

CARBOHYDRATE RESEARCH, VOL. 117 (1983)

SUBJECT INDEX

- 2-Acetamido-3-*O*-(2-acetamido-3,4,6-tri-*O*-acetyl-2-deoxy- α -D-galactopyranosyl)-1,4,6-tri-*O*-acetyl-2-deoxy- α -D-galactopyranose, conformation determination of, 23
- Aldohexopyranosyl cyanides, per-*O*-acetylated, characterization of some anomeric pairs of, by laser-Raman spectroscopy, 291
- Aldopyranosylamines, acetylated and propanoylated, the mass spectra of, 39
- α -Amylase, use of cross-linked amylose for the selective determination by radial diffusion of, 332
- Amylose, cross-linked, use for the selective determination of α -amylase by radial diffusion of, 332
- Antigenic polysaccharide of *Eubacterium saburreum*, strain T27, 125
- Arabinan, polysaccharides from the roots of the marsh mallow (*Althaea officinalis* L.) structure of an, 133
- Benzenes, hydroxy-, identification of, as major products formed by pyrolysis of cellulose-sodium chloride, 322
- Benzyl 3-*O*-benzoyl-4-*O*-benzyl-2-*O*-(2,3,6-trideoxy- α -L-glycero-hex-2-enopyranosyl-4-ulose)- α -L-rhamnopyranoside, crystal and molecular structure of, 13
- Benzyl 2,3,4-tri-acetamido-2,3,4,6-tetra-deoxy- α -D-galactopyranoside, synthesis of, 309
- Branched (1 \rightarrow 3)- β -D-glucan from a sodium carbonate extract of *Dictyophora indusiata* Fisch., 201
- Candida parapsilosis*, immunochemical determination of, 229
- Capsular, polysaccharide of *Staphylococcus aureus*, repeating sequence of, 113
- Cellulose, pyrolysis of, influence of sodium chloride on volatile products formed by, 322
- Characterization of some anomeric pairs of per-*O*-acetylated aldohexopyranosyl cyanides by laser-Raman spectroscopy, 291
- Chromatography, liquid under elevated pressure, of oligosaccharides, 275
- Coupling of heparin and other glycosaminoglycans to substances containing primary amino groups, a new method for covalent, 328
- Crystal and molecular structure of benzyl 3-*O*-benzyl-4-*O*-benzyl-2-*O*-(2,3,6-trideoxy- α -L-glycero-hex-2-enopyranosyl-4-ulose)- α -L-rhamnopyranoside, 13
- Cyclic structure of β -D-(1 \rightarrow 2)-linked D-glucans secreted by *Rhizobium* and *Agrobacteria*, 185
- Cyclodextrin glycosyltransferases from *Klebsiella pneumoniae* M 5 a1 and *Bacillus macerans*, analysis of the products of the action on some linear and cyclic substrates of the, 1
- Cytochrome P450, oxidation of 2-deoxy-4,5-*O*-isopropylidene-2-C-m, ethylene-D-glycero-pentose-3-ulose in the presence of, 313
- 6-Deoxy- α -D-glucopyranosyl 6-deoxy- β -D-fructofuranoside, synthesis of, 318
- Deuteration, effect on NOE of methyl α -D-glucopyranoside of, 279
- 6,6'-Dideoxysucrose, synthesis of, 318
- Disaccharide, Forssman, peracetylated, conformation determination of, 23
- 5-Epimerase in heparin biosynthesis, preparation of substrate for, 241
- Equilibrium compositions and conformations of some carbohydrate analogs of *N*-acetyl-muramoyl-L-alanyl-D-isoglutamine as determined by ^1H -n.m.r. spectroscopy, 298
- Erythrocytes, human, *in vivo* ageing, cell-surface labeling of, 255
- Eubacterium saburreum*, strain T27, antigenic polysaccharide of, 125
- Facile synthesis of 2-acetamido-2-deoxy-4-*O*- α -L-fucopyranosyl-3-*O*- α -D-galactopyranosyl-D-glucopyranose, the Lewis a blood-group antigenic determinant, and related compounds, 101
- Facile synthesis of 2-acetamido-2-deoxy-5-thio-D-glucopyranose, 304
- Forssman disaccharide, peracetylated, conformation determination of, 23
- D-Galactitol, 1,5-di-*O*-acetyl-2,3,4-triacetamido-2,3,4,6-tetra-deoxy-, synthesis and m.s. of, 309
- α -D-Galactopyranoside, benzyl 2,3,4-tri-acetamido-2,3,4,6-tetra-deoxy-, synthesis of, 309

- (1→3)- β -D-Glucan, a branched, from a sodium carbonate extract of *Dictyophora indusiata* Fisch., 201
- D-Glucans, β -D-(1→2)-linked, secreted by *Rhizobia* and *Agrobacteria*, the cyclic structure of, 185
- D-Glucopyranose, 2-acetamido-2-deoxy-4- O - α -L-fucopyranosyl-3- O - α -D-galactopyranosyl-, the Lewis a blood-group antigenic determinant, a facile synthesis of, and related compounds, 101
- D-Glucopyranose, 2-acetamido-2-deoxy-5-thio-, a facile synthesis of, 304
- α -D-Glucopyranoside, methyl, effect of deuteration on NOE of, 279
- (1→4)- α -D-Glucopyranosyl transfer-products of the action of cyclodextrin glycosyltransferases on some linear and cyclic substrates, h.p.l.c. analysis of the, 1
- D-Glucose, kinetics of oxidation of, by hexachloroiridate(IV) and tetrachloroaurate(III), 81
- Glycophorins A and B, variations during *in vivo* ageing of human erythrocytes of, 255
- Glycoprotein oligosaccharides, chromatography of, 275
- Glycosides, aryl, photoinduced electron-transfer reactions of, 69
- Glycosyltransferases, h.p.l.c. analysis of the (1→4)- α -D-glucopyranosyl transfer-products of the action on some linear and cyclic substrates of cyclodextrin, 1
- Heparin and other glycosaminoglycans, a new method for covalent coupling of, to substances containing primary amino groups, 328
- Heparin biosynthesis, preparation of substrate for 5-epimerase in, 241
- Heparosan-*N*-sulfate-D-glucopyranosyluronate 5-epimerase, preparation of substrate for, 241
- Hydroxymethylene analog of D-ribose 5-phosphate, synthesis of precursor to, 95
- Immunochemical determinant of *Candida parapsilosis*, 229
- Influence of sodium chloride on volatile products formed by pyrolysis of cellulose. Identification of hydroxybenzenes and 1-hydroxy-2-propenone as major products, 322
- Invertase, sucrose hydrolysis by, 215
- D-Isoglutamine, *N*-acetylmuramoyl-L-alanyl-, some carbohydrate analogs of, the equilibrium compositions and conformations of, as determined by ^1H -n.m.r. spectroscopy, 298
- Keratan sulfate, production of radiolabelled substrates for 6-*O*-sulfogalactose sulfatase and β -D-galactosidase by selective depolymerisation of, 263
- Kinetics of oxidation of D-glucose by hexachloroiridate(IV) and tetrachloroaurate(III), 81
- Laser-Raman spectroscopy, for characterization of some anomeric pairs of per-*O*-acetylated aldohexopyranosyl cyanides, 291
- D-Mannan of *Candida parapsilosis*, immunochemical determinant of, 229
- Marsh mallow (*Athaea officinalis* L.) structure of an arabinan, polysaccharides from the roots of the, 133
- Mass spectra of acetylated and propanoylated aldopyranosylamines, 39
- Mass spectra of some benzoylated, acyclic monosaccharide derivatives, 55
- Method for covalent coupling of heparin and other glycosaminoglycans to substances containing primary amino groups, 328
- Methyl mono-, di-, and tri-*O*-acetyl- β -D-xylopyranosides, n.m.r. spectra (^1H , ^{13}C) of the, and additivity effects, 285
- Mono-, di-, and tri-*O*-acetyl- β -D-xylopyranosides, n.m.r. spectra (^1H , ^{13}C) of the methyl, and additivity effects, 285
- Monosaccharides, acyclic, benzoylated, mass spectra of some derivatives of, 55
- Nitrous acid, tautomerism of saccharide hydrazones in solution and their reaction with, 89
- N.m.r. spectra (^1H , ^{13}C) of the methyl mono-, di-, and tri-*O*-acetyl- β -D-xylopyranosides, and additivity effects, 285
- Nuclear Overhauser effect of methyl α -D-glucopyranoside, ^{13}C - ^1H , effect of deuteration on, 279
- Oligosaccharides, liquid chromatography under elevated pressure of, 275
- Oxidation, chemical and enzymic, of 2-deoxy-4,5-*O*-isopropylidene-2-*C*-methylene-D-glycero-pentos-3-ulose, 313
- Oxidation of D-glucose by hexachloroiridate(IV) and tetrachloroaurate(III), kinetics of, 81
- D-glycero-Pentos-3-ulose, 2-deoxy-4,5-*O*-isopropylidene-2-*C*-methylene-, chemical and enzymic oxidation of, 313
- Photoinduced, electron-transfer reactions of aryl glycosides, 69
- Polysaccharide, acidic, secreted by *Rhizobium phaseoli* strain 127 K36, the structure of, 141
- Polysaccharide, acidic, secreted by *Rhizobium phaseoli* strain 127 K44, the structure of, 157
- Polysaccharide, acidic, secreted by *Rhizobium phaseoli* strain 127 K87, the structure of, 169

- Polysaccharide, antigenic, of *Eubacterium saburreum*, strain T27, 125
- Polysaccharide, capsular, of *Staphylococcus aureus*, repeating sequence of, 113
- Polysaccharides from the roots of the marsh mallow (*Althaea officinalis* L.): structure of an arabinan, 133
- 2-Propanone, 1-hydroxy-, identification of, as a major product formed by pyrolysis of cellulose-sodium chloride, 322
- Radial diffusion, use of cross-linked amylose for the selective determination of α -amylase, 332
- Radiolabelled substrates for 6-*O*-sulfogalactose sulfatase and β -D-galactosidase, production of, by selective depolymerisation of keratan sulfate, 263
- β -D-Ribofuranoside, methyl 5-deoxy-5-(dihydroxyphosphinoyl)hydroxymethyl-2,3-*O*-isopropylidene-, synthesis of, 95
- D-Ribose 5-phosphate hydroxymethylene analog, synthesis of precursor to, 95
- Saccharide hydrazones in solution, tautomerism of, and their reaction with nitrous acid, 89
- Selective depolymerisation of keratan sulfate, production of radiolabelled substrate for 6-*O*-sulfogalactose sulfatase and β -D-galactosidase by, 263
- Sialic acid at the cell-surface, labeling *in vivo* ageing human erythrocytes of, 255
- Staphylococcus aureus* capsular polysaccharide, repeating sequence of, 113
- Structure of the acidic polysaccharide secreted by *Rhizobium phaseoli* strain 127 K36, 141
- Structure of the acidic polysaccharide secreted by *Rhizobium phaseoli* strain 127 K44, 157
- Structure of the acidic polysaccharide secreted by *Rhizobium phaseoli* strain 127 K87, 169
- Sucrose, 6,6'-dideoxy-, synthesis of, 318
- Sucrose hydrolysis by invertase, 215
- Tautomerism of saccharide hydrazones in solution and their reaction with nitrous acid, 89
- 2-*O*-(2,3,6-*O*-trideoxy- α -L-glycero-hex-2-enopyranosyl-4-ulose)- α -L-rhamnopyranoside, crystal and molecular structure of benzyl 3-*O*-benzoyl-4-*O*-benzyl-, 13
