

CARBOHYDRATE RESEARCH, VOL. 145 (1986)

SUBJECT INDEX

- 5-Acetamido-3,5,7,9-tetra-deoxy-7-formamido-L-glycero-L-manno-nonulosonic acid, identification of, as a component of the *Pseudomonas aeruginosa* immunotype 6 O-antigen, c1
- N-Acetyllactosamine, isolation and characterization of sialyloligosaccharides containing, 341
- N-Acetyl-1-phosphotransferase, determination of, 89
- Acid-catalysed condensations of sugar aldehydes with furan and 2-methylfuran, asymmetric induction in, 145
- Albumin, reaction of aldoses with human serum, 113
- Aldopentofuranoses, having phosphorus in the hemiacetal ring, conformations of, 25
- Aldoses, reaction of human serum albumin with, 113
- Aldoses, reaction of lysine with, 99
- Alginate, the role of O-acetyl groups in the biosynthesis by *Azotobacter vinelandii* of, 169
- 3-Alkyl (aryl)-1-aryl-1,3-dihydro-2H-benzimidazole-2-thiones, synthesis of, 152
- 1,2-O-Alkylidenehexopyranoses, conformation of the tri-O-acetyl derivatives of some, 319
- D-Allose and D-gulose, conformation of some pyranoid tri-O-acetyl-1,2-O-alkylidene derivatives of, 319
- Analysis of sugar acids and their lactones, a simple i.c. method for the direct, 312
- Applications, biochemistry, and chemistry of cellulose and its derivatives (book review), c8
- L-Ascorbic acid, hydrazine derivatives of dehydro-, 37
- Asymmetric induction in acid-catalysed condensations of sugar aldehydes with furan and 2-methylfuran, 145
- Benzimidazole-2-thiones, synthesis of 3-alkyl (aryl)-1-aryl-1,3-dihydro-2H-, 152
- Binding of copper(II) by hyaluronic acid, polarographic investigations of the, 141
- Biosynthesis of alginate by *Azotobacter vinelandii*, the role of O-acetyl groups, in the, 169
- 1,2-Bis(acetylphenylhydrazone) derivatives, synthesis of some, 156
- Branched (1→3)-β-D-glucan from a water extract of *Dictyophora indusiata* Fisch., 237
- 7-[3-Bromo-3,4-dideoxy-6-O-(2-hydroxyethyl)-β-D-glycero-hex-3-enopyranosyl-2-ulose] theophylline, synthesis of, 163
- Calcium binding and biological activity in heparin, 267
- Carrageenans of *Iridaea undulosa*, KCl-soluble, structural characterization, 219
- Cellobiohydrolase and xylanase activity, purification and properties of two enzymes from *Dichomitus squalens* which exhibit both, 279
- Cellulose, and its derivatives, chemistry, biochemistry, and applications of (book review), c8
- Cellulose, O-(carboxymethyl)-, of high degree of substitution, preparation of, 160
- Conformation of 1,2-O-alkylidenehexopyranoses: tri-O-acetyl derivatives of D-allose and D-gulose, 319
- Crystal structure at 87 K of sodium α-L-gulonate dihydrate, 13
- Dehydro-L-ascorbic acid, hydrazine derivatives of, 37
- 4-Deoxy-L-threo-hex-4-enopyranuronic acid, synthesis and conformational analysis of the N¹- and N³-5-fluorouracil nucleosides of, 123
- Determination of one-bond carbon-proton coupling constants through ¹³C-satellites in ¹H-n.m.r. spectra, 135
- Enzymes from *Dichomitus squalens* which exhibit both cellobiohydrolase and xylanase activity, purification and properties of two, 279
- 2,3-Epoxypropyl O-β-D-galactopyranosyl-(1→6)-β-D-galactopyranoside, synthesis, affinity for IgA J539, 332
- 5-Fluorouracil nucleosides of 4-deoxy-L-threo-hex-4-enopyranuronic acid, synthesis and conformational analysis of the N¹- and N³-, 123
- Galactan of the snail *Lymnaea stagnalis*, structural investigations of the, 201
- O-β-D-Galactopyranosyl-(1→6)-β-D-galactopyranoside, 2,3-epoxypropyl, synthesis, affinity for IgA J539, 332
- Gas-liquid chromatography-mass spectrometry, identification of pyruvated monosaccharides in polysaccharides by, 175
- (1→3)-β-D-Glucan, a branched, from a water extract of *Dictyophora indusiata* Fisch., 237
- D-Glucopyranose 6-phosphate and D-ribofuranose 5-phosphate, kinetics and mechanism of oxidation of, by vanadium(V) in perchloric acid media, 193

- Glucopyranoside with 2,3,4,6-tetra-*O*-benzyl- α -D-glucopyranosyl bromide under catalysis by halide ion, selective α -D-glucosylation of methyl 4,6-*O*-benzylidene- α - and β -D-, 307
- O*-(β -D-Glucopyranosyluronic acid)-(1 \rightarrow 3)-*O*- β -D-galactopyranosyl-(1 \rightarrow 4)-D-glucopyranose, synthesis of, 328
- Glucosylation of methyl 4,6-*O*-benzylidene- α - and β -D-glucopyranoside with 2,3,4,6-tetra-*O*-benzyl- α -D-glucopyranosyl bromide under catalysis by halide ion, selective α -D-, 307
- Guar seed husk, isolation of a neutral linear xylan from, 348
- α -L-Gulonate dihydrate, crystal structure at 87 K of sodium, 13
- Heparin, function of sulfate groups in, 267
- Hyaluronic acid-copper complex, investigation by n.m.r. spectroscopy of the, 1
- Hyaluronic acid, polarographic investigations of the binding of copper(II) by, 141
- Hydrazine derivatives of dehydro-L-ascorbic acid, 37
- Identification of pyruvated monosaccharides in polysaccharides by gas-liquid chromatography-mass spectrometry, 175
- Investigation of the hyaluronic acid-copper complex by n.m.r. spectroscopy, 1
- Iridaea undulosa*, KCl-soluble carrageenans of, structural characterization, 219
- Isolation of a neutral linear xylan from guar seed husk, 348
- Kinetics and mechanism of oxidation of D-glucopyranose 6-phosphate and D-ribofuranose 5-phosphate by vanadium(V) in perchloric acid media, 193
- Klebsiella* K35 capsular polysaccharide, structure, 67
- Klebsiella* O5 and *Escherichia coli* O8, structural studies of the O-antigen polysaccharides of, 59
- Lactones, a simple l.c. method for the direct analysis of sugar acids and their, 312
- Lipid Y by the use of chemoselective debenzylolation as a key step, a new synthesis of, c5
- Lipopolysaccharide of *Serratia marcescens* C.D.C. 1783-57 (O14:H9), structural studies of a neutral polymeric fraction from the, 81
- Location and identity of the acyl substituents on the extracellular polysaccharides of *Rhizobium trifolii* and *Rhizobium leguminosarum*, 247
- Lysine, reaction of aldoses with, 99
- Methyl 6-(ammonium 2-acetamido-2-deoxy- α -D-glucopyranosyl phosphate)- α -D-mannopyranoside, synthesis and use for enzyme determination of, 89
- New synthesis of Lipid Y by the use of chemoselective debenzylolation as a key step, a, c5
- ¹H-N.m.r. spectra, determination of one-bond carbon-proton coupling constants through ¹³C-satellites in, 135
- N.m.r. spectroscopy, investigation of the hyaluronic acid-copper complex by, 1
- Oligosaccharides, sialyl-, containing *N*-acetyl-lactosamine from pregnancy urine, 341
- One-bond carbon-proton coupling constants through ¹³C-satellites in ¹H-n.m.r. spectra, determination of, 135
- Oxidation of D-glucopyranose 6-phosphate and D-ribofuranose 5-phosphate by vanadium(V) in perchloric acid media, kinetics and mechanism of, 193
- Phaseolus coccineus* cell-walls, structural analysis of the xyloglucan from, using cellulase-derived oligosaccharides, 45
- 1-Phosphotransferase, *N*-acetyl-, determination of, 89
- Polarographic investigations of the binding of copper(II) by hyaluronic acid, 141
- Polysaccharide of *Klebsiella* K35, capsular, structure, 67
- Polysaccharides, extracellular, of *Rhizobium trifolii* and *Rhizobium leguminosarum*, location and identity of the acyl substituents on the, 247
- Polysaccharides of *Iridaea undulosa* — see Carrageenans, 219
- Polysaccharides of *Klebsiella* O5 and *Escherichia coli* O8, structural studies of the O-antigen, 59
- Preparation of *O*-(carboxymethyl)cellulose (CMC) of high degree of substitution, 160
- Purification and properties of two enzymes from *Dichomitus squalens* which exhibit both cellobiohydrolase and xylanase activity, 279
- Pyruvated monosaccharides in polysaccharides by gas-liquid chromatography-mass spectrometry, identification of, 175
- Reaction of human serum albumin with aldoses, 113
- Reaction of lysine with aldoses, 99
- Repeating units of schizophyllan, synthesis of the, 293
- α -D-Ribofuranose, 1,2,3,5-tetra-*O*-acetyl-4-deoxy-4-C-[(*S*)-ethylphosphinyl]-, X-ray and molecular structure of, and conformations of aldopentofuranose analogs having phosphorus in the hemiacetal ring, 25
- Role of *O*-acetyl groups in the biosynthesis of alginate by *Azotobacter vinelandii*, 169
- Schizophyllan, synthesis of the repeating units of, 293

- Selective α -D-glucosylation of methyl 4,6-*O*-benzylidene- α - and - β -D-glucopyranoside with 2,3,4,6-tetra-*O*-benzyl- α -D-glucopyranosyl bromide under catalysis by halide ion, 307
- Serratia marcescens* C.D.C. 1783-57 (O14:H9), structural studies of a neutral polymeric fraction from the lipopolysaccharide of, 81
- Sialyloligosaccharides containing *N*-acetylglucosamine, isolation and characterization of, 341
- Simple l.c. method for the direct analysis of sugar acids and their lactones, a, 312
- Snail galactan, structural investigations of the *Lymnaea stagnalis*, 201
- Sodium α -L-gulonate dihydrate, crystal structure at 87 K of, 13
- Structural analysis of the xyloglucan from *Phaseolus coccineus* cell-walls using cellulase-derived oligosaccharides, 45
- Structural investigations of the galactan of the snail *Lymnaea stagnalis*, 201
- Structural studies of a neutral polymeric fraction from the lipopolysaccharide of *Serratia marcescens* C.D.C. 1783-57 (O14:H9), 81
- Structural studies of the O-antigen polysaccharides of *Klebsiella* O5 and *Escherichia coli* O8, 59
- Structure of the *Pseudomonas aeruginosa* immunotype 6 O-antigen: isolation and identification of 5-acetamido-3,5,7,9-tetradecoxy-7-formamido-L-glycero-L-manno-nonulosonic acid, c1
- Sugar aldehydes, asymmetric induction in acid-catalysed condensations of furan and 2-methylfuran with, 145
- Sulfate groups, function in heparin, 267
- Synthesis and conformational analysis of the *N*¹- and *N*³-5-fluorouracil nucleosides of 4-deoxy-L-threo-hex-4-enopyranuronic acid, 123
- Synthesis of 4-*O*-acetyl-1,2-*O*-isopropylidene-3-*O*-toluene-*p*-sulphonyl- α -D-xylopyranuronolactone, 131
- Synthesis of 3-alkyl (aryl)-1-aryl-1,3-dihydro-2*H*-benzimidazole-2-thiones from 3-alkyl (aryl)-1-aryl-4-(α - and β -D-erythrofuranosyl)-1,3-dihydro-2*H*-imidazole-2-thiones, 152
- Synthesis of 7-[3-bromo-3,4-dideoxy-6-*O*-(2-hydroxyethyl)- β -D-glycero-hex-3-enopyranosyl-2-ulose] theophylline, 163
- Synthesis of *O*-(β -D-glucopyranosyluronic acid)-(1 \rightarrow 3)-*O*-(β -D-galactopyranosyl-(1 \rightarrow 4)-D-glucopyranose, 328
- Synthesis of Lipid Y by the use of chemoselective debenzoylation as a key step, a, c5
- Synthesis of some 1,2-bis(acetylphenyl)hydrazone derivatives, 156
- Synthesis of the repeating units of schizophyllan, 293
- Theophylline, synthesis of 7-[3-bromo-3,4-dideoxy-6-*O*-(2-hydroxyethyl)- β -D-glycero-hex-3-enopyranosyl-2-ulose]-, 163
- Transformation of uronic acids catalysed by boron trifluoride etherate, 131
- Trisaccharide constituent of the antigenic determinant of the capsular polysaccharide of *Klebsiella* type 73, synthesis of a, 328
- X-Ray crystal and molecular structure of 1,2,3,5-tetra-*O*-acetyl-4-deoxy-4-*C*-[(*S*)-ethylphosphinyl]- α -D-ribofuranose, and conformations of aldopentofuranose analogs having phosphorus in the hemiacetal ring, 25
- Xylan from guar seed husk, isolation of a neutral linear, 348
- Xyloglucan from *Phaseolus coccineus* cell-walls, structural analysis of the, using cellulase-derived oligosaccharides, 45
- D-Xylopyranuronolactone, synthesis of 4-*O*-acetyl-1,2-*O*-isopropylidene-3-*O*-toluene-*p*-sulphonyl- α -, 131
