

## **Announcements**

---

### **International Symposium on Polymer Analysis and Characterization**

The Fifth International Symposium on Polymer Analysis and Characterization will be held on June 1–4, 1992 at Inuyama City, Japan. This four-day Symposium will consist of poster sessions, invited lectures and round-table discussions and information exchange on recent advances in polymer characterization approaches, techniques, and applications.

Topics will include chromatography, infrared, n.m.r., mass spectrometry, chemical characterization, light scattering, rheology, microscopy, viscometry, surface analysis, thermal analysis, thermodynamics, and solution properties of polymers, as well as general contributions on polymer analysis and characterization.

Further information may be obtained from Dr. Sadao Mori, Department of Industrial Chemistry, Faculty of Engineering, Mie University, Tsu, Mie, 514, Japan; or Dr. Howard Barth, Du Pont Company, Experimental Station, P.O. Box 80228, Wilmington, DE 19880-0228, U.S.A.

### **Symposium on Glycobiology**

The 1992 Keystone Symposia on Molecular and Cellular Biology will include a meeting on Glycobiology, organized by Joseph K. Welply and Gerald W. Hart. The meeting will be held at Park City, Utah (U.S.A.), March 21–27, 1992. Requests for programs and information should be sent to: Keystone Symposia, Drawer 1630, Silverthorne, CO 80498, U.S.A. Telephone: 303 262 1230. FAX: 303 262 1525.
