UNCLE SAM LEARNS ABOUT TAXES

For years this industry has fought inequitable taxation. Many times it has been successful. Just as many times it has failed. Revenue seekers, for some unknown reason, have always felt that "luxury" industries should be taxed to the limit. But Uncle Sam has just learned a very severe and expensive lesson - that a tax can be pushed just so high, and then it reaches a point where it defeats its own purpose.

Congress pulled a boner when it doubled the tax on fur coats and jewelry last April 1. Since this 20 per cent tax went into effect the buying of coats and jewelry crashed. The result is that the treasury is getting a lot less cash than it figured on. And since all the cash that the Treasury can possibly raise at this time for the successful conduct of the war is of great and even extreme importance, Uncle Sam has learned a very harsh lesson about the time honored economic law of diminishing returns.

On a nationwide basis, sales of fur coats are down 40 per cent from the levels at this time a year ago. In some stores sales have plunged as much as 60 and 70 per cent. And during this past summer, declines from 1943's levels ranged up to 90 per cent. The Treasury's tax receipts also turned out all wrong. In September, which is usually a good collection month, the Internal Revenue Bureau received only \$3,667,000 in taxes compared with 3,047,147 in September a year ago. And remember that this present tax was upped from 10 to 20 per cent. The gain was unusually small. And the future looks even darker.

In the meantime fur coat manufacturers are much worried because their retail customers are dwindling away. The retailers themselves are in an uproar because they're caught with large supplies on hand and fear that they'll have to take some very big losses. All this because Congress figured that by boosting this luxury tax from 10 to 20 per cent it would not affect such sales and the Treasury would get more money from the fur industry.

The very same thing is happening in the jewelry field. The Internal Revenue Bureau figures show that jewelry sales for the three months ending September 1 were down 24 per cent from last year. Again the Treasury's collections were much lower than anticipated. The evidence is clear. High excise taxes haven't disturbed cheaply-priced items or sales of necessary goods, but they've made a big dent in the luxury fields.

For example, the City of Omaha's proposal to raise the license on pinball games from \$15 to \$150 per year and on phonographs from \$5. to \$50. per year, will act exactly the same to the treasury of that city as has the upped fur and jewelry taxes to Uncle Sam's Treasury in Washington. City officials in Omaha should first make a complete survey of the situation in both the pinball and music fields in their city. They will learn that a \$150. yearly license fee on each pinball game will probably wipe out more than 75% of the games now located in this city. Instead of receiving greater revenue, they will receive a lot less than they ever did before. This same holds true for the automatic phonographs in Omaha.

This is the time for the trade to bring these facts home to all tax makers in the nation. The above statistics released by the Internal Revenue Bureau of the Treasury Department and analyzed by persons who know the fur and jewelry fields has brought home a very strong point to Uncle Sam. Just the same as persons well acquainted with the pinball and music and other coin machines fields could prove to the City of Omaha, or any other city's administration, prior to any city council allowing excessive and extremely inequitable taxation to be imposed.

Even tho it is a sad fact that no National Tax Council is in existence to work for this industry, which could use the above figures and bring them home with great strength to the legislators in any community planning to up taxes on coin machines, as well as to the U.S. Government itself where much inequitable taxation in regards to this industry is as yet in existence, these figures should be preserved by every coin machines man in the nation for good use should this ever become necessary.

It should be remembered that the A.O.A. (Arcade Owners Ass'n.) is still fighting to get more equitable taxation for their businesses in Washington. Samuel "Curley" Robinson and his AOLAC (Associated Operators of Los Angeles County, Inc.) paid an unsuccessful visit to Washington and explained these very facts, which are here presented, to the House Ways and Means Committee at that time.

It has, of course, taken some months before the Treasury could feel the actual and factual results of this increased luxury taxation. To the revenue collectors there is little or no thought given to the fact that one industry may be considered a "luxury" and another a "necessity". The thought of the Congress in these cases is to raise as much revenue as possible to help bring this war to a faster conclusion. But instead of raising greater revenue, they have received less money.

"The Coin Machines Merry-Go-Round"

The case of the counter game is a clear and outstanding example of what excessive taxation has done to one division of this industry. Here inequitable taxation has pushed an entire field out of existence. No consideration was given to the difference in the earning power of counter games as compared to slots. But because both featured reels with similar symbols, they were taxed in the same category.

Everyone in this industry knows that no counter game ever built could be classed in the same category with a slot, as far as earning capacity was concerned. The counter game is still just a game. But the Government, by inequitably overtaxing this machine, pushed thousands upon thousands of these into basements, warehouses, garages, barns and goodness knows where, but took them off locations and thereby not only did the revenue fall but the general business that was conducted because of these machines has also hurt the general economy of this industry to some extent.

Here an entire field lies dormant because of the fact that inequitable and excessive taxation has knocked it out, and further because no thought or study was given to the requirements nor tax paying capacity of this field. The same can happen to any other field in this, or any other so-called "luxury industry", unless Congress now takes a lesson from what has just been proved to be the facts in the fur and jewelry fields.

This is one bit of evidence that would be well preserved by a National Tax Council and sufficiently played up to make every revenue seeker in the nation aware that excessive and inequitable taxation can, instead of bringing greater revenue, push an industry out of profitable future existence and cause great economic loss generally.

There is a point of diminishing returns. Uncle Sam has just learned all about it. This is the time for this industry to take advantage of this fact. Creating a National Tax Council now will prove of tremendously good and opportune value for all concerned with this business for today, and especially for the post war period.

FEAR VS. FAITH

In life, as well as in industry, there is a continual battle going on between fear and faith. Yet in every case, faith always emerges the winner. Fear is a man-made bogey. The fear bogeys are making the rounds of the trade today.

These bogey men claim that the manufacturers are going to take advantage of the present inflated prices. Another bogey going the rounds is the fear of certain distributors that they should not commit themselves for any product because another, similar product, might possibly come along better than the first.

Still another bogey concerns itself with the fact that there will be such a rush of new machines to the market that this, in itself, will upset all deals. And among some distributors arises the bogey man who says that wide open competition among all selling factors will become so great that this will kill off any possibility for profit. Furthermore, this bogey claims the distributors just won't get together for the general betterment of all concerned, and this, too, will slay many who want to go ahead.

Bogey man after bogey man arises and each one with a new and different story to tell. Each one ready to show how the industry is doomed. Each with a fear that is fighting the faith he has in this business. Each with something to counteract all the good that has already been done.

Faith is the greatest essential to success. It's the one and only thing that kept men going ahead in this industry when all claimed that this trade was doomed, right after Pearl Harbor. Faith built the backbone of this business. Faith in this industry and in its future is what is making many build better and more expensive quarters, what causes them to expand their operations and sales efforts and what makes them continue on ahead progressively

Those who lack faith in this business had best get out of it now, before the hectic, post-war period gets under way. They will then need every ounce of faith they can possibly corral to go ahead. Sure, many will be puzzled as to just how to best proceed at first. But if they have faith, they won't hesitate very long. They'll swing right into the spirit of this business and push with all their might and main and intelligence and power to get this industry - over the top. To make this a grander, greater, better and more respected business for all concerned.

NO NEW GAMES "FOR SOME TIME"

WPB HOLDS UP PRODUCTION OF CONSUMERS GOODS "FOR SOME TIME" AFTER GERMANY'S COLLAPSE. IMPORTANCE OF USED MACHINES MARKET INCREASES WITH THIS STATEMENT.

WASHINGTON—With the announcement this past week from James A. Krug, chairman of the War Production Board, that resumption of construction, as well as production of consumers durable goods (under which category the coin operated machines industry is classified) and particularly automobiles, will be delayed "for some time" after Germany's collapse, leading coinmen instantly plunged into action in an effort to accumulate sufficient stocks of used machines to be able to continue their operations until the time when reconversion would be allowed.

Krug also reported that the trend of workers to enter into peace-time jobs, which had halted production in some of the nation's key war centers in the East and Midwest, had been halted and that many hundreds of workers were returning to former war jobs. This meant, coinmen report, that labor would be difficult to obtain for a long time.

For sometime The Cash Box had been reporting that the used machines market would continue in importance, regardless of any other reports. WPB's recent elimination of further domestic reconversion under the Spot Authorization Plan, also announced earlier this past week, proved this belief regarding the importance of used machines to be true. Now this latest statement emanating from the office of WPB's chairman makes this an even greater certainty.

This industry will therefore have to accustom itself to the fact that it will not see a return to production of its goods for many months to come. This means that the present used machines market will continue.

Many leading distribs have already reported that they are not seeking further sales in an effort to conserve whatever merchandise they have on hand.

Coinmen, who fear their operations may suffer should they not be able to replace with merchandise at regular intervals, are asking for an increase in renovation of machines. These, they report, have proven themselves very capable of maintaining averages.

The hope seems to be that firms who may be planning renovation work, will plunge into such effort immediately, so that the trade will be assured the machines it will require during '45.

Tho encouraging to those who feared possible collapse of the used machines market, this latest WPB report has further confused many manufacturers who were eagerly looking forward to authorization for reconversion coming early during the New Year. These believed that there was even a possibility that should Germany seem to be definitely defeated by the end of '44 that WPB might allow them to enter into former products production on some sort of percentage basis under the Spot Authorization Plan.

This latest announcement from Krug's office upsets all plans and returns manufacturers to their war work with greater concentration than ever before. The industry is therefore left in the same position it was at the beginning of '44, when the manufacturers had no thoughts other than their war work.

It may be months before any further announcements are forthcoming from WPB which may, in any fashion, lend encouragement to the possibility that former products production reconversion can be undertaken.

USE "COINTOONS" FOR DISPLAYS

NEW YORK — A great many complimentary letters have been received from leaders in the trade by The Cash Box about the "Cointoons" which decorate the front of each week's issue.

Many state that they use the "Cointoons" page for display on their bulletin boards and that they have received many fine compliments regarding these from customers. Some of these men also reported that they usually pinned the editorial to which the "Cointoon" referred alongside and that this always attracts good attention.

One rather noted coinman from

the Far West writes that a great many "Cointoons" have been used by his firm as window displays. He reports that the one which appeared in the December 5, 1944 issue (General Douglas MacArthur) attracted much attention and, he believes, even helped the sales of war bonds.

The Cash Box would like to hear from other coinmen as to whether they, too, are using "Cointoons" and the editorial feature on their bulletin boards, or using "Cointoons" for window display purposes. A special series is being planned that will have window display value.

LACK OF INTEREST IN SELLING

NEW YORK—In an address before the Advertising Men's Post of the American Legion this past week F. Lloyd Wassell, manufacturer of production control system, reported that there is a great loss of interest in salesmanship.

He stated that a recent survey showed that less than 5 per cent of the men in the armed forces were considering selling as a post-war profession, and that 65 per cent of the salesmen in service indicated that they did not care to return to that profession.

U. S. NAVY THANKS COINMEN

LOS ANGELES—The U. S. Navy writes a letter to Samuel "Curley" Robinson of AOLAC, this city, thanking him for the work the members of this organization are doing for the men in the service.

The letter: "In behalf of the personnel of our station, I want to express our sincere thanks for the work your association is doing for men in the service.

"In isolated areas like these especially, good morale is of paramount importance. I can assure you that the entertainment equipment and the check which you so generously contributed to our welfare fund will be used in a way that will do the most good.

"We plan to prepare a brief press release in recognition of your contribution, and although we do not know how widely it will be published, we will send you copies of any notice that appears."

The letter is signed by W. L. Calhoun, officer in charge of this U. S. Naval Auxiliary Air Station.

Coinmen who have been imbued with the Christmas spirit can make this a happier Xmas for a great many of the boys in blue by donating machines and records of all kinds to the U. S. Naval Training School, 65 West Lake Street, Chicago 1, Ill., attention of: Commander W. C. Eddy.

TRIPPE ASKS PREFERENCE FOR SERVICEMEN

ST. LOUIS, MO.—Carl F. Trippe of Ideal Novelty Company, this city, suggests that the industry arrange some method of giving preference to servicemen when they return to this business.

Carl writes that he has just played host to some former operators who are now in the armed forces and were back on a short furlough. "These men", Trippe writes, "all want to come back to this industry the moment the war is over. But they will have to buy new equipment to start routes all over again. Some sort of preference should be worked out to give them these machines first."

Carl's idea is that those operators, who sold their businesses when they entered into the armed forces, should be given preference over any newcomers to this industry when they return to the trade.

He feels that all in this field will agree with him and that the manufacturers and distributors can work out some system whereby former members of this business who return from the armed forces will get preference on the purchase of new equipment.

AOA MEETS DEC. 11 IN NEW YORK

NEW YORK—The AOA (Arcade Owners Assn.) will meet at 8 P.M., December 11 at the Park Central Hotel in this city.

There will be an election of officers that evening as well as final disposition of the expansion program which was put into effect at the last meeting of this organization.

AOA urges that all arcade owners thruout the country be present at this meet for many important speakers have been invited.

EDDIE GINSBERG BECOMES PAPA

CHICAGO — Eddie Ginsberg of Atlas Novelty Company, this city, just back from action with the Navy's Seabees, became a very, very proud "Papa" of his first child on Saturday, November 25.

It's a girl and Eddie and Adele call her, "Jo Ann". (Papa Eddie is reported to be handing out cigars.)

**Bally Plant Wins
Third "E" Award**

Again the Army and Navy honors the "Bally" organization by adding a second star to the Army-Navy "E" Flag flying above the home of "Bally" games and venders—proof that the technical skill developed in peace-time production of coin-operated equipment is a valuable asset to America in time of war.

"I hear the war's practically over...back home!"

Maybe it's only natural for us, here at home, to feel that the war's practically over, the way the good news has been pouring in.

But, the war's not over for him — not by a long sight. And he's just one of a few million or more who will stay over there until they finish this bloody mess. Or kill time for a few months — or years — in some hospital.

This isn't the time to relax. No time to forget. It's still our war, and it still costs a lot.

Dig down deep. Dig down till it hurts. This 6th WAR LOAN is just as important to our complete and final victory as was the First War Loan Drive.

Buy at least one extra \$100 War Bond today!

THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading the past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.
