

SUBJECT INDEX - VOLUME 65

Air	
air pollution and sex ratio	126
VOCs at industrial sites, Taiwan	654
Alachor	
removal from water	668
Algal toxins	
in shellfish, Morocco	707
Alphamethrin	
persistence on mustard	200
Aluminum	
Ca ²⁺ distribution in wheat cells	222
Amitraz	
residues in tea	215
Ammonia	
shrimp mortality and feeding	98
Apoptosis	
cypermethrin - induced	501
Arsenic	
in marine turtles, Italy	732
in Whitewood Creek, South Dakota, USA	740
Azinphosmethyl	
effect on American robins	756
 Benzene	
<i>Halobacterium</i> response	725
Benzopyrene	
in sea water and mussels, Japan	631
Bioassay	
aquatic microcosm for ecotoxicity	699
aquifer contaminant detection	62
automated β -galactosidase for <i>Daphnia</i>	139
correlation of toxicity and AOX, TOC, TN	508
early signs of toxicity <i>Daphnia magna</i>	553
efficiency of Fe complexes	451
enchytraeid as oil test organism	407
estrogen evaluation with a fish cell line	494
glutathione-S-transferase for OPs	8
lead source by isotope ratios	314
lesions in benthic fish	78
mass spectroscopy of pesticides	811
mercury detoxification time	91
micronucleus test for petrochemical waste waters	168
modeling narcotic toxicity to aquatic animals	399
oligochaete contaminant uptake	16
prediction of benzaldehyde partitioning coefficients	190
QSAR of phospholines	421
QSAR of phosphoramidate fungicides	415
Sn in human urine	277
soxhlet, shaking & microwave PCB extraction	307

urine for chlorpyrifos	1
Cadmium	
effect on plant growth	459
from ceramics to food	598
in lobster, Canada	470
pH and temperature effects on uptake	638
removal in a wetland	322
Captan	
utilization by bacteria	375
Carbendazim	
utilization by bacteria	375
Cartap	
effect on medaka	717
Chloramines	
toxicity to <i>Daphnia magna</i>	147
Chlorine	
effect on sludge organisms	70
Chlordane	
change in glutathione redox	748
Chlorpyrifos	
in catfish	84
toxicity and bioconcentration in aquatic organisms	623
urine assay	1
Chromium	
induced tolerance in <i>Pseudomonas</i>	772
in soils	55
Copper	
in lobster, Canada	470
in soil	55
lethal concentration in fish	465
removal from wastewater	330
Copper Oxychloride	
toxicity to prawn	383
Cypermethrin	
apoptosis induction	501
in pulse	337
DDE	
in bird eggs, California	42
in European kestrel eggs	780
Deltamethrin	
in pulse	337
Dieldrin	
dose and tissue levels in magpies	427
in bird eggs, California	42
Dimethylphenyl formamidine	
metabolism in rat	22

Effluent	
inhibition of ATPase activity in catfish	161
toxicological assessment, Chile	18
<i>Emerita analoga</i>	
toxicity responses	567
Endosulfan	
bioconcentration in fish	618
Estrogen	
endocrine disruption by hexachlorobenzene	560
evaluation with fish cell line	494
Exposure	
amitraz residues in tea	215
Cd and Pb from ceramics to food	598
dermatitis and clothing	132
human exposure to organophosphorous insecticides	764
human exposure to soil	443
insecticide drift	522
methylparathion residues in milk & yogurt	207
nickel levels in strawberry, cherry, morello, mulberry	545
organochlorines in umbilical blood	293
Pb & Zn-protoporphyrin	285
sex ratio and air pollution	126
toxins in shellfish, Morocco	707
urine for chlorpyrifos	1
Fluoride	
removal from water	683
Fluorine	
defluoridation of groundwater	120
Fly Ash	
remediation with <i>Cassia surattensis</i>	675
Gadolinium	
effect on fish antioxidant enzymes	357
Gout	
tea, coffee and serum uric acid	300
Guthion	
effect on American robins	756
HCH	
effect on N ₂ O production	803
Heavy Metal	
Ag, Cd, Cu, Zn in lobster, Canada	470
Al & Ca ²⁺ distribution in wheat cells	222
as in Marine turtles	732
As, Se, Hg, Be, Cd, Cr, Cu, Pb, Ni, Zn in Whitewood Creek, South Dakota, USA	740
Cd & Pb from ceramics to food	598
Cd & Pb removal in a wetland	322
Cd, Cu, Hg, Zn in molluscs, Mauritania	269
Cd effect on plant growth	459

Cd uptake & pH & temperature	638
Co, Cu, Pb, Zn in sediments, Baja, California, Mexico	261
Cr induced tolerance in <i>Pseudomonas</i>	772
Cu lethal concentration in fish	465
HgCl ₂ & CH ₃ HgCl block of sodium transport	794
Hg oxidative stress in <i>Potamogeton crispus</i>	573
in bats	51
in bird eggs, California	42
in Chinese patent medicines	112
in mussels, Morocco	478
in Sand Martin feathers	604
in soils and plants	55
in water, Indonesia	591
in Zn hyperaccumulator	343
lead in <i>Eucalyptus</i> spp	583
mercury detoxification time	91
Mn microcosm effects	699
Ni in fruit	545
Pb effect on corn growth	786
Pb source by isotope ratios	314
Heptachlor	
change in glutathione redox	748
Herbicide	
Mutagenic activity	691
Hexachlorobenzene	
endocrine disruption	560
Hexachlorocyclohexane	
effect on N ₂ O production	803
Human	
dermatitis and clothing	132
exposure to organophosphorous pesticides	764
exposure to soil	443
insecticide drift	522
Ni in fruit	545
organochlorines in umbilical blood	293
Pb exposure & Zn-protoporphyrin	285
pesticides and heavy metals in Chinese patent medicines	112
Sn in urine of poisoning case	277
tea, coffee, and serum uric acid	300
Hydrogen Peroxide	
physiological responses of rice	514
Iron	
inhibition of ligand complexes	451
Lanthanum	
effect on fish antioxidant enzymes	357
Lead	
concentration in <i>Eucalyptus</i> spp	583
effect on growth of corn	786
in bats	51

in Whitewood Creek, South Dakota, USA	740
removal in a wetland	322
transfer from ceramics to food	598
Zn-protoporphyrin as screening test	285
Manganese	
microcosm effects	699
Mercury	
in Whitewood Creek, South Dakota, USA	740
oxidative stress in <i>Potamogeton crispus</i>	573
sodium transport block in toad skin	794
time for detoxification	91
Methyl Parathion	
residues in milk and yogurt	207
Metolachlor	
mobility in soil	530
Metribuzin	
in water	811
Monocrotophos	
bioconcentration in fish	618
Mutagen	
plant hormones by Ames SOS chromotest	691
N ₂ O	
hexachlorocyclohexane effect on production	803
Nickel	
soil speciation & fruit levels	545
Oligochaete	
contaminant uptake	16
Organochlorine	
DDE in European kestrel eggs	780
dieldrin dose & tissue levels in magpies	427
glutathione redox balance & heptachlor, chlordane & toxaphene	748
HCH effect on N ₂ O production	803
in fish oil & fish liver	244
mass spectroscopy of pesticides	811
residues in water	35
Organophosphate	
glutathione transferase as biomarker	8
mass spectroscopy of pesticides	811
PAH	
distribution in landfill	236
<i>Halobacterium</i> response	725
in Arabian Gulf sharks	391
in barnacles, Arabian Gulf	646
in sediments, Italy	537
in sediments, Texas, USA	253

PCB	
in fish oil and fish liver	244
soxhlet, shaking and microwave extraction	307
Paraquat	
physiological responses of rice	514
Petroleum	
<i>Halobacterium</i> response	725
Phosphamidon	
in zebrafish	611
Phosphine	
toxicity to golden apple snail	104
Phytotoxicity	
QSAR of phytotoxic aromatics	435
Profenofos	
in zebrafish	611
Propanil	
in water	811
PSP toxin	
in shellfish, Morocco	707
Pyridaphenthion	
human exposure	764
QSAR	
benzanilides to <i>Daphnia magna</i>	366
phospholines	421
phosphoramidate fungicides	415
phytotoxicity to <i>Cucumis sativus</i>	435
Remediation	
ash dumping area for sheep breeding	153
aromatic utilization by bacteria	375
chlorine effect on sludge organisms	70
Cu removal from water by hydrophytes	330
elemental composition of Zn hyperaccumulator	343
fly ash with <i>Cassia surattensis</i>	675
TNT microbial degradation	228
Sediments	
P-450 induction in fish	175
PAHs & oxygen compounds, Japan	660
Selenium	
in Sand Martin feathers	604
in Whitewood Creek, South Dakota, USA	740
Shellfish toxin	
in Moroccan cockles	707
Silver	
in lobster, Canada	470
TCE	
metabolism by fungus	28

Tin	
in human poisoning case urine	277
TNT	
microbial degradation	228
Toxaphene	
change in glutathione redox	748
Trichloroethylene	
metabolism by white rot fungus	28
Trinitrotoluene	
microbial degradation	228
Triphenylphosphine Oxide	
toxicity & bioconcentration in snail	104
Uric acid	
tea, coffee & serum uric acid	300
Vanadium	
in hydroil	486
VOC	
at industrial sites, Taiwan	654
Water	
alachlor removal	668
ammonia & shrimp mortality & feeding	98
aquifer contaminant detection network	62
as in marine turtles	732
automated β -galactosidase for <i>Daphnia</i>	139
benzopyrene in sea water & mussels, Japan	631
cartap effect on madaka	717
bioassay for early signs of toxicity, <i>D. magna</i>	553
Cd, Cu, Hg, Zn in molluscs, Mauritania	269
Cd, Cu, Zn in mussels, Morocco	478
chloramine toxicity to <i>Daphnia magna</i>	147
chlorpyrifos in aquatic organisms	623
chlorpyrifos in catfish	84
Co, Cu, Pb, Zn in sediments, Baja, California, Mexico	261
Cu lethal concentration in fish	465
Cu removal by hydrophytes	330
defluoridation of groundwater	120
<i>Emerita analoga</i> toxicity responses	567
effluent inhibition of ATPase in catfish	161
effluent toxicity & AOX, TOC, TN	508
effluent toxicological assessment, Chile	183
Enchytraeid as oil test organism	407
fluoride removal	683
genotoxicity of petrochemical waste waters	168
<i>Halobacterium</i> response to petroleum oil	725
hydrocarbons in sediments, Texas, USA	253
lead source by isotope ratios	314
lesions in benthic fish	78

metals in water, Indonesia	591
metolachlor mobility in soil	530
organochlorine residues	35
PAH distribution in landfill	236
PAH in Arabian Gulf sharks	391
PAH in sediments, Italy	537
PAHs and oxygen compounds in sediments, Japan	660
PAHs in Arabian Gulf barnacles	646
prediction of benzaldehyde partitioning coefficients	190
QSAR of benzanilides to <i>Daphnia magna</i>	366
river pollutant evaluation, Niger Delta	351
sediment P-450 induction in fish	175
toxicity of copper oxychloride to prawn	383
vanadium in hydroid	486
 Yttrium	
effect on fish antioxidant enzymes	357
 Zinc	
in lobster, Canada	470
protoporphyrin as lead exposure screen	285
