

Corrigenda

Carbohydr. Res., 86 (1980) 97–104.

page 98, line 5 from bottom: sodium acetate buffer (1 L, 0.1M, pH 5) should read sodium acetate buffer (1 L, 0.01M, pH 5).

Carbohydr. Res., 92 (1981) 269–285.

page 279, Fig. 8: the units for concentration of Galactomannan and “Mannan backbone” should read $\text{g/mL} \times 10^4$, not $\text{g/mL} \times 10^{-4}$.
