## CARBOHYDRATE POLYMERS

## An International Journal Devoted to Scientific and **Technological Aspects of Industrially Important Polysaccharides**

Carbohydrate Polymers covers the study and exploitation of the industrial applications of carbohydrate polymers in areas such as food, textiles, papers, wood, adhesives, pharmaceuticals, oil field applications and industrial chemistry. Topics include:

- studies of structure and properties
- biological and industrial development
- analytical methods
- chemical and microbiological modifications
- interactions with other materials

In addition to original research papers the journal publishes review articles and also welcomes contributions to its News and Views section, which reports on academic and industrial developments in the field and includes patent and literature surveys.

## **EDITORS**

**PROFESSOR J. F. KENNEDY** 

Professor of Applied Chemistry, The North East Wales Institute, Deeside, Clwyd, UK, and Director Birmingham Carbohydrate and Protein Technology Group, School of Chemical Sciences, University of Birmingham, Birmingham B15 2TT, UK e-mail: jfkennedy@chembiotech.co.uk

PROFESSOR J. R. MITCHELL School of Biological Sciences.

Division of Food Sciences, University of Nottingham, Sutton Bonington Campus, Loughborough LE12 5RD, UK e-mail: john.mitchell@nottingham.ac.uk DR P. A. SANDFORD

2822 Overland Avenue. Los Angeles, CA 90064, USA e-mail: pasandford@aol.com

## **EDITORIAL BOARD**

Swiss Federal Institute of Technology, Zurich, Switzerland

E. D. T. Atkins

University of Bristol, UK

J. E. BeMiller
