

## Announcement

# The *Carbohydrate Research* Award 2001

The *Carbohydrate Research* Award for Creativity in Carbohydrate Chemistry was established in 2001 by the Editors and the Publisher of *Carbohydrate Research*.

The *Carbohydrate Research* Award consists of a cheque for US\$ 1,000, a certificate and a complimentary subscription to *Carbohydrate Research* for two years. The Award is presented to a carbohydrate scientist who has made significant original contributions to the field, in its broadest sense. The winner is invited to present a lecture on their work at an international conference, and to publish a paper based on their research in *Carbohydrate Research*.

We are pleased to announce that Professor Laura L. Kiessling is the first recipient of this new award.

*Left to Right: Amelia Pilar Rauter (EuroCarb Organiser) and Derek Horton (Carbohydrate Research Editor) presenting the 2001 Carbohydrate Research Award to Laura Kiessling.*

The 2001 Award was presented to Professor Kiessling during the 11th EuroCarb symposium in Portugal. This issue contains Professor Kiessling's award paper plus other selected papers from the EuroCarb symposium.
