

CORRIGENDUM

Carbohyd. Res., 19 (1971) page 273, Table I: the values of V_{\max} should be 40×10^{-5} for compound 4, and 35×10^{-5} for compound 5.

ANNOUNCEMENT

The Chemical Society Carbohydrate Group will be holding a meeting at the University of Sussex during April 5–7, 1972. Besides contributed papers on general aspects of carbohydrate chemistry, the meeting will include a symposium of invited lectures on carbohydrate components of antibiotics.

Further details may be obtained from Dr. N. R. Williams, Chemistry Department, Birkbeck College, Malet St., London WC1E 7HX, England.
