

Carbohydrate Research 272 (1995) C15

## Sequencing of xyloglucan oligosaccharides by partial Driselase digestion: the preparation and quantitative and qualitative analysis of two new tetrasaccharides

## Ester P. Lorences, Stephen C. Fry

Division of Biological Sciences, The University of Edinburgh, Daniel Rutherford Building, The King's Buildings, Mayfield Road, Edinburgh EH9 3JH, UK

Carbohydrate Research, 263 (1994) 285-293.

The diagram on p. 292 should have been in the following form:

$$\begin{array}{c} Xyl \\ \downarrow \\ Glc \longrightarrow Glc \longrightarrow Glc \longrightarrow Glc \longrightarrow Glc \longrightarrow Glc \\ \hline [XGG] \qquad [cellobiose] \\ Xyl \qquad Xyl \qquad \downarrow \\ \downarrow \\ Glc \longrightarrow Glc \longrightarrow Glc \longrightarrow Glc \longrightarrow Glc \longrightarrow Glc \\ \hline [GXG] \qquad [XG] \end{array}$$
