

ida Greyhound Lines, sponsoring an ABC co-op program, Elmer Davis's news commentary, on five Florida stations; Union Pacific Railroad, using programs on two Los Angeles stations. A number of suburban railroad and bus lines use radio consistently in the cities they serve.

Travel agencies occasionally use time on the air to promote foreign

travel, particularly guided tours such as the tours to Rome this Holy Year organized by American Express-Catholic Travel League, which is using both English and foreign language stations in major markets to secure members for the pilgrimages to Rome being conducted by Catholic prelates.

While the travel field is probably not destined ever to become

a large entity in radio advertising, it seems as if it could contribute a lot more business than it has to date if it were properly cultivated. Six sponsors of network co-op shows, not including the five Florida station broadcasts sponsored by Florida Greyhound Lines, and seven users of Transit Radio indicate a total local volume too low even for this class.

* BROADCASTING estimate

Class 28:.....Miscellaneous

THIS FINAL category is not so much a class of advertising as it is a catch-all, picking up advertising of art dealers and unions, political parties and religious organizations, pet foods and real estate.

Network advertisers from this mixed group during 1949, in addition to those shown in the table, included: Ace Markets (art dealers), sponsoring *Songs by Great Singers* on MBS 15 minutes a week January-March (\$20,488 in gross time costs); American Bird Products (bird food), *American Radio Warblers*, weekly half-hour on MBS January-April, October-December (\$23,554); Armour & Co. (Dash Dog Food), *Hint Hunt* on CBS five quarter-hours in April, one half-hour in August (\$22,633); Carnation Co. (Friskies Dog Food), Elmer Peterson's newscasts three quarter-hours a week on NBC Pacific May-December \$56,166); CIO Textile Workers 10th anniversary program, ABC one-timer (\$11,184); CIO United Steel Workers, sponsoring Philip Murray, CIO president, in a talk on the steel strike, on ABC (\$11,740); Dawn Bible Students Assn., *Frank & Ernest*, ABC Sunday quarter-hour starting in October (\$48,757); First Church of Christ Scientist, quarter-hour weekly religious talks on MBS (\$51,827).

G. F's Dog Food

General Foods Corp. (Gaines Dog Food), *Juvenile Jury*, Mutual half-hour weekly program, January-June, October-December (\$243,607); Institute of Religious Science, *This Thing Called Life*, weekly half-hour on MBS starting in October (\$6,240); Lewis Food

Co. (dog & cat food), *Free for All*, CBS weekly half-hour January-June (\$23,280); Maritime Milling Co. (Hunt Club Dog Food), news five minutes a week on CBS starting in September (\$21,580); also *Confidential Closeups* on NBC 15 minutes a week starting in September (\$45,764).

John Morrell & Co. (Red Heart Dog Food), *Lassie* quarter-hour weekly drama on NBC January-May, September-December (\$220,860); National Council of the Protestant Episcopal Church, *Great Scenes from Great Plays*, weekly half-hour on MBS January-February (\$128,874); Radio Offer Co. (novelty), five one-time programs on MBS in December (\$8,962); Southern Baptist Convention, *Baptist Hour*, Sunday half-hour on ABC starting in October (\$59,544); political broadcasts, chiefly in connection with the 1949 gubernatorial and senatorial race in New York State (\$56,574).

AFL Campaign

Since the first of the year, American Federation of Labor has embarked on an institutional campaign on 163 MBS stations across the country, sponsoring Frank Edwards' 15-minute newscast from Washington five nights a week. United Electrical Workers has discontinued its weekly quarter-hour news period on ABC. In January the Communications Workers of America bought 15 minutes on ABC for a talk by their president, J. A. Beirne, and in February ABC sold another 15-minute spot to CIO for a speech by the union's national president, Philip Murray.

Amalgamated Clothing Workers Union (CIO) has started sponsorship of ABC's *Town Meeting of the Air* (network co-op) on WJZ New York, first use of radio in the union's campaign for "union label" suits. Plans for extended use of radio, also TV, will be presented at (Continued on page 121)

HERSON SURPRISE Solons Quiz NBC Interviewer

WHEN Bill Herson, NBC Washington veteran personality who chats informally with Congressmen each Saturday morning on the network, arrived at the Congressional Hotel to conduct his show on April 1, he was surprised.

Mr. Herson, who has been conducting *Coffee in Washington* on WRC-NBC each morning for the past five years, had planned to interview Rep. James Morrison (D-La.). Instead, he found that the tables had been turned on him. Over 100 senators and representatives had gathered secretly to honor Mr. Herson as their guest.

So, Mr. and Mrs. Herson took their places at the head table as featured guests. Then the solons turned the interview tables and began asking Mr. Herson questions he usually has posed—about home life, hobbies, past experiences, etc. "I'm the most honored man in Washington today," Mr. Herson announced to his cheering hosts. Plans for the affairs were made by Rep. Percy Priest (D-Tenn.), who celebrated his birthday on the broadcast, and Rep. Reva Bosone (D-Utah.)

Toiletries

(Continued from page 114)

CBS for a weekly half-hour in September (\$253,050); Campana Corp. (all products) had *First Nighter* on CBS a half-hour a week January-October (\$523,716) and *Solitary Time* all year on NBC 15 minutes a week (\$101,764); Carter Products had Jimmie Fidler on MBS for a weekly quarter-hour January-June for Arrid (\$139,458) and in October began promoting this product with *Sing It Again* 15 minutes a week on CBS (\$124,412).

Chamberlain Labs.

Chamberlain Labs in December started John B. Kennedy in a weekly five-minute newscast on Mutual (\$10,670); Chesebrough Mfg. Co. sponsored *Little Herman* on ABC 30 minutes a week January-July for various toiletries (\$380,418) and *Dr. Christian* all year on CBS a half-hour weekly (\$873,078); Conti Products (shampoo) sponsored *Yours for a Song* on Mutual 25 minutes a week January-May (\$67,070); Eversharp Inc. (razors, blades, pens, pencils) sponsored 15-minutes of *Stop the Music* on ABC January-September (\$365,533); "42" Products wound up its use of Bob Garrod's news program on CBS Pacific with a single January broadcast (\$509); Grove Labs (Fitch hair tonic, shampoo, 4-Way cold tablets) sponsored *The Shadow* on MBS September-December 30 minutes each Sunday (\$122,652).

Illinois Watch Case Co. (compacts, etc.) sponsored Groucho Marx's half-hour quiz show on ABC January-May (\$288,870), moving it to CBS in the fall (\$222,768); Andrew Jergens Co. continued Louella Parsons' *Jergens-Woodbury Journal* 15 minutes weekly on ABC through the year (\$602,342); Lee Pharmacal Co. used a quarter-hour of Arthur Godfrey's morning program five times a week on CBS May-September for *Spray-A-Wave* (\$401,084); Manhattan Soap Co. had *Front Page Features* three quarter-hours on CBS Pacific January-July (\$45,082); and *We Love and Learn* five quarter-hours a week on NBC all year long (\$1,394,150); Murine Co. sponsored John B. Kennedy's Saturday evening five-minute newscast on MBS September-December (\$69,250); Noxzema Chemical Co. sponsored Gabriel Heatter's MBS newscasts for 15 minutes each Monday all year (\$336,194).

R. B. Semler Inc. (Kreml) sponsored Mr. Heatter two quarter-hours weekly on MBS through 1949 (\$461,796); Sterling Drug used *Manhattan Merry-Go-Round*, Sunday half-hour on NBC in January-February for Dr. Lyons dentifrices (\$118,598) and *Backstage Wife*, Monday-Friday quarter-hour, on NBC all year for various toiletries (\$872,226); Wildroot Co. used *Meet the Missus* on CBS Pacific two quarter-hours a week, January-June (\$24,182) and *Adventures of Sam Spade*, weekly

half-hour, January-September on CBS (\$667,180) and September-December on NBC (\$227,926).

All network advertising of this group that was on the air in December continues into 1950, except Murine Co., Chamberlain Labs and Illinois Watch Case, which concluded their network programs the end of 1949. New network business this year includes: Colgate-Palmolive-Peet Co., returned to daytime radio after a long absence, now sponsoring *Strike It Rich* on CBS five afternoon half-hours a week; Gillette Safety Razor Co. (Toni Division) has dropped its share of the morning Godfrey show and now is sponsoring a five-minute noon-time beauty-fashion program across the board on ABC; Manhattan Soap Co. (Sweetheart Soap) has added Frank Goss's newscasts three days a week on 15 CBS Western stations; Shulton Inc. sponsors *High Adventure* a half-hour a week on NBC for its toiletries; William R. Warner Co. has taken over sponsorship of Walter Winchell's Sunday evening period on ABC for Hudnut home permanent. Gillette sponsored broadcasts of two New Year's Bowl games, Sugar Bowl on ABC and Rose Bowl on CBS.

On West Coast

Murine Co. currently sponsors five 15-minute periods of *Breakfast Gang* a week on Don Lee, with Chamberlain Labs taking the sixth broadcast; and Wildroot Co., sponsors the weekly half-hour *What's the Name of That Song?* on this West Coast regional network. Murine also has returned to spot radio with a campaign of announcements starting in February in more than 100 markets for Murine Eye-Wash. Last fall Wildroot started a *Barbershop Harmonies* series on more than 100 Keystone Broadcasting System stations in the South and Southwest.

Colgate-Palmolive-Peet Co. in January started a 39-week spot campaign for Palmolive Soap in more than 150 markets using one-minute announcements; Grove Labs last month began using announcements in some 60 markets for Fitch Shampoo; Procter & Gamble

Co. this month began using announcements for Ivory soap in about 60 cities. Sales Affiliates Inc. is adding two markets—Lincoln and Grand Island, both Nebraska—to the nine in which the company uses *Adventures of Maizie*, M-G-M transcribed weekly series, for Zotos Fluid Wave, with further expansion anticipated in the fall. Manhattan Soap Co. this week begins use of 15 announcements a week on Transit Radio systems in six markets.

WMAW CLEARED

In FCC Initial Decision

INITIAL decision to grant WMAW Milwaukee a license to cover its construction permit for 5 kw full-time on 1250 kc, directional, has been reported by FCC.

Hearing Examiner Basil P. Cooper ruled that no evidence was found to support charges that the station had misrepresented its actual ownership to the Commission or that the application filed in late 1944 constituted a means whereby Herbert E. and Myrtie D. Uihlein "sought to carry out a partnership agreement entered into with George E. Inghram in early 1944."

Although in certain instances reports of changes in the organization were not filed within the required 30 days, Examiner Cooper found that all changes have been reported to FCC and the late filing "cannot be attributed to an intent on the part of the corporation to deceive the Commission or conceal material facts."

Muzak in 45 rpm Field

ENTRY into the 45 rpm record field has been announced by Muzak Corp.'s transcription division. Now available to the trade are complete facilities for recording, processing and pressing, the firm stated. The service, it was announced, will be in addition to, and in conjunction with, operations in the transcription, and standard and microgroove phonograph record manufacturing field.

Uncle Sam

ilies (in 1940 there were only 28,500,000) that 41% of them have more than one radio, so that today our people own some 86,000,000 sets, including those in cars and the portables you see everywhere.

The Census-Takers will learn too, if they ask, that more people are listening *more* to their radios today. *Everybody* — greybeards and grown-ups, teenagers and tots. City and small town and farm people.

Where the average family used to spend less than 3½ hours per day listening — now it's 4 hours and 44 minutes. And at any hour between 6:00 and 10:00 in the evening you'll find 34,700,000 people happily giving their attention to the endless parade of programs on the air.

If you are a national advertiser

If you are a manufacturer of products or services people want and buy — this Census will put new emphasis on two facts basic to your business:

America is a bigger, richer and more rewarding market-place for you than ever before

To sell the millions who are this market, you can have no medium bigger, more powerful, more economical than network radio.

(Incidentally you will notice that radio is the only major advertising medium included in the Big Count.)

And these two facts will bring to your mind, inevitably and immediately, *America's No. 1 Network — NBC.*

Like America, NBC has grown. It is bigger, busier, more economical than ever before —

Bigger — The stations of the NBC network have the largest combined weekly audience in all America — larger than any other network, larger than any other advertising medium — according to radio's own census, the Broadcast Measurement Bureau.

Busier — NBC is selling more products and services for advertisers, day and night — and in 1949, advertisers invested more money in NBC than in any other network.

More Economical — Reaching more people, selling more goods — you'd think NBC would cost more. The opposite is true. NBC today costs considerably less per 1,000 homes reached than it did ten years ago — and NBC today reaches more people at lower cost than any other national advertising medium including the other networks.

Now, more than ever, to sell America you need...

NBC

America's No. 1 Advertising Medium

A service of Radio Corporation of America

A new suit of statistics for

This month, all across the land, 140,000 Census Enumerators are ringing doorbells . . . counting people, incomes and radios . . . measuring America for size.

They will find a colossus — bigger than ever before. Busier, lustier, richer.

Clearing many hurdles, they will discover what research men already know:

that our population is now over 150,000,000 which is 20,000,000 more than in 1940

that we now number 43,000,000 families — nearly 7,000,000 more than 10 years ago

The Census-Takers will learn — that our families in 1950 have an average real income of \$2,647 — a ten-year increase of 21%; that our savings total a staggering \$12,000,000,000.

And another fact: our whole standard of living has gone up, with 71% driving autos; 71% of our families now owning refrigerators; and 61% having washing machines.

New suit for Radio, too

The enumerators will re-discover another giant — 95% as big as America. And that's Radio — with its fabulous influence on the lives of our people. Here are more facts that will be confirmed:

that there are today 40,700,000 radio fam-

Class 26:

..... Toiletries

NETWORK time sales to toiletry producers dropped nearly \$3 million in 1949 from the 1948 level, a decline of 8.6%, but it still ranked second among all classes of advertisers using radio network time during the year, topped only by food advertisers. And—with a big question mark for Lever Brothers Co., whose top executives were engaged in a thorough overhauling of the company's advertising plans as this was being written—the outlook is good for a comparable volume of

business from this class in 1950.

Gillette plans to continue its Friday night fight broadcasts indefinitely and to go on sponsoring radio coverage of every major sporting event it can get rights for. This includes the World Series and the All Star baseball games for this year and six years after that, Gillette having tied up those rights last November with a seven-year, million-dollar contract. And there are no signs that the makers of toilet goods are planning any wholesale exodus from radio as long as this medium goes on delivering them so many customers at so low a cost.

S. L. Mayham, executive vice president of the Toilet Goods Assn., has given BROADCASTING the following statement on the status of this industry and its advertising plans:

Equal 1948 Volume

"As nearly as can be determined at this early date, total sales of perfumes, cosmetics and toilet preparations during 1949 practically equalled the volume done by the industry in 1948. It should be pointed out, however, that this excellent showing was made possible only because of the progress made by the industry in the sale of new products during the last few years and still gaining rapidly in popularity. Of particular interest in this connection were increases of nearly 10% in the sales of home permanent wave preparations and an increase of about 15% in dentifrices due to the introduction of ammoniated dentifrices, and a continuing increase in sales of shampoos of various types.

"Perfume business itself was probably down slightly and the general line of cosmetics also suffered slightly. Sales of expensive perfumes and especially gifts, were directly hampered by the 20% retail excise tax, the effects of which were felt for the first time in this industry during 1949. The early weeks of 1950 have not been good principally because of the announce-

ment by the President that relief would be granted from the excise taxes. The day after this statement appeared in the press, purchases of all except the most essential products practically came to a standstill.

"We believe that in general, 1950 will be a good year. Much will depend upon the speed with which Congress acts on the excise tax and the extent of relief granted. If complete repeal could be accomplished quickly, we would anticipate a sharp boom in business which might make 1950 one of the top years in volume. If, however, relief from the tax is delayed and especially if only partial relief is given, we would anticipate difficult times for the industry during most of 1950.

Co-op Ads Up

"With respect to advertising, we believe some further curtailment in the national advertising budgets of many companies will take place but we look for an increase in the volume of cooperative advertising with local newspapers at local rates. As we have indicated in the past, radio advertising of toilet goods continues at a steady volume but radio advertising is not a medium that has been par-

Sporting Goods

(Continued from page 118)

network.

Some 15 sporting goods and toy retailers sponsor network co-op programs, Mutual's *Fishing & Hunting Club of the Air* being used by 10 of this group. Three also are included in the advertisers over Transit Radio facilities.

Record attendance at the American Toy Fair in New York last month and large orders placed by the 11,000 buyers at the fair led to predictions by industry leaders that this year's toy production will top last year's output of \$300 million. Arthur M. Raphael, president of Toy Mfrs. of the United States of America, which sponsored the fair, said that orders for all types of toys were well ahead of the 1949 fair.

Retailers Good Prospects

Retailers with well-stocked toy stores or departments should be good prospects for sponsorship of juvenile programs on the stations in their localities.

Lionel Corp., maker of model trains and associated equipment, is 50 years old in 1950 and has appropriated the largest advertising budget in its half-century, \$500,000. Media plans include radio.

ticularly successful in the sale of women's cosmetics and perfumes."

BAB might look into the cooperative advertising plans of toilet goods companies with an eye to getting the use of radio time as well as newspaper space included.

Second ranking class of network business, the advertisers of toiletries accounted for 15.6% of all network time sales during 1949. These advertisers, in addition to those listed in the table, were; Armour & Co., advertising Dial soap on *Stars Over Hollywood*, CBS Saturday half-hour, July-October (spending \$60,813 for network time at gross rates); Beauty Factors Inc. (Insta Curl), *Meet the Stars*, Thursday five-minute spot on ABC January-March (\$24,704); Block Drug Co. (Amm-I-Dent), started *Burns & Allen* on

Dear Louis:

Fellers like you is allus lookin' fer bright business spots. Well sir, Charleston, West Virginia — th' home town uv WCHS — is really one uv th' brightest in th' country! Jest seen a report on business conditions in th' Fifth Federal Reserve District, an' do yuh know what, Louis? Outen all th' cities in th' district — an' some of 'em is big ones, too — oney six showed a retail sales increase in January an' February over th' same two munts of 1949, an' Charleston was one uv 'em! Yessir, in spite uv th' long coal strike local retail business increased three per cent in arr department stores! That's quite a record, Louis, an' jest think what thins will be like now thet ever'one is back at work! Jest tho't I orta let yuh know since fellers like you wants ter place yer advertisin' whur it'll sell th' most fer yuh, an' with business reports like this, yuh jest can't overlook WCHS!

Yrs.

* BROADCASTING estimate

Class 25: Sporting Goods

AS THE accompanying table of network advertising by this class shows, the manufacturers of sporting goods and toys who use radio nationally do so on a one-time, special event basis, rather than as regular sponsors week in, week out.

Wilson & Co., which in 1948 was the only network advertiser in this class, repeated in 1949 its sponsorship of two outstanding football games, the pre-season All Star game in August on Mutual and the

final game of the professional football season in December on ABC, firmly implanting in the minds of listeners an identification of Wilson sporting goods with the first flight athletics. A. G. Spaulding & Bros. used a similar technique identifying its products with its program when it sponsored broadcasts of the Davis Cup matches last August for the second consecutive year over a special seven-station hookup.

Toy advertising comes most naturally in the pre-Christmas season, so it is not surprising that the three network advertisers of toys (shown on the table) all sponsored their one-time programs at that time, RCW Enterprises in November, the other two in December. Toy Productions of Hollywood also used

radio on a spot basis at that season, sponsoring 10- and 15-minute recorded musical programs in eastern cities in a five-week radio campaign starting Nov. 7 for its Bugs Bunny and Porky Pig toys. RCW Enterprises also used 10-minute and quarter-hour programs on 60 stations in 30 markets in a five-week \$250,000 pre-Christmas spot campaign in addition to its network broadcast.

But while Christmas is the time of most toy buying and giving, it is not the only time. Birthdays and other occasions for presents occur throughout the year and to publicize its products to this continuing market Faydrex Corp. is sponsoring a Sunday morning *Musical Varieties* program on the Don Lee

(Continued on page 114)

BALANCE

IS THE

WORD

IN SPARTANBURG

... and WORD means coverage in the nation's best balanced section. Balance between and within industry and agriculture means *Piedmont Prosperity*.

Forty per cent of U. S. cloth comes from this area. In addition to textile mills, major industries include forest products, industrial machinery, textile and food processing. Cotton, peaches, cattle, milk and poultry give farmers year-round high income.

For sales to a quarter of a million people with a quarter of a billion dollar income—buy WORD. A word to Hollingbery buys it.

Class 24:

PROCTER & GAMBLE Co. dominates network time purchases to advertise soaps, cleansers and polishes, its gross network time billings of \$11,042,947 in 1949 totalling nearly five times those of B. T. Babbitt Inc., second network advertiser in this category. As a whole, the class fell 6.9% below its gross billings for 1948, dropping it from fourth to fifth rank among all classes of network advertisers for 1949. Competition, always high among the members of this group, is expected to increase during the coming year as a reorganized Lever Bros. Co., whose top executives are now overhauling its advertising appropriation allocation, is reportedly readying one or more detergents for introduction later this year.

Soaps, cleansers and polishes were advertised with network time last year by the following companies, in addition to those listed in the table: Armour & Co. (Chiffon Flakes), sponsoring *Hint Hunt* five 10-minute periods a week on CBS January-May and for a Saturday half-hour on CBS during November (using \$291,921 worth of time at gross rates); Colgate-Palmolive-Peet Co. (Super Suds), *Blondie* for 30 minutes a week on CBS February-June (\$378,444); Cudahy Packing Co. (Old Dutch

Cleanser), *Nick Carter*, MBS weekly half-hour January-June, September-December (\$490,257); Drackett Co. (Drano, Windex-Wax), *Star Time*, weekly quarter-hour, ABC January-July (\$146,971); Faultless Starch Co., *Faultless Starch Time*, NBC Sunday quarter-hour (\$65,660); Los Angeles Soap Co. (White King Soap), *Chandu*, MBS half-hour February-May (\$5,421); Pacific Coast Borax Co. (20-Mule Team Borax and Boraxo), *The Sheriff*, 25 minutes, Friday, ABC (\$584,720); SOS Co. (cleaning products), *Knox Manning, News*, five 15-minute periods a week on CBS Pacific January-February (\$10,320), and *Mr. Information*, three five-minute periods a week, CBS Pacific January-August (\$26,708).

Since the first of the year, B. T. Babbitt has dropped *Lora Lawton* and moved *David Harum* into the former serial's spot on NBC, 11:45 a.m.-12 noon, Monday through Friday, and has started a new program, *Nona From Nowhere*, on CBS, Monday-Friday, 3-3:15 p.m., time formerly occupied by *David Harum*. Other network programs of this class on the air in December continue as they were then.

Chemicals Inc. on April 3 started sponsoring the Frank Goss news-casts three times a week on CBS

Pacific for Vano. On Don Lee, Los Angeles Soap Co. (White King soap) sponsors six 15-minute news periods a week. Gold Seal Co. is conducting a spring one-minute announcement campaign in 14 Mid-west markets for Glass Wax, Park & Tilford (Tintex dyes) began its annual 10-week announcement campaign in March, with Best Foods (Rit dyes, Shinola) starting announcements in some 80 markets a month later, running from April to

June. Griffin Mfg. Co., after a winter campaign for All-White shoe cleaner in Florida, has expanded the station list for its Shoe Lotion announcements, the campaign to continue until November.

At the local level, some 35 laundries and dry cleaners used network co-op shows on stations in their communities to advertise their services, with a half-dozen such establishments buying time on Transit Radio.

Spot's All-Time High

(Continued from page 64)

than was spent in the previous year.

Fourth ranking classification in the spot field was automotive, which includes Automobiles, Equipment and Accessories. These manufacturers spent an estimated net of \$7,392,000 last year on spot advertising. On the networks their gross total was \$6,718,766 for sixth place. The spot appropriation increased slightly while that for network time decreased.

As competition became keener in the gasoline and oil industry in 1949, these firms increased their net spot expenditures from \$2.7 million in 1948 to over \$5.5 million. This was approximately the same dollar volume as went to the networks in gross billings, although the group ranked ninth there as compared to fifth for spot. The dollar volume of network business decreased only slightly between the two years.

Advertisers of Jewelry, Optical Goods and Cameras placed over \$4.5 million in net spot business for sixth place. This compares with \$2,789,721 gross spent on the networks during 1949. The industry as a whole increased both its spot and network appropriations by several million dollars from 1948.

Retail Stores and Shops, which for obvious reasons did practically no network business, spent an estimated \$4,144,000 in the spot field. Beer and wine advertisers also banked heavily on spot, placing over \$3.5 million in 1949. This is compared to network gross expenditures of \$1,344,746.

Advertisers of Toiletries, the second ranking network classification in dollar volume, spent just under \$4 million net for spot in 1949. This ranked the Toiletries advertisers ninth in the spot field. On the networks they spent \$29,370,134, about \$2.7 million gross less than in 1948. Net expenditures in spot increased by approximately \$2 million be-

tween 1948 and 1949.

Big users of network radio were the Smoking Material advertisers. This group spent \$23,667,403 on the networks as compared to \$3,360,000 in spots to place twelfth. Confectionary and Soft Drinks advertisers put over \$9 million into radio advertising in 1949. Of this about \$2.8 million went to spot and \$6.2 million gross to the networks. Appropriations were decreased in both media from a combined total of about \$12.7 million in 1948.

The adaptability of spot has made it a very valuable tool of certain product classifications which find,

IER SESSION

H. V. Kaltenborn To Speak

H. V. KALTENBORN, NBC news analyst and commentator, will deliver the principal address at the 1950 Institute for Education by Radio in Columbus, Ohio, May 4-7, Dr. I. Keith Tyler, director of the Ohio State U. conference, announced last week.

Mr. Kaltenborn's speech will be heard at the institute dinner on May 7 when the IER marks the 20th anniversary of its founding. His subject will cover trends in informational and educational broadcasting through the past two decades, and also will consider the future of radio and television.

Preceding the dinner, the IER will present the telecasting of a local program, *Columbus Town Meeting*, one of two TV programs to originate from the institute's conference rooms and to be carried by WBNS-TV Columbus. For the first time Dr. Tyler said announcement of award winners in the exhibition of American educational radio programs will be made on May 1 preceding the IER opening.

WMFM (FM) OFF AIR

Lightning Damages Outlet

SHUT down by a lightning bolt, WMFM (FM) North Adams, Mass., is not expected to resume operation for some time, according to word from the station. The outlet went off the air late last month when the transmitter was struck by a bolt that also put out telephone and power lines in the area. The transmitter house caught fire and was badly damaged.

A member of Continental FM Network, WMFM carried paid advertising in a local newspaper advising listeners to tune in several FM stations within range that carry Continental's daily service. WMNB, AM outlet with which WMFM is affiliated, was not affected by the storm.

U. OF FLORIDA Radio Guild operated WGGG Gainesville, Fla., for entire day recently, with all positions, except engineering, being filled by students.

* BROADCASTING estimate

Smoking Materials

(Continued from page 108)

Yankee News Service three times a week on the full Yankee Network. P. Lorillard Co. is expanding the spot campaign for Old Golds, which in February used announcements and news programs on 18 stations.

To make American men more cigar conscious and to encourage women to buy cigars as gifts for their menfolk, the Cigar Institute of America is using three-color ads in the *Saturday Evening Post* during the first six months of this year, with individual cigar producers urged to back up these ads with their own advertising in all media.

Broadcasters soliciting cigar business should find good sales arguments in surveys made last winter by The Pulse Inc. of two cigar-sponsored programs on WOR New York, showing the preference for the sponsor's products over other brands to be 3½ times as strong with listeners compared to non-listeners of one program, 4½ times as strong with listeners to the other. Surveys also showed audiences to these programs to include a larger-than-normal percentage of cigar smokers.

Need for strong cigar promotion

is indicated by sales statistics. Last year some 5.6 billion cigars were smoked in the United States, only a slight decline from the 5.8 billion total for 1948, but a far cry from the 1920 record of nearly 10 billion.

Class 22:

"RETAIL business for 1950 appears to be nearly matching 1949's sales volume," says Howard P. Abrahams, manager of the sales promotion division, National Retail Dry Goods Assn., in a statement to BROADCASTING.

Last year, Mr. Abrahams continues, "it is estimated that the nation's stores did \$127.9 billion. This is not much under the all-time high of 129.9 billion in 1948, but a far cry from the \$42 billion in 1939.

"According to a recent survey (Feb. 20, 1950), stores are planning to spend almost as many dollars in total advertising in 1950 as they did in 1949. As usual, there are some slight variations from the previous pattern. Newspapers will probably receive a slightly reduced budget, with savings from economies going into space; window displays will probably account for less dollars as a result of further economies in display materials, while salaries remain constant. Direct mail is due for a small increase.

"Radio appears to be in for a small increase. We have finally seen the day when stores are using radio as a direct selling tool, not an institutional building medium. In other words, retailers are using

radio the way they always used newspapers, to bring immediate response."

One difficulty with fitting a retail classification into a product group series such as this is deciding when a store should be classed according to the products it sells and when it should be kept out of that class and reserved for this retail category. PIB, source of the network information used in this series, lists Adam Hat Stores under the Apparel heading, but classifies Dr. Hiss Shoe Stores as retail. BROADCASTING in most cases has considered a store as fitting best into the class of merchandise advertised by it on the air, leaving

for this overall retail group only department stores and other general retail institutions using radio for all lines of merchandise. This advertising is almost exclusively placed at the local level and data are not available for the application of general statistics as to the extent of radio advertising used by these stores.

It is known, however, that when all advertising placed on stations by local retailers for all products they have for sale to the consuming public—from automobiles to zithers—the total volume exceeds that of either the national radio networks or the total spot business. In other words, the American merchant is

an extremely good collective customer of the American broadcaster. In 1948 radio rendered a bill to Mr. Local Advertiser of \$171 million, representing 41.1% of radio's total billings to all classes of advertisers. Last year, the local advertiser's bill was up to \$182 million, 42.2% of the total. This year it can well go even higher.

The two network advertisers listed in the table also used regional network time last year. First National Stores in July started the Lombardo program on New England Radio Network. Dr. Hiss Shoe Stores used Don Lee as well as ABC, continuing to use both into 1950.

Class 23:

Smoking

CIGARETTE consumption in the United States will this year just about equal the 1949 all-time high of 352 billion cigarettes, roughly 117 packs for every U. S. inhabitant—man, woman and child—according to the Dept. of Agriculture. Backing up that prediction, the Bureau of Internal Revenue reported that in February the production of cigarettes was up approximately 1% over the same month of last year.

That's good news for broadcasters as well as tobacco men. Increased production and sales means increased advertising and with this group increased advertising usually means increased use of radio. Network time for advertising smoking materials, including cigars, pipe tobacco and lighters but mostly cigarettes, rose 16.5% in 1949 over 1948, following a 12.5% increase in network time sales to this group in 1948 over 1947.

Network advertisers in this class last year, in addition to those shown in the table, were: Bayuk Cigars Inc. (Phillies), sponsoring *Inside of Sports* on Mutual five quarter-hours a week January-September (with gross time purchases of \$919,124); Bloch Brothers Tobacco Co. (Mail Pouch tobacco) sponsored *Fishing and Hunting Club of the Air* 25 minutes a week on MBS (\$370,421); Brown & Williamson Tobacco Corp. (Raleigh cigarettes) sponsored *People Are Funny* for a Tuesday night half-hour on NBC, with *Life in*

Your Hands as a summer replacement, and in the fall added a Saturday morning broadcast of this program to its NBC schedule (\$899,910); Wally Frank Ltd. last November used two broadcasts on Mutual of a 15-minute program, *Profiles in the News*, for its line of pipes (\$4,904); U. S. Tobacco Co. advertised its tobaccos with *Take a Number*, Saturday half-hour on MBS January-July (\$444,601), in March started *Man Next Door*, at the same time on about 100 stations which previously carried *Take a Number*, continued *Man Next Door* after *Take a Number* was dropped (\$36,753) and in August started *Martin Kane*, *Private Eye* as a Sunday half-hour, also on Mutual (\$207,163).

Liggett & Myers

Since the first of the year, Liggett & Myers (Chesterfield) has added a Saturday night half-hour on CBS, *Arthur Godfrey Digest*, a transcribed program of the high spots of his morning shows during the week on CBS of which Chesterfield also uses a daily half-hour. P. Lorillard Co. has started *Dr. I. Q.* as a Wednesday evening half-hour on ABC for Embassy cigarettes and has cut its portion of *Stop the Music* on ABC from 30 to 15 minutes for Old Gold cigarettes. American Tobacco Co. has dropped *Leave It to Joan* on CBS for Roi Tan cigars but may add a daily 15-minute show to its cur-

rent network schedule. Ronson Art Metal Works first moved its five-minute Johnny Desmond show from MBS to ABC, then discontinued it. R. J. Reynolds on New Year's Day again sponsored ABC's broadcast of the Cotton Bowl Game.

Liggett & Myers is expanding its baseball broadcast coverage this year, sponsoring broadcasts of the Chicago Cubs home and away games on WIND Chicago and sharing with local advertisers sponsorship of the Cubs broadcasts fed from WIND to a special network of some 35 midwestern stations; the New York Giants on WMCA New York and a hookup of some 12 eastern stations; the Washington Senators on WWDC Washington, with possibly a similar regional baseball network being formed there with Chesterfields getting all or part of the advertising in connection with the baseball broadcasts.

General Cigar Co. (White Owl Cigars) this summer will share sponsorship of the New York Yankees games on WINS New York with P. Ballantine & Sons. Waitt & Bond (Blackstone, Yankee Supreme cigars) has started using

NEW HIGH IN SPONSORSHIP

Sponsors of United Press newscasts span literally the alphabet of business, from athletic supplies to zinc. Every yearly survey shows more and more kinds of sponsors—99, 115, 178 and now 215.

NEW HIGH IN ENTHUSIASM

Stations say: "Renewing for 10th consecutive year" ... "The tap service" ... "Nothing but praise" ... "Continues excellent" ... "Keep up the good work" ... "Still, always will be, taps" ... "Writing is without equal." (Names on request.)

NEW HIGH IN SERVICE

The United Press radio wire, the longest news circuit in the world, makes for faster, smoother delivery of all news—international, national, regional. Coast-to-coast in Canada now, as well as in the U. S.

NEW HIGH IN STATIONS

More stations take United Press service than ever before. The total is well beyond 1200 now in this country, a good 10 per cent higher than a year ago. U. P. clients continue to outnumber any other service's.

* BROADCASTING estimate

"PRELIMINARY figures on first quarter radio and television receiver production indicate that the industry's sales are continuing at the high level of the fourth quarter of 1949, contrary to past years," Bond Geddes, executive vice president, Radio Mfrs. Assn., says in a statement to BROADCASTING.

"Total industry radio set production is running just under a million units a month, yet some dealers are experiencing shortages, particularly in radio-phonographs of the more popular brands. After a lull last summer, radio set sales recovered strongly in the fourth quarter so that the year's output rose to 11,400,000 units, about 1,400,000 above industry expectations. This year's production probably will equal that of 1949.

"TV receiver production in the first quarter likewise continued at the fourth quarter 1949 level and perhaps exceeded it. Industry estimates indicate that 4,500,000 or more television receivers will be manufactured this year, and an increasing number of these are being equipped with both AM and FM radio reception facilities.

"As manufacturers' dollar volume rises with TV set production, most set makers have increased their advertising budgets for 1950," Mr. Geddes concludes. "Many of them are using both radio and television to promote set sales. The present outlook is that the dollar volume of combined radio and TV receiver sales in 1950 will be the highest in the industry's history."

The advertising increases Mr. Geddes refers to do not show up strongly at the national level. RCA is the only radio-TV set manufacturer currently sponsoring a network program, *Screen Directors Playhouse*, Friday evening half-hour on NBC. Columbia Record-

ing Corp. sponsors *Record Parade* on behalf of its Long Playing records for a Sunday afternoon half-hour. Those two programs make up the entire network advertising of the radio-TV-musical instrument-record group at this time.

Hallicrafter Co. discontinued *Hollywood Quiz* in March after a 13-week run on MBS, and Muntz TV, which started *Rebuttal* as a 15-minute Sunday series on Mutual early this year, has also dropped out of network advertising for the time being. Radio and TV receivers are advertised on the network programs of General Electric Co. and Westinghouse Electric Corp., which are listed under the Household Equipment class as the major part of their advertising is

for home appliances.

Most of the advertising of this class is placed by dealers and distributors, either independently or in dealer groups, and a number of the manufacturers have cooperative advertising plans for sharing the cost of radio ads for their products with the dealers. General Electric Co. and Stewart-Warner Corp. are among the companies offering dealers such cooperative plans. Columbia Recording Corp. provides package script-and-record *Masterwork Hour* programs to stations for sponsorship by local record dealers. About 50 radio-TV and music stores sponsor network co-op shows locally and four use Transit Radio facilities.

RADIO-TV ROUNDUP

Bulletin Compiled by NAB

COMPENDIUM of basic facts on radio and television has been published by the NAB Dept. of Public Affairs. Titled "Dimensions of Radio and Television," the bulletin was mailed to the membership by Robert K. Richards, public affairs director.

Based on a roundup of information covering the electronic media, the material was assembled by the NAB Research Dept. under direction of Meryl Sullivan, assistant director. The material wraps up in one package the facts about circulation, sets, time sales, and related matters. Revised versions will be issued regularly to keep the bulletin up to date.

Class 19: Office Equipment

NETWORK advertising of office equipment, stationery and writing materials has fallen off badly the past two years. In 1947 gross network time sales to this group were \$4,230,989. In 1948 they declined to \$2,317,072 and last year fell off still further, to \$1,413,696. Both of last year's network clients from this class have continued their programs into the current year.

In the spot field the picture is no more cheerful. Jos. Dixon Crucible Co., advertising for Dixon Ticonderoga Pencils, is the only account from this class reported by

Rorabaugh as active in February, using announcements on three stations, compared with 15 stations

the year before at that time.

At the local level, a dozen stationers and office supply concerns

sponsor network co-op shows and five such concerns use Transit Radio.

Class 20: Publishing & Media

THE PUBLISHING industry, never a major user of radio time in its advertising, showed no signs of becoming one during 1949. Network billings of this group, which had declined 33% from 1947 to 1948, fell 37% in 1949. The ABC quarter-hour weekly program for *Christian Science Monitor* was the only network program in this class which continued through the complete year.

William H. Wise Co. during 1949 ran a number of network campaigns for *Handy Man* and *How To Get More Out of Life* and is currently promoting the latter volume with Saturday and Sunday afternoon half-hours on CBS and a Sunday evening quarter-hour on ABC. Doubleday & Co. embarked on extensive network advertising for a number of its books during the fall on short-time contracts with frequent changes of the books advertised. Currently Doubleday has two consecutive 15-minute programs on NBC Sunday afternoon and another pair of back-to-back quarter-hours on CBS, also Sunday afternoons. A similar two-program 30-minute series on ABC was broadcast following that network's opera programs on Saturdays and ended with the conclusion of the 1949-50 opera season.

Omnibook Inc., which sponsored Robert St. John in a special one-time quarter-hour on ABC March 5 as a test, may use network radio on a regular basis in addition to its extensive spot radio campaigns. Sears, Roebuck & Co. is considering a national spot campaign for *American People's Encyclopedia*, probably using dramatized announcements.

Among magazine publishers, Curtis Publishing Co. uses programs and announcements on a wide scale for *Saturday Evening Post*, *Ladies Home Journal* and *Holiday*. Announcements and participations have also been used for *Newsweek* and *Quick* in recent months and Time Inc. has been considering a spot campaign of 5-, 10- and 15-

minute news programs for *Life*.

A number of newspapers use radio promotion in their localities, about 40 currently sponsoring local broadcasts of network cooperative programs, of which Mutual's *Meet the Press* is the top favorite with newspaper publishers, having 18 of them among its sponsors. Five publishers use Transit Radio facilities.

WKNA Increases Power

WKNA Charleston, W. Va., owned and operated by Joe L. Smith Inc., went on the air March 23 with increased power of 5 kw. Broadcasting on 950 kc, the ABC affiliate formerly operated on power of 1 kw.

WOW

HAS 100,000 MORE LISTENING FAMILIES EVERY DAY

ouncements on 30 stations in addition.

Other recent insurance advertis-

ing on the air includes broadcasts of the U. of Minnesota's basketball games on KDHL Faribault, Minn., sponsored by Federated Mutual Insurance Co.; a *Student Forum for Society* contest on three North Carolina stations sponsored by

American Mutual Liability Insurance Co. of Boston; Prudential's weekly 15-minute program on WNJR Newark, and W. A. Alexander Co.'s quarter-hour a week on WGN Chicago.

At the local level, some 35 insurance companies or brokers sponsored local broadcasts of network co-op programs, with seven insurance advertisers using Transit Radio facilities.

Class 18:

MAJOR WATCH manufacturers, whose purchase of spot radio time—chiefly station breaks for time signals—makes up most of radio's revenue from the jewelry trade, will continue their radio operations this year on about the same level as last, according to indications in the early months of 1950.

Bulova's 1950 budget calls for an expenditure of some \$4 million for radio and TV time, \$500,000 more than last year.

Benrus expects to spend about \$1 million for radio, slightly less than in 1949. Gruen plans to continue radio in major market on about last year's level. Waltham, forced to shut down when its funds were halted by the Reconstruction Finance Corp. which loaned the company some \$3.8 million last year, is presenting its new reorganization plans to a Federal Court in Boston this week and expects to resume its use of radio on an expanded basis as soon as it gets production of watches under way again.

The distribution of GI insurance dividends is expected to boom sales of all types of jewelry and if Congress should repeal the wartime excise taxes on this merchandise the industry would receive a further boon which it may be expected to promote with increased advertising expenditures all down the line.

Programs Have Changed

The network programs of this group have undergone a good many changes since the end of the year. Waltham Watch Co., only network account of this group not listed in the table, started *Share the Wealth* as a 25-minute Monday evening series on ABC in October, spending \$48,813 for time to the end of the year, but was forced to cancel the

program in January by reorganization difficulties.

Longines-Wittnauer Watch Co. discontinued its two CBS Sunday afternoon half-hour programs—*Symphonette* and *The Choraliers*—in December, but reinstated them to the same network on the same day, as of yesterday (April 16). Helbros Watch Co., which last fall resumed sponsorship of *Quick as a Flash* on Mutual after a summer hiatus, at the end of December shifted from that program and network to *Richard Diamond, Private Detective* on NBC. Helbros' plan had been to sponsor this program during the spring, lay off for the summer and return in the

fall, but it cancelled those plans when it learned that NBC had sold the program to Rexall Drug Co. for the summer months. Expected back in network radio shortly, Helbros in January contracted for 35,000 announcements a year—just under 100 a day — on XELO Juarez, Mexico.

Speidel Corp. and Bruner-Ritter Inc. are continuing their Sunday evening programs on ABC for their respective brands of watchbands, Speidel sponsoring 15 minutes of *Stop the Music* and Bruner-Ritter sponsoring the half-hour *Chance of a Lifetime*. Gruen Watch Co. is out of network radio at the moment, having dropped sponsorship of NBC's *Hollywood Calling* at the end of the Christmas buying season. Revere Camera Co. in February withdrew its sponsorship of *A Date With Judy* on ABC.

NAB By-Laws Amended

AMENDMENT to the NAB by-laws permitting the president to make employment contracts for staff personnel up to periods of three years, with board approval, has been approved by the membership. Heretofore contracts had been limited by the by-laws to one-year periods. Of a total of 851 votes, 819 were in favor with 22 opposed. Ten ballots were void. At its February meeting the board had approved the referendum proposal.

"The retailer absorbs the major part of the cost of advertising," BAB pointed out in its recent report on the jewelry trade and its advertising practices, which notes that "most silverware and watch manufacturers allow a dealer discount of 40% with an additional 10% allowance for advertising."

"Today, the average cash jeweler spends from 3% to 4% of his gross sales on advertising," BAB reported. "The credit jeweler's appropriation runs as high as 9% but averages about 5.5%." BAB noted that this 5.5% is divided as follows: 3.70% of gross sales goes for newspaper advertising, 2.24% for direct mail, 1.72% for miscellaneous advertising and only 0.92% for radio.

A moderate amount of local advertising for jewelry and allied products is indicated by the current sponsorship of network co-op shows by about 30 dealers in such merchandise. This class also accounts for more than 20 advertisers on Transit Radio in the various cities served by this medium.

Advertising Stays... Where It Pays!

10 Years Or More For 1 Out Of 4

A check of WNAX non-network accounts for January, 1950, showed that 27% of these advertisers were using WNAX in 1940. Blue chip business, this 27% of our list accounted for 39% of our total billings.

Advertisers who demand results renew their WNAX schedules year after year because they consistently get a greater return on each advertising dollar invested in Big Aggie Land.

A *major market*, Big Aggie Land embraces Minnesota, the Dakotas, Nebraska and Iowa; the world's richest agricultural area . . . served *only* by WNAX.

In 1948, folks in Big Aggie Land enjoyed a buying income of \$4,547,025,000.00 — greater than Los Angeles, Philadelphia, or Washington, D.C. Retail sales in Big Aggie Land total \$3,397,461,000.00 — greater than San Francisco, Detroit or St. Louis.*

Convert your SALES POTENTIAL into SALES RESULTS. Ask your Katz man to show you how WNAX can produce good will, increase sales of your product or service.

YANKTON-SIOUX CITY • **AFFILIATED WITH THE AMERICAN BROADCASTING CO.**

TWO INSTITUTIONAL campaigns—U. S. Steel's sponsorship of *Theatre Guild on the Air* and duPont's sponsorship of *Cavalcade of America*—in 1949 as in previous years made up practically all of the use of radio time by members of this class. Largely because of U. S. Steel's summer series in place of its usual summer hiatus, network time sales to this group rose nearly 25% last year. Inland Steel's one-time broadcast on the steel strike is not likely to be repeated.

The only other advertising from this group on the air is Union Carbide & Carbon Corp., which in February began using announcements for its bakelite division on KMA Shenandoah, Iowa, and two dealer cooperative announcement campaigns announced by Truscon Steel Co. and Wisconsin Motor Corp.

pace of additions to life insurance programs, American families owned a record \$213,400,000,000 of life insurance at the end of 1949. This is just twice the total owned only 12 years before — meaning that as much has been added in these 12 years as was built up in the preceding 100 years.

"Four out of five families now own life insurance—with an average of more than four policies per family. There are now 191 million policies owned in the U. S.

"In spite of the large volume of life insurance outstanding today and the widespread ownership of it, there is still room for material further growth—evidenced by the average ownership per family of only about \$6,000," Mr. Johnson states. "In view of this, it is probable that the coming year will see a still further expansion of life insurance, with new peaks attained. Furthermore, this growth may well be expected to continue for some years to come."

Insurance advertising on the national networks has not kept

pace with the volume of insurance business. On the contrary, it dropped by about 10% last year and seems slated for a further decline in 1950, Prudential having discontinued its *Family of Stars* the end of February. California Medical Assn.'s *California Caravan*

is now broadcast on Don Lee for a half-hour each Sunday.

The *Jack Berch Show*, *This Is Your FBI* and Metropolitan's network newscasts continue, with Metropolitan also continuing a heavy schedule of news and an-

February 20, 1950

Mr. Ed. Gerken
WGN, Inc.
220 E. 42 St.
New York City

Dear Ed:

The time has come to congratulate WGN for the sterling job the station has done for many of our clients during the past few years.

Recently, for one of our clients, we offered a book costing \$2.95. WGN pulled over 1200 orders from one broadcast or about \$3600 worth of business—at an advertising cost of about 16¢ per order! This is a phenomenal record and the station deserves to be congratulated for such a very fine job.

You may rest assured that there is never any hesitation in recommending WGN to any client as one of the top stations in the country in view of the vast audience potential and proven selling power witnessed by us.

Cordially,

Lucille Dreher

paigns in their service areas.

Network sponsors in this class last year, in addition to those shown in the table, were: Club Aluminum Products Co. (household utensils), sponsoring *Club Time*, a daytime quarter-hour a week on ABC (spending \$143,352 for time at gross rates); Modglin Co. (Perma brooms), *Meet the Missus*, weekly quarter-hour on CBS Pacific January-March (\$7,997); Radio Offer Co., pre-Christmas campaign for its plastic products and toys, using a schedule on ABC that began with a weekly quarter-hour in September, William Lang show, and built up to 2½ hours a week in December, *Romantic Song Shop*, *Pick a Date*, *Shoppers Special* (\$78,928); Servel Inc. (gas refrigerators), *What's My Name?*, ABC Saturday half-hour February-July (\$130,544); Stanley Home Products (Kitchen Equipment), two one-timers on ABC, Choral Festival in May and Boys' Town Choir in December (\$130,544).

Philco's *Breakfast Club* and Seeman Brothers' two news shows are continuing on the networks, but Westinghouse has discontinued Ted Malone's five-minute program across the board on ABC. Company is considering using him at another time, however, probably on the same network. GE's Hotpoint Division is planning another special program on Mother's Day (May 14) on CBS 5-6 p.m. Gulf Oil Corp. planning a summer campaign for Gulf Spray insecticide, will reportedly sponsor the *Lanny Ross Show* on MBS five noontime half-hours a week, starting in May.

Hudson Pulp & Paper Co. advertises its paper napkins with announcements on Yankee Network participating programs, programs and announcements on other Eastern stations, using 36 in all; McCormick & Co. (Bee Brand insect powder) started an announcement campaign in Southern markets April 1; Modglin Co. advertising to be handled by Compton Adv.

after June 1 and company may use radio this summer; O'Keefe & Merritt Co. (gas ranges) uses spots on year-round basis on some 30 stations in California; Socony-Vacuum Oil Co. promotes Bug-a-Boo insecticide as well as Mobilgas and Mobiloil on six stations, using from three to 26 programs a week per station; Southern Appliances Inc. uses stations in North and South Carolina; Standard Vacuum Cleaner Co. uses stations in Northern California.

General Electric Co. has ar-

ranged for announcements for electric fans, to be broadcast by more than 80 stations on the third day of the first protracted heat wave in each area. GE distributors and dealers are heavy users of radio time for appliance advertising on a local or regional basis throughout the country, both independently and in cooperation with the parent company.

Nineteen Hundred Corp. (Kenway appliances), American Coolair Corp. (ventilating fans), Carrier Corp. (air conditioners, food

freezers, etc.), Lesson Steel Products (Presteline Home Appliances), A. O. Smith Corp. (water heaters) and York-Shipley Inc. (heating equipment) are among the appliance companies currently offering to share the cost of radio advertising of their products with dealers and distributors who buy time in their trade areas.

Heavy users of local radio time, more than 50 appliance dealers sponsor network co-op shows in their communities and 16 use Transit Radio facilities.

* BROADCASTING estimate

THE LOCAL DEALER is the big advertiser in the home furnishing field, in radio as in other media. This class of advertisers at present includes only two network clients, a very few spot accounts, but more than 125 sponsors of network co-op shows on local stations and 21 users of Transit Radio time, indicating that the total number of furniture dealers using radio probably runs into the thousands.

Armstrong Cork Co. continues its *Theatre of Today* on CBS and Sealy Inc. its newscast on a CBS Pacific hookup to make up the network complement of home furnishings advertising. Sealy this month will start a spot campaign for its new orthopedic mattress, with announcements and station breaks to be released to 29 factories for sponsorship in their territories.

Pequot Mills started participations in *Housewives Protective League* the day after Christmas on CBS stations in New York, Chicago, Los Angeles and San Francisco, plus a quarter-hour news program on WHO Des Moines and

participations on WTIC Hartford. Company may use an expanded spot campaign for June bride promotion. F. Schumacher & Co. has been using announcements on two New York stations for Waverly home-furnishing fabrics.

MASS HYSTERIA DEFENSE

Radio Best Weapon in Emergency, Says Karst

MOBILIZATION of all communications, particularly transit radio and other elements of broadcasting, would constitute the "best defense" against mass hysteria in times of emergency, Rep. Raymond W. Karst (D-Mo.) told House colleagues March 31.

Simultaneously he took occasion to praise the *Union Labor Advocate*, and AFL organ, for its story pointing out the useful purpose which transit radio can serve in civil defense planning. The *Advocate* had printed a survey of streetcar and bus riders indicating overwhelming approval for the radio service.

Citing the famed Orson Welles "men from Mars" show some years ago, Karst noted feeling of many Senate members that mass hysteria could do more damage to America's war-making potential than bombs dropped in an atomic attack. "Only through communications can people be warned and fears dispelled," he added.

Concerning the labor poll, officials of the Electrical Workers Local No. 1 (AFL) thought the

"present newspaper uproar over the merits of transit radio . . . not only rather silly but not in accord with the opinion and feelings of the riding public," according to the *Advocate*.

Frank W. Jacobs, EW business manager, pointed out that transit radio can serve to discount "possible false rumors" and advise the public promptly of major happenings. He characterized the scattered attacks on the service as a "tempest in a teapot—a cracked pot, at that," according to the *Advocate*.

FCC Office Move

ENTIRE FCC Office of Chief Accountant has been moved from quarters in temporary buildings in Washington and relocated in the New Post Office Bldg. there, the Commission headquarters. Employees presently engaged in broadcast accounting, economic and statistical work are to remain under William J. Norfleet, chief accountant, until reassigned under FCC's proposed functional realignment of operation.

YOU MIGHT FLY NON-STOP AROUND THE WORLD*—

BUT . . .

YOU NEED WKZO-WJEF TO REALLY BOMBARD WESTERN MICHIGAN!

If you really want "air-coverage" of Western Michigan, WKZO, Kalamazoo, and WJEF, Grand Rapids are by long odds the best "weapons" you can use.

First, BMB and mail-pull figures prove that both these CBS stations deliver exceptionally large rural audiences throughout the rich Western part of the State.

Second, Hoopers prove the superiority of WKZO-WJEF within Kalamazoo and Grand Rapids. Latest figures show that WKZO tops

all other stations in its area with a 58.8% Share of Audience and WJEF is first among eight Grand Rapids stations with 26.9% (Total Rated Periods, Jan.—Feb. '50).

While delivering about 66.1% more listeners than the next-best two-station choice in the area, WKZO-WJEF are available at a cost that's 20% less than the next-best combination!

Get all the facts about WKZO-WJEF. You'll be glad you did!

**The United States Air Force did it in February, 1949.*

BOTH OWNED AND OPERATED BY

Gasoline

(Continued from page 94)

stations and weekly half-hours on two; Shell Oil Co., with 5-, 10- and 15-minute spots three to 12 times a week on 44 stations; Standard Oil Co. of Indiana using programs, mainly quarter-hours, six times a week, on 28 stations; Texas Co., using five to 17 quarter-hour pro-

grams a week on 20 stations.

Many football broadcasts throughout the nation last fall advertised various brands of gasolines and motor oils. Sponsors of gridiron broadcasts included Atlantic Refining Corp., Tide Water Associated Oil Co., using Don Lee Network and individual stations as well as CBS Pacific, Amoco Dealers, Cities Service Co., Ethyl Corp., Sinclair Dealers, Standard Oil of

Indiana, with a schedule including games of the universities of Colorado, Michigan, Iowa, Minnesota and Nebraska, as well as the games of the Chicago Bears, pro football team, and Standard Oil of Ohio.

Union Oil Co. in February launched a \$200,000 52-week spot campaign, using eight to 10 chain-breaks a week on 45 stations in 26 Western states. In March, Pan-X Co. began a six-month na-

tional spot campaign in 20 major markets for its new liquid cooking agent. Phillips Petroleum Co. is considering a spot campaign to augment its new *Rex Allen Show* on CBS.

Many local gas and oil dealers and dealer groups use radio programs and announcements for their products, currently including some 35 sponsors of local broadcasts of network co-op shows.

Class 13:

FERRY-MORSE SEED CO. resumed sponsorship of *Garden Gate* on CBS on Jan. 21 for an 18-week campaign, ensuring this category an entry in its 1950 table of national network advertisers.

A second network entry appeared in March, when California Spray Chemical Co. extended its *Gillespie Garden Guide* from KFRC San Francisco to the full Don Lee Network under a 13-week contract for three quarter-hours a week.

United Florists Trade Assn. resumed radio activity in February, using eight announcements a week on WCBS New York.

Most advertising of flowers, seeds and plants is on the local level. A limited number of florists and nurseries use network co-op programs and seven advertisers in this group are among the users of Transit Radio facilities.

Class 14: Household Equip.

BACK TO SELLING is the theme of the electric appliance industry for 1950. C. T. Lawson, president, National Electrical Manufacturers Assn., stated in his year-end message. He noted that despite a general business recession early in 1949 and coal and steel strikes later last year, the year's production of the electrical manufacturing industry had totaled \$7 billion, compared with \$7.75 billion in 1948, best peacetime year on record. More than four million electric refrigerators, three million washing machines and nearly three million vacuum cleaners, more than a million electric ranges, plus

millions of electric irons, toasters and other appliances were sold during the year.

Reports on the first quarter of 1950 indicate that this year may be better than last for the electric appliances which make up the larger part of this class. Philco reports air conditioner sales in the first three months of 1950 topping the like period of 1949 by 50%; sales of Lewyt vacuum cleaners for the quarter were more than double those in the first quarter of last year. Spokesmen of the major manufacturers in this field are unanimous that the 1950 outlook is good, but they also agree that it

will take strong selling, backed up by strong merchandising and advertising programs, to keep sales at their present high level.

That's good news for radio, for this class of manufacturer has always been a major user of time on the air. Last year this group ranked third in its purchase of network time among the 28 product classifications, accounting for 12.6% of all network time purchases. This class also makes use of a lot of stations on a spot or local basis, with many appliance dealers and dealer associations running year-round radio cam-

Foods

(Continued from page 88)

General Mills uses about 50 stations, mostly station breaks, for Bisquick and Wheaties. Kroger Co. sponsors quarter-hour programs five days a week, using 21 stations for Kroger Bread, 28 for Hot-Dated Coffee.

Continental Baking Co., one of the most consistent spot users, has

five announcements a week on 64 stations for Hostess Cakes and three to 17 announcements weekly on 117 stations for Wonder Bread. Ward Baking Co. is also a regular user of spot radio for Tip-Top Bread, currently placing announcements and 15-minute programs on 113 stations. Breyer Ice Cream Co. uses announcements on 21 stations; Swift & Co. promotes its ice cream with announcements on 71 stations.

Radio is widely used by bakers throughout the country in local and regional campaigns of announcements and programs, with Ziv's *Cisco Kid* the favorite vehicle of this group.

Best Foods Inc. uses spot for its various products, its largest February campaign being announcements for Nucoa on 25 stations. Miami Margarine Co. also uses announcements on about that number

of stations for its Nu-Maid margarine.

Because of space limitations only food campaigns on more than 20 stations have been listed; actually, there are scores of national and regional spot and hundreds of local radio campaigns for food products, the local group including 95 sponsors of network co-op shows and nearly 60 who use the facilities of Transit Radio.

Class 12:

PRODUCTION of motor fuel hit a new high of 960 million barrels in 1949, an increase of 38 million barrels over the preceding year. Despite comparatively warm weather in the first and last quarters of the year which reduced consumption of fuel oil and a continuing average decline in exports of 40,000 barrels a day, the increased domestic demand for motor fuel kept the year's total petroleum consumption, including exports, at the rate of 6,105,000 barrels a day, only slightly behind the all-time high of 6,129,000 barrels a day in 1948.

In short, the motorist is a very important person to the petroleum industry which may be counted on to do everything it can to persuade him to use his car as often and to drive it as far as his leisure will permit. The use of radio is one

of the most effective ways of doing this job, as many oil companies have learned, and the indication is that the industry will use even more radio time in the months ahead.

Last year's network gas, oil and coal advertisers, in addition to the six leaders shown in the table, included: Delaware & Hudson Co. (coal), sponsoring *D & H Miners* in a 15-minute Sunday series on NBC (spending \$49,088 before discounts for time); Glen Alden Coal Co., *The Shadow*, MBS Sunday half-hour, January-June, September-December (\$83,696); Pacific Western Oil Corp. (Skelly gas and oil), Alex Drier's newscasts, Monday through Friday, and *This Farming Business* on Saturdays, six quarter-hours a week on NBC (\$187,800); Phillips Petroleum Co. (gas and oil), *National Barn Dance*, weekly half-hour on NBC March-December (\$202,341); Richfield Oil Corp. (gas and oil), *Richfield Reporter*, ABC Pacific, two quarter-hours a week (\$324,724); Sinclair Oil Co. (gas and oil), *Richfield Sports Reporter*, September-December, Saturday quarter-hour on ABC (\$41,015); Socony-Vacuum Oil Co., one-time ABC broadcast of dedication of new General Petroleum Bldg. (\$1,050); Standard Oil Co. of California (petroleum products), *The Whistler*, CBS Western Sunday half-

hour (\$75,804); *Standard School Broadcast*, weekly half-hour on NBC Western January-April, September-December (\$28,335), *Standard Hour*, Sunday hour on NBC Western (\$164,060); Standard Oil Co. of Indiana (Amoco gas, oil, tires), *Carnegie Hall*, ABC weekly half-hour (\$393,686); Tide Water Associated Oil Co. (gas and oil), football games on CBS Pacific September-November (\$35,076).

New Network Business

New network business from this group this year includes: Phillips Petroleum Co., which on March 17 started *Rex Allen Show* on CBS as a Friday half-hour; Sinclair Oil Co. (Richfield Oil Co. of New York Div.), to start *Escape* on CBS in the half-hour following Rex Allen on April 21. Phillips has discontinued its sponsorship of *National Barn Dance* on NBC. Standard Oil Co. of California in addition to the network shows listed above, sponsors *Let George Do It* for a weekly half-hour on Don Lee. Esso Standard Oil Co. is starting a new CBS series starring Alan Young.

Atlantic Refining Co., concentrating on sports broadcasts in its radio gas and oil advertising, used more than 130 stations at the peak of last fall's football season and is now entering the largest baseball coverage in 15 consecutive years of sponsoring ball game broadcasts. Atlantic's 1950 base-

ball radio schedule includes: New York Yankees on a 12-station regional hookup with P. Ballantine & Sons as co-sponsor; Philadelphia Athletics on WIBG Philadelphia and an Eastern Pennsylvania hookup; Philadelphia Phillies, alternating sponsorship with Supplee-Sealtest and P. Ballantine & Sons, on WPEN Philadelphia; Pittsburgh Pirates on WWSW Pittsburgh and a 20-station hookup in Western Pennsylvania, with Rieck-McJunkin Dairy Co. as co-sponsor; Boston Red Sox and Braves on WHDH Boston, sharing sponsorship with Narragansett Brewing Co.; Baltimore Orioles on WITH Baltimore, with Gunther Brewing Co. as co-sponsor; Saturday afternoon reconstructions of the major league "game of the week" on three Virginia stations—WRNL Richmond, WBTM Danville, WSLS Roanoke.

What sports are to Atlantic, news is to Esso Standard Oil Co. which sponsors 12 to 24 five-minute newscasts a week year in and year out on 42 stations from Maine to the Gulf, where the sponsor's products are sold. Another major spot radio account is Mid-Continent Petroleum Corp., which spends about \$300,000 a year with 50 stations in 15 states.

Other leading spot advertisers in this group include Phillips Petroleum Corp., using quarter-hour three to six times a week on 20

NAB's Hidden Issue

IN PRECEDING pages of this issue (our 19th NAB convention number) there are stories and statements and pictorial displays about the 28th annual meeting of the NAB. You are regaled with facts and features on this top-level management conference dedicated to the vital role of radio-TV media in this teeming world.

All true. All significant. Delegates are, or should be, impressed. Radio's role in the last war lies green on their memories. Competition is rigorous. TV is their oyster or their adversary. The road ahead is far from rosy, sometimes frightening.

Yet every thinking broadcaster knows the real issue is not on the formal agenda. That issue, in unvarnished words, is whether there will be an NAB worthy of the name to hold a convention next year.

Occult vision isn't needed to detect this. The resignation tide has brought deficit-spending. Networks talk resignation but hold off pending the outcome of this meeting. Many stations are of the same mind, but do not want to jump the gun, or perhaps flush a stampede.

In such a situation, strong medicine is needed. Do all broadcasters and telecasters understand the functions of a trade association? Do they appreciate the utter futility of attempting to satisfy the diversified elements of their art on all counts all of the time? Do they recognize that the radio pursuits are unique because they exist by sufferance of a Government license? Do they contemplate the dire consequences of internecine strife which inevitably follows disorganization?

Every healthy art, industry or profession has a trade organization. The doctors, lawyers, magazines, newspapers, butchers, morticians. When a majority of membership is dissatisfied with policy or management, the order is changed. The association survives.

So it should be with the NAB.

It hasn't been working that way. The crisis has been developing by attrition. Resignation of the networks (and their owned-and-operated stations) would place the NAB in jeopardy. If those stations talking resignation should make good their threats, NAB would fall apart.

No more serious blow could be visited upon American radio, short of Government control. Though we may be accused of gross exaggeration, we fear this *could be*. For out of radio anarchy could come a "nationalization" tidal wave. We are still in a state of "national emergency" hanging over from World War II. Government operation of radio is all around us in this world shrunk to the size of a man's hand by the very miracle of radio and its ether twin—air transport. We have a Government-operated "Voice of America." How long (or short) a haul is it to a domestic "Voice of the United States"? By the stroke of his pen the President can so decree under Section 303 (c) of the Communications Act of 1934.

The NAB board of directors cannot be unmindful of this foreboding prospect. Many broadcasters who deal in the collective "we", rather than the first person singular, must sense it also.

Provision has been made for a "general manager" of the NAB, to sit between the president and the headquarters staff. He would be empowered to take care of the material things, to run the NAB's headquarters staff, to hire and fire or konk heads when the team isn't performing. The appointment of a qualified gen-

eral manager (Bill Ryan of KFI Los Angeles is heavily supported) should do much to restore confidence in NAB's management.

At this convention there is the leadership to stem the tide of defection. The issue should be brought to the floor. It should not be allowed to fester. There should be affirmative action signaling a new era of strength and unity and singleness of purpose.

The text may be found in our own Bill of Rights. Does a citizen "resign" because he is out of sympathy with our President or our Congress? And if he "resigns" can he avoid paying his taxes?

Trigger-Happy Boys

NECESSITY, the sages say, is the mother of invention. No invention, however, is needed to handle the situation provoked by talk of "rate adjustments" in radio because of TV tune-in.

Procter & Gamble's Howard J. Morgens pulled no rabbits out of his timebuying hat in meeting the situation head on (BROADCASTING, April 10). He wants lower costs. Who doesn't on the buying end? As radio's biggest spender, P&G will use radio and TV to sell merchandise if they sell "as efficiently per dollar as other media."

That's all radio and TV can ask. Broadcasters have the job of proving that radio delivers the sales at costs lower than those of the competitive media. That is TV's job too. They are not selling exclusively against each other, as the trigger-happy boys foolishly have pegged it. They sell against all other media.

To say that there will be no rate adjustments henceforth is ostrich-like. There have been and always will be adjustments, although radio's curve from its start has been onward and upward—a phenomenon among media. TV is swishing across the firmament jet-propelled. To attempt to stop it would be as effective as the efforts of the printed media against radio two decades ago.

P&G's Morgens said his company won't be "panicked by any casual phrases such as one occasionally hears . . . that 'radio's through and television is taking its place.'" He emphasizes *timing* as the key factor.

Mr. Morgens poses the question. Radio must come up with the answer. NBC does it effectively in a current advertisement aptly labeled "A new suit of statistics for Uncle Sam." Adroitly tying its theme into the Census, it brings out that the census takers will re-discover the giant radio, 95% as big as America, with 40,700,000 radio families (as against 28,500,000 a decade ago); that 41% of them have more than one radio, and that more people are listening more to their radios today (it used to be 3½ hours of listening per day, as against 4 hours and 44 minutes now).

And, as if to hurl defiance at the trigger-happy boys, CBS-owned WCCO Minneapolis, with two TV stations in its immediate twin-city area, has announced rate "revisions" effective May 1—revisions upward during daytime hours.

Sure there will be rate adjustments. But not when radio has such unassailable statistics. And not when daytime radio is the world's best advertising bargain. And not when the total take of one weekly picture magazine exceeds the gross income of any single network operating 18 hours a day, seven days a week, delivering a hundred million circulation.

The facts are there. They must be told, and retold.

It's too bad the trigger-happy boys had to pop their cap-pistols. But after all, the value of a station's time can't be any greater than that which the management itself places on it. The manager should know best.

Our Respects To —

SYDNEY MILTON KAYE

IT IS A SOURCE of mild distress to Sydney Milton Kaye, one of the most kinetic personalities in or around the broadcasting business, that at times people have thought of him as having had only one job—being the guiding hand of Broadcast Music Inc., an organization of which he was principal architect and builder.

To Mr. Kaye, a life containing only one fulltime job would be a life of intellectual sloth. It may be stated with emphasis that he has spectacularly avoided such doldrums.

In the 20 years of his association with radio, Mr. Kaye has provided legal counsel for broadcasters, advertising agencies, talent, talent managers, and a number of industry committees in addition to serving for seven years as chief executive officer of BMI.

Although many of these divergent activities have been carried on simultaneously, they have by no means drained Mr. Kaye's energies. He has found time in recent years to become an expert, if amateur, agriculturalist, as the professional farmers of Cornwall Bridge, Conn., whom he supplied with vegetables when their own withered in last summer's drought, will embarrassingly testify.

Mr. Kaye's principal role in broadcasting has been as a lawyer, a profession that seized his fancy early in life. Born in New York Feb. 3, 1900, Mr. Kaye, at the age of 6, had already begun to admire the legal life. He has forgotten what motivated his juvenile interest, but whatever the cause, he played lawyer when other striplings his age were playing robbers or, possibly, cops. His early displays of pleadings before pretended bars so pleased his parents that, as Mr. Kaye put it recently, "I was committed irrevocably to the study of law."

After being graduated from Columbia College, New York, with a Bachelor of Arts degree in 1921, he entered Columbia Law School and received his legal diploma in 1923.

His first job as a fledgling lawyer was in the office of Arthur Garfield Hays, a militant champion of civil liberties. Mr. Kaye's service with Mr. Hays left a deep mark, and in later years the pupil was to enlist the services of the master in a number of cases, principally in the successful fight against a proposed FCC order to bar newspapers from owning radio stations.

The rewards of Mr. Kaye's work with Mr. Hays, as a young lawyer mostly occupied with writing briefs, ran more heavily to the intellectual than to the financial. As a means of bringing the two elements into more even

(Continued on page 180)

IN DETROIT...

Sales are made 24 hours a day

EVERY HOUR is rush hour in dynamic Detroit, be it 2 A. M., 1 P. M. or 12 midnight. Industry, of necessity, maintains continually changing shifts for each hour of every 24. As a result, millions of Detroiters on a variety of schedules, decide upon specific purchases at any and every second of the day and night.

The Fort Industry station, WJBK, like Detroit, is "open 24 hours a day." Detroiters keep their dials tuned to WJBK because of "custom-tailored" buyer's pulse programming and top flight personalities, planned to satisfy their listening tastes.

For the second straight year, WJBK is the key station for all Detroit Tiger baseball games . . . and folks hereabout love Tigers! Entertainers, for example, like America's No. 1 disc jockey, Jack the Bellboy; Bob Murphy, the tall boy in the third row; Joe and Ralph, early morning mirthmakers; and Malcolm Richards, newest addition to WJBK's glittering talent array, insure steady, loyal, responsive listening.

To get in on the continuous rush hour in Detroit, call your local Katz Agency man about WJBK. And remember, there are six other Fort Industry stations in six other important markets ready to do this same result-getting job for you.

THE FORT INDUSTRY COMPANY

KOMA

Outlet for The Columbia Broadcasting System

Can soft goods be sold by KOMA?

A few weeks ago a leading Oklahoma City department store ran a one minute spot over KOMA on sharply priced blue jeans. Although an effort was made to keep a direct check on response, the clerks were soon so busy they could not correctly tally all buyers reporting they had heard the spot on the air. But no other media was used—only the one spot over KOMA. Not only did the store sell enough blue jeans to make the cost of the KOMA spot approximately 2 percent of gross sales, but business throughout the department increased from between 45 and 50 percent over the same day a year previous.

Yes, soft goods CAN be sold by KOMA. KOMA has a complete copy and production staff to adequately service all types of accounts. And DIRECT RESULTS for our advertisers are our special pride.

Let us or Avery Knodel give you the complete picture of why KOMA is Oklahoma's best buy in radio.

Gillette Safety Razor Co. for Toni home permanent waves. This company has moved the five-day 25-minute *House Party* from ABC to CBS and has added Cedric Adams in a five-minute spot across the board on CBS to round out the half-hour. Pillsbury is also now sponsoring *It's Fun To Be Young* on CBS Pacific Network.

General Mills this year for the second time is sponsoring a special *Welcome Back Baseball* half-hour program starring Bing Crosby and Bob Hope, carried April 15 on CBS, April 16 on MBS and April 17 on ABC. GM is also considering adding Dave Garroway's new half-hour five-a-week morning program on NBC to its stable of network shows. Taking a tip from Ford, General Mills has arranged with NBC for sponsorship of six nighttime series during the summer season, from May 1 to Sept. 7.

Quaker Oats Co. is now sponsoring *Grady Cole and the Johnson Family* for a 15-minute weekly broadcast on a CBS network of 37 Southern stations, having completed a winter campaign for Mothers Oats on MBS, using a morning half-hour of *Man on the Farm*. Quaker continues the second half-hour of this Mutual program for its stock feeds (Class 1). Campbell Soup Co. is doubling its sponsorship of *Double or Nothing* on NBC May 1 by adding a morning half-hour five days a week to the present afternoon series, also sponsored by Campbell.

Food advertisers currently using time on the Don Lee regional network include: Interstate Bakeries, sponsoring *Cisco Kid* three half-hours a week for Weber's Bread; Langendorf United Bakeries, sponsoring *Red Ryder* two half-hours a

week; J. A. Folger & Co. (coffee), sponsoring Frank Hemingway's newscasts six quarter-hours a week; Golden State Co. (dairy products), *Count of Monte Cristo* Wednesday half-hour. Coast Fishing Co. has bought *Cisco Kid* series on Don Lee stations in Oregon and Washington.

The Borden Co., now out of network radio after discontinuing *County Fair* early this month, has launched a spot campaign in about 80 markets, sponsoring many station 15-minute and half-hour programs as well as maintaining a heavy announcement schedule. Borden for the past year has been using announcements for Starlac on 20 stations, including Yankee Network, plus less extensive campaigns for other products.

General Foods' Activity

General Foods Corp., which has been running announcements for Bird's Eye Frozen Foods on more than 100 stations, including Yankee Network, and on 19 stations for Swansdown cake flour, in February used 59 stations in a three-week announcement campaign for Swansdown instant cake mixes and this month is using stations in some 20 markets for Baker's 4-in-1 cocoa plus spots for Yuban on the East and West coasts. Lever Bros. Co. for Jelke's Good Luck margarine is starting announcements for six weeks on stations in 30 markets. Hygrade Food Products Corp. is readying a spot campaign in major markets.

Pillsbury Mills, in addition to its continuing use of programs and spots on some 30 stations, in March started a transcribed quarter-hour strip folk music program with Jack Hunt for Pillsbury's Best Flour on 40 stations, to run through May.

DUNVILLE REPLIES TO WCBC

Travis Hits WLW 'Incursions' on Ind. Market

OBJECTION by WCBC Anderson, Ind., to participation of WLW Cincinnati and other clear-channel outlets in the Indiana State Fair drew a sharp reply from Robert E. Dunville, president of Crosley Broadcasting Corp., after WCBC had made public its views.

William Travis, WCBC general manager, viewed "with disfavor what we consider to be continued incursions on the Indiana market by monopoly-minded operations such as yours." He voiced his position in a telegram sent to Mr. Dunville April 4 and then made public.

"In the future," Mr. Travis wired Mr. Dunville, "we intend to press the issue of clear-channel 'domination by intimidation and misrepresentation' and we shall press our own premise that WLW and others like you have no business trying to dominate regional and local areas already adequately served by their own stations."

Asked by BROADCASTING to state

WLW's position, Mr. Dunville reviewed the service obligation of clear-channel outlets. He denied a charge by Mr. Travis that WLW "misrepresented" its coverage in Indiana to timebuyers, tending to "discredit the effectiveness of Indiana's regionals." He cited Nielsen and BMB figures showing WLW circulation, adding, "With this circulation WLW must be supplying the type of programming that the people living in Madison County (Ind.) enjoy more than WCBC or WLW could never have this circulation."

Mr. Dunville said he did not care to comment on Mr. Travis' observations on the attitude of Indiana stations toward its coverage of the Indiana State Fair but said WLW had received reply wires "from almost every station in Indiana and our remarks might inadvertently involve other stations in Indiana in what well may become a very stupid discussion."

In recognition and appreciation of
outstanding public service in encouraging
promoting and developing American ideals
of freedom and for loyal devoted service to
the nation and to the community it serves

Radio Station WWJ

Detroit, Michigan
has been presented a

Radio Station Award
of

One Thousand Dollars

for the year

1949

by

The Committee of Awards
of the

purchases of network time by all advertisers in that year, more than half again as much as was used by any other class of network clients.

In addition to the six leading members of this class listed in the table, the network clients during 1949 included: American Bakeries Co., which in June started the *Lone Ranger* on ABC, three half-hours a week, spending \$134,154 for network time last year; American Meat Institute, sponsoring NBC's daytime *Fred Waring Program* two half-hours a week from January through July (\$230,684); Armour & Co., *Stars Over Hollywood*, Saturday half-hour on CBS (\$361,245); *Hint Hunt*, five quarter-hours a week on CBS, January-May (\$384,696); Borden Co., *County Fair*, CBS half-hour (\$670,739); Butler Packing Corp., *Newsweek Looks Ahead*, Sunday quarter-hour on ABC Western hookup, January-February (\$6,720); California Packing Corp., *Rocky Jordan*, Sunday half-hour on CBS in West, starting in August (\$34,458).

Carnation Co., *Contented Hour*, Saturday half-hour on NBC January-September (\$686,556) and CBS October-December (\$246,363), *Family Party*, Saturday quarter-hour, CBS, September-December (\$10,755), and for Albers Quick Oats, *Aunt Mary* on NBC Western hookup five quarter-hours a week (\$162,500); H. C. Cole Milling Co. (four), *Ernie Lee Show*, Sunday half-hour, MBS, January-June (\$27,795); Continental Baking Co., *Grand Slam* for five 15-minute periods a week on CBS (\$769,049),

and on the last Friday of the year celebrated its 25th birthday with *Rising Wonder*, evening half-hour on CBS (\$29,260); Cream of Wheat Corp., *Let's Pretend*, CBS, 25 minutes Saturday mornings (\$368,325); William Edris Co. (Dennison's Foods), Bob Garrod's newscasts on CBS Pacific, 10 minutes three times a week (\$47,727); Fisher Flouring Mills, *Afternoon Final*, five five-minute newscasts a week on ABC Western stations, January-March (\$13,330).

Network Activity

H. J. Heinz Co., starting *Ozzie & Harriet* on ABC as a Friday half-hour in October (\$214,224); George A. Hormel & Co., *Girl's Corps*, Saturday half-hour on MBS January-February (\$25,560), moved to ABC March-December (\$377,456), now broadcast Sunday; International Milling Co., three 15-minute segments of *Queen for a Day* on MBS January-April (\$30,740); Kellogg Co., *Mother Knows Best*, Saturday half-hour on NBC in West January-July, October-December (\$43,491); Langendorf United Bakeries, *Zeke Manners*, five quarter-hours a week on ABC Pacific May-December (\$43,968); Lever Bros. Co. (Spry), *Aunt Jenny*, CBS five-a-week 15-minute daytimer (\$1,043,831), and (Lipton's Tea, Soups) *Arthur Godfrey's Talent Scouts*, CBS Monday half-hour (\$657,959); Libby, McNeill & Libby, *My True Story*, ABC 25-minute serial, five times a week January-May, three times a week June-December (\$1,335,747).

Miami Margarine Co., sponsoring Mutual's *Queen for a Day* two

quarter-hours a week January-April (\$45,960); Minnesota Valley Canning Co., *Fred Waring Program*, Friday half-hour (now Saturday), NBC (\$425,258); Nalley's Inc., *Meet the Missus*, weekly quarter-hour on CBS Pacific March-May (\$7,347); National Dairy Products Corp., *Kraft Music Hall*, NBC half-hour January-September (\$583,672), (Sealtest Dairy Products), *Variety Theatre*, NBC half-hour January-July (\$247,664), *Dorothy Dix at Home*, quarter-hour five-a-week, NBC October-December (\$169,325). (Kraft Products), *Marriage for Two*, NBC, 15-minutes five times a week October-December (\$291,590), (Parkay), *Great Gildersleeve* (Archie Andrews during summer), NBC half-hour (\$850,443).

Pet Milk Co., Marv Lee Taylor, NRC half-hour (\$422,545). *Pet Milk Show*, also NBC half-hour (\$785,679); Pillsbury Mills, *Kay Kyser's College*, five quarter-hours on ABC January-July (\$587,758), *Houseparty*, 25 minutes five times a week, ABC September-December (\$453,736), Galen Drake, ABC, 15-minutes five times a week (\$1,005,362), *Grand Central Station*, CBS half-hour (\$412,875), *Surprise Package*, 15-minutes five times a week, ABC Pacific March-December (\$60,359), Bob Trout newscasts, NBC Sunday five-minute program January-March (\$21,021); Planters Nut & Chocolate Co., Elmer Peterson's newscasts, NBC Pacific, three quarter hours a week January-March (\$16,698).

Procter & Gamble Activity

Procter & Gamble Co. (Crisco), *Perry Mason*, five quarter-hours a week on CBS Pacific in January (\$7,815), *Young Dr. Malone*, five quarter-hours a week, CBS (\$599,-

784), *Road of Life*, five quarter-hours a week, NBC July-December (\$457,720); Ralston Purina Co. (cereals), *Tom Mix*, five quarter-hours a week, MBS January-June, September-December (\$836,879); P. J. Ritter Co. (various foods), *Betty Clark Sings*, Sunday quarter-hour on ABC (\$58,711); Roman Meal Co., *Pass the Buck*, CBS Western half-hour, March-June (\$27,066), *Night Editor*, CBS Western quarter-hour June-December (\$17,721); Rosefield Packing Co. (peanut butter), *Skippy Hollywood Theatre*, started in December as CBS half-hour (\$48,027).

Safeway Stores (Lucerne Milk), *Zeke Manners Show*, five 15-minute periods a week on ABC Pacific April-July (\$14,030), *Boston Blackie*, CBS half-hour September-December (\$10,976); Charles B. Silver & Sons (Red Cross, Silver Cross foods), *Take a Break*, MBS quarter-hour March-June \$4,096; Standard Brands (Tenderleaf Tea), *One Man's Family*, NBC half-hour January-April (\$182,172); Tex-O-Kan Flour Mills, *Light Crust Doughboys*, three quarter-hours a week on MBS starting September (\$449,570); Wander Co. (Ovaltine), *Captain Midnight*, MBS, five quarter-hours a week January-June, two half-hours September-December (\$387,136); Wesson Oil & Snowdrift Co., *Noah Webster Says*, NBC Pacific half-hour January-October (\$55,680).

New Programs

Since Jan. 1, 1950, Bowey's Inc. has begun sponsoring *Stars Over Hollywood* on MBS for 15 minutes Saturday. Kellogg Co. also has a new Mutual program, *Mark Trail*, three daytime quarter-hours a week, having discontinued its sponsorship of *Mother Knows Best* on CBS. Vacuum Foods Corp. (Minute Maid food products) has started Bing Crosby in a daytime 15-minute program broadcast weekly on CBS Pacific. Libby McNeill & Libby has canceled *My True Story* on ABC three days a week, these periods being picked up by Sterling Drug, which already sponsored the program two days a week.

General Foods, which last year gave network radio a large part of its overall advertising expenditures of \$30 million, expects to expand both the total amount and radio's share this year. So far this year this company has started sponsoring *Hopalong Cassidy* as a Sunday afternoon half-hour on MBS, has shifted two CBS programs—*My Favorite Husband* and *The Goldbergs*—from Friday to Sunday and Saturday, respectively, on the same network, and is considering sponsorship of the Brooklyn Dodgers Saturday afternoon ball games on CBS. GF already has contracted for daily broadcasts of the Dodgers on WMGM New York.

Pillsbury Mills has just begun sponsoring a quarter-hour of Arthur Godfrey's morning show on CBS on alternate days, picking up the period formerly sponsored by

(Continued on page 88)

On the Pacific Coast, about 14 million people spend 15½ billion dollars per year. Only Don Lee sells them where they live. And Don Lee sells them from their own local network stations with all the local selling influence enjoyed by such a station.

If you're selling Pacific Coast consumers (whether you're selling all or some), remember our specialized coverage. Use the *only* radio network especially designed for the Pacific Coast: DON LEE.

Don Lee Stations on Parade: KDB—SANTA BARBARA, CALIFORNIA

Since 1931, KDB has been a Don Lee affiliate, serving the rich Santa Barbara and Ventura areas. KDB is Santa Barbara's first station and also its most modern station—having recently completed its new facilities. KDB is a typical Don Lee station—one of 45 Don Lee Network stations strategically located to serve Pacific Coast people where they live and spend their money.

The Nation's Greatest Regional Network

THERE'S A SPECIAL COVERAGE PROBLEM ON THE PACIFIC COAST, TOO!

WE HAVE A SPECIAL PROBLEM out here on the West Coast because we're different—geographically and geologically. The Pacific Coast is a big area. It's broken up by mountains as high as 14,495 feet, and the marketing areas are far apart.

The great distances between markets, the mountains, the low ground conductivity—all make long-range broadcasting impractical. Yet Don Lee is the only network out here that does not rely on long-range broadcasting. Only Don Lee is especially designed for the Pacific Coast.

Only Don Lee offers a radio umbrella for each of 45 local markets—a local network outlet of the proper size to completely cover that market for the least possible amount of money.

Equally important, with Don Lee—and only with Don Lee—you can get radio coverage to meet specialized distribution requirements. You buy all or part of Don Lee's 45 stations to get coverage of all or part of 45 local marketing areas—with no waste.

LEWIS ALLEN WEISS, *Chairman of the Board* • WILLET H. BROWN, *President* • WARD D. INGRIM, *Vice-President in Charge of Sales*

Entertainment

(Continued from page 80)

as a motion picture company using a weekly program to promote all of its pictures, of the kind that are customary with radio's commercial clients for advertising their soaps and cigarettes.

The three entertainment advertisers who used network radio last year typify the way radio is used by their class. Each sponsored a one-time program advertising a specific production then being pre-

sented by the motion picture firm.

Recent spot campaigns have been of the same order. RKO Pictures in February ran two announcement campaigns for two new pictures, using 170 stations to urge listeners to see "Stromboli" and 38 stations on behalf of "The Outlaw." Eagle Lion Films that month publicized "Guilty of Treason" via the Yankee Network.

M-G-M plans to use radio for its new picture "Annie Get Your Gun" beginning May 1. Use of radio along the East Coast is also planned for this year by the At-

lantic City Racing Assn.

Consistent use of radio is found only at the local level, where some theatre managers sponsor regular campaigns of programs or announcements on their local stations to inform the public of their current pictures. The Long Theatres of Texas, for example, sponsor three of Mutual's co-op shows—Fulton Lewis, jr., Cedric Foster and *Tell Your Neighbor*—on KIOX Bay City, and also sponsors *Tell Your Neighbor* on KVIC Victoria.

With attendance at the movies steadily declining from its 1946

peak, even in non-TV cities, the motion picture producers and exhibitors are fervently seeking some way to keep the theatres filled. Dishes and such like premiums will no longer do the trick; to a public accustomed to the refrigerator and fur coat prizes of radio's giveaway shows such small time premiums are no attraction. Perhaps this industry is now ready to consider giving radio a chance to do for the movies what it has done so successfully for the products of other branches of American industry.

Class 11:

"TOTAL advertising expenditures by the food industry in 1950 probably will exceed those of last year," Paul S. Willis, president, Grocery Manufacturers of America, predicts in an exclusive statement for this issue of BROADCASTING.

Mr. Willis' statement presages more food advertising on the air during 1950. Food advertisers have always been the heaviest users of radio time and there are no signs that they are going to change that status in the months ahead. Plans so far announced or put into operation by such major advertisers as General Foods Corp., General Mills and Pillsbury Mills all call for increases in their already extensive use of radio in 1950.

Reporting on the state of the grocery industry, Mr. Willis says: "Sales of 89 representative grocery manufacturers whose products make up the average grocery basket indicate that 1949 dollar sales were about the same as in 1948. They were \$15.9 billion in 1948 and about \$15.4 billion in 1949. Industry-wise, it is estimated that total food store sales for 1949 were about \$30.2 billion as compared with \$30.5 billion in 1948. These small declines are due to lower prices rather than to decreased tonnage sales.

"Using these figures as a base, over-all food consumption in the United States in 1949, including food consumed on the farm and sold in public eating places, totaled about \$52 billion, also slightly below the 1948 figure. Preliminary reports indicate that food sales and consumption in the first quarter of 1950 are holding at about 1949 levels.

"Chief reasons for the continued public interest in good eating are the aggressive advertising and sales promotion campaigns staged by grocery manufacturers to maintain and stimulate that interest, plus the fact that more people had more money to spend and manufacturers introduced to them new and exciting products which are readily prepared in the kitchen and which help the homemaker to feed her family a variety of good nutritious foods.

"However, grocery manufac-

turers are fully aware that competition is getting keener daily and that increased sales can result only from extended and hard-hitting

advertising and merchandising campaigns. Therefore, total advertising expenditures will probably exceed those of last year."

The expenditures of the 41 food advertisers using network radio in 1949 represent 24.1% of the total (Continued on page 86)

Drugs

(Continued from page 78)

planned.

Dolcin Corp. likes regional networks for its proprietary advertising, currently sponsors three of Cecil Brown's early morning 15-minute newscasts, three quarter-hours of *Ladies First* and two 10-minute sessions of *The Answer Man* each week on Don Lee, plus three hours a week on Yankee, including three 15-minute newscasts, three quarter-hours of Marvin Miller's human interest stories, three 15-minute sessions of *Bill's Scrapbook*, the half-hour *Deems Taylor Concert* Sunday afternoons and *Hymn Singer* for 15 minutes Sunday evening.

Miles Labs sponsors two quarter-hour newscasts a day, Sunday through Friday on Don Lee, and also uses weekday announcements on more than 40 stations for Ner-vine. Knox Co. sponsors the Tuesday half-hour *Mystery Is My Hobby* on Don Lee and Lydia E. Pinkham Medicine Co. uses three quarter-hours of *Rise and Shine* on that network plus other programs and announcements on 87 stations in all, including the Don Lee outlets. Murine Co. promotes use of its eyewash for 15 minutes five mornings a week on Don Lee's *Breakfast Gang*, with American Home Products using 15 minutes of this show three times a week.

Mennen Buys

Mennen Co. has started sponsoring Frank Goss' newscasts three morning quarter-hours a week on CBS Pacific and is about to launch a spot campaign using about 100 women's programs to conduct a two-week contest in connection with its baby powder and the new rattle-box which was introduced with a radio campaign of 15-minute daily programs on 47 stations for 24 weeks.

Regular winter campaigns for cold remedies and the like were conducted by a number of companies, the larger campaigns including Musterole Co., using announcements on 70 stations; Seck & Kade (Pertussin), using announcements on more than 150 stations, including Yankee Network; Luden's Inc., using announcements on more than 90 stations for its cough drops; Scott & Bowne, with a widespread announcement campaign for Scott's Emulsion.

Pharmco Inc. is launching an intensive spring campaign for Feen-A-Mint; Emerson Drug Co. augments its network show with announcements for Bromo-Seltzer in some 25 markets; with numerous lesser drug campaigns either under way or being planned. Dictograph Products is conducting intensive announcement schedule on some 30 stations for its acousticon hearing aid.

Network co-op shows are sponsored by drug producers and retailers to the total of some 125, with Dolcin Corp. sponsoring MBS's *Behind the Story* on 73 stations. Transit Radio is used by 16 drug advertisers.

Class 10: Entertainment

THE producers of motion pictures and of theatrical attractions, the owners of circuses, carnivals, ice shows and other traveling attractions and the other entrepreneurs of the entertainment business have never been among radio's major

accounts. For the most part, their use of radio has been on a special short-term basis to advertise particular pictures, plays and productions. For the most part, too, such advertising has been placed on a local basis, preceding the appear-

ance of a movie or circus in a community and continuing for the duration of its stay. Radio's records reveal no recent examples of long-term consistent advertising campaigns from this group, such

WGAR... 50,000 watts... CBS

Represented Nationally by Edward Petry & Company

Consumer Service

(Continued from page 76)

shows roughly 100 banks who use these network shows to create business or for institutional promotion in their home communities. While this is a tremendous rise from the 146 banks who used radio in 1937, the BAB report shows that in recent years there has been a steady decline in the banks' use of this medium.

American Bankers Assn. in February completed its 1950 survey of bank advertising plans, which showed, according to John B. Mack Jr., director of the ABA Public Relations Council, that "total commercial bank expenditures in the United States for advertising purposes, excluding salaries, will approximate \$39 million in this year ahead. This is a slight falling off from the 1949 figure which was \$40 million."

"The decline in total expenditure," Mr. Mack observes, "will take place largely in small banks, specifically those under \$5 million in deposits. In this category are included approximately 75% of the total of 14,500 commercial banks in the country. Larger banks, on the other hand, plan to spend more during the coming year."

Of the 3,800 banks (more than 25% of the total commercial banks in the country) responding to the ABA survey, 862 said they would use radio this year. If this could be extended to the total, it would mean some 3,200 banks which plan to use radio, not counting mutual savings banks. Radio ranked fifth in number of banks reporting plans to use various media, with newspapers in first place, followed by window and lobby displays, direct mail and calendars.

Army Campaign

The U. S. Army and Army Air Force recruitment campaigns in the fiscal year beginning July 1 will expend some 40% of their total advertising appropriation of \$1,591,600 for radio-TV promotion. In addition, \$100,000 of the previous year's budget is being used for a spot campaign in 52 cities for the Army Reserve Program. Announcement that \$636,400 would be spent for radio-TV time and programs, more than for any other medium, followed a series of talks between high military officials and top executives of NAB and BAB, who instigated the conferences after numerous station protests against the Army's reported plans to ask broadcasters to donate time to the recruitment campaigns while buying space in printed media.

The list of network sponsors among Consumer Services for 1949 includes, in addition to those shown in the table, Budget Finance Plan, which sponsored *James Roosevelt Speaks* for a 15-minute Sunday evening period on an ABC Pacific Coast network, April through September, spending \$13,260 for network time, at gross rates. A new network advertiser this year is the American Federation of Labor, sponsoring *News by Frank Edwards* on MBS for 15-minutes,

* BROADCASTING estimate

Monday through Friday evenings.

Spot advertisers in this class include a number of telephone companies: Bell Telephone Co. of Pennsylvania, using announcements on 95 stations as well as Transit Radio; Illinois Bell Telephone Co., using announcements on 17 stations; Indiana Bell Telephone Co., announcements on 20 stations; Michigan Bell Telephone Co., spon-

soring three quarter-hours a week on 17 stations. Southwestern Public Service Co. last summer arranged for a special 14-station network in Texas, New Mexico and Oklahoma to carry its Sunday series, *Hymns of the World*. Other spot advertisers in this class include the Patricia Stevens Model School, using quarter-hour programs one to six times a week on 10 stations, and

the International Chiropractors Assn., more than 50 of whose member associations use the five-minute transcribed *Human Side of Hollywood* programs provided by ICA.

Most advertising of this class occurs at the local level, with more than 160 consumer service organizations sponsoring network co-op shows and some 40 using Transit Radio facilities.

Class 9:

... Drugs

REFLECTING a decline in drug store sales during 1949, drug product advertising on the nationwide radio networks fell off 6.7% from its 1948 dollar volume. This group of advertisers continued to represent a major source of network revenue, however, accounting for 11.2% of all sales of network time.

The 1950 outlook is encouraging, however. A number of new network campaigns, including two placed by Anahist Co. for its anti-histamine product, went on the air in the first quarter of 1950 and it is probable that these new cold and allergy remedies will help to swell network business later this year as well. Spot business from drug accounts is also more than maintaining last year's level.

The leading drug advertisers on the networks last year are shown in the accompanying table. Others were: Carter Products (Little Liver Pills, Arrid), sponsoring Jimmie Fidler's weekly quarter-hour column of Hollywood chatter on ABC (with gross time charges of \$385,558 during the year); Luden's Inc., advertising cough drops with *Sing It Again*, 15 minutes a week on CBS starting in November (\$58,024); Mennen Co. sponsoring three quarter-hour newscasts a week on a CBS Pacific

Coast hookup (\$70,068); Norwich Pharmacal Co. (Pepto-Bismol, Unguentine), *Fat Man*, ABC, 30 minutes a week (\$809,838); Pyridium Corp. (Anahist), in December picked up sponsorship of ABC's *Counterspy* for a weekly half-hour during Pepsi-Cola's hiatus (\$41,400).

Rhodes Backs Heatter

Rhodes Pharmacal Co. (Imdrin) in September began sponsoring Gabriel Heatter's 15-minute news commentaries twice weekly on MBS (\$174,292); Serutan Co. (Serutan, Nutrex, RDX) had two programs on Mutual during the first six months of 1949—two quarter-hours of Gabriel Heatter and five 15-minute periods of Victor H. Lindlahr a week (\$566,737), and in September started Mr. Lindlahr four times a week on ABC (\$218,140), changing to five times weekly after the first of the year; Smith Brothers (cough drops, cough syrup) sponsored a quarter-hour of *Stop the Music* on ABC, January-March and September-December (\$278,673); Vick Chemical used three 15-minute segments of *Meet the Missus* a week on CBS Pacific Network, January-March (\$15,792).

Anahist Co. early in January 1950 started two half-hour programs on Mutual, *The Falcon* on

Sunday, *True or False* on Saturday, to run through March. Miles Labs, continuing the network programs it sponsored last year, has added in 1950 *One Man's Family*, Sunday afternoon half-hour on NBC; Edwin C. Hill five-minute Monday-Friday newscasts on ABC; and *Ladies Fair* for 15 minutes on MBS five days a week. Sterling Drug Inc., since Jan. 1, has dropped *Lorenzo Jones* on NBC and cut its *Bride and Groom* broadcasts on ABC from a half-hour to 25 minutes, but has assumed sponsorship of a quarter-hour of *Sing It Again*, CBS Saturday night program, and on May 1 will add the Monday, Wednesday and Friday broadcasts of ABC's *My True Story*, 25-minute daily show, to the Tuesday and Thursday sessions it already sponsors.

Emerson Drug Co. next week (April 24) will replace *Inner Sanctum* with *Hollywood Star Playhouse* on CBS. Retail Drug Inc., which will no longer sponsor the Phil Harris-Alice Faye series after this spring, may buy *Richard Diamond, Private Detective* on a year-round basis instead of just for the summer as originally

(Continued on page 80)

To a Madison Avenue Time Buyer

with other things on his mind

975 miles west of you on U. S. 30 lies Iowa. Have you ever seen Iowa corn fields in late June? A New Englander, enjoying the experience for the first time, said they looked like "green corduroy." We, with a radio station to grind, prefer to think of them a short time later, when the green has turned into golden buying power. *Iowa's corn yield is the highest of all states.*

Have you ever heard the cry "sue-ee-e" bring ham-on-the-hoof to feeding troughs? In Iowa hog-calling is a fine art, and its practitioners hang their masterpieces in ever growing bank accounts. *Iowa produces more pork than any other state.*

Another sound that breaks the good clean air of Iowa is "here chick, chick, here chick." It means spending money to most Iowa farmwives. Poultry sums aren't chicken feed, either. *Iowa is the highest egg-producing state in the Union; the value of its poultry exceeds that of any other state.*

But you haven't time for more rural symphonies. Besides, agricultural Iowa is only half the story. Industrial Iowa accounts for almost half of the state's \$4 billion annual income of individuals.

Bill Quarton (WMT's g.m.) probably thinks this is already too long, but he's mighty fond of facts so maybe he (and you) will hold still for a couple of dillys. Practically every day Eastern Iowa's WMT talks to an army of 192,620 families. Their per capita income increased last year more than that of any other state. They have money to spend for everything from toothpicks to Cadillacs. They constitute a market worth reaching—and WMT reaches 'em.

Please ask the Katz man for additional data.

DAY & NIGHT

BASIC COLUMBIA NETWORK

Building Material

(Continued from page 75)

counts of this kind for the whole year of 1949 and of these only one was reported as active at the beginning of 1950, Martin Rosenberger Wallpaper Co., using announcements on 10 stations. Weather Seal, also active in 1949, late in January started a 15-minute morning show across the board

on two New Jersey stations, with plans to expand to a seven-station intrastate network.

Sapolin Paints Inc. in March began a spring spot campaign in five eastern cities. Muralo Co. also is planning a spring paint campaign, using programs and announcements in cities across the country.

Devoe & Reynolds offers its dealers a cooperative advertising plan whereby the company will stand half the cost of announcement campaigns up to 2% of the dealer's net annual purchases. Peaslee-Gaulbert Paint & Varnish Co., a division of Devoe & Reynolds, makes the same offer for announcements advertising Pee Gee paints. Wilbur & Williams Co. allows 2% of net purchases for distributors' advertising of the company's pro-

ductive coating products, in programs or announcements. More activity is indicated at the local level, with more than 125 dealers in building materials and the like sponsoring network programs in their communities. BAB is working with the National Assn. of Home Builders which plans for intensive promotion of its year radio program and hopes to make local radio an integral part of the program.

Class 7:

... Confectionary

"BECAUSE of continuing high ingredient, distribution and labor costs and resulting lower profits, curtailments in candy advertising budgets will probably be more likely in 1950 than any expansion in advertising programs," Philip P. Gott, president of the National Confectioners' Assn., points out in a statement prepared for this issue of BROADCASTING.

"Although candy sales for January 1950 show a slight decrease from January 1949, it is still expected that poundage for 1950 will be as large as 1949," Mr. Gott reports. "In 1949 the confectionary industry produced 2,650 million pounds of candy with a dollar volume at wholesale of \$986 million, according to the Dept. of Commerce."

Mr. Gott's prediction represents a reversal of the outlook of his industry since last December, when the trade paper *Candy Industry* reported a nationwide survey of candy manufacturers as revealing plans to produce in 1950 at least 10% more candy than in 1949 and to sell this record volume with the most vigorous sales and advertising drive in the industry's history.

Cites Advertising Results

That sales and advertising effort does pay off was illustrated by William Wrigley Jr. Co. which in 1949 achieved its highest net sales and net earnings. J. C. Cox, Wrigley president, told last month's stockholders' meeting: "As anticipated in our 1948 report, our selling program was expanded in 1949 and undoubtedly this was an important factor in attaining the great volume of sales." The Wrigley company is further expanding its use of radio in 1950 and has already started a second nationwide network program and a spot campaign in New England.

Network advertisers in this group in 1949, in addition to those listed in the table, included: Alberts Products Co. (soft drinks), sponsoring *Meet the Missus* 15 minutes a week on CBS Pacific Network, August - November (spending \$6,454 for time at gross rates); Green Spot (orangeade), *Detective of the Week*, ABC Pacific, five minutes a week, November-December (\$3,612), also *Surprise Package*, ABC Pacific, two quarter-hours a week, November-December (\$7,424). Green Spot also used five quarter-hours a week

of *Ladies First* on Don Lee network during 1949.

Luden's Inc. (candy), had *Strike It Rich*, CBS, half-hour a week, January-February (\$89,280); M&M Ltd. (candy), Joe Di Maggio, CBS, half-hour, September-December (\$38,084); Peter Paul Inc. (candy), Bob Garrod, CBS Pacific, three 10-minute and three 15-minute newscasts a week (\$114,256).

Brock Candy Co. early this month started *Brock Bar Ranch* as a CBS Saturday evening half-hour. M & M Ltd. last Saturday (April 15) dropped sponsorship of Joe Di Maggio's program and moved to NBC. Mars discontinued NBC's *Curtain Time* the end of March, taking the company out of network radio, but the departure is believed only temporary until its

new agency, Leo Burnett Co., has completed media plans.

Pepsi-Cola Co. has returned *David Harding, Counterspy* to ABC for two half-hours a week after a 10-week hiatus which this soft-drink company feels it can take more profitably in midwinter than during the normal summer layoff season. William Wrigley Jr. Co. has added *Life With Luigi*, CBS half-hour series.

Leading spot advertisers in this class include Clark Bros. Chewing Gum Co., using announcements on 20 stations with plans for expansion; Fanny Farmer Candy Shops, announcements on 16 stations; Hollywood Candy Co., programs and announcements on 26 stations; Ryan Candy Co., extensive spot campaign to introduce the new

Hopalong Cassidy Candy Bar; Pepsi-Cola Co., musical spots and programs in a widespread campaign; Peter Paul Inc. news in a number of markets. Coca Cola and Dr. Pepper in various areas use programs and announcements in appreciable quantity. Wm. Wrigley Jr. Co. is conducting a 11-week test program and announcement campaign on WNAC Boston with the idea of expanding to full Yankee Network. E. B. Washburn Corp. uses participation on *Yankee Network News Service* on 27 stations three days a week. Many candy and beverage companies use radio locally in a limited number of markets including 14 sponsors of network and the seven users of Transit Radio facilities.

* BROADCASTING estimate

Class 8: Consumer Service

HEADED by the United States Government, which will spend approximately three-quarters of a million dollars for broadcast time and programs in recruitment campaigns for the armed forces, this varied class of radio-advertisers

includes communications and public utility companies, banks, brokerage houses and other financial organizations, schools and colleges and other professional and business services. Banks represent the largest group

of consumer service advertisers on the air. BAB in a recent study of bank advertising found more than 2,000 banks currently using radio and an analysis of the sponsors of network cooperative programs (Continued on page 78)

Beer, Wine

(Continued from page 70)

network ranks with *Halls of Ivy*, half-hour weekly comedy-drama series, on 165 NBC stations.

More than 50 brewers use radio locally or with spot campaigns of less than 10 stations, including sponsors of network co-op shows and 17 Transit Radio clients. This total also comes from midwinter months and will probably be much larger by midsummer. Although small in number of stations used, some of these campaigns run into big expenditures, such as that of Liebmann Breweries, which spends some \$300,000 a year for 180 spots a week on six New York stations.

A number of vintners have been running campaigns for kosher wines, including Ganeles-Lenger Wine Co., with announcements on two New York stations; L'Chayim Kosher Wine, with a spot campaign in major markets across the country; Schapiro's Kosher Wines, announcements and programs on New York stations. Garrett & Co. is preparing a spring announcement campaign for Virginia Dare wines. Madera Wines are advertised via Transit Radio.

* BROADCASTING estimate

Source: Publishers Information Bureau

Hard liquor advertising, traditionally kept off the air by distillers for fear of arousing public sentiment on behalf of the dry forces who are always alert for any opportunity to bring back prohibition, seemed slated for a radio test last year when Schenley Distillers

Corp. sounded out the networks on a proposed campaign for its whiskeys. One network tentatively agreed to accept such advertising for a test run in the late evening hours and two others indicated that they would accept it, likewise on a test basis, for individual stations

but not at first for full network coverage. What might have happened had such advertising been broadcast is a matter for speculation, as Schenley at length decided not to go ahead with the idea and to use radio only for advertising its beer and wine products.

* BROADCASTING estimate

Source: Publishers Information Bureau

FRANK W. CORTRIGHT, executive vice president, National Assn. of Home Builders, in an exclusive statement to BROADCASTING, says:

"A quick look at what the home building industry is doing reveals two facts that shine out like neon lights:

"1. Last year's enormous production of 1,025,000 new homes and apartments started will be topped by 1950 'starts,' if builders and home buyers can obtain the necessary funds for home construction and purchase. 'Starts' in the first three months of 1950 exceeded comparable 1949 figures by nearly 100%, according to government figures.

"2. Prices of new homes are low enough that practically all income groups are finding well-equipped, well-designed, well-built residences at prices they can economically afford.

"These two factors, plus the fact that emergency housing needs have long since been satisfied, mean that builders are sharpening up their sales tools.

"There will be more competition this year than last for consumer housing dollars. As in any other

industry where competition is present, it is the buyer who benefits. The builder who sells in today's buyer-market can do it quickly only by producing a better house at a lower cost than his competitors.

"Builders are allotting more funds for advertising budgets than ever before, in order to compete in today's market. The bulk of such funds, of course, will go for newspaper classified and display advertising. Radio time salesmen have been slow to develop this field.

"It is up to the radio industry to show the builder or realtor how this medium can serve him in getting names of buyer-prospects on the dotted line of a sales contract. The market is there and the potential is enormous. But to the average operative builder, radio is still an undeveloped field.

"Reaction has ranged from very good to very bad in the radio-TV field—for home sales. But it is a field that will certainly bear watching.

"However, rates and results must be competitive with newspaper's if radio and TV is to win its place in the builders' advertising bud-

gets."

Despite the many new homes, about half of the country's non-farm dwellings are more than 30 years old, requiring repairs which last year cost homeowners \$7 billion, according to Minneapolis-Honeywell Regulator Co., which reported that in 1949 \$1.8 billion was spent for painting, \$1.7 billion for heating equipment, a billion for roofing, half a billion for carpentry, \$400 million for stone, clay and glass products, \$300 million for plumbing and \$280 million for papering.

Large Dollar Volume

Joseph F. Battley, president of the National Paint, Varnish & Lacquer Assn., in a statement to BROADCASTING, said: "For the third successive year, the dollar volume of the paint, varnish and lacquer industry exceeded the billion dollar mark in 1949. This is based on wholesale prices and represents a much higher figure at the retail level.

"The outlook for 1950 is most promising. The paint industry, as well as all others, must recognize the fact that high national income

does not insure a profitable business. Aggressive advertising and merchandising plans must be created to assure consumer purchases. Most of our industry members are aware of this and are maintaining advertising programs to make certain that the buying impetus established for the products of our industry shall be accelerated.

"If I were to give any particular advice, it would be to caution business in general not to take good business for granted, but to seek out the great potential markets of America and use every bit of ingenuity and intellect to sell them."

Mr. Battley's advice is well worth consideration by broadcasters, particularly when they look at the national advertising expenditures of the makers of building materials, equipment and fixtures. In 1949 only two members of this class used network time, both, incidentally, using the same network, Mutual, with whom they spent \$1,281,775 before discounts. The magazine space expenditures of this class in 1949 were \$17,817,118, nearly 14 times as great as its network total.

Benjamin Moore & Co. is again this spring running its *Your Home Beautiful* programs on Mutual, 15 minutes on Saturday mornings. Johns-Manville Corp. continues its five-minute nightly newscasts on that network.

Complete information is not available for spot radio expenditures of this class, but what there is does not indicate a great amount of revenue for broadcasters. The *Rorabaugh Reports on Spot Radio Advertising* show only a dozen ac-

Automotive

(Continued from page 68)

began, was continuing its institutional campaign of weekly quarter-hours on 14 stations which ran throughout 1949. In January the company sponsored a four-day \$150,000 radio-TV campaign for Buicks which used 40 announcements per station on more than 100 stations. Chevrolets were promoted on more than 500 stations. A continuing campaign for Oldsmobiles included one to 10 announcements a week on 177 stations in January. A two-week drive for Pontiac in the late fall utilized announcements on 631 stations.

In a cooperative-dealer campaign plan running from Feb. 1 to Aug. 1, 1950, International Harvester Co. offers to pay one-third of time

costs for local dealer announcement campaigns and provides either live or transcribed open-end announcements. Kaiser - Frazer Corp. also is using radio announcements on a dealer cooperative plan. Nash Motors (Div. of Nash-Kelvinator Corp.) which last year recommended the use of Ziv recorded programs to its dealers under a maximum discount arrangement, this month (April 1950) planned starting a four-week announcement campaign for its new models in

about 150 markets across the country.

Hudson Motor Car Co. opened 1950 by promoting the new Hudson on some 700 stations. Packard Motor Car Co. in February launched a five-week drive for its 1950 line on some 250 stations and urged dealers to support the drive with their own local radio campaigns. Automobile dealers, either individually or in groups, are active users of time throughout the country. This class, in addition

to its other radio activities, sponsors local broadcasts of more than 225 network co-op shows and some 20 Transit Radio campaigns.

Seiberling Rubber Co. will split costs 50-50 with dealers on their local radio campaigns. Phillips Petroleum Co. promotes Lee Tires as well as Phillips 66 gasoline and motor oil on its newscasts on 21 stations. Announcements were used during the winter months for Prestone anti-freeze (150 markets) and Heet anti-freeze (40 markets).

* BROADCASTING estimate

Class 5:

Beer & Wine

BEER advertising, far and away the biggest user of broadcast facilities in the alcoholic beverage class, should at least equal its 1949 expenditures of some \$10 million for radio and television campaigns, it is estimated by the United States Brewers Foundation.

In a report prepared for this issue of BROADCASTING the Foundation notes that brewers sales of 5,596,000 barrels in January 1950 were 8,000 barrels higher than in January 1949 and that production was 106,000 barrels higher this January than last. "Using the first month as a barometer, brewing industry observers see encouraging signs for 1950 beer and ale sales," the Foundation states, "with prospects that the year's final figures will at least equal the 84,500,000 barrel total of 1949.

\$10 Million Budget Seen

"While brewery advertising appropriations are a matter of guesswork, it may be reasonably anticipated that brewers will at least equal their estimated 1949 expenditure of \$10 million for radio and television, and about \$95 million additional for other media."

The U. S. Brewers Foundation statement does not break down the \$10 million figure into separate figures for radio and TV, but available data indicate that a division of 2½ to 3 parts for radio to one part for TV would not be far wrong. That would amount to a total of \$7 to \$7.5 million spent for radio advertising by brewers and \$2.5 to \$3 million for TV. Those figures include the cost of talent, rights to sporting events of which brewers are major sponsors, etc., as well as the sums spent for time.

"An important basis for optimism," the Foundation statement continues, "was the 1949 survey made by Crossley Inc. for the Foundation, which revealed that public acceptance of beer and ale has advanced to the point where 52.4% of America's adult civilian population and 69% of the families are

consumers, while 62.2% of the families buy malt beverages for consumption in the home.

"That beer advertising—radio and television included—has public acceptance also was brought out in the survey, which showed that only 21.9% of the 9,553 interviewed in a national cross-section poll had any unfavorable comments."

Sports, particularly baseball, traditionally have mixed well with beer, at least on the air, and from all indications the brewers will energetically uphold that tradition in the months ahead. P. Ballantine & Sons will share radio sponsorship of the New York Yankees home and away games with General Cigar Corp. on WINS New York and with Atlantic Refining Co. on the "Home of the Champions" 12-station network. Ballantine also is sponsoring radio coverage of the Philadelphia Phillies on WPEN Philadelphia on an alternating basis with Atlantic and Supplee-Sealtest.

Burger Brewing has just secured exclusive radio-TV rights to the Cincinnati Reds for five years and will sponsor broadcasts of their games this summer on a four-state 27-station hookup fed by WCPO Cincinnati. Peter Fox Brewing Co. and Muntz TV are sharing sponsorship of the Chicago White Sox broadcasts on WJJD Chicago and, for night games, WIND Chicago.

Sports Sponsorship

Genesee Brewing Co. will again sponsor broadcasts of the Rochester Red Wings on WRNY and WRNY-FM Rochester, second year of a three-year contract. Glasgo Brewing Co. is sponsoring the Norfolk Tars 1950 season on WNOR Norfolk. Goebel Brewing Co. is buying time on a special 31-station network fed by WJBK Detroit to broadcast all home and road games of the Detroit Tigers.

Griesedieck Bros. Brewing Co. is arranging for sponsorship of the St. Louis Cardinal games on WIL St. Louis. Narragansett Brewing

Co. will share with Atlantic Refining sponsorship of the Boston Red Sox and Braves games on WHDH Boston. Regal Amber Brewing Co. is again sponsoring the San Francisco Seals games on KSFO San Francisco.

F & M Schaefer Brewing Co. and General Foods Corp. are sharing sponsorship of the Brooklyn Dodgers games on WMGM New York. Standard Brewing Co. is backing the Cleveland Indian broadcasts on WERE Cleveland, having purchased exclusive AM rights for three years at reported price of \$225,000 a year.

MBS Baseball Plans

Other brewers will doubtless join the ranks of baseball broadcast sponsors as the season gets under way. MBS will broadcast the American League "Game of the Day" throughout the season with the games available for local sponsorship on Mutual stations across the country and Liberty Broadcasting System will similarly permit local sponsorship of baseball broadcasts of both major leagues on its more than 250 stations.

Other sports programs are also sponsored by brewers, although not to the same extent as America's national pastime. Columbia Breweries last winter began a three-year sponsorship of professional hockey games on three Northwest stations; Frankenmuth Brewing Co., which has just begun three-a-week sponsorship of *Van Patrick's Sports Scripts* on WJR Detroit and is adding another sports program on WFDF Flint and announcements on other Michigan stations; Christian Heurich Brewing Co. sponsors daily sports resumes on WTOP Washington; Chas. D. Kaisers' Brewery uses a daily sports show on WPPA Pottsville, Pa.; Pabst Brewing Co. sponsors fights on WPTR Albany and WBCA-FM Schenectady; Pilsener Brewing Co. during the hockey season sponsored broadcasts of the

Cleveland Barons on six Ohio stations; F & M Schaefer Brewing Co. sponsored New York Ranger hockey games on WMGM New York.

Acme Breweries maintains a heavy radio schedule on the West Coast; Barbey's Inc. uses announcements on 13 Pennsylvania stations; Beverwyck Breweries has announcements on 19 stations; Dawson's Brewery has announcements on 12 stations; Falstaff Brewing Corp. sponsors the transcribed *Meredith Willson Show* in more than 20 markets; Gipps Brewing Corp. has announcements and programs on 15 Illinois stations; Gluek Brewing Co. has announcements and programs on 12 stations; Griesedieck Western Brewing Co. is using programs and spots on about 30 stations; G. Krueger Brewing Co. has programs and announcements on 11 stations; Maier Brewing Co. is readying an extensive spot campaign in Southern California for this spring and summer; Olympi Brewing Co. uses traffic safety announcements on more than 2 Washington State stations; Adamscheidt Brewing Co. has announcements and programs on 16 stations; Sterling Brewers is planning widespread spot campaign throughout the South; John F. Tromm Inc. has announcements on 28 stations; West End Brewing Co. has announcements and programs on 21 stations. Many of those figures are taken from reports of mid-winter campaigns which may be expected to expand as weather approaches.

Network Activity

Brewers using network time during 1949 are shown in the accompanying table, except for Regal Amber Brewing Co., which in October started the *Regal Amber Show*, five minutes a week, on Pacific Coast ABC stations, spending \$5,984 for time during the balance of 1949. In January 1950 Jos. Schlitz Brewing Co. joined

Apparel

(Continued from page 66)

considering a spring radio campaign.

Goodyear Tire & Rubber Co. uses station breaks on 76 stations for its rubber shoe products; National Shoe Stores uses 90 announcements and more than 20 programs a weeks on seven stations in the New York area. Allied Knit-

ting Mills (Fashionknit ties) has been sponsoring basketball game broadcasts and a heavy announcement schedule over three New York FM stations; Di Tieri (cravats, robes) is planning use of radio. F. Jacobson & Sons (shirts, pajamas) uses radio in a cooperative advertising plan whereby the company pays half the advertising costs of dealer campaigns for its products up to 5% of net shipments.

Celanese Corp. of America continues an announcement campaign which ran throughout 1949, using three announcements a week on 28 stations; E. I. duPont de Nemours & Co. in January started announcements on 60 stations in 40 markets to educate the public about denier of stockings; Canadian Fur Trappers Corp. continues an extensive campaign on four New York stations, using 28 programs and 130 announcements a week;

Nestle Form Co. plans radio advertising for its brassieres.

Apparel advertising, while only a minor item in the network and spot advertising lists, ranks high among the users of radio time at the local level. About 140 local sponsors of network cooperative programs (nearly 10% of the total) are apparel and department stores. They also comprise by far the largest class of Transit Radio clients.

Class 3:

"AFTER setting new sales and production records in 1949, the U. S. automotive industry now has established still another all-time high for the first quarter of 1950," William J. Cronin, managing director, Automobile Mfrs. Assn., reports in an exclusive statement to BROADCASTING.

"Over 1,600,000 new passenger cars, trucks and busses had been turned out by the end of March, more than 200,000 units ahead of 1949's record-breaking pace," Mr. Cronin continued. "Last year, automotive producers built a total of 6,238,088 new vehicles. The 1949 output topped the two best previous years—1929, by 16%, and 1948, by 18%.

"With a backlog demand, the usual seasonal patterns of passenger car sales continued to be absent during 1949. In fact, August and September, normally the two slowest months of the year, topped all others in 1949. Other new records in 1949 were established in vehicle registrations, payrolls and special taxes paid by motorists." Mr. Cronin notes

slight declines in the number of cars exported and in the production of trucks and replacement parts.

"While sales during the winter months have been running at unusually high levels, the industry looks for even greater activity during the spring selling season which is just now getting under way," Mr. Cronin concludes. "Sales, advertising and promotion programs have been gearing up for the spring demand which promises to be of sufficient strength to enable vehicle producers to add another new entry in the industry's all-time record book by the end of June."

High Rubber Production

The rubber industry also looks forward to maintaining in 1950 the same high level of production attained in 1949 when consumption of new rubber totalled nearly a million long tons, according to the Rubber Mfrs. Assn. Output of passenger car tire casings last year was 65.5 million, a slight drop from the 1948 output of 66.7 mil-

lion, the association reports, but sales of camelback for retreading increased 20% over 1948.

This favorable outlook for the automotive industry is good news for radio, which seems slated to get a larger share of automotive advertising budgets, estimated to aggregate better than \$400 million in 1950, than in previous years. Announcement campaigns for 1950 cars that broke early this year were credited with making January 1950 the all-time high month in the history of spot radio. Local auto dealers, in some lines offered cost-sharing plans by motor manufacturers, are also good prospects for station salesmen.

Automotive advertisers on the national networks last year, in addition to the six leaders listed in the table, were: Fram Corp. (filters), sponsoring *Sports Thrill of the Week* on Mutual, five minutes each Saturday, March to June (\$44,405 for time); Fruehauf Trailer Co., *This Changing World*, year-round Sunday quarter-hour on ABC (\$225,631); Goodyear Tire & Rubber Co. (institutional),

Greatest Story Ever Told, Sunday half-hour on ABC through the year except for a July-August hiatus (\$436,736); Hudson Motor Car Co., *Anniversary Program* last April, MBS one-timer (\$8,811); International Harvester Co. (trucks and farm equipment), *Harvest of Stars*, Sunday half-hour on NBC, April-June, September-December (\$337,962); Perfect Circle Co. (piston rings), *Memorial Day Races* on MBS (\$18,759); Studebaker Corp., Sam Hayes' newscasts three quarter-hours a week on NBC Pacific (\$140,392); Western Auto Supply Co. (accessories), *Circle Arrow Show*, weekly half-hour on NBC, January-June (\$103,116).

Kaiser-Frazer Drops

At the end of the year Kaiser-Frazer dropped sponsorship of Walter Winchell and Chrysler Corp. shifted its CBS advertising for De Soto cars from Tuesday to Wednesday and its program from *Hit the Jackpot* to the Groucho Marx show, *You Bet Your Life*.

Ford Motor Co. in January launched a four-week, nine-program, three-network campaign for its 1950 models, buying the most popular sustaining shows available on ABC, CBS and MBS for a whirlwind drive that cost the company an estimated half-million dollars. Ford augmented its special network programs with announcements on some 240 stations, following a spot barrage on more than 650 stations used in December. A second flash flood of network advertising for Ford is now in progress.

Chrysler Corp. last fall began extensive use of spot radio for Dodge cars, using two announcements a day on some 550 stations in October-November and rising to more than 1,000 stations in December and nearly 1,100 in January. Chrysler cars were advertised during 1949 with a spot campaign that used more than 350 stations last summer and fall but had declined to a list of only eight outlets in January 1950. Chrysler may be expected to resume heavy radio schedules as soon as the strike, which began Jan. 25, is ended, in an effort to make up for lost time.

Class 1:

..... Agriculture

THE RICH FARM market for all types of radio-advertised consumer goods and the millions of dollars spent for radio time and talent to sell clothes, automobiles, radios, foods and all the other necessities and luxuries are passed by in this section of BROADCASTING's annual analysis of the radio advertising of various types of products. Other sections of this report will deal with advertising to the farmer and his family, along with other consumer groups, under the individual product headings.

This section's concern is solely with radio advertising of the farmer's professional goods, the seeds, livestock and various types of farm machinery and equipment he buys to keep his farm running. Like the raw material and machines of industrial plants, to which it corresponds, this industrial farm equipment does not constitute a major class of radio-advertised products.

Network Expenditures Steady

Network advertising of this class, itemized in the accompanying table, was about the same in 1949 as in 1948. The drop of about 25% in total expenditures for network time reflects a change in the classification of International Harvester Co. advertising rather than in its advertising. Since April 1949, when this company shifted its program from CBS to NBC, the advertised product has been reported as "motor trucks and farm machinery" instead of "all products" which moved it from the agricultural group into the automotive class, according to the tabulations of Publishers Information Bureau, source of the network advertising figures.

Swift & Co. in January started a spot campaign for its hatcheries, using five five-minute programs a week on some 20 stations, chiefly in the Midwest. Last year Swift used only one station for only three

months, February-April, for its hatcheries.

Garst & Thomas Hybred Corn Co. in January sponsored ten-minute and quarter-hour programs, once to four times weekly, on three stations, continuing a campaign which reached peaks of 14 stations in the spring and 13 in the fall, declining in the midsummer and midwinter months.

Murphy Products Co. continues its year-round use of five-minute to half-hour programs, once to six times a week, on 10 midwestern stations. For its stock feeds. Oyster Shell Products Inc. is another regular spot advertiser in this group, using announcements on 40 stations for Pilot Brand Oyster Shells.

There are doubtless many other

regional and local advertisers in this class whose campaigns are not included in our files or in the Rorabach Reports on Spot Radio Advertising, the major sources of information on spot business. Mutual, for example, reported that as of February the network's co-operative programs were sponsored on 22 stations by farm equipment companies.

Class 2:

..... Apparel

UNCERTAIN is the word that seems most descriptive of the outlook for the apparel business at this time. In February, the U. S. Dept. of Commerce reported that "active demand, firm prices and high levels of production are indicated for the major textile fabrics until at least mid-1950." American Woolen Co. orders in the first two months of this year totaled \$25 million, compared to \$7 million for the like period of 1949. Yet at that company's annual meeting the end of March, stockholders were told that operations at some of that company's 25 mills would have to be curtailed for lack of enough

business to insure profitable operations.

Retailers of apparel, with sales running some 10% below the 1949 level in January and February, were so cautious in their buying that clothing manufacturers charged them with losing sales because of incomplete inventories. A number of rayon mills in March cut operating schedules from a six-day-a-week basis to five days. Manufacturers looked for improved buying of both men's and women's garments later in the year, however.

The shoe picture is more optimistic. The Leather Show in March produced record buying

from shoe manufacturers who themselves had received large re-orders of footwear from retailers for Easter delivery. Hosiery shipments in January were 14% ahead of those in January 1949. And California sportswear producers report a rush of orders from retailers who apparently anticipate major sales of multi-colored garments this summer.

Two other apparel advertisers used network time in 1949 in addition to those listed in the adjoining table. Mode O'Day Corp. promoted its wash dresses in January 1949 with three weekly quarter-hours of *Surprise Package* on 20 West Coast ABC stations (time charges: \$1,410). Dr. A. Posner Shoes Inc. sponsored *Big 'n' Little Club*, ABC Saturday half-hour, January through May (\$13,164). Trimount Clothing Co. has begun sponsoring 15 minutes of ABC's *Stop the Music*.

Current Spot Accounts

Spot campaigns currently on the air for apparel concerns include Robert Hall Clothes (men's clothing chain), using more than 160 stations in some 60 markets; Crawford Clothes (men's clothing stores), sponsoring more than 100 programs and more than 100 announcements a week on eight stations in the New York metropolitan area; Erie Clothing Co. (men's clothing), sponsoring five quarter-hours a week on WENR Chicago. Adam Hat Stores in December started an announcement campaign in 40 markets; Champ Hats is

'50 TIME SALES

By BRUCE ROBERTSON

NETWORK time sales will be good in 1950.

Business, generally speaking, is good and the consensus of the economic experts is that it will continue on a high level for at least the next few months. The housing boom continues as the nation's builders exert every effort to catch up with the dwelling needs of the public, which last year added 3,729,000 babies to the American scene. New home owners make new customers for ranges, refrigerators, vacuum cleaners and other household appliances, whose makers see a peak market in 1950. The automotive industry continues to set new production records, despite the strike which has temporarily halted work at the Chrysler plants. More cars need more tires, and rubber factories are working longer weeks.

Employment, while below last year's level, increased to 57,551,000 in March. National personal income started this year at an annual rate of \$1 billion above last year's average. People with money will spend it for things they want, and those things usually carry brand names made familiar through advertising.

Cigarette Use Rises

Cigarette consumption hit an all-time high last year and cigarette advertising was one of the few types to use more network time last year than in 1948. Food advertising on the networks decreased its time purchases from 1948, but continued as the network's best customer, even so. The other network leaders—Laundry soaps, Drugs and Toiletries—also curtailed their use of network time in 1949 as compared to 1948. Yet their businesses are among the most highly competitive in the country and advertising is as essential to them as the manufacturing process.

All of these industries anticipate top level advertising expenditures during 1950. All of them will make extensive use of network radio. The question is whether they will increase its use or gradually curtail it in a continuance of last year's trend.

There is no question about the potential audience of the radio networks. A survey conducted jointly by the Radio Mfrs. Assn.

sponsor's network offering. The trouble lies in the nearly 4 million video sets and their effect on radio listening in areas which also have TV program service.

John C. McLaughlin, advertising and sales promotion manager of Kraft Foods Div. of National Dairy Products, long-time user of network time and now a steady client of the TV networks as well, in a recent speech before the Chicago Radio Management Club, asked openly a question that other network advertisers have been pondering in recent months:

"Radio can no longer offer the same potential audience in major markets that it could a few years back, so it seems your product can no longer demand and get a premium price," Mr. McLaughlin stated.

He suggested a combined AM-TV network package or rate adjustments to compensate for radio losses in TV markets might provide the solution.

Morgens' Viewpoint

Howard J. Morgens, vice president of Procter & Gamble Co., largest user of network time, backed up Mr. McLaughlin in a talk to the Radio Executives Club of New York. "We look forward," he declared, "to lower radio time costs in areas of high television development, as confidently as we do to a higher television time cost in those areas."

Stating that TV's rapid growth finds radio "in a period of declining values," Mr. Morgens continued: "In these difficult circumstances, we believe that the most pressing and important task for all of us is to make sure that radio and television are effective and efficient from an advertising standpoint."

As BROADCASTING noted editorially (March 27), such arguments are "the stock-in-trade of buyers of advertising. The fact that there have been no general network or station rate increases in 11 years, whereas printed media have boosted rates in tempo with overhead, isn't taken into account. The fact the number of radio homes in that period has increased from 28,700,000 to 42,000,000, that the total number of sets has vaulted from 45,300,000 to 84,000,000, is

(Continued on page 69)

Class 1:

THE RICH FARM market for all types of radio-advertised consumer goods and the millions of dollars spent for radio time and talent to sell clothes, automobiles, radios, foods and all the other necessities and luxuries are passed by in this section of BROADCASTING's annual analysis of the radio advertising of various types of products. Other sections of this report will deal with advertising to the farmer and his family, along with other consumer groups, under the individual product headings.

This section's concern is solely with radio advertising of the farmer's professional goods, the seeds, livestock and various types of farm machinery and equipment he buys to keep his farm running. Like the raw material and machines of industrial plants, to which it corresponds, this industrial farm equipment does not constitute a major class of radio-advertised products.

Network Expenditures Steady

Network advertising of this class, itemized in the accompanying table, was about the same in 1949 as in 1948. The drop of about 25% in total expenditures for network time reflects a change in the classification of International Harvester Co. advertising rather than in its advertising. Since April 1949, when this company shifted its program from CBS to NBC, the advertised product has been reported as "motor trucks and farm machinery" instead of "all products" which moved it from the agricultural group into the automotive class, according to the tabulations of Publishers Information Bureau, source of the network advertising figures.

Swift & Co. in January started a spot campaign for its hatcheries, using five five-minute programs a week on some 20 stations, chiefly in the Midwest. Last year Swift used only one station for only three

months, February-April, for its hatcheries.

Garst & Thomas Hybred Corn Co. in January sponsored ten-minute and quarter-hour programs, once to four times weekly, on three stations, continuing a campaign which reached peaks of 14 stations in the spring and 13 in the fall, declining in the midsummer and midwinter months.

Murphy Products Co. continues its year-round use of five-minute to half-hour programs, once to six times a week, on 10 midwestern stations for its stock feeds. Oyster Shell Products Inc. is another regular spot advertiser in this group, using announcements on 40 stations for Pilot Brand Oyster Shells.

There are doubtless many other

regional and local advertisers in this class whose campaigns are not included in our files or in the Rorabach Reports on Spot Radio Advertising, the major sources of information on spot business. Mutual for example, reported that as of February the network's co-operative programs were sponsored on 22 stations by farm equipment companies.

Class 2:

UNCERTAIN is the word that seems most descriptive of the outlook for the apparel business at this time. In February, the U. S. Dept. of Commerce reported that "active demand, firm prices and high levels of production are indicated for the major textile fabrics until at least mid-1950." American Woolen Co. orders in the first two months of this year totaled \$25 million, compared to \$7 million for the like period of 1949. Yet at that company's annual meeting the end of March, stockholders were told that operations at some of that company's 25 mills would have to be curtailed for lack of enough

business to insure profitable operations.

Retailers of apparel, with sales running some 10% below the 1949 level in January and February, were so cautious in their buying that clothing manufacturers charged them with losing sales because of incomplete inventories. A number of rayon mills in March cut operating schedules from a six-day-a-week basis to five days. Manufacturers looked for improved buying of both men's and women's garments later in the year, however.

The shoe picture is more optimistic. The Leather Show in March produced record buying

from shoe manufacturers who themselves had received large re-orders of footwear from retailers for Easter delivery. Hosiery shipments in January were 14% ahead of those in January 1949. And California sportswear producers report a rush of orders from retailers who apparently anticipate major sales of multi-colored garments this summer.

Two other apparel advertisers used network time in 1949 in addition to those listed in the adjoining table. Mode O'Day Corp. promoted its wash dresses in January 1949 with three weekly quarter-hours of *Surprise Package* on 20 West Coast ABC stations (time charges: \$1,410). Dr. A. Posner Shoes Inc. sponsored *Big 'n' Little Club*, ABC Saturday half-hour, January through May (\$13,164). Trimount Clothing Co. has begun sponsoring 15 minutes of ABC's *Stop the Music*.

Current Spot Accounts

Spot campaigns currently on the air for apparel concerns include Robert Hall Clothes (men's clothing chain), using more than 160 stations in some 60 markets; Crawford Clothes (men's clothing stores), sponsoring more than 100 programs and more than 100 announcements a week on eight stations in the New York metropolitan area; Erie Clothing Co. (men's clothing), sponsoring five quarter-hours a week on WENR Chicago. Adam Hat Stores in December started an announcement campaign in 40 markets; Champ Hats is

'50 TIME SALES

Selling Is Key; Rate Adjustments Mulled

By BRUCE ROBERTSON

NETWORK time sales will be good in 1950.

Business, generally speaking, is good and the consensus of the economic experts is that it will continue on a high level for at least the next few months. The housing boom continues as the nation's builders exert every effort to catch up with the dwelling needs of the public, which last year added 3,729,000 babies to the American scene. New home owners make new customers for ranges, refrigerators, vacuum cleaners and other household appliances, whose makers see a peak market in 1950. The automotive industry continues to set new production records, despite the strike which has temporarily halted work at the Chrysler plants. More cars need more tires, and rubber factories are working longer weeks.

Employment, while below last year's level, increased to 57,551,000 in March. National personal income started this year at an annual rate of \$1 billion above last year's average. People with money will spend it for things they want, and those things usually carry brand names made familiar through advertising.

Cigarette Use Rises

Cigarette consumption hit an all-time high last year and cigarette advertising was one of the few types to use more network time last year than in 1948. Food advertising on the networks decreased its time purchases from 1948, but continued as the network's best customer, even so. The other network leaders—Laundry soaps, Drugs and Toiletries—also curtailed their use of network time in 1949 as compared to 1948. Yet their businesses are among the most highly competitive in the country and advertising is as essential to them as the manufacturing process.

All of these industries anticipate top level advertising expenditures during 1950. All of them will make extensive use of network radio. The question is whether they will increase its use or gradually curtail it in a continuance of last year's trend.

There is no question about the potential audience of the radio networks. A survey conducted jointly by the Radio Mfrs. Assn.

sponsor's network offering. The trouble lies in the nearly 4 million video sets and their effect on radio listening in areas which also have TV program service.

John C. McLaughlin, advertising and sales promotion manager of Kraft Foods Div. of National Dairy Products, long-time user of network time and now a steady client of the TV networks as well, in a recent speech before the Chicago Radio Management Club, asked openly a question that other network advertisers have been pondering in recent months:

"Radio can no longer offer the same potential audience in major markets that it could a few years back, so it seems your product can no longer demand and get a premium price," Mr. McLaughlin stated.

He suggested a combined AM-TV network package or rate adjustments to compensate for radio losses in TV markets might provide the solution.

Morgens' Viewpoint

Howard J. Morgens, vice president of Procter & Gamble Co., largest user of network time, backed up Mr. McLaughlin in a talk to the Radio Executives Club of New York. "We look forward," he declared, "to lower radio time costs in areas of high television development, as confidently as we do to a higher television time cost in those areas."

Stating that TV's rapid growth finds radio "in a period of declining values," Mr. Morgens continued: "In these difficult circumstances, we believe that the most pressing and important task for all of us is to make sure that radio and television are effective and efficient from an advertising standpoint."

As BROADCASTING noted editorially (March 27), such arguments are "the stock-in-trade of buyers of advertising. The fact that there have been no general network or station rate increases in 11 years, whereas printed media have boosted rates in tempo with overhead, isn't taken into account. The fact the number of radio homes in that period has increased from 28,700,000 to 42,000,000, that the total number of sets has vaulted from 45,300,000 to 84,000,000, is

SPOT'S ALL-TIME HIGH

\$112 Million Net Sales in '49

By TYLER NOURSE

National and regional non-network radio, commonly called spot, reached an all-time high of \$112 million in net time sales in 1949 pressing closer on the heels of its worthy adversary, national network, which rang up a net total of \$127,590,000 on its cash register.

In an effort to find out just what product groups contributed to this 26.2% of radio's total income BROADCASTING'S research department has, for the second year, obtained data from all classes of stations within the United States.

Overall the 1949 picture has changed in several respects from that shown in 1948. Remarkable were slight increases in the amounts spent by the Agriculture and Farming; Gasoline, Lubricants and Fuel; Household Equipment, Appliances and Supplies; Insurance, Jewelry, Optical Goods and Cameras; Publishing and Media, and Toiletries classifications.

At the same time decreases were shown in the following groups: Apparel, Footwear & Accessories; Beer, Wine & Liquor; Confectionary & Soft Drinks; Drugs and Remedies, and Retail Stores and Shops.

Classifications practically unchanged included: Automotive, Auto Accessories & Equipment;

Spot Radio Revenue by Product

* Product groups representing less than 1% of all spot business in 1949 are omitted in this table.

Note: Estimates based on BROADCASTING Research Department Survey of National and Regional Spot Business for 1949 and 1948.

Entertainment and Amusement; Food & Food Products; Smoking Materials, and Soaps, Cleansers and Polishes.

Five product classifications dom-

inated the field, placing slightly over \$58 million dollars worth of net business. This was approximately 52% of the spot radio total in 1949.

Leading users of spot were advertisers of Food and Food Products. This highly competitive field spent approximately \$23.5 million, almost twice that of second place Drug and Remedies advertisers and over \$1.5 million more than in 1948. The Food Product advertisers also lead in network gross expenditures, placing slightly over \$45 million in that medium, down about \$2 million from the previous year.

Drugs and Remedies

Drugs and Remedies advertisers placed just over \$12 million worth of net spot advertising. This classification also was in second place during 1948 when the drug firms spent approximately \$13 million on spot campaigns. On the networks this classification was in fourth place with just over \$21 million gross, about \$1.5 million below 1948.

Manufacturers of Soaps, Cleansers and Polishes, traditionally a heavy user of radio time, placed over \$9.5 million worth of net spot business in 1949. This was approximately the same dollar volume as in 1948. On the networks this product group ranked fifth with gross expenditures of \$19,334,813, approximately \$1.4 million less (Continued on page 112)

Resolutions Procedure

THE NAB Management Conference Resolutions Committee will meet Monday, April 17, in Suite 706 of the Stevens Hotel, at 10 a.m. Members may submit proposed resolutions to the committee at that time by contacting Don Petty, NAB general counsel, as committee secretary, in Suite 706, or C. E. Arney Jr., NAB secretary-treasurer, headquartered in Room 8, third floor. Committee chairman is Paul W. Morancy, WTIC Hartford, Conn.

agenda is strictly of the workshop type. Two NAB directors will participate—Eugene S. Thomas, WOIC (TV) Washington, and Robert D. Swezey, WDSU-TV New Orleans.

The Kukla, Fran & Ollie cast from NBC will perform. Morning speakers include Burr Tillstrom, Kukla, Fran & Ollie creator; Jack Mabley, *Chicago Daily News*; Ernest Walling, NBC producer; Jim Moran, Courtesy Motor Sales, Chicago; Marion Harper Jr., McCann-Erickson; William B. Ryan, KFI Los Angeles, an NAB board member; Robert C. Tait, president, Stromberg-Carlson Co., Rochester.

The convention will adjourn at the conclusion of the Wednesday morning session.

WISH STUDIOS

Coy Helps Dedicate

FCC CHAIRMAN Wayne Coy was featured speaker Tuesday at the formal ceremonies dedicating the new studios of WISH Indianapolis, ABC outlet on 1310 kc with 5 kw day, 1 kw night, and headed by Frank E. McKinney. George Higgins is general manager. Guests included Robert Hinckley, ABC vice president, and Harry Wismer, ABC sports director.

FCC Chairman Wayne Coy, speaking at the dedicatory ceremonies, called the "handsome new studios" a symbol of "the importance of radio broadcasting in our way of life." He said "they are eloquent testimony to the faith of Frank McKinney and his associates in the future of broadcasting and to their faith in the future of Indianapolis."

U. S. preeminence in the world, Chairman Coy felt, "is due in no small measure to the contribution made by its communications systems." He singled out the "mushrooming growth of that most universal of all forms of communication—radio broadcasting"—and the rapid growth of television.

"Because of our broadcasting system," he said, "the American people have a wider access than ever before to the free, unhampered discussion of their community problems and national and international problems. Hence they are better equipped to participate as intelligent citizens in the conduct of their democratic society."

FEES DISPUTE

AFRA Claims Victory

"SIGNAL VICTORY" was claimed by American Federation of Radio Artists in the recent settlement of its dispute with McCann-Erickson Inc., MBS and Don Lee Broadcasting System on the payment of repeat fees for rebroadcasting of the *Straight Arrow* program. Following two days deliberation by the AFRA board of directors, the union agreed to accept an MGS offer for 50% of the total payment asked in repeat fees from Feb. 7, 1950, for cast members; and written recognition from MBS and Don Lee of the principle of payment of the repeat fee for use of all such off-the-line recordings.

AFRA had claimed a total of \$12,103 was due in back salaries to actors on the program from Feb. 7, 1950, inasmuch as the program is rebroadcast on the West Coast by off-the-line recordings.

According to Claude McCue, executive secretary of the union, this is the first instance since the set up of their codes that the theory of added value to the producer for use of off-the-line recordings has been clearly enunciated in writing by any signatory to the AFRA contracts.

Recognition of additional payment will hold for all MBS commercial programs, as of Feb. 7, 1950.

WCFL's PULSE IS BEATING FASTER!

Going Up! This chart* shows WCFL's ratings impressively on the upbeat in Chicago radio.

Audience-tailored programming, highlighted by sports toppers and the finest in music—all spiced by ABC network features and station specialties—readily explains the gains. Time rates, moreover, are as inviting as the programs presented over WCFL.

NAB Convention Opens

(Continued from page 39)

ment and services opened last Wednesday morning, presenting to broadcasters the largest technical show in industry history [BROADCASTING, April 10]. Exhibits are located in the "Magical Fifth Floor" and the large Exposition Hall on the lower lobby level of the Stevens. They will remain open until Tuesday evening.

The annual Independent's Day meeting was scheduled all day Sunday, with an attendance of perhaps 400 expected [BROADCASTING, April 10].

From the standpoint of world prominence, broadcasters have never before been offered the opportunity to hear speakers of such fame. Their selection emphasizes the serious tone of the whole Management Conference program.

Actual Management Conference programming opens with an FM session at 9:30 Monday morning in the North Ballroom (see agenda page 22). Presiding will be Matthew H. Bonebrake, KOCY-FM Oklahoma City, chairman of the NAB FM Committee.

Formal Opening Today

The formal proceedings start today (Monday) at 12 noon in the Grand Ballroom of the Stevens. Mr. Lane will preside, as convention committee chairman, and will introduce NAB President Justin Miller who is attending his fifth annual convention.

All Management Conference meetings following the opening lunch will be held in the Eighth St. Theatre, reached via a ramp leading out of the Grand Ballroom.

First convention speaker will be Ambassador Warren R. Austin, permanent U. S. representative to the United Nations. Ambassador Austin replaces Carlos P. Romulo, Philippine ambassador and president of the UN General Assembly, who was summoned back to the Philippines last week.

The first convention speaker will sound the opening warning of the grave problems facing the world today. He will give the convention international aspect in outlining the American broadcaster's responsibility in world affairs.

With this groundwork laid, Herman W. Steinkraus, president of the U. S. Chamber of Commerce and president-general manager of Bridgeport Brass Co., will take up key problems facing American industry and their relation to the day-to-day operations of the business of broadcasters, stressing the broadcaster's duty toward business and industry.

The convention then will shift to a practical operating interlude in which two key labor executives will join two broadcasters in a panel on the American broadcaster's responsibility in labor relations. Judge Miller will preside. Representing labor will be Daniel W. Tracy, president, International Brotherhood of Electrical Workers

(IBEW), and Raymond Jones, executive secretary, American Federation of Radio Artists (AFRA).

Representing broadcast management will be Chet L. Thomas, KXOK-AM-FM St. Louis, and Harold Essex, WSJS-AM-FM Winston-Salem, N. C. Both have been active in NAB labor relations activities.

Only membership business meeting of the convention is scheduled at 9:30 Tuesday morning. The agenda presents one speaker—Dr. Kenneth H. Baker, who is billed as discussion chairman. Dr. Baker is expected to review the BMB situation, including acceptance of Study No. 2 figures, and review plans for the third industry measurement project, Broadcast Audience Measurement Inc. (BAM).

Other convention business will be taken up, depending on wishes of the membership. The Resolutions Committee will present its report at this meeting. Only delegates bearing NAB certification cards will be admitted to the active member section of the theatre.

After Tuesday's luncheon, the convention theme moves back into the responsibility motif as FCC Chairman Wayne Coy discusses the broadcaster's responsibility to his government. Chairman Coy has been outspoken recently in his observations on radio and television program standards. His talk is scheduled at 1:30 p.m. in the theatre.

Second speaker of the afternoon will be Paul G. Hoffman, administrator of the Economic Cooperation Administration and for many years president of Studebaker Corp. Adm. Hoffman, as occupant of one of the world's most responsible positions, will tell broadcaster's their responsibility in world economics.

Cold War Warning

Judging by advance intimations, this talk may prove to be one of the most serious since the close of World War II. Already advertisers and agency leaders have been alerted to the seriousness of the cold war. Adm. Hoffman, it is believed, will let broadcasters know just what is going on and what can happen in an upset world if the United States fails in its international mission.

H. E. Babcock, agricultural leader, will wind up the afternoon's discussion and close the "responsibility" portion of the convention with a discussion of the broadcasters' responsibility in agriculture.

Tuesday evening is earmarked for a 7 p.m. reception in the Normandy Lounge and the annual banquet at 7:30 p.m. in the Grand Ballroom. BMI will stage a special 10th anniversary show for the dinner. No speeches are scheduled.

All exhibits will be closed prior to the banquet.

Wednesday morning is set aside for television. Dave Garroway, ex-Harvard professor turned TV m. c. and disc jockey, will preside. Panels are scheduled on programming and TV economics. The

"FIGHT of the WEEK"

**Gives you
the SPOT
of
the WEEK!**

- Now you can buy spot announcements in the outstanding major boxing event known as the "Fight of the Week," presented by the Sports Network every Monday night at 10 P.M.
- The "Fight of the Week" is broadcast direct from ringside and originates in whatever city the outstanding major boxing events occur. Del Parks brings you a vivid ringside blow-by-blow account of the fight and Jules Rind does the color and commercials.
- Under this new arrangement you may buy 45-second spots between rounds, on a 13-week basis with option for renewal. The rate for all markets* listed below is only \$250.00 per 45-second spot, per show. More stations are being added each week at no extra charge to you.

West Statement

(Continued from page 42)

homes to come down?" "Are program costs going to be very much higher?" "When can we expect studies of the sales effectiveness of television?"

But one question more than any other, dominated our discussions. It was simply this: "What happens to radio listening in television homes?" Advertisers, agencies and the broadcasting industry soon must have a reliable answer to this question if the present confidence we all have in radio's future is not to be impaired.

This leads to the second point; it concerns the future of radio research and particularly the successor organization to BMB. The ANA board of directors after consulting over 200 ANA members who are radio advertisers, recently stated our policy in regard to radio research. I would like to quote at least part of the board's statement as it is the best reflection of advertisers' viewpoint I know of.

ANA Board Message

It is essential (the statement reads) to the long run interests of all those concerned with advertising—the media as well as agencies and advertisers—that advertising expenditures be channeled in such a way as to produce the most effective and economical sales results. In order to accomplish that object, advertisers must be in a position to employ individual media intelligently—which means on the basis of facts. Advertisers, as represented by the ANA, have repeatedly expressed their need for valid and UP-to-date information on the audiences and coverage of radio stations.

Responsibility for providing that information seems clearly to rest with the broadcasting industry. . . . Moreover it has been the established practice with other media to provide a uniform standard of measurement by methods acceptable to their customers, the advertisers. In the absence of such information on broadcasting, advertisers will be materially handicapped in their efforts to use the medium fully and effectively.

The history of media research has demonstrated that its value—to the media themselves—is in proportion to the confidence which buyers place in it. That confidence in turn depends on the extent to which the techniques and execution of the research project are planned and validated in a manner acceptable to both buyer and seller. And mutual acceptability can be achieved only through the joint determination and review of objectives and procedures which have characterized the operation of the Broadcast Measurement Bureau. Unless the established principle of tripartite operation is applied in organizing the successor to BMB, there is substantial risk of loss of confidence in the data. . . .

There is more to the ANA Board's statement, but I believe the sections I have quoted reflect advertisers' needs and requirements. ANA members have a tremendous and well found faith in the present and future of radio as an advertising medium. There will, of course, be changes in what we have come to call "traditional" radio advertising concepts or patterns. But, as Howard Morgens of Procter &

Real 'Mystery' Voice

FOR the past two months, listeners to the 920 *Mystery Club*, musical guessing show on WTTM Trenton, N. J., have been greeted by a "mystery voice" when they phone in their guesses. Through some sort of mechanical mix-up, listeners find themselves connected with a voice which exchanges pleasantries and takes guesses on the mystery tune. He usually tells callers their guesses are correct and promises to send the theatre award tickets. When the "winners" check the station, they find they've been duped. The situation has brought on a full-scale probe by police and the New Jersey Bell Telephone Co.

Gamble recently put it in a talk to the New York Radio Executives Club, "radio and television are both entering an extremely difficult period . . . the most pressing and important task for all of us is to make sure that both are effective and efficient from an advertising standpoint."

To do the job, Mr. Morgens suggests, as I see it, we must have more factual radio and television data, and advertisers are convinced that it is up to the radio industry to supply the information they need.

**THIS IS KFI's
DEFINITION OF**

GOOD RADIO ADVERTISING:

- **76% INCREASE IN SALES!** This universally distributed grocery product had a 76% increase over its already hefty sales in 10 weeks due solely to Burritt Wheeler on KFI. A companion product, barely mentioned by Wheeler, had an 85% increase!
- **50% INCREASE IN SALES!** An appliance company, selling a \$175 machine door to door, had a 50% increase in business after only four weeks due solely to an audience participation program starring Stu Wilson—and in the Long Beach territory alone there is a backlog of 25,000 demonstration appointments.
- **19,000 WOMEN INTO GROCERY STORES!** In a four-week period 19,000 women went to the trouble to guess a melody, write their guess on a postcard, and go to a grocery store to pick up their prize—a 9¢ product. This was all due to 5-minute KFI program broadcast five mornings weekly.

Radio advertising is too often measured by inconclusive standards—a trade paper review, a rating, a cost-per-thousand study. The only valid definition of good radio advertising is—

ADVERTISING THAT PRODUCES SALES...

immediate and unmistakable response.

*That is the type of advertising
we attempt to sell you... on*

A new suit of statistics for

This month, all across the land, 140,000 Census Enumerators are ringing doorbells . . . counting people, incomes and radios . . . measuring America for size.

They will find a colossus — bigger than ever before. Busier, lustier, richer.

Clearing many hurdles, they will discover what research men already know:

that our population is now over 150,000,000 which is 20,000,000 more than in 1940

that we now number 43,000,000 families — nearly 7,000,000 more than 10 years ago

The Census-Takers will learn — that our families in 1950 have an average real income of \$2,647 — a ten-year increase of 21%; that our savings total a staggering \$12,000,000,000.

And another fact: our whole standard of living has gone up, with 71% driving autos; 71% of our families now owning refrigerators; and 61% having washing machines.

New suit for Radio, too

The enumerators will re-discover another giant — 95% as big as America. And that's Radio — with its fabulous influence on the lives of our people. Here are more facts that will be confirmed:

that there are today 40,700,000 radio fam-

Another factor to "Lightning's" credit, Mr. Gray said, is the revised version of the showings made different and packs much more punch" than the rough product. In addition, Mr. Gray believes the 20-minute adaptation "Lightning That Sells" does a better job than the longer film. This is the verdict given by one who closely followed the industry-wide promotion's film from fund-raising, to actual filming and final cities. All in all, Mr. Gray finds the film electrifying, radio's sales pitch not a contract with dotted line.

Some faults can be found with the film's production and that the "majority doesn't agree as to its effect." But, he added, the film compares favorably to other trade association productions. While there may have been error in filming action on the spot because of a lack of ideal filming conditions, an effort was made to make the picture as authentic as possible, he went on.

The problem of choosing between this resolution and an even more inclusive measure introduced previously by Sen. Estes Kefauver (D-Tenn.), decided last week to set up a special committee with Sen. Kefauver as its probable chairman.

The special committee would be composed of five Senators—two from Sen. Johnson's commerce committee and three from the Judiciary Committee—and would be authorized to conduct a "full, extensive and fair investigation of crime syndicates operating in interstate commerce," according to Sen. Kefauver (D-III), Senate majority leader.

Sen. Kefauver will introduce a new resolution to create such a committee and specify a Jan. 1 deadline for its report rather than

PUZZLE PICTURE

Pa. Broadcasters to Meet
ANNUAL membership meeting of the Pennsylvania Assn. of Broadcasters will be held on Monday, June 5, at Bedford Springs Hotel, Bedford, Pa., according to Frank R. Smith, association president. Mr. Smith, who is president and general manager of WBVP Beaver Falls, Pa., said about 100 Keystone State station representatives are expected to attend. Sixty-seven stations are members of the association.

Three stand-by papers were available for the program in case time permitted or a speaker could not attend. They were: "A New Television De-Modulator," Jack W. Downie, General Electric Co.; "Recent Improvements in Television Motion Picture Film," Robert Myers, Allen B. DuMont Labs.; "A Small Size High-Fidelity Ribbon Pressure Microphone for AM, FM and TV Broadcasting," Harry F. Olson, RCA Labs.

Friday Afternoon
K. W. Pyle, KFRB Wichita, Kan., presided Friday afternoon. Papers were read by Charles Sheridan, Transist Radio Inc., on the engineering of this new medium; by John K. Hilliard, Altec - Lansing Corp., Hollywood, on a miniature condenser microphone; by John V. L. Hogan, of Hogan Labs., on facsimile; by Lauren K. Findley, Collins Radio Co., on a new 1 kw AM broadcast transmitter; by W. S. Bachman, Columbia Records, on the Columbia hot - stylus recording method; by Fred Grimwood, Gates Radio Co., on a new 5 kw AM transmitter.

With A. James Ebel, WMBD Peoria, Ill., presiding at the Friday luncheon, the conference turned to the future of TV with an address by G. Emerson Markham, director of the NAB Television Dept. Since taking the NAB post last September Mr. Markham has been working out a long-range program by which the association can serve the newest of the electronic industries.

Telecommunications Labs., who described a 5 kw air-cooled TV transmitter. L. J. Wolf, RCA Engineering Products, told how super-gain performance can be attained by use of a new type of TV antenna. Blair Foulds and Frank N. Gillette, of General Precision Lab., described new types of 16mm TV projectors. Problems of operating and developing the Bell System TV network were reviewed by Charles E. Schoolley, of AT&T. Leo Staschover of Federal Telecommunications Labs., described TV sound duplicating in a TV link.

Mr. McNughten presided at the first luncheon session, introducing NAB President Justin Miller who delivered an address of welcome. Mr. Guy, president of the Institute of Radio Engineers, was principal luncheon speaker, giving a history of broadcasting.

Presiding Thursday afternoon was Oscar C. Hirsch, KFRS Cape Girardeau, Mo. First paper was read by R. G. Back, of Television Zoomar Corp., suggesting methods of bringing all TV optical factors into proper relationship. Richard Blount, General Electric Co., spoke on studio lighting; Robert R. Bigwood, DuMont TV Network, on theatre TV controls; Ernest L. Adams, WHIO-TV Dayton, Ohio, on design problems peculiar to a moderate-size TV station.

Other Thursday morning speakers were John Ruston, Allen B. DuMont Labs., describing a new 5 kw TV transmitter; C. L. Ellis, General Electric Co., explaining a new synchronizing generator; Lucken E. Rawls, WSM Nashville, speaking on use of pulse technique to select TV transmitter sites; Ralph Harmon, Westinghouse Radio Stations, telling about UHF experiments at KDKA Pittsburgh.

UHF Project Discussed
Interest ran high in a three-day discussion of the RCA-NBC UHF project at Bridgeport, Conn. Three executives who have been active in the effort to solve UHF transmission problems described the success attained in providing reliable TV service in the 529-585 mc band. Performance data were given along with design problems and how they were solved. Reading papers on the Bridgeport installation were T. M. Gluyas and O. O. Riet, of RCA Engineering Products, with Mr. Guy, of NBC, outlining objectives of the project.

TODAY

IS OUR

BIRTHDAY!

We are justifiably proud of our continued leadership in the rich tri-city market—Winston-Salem, Greensboro, High Point—the Number One Market, in the South's Number One State!

And here is Our birthday present to You, the Advertiser!

HOOPER STATION AUDIENCE INDEX

Fall-Winter, 1949-1950

SEEKING AN AUDIENCE WITH KENTUCKY KING (Ky.)?

If you want to count Kentucky King (Ky.), it can be done via radio—but not by WAVE. The courtiers around that throne are outside our boundary line. . . .

As it is, we use up all our influence in the 27-county Louisville Trading Area. And this, but only this, is the one regal market in all Kentucky. It buys and sells almost as much stuff as the rest of Kentucky combined.

At WAVE we give you an entree not to Kentucky King, but to the treasury of the State. Give us the nod, and we'll be glad to announce you — by radio!

Uniform Policy

(Continued from page 41)

volved in the motion picture anti-trust case, he pointed out that its radio station has never been charged with any law violation.

The Washington law firm of Pierson & Ball filed on behalf of five licensees a brief contending that "the only legal uniformity of policy possible is that the Commission will look at all the evidence in each individual case before determining whether or not an applicant is qualified. This policy is already in effect and needs no further detailed implementation."

The brief asserted that law violations should be considered as a part of an applicant's past conduct, and that the weight of this factor cannot depend upon whether an allegation of federal law violation has been made. The law firm also felt that the fact that questionable practices have been eliminated by a consent decree carries "little or no weight."

The Pierson & Ball brief was filed on behalf of Yankee Network; WKY Oklahoma City; KOB Albuquerque; KGLO Mason City, Iowa, and WTAD Quincy, Ill.

CBS, in a brief by General Attorney Julius F. Brauner and Attorney James H. Neu, also urged a case-to-case approach, with law violations to be considered along with all other factors.

CBS Contention

"The Commission is not authorized to establish any rule, regulation or policy whereby any grant would be automatically denied or revoked solely because of the violation by the applicant of any federal law, with the possible exception of (a) violations of the [Communications] Act, or (b) the violations specified in Sec. 311 [of the Act], of which the applicant has been finally adjudged guilty by a Federal Court," CBS said.

(Sec. 311 requires FCC to refuse to license any applicant whose license has been revoked by a court for anti-trust violations, and permits FCC to revoke licenses held by persons whom a Federal Court has held finally guilty of unlawfully monopolizing radio communication.)

Loew's Inc. contended it is impossible to cover violations of all laws in any "uniform policy," and suggested that a distinction be drawn between law violations which reflect on character and those of a regulatory and administrative nature which may be inadvertent and unwillful.

The brief, by the Washington firm of Bingham, Collins, Porter & Kistler, said FCC must exercise discretion on a "per-case basis," that character is only one element of qualification, and that violations not affecting character should be disregarded.

"The establishment of an arbitrary prohibition against all applicants . . . who have violated any law of the U.S. would be about as reasonable as providing the same punishment or penalty for any vio-

lation of law regardless of the nature of the offense," the brief asserted.

The company, which operates WMGM and WMGM-FM New York and KMGM (FM) Los Angeles, said no "character" question was raised in the motion picture anti-trust case, in which Loew's was involved, and that in any event FCC has "no jurisdiction whatsoever" in anti-trust matters where no final judgment has been entered by the courts.

The case-by-case approach also was urged by WPTR Albany, N. Y., principally owned by Schine Chain Theatres, and by Twentieth Century-Fox Film Corp., in briefs filed respectively by the Washington law firms of Cohn & Marks and Welch, Mott & Morgan [BROADCASTING, April 10].

Allen B. DuMont Labs, held by an FCC proposed decision to be controlled by Paramount, also notified FCC it will participate in the hearing. DuMont Washington counsel, Thad H. Brown and William A. Roberts, reminded FCC that DuMont denies that Paramount is or has been in control of the radio manufacturing and TV network firm, which operates WABD (TV) New York, WTTG (TV) Washington, and WDTV (TV) Pittsburgh. Since FCC's proposed decision was issued, Paramount has been divided into separate film production and exhibition companies under an anti-trust consent decree.

Riddell WXYZ President

JAMES G. RIDDELL, general manager of WXYZ Inc., owner of WXYZ - AM - FM - TV Detroit, wholly owned subsidiary of ABC, last week was elected president of the subsidiary. Mr. Riddell has been general manager of ABC's Detroit properties since the network acquired WXYZ from the King-Trendle Broadcasting Corp. in 1946. At the time of ABC's purchase from King-Trendle, Mr. Riddell was sales manager and commercial manager of WXYZ.

Research Proves Summertime Radio As Effective As Rest of Year!

Small Drop in Metropolitan Audiences More Than Offset by Other Listening

Some radio advertisers curtail their summer schedules in the belief that summertime radio advertising is expensive and ineffective as compared to the "good" months of the year . . . that "business always falls off in the summer anyway" . . . that "big-time network shows get replaced" . . . that "people just don't listen to the radio in hot summer months." Reasoning is that radios are restricted to living rooms. *This premise is not true!*

Today, families take their radios with them. Radios flock to the beaches, mountains and lakes, they go on family picnics, they take weekend trips and week-night drives, they're practically "standard equipment" in automobiles and summer cottages. In short, radios are as much a part of the summertime American scene as bathing suits, picnics and "two-weeks-with-pay."

Statistics confirm this. In Iowa, for example, the Iowa Radio Audience Surveys* show a 244% increase since 1939 in the number of radio-equipped cars. These millions of car radios create a vital summertime audience, as shown by the following figures:

the family to cottages and cabins, camps and hotels.

This summertime bonus audience takes on even greater meaning when you realize that C. E. Hooper figures show only 6.6% less people available in the *daytime* in metropolitan homes during July and August, than in the peak daytime month of February. *Evening* figures show a decline for July and August of only 13.3%, as against the peak evening month of January.

These figures are substantiated by statistics compiled by the Psychological Corporation which indicate that only 6.8% of the nation is on vacation at any one time between July and Labor Day. Only about two thirds of these

vacationers take trips — the rest relax and rest at home, with many of their leisure hours devoted to radio. The true picture of summertime radio listening, then, is *not* that there is less listening, but that at least *an equal amount of listening takes place, with a lot of it in non-surveyable locations!*

In addition, comparisons between the 1949 and the 1948 Iowa Radio Audience Surveys reveal a 16.0% increase in the number of radio sets located *outside* the home and *outside* the family car. Reliable estimates indicate that Iowans now have about 750,000 portable sets that can travel with

"VACATIONING"—A BILLION-DOLLAR INDUSTRY!

Between June and September, vacation-minded Americans spend well over a billion dollars planning for their vacations — and enjoying them. Swim suits and sun-tan lotions get a part of this billion-dollar spending but even more is spent on such year-round merchandise as tires and gasoline, food and drug items, cigarettes and clothes.

DECISIONS ON MANY FALL PURCHASES MADE IN JULY AND AUGUST!

Two recent department store surveys (one in Milwaukee and one in San Francisco) show that in 80% of the cases, housewives make up their minds in July and August as to *what* to buy, what *brand* to buy and *where* to buy their September purchases. There is additional evidence that this "carry-over" has a very real effect on sales in October, November and December, too. As one department store official put it, "It's too late to wait to sell a major investment until the family is back in Fall harness . . ."

*The Iowa Radio Audience Surveys of radio listening habits have been made for the past twelve years by Dr. F. L. Whan of Wichita University and his staff. They are based on personal interviews with thousands of Iowa families, scientifically selected from cities, towns, villages and farms all over the State.

As a service to the sales, advertising, marketing and research professions, WHO will gladly send a copy of the 1949 Survey to anyone interested in the subjects covered.

25 Years

(Continued from page 47)

of engineering operations, who was sent from Schenectady, N. Y., to help build the station and remained with KOA, and Walter L. Morrissey, master control room engineer who was with the station when it opened, were a couple of the old-timers. As was "Mr. KOA," Clarence Moore, program director, since retired.

Interviewed on one of the programs was 83-year-old Frank Gimlet of Leadville, Col. Known as the "Hermit of Arbor Villa," he is considered one of KOA's oldest listeners. Further promotion included full page ads in the *Post* and the *Rocky Mountain News* boasting "We're 25 Years Old Today." Message harkened back a quarter century ago to the distribution of handbills heralding the opening of KOA, "The Rocky Mountain Broadcasting Station."

KOA, now a 50 kw outlet on 850 kc, looks backward with a smile to that inaugural broadcast when the station had to sign-off for two minutes during the evening to let the tubes "cool off."

An earlier celebrator of 25 years in the broadcasting business is WLS Chicago, passing that mile post on April 12, 1949. Like KOA, the *Prairie Farmer* station felt that the day belonged first and foremost to the listening audience.

The station asked listeners to write in their most interesting memory while listening to WLS and paid cash awards for all such incidents used on the air. These same incidents were the basis of a series of anniversary mystery ads in BROADCASTING.

History Outlined

Highlight of the day was a program from 7 to 7:30 p.m. called *Silver on Parade* which outlined the main events of the station's history: WLS personalities, favorites of yesteryear, were featured on the show. When the clock reached 7 p.m. on April 12, 1949, time went forward and backward at WLS. Narrator of the program Jack Holden let the real old-timers take precedence. Grace Wilson, still a WLS star, sang "Bringin' Home the Bacon," a song she sang 25 years ago on one of the first broadcasts. Georgie Goebel, a popular nightclub entertainer, returned to sing "Sippin' Cider Thru' a Straw," which he sang on WLS as a little boy. Uncle Tom Corwine, 80 years old and still with the WLS *Barn Dance*, brought back "Showboat" memories with his lively sound effects.

Most dramatic of all was the recording of the WLS scoop of the Hindenburg disaster, which is said to be the only radio special event in Columbia's famous historical record album "I Can Hear It Now."

Edgar L. Bill, retired president of WMBD Peoria who was the first director of WLS and originator of the *National Barn Dance*,

was guest on the stations noon-time *Dinner Bell* program.

The well known WLS *National Barn Dance* provided a promotion piece in which over-size barn dance tickets were sent to advertisers and agencies to be exchanged for actual theatre tickets at the convenience of the recipient. These were some of the extra promotion features. All employees of the station were given a big party. Special letterhead commemorating the silver anniversary also was used.

WFOR Hattiesburg, Miss., celebrated its 25th anniversary April 6 with an all day birthday party on the air. The station received salutes from NBC on the *Dave Garroway Show* and *Appointment With Music* program. The outlet has been an NBC affiliate since 1940.

To-day there are over 2,000 AM broadcast stations on the air, of this number about 35 stations in 22 states will ring up 25 years of broadcasting in 1950. WMAL Washington will be licensed 25 years Oct. 12, and plans special programs. In Memphis both WHBQ and WMPS were a quarter-century old in March followed by WSMB New Orleans in April.

Radio—a young man's game—is beginning to show the silver threads among the gold.

RICHARDS CASE

Orders Resumption May 15

A MAY 15 resumption of FCC's hearing on the news policies of station-owner G. A. (Dick) Richards was ordered last Wednesday by FCC Chief Hearing Examiner J. Fred Johnson Jr., who previously had set the resumption for Sept. 6 [BROADCASTING, April 10].

Advancement of the date followed a petition by FCC General Counsel Benedict P. Cottone contending the September date provided counsel for Mr. Richards an "extravagant allowance" of time in which to prepare their rebuttal case and would be contrary to the "clear import" of the Commission's own wishes.

The hearings, involving charges that Mr. Richards instructed staff members of his KMPC Los Angeles to slant news according to his own beliefs, were adjourned April 1 upon completion of FCC's presentation in the Los Angeles phase. The May 15 resumption will be in Los Angeles and is expected to take several weeks. Subsequent sessions may then be held in Detroit and Cleveland, where Mr. Richards is principal owner of WJR and WGAR, respectively.

The case involves license-renewal applications for KMPC, WJR, and WGAR, as well as Mr. Richards' proposal to set up a trusteeship to take over control of the three stations.

WLBH-AM-FM, Mattoon, Ill., which opened last Nov. 23, aired 117 play-by-plays of basketball games in three months, it reports.

WCCO SUMMER DRIVE

'Send Sales Up With Temperature' Is Theme

THE anticipated hiatus or "summer slump" may portend the usual dire forebodings for part of radio-dom this year, but WCCO Minneapolis-St. Paul has served notice it will attack the perennial problem with a staunch hard-selling promotion campaign of unique dimensions.

The 50 kw CBS O & O outlet, now launching its third annual intensive drive to stimulate summer listening, is giving advertising agencies the names of firms who do not advertise on WCCO. The station has so identified them in its newest promotional kit titled "Send Your Sales Up With the Temperature," and it is promoting the drive on a host of fronts.

BMB Figures Used

WCCO has incorporated figures of the latest BMB survey as well as comparative BMB maps to accentuate its claims to huge chunks of the daytime and nighttime radio audiences in the Great Northwest area. Included also are success stories of advertisers who took "13 weeks with pay" in 1949 by using WCCO on a year-around basis as a result of last year's summer drive.

Those advertisers whom WCCO has pegged as 1950 summer and year-around prospects are divided into four categories: Local radio, Twin City newspapers, magazine, and national spot. Having corralled them in its listings, WCCO

then mentions its own program availabilities.

The BMB section, based on figures for spring 1949, compares extent of 50-100% daytime and nighttime audience coverage with that of other stations by overlay maps.

One of the highlights of WCCO's campaign will be a \$25,000 all-out newspaper tune-in drive to promote peak listening to summer shows. The 1950 theme will be: "Take your WCCO favorites with you—take a portable radio along this summer." Station promoted a tie-in with radio distributors to push sale of portable radios last year.

WCCO will launch its national campaign with 12 color advertisements in five leading trade magazines, to be reprinted for mailing to over 2,000 timebuyers in the radio and client fields. Additionally, cooperative campaigns have been set up with Minnesota and Wisconsin resort operators associations.

WJBK-FM POWER

Goes to 30 kw Tomorrow

POWER increase to 30 kw for WJBK-FM Detroit will be in effect by tomorrow (April 18), according to Richard E. Jones, general manager of Detroit operations for The Fort Industry Co., which owns and operates the outlet. Now operating on 1 kw, WJBK-FM will utilize the new power to cover a radius of 75 miles, with major objectives being reception in Detroit's downtown area, Port Huron, Mich., and Toledo, Ohio, Mr. Jones said.

The power increase, it also was announced, is timed for broadcasting all Detroit Tiger baseball games over WJBK-FM simultaneously with the AM operation. WJBK (AM) is key station for the Goebel Beer Baseball Network. WJBK-FM is now scheduling broadcasts daily from noon to 11 p.m., and will operate on an interim basis of 20 kw until installation of the new Western Electric transmitter is completed, Mr. Jones stated. Transmission point has been moved to Northwest Detroit, with FM antenna located atop WJBK-TV's 400-ft. tower.

Indianapolis Race

PERFECT CIRCLE Piston Ring Co., Hagerstown, Ind., will for the fifth consecutive year sponsor the Indianapolis Speedway Race over MBS on May 30. Four special broadcasts are scheduled, one starting at 11:45 a.m., EDT, another at 1:30 p.m. for 15 minutes and then from 3-3:15 p.m. Climax of the auto race will be broadcast from 4 p.m. to conclusion. Henri, Hurst & McDonald, Chicago, is the agency.

KM&G - WOOD

Appoint New Executives

Mr. Lindquist Mr. Schroeder

APPOINTMENTS of Lansing B. Lindquist as radio and television director of Ketchum, MacLeod & Grove, Pittsburgh, and of Willard Schroeder, who previously held the agency post, as sales manager of WOOD Grand Rapids, Mich., were announced last week.

Mr. Lindquist, a Washington radio-TV independent producer, previously had served as program manager of WOL (now WWDC) Washington and station manager of WSYR-FM Syracuse, N. Y. At WOOD Mr. Schroeder replaces Walter Bass, resigned. Previously he was sales manager for WCAE Pittsburgh and general manager of WINS New York. He was active at KM&G in building radio billings in Ohio, Pennsylvania, Maryland and Virginia.

NAB Convention Staff

ATTENDING the Chicago convention from NAB headquarters are President Justin Miller and Helen Fruth, his secretary; Ralph W. Hardy, director of government relations; Don Petty, general counsel; C. E. Arney Jr., secretary-treasurer; Arthur C. Stringer, assistant, and Marcella Fencil and Lucille Griffin, secretaries; Richard P. Doherty, employee-employer relations director; Neal McNaughten, director of engineering, and Jessie Basnight, secretary; Ed Sellers, FM director; Dr. Kenneth H. Baker, research director on leave to BMB; G. E. Markham, TV director; Everett E. Revercomb, assistant treasurer, and William Walker, mail room supervisor; Robert K. Richards, public affairs director, James Dawson, assistant director, and Gloria Sater, secretary.

Staff directors are available at Private Dining Room 8 for conferences with officials of member stations.

ers seeking performing rights for their product were now in the BMI fold. As BMI neared its first decade, it found itself the leading exponent of folk music, hillbilly or whatever term need be. This product is still the mainstay of the juke-box nickel and the average disc jockey around the country. Along with this type of product there is the popular song of which BMI has been enabled to turn out a fair proportionate share, as evidenced by its recent four out of seven on the *Hit Parade*. To balance this there is the classical product of AMP, Riccordi and others which at times supply complete programs conducted by Arturo Toscanini, not to mention numerous Latin-American hits.

AMP Purchase in 1947

BMI further consolidated its position in the spring of 1947 when it purchased outright. Associated Music Publishers Inc., insuring permanent stability to its serious music repertoire, and installed its former general manager, M. E. Tompkins, as president of AMP.

Radio performances of BMI music have shown a steady climb. In 1944, for instance, BMI had a logged radio performance of slightly more than 5 million. In 1949, 18.2 million performances were logged, an increase of 28.8% over 1948. There is every indication that the current year of 1950 will see an increase similar to that of 1949 over 1948, perhaps 29% for an estimated total of over 23 million logged performances, according to BMI.

As a performing rights organization, BMI has branched out. Other fields have found BMI music needed in their business, and this led to some 3,500 hotels, night clubs,

ballrooms, skating rinks, and other users of music, being licensed by BMI. A film synchronization rights department has been established in Hollywood.

Since its inception, BMI has given television rights to its music on the same basis as radio.

Perhaps the all-important test of what broadcasters think of their own music establishment is the fact that they renewed their nine-year license pacts with BMI 15 months before the current ones were to terminate. President Carl Haverlin, in order to avoid the expense of more than 2,000 personal letters, sent out a mimeographed letter stating that station renewals were desirable for a nine-year period from May 1950. In a matter of a few short months more than 2,000 stations had signed and returned their contracts.

In BMI Fold

Today there are nearly 2,800 radio station licensees in the United States and Canada in the BMI fold. The breakdown: 22 national and regional networks; 2,082 AM outlets; 394 FM and 94 TV stations as well as Canadian stations. More than 1,300 authors, composers and publishers are affiliated with the organization.

TULSA GRANT

Cameron Is Favored

INITIAL DECISION to grant bid of George E. Cameron for a new station at Tulsa, Okla., on 1340 kc with 250 w fulltime was announced by FCC last week. Competitive bid of Kenyon Brown there would be denied.

Mr. Cameron, operator of KOTV (TV) Tulsa, was preferred by Hearing Examiner J. D. Bond over Mr. Brown on grounds that the latter was a non-resident and planned to devote only one-half his time to the proposed station while Mr. Cameron would devote full time. The examiner also found that Mr. Brown, general manager and part owner of KWFT Wichita Falls and having interests in several other Texas stations, also planned to relinquish one-half of his 50% interest in the proposed Tulsa station to his general manager.

Mrs. Helen Alvarez and John B. Hill, Tulsa residents, are to be associated with Mr. Cameron in operation of his station and each would acquire a 15% interest from Mr. Cameron.

WEWS-FM QUILTS

Economic Factors Cited

SCRIPTS-HOWARD Radio Inc. has been granted deletion of its license for WEWS-FM Cleveland, FCC reported last week. The Class B station ceased operation March 25. Although no reason for withdrawal was officially given, it was reported economic factors and lack of interest in FM were responsible. Scripps-Howard also owns WEWS-TV there.

PHILLIPS CARLIN

Opens Consulting Service

PHILLIPS CARLIN, who resigned a year ago as vice president in charge of programs of Mutual, announced last week that he has established a radio-TV business consulting practice with headquarters in the RKO Bldg., New York City.

Mr. Carlin

Mr. Carlin, a quarter-century veteran in radio programming, will engage in syndication of programs, and advisory work with advertising agencies on both radio and TV. He is occupying quarters with Douglas Storer, former CBS vice president in charge of programs.

KWIK LICENSE

Revocation Issue Heard

WITH conflicting testimony offered by FCC and licensee counsels, a confusing picture of apparent stock transfers was given at FCC's two-day license revocation hearing of KWIK Burbank, Calif., which adjourned in Los Angeles April 7.

Although FCC Counsel Robert H. Alford, through ownership reports and other documents, undertook to present evidence to the contrary, Marcus Cohn, Washington counsel for Leslie F. Bowden, trustee in bankruptcy for Burbank Broadcasters Inc., station licensee, contended that in some cases what appeared to be sales of stock were actually agreements on right to purchase, with deals not completed. He said that in other instances when stock was sold or deals made, voting rights were retained by previous owners and no change of control took place, pending FCC approval.

Issues Involved

With Comr. E. M. Webster presiding, FCC Counsel Alford at opening of the hearing asserted two issues were involved: (1) Whether stock transfers took place without FCC knowledge or permission; (2) whether letter of application filed by Mr. Cohn for Mr. Bowden, was sufficient for granting of a hearing.

Mr. Cohn during the hearing offered to prove that if KWIK's license were cancelled, innocent persons, including station employees and the government, to which taxes were owed, would be penalized. He further offered to prove that if the license were not cancelled, the original stockholders would not benefit by the station transfer to the trustee in bankruptcy. Comr. Webster refused to admit testimony on these points. However, on Mr. Cohn's request, he agreed to hold the record open for 14 days from date (April 7) in event applicant wishes to file a petition to enlarge the issues.

SAVANNAH CASE

Rivers Files Protest Answer

ANSWER to a protest by five Savannah, Ga., radio stations against a Savannah station grant to E. D. Rivers Jr. was filed with FCC last week by counsel for Mr. Rivers. The Commission had approved a grant for 900 kc 1 kw daytime only last month [BROADCASTING, March 13].

In a further statement, Mr. Rivers noted that the Savannah Radio Council, under which existing stations filed complaint, is not a licensee and has "no standing before the Commission," and charged that the council "now boldly admits that it was fear of competition, after all, that prompted it to file its original petition."

The council had taken issue with the religious program policy of Mr. Rivers, who also operates WEAS Decatur, Ga., and "his failure to live up to other commitments" to the Commission. Stations restated their case in answer to Mr. Rivers' contention that they wanted "no part" of a radio service for Negroes in Savannah [BROADCASTING, April 10].

Rivers' Stand

Mr. Rivers told FCC that the council is "desperately trying to keep further competition out of Savannah" and is, "in fact, trying to perpetuate a monopoly . . ." He added that "perhaps the public interest in Savannah requires that the Commission conduct an investigation of the (council)."

Statement was accompanied by affidavits which show, according to Mr. Rivers, that a religious program has been sustaining since its inception, despite earlier findings by the council.

Mr. Rivers' additional statement was filed by Philip M. Baker of Washington. The council is composed of WCCP WDAZ WFRP WSAV and WTOG. They are seeking to have Mr. Rivers' grant vacated and his application set for hearing.

AD AWARDS

Radio, TV on Seattle List

ADVERTISING campaigns via radio and television will again figure prominently in the annual Advertising Awards for Exceptional Merit in Advertising, to be conducted for the third successive year by the Seattle Advertising and Sales Club. Announcement of the awards competition, embracing seven media categories has been made by J. C. Grover, general chairman of the awards committee.

Eligible for the competition will be ads and campaigns between April 28, 1949, and April 6, 1950. Final dates for submission of entries was April 14 for radio and April 28 for television and motion pictures. The awards in these categories will be presented April 25 and May 9, respectively.

Radiorama

This group at meeting of Virginia AP Broadcasters Assn. at Richmond includes (l to r): Fred L. Hart, gen. mgr., WLPM Suffolk, and v. p. of VAPBA; Jack Weldon, gen. mgr., WOOD Lynchburg, retiring pres.; Oliver Gramling, AP asst. gen. mgr.; John Eure, news editor, WDBJ Roanoke, new VAPBA pres.

THE gentleman on the right, his "correct" attire including a homburg hat and morning coat, is Antonio, morning disc jockey on WXGI Richmond, Va. He is being congratulated by Mr. Fulcher, manager of Rayless Department Stores, on the stores' contract to carry 30 minutes of Antonio's hour show.

IT'S an "Elsie" button for Allyn Edwards (center), m. c. of Let Yourself Go, new variety show built by WNEW New York for The Borden Co. Medal is pinned by William H. Ewen (l), Borden's asst. natl. adv. mgr., as Ira Herbert, WNEW v. p. and sales dir., already "decorated," looks on.

IT'S wedding bells and farewell for Martha Ross Temple (center), director of women's programs for 11 years at WFBR Baltimore. With her are Helen Brooks, her successor, and J. H. L. Trauttfelger, manager, who participated in Miss Temple's last broadcast.

VISIT to Hollywood by Joseph H. McConnell (center), president of NBC, is the occasion for this get together. At the left is Norman Blackburn, director, NBC's Western network TV operations, and at the right, Sidney Strotz, administrative vice president in charge of the Western Division.

ON her 10th year on the air, Frances Scully (seated), KECA Hollywood commentator, is crowned by Clyde Scott, KECA gen. mgr. Attendants are (l to r) H. O. Patterson, Shontex; Norma Geer, Celanese Corp.; J. A. Gutweiler, General Foods; E. O. Anderson, Shontex; Walter McNally, Bon Ami Co., all sponsors.

BMI's Decade

(Continued from page 43)

righted arrangements of music in the public domain.

In August 1940, at the NAB convention in San Francisco, BMI was able to report it had pledges from 336 stations comprising about 80% of the industry's dollar volume. During the same month BMI had its first song on the *Lucky Strike Hit Parade*, "Practice Makes Perfect." Activity at BMI continued at a feverish pace for the broadcasters knew that ASCAP's proposal for 3½% for small stations to 7½% for the major networks, payable at the source of clearance, would "save" some station money but add millions to the total cost to the industry. It was held that the new rates would mean economic peril to an important section of the industry and the proposed new ASCAP contracts were rejected by the majority of stations, including the networks.

BMI was functioning primarily as a performing rights organization and not as a music publishing firm. A system was set up whereby composers and publishers could be compensated on a basis proportionate to actual use of their music. Previously only network performances had been checked. In cooperation with Dr. Paul S. Lazarsfeld, director of Columbia U.'s Office of Radio Research, a sampling system of radio station performances was set up which proved an accurate guide to the use of music by the broadcasting industry.

Catalogue Rights

In December of that year BMI made a deal with the E. B. Marks Music Corp., one of its initial catalogues, along with Ralph Peer Enterprises, Mexican, Cuban and other Latin-American music firms, M. M. Cole and G. Ricordi Co. for the rights to their catalogues, built up over a period of a half-century. This took in many standards, Latin-American and popular music. It was the first break in the solid ranks of ASCAP publishers and broadcasters took heart anew. This was December 1940, and at the end of the month broadcasters through BMI would be 100% on its own as to music. It was deemed in many quarters that a last minute settlement would take place with ASCAP, and third parties sought to bring both sides together. Broadcasters had already practiced non-ASCAP runs, networks had advised sponsors and others to get a new theme song wherever necessary. The publicity battle grew apace.

The big blowoff of the year, any year, when people are apt to be listening to music or singing it, is New Year's Eve; and the New Year's Eve of 1940 saw the last minute of the ASCAP contract running out. Radio no longer had the right to perform ASCAP music. It was an anxious time for the 600 stations, for radio executives and for BMI. It was anticipated that

there would be many infringements. But none occurred. No suit was filed by ASCAP for infringement; no great rush of mail to protest certain music being off the air, in fact virtually no letters at all. Preparations had been made to have boys pick up the protests and arrangements made for large scale replies. There were none to be made.

Advertising agencies and their clients on the air agreed to cooperate with the broadcasters in the name of doing anything that would contribute to lower costs. Lower music cost was of interest to them. So BMI and the broadcasters carried on as the year 1941 grew by the usual weeks and months.

As 1940 drew to a close, the Dept. of Justice interested itself in the struggle. A criminal action was started against ASCAP. An old civil action against ASCAP was revived, and BMI, early in 1941, signed a consent decree which was intended to serve as a guide for an ASCAP consent decree and which was subject to revision if the government ultimately entered into a different type of decree with ASCAP. Such revision ultimately took place.

Production Rush

The big rush in music production at BMI went along industriously, culled from E. B. Marks, M. M. Cole, and others along with public domain arrangements and BMI's own newly produced songs. Recording and transcription companies cooperated since this was the only means of having their product bought and played on the air. The *Hit Parade* managed to find ample material to keep its program going full blast.

In October 1941, after nine months of being off the air, almost 100%, ASCAP signed the networks and stations to new nine-year contracts, with a provision for a renewal for an additional nine years at the same rate. The new rate agreed upon was 2¼% for network programs and 2¼% for local shows under blanket license. This compared with a former 5% that was paid on the terminated pact and the 7½% that was demanded for the renewal.

Although there were approximately 600 stations which as stockholders had underwritten BMI, some were loath to continue or were on the fence. Others who had been given a free ride also were pondering the situation. ASCAP was back, why a BMI? An energetic vice president in charge of station relations for BMI took to the road. Carl Haverlin, who went to BMI in 1940, toured the country completely and when he returned hundreds of station contracts were in the fold. BMI had brought competition into the music field. Now it had to survive the competition. There were many lean months in the offing as ASCAP music rebounded to the airwaves. BMI plugged along.

Hundreds of publishers and writ-

1090 KC 'AVAILABLE'

KTHS Case Decided

CLASS 1-B frequency of 1090 kc in effect was declared available by FCC last week in those areas where it may be assignable now that the North American Regional Broadcasting Agreement has expired.

Under NARBA the channel has been usable in the U. S. heretofore only in Arkansas (KTHS Hot Springs, 10 kw day, 1 kw night) and Maryland (WBAL Baltimore, 50 kw, directional night).

The unique situation was revealed by the Commission's final decision last Wednesday to deny the bid of John D. Ewing's KTHS to switch to West Memphis, Ark., and increase power to 50 kw day, 25 kw night, and to replace its Hot Springs service with a new outlet under the same ownership on 550 kc with 5 kw day, 1 kw night. FCC also denied the competitive bid of C. E. Palmer's Hot Springs Broadcasting Co. for a new station at Hot Springs on 1090 kc with 50 kw fulltime.

Grants Proposed Earlier

The Commission earlier had proposed to grant the applications of Radio Broadcasting Inc., KTHS licensee, to move KTHS to West Memphis and to build a new station at Hot Springs. But in the final ruling the majority concluded this would have violated the spirit of NARBA, in effect at the time of the hearing, since KTHS "in essence" would be a Memphis, Tenn., station even though physically located in West Memphis, Ark. The majority concluded:

It is our opinion that in order to insure fairness to other potential applicants and to other states where 1090 kc might now be utilized in view of the supervening circumstances which have removed our [NARBA] commitments as to the state where 1090 kc may be assigned, we should treat this application in the light of those circumstances existing at the time the record was made. Thus, if NARBA were still in effect we would have no hesitancy in denying the application to move KTHS to West Memphis, Ark., on the ground that this would, for all intents and purposes, make KTHS a Tennessee station whereas under terms of international treaty we had committed ourselves to assign the frequency in Arkansas.

Decision Not Unfair

FCC said such a decision would not be unfair to the applicants in the proceeding "as they are entitled to a decision upon the record made, and in accord with such applicable rules, laws and commitments as were in effect at the time the record was compiled." FCC's conclusion continued:

That some of these rules and commitments may have been fortuitously changed subsequent to the closing of the record should not act to place the applicants at a competitive advantage or disadvantage in the absence of overwhelming considerations of public interest or necessity. Such overwhelming considerations we do not find present in the facts before us. Further, Radio Broadcasting Inc. may now compete on an equitable basis, if it so desires, with any other applicant who may wish to enter the lists for use of 1090 kc in accord with presently existing considerations.

Comr. Frieda B. Hennock dissented from the majority ruling,

voting for a grant of the KTHS applications. Comrs. Wayne Coy, Paul A. Walker and E. M. Webster did not participate in the decision.

The majority indicated denial of the KTHS bid for a new outlet in Hot Springs was moot since the move was denied. Regarding the denial of the Hot Springs Broadcasting application, the majority declared this bid could not be properly considered since it would interfere with an existing station (KTHS) and the issues in the proceeding did not include modification or deletion of KTHS's license nor its renewal.

The majority declared that "after giving due consideration to the peculiar circumstances in this case, the denial of all three of these applications is without prejudice to their being refiled before the expiration of the one-year period specified in Sec. 1.363" of FCC's rules. It was indicated the applicants may file "such applications as . . . [they] may deem appropriate."

Hearings in 1946

The applications originally were in hearing in 1946 and 1947 with oral argument on the proposed decision in July 1949. At this time a third applicant in the proceeding, W. Wright Esch, told FCC he did not object to denial of his application to switch WMFJ Daytona Beach, Fla., from 250 w on 1450 kc to 1 kw on 1090 kc, and its consideration was omitted in the final ruling.

The Ewing family is sole owner of KTHS as well as KWKH Shreveport, La., where the Ewings own the Shreveport Times. They also own the News-Star-World Pub. Co., publisher of two daily papers in Monroe, La., and own the Daily

States Pub. Co., which has substantial real estate holdings in New Orleans. KWKH is assigned 50 kw on 1130 kc.

President of Hot Springs Broadcasting originally was ex-Gov. Carl E. Bailey of Arkansas, now deceased. He was succeeded by H. G. Galloway, Little Rock theatre and real estate man. There are 40 proposed stockholders.

Mr. Palmer, first vice president and subscriber to 1,000 of total 8,000 shares authorized, is principal owner of Southern Newspapers Inc., publisher of the only two daily papers in Hot Springs. He also controls the Texarkana

(Tex.) News-Times Pub. Co., where he owns KCMC. He also controls papers in Camden and El Dorado, Ark., and holds large interests in papers at Hope and Magnolia, Ark. Mr. Palmer submitted a bid for KTHS in 1942 when it was sold to the Ewing group by the Hot Springs Chamber of Commerce.

New GF Post

HENRY P. STOCKBRIDGE, former associate sales and advertising manager of General Foods Calumet Division, has been named to the newly created post of assistant advertising manager of following General Foods products: La France, Satina, Log Cabin Syrup, Wigwam Syrup and Baker's coconut.

NAB BOARD OF DIRECTORS

13 New Members Slated To Join In Chicago

THIRTEEN new members join the NAB board of directors during the 1950 Management Conference, having been elected by mail ballots during February-March voting. The board was scheduled to hold a luncheon meeting Saturday at the Stevens Hotel, Chicago.

All directors will serve two-year terms after this year. Heretofore district directors were elected for two years and at-large directors for one year. During the transition year of 1950, at-large directors who received the most votes last winter will serve two-year terms, with the second high candidates serving one year. Starting in 1951 all at-large directors will serve two-year terms on a staggered basis. Directors are now limited by the by-laws to two consecutive terms.

Possibility of a special election for director-at-large for large stations arose with consideration of William B. Ryan, KFI Los Angeles,

for the new NAB headquarters position of general manager. Should the board ratify this proposed appointment, then the large-station directorship will become vacant at the start of a two-year term.

Retiring from the board at this convention are Michael R. Hanna, WHCU Ithaca, N. Y., District 2; Campbell Arnoux, WTAR Norfolk, Va., District 4; Henry W. Slavick, WMC Memphis, District 6; Harry M. Bitner Jr., WFBM Indianapolis, District 8; Robert Enoch, Oklahoma City, District 12; Hugh B. Terry, KLZ Denver, District 14; Howard Lane, WJJD Chicago, large stations; G. Richard Shafto, WIS Columbia, S. C., and Kenyon Brown, KWFT Wichita Falls, Tex., medium stations; Clair R. McCollough, WGAL Lancaster, Pa., and Merrill Lindsay, WSOY Decatur, Ill., small stations; Everett L. Dillard, WASH (FM) Washington, FM stations.

New board members who take office during the meeting are William B. Fay, WHAM Rochester, N. Y., District 2; Harold Essex, WSJS Winston-Salem, N. C., District 4; Harold Wheelahan, WSMB New Orleans, District 6; George J. Higgins, WISH Indianapolis, District 8; Jack Todd, KAKE Wichita, Kan., District 12; William C. Grove, KFBC Cheyenne, Wyo., District 14; William B. Ryan, KFI Los Angeles, large stations; A. D. Willard Jr., WGAC Augusta, Ga., and John Esau, KTUL Tulsa, medium stations; Patt McDonald, WHHM Memphis, and Edgar Kobak, WTTA Thomson, Ga., small stations; Ben Strouse, WWDC-FM Washington, FM stations.

Continuing in service are Harold E. Fellows, WEEI Boston, District 1; George D. Coleman, WGBI Scranton, Pa., District 3; Allen M. Woodall, WDAK Columbus, Ga., District 5; Gilmore N. Nunn, WLAP Lexington, Ky., District 7; Charles C. Caley, WMBD Peoria, Ill., District 9; William B. Quarton, WMT Cedar Rapids, Ia., District 10; John F. Meagher, KYSM Mankato, Minn., District 11; Clyde W. Rembert, KRLD Dallas, District 13; Glenn Shaw, KLX Oakland, District 15; Harry R. Spence, KXRO Aberdeen, Wash., District 17; James D. Shouse, WLW Cincinnati, large stations; Frank U. Fletcher, WURL-FM Arlington, Va., FM stations; Eugene S. Thomas, WOIC (TV) Washington, and Robert D. Swezey, WDSU-TV New Orleans, TV stations.

CELEBRATING the debut of the new Rex Allen Show on some 60 CBS outlets are (l to r) Ray H. Kremer, radio director, Lambert & Feasley Inc.; Rex Allen, film cowboy star of new Friday night series; John Esau, vice president and general manager, KTUL Tulsa; Ollie Bettis, advertising manager, Phillips Petroleum Co., sponsor, and Andy Devine, screen and radio star who appeared on stage shows held in connection with the premiere broadcasts from Bartlesville, Okla., and Tulsa. Mr. Esau was host to a party for the Rex Allen company and representatives of Phillips Petroleum Co., following the second broadcast of the show from Convention Hall in Tulsa.

TRANSIT RADIO

Hearing on WWDC-FM Asked

TWO OPPONENTS of transit radio service last Tuesday asked FCC to designate for public hearing the application of Capital Broadcasting Co. for license renewal of WWDC-FM Washington, Capital outlet for Transit Radio Inc.

Request was contained in a brief filed on their own behalf by Franklin S. Pollak and Guy Martin, Washington attorneys, as a supplement to an earlier petition charging that the service is "contrary to the public interest." They demanded FCC halt the service throughout the United States [BROADCASTING, Feb. 20, 13].

WWDC-FM has been operating on a special temporary authorization developing out of Capital Broadcasting Co.'s purchase of WOL-AM-FM properties. Temporary authorization was granted Feb. 23 and extends to June 1.

Request No Action Be Taken

The two lawyers again requested that FCC "take no final approving action on applications of others similarly situated for licenses, renewals of licenses and construction permits."

The new brief charges that:

Transit radio does not constitute "broadcasting" within the meaning of the Commission's Rules and Regulations; that the licensee abdicates program control to Washington Transit Radio and Capital Transit Co.; that the WWDC-FM operation discriminates "by making available to Capital Transit Co. advertising on its behalf on a basis not comparable with the basis applied to other advertisers"; that WWDC-FM occupies modulated sidebands on both sides of the assigned frequency "in excess of the spectrum occupancy" permitted under Sec. 2.202 of FCC Rules and Regulations; and that WWDC-FM operation is a "breach of promises and representations" made to FCC "in order to induce the Commission to grant the original construction permit and license of WWDC-FM. . . ."

AD HANDBOOK

Barton Edits Factual Guide

ADVERTISING HANDBOOK. Edited by Roger Barton. New York: Prentice-Hall Inc. \$10.

THIRTY-THREE top experts in advertising and related fields have contributed chapters to this book. Among them are Charles Hull Wolfe, radio and television copy chief at McCann-Erickson Inc.; John Caples, vice president of BBDO, and Raymond Loewy, industrial designer.

Advertising subjects cover testing of copy, packaging the product, uses of advertising research and choosing an effective advertising theme. The editor is also editor of *Advertising Agency* magazine, a lecturer on advertising at Columbia U. and a contributor on advertising to the *Encyclopedia Britannica*.

WELCOME MAT was out for J. Arthur Rank during his recent visit to Denver where radio-television-film executives feted the British film magnate and presented him with one of the famous silver Denver Dollars. L to R: Mr. Rank; Robert Benjamin, Universal Pictures official and Mr. Rank's traveling companion; Harry E. Huffman, president of Aladdin Radio and Television, owner of KLZ Denver; Frank H. (Rick) Ricketson, treasurer of Aladdin and president of Denver Fox Intermountain Theatres, and Hugh Terry, KLZ vice president and general manager.

THE 'DIGEST' DEAL

Seeks Radio Promotion on P.I. Basis

THE PUBLISHERS of *Reader's Digest*, having achieved phenomenal success with a magazine that carries no paid advertising, apparently are firm adherents to the old theory that it's a poor rule that doesn't work both ways.

Attempting to get radio promotion for a special subscription offer of eight issues of the *Digest* for \$1, the magazine's agent—Irwin Co. of Beverly Hills—has circularized stations asking them to promote the offer, not in paid time, but on a P. I. basis of 30¢ a sale.

"This promotion is so designed as to give each station participating 30% net . . . with no waiting," the agency's form letter declares. All the broadcaster has to do is to open the mail, make a list of names and addresses, send the Irwin Co. a check for 70¢ of each dollar received.

"The advantages of this form of processing are many," the agency explains.

(1) It simplifies your bookkeeping, you get your money immediately. (2) You have no bulky packages to handle. You send one list with your check. (3) You get credit for each and every order you produce. Many envelopes will contain multiple orders from your listeners. Other forms of handling might give you credit only for each piece of mail . . . not for each order enclosed.

Agency Describes Plan

In its accompanying letter, the agency describes the plan as one "that will put the productive portions of your station time to work in a hard-selling money-making proposition . . . indications are that it will be the most successful in the history of periodical promotions, and radio will help to make it so."

What the letter does not add, one broadcaster observed, is obvious: If radio makes the campaign a success radio will have

taken all the risk, will have contributed all the work and facilities, so that the *Digest* can reap the benefits. Undoubtedly this is good business—but not for the *Digest*, not for radio.

CBS VS. OEIU

Local 174 Seeks Mediator

FEDERAL or state mediator is being sought by the Office Employees International Union, Local 174, Hollywood, following reaching an impasse in negotiations with CBS Hollywood. Negotiations for contract, which have been underway since last contract expired the first of this year, reached a deadlock last week when, the union stated, the network refused to discuss wages until working conditions could be agreed upon.

Union contends that both elements are tied in together. They seek \$5 to \$8 a week raises for employees, "to bring broadcasting wages up to prevailing salaries in other industries in area." Meeting to acquaint the approximately 100 employees involved in the negotiations with these recent developments is scheduled for tomorrow (April 18).

Raytheon Names Three

RAYTHEON MFG. CO., Waltham, Mass., last week announced the promotion of three assistant vice presidents. Percy L. Spencer was named vice president in charge of the power tube division; Norman B. Krim was promoted to vice president in charge of the receiving tube division, and Ernest F. Leathem was named assistant to the president, Charles F. Adams Jr.

WCCO RATES UP

Raises Day, Late Evening

IN A MOVE described by the network as having been taken to bring rates into realistic adjustment with new listenership surveys, the CBS-owned WCCO Minneapolis last week issued a new rate card, which, in some periods, raised time charges as much as 50%. The new rate card, No. 21, is effective May 1.

Principal changes were in the daytime and late evening hours.

The one-hour rate for the 6:30-7 a.m. period was increased from \$180 to \$240. The 7-8 a.m. rate was raised from \$240 to \$300; 8 a.m.-6 p.m. from \$300 to \$360.

The 6-6:30 p.m. period was raised from \$400 to \$600 and the 10-10:15 p.m. time by the same amount. Other period charges in weekdays remained unchanged.

Rates for two Sunday periods were raised: 12 noon-1 p.m. period from \$300 to \$360 and the 10-10:15 p.m. period from \$400 to \$600.

The prices for station breaks and one-minute announcements were raised proportionately.

COLLEGIATE SYSTEM

SW Network Made Permanent

STUDENTS and faculty of 11 southwestern colleges and universities voted to maintain as a permanent organization the new Southwestern Collegiate Broadcasting System Conference at a meeting early this month in Waco, Tex. The conference, at a series of panels lasting two days, was concerned primarily with an exchange of ideas on programming, sales, promotion, engineering, opportunities for women in radio and evaluation of college laboratory work.

The management viewpoint was outlined by Burton Bishop, manager of KTEM Temple and Stan Wilson, sales manager of WACO Waco. Mary Holiday, women's director of WACO, talked of women in radio. Interim directors elected to succeed themselves as first officers of the network are Jack Lyle of Baylor U., chairman; Dick Poe, Hardin-Simmons, program director; Louemma Breckenridge, Oklahoma A & M, promotion director, and Mike Schofield, Louisiana Tech, relations director.

Resigns C & O Account

KENYON & ECKHARDT, New York, has resigned Chesapeake & Ohio railway and its subsidiary, the Greenbrier Hotel, White Sulphur Springs. Recently agency was appointed to handle advertising for competitive transportation committee of Eastern Railway Presidents' Conference of which Walter Tuohy, president of Chesapeake & Ohio, is chairman.

A Promotion Aid for Stations

... So You're 25 Years Old

RADIO, once the callow prodigy of advertising and entertainment has grown to maturity. The industry's elder statesmen—the Snyders, Megargees, Morencys—and an ever-increasing host of veterans have seen their radio operations roll past the quarter-century-old mark.

To observe these various silver anniversaries, station personnel have expended great effort to indelibly mark the occasion in local, state and industry history. As a guide to other stations who are approaching such milestones, BROADCASTING reviews a few of the activities at some of the stations which successfully promoted and commemorated 25th birthdays.

On Jan. 12, WGBI Scranton, Pa., which was founded by the late Frank Megargee, celebrated its silver anniversary of broadcasting. On hand to offer congratulations were civic leaders, radio personalities and executives. Hundreds of letters, telegrams and transcriptions were received during the anniversary celebration.

The Scranton Chamber of Commerce awarded WGBI a certificate of merit and achievement. Mrs. M. E. Megargee, now president of the station, received the award.

Puzzle Gimmick

But WGBI was not only on the receiving end on this auspicious occasion. Four hundred personal letters were sent to advertising agencies throughout the country inviting them to join in solving the WGBI 25th year, CBS puzzle. Reward for returning the puzzle correctly assembled to the station was a beautiful three piece sterling silver smoking set. Response to this piece of promotion was 72% and many letters were received expressing appreciation for the beautiful gift as well as commending the stunt as being "finest station promotion I have seen" etc.

As another promotion stunt silver cards were slipped under the windshield wipers of cars parked alongside meters showing red, in downtown Scranton. The cards carried these words: "Your meter showed red. . . But today, Jan. 12, is WGBI's Silver Anniversary. So we took the liberty of dropping a nickel in your meter. In keeping

with our 25 years service to the public we are happy to be able to serve you personally today. The next hour is our treat. . ."

An essay contest for students in the Scranton area on the subject "What Radio Means to Me," netted 10 winners 25 silver dollars each. It was also a happy birthday for the first 10 people observing their 25th birthday and presenting their birth certificates at the studio, on WGBI's anniversary, for they also received 25 silver dollars.

Attracting considerable attention during WGBI's anniversary was a window display at the Scranton Electric Co., showing a number of radio sets, equipment and speakers that were used for radio reception 25 years ago.

Scranton Campaign

Letterheads, envelopes and program schedules which were used during the Silver Jubilee were decorated in silver. The promotion created so much comment in the Scranton area that George D. Coleman, general manager of the station, was requested to address the Advertising Club Workshop on "How To Conduct a Promotional Campaign."

The *Scranton Tribune* on Jan. 12 ran a full-page advertisement of WGBI's personnel and the *Scranton Times* carried ads on some of the outstanding CBS personalities heard over the station. The *Wayne Independent*, a regional paper, paid tribute to the station with a front page story.

WGBI's advancement in radio in 25 years includes increasing the power from 10 to 1,000 day, 500 w

night on 910 kc. The station is a CBS affiliate.

"The Station Listeners Built," WHEC Rochester, N. Y., paused to look back over 25 years in the radio business on March 25. A souvenir booklet, touching on past accomplishments and present day activities of the station, was prepared for general distribution. Theme of the anniversary promotion was crediting the listener with WHEC's successful growth.

A factor of special importance to WHEC and to sponsors of its programs, the souvenir brochure points out, is the minimum personnel turnover. Gunnar Wiig, general manager, has been with the station for more than 20 years as has Clarence Wheeler, vice president.

Special souvenir menus in silver were printed for a dinner commemorating the occasion. In addition to special guests, present at the dinner were former employees as well as the present WHEC staff.

WHEC became a CBS affiliate in 1932—the station operates with 5 kw unlimited on 1460 kc.

Low Budget Promotion

WTIC Hartford celebrated its 25th anniversary Feb. 10. "We tried to call attention to the event," said Walter Johnson, assistant general manager, "without spending too much money." An announcement card was mailed to all advertisers and agencies and an ad appeared in the trade papers which was an exact replica of the announcement. Outstanding promotion was a con-

stant stream of greetings on network shows given by the stars themselves. Full page ads were run in the two Hartford papers carrying pictures of stars and thanking them for the greetings.

Programs throughout the day carried anniversary tie-ins. The *Farmer's Digest* at 6:15 a.m. discussed radio keeping pace with farm activities in the past 25 years and also broadcast greetings from the Secretary of Agriculture. The *Radio Bazaar* compared the present day styles with those of 1925, and *Theatre of Melody* featured songs and artists of the mid-20's. A quiz type program *Cindrella Week-end* used questions pertaining to events, prices and movie personalities taken from the newspapers of 1925. An evening sport show further played up the theme by discussing sports champions of 1925 and included an interview with WTIC's first sports commentator.

Altogether some 13 of WTIC's own programs participated in commemorating the occasion. The only program devoted exclusively to the anniversary was an evening half-hour show which featured transcribed greetings from some of the alumni of WTIC now in Hollywood or New York, and a 15-minute documentary sketching the station's 25 years of service.

KOA Birthday

KOA Denver, an NBC affiliate, chalked up its quarter-century of broadcasting on Dec. 15, 1949, with an elaborate full-day program. Prominent officials of state and federal government as well as top-notch NBC stars participated either personally or through transcribed messages. Theme of the whole affair was borne out in station's title for the event, "KOA's Day of Appreciation to Its Radio Listeners in the Rocky Mountain Empire." A special birthday party was held for the 77 studio staff members.

Starr Yelland, emceeing a morning show, scanned a 1924 *Denver Post*, reading ads and news. Listeners who had missed the deadline deluged the paper and station requesting more information on a six-room house, newly decorated for \$40 a month rent and promise of the landlord to pay \$20 of the moving charges. Calls came in from Nebraska and Wyoming in addition to Denver.

On hand for the station's gala birthday broadcast was Mrs. Henry Pierson who attended KOA's inaugural program back in December of 1924. Also interviewed were some of the studio veterans. R. H. Owen, manager in charge

(Continued on page 52)

TYPICAL SILVER anniversary brochures, bridging the 25-year history of personalities and programs, were these issued by WLS Chicago, which celebrated its quarter-century of service April 12, 1949, and by WHEC Rochester, N. Y., which marked its 25th year this past March 25. WLS, the *Prairie Farmer* station, reminded listeners of favorite acts—"then and now"—to "prove that they still retain their smiles—and good looks." WHEC, "the station listeners built," traced its role as a "campaigner," friend of the farmer, source of education and news, and coverage of sports and local shows, as well as CBS programs.

FCC REVAMPING *Truman Plan Opposed in Senate*

RESOLUTION opposing President Truman's plan to reorganize the FCC was introduced in the Senate last week by Chairman Ed C. Johnson (D-Col.), upon authorization by his Senate Interstate and Foreign Commerce Committee.

The President's proposal, sent to Congress last month, would concentrate FCC's executive and administrative functions in the Commission Chairman [BROADCASTING, March 20].

Sen. Johnson's action was no surprise as he had previously expressed consternation with the breadth and apparent concentration of powers which the plan would vest in the Chairman as contrasted with that of other Commissions. The move by the Coloradan came quite close to deadline, since, under the Reorganization Act of 1949, proposals affecting each agency would have become effective in 60 days after being relayed to Congress unless disapproved by one or both houses.

Some Time Saved

However, the current House Easter recess which ends tomorrow (Tuesday) has saved some time as a provision of the Act stipulates that recess by either house for more than three days automatically pushes back the expiration date. The deadline now is May 24.

As in the case of other specific objections made to some of the President's reorganization plans, the Johnson resolution will be referred to the Senate Committee on Expenditures in the Executive Departments which must consider the moves prior to Senate action. It appeared likely, according to a spokesman for that committee, that Sen. Johnson's resolution would be considered today and if hearings are to be scheduled, they would start tomorrow.

Capitol Hill observers have contended the proposed FCC reorgani-

zation plan, one of 21 affecting government agencies, would give the Chairman a strong hand over the Commission's purse strings, selection of its personnel and assignment of its work. This feeling is

shared by Sen. Johnson.

The views have thus been expressed because of the reference to the Chairman's functions under the proposed revision, including "(1) the appointment and supervision of

personnel employed under the Commission, (2) the distribution of business among such personnel and among administrative units of the Commission, and (3) the use and expenditure of funds."

The Senate Interstate Commerce committee also opposed for the same reasons three other similar agency reorganization plans (FTC, ICC and FPC) which had been referred to it.

When the Senate committee received the plan from President Truman, Sen. Johnson said it represented "an extremely important regulatory step" involving "a matter of principle." That principle, he has said, would be the placing of the chairman directly under the executive branch of government, whereas he and other congressional leaders consider such agencies as arms of the legislature.

"They've come for the Independent's Day session!"

LANGER BILL

Senate Group Shelves Beer, Liquor Ad Ban Proposal

ATTEMPT by temperance forces to hurry through a ban during this session of Congress on all alcoholic beverage advertising in interstate commerce was aborted last Wednesday by action of the Senate Interstate and Foreign Commerce Committee.

The committee voted 6-3 in executive session to put on ice the Langer Bill (S 1847) which would prohibit beer, ale and wine as well as liquor advertising in interstate commerce. The bill would not have affected local or state advertising.

As a result of the Senate group's decision, a good slice of the radio-television industry's multi-million dollar revenue in network and spot beer-ale-wine advertising has been given a new lease on life.

Companion Bill Shelved

While the Senate committee's action cut the props from under the "dry" groups' far-flung efforts and left the bill's supporters in the lurch, it also slimmed down any hopes of the "dry" block for revival of a substitute bill before Congress adjourns.

A companion measure in the House (HR 2428) to the bill authored a year ago by Sen. William Langer (R-N.D.) has been on the shelf in committee with the lower branch of Congress failing to schedule hearings.

The Senate committee, headed by Sen. Ed. C. Johnson (D-Col.), held hearings on the Langer proposal last January [BROADCASTING, Jan. 16] when "dry" and "wet"

groups presented their formal declarations. Since that time opposition to the measure has mounted on Capitol Hill and within the radio-TV industry.

Following the hearings' conclusion, the NAB formally stated its opposition to the proposed legislation. In a letter to Sen. Johnson, NAB stressed that its action did not place it as promoting or condoning liquor advertising that is detrimental to the public interest or not within the Standards of Practice of NAB.

However, the NAB said the bill would in effect "usurp" the function of the states to protect their citizens from alcoholic beverages if they so desire. The NAB emphasized that in addition to its own, the networks' and the stations' codes of practices, there are government regulations which police the advertising of alcoholic beverages.

The FCC had made it plain that while S 1847 would not amend the Communications Act, the "adherence" by station licensees to the bill's provisions would be a factor in determining their qualifications as licensees, if the Langer Bill were enacted.

KSTP STRIKE

Will Hire Non-Union Men

SIXTEEN non-union technicians will be hired by KSTP-TV-AM St. Paul-Minneapolis within the next week to fill jobs vacated by members of the International Brotherhood of Electrical Workers (AFL) who went on strike a fortnight ago [BROADCASTING, April 10]. Dispute involved 21 operators for whom the union had sought wage increases in numerous negotiations since expiration of the IBEW contract last Sept. 30. KSTP rejected the proposal on ground that the men's salaries were \$15 higher per week than "those of our TV competitor, which has the same rates," said President and General Manager Stanley E. Hubbard.

Mr. Hubbard claims the men left their jobs April 5 "without notice." After hiring five permanent replacements, Mr. Hubbard received word that the international union had ordered the men back to work. The dispute continued, however, when operators reportedly put the station on the air the next day in advance of regular sign-on time. The men were ordered by the station to return home and report for duty at the regular time. This resulted in charges of a "lockout" by union men, who replaced the word "strike" with it on their picket signs, Mr. Hubbard said.

KSTP, in a registered letter mailed to each technician April 8, offered to re-hire 16 men with top seniority among the 21 for the unfilled jobs. They were given four days (until last Wednesday) to return. Late Wednesday Mr. Hubbard reported he had heard nothing from any of the men or from the business agent, Freeman Hurd. The picket line was still formed, he said.

With AM and TV operations "going on normally," KSTP is expected to be staffed fully with 130 persons by next week. Mr. Hubbard said the American Federation of Musicians, also AFL, has refused to recognize the picket line, on vote of St. Paul members.

WILLIAM M. RAMSEY (center), radio director of Procter & Gamble, who will serve as campaign radio chairman for the 1950 Community Chests of America, discusses the program with Charles E. Wilson (l), GE president and general campaign chairman for the Community Chests, and Tom Revere, head of radio and television for Biow Co., New York. Occasion was a campaign luncheon given in New York by Mr. Wilson.

EYES ON RYAN

As Board Mulls NAB Manager

NAB STRENGTH

Cites Affiliate, FM Units

ATTENTION focused mainly on one person—William B. Ryan, of KFI Los Angeles—for the newly created post of NAB general manager, on the eve of the NAB board's pre-convention meeting scheduled at noon Saturday (April 15). It was to be the old board's final meeting.

At a series of meetings held since the board's February session in Arizona, a special board committee has scanned lists of persons whose names were mentioned. No definite information has been given out by the committee but it is known that Mr. Ryan's name has been at the top of the list from the start.

The advisory committee was appointed to assist President Justin Miller in finding the best man for this key job, the board having felt that a general manager must be put at NAB's operating helm.

Define Authority

As the convention approached, the committee is understood to have taken up the problem of defining the exact authority and duties of the general manager. Mr. Ryan is said to have made it clear that he would not be interested in the job unless it carried extensive powers over the general operations of the

industry's association.

Members of the special board committee are Clair R. McCollough, WGAL Lancaster, Pa., retiring small-station director, as chairman; Harold E. Fellows, WEEI Boston, District 1 director; Howard Lane, WJJD Chicago, retiring large-station director; Robert D. Swezey, WDSU-TV New Orleans, TV director-at-large; Calvin J. Smith, KFAC Los Angeles, District 16 director. Mr. McCollough was chairman of the board structure committee that drew up the NAB reorganization completed in February.

Ryan Background

Mr. Ryan was named general manager of KFI-KECA Los Angeles Feb. 15, 1943, when the stations were operated jointly. He had served as a teacher of marketing and business administration at Santa Clara U. and U. of San Francisco before joining Foster & Kleiser Co., outdoor advertising firm, in 1928. During his service at that firm he rose to head of agency relations, poster and promotion departments, leaving to enter radio in 1937 as an NBC San Francisco salesman.

A month after joining NBC he

Mr. RYAN

* * *

was named Northern California sales manager. With separation of NBC Red and Blue networks in 1942 he became San Francisco general manager for the Blue, and directed operation of KGO San Francisco. At San Francisco he was prominent in music circles.

Mr. Ryan married Gladys Louise Marx Dec. 29, 1928. He is a past president of the San Francisco Advertising Club. Moving to Los Angeles, he attained national stature at KFI and during the mid-'40s served on the NAB board.

Last January Mr. Ryan was elected to the NAB board for two years as a director-at-large representing large stations (see board story page 49).

H. McCOLLISTER

Killed in Plane Crash

FOLLOWING Requiem Mass in St. Martin De Tours Church, Brentwood, Calif., Howard Jerome McCollister, 46, his wife Helen Rhea, 46, and their two sons, Howard J. Jr. 15, and Elliott, 13, were buried in San Gabriel (Calif.) Cemetery last Wednesday. They were killed when his single-engine plane crashed and burned at Palm Springs, Calif., airport on April 8.

Nationally known in radio and advertising, Mr. McCollister and his brother Paul W. McCollister, operated their own regional station representative business with headquarters in Los Angeles. Business will continue under direction of Paul W. McCollister, it was announced.

Family were taking off for their Bel Air, Calif., home when caught in a gale near Palm Springs. Returning to the airport, the plane crashed against a runway and following a gasoline tank explosion burst into flames.

Besides his brother, Paul W., surviving Mr. McCollister is his father, Charles M. McCollister of Burbank, Calif. Mrs. McCollister is survived by a sister, Mrs. Donald W. Tittsworth of Altadena, Calif.

STATEMENT BY FREDERIC R. GAMBLE AAAA PRESIDENT

OUR best wishes to the National Assn. of Broadcasters for a successful convention and year ahead.

The past year, it seems to us, has been a good one in our agency-broadcaster relationship. Not only have time sales continued to increase, but national spot advertising showed the largest gain of any type of radio business.

The share of radio volume now developed and serviced by advertising agencies—well over half of the total volume—is a mutual and sizable responsibility.

This advertising must be soundly placed, if it is to pay the advertisers and bring in new and repeat business. For that reason, agencies are deeply grateful for BMB Study No. 2. We are looking to the new BAM to find the means for continuing standardized and comparable audience measurements which agencies so badly need.

The advertising must also be soundly planned by competent agencies, if it is not to fail and jeopardize the further use of broadcasting. Broadcasters, in their own interest, should be maintaining high standards for recognizing agencies and some machinery for recommending

them, such as that long enjoyed by nearly every other media group.

Not least, advertising must be paid for!

But agencies must collect from their clients in order to pay media; agencies are not financial institutions. As a financial safeguard, it is high time for many more broadcasters to allow a payment stimulus which agencies may pass to their clients; radio, and especially television, should not lean any longer on the 2% cash discounts allowed by other media.

There is no lack of constructive developments, it seems to us—there is need mainly for their wider adoption and support within the industry. May the 1950 Convention be a further move toward solidarity.

Mr. GAMBLE

NAB MEMBERSHIP is strongest in the network affiliate and FM station groups, according to an analysis submitted to the annual convention by C. E. Arney, Jr., secretary-treasurer (see membership review in main convention story page 39).

Of national network affiliates, 62% are NAB members, it was shown. The breakdown: ABC, 68% membership; CBS, 69%; MBS, 54%, and NBC, 69%.

Only 39% of nonaffiliated stations are members, according to the report. FM membership in NAB is 62% compared to 51% for AM outlets and 34% for TV stations. Total membership of 1,726, according to this pre-convention report, consists of 708 network affiliates and 431 nonaffiliates, or 1,139 of the 2,254 AM stations authorized by the FCC. The membership thus comprises 1,139 AM stations, 476 FM and 37 TV stations, plus 74 associates, with 53% of the 3,126 authorized stations belonging to NAB.

District 4 Largest

Largest membership again is found in District 4 (Va., N. C., S. C., W. Va., D. C.) with 224 stations, followed by District 3 (Pa., Md., Del.) with 152 outlets.

By dues classifications, 271 stations as of March 1 were in the lowest group, compared to 329 one year ago.

In an analysis of income and expense for the calendar year 1949, total income amounted to \$763,959, consisting of \$747,641 from member dues, \$3,413 from engineering handbooks, \$1,138 from member service subscriptions, \$11,390 from rent of the old NAB building, \$270 from sale of the Joske report, \$8 from National Opinion Research Council and \$96.47 miscellaneous. Income totaled \$817,236 in 1948 of which \$801,943 came from member dues.

Expenses in 1949 consisted of \$439,478 salaries, \$134,702 general and office expense, \$11,910 committee expense, \$81,851 travel expense, \$53,294 other expense and \$39,599 contingent expense.

The 1948 expenses consisted of \$396,882 salaries, \$99,053 general and office expense, \$23,452 committee expense, \$76,847 travel expense, \$127,091 other expense, a total of \$723,327.

Excess of income over expense was \$3,120 in 1949 and \$93,909 in 1948.

Exposition Hall Show Hours

Tuesday	April 18	9 a.m.-5 p.m.

'LIGHTNING'

By ED JAMES

ALL-RADIO promotion film, "Lightning That Talks," has been tested by Schwerin Research Corp. before an audience that was representative of the general public. The results of the audience reaction analysis are being used as a guide in the production of new versions of the film, BROADCASTING learned last week.

One significant discovery turned up by the Schwerin test was that the audience, after seeing the film, was overwhelmingly affirmative in answering the question: "Do you believe that radio advertising sells more goods than newspaper advertising."

Majority Affirmative

In response to that question, 71% said yes, only 14% no. The other 15% expressed no opinion.

The Schwerin firm showed the film at one of its regular screening sessions a fortnight ago at New York's Museum of Modern Art. The some 300 members of the testing audience were described by the Schwerin company as "fairly rep-

resentative" as a cross-section of the general public.

Schwerin used the same fundamental techniques in analyzing the film that it uses in charting audience reaction to other films and radio and television programs.

At numerous points throughout the screening of "Lightning" the audience was asked to express its liking or dislike for that particular

part of the film. At the end of the screening additional questions were asked.

On the whole, the audience was not enthusiastic about the entertainment value of the film, a result that was to be expected in the view of the Schwerin company. The film shown to the test audience was the full 38-minute version that was produced for presentation within

THESE executives from New York, Boston and Worcester, Mass., were among those who attended the dinner in Worcester on March 30 when George F. Booth, president of WTAG-AM-FM Worcester, received the first annual Isaac Thomas Award "for distinguished community service." L to r: Seated, Harold E. Krueger, WTAG commercial manager, and Robert W. Booth, general manager of WTAG.

AWB CHAIRMEN

Elected for 8 Districts

ELECTION of eight women broadcasters as district chairmen of the Assn. of Women Broadcasters was announced last Tuesday by NAB, parent AWB organization. New chairmen, comprising even-numbered NAB-AWB Districts 2 through 16, will take office following AWB's annual convention in Cleveland June 1-3.

Balloting for the chairmen was conducted by mail. Committee of three active AWB members—Mary Pauline Perry, publicity director, and Ruth Crane, women's director, WMAL-AM-TV Washington, and Nancy Osgood, women's director, WRC Washington—met with NAB President Justin Miller and AWB Secretary Bette Doolittle to canvass ballots and elect the chairmen. (Other district chairmen are elected during odd-numbered years.)

Chairmen elected were:

District 2 (N. Y. and N. J.): Doris Corwith, director of talks and religious broadcasts, WNBC New York; District 4 (D. C., Va., W. Va., N. C., S. C.): Alice Brewer White, women's director, WTAR-AM-TV Norfolk, Va.; District 6 (Ark., Miss., La., Tenn.): Elizabeth Alford, program director and continuity editor, KRMD Shreveport, La.; District 8 (Mich., Ind.): Edythe Fern Melrose, WXYZ-AM-TV Detroit, Mich.; District 10 (Iowa, Mo., Neb.): Doris Murphy, women's program director, KMA Shenandoah, Iowa; District 12 (Kan., Okla.): Ethel Jane King, women's director, KFH Wichita, Kan.; District 14 (Col., Idaho, Mont., Utah, Wyo., N. M., part of S. D.): Evadna Hammersley, program editor, KOA Denver, Col.; District 16 (Ariz., Southern Calif.): Anita Chester, administrative assistant, public affairs department, KNX Los Angeles, Calif.

'LIGHTNING' VALUE

RADIO'S celluloid salesman "Lightning That Talks," can be and will be used as a "foot in the door." Of course it is not a panacea—it's a sales tool.

That's the opinion of a broadcaster who has been instrumental in bringing the trade's motion picture to the advertiser-salesman's contract anteroom.

Mr. Gray

In an interview with BROADCASTING last week, Gordon Gray, WIP Philadelphia vice president and chairman of the All-Radio Presentation Committee, reviewed the film's reception in the cities where it has been shown and mulled "Lightning's" future.

The broadcaster who makes "intelligent" use of the film, Mr. Gray said, "will undoubtedly capitalize on it." It is important for industry people to realize that the motion picture "was very much oversold" as an idea and "regarded as a

panacea, which, of course, nothing ever is," he pointed out.

In recent weeks, Mr. Gray observed, reports of satisfactory reaction in viewing have been coming in to the committee from retailers and regional advertisers, rather than broadcasters. In light of this, he continued, it is necessary for the latter to approach the film "not as broadcasters but as retailers and regional advertisers, for apparently through their eyes the film does impress on them the great power of broadcast advertising."

Presentation Important

With this understanding of the film's role, Mr. Gray believes "if the subscribers will use it (the film) and then follow through intelligently, they will get a good return on their investment." Intelligent use of the film, he said, takes in a few pointers in presenting the motion picture to viewers.

First, the subscriber needs to understand that a 16mm film is never as good as a 35mm film, he explained. "Therefore, when show-

ing the 16mm there should be all means be a rehearsal of the film."

Enlarging on this important factor, Mr. Gray gave this illustration: In the showing before the Radio Executives Club at the Hotel Roosevelt in New York, the film technician failed to run it through rehearsal. The lighting was bad and the sound mushy. But when seeing the same film in better circumstances, he said, it was perfect. "Anyone who is showing it should be sure to run the film off first to see that conditions for showing are proper," Mr. Gray said.

Audience Response

Questions asked after the screening, and the responses were:

Did this picture hold your interest?—yes, 37%; no, 58%; no opinion, 5%.

Would you like to see this picture shown in your local movie theatre?—yes, 18%; no, 75%; no opinion, 7%.

Did you like the acting?—yes, 32%; no, 58%; no opinion, 10%.

Did you think this picture was true to life?—yes, 56%; no, 23%; no opinion, 21%.

The two 20-minute versions of "Lightning," like the full-length film, are being produced by IMPS—International Movie Producers' Service, New York, under the supervision of Victor M. Ratner.

The first of the two—the one concentrating on sales elements—is scheduled for release soon. A new sound track is said to have been produced to overcome objections to the quality of the sound on the original film, and general technical improvements are said to have been made.

The Schwerin Corp. conducted the test without fee, as a service to the All-Radio Presentation Committee.

'Foot in Door'—Gray

ing the 16mm there should be all means be a rehearsal of the film."

After Philadelphia subscribers looked at the film under good showing conditions, Mr. Gray found they decided to rent a theatre rather than use a dining room to permit favorable viewing conditions and to permit more people at the showing. "I think that wherever possible the film should be shown in a theatre and I think that subscribers will find that that is as economical a way of showing it as any," Mr. Gray emphasized.

Second, there is no doubt that

(Continued on page 58)

BMI's Decade

BMI President Carl Haverlin does the birthday honors.

TEN YEARS AGO the broadcasting industry organized a new music licensing and publishing firm in the hope that it would ease a musical monopoly that had beset it, with progressive oppressiveness, during most of radio's history.

This month Broadcast Music Inc., the organization established and wholly owned by broadcasters, is celebrating its tenth birthday. It could claim ownership and control of copyrights of several hundred thousand compositions in every musical category. During 1949 actual logged performances of BMI music exceeded 18.5 million on stations and networks.

Officials of BMI like to say that this vast repertoire and its use have cost broadcasters nothing. The explanation is that the industry is paying less today for both BMI and ASCAP music than it would have paid to ASCAP alone if the ASCAP proposal of a 7% license fee in 1940 had succeeded.

The introduction of competition into the performing rights field effectually lowers costs, expanded the available repertoires and created new catalogues in all musical classifications, it is the contention of BMI.

Early Picture Dim

Things did not look so bright in the years before the organization of BMI.

The problem of performing rights fees had plagued broadcasters for nearly 20 years, defying solution through a series of litigations, complaints to Congress, intra-industry debates and discussions. The problem had begun to reach a head in the summer of 1939 at a convention of NAB.

At that convention the NAB Music Committee which had been appointed to negotiate a new contract with ASCAP reported it had been unsuccessful in obtaining a proposal from the society.

Proposal was sought on the terms to be met when the current pact between ASCAP and the broadcasters ran out on Dec. 31, 1939. Nearly 400 stations represented at the

convention went on record as endorsing the position of an equitable payment for the use of music by radio and at the same time authorized its negotiating committee to continue its efforts to set a new agreement. Also, the broadcasters sought a clause permitting such stations as wanted it a per-piece or per-program license, should they not desire a costly blanket license based on all their revenues, and programs, whether or not they were all music.

At the same time the convention authorized its committee to take steps to provide music other than ASCAP in the event further efforts at a new pact failed and a special convention was to be called in Chicago not later than Sept. 15, 1939, to vote funds which might be needed for such measures. Meanwhile the NAB committee was to meet with an ASCAP committee on Aug.

3, 1939. On that date a lone ASCAP official, the late John G. Paine, general manager, stated that the president (Gene Buck) had gone on an extended vacation and he, Mr. Paine, had no authority to discuss a proposal, since there wasn't one to discuss.

Organization Planning

Without ado the committee set a proposed special convention in Chicago for Sept. 15, and there the machinery was set in motion to organize "an independent source of supply of music." At the same time, a New York attorney and copyright expert, Sydney M. Kaye, was appointed as special counsel and he quickly proceeded to crystallize what the broadcasters had in mind. At the meeting he presented a plan for setting up a music licensing organization that would be the property of the broad-

By J. R. POPPELE, TELEVISION BROADCASTERS ASSN. PRESIDENT

TELEVISION'S maturity as an important new industry on the American scene has been swift and startling. Its enormous impact on existing media has bowled over many who were unprepared for such important growth in so short a time. Fortunately, there were large segments which sensed the possibilities years ago and are today making the most of what is likely to be a happy situation for years to come.

Mr. POPPELE

Periodic conclaves, bringing together as they do the best minds in all phases of broadcast operations, are a healthy sign, for they demonstrate the awareness of the industry to problems that are current and that lie ahead. The technical papers to be presented during the NAB Convention indicate that broadcasters are alert to new trends and are coping with them. The economics of television, as they affect all branches of broadcasting, must also be reviewed from time to time.

It is apparent that only by tackling problems with honesty and conviction can the hurdles on the road ahead be surmounted. Television is proving a challenge in many ways, but none greater than the challenge to all parties to make the most of its unlimited potentialities.

casters, all prepared within the month.

In Chicago, some 250 broadcasters were in attendance at the NAB special meeting and they agreed to contribute 50% of their 1937 ASCAP fees, pledging themselves to a minimum of \$1.5 million to get the proposed new music organization under way. One month later, Oct. 14, 1939, the state of New York granted a corporate charter to Broadcast Music Inc. Almost coincidentally, the president of ASCAP, Mr. Buck, set up a new committee to draft a radio contract. The newly born BMI, under the leadership of Mr. Kaye, was now closing ranks in its drive to organize and on Feb. 15, 1940, BMI was declared operative. Exactly 246 stations pledged \$1,140,375 as a starter.

Ten years ago, April 1, 1940, BMI began licensing radio stations.

Some weeks before, on March 21, ASCAP had suddenly called to its offices a special group of hand-picked broadcasters, network and station men, and presented to them its new terms for use of its music on and after Jan. 1, 1941. It was a 100% increase in ASCAP revenue from radio, particularly from networks and large stations.

Small Station Aid

Some small outlets which were barely weathering the depression and had little income anyway, were going to be let off lightly.

Objective of BMI and the broadcasters was to build up a huge stock of non-ASCAP music to keep stations and networks on the air after Dec. 31, 1940. BMI went about coordinating an ample body of music not controlled by ASCAP of every classification. This non-ASCAP music was obtained from three principal sources: (1) Popular songs by independent authors and composers, (2) music of non-ASCAP publishers and performing rights societies, and (3) new copy-

(Continued on page 50)

ABC STOCK UP

Profit Report Brings New High

A REPORT that ABC showed a profit in the first quarter of 1950 touched off a buying spree that sent the network's stock to a new high—\$12.75—on The New York Stock Exchange last Tuesday.

The report was made by Edward J. Noble, ABC chairman of the board, at the annual stockholders' meeting. News of the favorable earning picture spread quickly to Wall Street, and heavy trading in the closing hour of the day moved the stock in an advance of 1% above its closing price the day before.

Amount Not Disclosed

Mr. Noble did not disclose the amount of profit earned by the network in the first quarter of 1950. That ABC showed a profit at all was regarded as a measurable improvement over its reports for the similar period last year. In the first quarter of 1949 ABC had a net loss of \$64,010.

The ABC chairman of the board and majority stockholder said that television financial prospects were also brightening. Mr. Noble told the stockholders that the network's

five owned and operated television stations were still operating in the red but that three of them ought to break into the black this year.

He predicted that within a few months KECA-TV Los Angeles

would show a profit and that KGO-TV San Francisco and WXYZ-TV Detroit would get into the black soon afterward. WENR-TV Chicago and WJZ-TV New York are in for a longer pull, he said.

STATEMENT BY PAUL B. WEST, ANA PRESIDENT

THE OPPORTUNITY offered by BROADCASTING to have a share in greeting the radio industry at the time of the NAB annual meeting is always gratifying. This year, however, it is particularly so.

Our ANA spring meeting is just over. Naturally, radio and television were on the agenda. And, let me say right at the outset, few, if any subjects on our program elicited the interest of advertisers to the extent our radio session did.

We were fortunate in our speakers. Such prominent members of your industry as Niles Trammell and Frank Stanton as well as A. N. Halverstadt, Procter & Gamble Co.; Howard M. Chapin, General Foods Co.; Robert B. Brown, Bristol-Myers; Leonard T. Bush, Compton Adv.; Marion Harper Jr., McCann-Erickson Inc.; and A. C. Nielsen, A. C. Nielsen Co. were on the panel. What was done at this session of our meeting has already been reported by the press. But some of the questions put to this group will, I believe, be of interest. They are indicative of what advertisers are thinking and are, in many ways, as significant as the answers themselves.

Television's growth, naturally, was one of the first things ANA members wanted to hear about. They asked: "How long is the freeze likely to continue?" "What are the estimates for future television set ownership?" "When can we expect television time costs per thousand

(Continued on page 60)

Mr. WEST

The network's net revenues (after discounts) in television were more than half a million dollars in the first quarter of 1950, Mr. Noble said. In the same period of 1949 net revenues were \$30,000.

Within minutes after the stockholders' meeting was told of the financial gains, the stock market flurry in ABC trading began. A total of 41,300 ABC shares was traded during Tuesday.

The brisk trading made ABC the second most active stock on the exchange on Tuesday. It was led only by RCA whose shares listed on the exchange are more than 10 times the 1,689,017 shares of ABC outstanding. (RCA prices slipped % Tuesday while ABC's were rising 1%. But on Monday RCA prices reached a record high for the year, at one point going for \$20. The heavy RCA trading was believed to be due at least partly to the declaration of an extra 25-cent dividend last Friday.)

Sale Rumors Denied

Mr. Noble also vigorously denied rumors of an impending sale of ABC. In response to a question raised at the stockholders' meeting, Mr. Noble said that such rumors were without foundation. He pointed out that he had not sold "a single share" of his own ABC holdings—901,667 shares owned directly and 64,000 controlled by members of his family and a foundation of which he is trustee.

All incumbent members of the ABC board were re-elected at the meeting. The board, in turn, re-elected all officers of the firm.

Philip Morris Moves

PHILIP MORRIS Ltd. (cigarettes) May 9 moves *This Is Your Life* with Ralph Edwards from NBC to CBS, Tuesday, 9:30-10 p.m. Biow Co., New York, is the agency.

OKLA. ASSN.

Bernard Heads New Group

FORMAL organization of the Oklahoma Broadcasters Assn. has been completed by the election of officers, it was announced last week. By mail ballot, 25 AM and TV broadcasters elected J. J. Bernard, manager of KOMA Oklahoma City, as president.

Other officers of the newly formed association are:

L. F. Bellatti, manager, KSPI Stillwater, vice president; George Tarter, manager, KCRC Enid, secretary, and P. A. Sugg, manager, WKY Oklahoma City, treasurer. Named to the board of directors, other than the officers, were Helen Alvarez, manager, KOTV (TV) Tulsa; Allan Page, manager, KSWO Lawton; Harold King, manager, KHBG Okmulgee; John Esau, manager, KTUL Tulsa, and Albert Riesen, manager, KVSQ Ardmore.

As outlined by President Bernard, the purposes of OBA as an affiliation of AM and TV stations is to represent the industry before government and business and to present a "common front for the advancement of the industry and general benefit of AM and TV business."

The charter membership of OBA is comprised of the following outlets:

KADA Ada, KWHW Altus, KVSQ Ardmore, KWCO Chickasha, KRHD Duncan, KSEO Durant, KCRC Enid, KSWO Lawton, KTMC McAlester, KMUS KBI, both Muskogee; KNOR Norman, KBYE KLPR KOCY KOMA KTOK KTOW WKY, all Oklahoma City, KHBG Okmulgee, KSPI Stillwater, KOME KOTV KRMG KTUL, all Tulsa.

'GAMBLING' PROBE

SENATE subcommittee hearings on the Justice Dept. bill (S 3358) to control broadcasts and other interstate transmissions of "gambling information" are slated to get under way today (Monday) following postponement of sessions originally scheduled for last Tuesday.

Instead of starting hearings as scheduled [BROADCASTING, April 10], the communications subcommittee of the Senate Interstate and Foreign Commerce Committee conferred in closed session with Justice Dept. officials last Tuesday on the intent and impact of the proposed anti-gambling legislation.

Attorney General J. Howard McGrath—whose absence from Washington was given as primary reason for postponing the hearings last week—heads the list of witnesses scheduled to appear today, along with James M. McInerney, assistant attorney general in charge of the Justice Dept.'s Crim-

inal Division. No date has been set for the testimony of FCC Chairman Wayne Coy, who had been supposed to testify at last Tuesday's session.

FCC is known to oppose the bill, contending it is too complicated and would create too great a policing burden for the Commission. FCC prefers a bill which would provide, with less complexity, for a ban on broadcasting, telecasting, or common-carrier transmissions of information on bets, odds, and prices paid in gambling on sports events.

Interstate Ban

The Justice Dept. bill would forbid interstate transmission of "gambling information" on sports events, and in the case of horse races would require stations to delay the broadcast of details for at least an hour after the races are run. Stations would be limited to the broadcast of one horse race per day.

Senate Hearing Opens

Sen. E. W. McFarland (D-Ariz.), head of the Senate commerce committee's communications subcommittee, reiterated that radio and TV station representatives will be given a chance to give their views on the measure. Sen. Ed C. Johnson (D-Col.), chairman of the Senate commerce committee, introduced the legislation but made clear that he was acting on request of the Justice Dept. and did not necessarily endorse the proposal.

He said that actually he felt "there is a border line between gambling information and legitimate news," and that Constitutional guarantees of freedom of information might be involved.

Meanwhile it appeared that Sen. Johnson's separate resolution calling for a more far-reaching investigation of gambling in interstate commerce had been shelved. Senate Democratic leaders, faced with

(Continued on page 58)

'UNIFORM POLICY'

FCC Urged To Consider Case-by-Case

FCC WAS TOLD last week that its "uniform policy" toward violations on non-radio laws should be to adopt no uniform policy other than a case-to-case approach.

Most of the dozen briefs and statements filed by Monday's deadline dealt primarily with the weight which FCC should give—or not give—to applicants' anti-trust law involvements, a question which is holding up Commission action on a number of applications.

Almost uniformly, they held that law violations—whether anti-trust laws or others—should not be taken into consideration unless they relate to "character" and raise questions as to the probability that the violator-applicant will operate "in the public interest."

The hearing, originally called last January [BROADCASTING, Jan. 30], is set for April 24.

The Justice Dept., only non-radio organization to file a brief, contended that an applicant's anti-competitive practices should be considered whether they involve actual anti-trust violations or not. Even the Justice Dept., which limited its comments to "anti-competitive conduct," felt FCC should approach the problem on a case-to-case basis.

Cites Congress Policy

The department contended Congress intended the broadcasting industry to operate "on a competitive and not a monopolistic basis," and that it is "of the greatest importance that licenses . . . be awarded to those who will exercise the proper self-restraint and avoid misuse of their powers."

The Commission's function in passing upon license applications, Justice Dept. said, is to determine "probable future conduct in relation to the public interest." A "single misstep many years ago," the department conceded, might not be a fundamental factor if the applicant has not more recently displayed anti-competitive inclinations. But, "unlike remoteness in time, the fact that the applicant's conduct is remote from the communications field should make little difference," the brief asserted.

"Such practices as false advertising, discrimination against customers, the use of boycotts, predatory action against competitors, etc.," the department contended, "become all the more dangerous—and the applicant who uses such practices all the more objectionable as a licensee—because of their adaptability to the communications field."

Justice Dept., whose brief was filed by John S. Stedman, special assistant to the Attorney General, also apparently assumed that monopoly of communications is involved "when the only newspaper in a community seeks a license to

operate the only broadcasting station."

Among the others who filed briefs or statements, former FCC Chairman James Lawrence Fly felt the questions posed by FCC in calling the hearing are "naive" and "represent a childish groping for certainty."

"With all deference," he wrote, "I suggest there is no trick substitute for sound judicial and administrative discretion."

He felt that proof of "serious violations of law" is "clearly pertinent on the issue of character." But he pointed out that offenses vary. The important consideration is the "quality of the offense and

its current impact upon the question of character," he said.

Attorney Paul A. Porter, another former FCC chairman, filed a brief for Paramount Pictures Corp. denying that FCC has power to effectuate any uniform policy which would deny broadcast licenses on the ground of a previous law violation.

He noted that Paramount signed a consent decree in the recent motion picture anti-trust case, and contended that therefore the "industrial structure which occasioned the assailed practices" has been destroyed. The purpose of the anti-trust laws is remedial, not punitive, he said, contending that de-

nial of Paramount's television applications would represent a penalty contrary to the concept of anti-monopoly legislation.

Our Suite

HEADQUARTERS of BROADCASTING during the NAB Management Conference are at the Stevens Hotel in Suite 1206.

Mr. Porter claimed FCC may not put inherent significance on anti-trust violations outside the communications field. He also cited court decisions holding "that a discontinued violation of the anti-trust laws is no ground for withholding the enjoyment of a patent, which, like a broadcasting license, 'is a privilege which is conditioned by a public purpose.'"

Westinghouse Electric Corp., dealing with the question of anti-trust violations, maintained that FCC's authority is "limited to . . . violations that have some direct and proximate bearing upon the public interest in radio communication," and does not extend to "a field of business unrelated to radio communication."

The brief, filed by Westinghouse Attorney John W. Steen, said the company had been involved in past anti-trust cases, but pointed out that they reflected in no way upon Westinghouse's ability to operate radio stations. He cited the company's broadcasting record as proof of its ability to operate in the public interest.

NAB Files Brief

NAB, in a brief filed by General Counsel Don Petty and Attorneys Vince Wasilewski and Sidney Farr, asserted FCC has no authority to establish a uniform policy on non-radio law violations.

The brief contended that Constitutional limitations prohibit Congress from granting FCC the power to make law; that Congress did not delegate authority to establish the proposed uniform policy, and that, additionally, establishment of such a policy would go beyond the Communications Act and violate the Administrative Procedure Act.

On behalf of Warner Bros.' KFWB Los Angeles, Washington Attorney John P. Southmayd reminded FCC it has consistently handled the question of law violations on an individual or comparative basis, and said: "It seems impossible to adopt a statement of policy sufficiently flexible to cover the individual factors and circumstances necessarily involved in widely varying violations or alleged violations of law—federal, state, and local, civil and criminal."

Although Warner Bros. was in-
(Continued on page 54)

STATEMENT BY JUDGE JUSTIN MILLER, NAB PRESIDENT

THIS YEAR'S NAB Convention . . . will reflect the growing consciousness of broadcasting's impact upon the affairs of the world and its responsibility for helping to shape the world of the future.

Some of the world's most important men, leaders active in world affairs . . . will be speaking to men who are, also, in their way, vitally

JUDGE MILLER

important in the generating of ideas concerning world affairs and the communication of those ideas by broadcasting. All this is in conformance with the established policy of the Association that the annual convention shall be a top-level management conference, as distinguished from the District Meetings which are conducted on a workshop basis, and at which bread-and-butter considerations such as selling, are given top billing.

But a convention planned and programmed on a management level does not exclude the workshop phases. The exhibit hall, the

Engineering Conference, the meetings devoted to FM, to TV, and to the interests of non-affiliated stations all provide rich substance for broadcasters whose interests lie in those directions. At the business meeting on Tuesday morning, opportunity will be afforded for discussion of important industry issues, which this year will include consideration of the proposed new BAM. Moreover, the staff directors of NAB will be available throughout the convention for individual consultation. Members are urged to get in touch with them for the discussion of subjects of particular interest.

Conventions Produce Results

These, then, are some of the reasons why NAB conventions are popular and productive. The scheduled program gives color, form, authority and sanction upon the management level. The collateral activities provide outlets for particular interests. NAB specialists are available for professional consultation and advice. But after the work of the planning committee and the NAB staff are done, the broadcasters themselves make their own convention, in every sense of the word.

Perhaps most important of all, is the opportunity which is provided for broadcasters from all over the country to come together in twos and threes to compare notes and trade experiences. Put two such persons in the same room and constructive ideas are sure to emerge; revenue-producing ideas, programming ideas, and others affecting all phases of broadcasting. Broadcasting is like that: its practitioners, even those who are least vocal, are men of ideas. They are, in the best sense, pioneers whose art and profession depend upon the creative resiliency of their minds; upon their capacity to work effectively—with kinetic energy it might be said—in the unsettled complex of ideas which characterizes present-day civilization.

This 28th annual membership meeting promises to be one of the best in the association's history, with major decisions to be made. It should not be missed by broadcasting management.

ELECTRONIC progress from the viewpoint of the engineer was revealed to a half-thousand of the nation's leading technical specialists at the NAB Engineering Conference last week as the NAB's annual convention week opened at the Stevens Hotel, Chicago (see NAB Management Conference story page 39).

While preliminary events on the agenda of the Fourth Annual NAB Engineering Conference got under way Wednesday, actual discussions of technical developments opened Thursday morning with the reading of a series of technical papers covering the new and the novel aspects of radio engineering.

More pronounced than usual was the emphasis on the practical economics of broadcast and telecast engineering. Several times during the Thursday-Friday sessions this phase of technical progress was discussed. It was slated for heavy emphasis Saturday morning. Judging by indications during the opening days of the conference, the highlight of the four-day agenda was expected to be the Saturday morning FCC-Industry Roundtable, an annual event that has brought better understanding of common problems affecting the regulatory and operating sides of broadcasting and television.

Mr. Bailey

These practical problems were discussed at length during an all-day meeting of the NAB Engineering Committee. The committee convened Wednesday morning.

Members Preside

Members of the committee presided at the three-per-day sessions of the Engineering Conference, along with Neal McNaughten, NAB Engineering Director. They served in an advisory capacity to Mr. McNaughten in the advance conference arrangements, with Jessie Basnight, of the Engineering Dept., as assistant.

Not officially billed as a conference topic was the unsettled NARBA situation. Committee members worked over the NARBA stalemate at length and industry engineers were expected to bring up the topic at the Saturday morning roundtable.

On the Saturday morning agenda, prior to the roundtable, were two papers. W. Earl Stewart, member of the NAB Recording & Reproducing Standards Committee, was scheduled to open the Saturday proceedings with a review of advances in magnetic recording, outlining the advantages of standardization and taking a peek into the future of this newer form of sound reproduction. George Adair, Washington consultant, was to explain the FCC's audio proof of performance measurements and suggest ways of recording these measurements and utilizing them.

Richard P. Doherty, NAB Em-

ploye-Employer Relations Dept. director, was to explain the need of harmonious employe relations in the engineering department as a means of attaining operating efficiency and keeping expenses at a minimum.

Following Mr. Doherty on the agenda was the FCC-Industry Roundtable, with Stuart Bailey, of the Jansky & Bailey consulting firm, serving as moderator. Appearing for the FCC were to be Curtis Plummer, recently named chief engineer; John A. Willoughby, assistant chief engineer; James E. Barr, chief, Standard Broadcast Division; Cyril M. Braum, chief, FM Broadcast Division; Edward W. Allen, chief, Technical Research Division; Edward W. Chapin, chief, Laboratory Division.

Industry Representatives

Scheduled to appear for the industry were Raymond F. Guy, NBC; E. K. Jett, WMAR-TV Baltimore; E. M. Johnson, MBS; William B. Lodge, CBS; Frank Marx, ABC; Robin D. Compton, WOIC (TV) Washington, and Mr. McNaughten.

Only remaining Engineering Conference event, following the roundtable, was to be a meeting of the NAB Recording & Reproducing Standards Committee, scheduled for 3 p.m. This committee

has been working nearly a decade to bring uniformity in the equipment, processes and standards involved in various types of recording. Many of the standards are in worldwide use and those developed by the committee from time to time have been gaining equal recognition.

Among the new standards developed by various subcommittees are those covering wow factor (reproducing), turntable platen (reproducing), concentricity of center hole, all in connection with mechanical recording; magnetic tape reel and primary standard flange, accommodating 30 minutes of recording.

Delegation Arrival

Delegates to the Engineering Conference started arriving late Tuesday. Large numbers registered Wednesday morning and afternoon, utilizing the relatively free day to inspect in detail the heavy equipment exhibits in the Stevens' Exposition Hall and the light equipment shown on the "Magical Fifth Floor."

Exhibitors presented for the first time some of the latest refinements in transmitters, towers, turntables, amplifiers, studio consoles, and similar devices. [Exhibits were described in the April 10 BROADCASTING]. Many engineering delegates planned to inspect exhibits over the weekend with their station's top management delegates.

This annual display of equipment as well as program, research and other forms of broadcast serv-

NARBA PROBLEM

NAB Engineering Group Mulls

CUBAN and Mexican interference with U. S. broadcast service occupied most of an all-day meeting held Wednesday by the NAB Engineering Committee as the NAB Engineering Conference opened at the Stevens Hotel, Chicago (see main Engineering Conference story, this page).

The committee recessed late Wednesday and planned to meet again Friday afternoon to go further into the NARBA situation. No recommendations were adopted Wednesday but it was indicated the committee might have a series of suggestions for submission to the NAB board at its Saturday (April 15) meeting. Originally the board had planned only to discuss the naming of a general manager.

Neal McNaughten, NAB Engineering Dept. director, reported on NARBA developments starting with the Montreal sessions last autumn and continuing with accounts of his Havana and Mexico City observations. Committee members joined in an exchange of views led by Chairman A. James Ebel, WMBD Peoria, Ill.

It was the first committee meeting since the 1949 NAB Engineering Conference. Members were told by Mr. McNaughten that Mexico is making a series of skywave measurements. These have just started and may require several months for recording and analysis.

Desire for extension of FCC skywave curves to latitudes below 35 degrees was expressed by Mexico, Mr. McNaughten said, recalling that Canada inspired extension of the curves into higher latitudes.

NAB President Justin Miller attended the meeting and took part in the NARBA discussions.

Agenda Endorsed

The Committee enthusiastically endorsed the agenda for the Engineering Conference and adopted a resolution calling for a similar meeting in connection with the 1951 NAB Convention Week.

Mr. McNaughten reported a continued demand for the newly revised NAB Engineering Handbook, of which 1,400 copies have been distributed to members plus another 500 sold separately. He suggested the committee take a position on the type of activities the

Engineering Dept. should handle in view of the growing membership demand for advisory services and the increased pressure coming from international developments. Prospect of a resumption of NARBA meetings in the U. S. next summer or autumn was discussed.

Report on new recommendations of the NAB Recording and Reproducing Standards Committee was discussed. These were taken up at a committee meeting Saturday.

The committee reviewed the FM protection situation. NAB last week had asked the FCC to hold a hearing on the proposal to give further protection to Class B FM stations in Area 2 as a means of improving service in rural areas [BROADCASTING, April 10].

Suggestion was made that the FCC clean up its AM Engineering Standards.

Attending the Wednesday meeting, besides Messrs. Miller, McNaughten and Ebel were Jack R. Poppele, WOR New York; E. M. Johnson, MBS; K. W. Pyle, KFBI Wichita, Kan.; Oscar C. Hirsch, KFVS Cape Girardeau, Mo., and Frank Marx, ABC.

NAB STRIKES SOMBER NOTE

By J. FRANK BEATTY

UPWARDS of 1,500 broadcasters converged on Chicago at the weekend for the 28th annual NAB Convention. At a three-day convention at the Stevens Hotel they were to receive a series of messages centering on a new theme—the responsibility of the broadcaster to his country, to the world and to the whole American economy.

Not for years has a convention program been built around so somber a note. The agenda for the Management Conference, starting tomorrow noon, has been tailored for the management level. It carries the formal designation, "The American Broadcaster's Responsibility in the World Today."

Like the Assn. of National Advertisers and the American Assn. of Advertising Agencies, which met separately and then jointly just a fortnight ago [BROADCASTING, April 3], the NAB's annual program is designed to impress those who influence the nation's thinking that the present world situation is serious—more serious than most executives and most people believe.

Stress World Affairs

The idea of a program centered on top management problems and their relation to world and national affairs emanated from the NAB board's meeting in Washington last November. The Convention Sites & Planning Committee has come up with speakers well-known to the trade. They include Wayne Coy, FCC Chairman, Herman W. Steinkraus, president of the Chamber of Commerce of the U. S., and Paul G. Hoffman, ECA administrator.

The planners have carried out the board's instructions, directed by Howard Lane, WJJD Chicago, committee chairman and retiring NAB director-at-large for large stations, who worked with Robert K. Richards, NAB public affairs director. Other members of the committee are Charles C. Caley, WMBD Peoria, Ill., and James D. Shouse, WLW Cincinnati.

A board meeting was planned

Saturday noon to consider proposed nominees for the new NAB headquarters post of general manager (see board story and general manager story page 45).

Convening of the 28th annual meeting finds the association facing a membership problem ascribed principally to the increase in dues for the four lower classifications plus elimination of the 12½% discount put into effect last summer. The NAB board ordered these dues changes at its February meeting, effective April 1.

Membership Status

Since February some 70-odd stations have withdrawn from membership. These are predominantly low-income stations, though KVOO Tulsa, 50 kw outlet, is understood to have withdrawn. In the lowest income bracket dues were nearly tripled as a result of the doubled fee plus elimination of the discount.

Thirty new members had joined NAB since February, as of April 1, leaving a net loss of roughly 40 members. Last Feb. 28 there were 1,150 AM station members in

NAB. By April 4 the number had dropped to 1,110, or approximately half of the 2,200 AM and AM-FM outlets.

Of the resignations, 80% are declared to have been influenced by the higher dues they would have been required to pay as of April 1. Nine FM station members were lost due to the fact that they were deleted. Three new associate members joined prior to the convention.

Possibility arose that other stations might have decided to remain within the NAB fold through April so they could take part in the convention, with some of them making up their minds after the convention whether to stay or resign.

Steps to stage a membership drive have been considered by the board, and plans have been underway to hire a field representative whose main job would be to recruit new members and contact old ones.

Early convention activities centered on practical workshop problems. The Engineering Conference, which opened last Wednesday, explored new horizons in the technical fields and reviewed new developments in equipment and

As Convention Opens

processes (see engineering story page 40).

RADIO'S PLACE SECURE

Says Campbell

NETWORK RADIO, although it will be affected by TV, is too big and efficient to go out of the picture, and radio probably will continue to fill a need that no other medium can, Wendell Campbell, CBS Western sales manager, asserted Wednesday. He answered the question, "Is Radio Here to Stay?", with an emphatic affirmative at a luncheon meeting of the Chicago Radio Management Club.

Speaking primarily of network radio, Mr. Campbell cited major reasons why it will continue to be successful: (1) The population is increasing, and a large number of new families will be exclusively radio homes. (2) There is a time and physical limitation to the amount of viewing which can be done, with no such limitation in radio (referring to TV's demand for undivided attention). (3) Increasing

car ownership, with most new cars radio-equipped. (4) More leisure time, with much of it spent out-of-doors, where use of portable radios is popular.

Mr. Campbell pointed out that it takes 200 hours for a car to be driven 5,000 miles per year at an average of 25 mph. "And the only medium which can reach the car audience is radio." This is equal, he said, to 50 days of listening in the average home.

Limited TV Approach

Most network advertisers are approaching video on a "limited front," he asserted. He cited ratio of AM to TV shows for the following clients: Miles Labs., 8 to 1; Procter & Gamble, 20 to 1; Lever Bros., 8 to 1; Colgate, 5 to 1 and Chesterfield, 5 to 2.

Among network TV advertisers,

half never used network radio or used it only spasmodically as "in and outers." Mr. Campbell pointed out that much of TV's money will come from new advertisers or will be paid for by new budget allocations. He believes "all major media can emerge from this period of transition with more revenue." Cost in relation to sales is going down, advertising appropriations are being enlarged continually and income continues to go up, he said.

"The curve of interest doesn't slide downward in radio, and more time is spent in radio listening than on anything else except working or sleeping," he said. Anticipating network radio expansion, Mr. Campbell said CBS for the first quarter of this year billed 4% more business than during the same period last year despite TV.

• Analysis of Advertisers by Product Groups — Radio page 64; TV page 135 •

**IT'S EASY,
WHEN YOU
KNOW HOW!**

FAR-SIGHTED radio advertisers know that experienced stations with a flair for programming are the only ones that can really drive home a sales story. And that's especially true here in Dixie. . . .

At KWKH we've built up a terrific Southern Know-How during 24 years of broadcasting to our own audience, in our *own* area. Shreveport Hoopers prove that we're spectacularly successful in attracting and holding this audience:

For Jan.-Feb. '50, KWKH got a 100.9% greater Share of Audience than the next station, week-day Mornings—16.6% greater, weekday Afternoons—76.2% greater, Evenings!

KWKH commands a tremendous rural listenership throughout the booming oil, timber and agricultural regions of the Central South, as proved by BMB.

Write to us or ask The Branham Company for all the facts! You'll be glad you did!

along with the station's top-rung caller, John Dolce.

State leaders, now being selected by the dance committee, will in turn choose 10 sets of dancers to represent their states. The international event will coordinate square dancing activities which heretofore have been local. "There have been a number of fine state or regional promotions," Mr. Snyder said, "but square dance and folk music leaders agree that the impetus and prestige of nationwide promotion is necessary to bring square dancing really into its own."

Local Last Fall

WLS, in cooperation with the Chicago *Sun-Times* and the city Park District, sponsored the Chicago Square Dance Contest locally last fall. The competition element has been eliminated from the upcoming festival, however, because

of the difficulty in judging. Walter Roy, director of the Chicago Park District's recreation division, is general chairman. George C. Biggar, *WLS National Barn Dance* director, is vice chairman, and John Drake, WLS promotion manager, is coordinator of all activities.

State chairmen selected thus far for the Oct. 28 event include representatives from Minnesota, Wisconsin, Illinois and Indiana. Canada is expected to be represented also.

The national promotion is an outgrowth of "a poll of recreation leaders over the nation which confirmed our own observations through the years that square dancing is the finest form of recreation for both young and old," Mr. Snyder said. He described it as a family pastime "with countless health and other benefits."

NEW poetry program on KWKW Pasadena, Calif., *Love's Notebook*, moves to Sunday, 7-7:30 p.m.

Adams Accolade

THERE'S NO DOUBT that Cedric Adams, WCCO-CBS Minneapolis commentator, is appreciated in his home town. At a testimonial banquet attended by some 800 persons, Minneapolis businessmen tabbed him as the city's "number one ambassador," and showered Mr. Adams and his family with gifts, among them a new Cadillac convertible. Bob DeHaven, of WCCO, was m.c. at the dinner.

Open Mike

(Continued from page 32)

slowed by an unnecessary re-allocation of frequencies by the FCC, causing manufacturers and consumers alike to throw up their arms in disgust.

In the current mad scramble for TV, manufacturers have failed

miserably to produce FM sets which are in any sense of the word worthy of the nomenclature of frequency modulation.

George K. Thompson

Re: Peggy Lee Start

EDITOR, BROADCASTING:

Was interested in your picture of the Peggy Lee return to North Dakota and the Winter Show here at Valley City [BROADCASTING, March 27]. . . . It stated . . . Peggy got her radio start on WDAY Fargo. While she did sing at WDAY and received a lot of help there the story is wrong in that Peggy's first radio appearance was over KOVC in Valley City . . .

. . . Am enclosing . . . clipping from the Minneapolis Tribune. . .

Robert Ingstad
Station Manager

KOVC Valley City, N. D.

[EDITOR'S NOTE: Stations KOVC, WDAY and all of radio can be proud of the rise to stardom by Peggy Lee. A double page picture spread in the Minneapolis Sunday Tribune for April 2 credits station manager Robert Ingstad with giving Peggy her first radio job in 1937. Our hats are off to the champion talent picker for that year.]

On All Accounts

(Continued from page 30)

two quarter-hours weekly of *Surprise Package* on 68 ABC Western and Southern stations, the orange drink firm had done only spotty participation before its large splash into radio in November of last year. At that time the firm started quarter-hour weekly sponsorship of that program on 15 ABC Western stations; renewed the schedule after 13 weeks; March 2 increased it to twice weekly on 68 stations; and April 3 upped it to five times weekly on the same number of stations. In the near future the firm plans transcontinental sponsorship of the program.

Greenspot also currently is sponsoring the three-weekly, quarter-hour *Jam, Jive & Gumbo* on WJMR New Orleans.

Carl also is account executive on Pierce Bros., Los Angeles (mortuary), account. Firm recently completed a heavy spot radio schedule in addition to television programming on Los Angeles stations.

Born in 1905 in Marion, Ind., Carl Kennedy Tester received his early schooling in Toledo. During his four years at the U. of Toledo he was editor of the college annual for two years in succession.

Current club activities include membership in University Club, Los Angeles Advertising Club, Copy Club and West Hills Hunt Club. He is past president (for last two years) of Southern California Chapter, AAAA.

The Testers, who were married in 1929, live in San Fernando Valley on their quarter-acre Rancho Mariposa. Daughter Kay, an "accomplished horsewoman" at 16, far from having advertising inclinations, is planning to become a doctor of veterinary medicine. Walter, 6, has expressed no specific inclinations in any direction.

South's Greatest Salesman Leads in Merchandising

Every place folks go in New Orleans, WWL's big visual promotion campaign is on the job—selling your program!

On the street—colorful 24-sheet posters, streetcar and bus dash signs.

In the store—stack signs, posters, displays.

In the home—big newspaper ads—tempting listeners with WWL's varied attractions. No other New Orleans station gives you so *much*—so *often*—to build listenership.

Leads in Hoopers, Too

Latest Hooper proves that WWL outranks all other New Orleans stations in share-of-audience. Evenings, WWL takes a greater share-of-audience than next two stations combined.

Re: KTLN Purchase

EDITOR BROADCASTING:
In your April 3rd publication appears an article on page 66 concerning KTLN Denver, in which you state Alf M. Landon trans-

ferred the station to me for consideration of \$5,000 and that I am present owner of 35% stock in KVLC in Little Rock.

I own 47% stock in KVLC Little Rock, and paid Mr. Landon \$45,000 for KTLN Denver. I also propose to spend an additional \$15,000 on improvements.

Leonard Coe
Manager
KVLC Little Rock, Ark.

[EDITOR'S NOTE: We regret the error. The dollar mistake was a typo. Just

shows how easy it is to run through \$40,000 these days.]

* * *

KDTH Tops WSSV

EDITOR, BROADCASTING:

Mr. Lowell, WSSV, [OPEN MIKE, March 27] suggested somebody might make it five people in Little Theatre cooperation, by a radio station. We can go further. In the April production of "Light Up the Sky" by the Playmakers of this city, the following KDTH and KDTH-FM people will help light up: Vern Stierman, assistant program director; Maurie Miller, announcer; Virginia Van Patten, music director; Red "McGregor" McAleece, sports director; Dom Goodman, continuity editor; Bill Thomas, announcer; Martha Shorten, women's features director; and the show is under the direction of Arnie Stierman, program director. Roger Kutsch, filing clerk, will act as call boy, and the whole production is sound engineered by Bob Hancock, chief engineer.

Anybody want to go further?

Arnie Stierman
Program Director
KDTH-AM-FM Dubuque,
Iowa

TWO CITIES — SOUTH BEND AND MISHAWAKA — ARE THE HEART OF THE SOUTH BEND MARKET

The city of Mishawaka begins where the city of South Bend ends. They are separated only by a street. The two cities form a single, unified market of 157,000 people.

Be sure to count both cities when you study this market. It makes a big difference. Here's how: in 1948, South Bend ranked 90th in the nation in food sales, with a total of \$36,129,000. But when Mishawaka's 1948 food sales are added, the total becomes \$45,385,000—and South Bend-Mishawaka jumps to 69th place! A similar picture is reflected in all other sales categories in this two-city market.

Don't forget, either, that South Bend-Mishawaka is only the heart of the South Bend market. The entire market includes over half-a-million people who spent more than half-a-billion dollars on retail purchases in 1948.

And only WSBT covers all of this market.

Color Blues

EDITOR, BROADCASTING:

... They [FCC Commissioners] are still considering the color TV problem to the exclusion of everything else. This goes on even though the technical aspects of color are as confused as ever. Meanwhile, FM stations are folding up by the dozen and AM applicants are losing the revenue that baseball broadcasts, etc., would provide. This color business is giving a lot of us red ink and a blue outlook—while we wait for the green light! ...

Robert M. Beer
General Manager
WATG Ashland, Ohio

* * *

Champions FM

EDITOR, BROADCASTING:

... Why ... are there not more FM stations than AM now on the air? The answer, it seems, can be traced to two sources, the manufacturer and the broadcaster. FM has been steadily and cautiously progressing for over a decade. Television, on the other hand, has mushroomed with nightmarish proportions. Manufacturers, dealers, broadcasters, and the public, of course, have demonstrated great interest in television, and have done their utmost to accelerate its growth. Because of this, FM, which ultimately will be the only truly acceptable form of radio broadcasting, was shoved into the background. Progress was further

MEET THE NETWORK THAT WAS MOTHERED BY NECESSITY...

THE PACIFIC REGIONAL NETWORK

Newcomers to California since 1940 alone represent a LARGER consumer group than the ENTIRE population of 38 other states. This fast flowing tide of new residents (3,833,000 in 10 years) has boosted California to second place in retail sales.*

This mass population shift has created new problems for national and regional advertisers, requiring reshuffling of advertising allocations and the development of new advertising channels to SEEK OUT and sell the consumer. Existing California media lacked the flexibility, the extensive and INTENSIVE statewide coverage to cope with this vast and ever-expanding consumer group. That's why we say the Pacific Regional Network was mothered by necessity.

*SRDS CONSUMER MARKETS 1949-50

RETAIL SALES POTENTIALS:

NEW YORK	\$13,792,000,000
CALIFORNIA	\$11,080,000,000
PENNSYLVANIA	\$8,504,000,000
ILLINOIS	\$7,771,000,000

EXACTLY WHAT IS PRN?

A network of standard broadcast stations in virtually every significant market in California, linked by high fidelity Frequency Modulation transmission, and united SOLELY to provide national and regional advertisers with complete coverage of this rich state.

WHAT ARE THE ADVERTISERS' ADVANTAGES IN USING PRN?

- Economy—a saving of 20 percent of time costs and elimination of line charges
- A single, easy-to-control, easy-to-promote program
- Local station listening loyalty
- Sales impact through "where to buy it" cut-ins from the local announcer
- Flexibility, free selection of stations, tailor-made coverage
- Time-saving convenience through a single purchase and single billing

If you are looking for a better way to reach and SELL the 10,730,000 consumers in the nation's second retail sales area, write or wire for list of stations and complete details.

Feature of the Week

MORE THAN 1,000 square dancers from at least 25 states are expected to whirl away in the first annual *Prairie Farmer*-WLS International Square Dance Festival at the Chicago Stadium next October. This is the prediction of General Manager Glenn Snyder and James E. Edwards, president of the Chicago station and *Prairie Farmer*.

WLS, which is underwriting the entire project, is working in close cooperation with the recreation division of the Chicago Park District and state recreation leaders to bring the dancers to the festival next fall. The event primarily is a service to square dancing, Mr. Snyder says, and secondarily a station promotion for which the board of directors recently set aside an initial \$25,000.

The one-day festival, combining educational values with entertainment, will begin with an International Square Dance Leaders' Institute, at which recreation chiefs will discuss ways of promoting square dancing and will work out a terminology in calling that will ap-

Blueprint for the dance festival is formulated by (l to r) Messrs. Edwards, Roy and Snyder.

ply to all parts of the country.

The finale will climax the session, and will feature the 1,000 dancers in demonstrations and exhibitions of special dances and techniques. new ideas of production, including the use of "black light," and whirls and twirls native to particular sections of the country and to Canada. Stars of the WLS Chicago *National Barn Dance* will appear as guests,

(Continued on page 36)

On All Accounts

WHAT might have been a quiet non-ulcerous life amidst the cool ivy of a college campus was changed 23 years ago when Carl Tester picked up a penny from a tea room floor.

It was this seeming quest for gold that eventually resulted in Carl's present position of vice president and general manager, Philip J. Meany Co., Los Angeles, and account executive on Greenspot Inc.

This was no ordinary penny that changed the course of Carl's life. The coin had been dropped (accidentally or purposely has never been determined) by a Miss Anne Lloyd, an undergraduate at Ohio State College where Carl was working towards his PhD. Upon its attainment, he planned to teach English literature. A year following his gallant act, however, Carl found himself marriage-minded, deserted the academic halls and former aspirations and sought a more "lucrative" field—and the hand of Miss Lloyd.

Having a bent towards commercial art and writing, he had no problem deciding upon advertising as his field. His introduction there had come three years previously, when he worked part-time for two years as commercial artist for

Campbell-Sanford Adv. Co., Toledo, while an undergraduate at the U. of Toledo. (He has an AB in Arts received in 1927 to show for time spent there).

Upon leaving Ohio State, Carl joined a now defunct Toledo advertising agency as production manager. Three years later he became a northwest circulation representative for McGraw-Hill Book Co., working out of Toledo. Then, following a stretch as chief artist for the Toledo Glass Sign Co. and a short partnership in the manufacture of advertising specialties, he succumbed to the urge to "go West." And in 1937 the Testers found themselves in Los Angeles.

That, too, was well-timed. Doing the first round of 4-A agencies, Carl chanced into the office of Philip J. Meany just as a copywriter had announced his resignation. Carl got the job. In 1939 he was advanced to copy chief; in 1946 he became vice president and general manager of the agency.

As one who believes that radio has an impact that "cannot be duplicated," Carl is a good choice for supervisor of radio activities for Greenspot Inc. Now sponsoring

(Continued on page 36)

CARL

"NO, WE AIN'T EXACTLY 'ONE MULE' FARMERS!"

EVERYBODY knows that most Northwestern farmers make big money, but our Red River Valley hayseeds make *fabulously big dough!* (\$1,750 per family above the national average.) What's more, they spend it!

When it comes to *how* to spend it, and what for, WDAY is the most persuasive voice in the area.

Here are the Dec. '49—Jan. '50 Hooper comparisons:

	Weekday Share of Audience		
	Morning	Afternoon	Evening
WDAY	63.9%	69.1%	66.7%
Station "B"	20.6%	11.7%	13.3%
Station "C"	6.3%	11.6%	9.6%
Station "D"	4.9%	1.7%	7.7%
Station "E"	4.8%	6.1%	

Mail-pull figures prove that WDAY gets an equally large and loyal listenership in *rural* areas!

Write to us or ask Free & Peters for all the dope about amazing, 27-year-old WDAY. You'll be glad you did!

NORTH POLE COLD STORAGE & ICE Co., Pittsburgh (North Pole's Real Ice Cream), appoints Wasser, Kay & Phillips Inc. to handle its advertising. Radio will be used.

BONNEE FROZEN FOODS Co., St. Louis, appoints Oakleigh R. French & Assoc., same city, to handle advertising on Bonnee Buttered Beef Steaks. Radio and television tests are being conducted in local markets. **G. GORDON HARTSLET** is account executive.

GUNTHER BREWING Co., Baltimore (beer and ale), began sponsorship April 8 of reportedly first simulcast of racing event—Havre De Grace racing meet which will continue for 16-day period. Two TV stations, WBAL-TV Baltimore, and WNBW (TV) Washington, and five radio stations being used. Agency for brewing company is Ruthrauff & Ryan, Baltimore.

ATLANTIC CITY RACING Assn., Pleasantville, N. J., appoints Wallace Orr Inc., Philadelphia, to handle its advertising. Plans include radio and television spots.

SCARFENET Co., Los Angeles (hair scarfs), starts 13-week TV spot announcement campaign on seven TV stations with plans for five more markets by month's end. Currently three-weekly spots placed on KLAC-TV, one weekly on KTTV (TV), both Los Angeles; two weekly each KFMB-TV San Diego, WMBR-TV Jacksonville, WGN-TV Chicago, KPHO-TV Phoenix, KSD-TV St. Louis. Markets mulled: Minneapolis, Newark, New York, San Francisco, Salt Lake City, Newark. Agency: Stodel Adv. Co., Los Angeles.

INTERNATIONAL HARVESTER Co. (International Harvester Trucks), launches 10-week campaign on Midnight Sun Broadcasting Co. stations, KFAR Fairbanks and KENI Anchorage, Alaska. Live spot announcements are scheduled five times weekly on both stations. Agency: Young & Rubicam, Chicago.

PROCTER & GAMBLE, Cincinnati, introduces new laundry product, Cheer, in two market areas, Kansas City and Syracuse. Radio will be used. Young & Rubicam, New York, is handling campaign.

GENERAL CONTROLS, Glendale, Calif. (automatic pressure, temperature, level and flow controls manufacturer), increases TV spot campaign to 11 stations with one spot weekly for 26 weeks on KING-TV Seattle. Currently carrying spots are WGN-TV Chicago, WXEL Cleveland, KRLD-TV Dallas, WJBK-TV Detroit, WDAF-TV Kansas City, KECA-TV Los Angeles, WTMJ-TV Milwaukee, WCAU-TV Philadelphia, KPIX (TV) San Francisco, KSD-TV St. Louis. Agency: Hixson & Jorgensen Inc., Los Angeles.

DIAMOND T MOTOR CAR Co., Chicago (trucks), plans TV spot series starting in three markets and expanding nationally. **STUDEBAKER CORP.** to expand present four-market TV series. Agency for both firms, Roche, Williams & Cleary, Chicago.

Network Accounts • • •

ADMIRAL Corp., Chicago, and **P. LORILLARD Co.**, New York, renew sponsorship of *Stop The Music*, ABC-TV Wednesday, 8-9 p.m. Admiral Corp., for television sets and home appliances, has sponsored 8-8:30 p.m. segment of program and Lorillard, for Old Gold cigarettes, the 8:30-9 p.m. portion, for past year. Cigarette firm signs for additional 52-week period through Lennen & Mitchell, New York, while Admiral buys its portion of program for an initial 13 weeks through Kudner Agency Inc., New York.

INTERSTATE BAKERIES Corp. of Los Angeles renews Frederic W. Ziv package, *Cisco Kid*, for 52 weeks on eight Don Lee network stations.

GILLETTE SAFETY RAZOR Co., Boston, sponsors broadcast of Tanforan Handicap, April 22 on 13 Columbia Pacific Network stations, 5-5:30 p.m., PST. Agency: Maxon Inc., New York.

Adpeople • • •

WILLARD P. SEIBERLING, secretary of Seiberling Rubber Co., elected a director of company.

TED PALMER, formerly with Kastor, Farrell, Chesley & Clifford, New York, where he was assistant to president and radio and television director, appointed assistant advertising manager of Pepsodent Div. of Lever Bros. Co., New York.

Every Fifth Radio Home... FREE

After serving as the "different" network for over 15 years, we now find that difference *branded*—in earthy, fiscal terms—by the authoritative Mr. A. C. Nielsen. His studies reveal that the price of four radio homes on other networks will get you five on Mutual. In terms of actual audience *millions*, this plus can shape a Rainier-size peak on your sales horizon.

One thing we like about the Nielsen "Homes per Dollar" Index is that it reports just that. It takes full note of ratings, but it keeps an equally clear eye on the *cost* of each rating. By dividing net time *and* talent costs into homes actually delivered, it comes up with data to warm the heart of any comptroller.

Another thing we like about the Index is the way it weighs all four networks—strictly by homes-per-dollar—during the full 12 months of January through December, 1949:

Average Once-A-Week Commercial Program on	Radio Homes Delivered per Dollar of Actual Cost
All 4 Networks	281
Other 3 Networks	275
MUTUAL	338

Based on Total Audience data. Programs sponsored by religious organizations omitted.

Here is dollars-and-sensible proof of the matchless economy of network radio...the nation's only true mass medium. Here, too, is challenging evidence of how much more *your* radio program can accomplish on this "different" network.

The Difference is MUTUAL!

REMEMBER THESE OTHER MUTUAL PLUS-DIFFERENCES:

Lowest Costs, Hookup by Hookup, of All Networks.
500 Stations; 300 the Only Network Voice in Town.
Maximum Flexibility for Custom-Tailored Hookups.
'Where-To-Buy-It' Cut-Ins Available at No Extra Cost.

How to Get

IN DES MOINES

5 MONTH AVERAGE SHOWS STARTLING TREND IN HOOPER RATINGS!

KSO is the only network station in Des Moines to show an increase in Hooper share of the audience—5 months, October through February, as compared with same period last year. All other network stations suffered a loss.

Percentage Gain or Loss

STATION B	— 7.0%
STATION C	—22.0%
STATION D	— 15.4%
KSO	+24.2%

Based on 5 month Hooper Fall-Winter report, T. R. P., as compared with same report last year.

PERCENTAGE KSO GAIN OVER ALL STATIONS

STATION B	— 7.0%	STATION C	—22.0%	STATION D	—15.4%
KSO	<u>+24.2%</u>	KSO	<u>+24.2%</u>	KSO	<u>+24.2%</u>
KSO gains	31.2%	KSO gains	46.2%	KSO gains	39.2%

Based on 5 month Hooper Fall-Winter report, T. R. P., as compared with same report last year.

This remarkable change is a definite indication that in Des Moines the overwhelming trend is to KSO.

DICK DEXTER appointed merchandising director in Chicago office of Sherman & Marquette. He formerly was with Kellogg Co., Battle Creek, Mich.

E. GORDON LANE appointed in charge of new business operations in New York-middle-Atlantic area for James Thomas Chirurg Co., New York, effective May 1. He has been general manager of Boston office of firm for past several years.

EDWARD F. BUXTON, former copy supervisor of Ellington & Co., New York, joins copy department of Kenyon & Eckhardt, New York.

DON DOBKIN joins Lancaster Adv., New York, as copy chief and account executive. He formerly had been with Wiley, Frazee & Davenport Inc., New York.

JAMES PHILLIPS, formerly head of L. Foster Adv., Los Angeles, joins Phil D. McHugh Co., Beverly Hills, Calif., as account executive.

W. ROBERT MITCHELL, for last five years vice president in charge of creative work and service on domestic accounts in New York office of Grant Adv. Inc., and before that account executive with McCann-Erickson, New York, joins Lawrence Boles Hicks Inc., New York, as vice president.

HERBERT SALINGER joins copy staff of Ruthrauff & Ryan, Chicago. He worked previously for RKO Pictures, same city.

ROSINA LEWIS TODD, formerly with Buchanan & Co., Los Angeles, joins Brisacher, Wheeler & Staff, that city, as media director. **STANLEY PFLAUM** joins agency as vice president in charge of plans. For past 15 years he has been president of Stanley Pflaum Assoc., Ltd., national advertising and sales counsel agency, headquartered in Chicago.

FRED FREELAND, former television director of Ruthrauff & Ryan, Chicago, joins Galbreath Picture Productions, Ft. Wayne, Ind. He will continue to produce TV films for R&R and serve agency as consultant and freelance director.

RUTH L. RATNY joins radio and television department of LeVally, Chicago. She worked previously at Ruthrauff & Ryan and Foote, Cone & Belding, both Chicago.

MAPPING plans for opening of West-Marquis Inc.'s Long Beach, Calif., branch office on May 1 are (l to r): Seated, Jack Horner, newly appointed office manager; John R. West, advertising agency's president, and Oliver F. McFadden, who will serve as account executive and art director; standing, George Wolfe, W-M's radio and TV director, and Pat O'Rourke, of agency's publicity and public relations staff. Acquisition of facilities at Long Beach adds that branch to other offices maintained by the agency in Los Angeles, San Francisco, Portland, Ore., and Seattle. Mr. Horner formerly managed Long Beach Retailers Associated Offices at 602 Pacific Ave., where Mr. McFadden operated his own agency the past five years, and which will be used by W-M.

Milestones . . .

► WMCP (FM) Baltimore celebrated its second anniversary March 15. During a two-hour program aired especially for the event, messages of congratulation received from government and civic leaders, FCC officials, radio talent and other stations were aired. Many celebrities were present in person.

► St. Patrick's Day was an occasion of double significance at KWK St. Louis because on that day the station marked its 23d anniversary.

► An anniversary broadcast from the main intersection of Wichita Falls, Tex., helped Bill Hood celebrate his 4,000th broadcast of *The Man-on-the-Street* show over KFDX that city.

► Ten American Beauty roses, one for each year she has been broadcasting, were presented to Heloise Parker Broeg, who has conducted *Food Fair* on WEEI Boston for that length of time.

► CBS *Invitation To Learning* April 2 celebrated its 10th year on the air. By way of observing the anniversary, the network has started a 27 week "Tenth Anniversary Series" based on subject matter of programs heard the first year *Invitation* was aired.

► Monday, April 3, marked the sixth anniversary of Ruth Crane's

Modern Woman program over WMAL Washington. The show is heard 11:30-12 noon Mon.-Fri.

► Around-the-clock broadcast helped WSFA Montgomery, Ala., celebrate its 20th anniversary March 31 and April 1. In 1930 the station first took the air on March 31, with formal opening on April 1.

► A novel party, at which food was served on discs of former shows, place cards were made from old scripts and favors were made up of sound effects used in past productions, marked the 150th broadcast of *Knowledge in Action*. Show is produced by U. of Denver, and aired over KVOD that city in cooperation with the Rocky Mountain Radio Council.

► Harvey Olson, program manager of WDRC Hartford, Conn., is observing his 15th anniversary with the station this month.

► WSJS Winston-Salem, N. C., celebrates its 20th anniversary today (April 17). An NBC affiliate operating on 600 kc with 5 kw, WSJS is licensed to Piedmont Publishing Co., publisher of Winston-Salem *Journal* and *Twin City Sentinel*. Station began FM operation in 1947 and currently has television application pending for Channel 6. Officers include Gordon Gray, president, and Harold Essex, gen-

IT'S now "Col." Sandy Saunders (r), as the farm director of WKY Oklahoma City, is presented with a commission of full colonelcy on the governor of Oklahoma's staff by James E. Berry, lieutenant-governor. Col. Saunders, who is heading the 31-day WKY farm tour through Central and South America [BROADCASTING, Feb. 6], was delegated full authority to represent Oklahoma in the 19 countries to be visited.

eral manager. Mr. Gray, resigning Secretary of Army, becomes president of U. of North Carolina Sept. 1. Meanwhile, he is serving as special assistant to President Truman.

► Third anniversary of Continental FM Network was celebrated Sunday, March 27, with debut of a new discussion series conducted by St. Johns College, Annapolis, Md., under the title, *Background of Democracy*. Series is heard on 20 Continental stations, Sunday, 6:30 p.m.

Ever hear the moan of a train whistle, far off on a cold winter's night? A memorable sound, isn't it? Distant and near at the same time... distinctive in a way nothing else seems to duplicate.

Nothing *can* duplicate the subtle innuendos of sound except the very finest in recording equipment. And, for that, there is no instrument like a PRESTO recorder. Disc or tape, PRESTO equipment is without equal for quality, full tonal response, and long, reliable performance. Disc or tape, PRESTO is the finest you can buy.

BROADCASTING • Telecasting

REVENUE?

is your F.M. station producing

Transit Radio is now under contract in 23 American cities. Many more are negotiating now. If Transit Radio is still open in your community, these facts will interest you:

1. TR gives the riders of public transportation a program they like. Surveys, uniformly conducted in major markets, show that 8 out of 10 riders like TR, the ninth is indifferent and only a small fraction objects. This is a remarkably high acceptance, as people never agree 100 percent on anything.
2. TR helps the transit company provide good and economical service by giving it a source of income in addition to fares. This is in the public interest.
3. TR gives the entire community the advantage of FM radio by supporting one or more FM radio stations, and the programs broadcast to buses and streetcars are received in homes, hotels, restaurants and elsewhere.
4. TR makes it possible for the drivers of buses and streetcars to know how best to meet emergencies, whether fires, storms or other disasters.

Thanks to Transit Radio, frequency modulation radio is given a new lease on life. It now bids fair to put FM in a secure place beside its older sister AM radio and TV.

Transit Radio offers to millions of Americans who prefer to use public transportation a radio service superior to that available in private cars.

The large audience in public transportation vehicles is more than adequate to produce good advertising revenue. There's an important plus FM audience in homes, factories and public places. Thus, the Transit Radio audience is sufficient to erect a firm financial foundation under at least one FM station in smaller communities and several FM stations in larger communities. We invite your inquiry regarding this exciting medium.

MR. ADVERTISER . . . MR. TIMEBUYER

495 sponsors are already using Transit Radio. An imposing array of authenticated, documented case histories have taken Transit Radio out of the "experimental" stage and established it as a remarkable new medium that sells merchandise and delivers superior results at lower cost.

- (a) A growing list of leading national advertisers using this new medium with conspicuous success—Miles Laboratories; Bristol-Myers; Swift & Co.; Fanny Farmer Candy Shops; Manhattan Soap Co.; Whitehall Pharmacal Co., and others.

- (b) Many of the leading national advertising agencies are recommending Transit Radio to their clients—such as, J. Walter Thompson; BBD&O; Young and Rubicam; Duane Jones Co.; Doherty, Clifford & Shenfield; Sullivan, Stauffer, Colwell & Bayles; Foote Cone & Belding; McCann-Erickson; Ted Bates, Inc.; Leo Burnett Co.; Erwin Wasey & Co., etc.

We will be happy to show you, too, how you can effectively use this dramatic advertising medium—Transit Radio.

Use the station that's the overwhelming favorite* with Kansas farm families—WIBW.

Sales results will amaze you because WIBW does a *double selling job*.

In addition to piling up sales in the prosperous farm market, WIBW "goes to town" in setting up new sales records among those agriculturally-minded communities with a population below 10,000—towns which make up 82% of the state's urban population.**

No wonder advertisers say, "WIBW is the most powerful selling medium in Kansas."

* Kansas Radio Audience 1949

** Consumer Markets 1949-50

737 GROUPS OR BIG EVENTS IN 1949

WLS Dinner Bell Time has originated at the annual meetings of the Wisconsin Council of Agriculture for half a dozen years. Here are the outstanding men in Wisconsin agriculture, grouped at the 1949 Dinner Bell broadcast. Milo K. Swanton, Executive Secretary of the Council, stands second from right; Dean Randolph K. Froker of the Wisconsin College of Agriculture, stands fourth from left.

Officers of the Illinois Lumber and Materials Dealers' Association, following Dinner Bell broadcast from their convention. Says Association President James L. Watson (second from left): "Thank you for the courtesy of appearing on your program. I have had a number of reactions from listeners."

Oscar A. Swank, Executive Vice President, International Dairy Exposition (left), with Arthur C. Page, WLS Farm Program Director, says: "I just want to express my appreciation for the great help of you folks in getting the International Dairy Exposition going. For those of us in the agricultural field, I think your Dinner Bell has the finest possible audience for important educational messages."

• Charles B. Shuman, President, Illinois Agricultural Association, says, "Ever since my boyhood days in Moultrie County, Illinois, I have been a WLS follower. With this start, it is only natural that I turn to WLS and Dinner Bell Time when I want to talk to our 175,000 Illinois Agricultural Association members—I know they're listening."

• Les Boyd, Director Publicity and Exhibits, Michigan Fruit Sponsors: "I wish to thank you in behalf of the Michigan Fruit Sponsors and the Twin City Chamber of Commerce, for the time given by your station on the Blossom broadcast."

CLEAR CHANNEL Home of the NATIONAL Barn Dance

890 KILOCYCLES, 50,000 WATTS, ABC NETWORK—REPRESENTED BY JOHN BLAIR & COMPANY

America's Oldest Farm Service Program Points to its Record 26 years of WLS Dinner Bell Time without one commercial announcement **737** ORGANIZATIONS SERVED IN ONE YEAR

Dinner Bell Time originated on WLS 26 years ago this week. It was—and is—a farm service program, to bring to farm people of the Midwest and of the Nation, information on matters of greatest value; assistance in any case where aid is needed; entertainment of the kind we know to be of greatest interest. It has always been broadcast at the noon hour most convenient to farm home listening—it is a purely sustaining service—in all its 26 years, it has never carried one minute of commercial advertising.

The 737 names listed here are the organizations and events Dinner Bell Time was privileged to serve in 1949—a powerful demonstration of what just one WLS program does for agriculture and community life in the wide area its clear channel signal penetrates.

Some of the 800 Indiana Rural Youth members listening to the special Dinner Bell broadcast and Prairie Farmer-WLS awards presentation at their annual meeting at Purdue University.

**SHOWS
THAT
SELL**

+ X = \$

Yes...**X** is the *new* Associated Program Merchandising Service

A complete modern package of unique (1) powerful **sales helps**,
(2) dynamic **promotion aids**, and (3) profitable **merchandising tips**.
Another **plus value** for all Associated library subscribers.

1 THE SHOW SELLER ... it sells shows

your own personalized sales presentation for *your* Associated shows. There is a special spot for *your* price quotation. Open the Associated Show Seller on your prospect's desk and follow the lead of this dynamic sales aid, a powerful "assist" to the closing of your contract. Each page emphasizes and points up your own sales pitch.

2 THE SHOW PROMOTER ... it builds audience

a special kit chock full of audience-building promotion aids to back up your sale. The Show Promoter—there's one for each Show Seller—includes ad mats, publicity releases, teaser spots, star biographies, star glossies, streamers, carcard, mail stuffers, post card, window card and counter card layouts.

3 THE ASSOCIATED PROGRAM MANUAL ... it creates profits

a complete and continuing clearing house for profit-building sales ideas, program and production aids, talent news, special events coverage, and scores of other features of vital interest to radio Sales, Program, Publicity, and Promotion Departments.

1950

This summer, plant your product in the sun!

Use wcco to cultivate your customers all Summer long (as well as all year round) and you'll find Summer-time in the Northwest is a hot time for making sure your sales grow.

During June, July and August, retail sales in wcco territory are in full bloom (more than \$686,000,000). Listening is way up (in the Twin Cities wcco's Summer daytime Hooper averages 6.5). And the Summer cost-per-thousand is *way down* (it's dropped 29.8% since 1946)!

No wonder last year 60 national spot and local sponsors (25% more than the year before) used wcco *all year round*. Many for the 10th straight year.

Call us about a hot wcco sales-personality (like Stewart MacPherson, for example). You'll find wcco sends sales UP with the temperature!
