

CARBOHYDRATE POLYMERS

A Journal Devoted to Scientific and Technological Aspects of Industrially Relevant Polysaccharides

Carbohydrate Polymers covers the study of carbohydrate polymers which have current or potential industrial application in areas such as food, textiles, paper, wood, adhesives, biodegradables, biorefining, pharmaceuticals, and oil recovery.

Topics include:

- studies of structure and properties
- biological and industrial development
- analytical methods
- chemical and microbiological modifications
- interactions with other materials

The journal publishes review papers, original research papers, short communications and book reviews. Only papers with international relevance are published.

EDITORS

Professor J. F. KENNEDY

Professor of Applied Chemistry,
The North East Wales Institute,
Wrexham, UK
and
Advanced Science and
Technology
Institute, The Croft,
Bromsgrove, UK

Professor J. R. MITCHELL

School of Biological Sciences,
Division of Food Sciences,
University of Nottingham,
Sutton Bonington Campus,
Loughborough LE12 5RD, UK
