

## Erratum

---

Use of compounds naturally labeled with stable isotopes for the study of the metabolism of glycoprotein neutral sugars by gas-liquid chromatography-isotope-ratio mass spectrometry. Technical validation in the rat, C. Rambal, C. Pachiaudi, S. Normand, J.-P. Riou, P. Louisot and A. Martin, *Carbohydr. Res.*, 236 (1992) 29-37.

The legend for Fig. 2 should have read:  $^{13}\text{C}$  enrichment (APE) in glycoprotein neutral sugars of rat intestinal mucosa under the same conditions as described in the legend to Fig. 1: (□) Galactose, (●) mannose, and (▲) fucose.
