

## CARBOHYDRATE RESEARCH, VOL. 109 (1982)

## SUBJECT INDEX

- A chiral synthesis of 3,5,7-tri-*O*-benzyl-1,4,6-trideoxy-4,6-di-*C*-methyl-*keto*-*L*-ido-2-heptulose, a synthetic segment of the C-1-C-6 portion of erythronolide A, 5
- Amino-2-deoxysucrose via the Koenigs-Knorr reaction, synthesis of 2-amino-2-deoxy- $\alpha$ -D-glucopyranosyl  $\beta$ -D-fructofuranoside 2-, 276
- Amylases, alpha, degradation of elsinan by, 207
- Amylodextrin, Nägeli, from starches of waxy-maize, sweet-potato, and potato, structural features and properties of, 221
- An improved synthesis of 3'-4'-dideoxykanamycin B, 271
- Antigenic determinants. The H, X, and Y haptens and variations of the H type 2 determinant as probes for the combining site of the lectin I of *Ulex europaeus*, synthesis of type 2 human blood-group, 109
- T- and Tn-antigens, synthesis of determinant of, 89
- Bamboo-shoot cell-walls, structural investigation of a  $\beta$ -D-glucan and a xyloglucan from, 233
- Chromatography, liquid, for separation of acidic oligosaccharides, 259
- Degradation of elsinan by alpha amylases, and elucidation of its fine structure, 207
- Determinants. The H, X, and Y haptens and variations of the H type 2 determinant as probes for the combining site of the lectin I of *Ulex europaeus*, synthesis of type 2 human blood-group antigenic, 109
- Dextran, study of solutions of, by quasielastic light-scattering, 249
- Diaminohexose moiety: ethyl *p*-[4-amino-2-(*tert*-butoxycarbonyl)amino-2,4,6-trideoxy- $\alpha$ -D-glucopyranosyloxy]cinnamate, synthetic studies on glycocinnamoylspermidines. Synthesis of a key intermediate of the, 143
- Dideoxykanamycin B, an improved synthesis of 3',4'-, 271
- Elsinan, degradation of, by alpha amylases, and elucidation of its fine structure, 207
- D-erythro-Hex-2-enitol, 1,5-anhydro-4,6-*O*-benzylidene-2,3-dideoxy-2-nitro-, preparation and nucleophilic addition-reactions of, 167
- Erythronolide A, a chiral synthesis of 3,5,7-tri-*O*-benzyl-1,4,6-trideoxy-4,6-di-*C*-methyl-*keto*-*L*-ido-2-heptulose, a synthetic segment of the C-1-C-6 portion of, 5
- Formimidoylistamycins A and B, new istamycin components, isolation and synthesis of 2'-*N*-, 25
- Fungus *Ganoderma lucidum*, structural examination of an alkali-extracted, water-soluble heteroglycan of the, 290
- Glucan and a xyloglucan from bamboo-shoot cell-walls, structural investigation of a  $\beta$ -D-, 233
- D-[1-<sup>13</sup>C]Glucose, 2-amino-2-deoxy-, synthesis of, 161
- D-Glucose, 2-[<sup>15</sup>N]amino-2-deoxy-, synthesis of, 161
- D-[6-<sup>13</sup>C]Glucose, synthesis of, 161
- Glycocinnamoylspermidines. Synthesis of a key intermediate of the diaminohexose moiety: ethyl *p*-[4-amino-2-(*tert*-butoxycarbonyl)amino-2,4,6-trideoxy- $\alpha$ -D-glucopyranosyloxy]cinnamate, synthetic studies on, 143
- Glycoproteins, analysis of sugar chains of, by liquid chromatography, 259
- 2-Heptulose, *keto*-*L*-ido-, 3,5,7-tri-*O*-benzyl-1,4,6-trideoxy-4,6-di-*C*-methyl-, a synthetic segment of the C-1-C-6 portion of erythronolide A, a chiral synthesis of, 5
- Heteroglycan of the fungus *Ganoderma lucidum*, structural examination of an alkali-extracted, water-soluble, 290
- Hydrodynamic behavior of lentinan molecules as studied by quasielastic light-scattering, 295
- Isolation and structures of istamycin components, 33
- Isolation and synthesis of 2'-*N*-formimidoylistamycins A and B, new istamycin components, 25
- Istamycin components, isolation and structures of, 33

- Istamycin components, isolation and synthesis of 2'-*N*-formimidoylistamycins A and B, new, 25
- Kanamycin A, novel synthesis of 1- and 3-*epi*-tobramycin and 1-*epi*-, 73
- Kanamycin B, an improved synthesis of 3',4'-dideoxy-, 271
- Lentinan, hydrodynamic behavior of molecules of, as studied by quasielastic light-scattering, 295
- Microbial oxidation as a route for cyclization of acyclic-sugar nucleosides, 282
- Novel synthesis of 1- and 3-*epi*-tobramycin and 1-*epi*-kanamycin A, 73
- Nucleosides, of acyclic-sugars, cyclization of, microbial oxidation as a route for, 282
- Oligosaccharides, acidic, separation of, by liquid chromatography, 259
- Preparation, and nucleophilic addition-reactions, of 1,5-anhydro-4,6-*O*-benzylidene-2,3-dideoxy-2-nitro-D-*erythro*-hex-2-enitol, 167
- Ribonucleosides, purine and pyrimidine, regioselective (phenylcarbamoylation of, bis(tributyltin) oxide-phenyl isocyanate system for, 181
- Separation of acidic oligosaccharides by liquid chromatography: application to analysis of sugar chains of glycoproteins, 259
- L-Serine,  $\beta$ -D-Galp-(1 $\rightarrow$ 3)- $\alpha$ -D-GalpNAc-(1 $\rightarrow$ 3)-synthesis of, 89
- Sporaricins A, 3-*O*-demethyl-, syntheses of 3-*O*-substituted, 47
- Streptomycin, 3"-epidihydro-, synthesis of, 59
- Structural examination of an alkali-extracted, water-soluble heteroglycan of the fungus *Ganoderma lucidum*, 290
- Structural features and properties of Ngeli amyloextrin from waxy-maize, sweet-potato, and potato starches, 221
- Structural investigation of a  $\beta$ -D-glucan and a xyloglucan from bamboo-shoot cell-walls, 233
- Structures of istamycin components, isolation and, 33
- Study of dextran solutions by quasielastic light-scattering, 249
- Sucrose via the Koenigs-Knorr reaction, synthesis of 2-amino-2-deoxy- $\alpha$ -D-glucopyranosyl  $\beta$ -D-fructofuranoside 2-amino-2-deoxy-, 276
- Synthesis of 2-amino-2-deoxy- $\alpha$ -D-glucopyranosyl  $\beta$ -D-fructofuranoside (2-amino-2-deoxy-sucrose) via the Koenigs-Knorr reaction, 276
- Synthesis of 3"-epidihydrostreptomycin, 59
- Synthesis of D-[6-<sup>13</sup>C]glucose, 2-amino-2-deoxy-D-[1-<sup>13</sup>C]glucose hydrochloride, and 2-[<sup>15</sup>N]-amino-2-deoxy-D-glucose hydrochloride, 161
- Syntheses of 3-*O*-substituted 3-*O*-demethyl-sporaricins A, 47
- Synthesis of type 2 human blood-group antigenic determinants. The H, X, and Y haptens and variations of the H type 2 determinant as probes for the combining site of the lectin I of *Ulex europaeus*, 109
- Synthetic studies on glycocinnamoylspermidines. Synthesis of a key intermediate of the diamino-hexose moiety: ethyl *p*-[4-amino-2-(*tert*-butoxycarbonyl)amino-2,4,6-trideoxy- $\alpha$ -D-glucopyranosyloxy]cinnamate, 143
- Tobramycin and 1-*epi*-kanamycin A, novel synthesis of 1- and 3-*epi*-, 73
- L-Threonine,  $\beta$ -D-Galp-(1 $\rightarrow$ 3)- $\alpha$ -D-GalpNAc-(1 $\rightarrow$ 3), synthesis of, 89
- bis(Tributyltin) oxide-phenyl isocyanate system for regioselective (phenylcarbamoylation of purine and pyrimidine ribonucleosides, 181
- Xyloglucan from bamboo-shoot cell-walls, structural investigation of a  $\beta$ -D-glucan and a, 233
