

Announcement

International Symposium on Polymer Analysis and Characterization

The Sixth International Symposium on Polymer Analysis and Characterization will be held on July 11–14, 1993 at Crete, Greece. This three-day Symposium will consist of poster sessions, invited lectures, and round-table discussions and information exchange on recent advances in polymer characterization approaches, techniques, and applications.

Topics will include chromatography, infrared, NMR, mass spectrometry, chemical characterization, light scattering, rheology, microscopy, viscometry, surface analysis, thermal analysis, thermodynamics, and solution properties of polymers, as well as general contributions on polymer analysis and characterization.

Further information and registration forms may be obtained from Judith A. Sjoberg, Professional Association Management, 815 Don Gaspar, Santa Fe, NM 87501, USA; Tel: (505) 989-4735; FAX (505) 989-1073.
