

International Conference on the Enzymatic Synthesis and Modification of Carbohydrates

WARWICK UNIVERSITY, COVENTRY, ENGLAND 1-3 JULY 1992

A three-day conference organised on behalf of the Royal Society of Chemistry (Biotechnology Committee). The programme will cover fundamental and commercial aspects via papers and poster presentations.

Methodologies and structure-properties are the themes of the conference in which the enzyme-catalysed functional group modification, hydrolysis, synthesis, branching, and derivatization of low molar mass and polymeric (plant and microbial) carbohydrates, will be discussed.

Speakers who have been invited are:

O Andresen, Novo Nordisk
C Auge, Paris University
C Bucke, London Centre for Biotechnology
D H G Crout, Warwick University
I C Dea, LFRA
D C Ellwood, Durham University
S Flitsch, Oxford University
M J Gidley, Unilever
S Hireni, Genzyme USA
J F Kennedy, Birmingham University
A Kerkenaar, TNO, Netherlands
B A Law, AFRC
K G I Nilsson, Lund University
J Thiem, Hamburg University
N J Turner, Exeter University
S West, Biocatalysts Ltd
G M Whitesides, Harvard University
