“Development of Plant Bioassay to Detect Herbicide Contamination of Compost at or Below Practical Analytical Detection Limits” by M. Fauci, D. F. Bezdicek, D. Caldwell, R. Finch

[Bull. Environ. Contam. Toxicol. (2002) 68:79–85; DOI: 10.1007/s00128-001-0222-8]

Field half-lives of clopyralid in soil range from 8–66 days (DowElanco 1997) not 8–250 days as previously stated.
