

CARBOHYDRATE RESEARCH, VOL. 115 (1983)

SUBJECT INDEX

- O*- α -*N*-Acetylneuraminosyl-(2 \rightarrow 3)-*O*- β -D-galactopyranosyl-(1 \rightarrow 1)-*myo*-inositol, isolation from pregnancy urine of, 221
- Acid-catalyzed hydrolysis of 2-methoxypropenal, 85
- Agar-type polysaccharide from the red alga *Gracilaria secundata*, the, 191
- D-Allononitrile, 2,5-anhydro-, improved synthesis of, 131
- Analysis of the carbon-13 n.m.r. spectrum of hydrolyzed *O*-(carboxymethyl)cellulose: monomer composition and substitution patterns, 1
- Analysis of thio sugars, distortion, 33
- Antitumor active β -D-glucans from the fruit bodies of *Ganoderma applanatum*, isolation and characterization of, 273
- Aqueous solutions of methyl α -D-aldopyranosides at 25°, excess enthalpies of, 15
- Arabinogalactan from sugar cane, an, 265
- Aromatic 1-thioglycosides, a simple preparation of, 254
- Base-catalysed β -elimination of 2,3-di-*O*-methyl-D-glyceraldehyde, 75
- Benzoylation of methyl 4,6-*O*-benzylidene- α -D-glycopyranosides, the selective, 240
- Browning of maltose and lactose with secondary amino acids, isolation of 3-*O*- α -D-glucosyl- and 3-*O*- β -D-galactopyranosyloxy-2-furyl methyl ketones from nonenzymic, 281
- Cane, an arabinogalactan from sugar, 265
- Carbohydrate-chain analysis by lectin binding, 209
- Carbohydrate liquid-crystals, 53
- Carbohydrates, lithium chloride-2-methoxyethanol as a solvent system for, 231
- (Carboxymethyl)cellulose: monomer composition and substitution patterns, analysis of the carbon-13 n.m.r. spectrum of hydrolyzed *O*-, 1
- Chemical modification and antitumor activity of a D-manno-D-glucan from *Microellorosporia grisea*, 199
- Cleavage of interglycosidic linkages in per(trimethylsilyl)ated and permethylated carbohydrates with iodotrimethylsilane, 95
- Condensation reaction of 1-hexene and 1,2,3,5-tetra-*O*-acyl- β -D-ribofuranoses, a further investigation of the stannic chloride-catalyzed, 59
- Configurational reassignment of some derivatives of 2-C-methylpent-2-enonic acids, 250
- Cross-polarization-magic-angle sample spinning n.m.r. study of several crystal forms of lactose, 23
- Crystals, liquid, of carbohydrate derivatives, 53
- 3-Deoxy-D-erythro-hexos-2-ulose, oxidation by D-glucose oxidase of, 288
- 3-Deoxy-D-erythro-hexulosonic acid, formation by oxidation of 3-deoxy-D-erythro hexos-2-ulose of, 288
- Deoxygenated (1 \rightarrow 6)- α -D-glucopyranan, synthesis of partially 3-, 243
- Derivatives of 2-C-methylpent-2-enonic acids, configurational reassignment of some, 250
- Dioxaspiranones, aromatic, synthesis by photocyclisation of phenyl glycosides of, 105
- Distortion analysis of thio sugars, 33
- Elimination of 2,3-di-*O*-methyl-D-glyceraldehyde, base-catalyzed β -, 75
- Excess enthalpies of aqueous solutions of methyl α -D-aldopyranosides at 25°, 15
- Fast-atom-bombardment mass-spectrometry of carbohydrate, 41
- keto*-D-Fructose, 1,3,4,5,6-penta-*O*-acetyl-, (2,4-dinitrophenyl) hydrazone, synthesis of the *E* and *Z* isomers of, 259
- Further investigation of the stannic chloride-catalyzed condensation reaction of 1-hexene and 1,2,3,5-tetra-*O*-acyl- β -D-ribofuranoses, 59
- General method for selective silylation of primary hydroxy groups in carbohydrates and related compounds, 234
- D-Glucan, D-manno-, from *Microellorosporia grisea*, chemical modification and antitumor activity of a, 199
- Glucans from the fruit bodies of *Ganoderma applanatum*, isolation and characterization of antitumor active β -D-, 273

- β -D-Glucopyranose, 1,6-anhydro-2,3-di-O-benzoyl-4-O-(methyl 2,3,4-tri-O-benzoyl- γ -L-isopyranosyluronate)-, synthesis of, from cellobiose, 117
- D-Glucose oxidase, action on 3-deoxy-D-erythro-hexos-2-ulose of, 288
- Glyceraldehyde, base-catalyzed β -elimination of 2,3-di-O-methyl-D-, 75
- Glycogen, spatial distribution of unit chains in, 139
- Glycoprotein, intestinal-mucus, carbohydrate and sulfate content of, 151
- Glycoproteins in polyacrylamide slab-gel, chemical modifications of, 209
- Glucopyranan, synthesis of partially 3-deoxygenated (1 \rightarrow 6)- α -D-, 243
- Glycosaminoglycans and proteoglycans in physiological and pathological processes of body systems (book review), C7
- Glycosylally bound carbohydrate-chains, murine submandibular mucin carrying N- and O-, C1
- Hydrolysis of 2-methoxypropenal, acid-catalyzed, 85
- Improved synthesis of 2,5-anhydro-D-allononitrile, 131
- Inositol, O- α -N-acetylneuraminosyl-(2 \rightarrow 3)-O- β -D-galactopyranosyl-(1 \rightarrow 11)-, isolation from pregnancy urine of, 221
- Intestinal mucus glycoprotein, carbohydrate and sulfate content of, 151
- Iodotrimethylsilane, cleavage of interglycosidic linkages in per(trimethylsilylated) and permethylated carbohydrates with, 95
- Isolation and characterization of antitumor active β -D-glucans from the fruit bodies of *Ganoderma applanatum*, 273
- Isolation of 3-O- α -D-gluco- and 3-O- β -D-galactopyranosyloxy-2-furyl methyl ketones from nonenzymic browning of maltose and lactose with secondary amino acids, 281
- Ketones from nonenzymic browning of maltose and lactose with secondary amino acids, isolation of 3-O- α -D-gluco- and 3-O- β -D-galactopyranosyloxy-2-furyl methyl, 281
- Lactose, a cross-polarization-magic-angle sample spinning n.m.r. study of several crystal forms of, 23
- Lectin binding, carbohydrate-chain analysis by, 209
- Linkages in per(trimethylsilylated) and permethylated carbohydrates with iodotrimethylsilane, cleavage of interglycosidic, 95
- Lipopolysaccharide from the O14 type strain of *Serratia marcescens*, structural studies of a polymeric fraction from the, 183
- Lithium chloride-2-methoxyethanol as a solvent system for carbohydrates, 231
- Mass spectrometry, fast-atom-bombardment, of carbohydrate, 41
- Methoxypropenal, acid-catalyzed hydrolysis of 2-, 85
- Methyl α -D-aldopyranosides, excess enthalpies of aqueous solutions of, at 25 , 15
- Methyl 4,6-O-benzylidene- α -D-glycopyranosides, the selective benzylation of, 240
- 2-C-Methylpent-2-enone acids, configurational reassignment of some derivatives of, 250
- Mucin carrying N- and O-glycosylally bound carbohydrate-chains, murine submandibular, C1
- Mucus glycoprotein, intestinal, carbohydrate and sulfate content of, 151
- Murine submandibular mucin (MSM): a mucin carrying N- and O-glycosylally bound carbohydrate-chains, C1
- N.m.r. study of several crystal forms of lactose, a cross-polarization-magic-angle sample spinning, 23
- Parotid-saliva, proline-rich glycoprotein, structure of carbohydrate component of, 175
- Phenyl glycosides, photocyclization of, 105
- Photocyclization of phenyl glycosides in aromatic dioxaspiranones, 105
- Polyacrylamide slab-gel chemical modifications of glycoproteins in, 209
- Polysaccharide, agar-type, from the red alga *Gracilaria secundata*, 191
- Polysaccharide from *Rhizobium trifolii* 4S, structural studies on the extracellular acidic, 165
- Proline-rich glycoprotein from parotid-saliva, structure of carbohydrate component of, 175
- Proteoglycans and glycosaminoglycans in physiological and pathological processes of body systems (book review), C7
- Rhizobium trifolii* 4S, structural studies on the extracellular acidic polysaccharide from, 165
- Saliva of parotid, structure of carbohydrate component of proline-rich glycoprotein from, 175
- Selective benzylation of methyl 4,6-O-benzylidene- α -D-glycopyranosides, 240

- Selective silylation of primary hydroxyl groups in carbohydrates and related compounds, a general method for, 234
- Serratia marcescens*, structural studies of a polymeric fraction from the lipopolysaccharide from the O14 type strain of, 183
- Silylation of primary hydroxyl groups in carbohydrates and related compounds, a general method for selective, 234
- Simple preparation of aromatic 1-thioglycosides, a, 254
- Solvent system for carbohydrates, lithium chloride-2-methoxyethanol as a, 231
- Spatial distribution of unit chains in glycogen, 139
- Spectrometry, mass, fast-atom-bombardment, of carbohydrate, 41
- Stannic chloride-catalyzed condensation reaction of 1-hexene and 1,2,3,5-tetra-*O*-acyl- β -D-ribofuranoses, a further investigation of the, 59
- Structural studies of a polymeric fraction from the lipopolysaccharide from the O14 type strain of *Serratia marcescens*, 183
- Structural studies on the extracellular acidic polysaccharide from *Rhizobium trifolii* 4S, 165
- Substitution patterns, analysis of the carbon-13 n.m.r. spectrum of hydrolyzed *O*-(carboxymethyl)cellulose: monomer composition and, 1
- Sugar cane, an arabinogalactan from, 265
- Synthesis of 1,6-anhydro-2,3-di-*O*-benzoyl-4-*O*-(methyl 2,3,4-tri-*O*-benzoyl- α -L-idopyranosyluronate)- β -D-glucopyranose from cellobiose, 117
- Synthesis of partially 3-deoxygenated (1 \rightarrow 6)- α -D-glucopyranan, 243
- Synthesis of the *E* and *Z* isomers of 1,3,4,5,6-penta-*O*-acetyl-*keto*-D-fructose (2,4-dinitrophenyl)hydrazone, 259
- 1-Thioglycosides, a simple preparation of aromatic, 254
- Thio sugars, distortion analysis of, 33
- Unit chains in glycogen, spatial distribution of, 139
- Urine, pregnancy, isolation of a trisaccharide containing *myo*-inositol from, 221
