

CARBOHYDRATE POLYMERS

An International Journal Devoted to Scientific and Technological Aspects of Industrially Important Polysaccharides

Carbohydrate Polymers covers the study and exploitation of the industrial applications of carbohydrate polymers in areas such as food, textiles, papers, wood, adhesives, pharmaceuticals, oil field applications and industrial chemistry. Topics include:

- studies of structure and properties
- biological and industrial development
- analytical methods
- chemical and microbiological modifications
- interactions with other materials

In addition to original research papers the journal publishes review articles and also welcomes contributions to its News and Views section, which reports on academic and industrial developments in the field and includes patent and literature surveys.

EDITORS

PROFESSOR J. F. KENNEDY

Professor of Applied Chemistry,
The North East Wales Institute,
Deeside, Clwyd, UK,
and
Director Birmingham Carbohydrate and
Protein Technology Group,
School of Chemical Sciences,
University of Birmingham,
Birmingham B15 2TT, UK

PROFESSOR J. R. MITCHELL

School of Biological Sciences,
Division of Food Sciences,
University of Nottingham,
Sutton Bonington Campus,
Loughborough LE12 5RD, UK

DR W. J. ORTS

Bioproduct Chemistry and
Engineering Research Unit,
Western Regional Research Center,
Agricultural Research Service/
Pacific West Area,
United States Department of Agriculture,
800 Buchanan Street,
Albany, CA 94710, USA

EDITORIAL BOARD

I. Arvanitoyannis

University of Thessaly, Volos, Greece

J. E. BeMiller

Purdue University, West Lafayette, Indiana, USA
