

Subject Index

Acrylonitrile from propane

Structure–activity relationship in Sb–V-oxide catalysts for the direct synthesis of acrylonitrile from propane 351

Adsorption and reaction

Structure sensitivity of oxide surfaces: the adsorption and reaction of carbon monoxide and formic acid on NiO(100) and NiO(111) 297

Alkali

Solid base catalysts for side-chain alkylation of toluene with methanol 443

Alumina

XAFS study of niobium oxide on alumina 71

Ammonia activation

Ammonia activation over catalysts for the selective catalytic reduction of NO_x and the selective catalytic oxidation of NH₃. An FT-IR study 373

Benzyl alcohol

Benzylation of toluene and anisole by benzyl alcohol catalysed by niobic acid 17

Benzylation

Benzylation of toluene and anisole by benzyl alcohol catalysed by niobic acid 17

Boron

Solid base catalysts for side-chain alkylation of toluene with methanol 443

Bulk and silica supported MoO₃ and V₂O₅ catalysts

A comparative study of the partial oxidation of methane to formaldehyde on bulk and silica supported MoO₃ and V₂O₅ catalysts 363

Bulk metal oxide catalysts

Low temperature incineration of mixed wastes using bulk metal oxide catalysts 305

Butane oxidation

Promotional effect of niobium phosphate for vanadyl pyrophosphate catalyst on selective oxidation of butane to maleic anhydride 133

Butene oxidation

Promotional effect of niobium phosphate for vanadyl pyrophosphate catalyst on selective oxidation of butane to maleic anhydride 133

Carbon

Solid base catalysts for side-chain alkylation of toluene with methanol 443

Carbon dioxide hydrogenation to ethanol

CO₂ hydrogenation to ethanol over promoted Rh/SiO₂ catalysts 261

Carbon monoxide

Structure sensitivity of oxide surfaces: the adsorption and reaction of carbon monoxide and formic acid on NiO(100) and NiO(111) 297

Carbon monoxide hydrogenation

Hydrogenation of carbon monoxide over highly dispersed cobalt catalysts derived from cobalt(II) acetate 251

Carbon tetrachloride

Kinetic mechanism of reactions of carbon tetrachloride with TT-niobium oxide and niobium phosphate 91

Catalytic combustion

Property of Pd-supported catalysts for catalytic combustion 245

Cesium

Solid base catalysts for side-chain alkylation of toluene with methanol 443

Cobalt catalysts

Hydrogenation of carbon monoxide over highly dispersed cobalt catalysts derived from cobalt(II) acetate 251

Comparative study

A comparative study of the partial oxidation of methane to formaldehyde on bulk and silica supported MoO₃ and V₂O₅ catalysts 363

Copper

The role of ZnO in Cu/ZnO methanol synthesis catalysts 223

Decalin

Mechanochemical reaction of niobium with decalin and tetralin. Hydrogenation of niobium with decalin and tetralin 99

Dehydrogenation activity

Characterization and dehydrogenation activity of Pt/Nb₂O₅ catalysts 119

Dynamic states

The dynamic states of silica-supported metal oxide catalysts during methanol oxidation 335

Ethylbenzene

Solid base catalysts for side-chain alkylation of toluene with methanol 443

Formic acid

Structure sensitivity of oxide surfaces: the adsorption and reaction of carbon monoxide and formic acid on NiO(100) and NiO(111) 297

Friedel–Crafts reaction

Benzylation of toluene and anisole by benzyl alcohol catalysed by niobic acid 17

FT-IR study

Ammonia activation over catalysts for the selective catalytic reduction of NO_x and the selective catalytic oxidation of NH_3 . An FT-IR study 373

FT-IR study of the *n*-butane conversion

On the mechanisms of light alkane catalytic oxidation and oxy-dehydrogenation: an FT-IR study of the *n*-butane conversion over MgCr_2O_4 and a Mg-vanadate catalyst 381

Hydrogenation of niobium

Mechanochemical reaction of niobium with decalin and tetralin. Hydrogenation of niobium with decalin and tetralin 99

Hydrogenation properties

Hydrogenation properties of lanthanide-doped Ag bimetallic catalysts 231

Hydrotreating

Niobium sulfides as catalysts for hydrotreating reactions 23

Keggin-type heteropolyoxomolybdates

The role of promoters in the oxidehydrogenation of ethane over structurally stable Keggin-type heteropolyoxomolybdates 319

Lanthanide-doped Ag bimetallic catalysts

Hydrogenation properties of lanthanide-doped Ag bimetallic catalysts 231

Layered niobates

Layered niobium oxides — pillaring and exfoliation 167

Liquid-phase hydrogenation of dicarboxylates

Liquid-phase hydrogenation of dicarboxylates catalyzed by supported Ru–Sn catalysts 267

Low temperature incineration

Low temperature incineration of mixed wastes using bulk metal oxide catalysts 305

Magnesia

Solid base catalysts for side-chain alkylation of toluene with methanol 443

Maleic anhydride

Promotional effect of niobium phosphate for vanadyl pyrophosphate catalyst on selective oxidation of butane to maleic anhydride 133

Mechanisms of light alkane catalytic oxidation

On the mechanisms of light alkane catalytic oxidation and oxy-dehydrogenation: an FT-IR study of the *n*-butane conversion over MgCr_2O_4 and a Mg-vanadate catalyst 381

Metal oxide catalysts

The dynamic states of silica-supported metal oxide catalysts during methanol oxidation 335

Metal surfaces

Thermal stability and reactions of CH_2 , CH_3 and C_2H_5 species on the metal surfaces 193

Methanol

Solid base catalysts for side-chain alkylation of toluene with methanol 443

Methanol oxidation

The dynamic states of silica-supported metal oxide catalysts during methanol oxidation 335

Methanol synthesis

The role of ZnO in Cu/ZnO methanol synthesis catalysts 223

Methanol to formaldehyde oxidation

Modification of silver catalysts for oxidation of methanol to formaldehyde 239

Methyl isobutyl ketone

One-step synthesis of methyl isobutyl ketone catalyzed by palladium supported on niobic acid 127

 MgCr_2O_4 catalyst

On the mechanisms of light alkane catalytic oxidation and oxy-dehydrogenation: an FT-IR study of the *n*-butane conversion over MgCr_2O_4 and a Mg-vanadate catalyst 381

Mg-vanadate catalyst

On the mechanisms of light alkane catalytic oxidation and oxy-dehydrogenation: an FT-IR study of the *n*-butane conversion over MgCr_2O_4 and a Mg-vanadate catalyst 381

Mixed wastes

Low temperature incineration of mixed wastes using bulk metal oxide catalysts 305

Mobile metal compounds

Preparation of supported bimetallic catalysts by means of selective deposition using mobile metal compounds as precursors 215

Model VPO catalysts

The effect of the phase composition of model VPO catalysts for partial oxidation of *n*-butane 275

 MoO_3

A comparative study of the partial oxidation of methane to formaldehyde on bulk and silica supported MoO_3 and V_2O_5 catalysts 363

 NH_3

Ammonia activation over catalysts for the selective catalytic reduction of NO_x and the selective catalytic oxidation of NH_3 . An FT-IR study 373

Nickel

Photocatalytic water splitting on nickel intercalated $\text{A}_4\text{Ta}_x\text{Nb}_{6-x}\text{O}_{17}$ ($\text{A} = \text{K}, \text{Rb}$) 175

 $\text{NiO}(100)$

Structure sensitivity of oxide surfaces: the adsorption and reaction of carbon monoxide and formic acid on $\text{NiO}(100)$ and $\text{NiO}(111)$ 297

 $\text{NiO}(111)$

Structure sensitivity of oxide surfaces: the adsorption and reaction of carbon monoxide and formic acid on $\text{NiO}(100)$ and $\text{NiO}(111)$ 297

Niobia–alumina supported hydroprocessing catalysts

Niobia–alumina supported hydroprocessing catalysts: relationship between activity and support surface acidity 159

Niobia–phosphate aerogels

One-step synthesis and characterization of niobia–phosphate aerogels 41

Niobia-supported cobalt catalysts

The promoting effect of noble metal addition on niobia-supported cobalt catalysts 147

Niobia supported vanadium oxide catalysts

Oxidative dehydrogenation of propane over niobia supported vanadium oxide catalysts 139

- Niobic acid
Benzylation of toluene and anisole by benzyl alcohol catalysed by niobic acid 17
The acidity of niobic acid studied by ^1H broad-line NMR at 4 K and ^1H MAS NMR at room temperature: comparison with other solid acids 31
- Niobium
Mechanochemical reaction of niobium with decalin and tetralin. Hydrogenation of niobium with decalin and tetralin 99
Effects of loading niobium compounds on sensing factor and function of TiO_2 191
- Niobium oxide
Study of the structure of niobium oxide by X-ray absorption fine structure and surface science techniques 59
XAFS study of niobium oxide on alumina 71
Control of the structure of niobium oxide species on silica by the equilibrium adsorption method 79
Kinetic mechanism of reactions of carbon tetrachloride with TT-niobium oxide and niobium phosphate 91
SMSI effect in some reducible oxides including niobia 105
- Niobium oxide catalysts
Niobium oxide based materials as catalysts for acidic and partial oxidation type reactions 3
Redox properties of niobium oxide catalysts 199
- Niobium oxides
Surface structures and catalytic properties of supported niobium oxides 49
Layered niobium oxides — pillaring and exfoliation 167
- Niobium oxide superfine particles
Surface reactions and structures of niobium oxide superfine particles 183
- Niobium phosphate
Promotional effect of niobium phosphate for vanadyl pyrophosphate catalyst on selective oxidation of butane to maleic anhydride 133
- Niobium sulfide catalysts
Niobium sulfides as catalysts for hydrotreating reactions 23
- NMR
The acidity of niobic acid studied by ^1H broad-line NMR at 4 K and ^1H MAS NMR at room temperature: comparison with other solid acids 31
- Noble metal addition
The promoting effect of noble metal addition on niobia-supported cobalt catalysts 147
- NO_x
Ammonia activation over catalysts for the selective catalytic reduction of NO_x and the selective catalytic oxidation of NH_3 . An FT-IR study 373
- One-step synthesis
One-step synthesis and characterization of niobia-phosphate aerogels 41
- Oxidation
Niobium oxide based materials as catalysts for acidic and partial oxidation type reactions 3
- Oxidative dehydrogenation of propane
Oxidative dehydrogenation of propane over niobia supported vanadium oxide catalysts 139
- Oxidehydrogenation of ethane
The role of promoters in the oxidehydrogenation of ethane over structurally stable Keggin-type heteropolyoxomolybdates 319
- Oxides
SMSI effect in some reducible oxides including niobia 105
- Oxide surfaces
Structure sensitivity of oxide surfaces: the adsorption and reaction of carbon monoxide and formic acid on $\text{NiO}(100)$ and $\text{NiO}(111)$ 297
- Oxy-dehydrogenation
On the mechanisms of light alkane catalytic oxidation and oxy-dehydrogenation: an FT-IR study of the *n*-butane conversion over MgCr_2O_4 and a Mg-vanadate catalyst 381
- Palladium/niobic acid catalyst
One-step synthesis of methyl isobutyl ketone catalyzed by palladium supported on niobic acid 127
- Palladium-supported catalysts
Property of Pd-supported catalysts for catalytic combustion 245
- Partial oxidation of methane to formaldehyde
A comparative study of the partial oxidation of methane to formaldehyde on bulk and silica supported MoO_3 and V_2O_5 catalysts 363
- Partial oxidation of *n*-butane
The effect of the phase composition of model VPO catalysts for partial oxidation of *n*-butane 275
- Phase composition
The effect of the phase composition of model VPO catalysts for partial oxidation of *n*-butane 275
- Photocatalytic water splitting
Photocatalytic water splitting on nickel intercalated $\text{A}_4\text{Ta}_x\text{Nb}_{6-x}\text{O}_{17}$ ($\text{A} = \text{K}, \text{Rb}$) 175
- Platinum powder catalysts
Generation of active sites over Pt powder catalysts by UHV treatment. Temperature programmed desorption study 205
- Potassium
Solid base catalysts for side-chain alkylation of toluene with methanol 443
- Promoters
The role of promoters in the oxidehydrogenation of ethane over structurally stable Keggin-type heteropolyoxomolybdates 319
- Pt/ Nb_2O_5 catalysts
Characterization and dehydrogenation activity of Pt/ Nb_2O_5 catalysts 119
- Redox properties
Redox properties of niobium oxide catalysts 199
- Rh/ SiO_2 catalysts
 CO_2 hydrogenation to ethanol over promoted Rh/ SiO_2 catalysts 261
- Rubidium
Solid base catalysts for side-chain alkylation of toluene with methanol 443
- Ru-Sn catalysts
Liquid-phase hydrogenation of dicarboxylates catalyzed by supported Ru-Sn catalysts 267

- Sb-V-oxide catalysts
Structure–activity relationship in Sb-V-oxide catalysts for the direct synthesis of acrylonitrile from propane 351
- Selective catalytic oxidation of NH_3
Ammonia activation over catalysts for the selective catalytic reduction of NO_x and the selective catalytic oxidation of NH_3 . An FT-IR study 373
- Selective catalytic reduction of NO_x
Ammonia activation over catalysts for the selective catalytic reduction of NO_x and the selective catalytic oxidation of NH_3 . An FT-IR study 373
- Selective deposition
Preparation of supported bimetallic catalysts by means of selective deposition using mobile metal compounds as precursors 215
- Sensing factor
Effects of loading niobium compounds on sensing factor and function of TiO_2 191
- Silica
Control of the structure of niobium oxide species on silica by the equilibrium adsorption method 79
- Silica-supported metal oxide catalysts
The dynamic states of silica-supported metal oxide catalysts during methanol oxidation 335
- Silver catalysts
Modification of silver catalysts for oxidation of methanol to formaldehyde 239
- SMSI effect
SMSI effect in some reducible oxides including niobia 105
- Solid acids
The acidity of niobic acid studied by ^1H broad-line NMR at 4 K and ^1H MAS NMR at room temperature: comparison with other solid acids 31
- Structure–activity relationship
Structure–activity relationship in Sb-V-oxide catalysts for the direct synthesis of acrylonitrile from propane 351
- Structure sensitivity
Structure sensitivity of oxide surfaces: the adsorption and reaction of carbon monoxide and formic acid on $\text{NiO}(100)$ and $\text{NiO}(111)$ 297
- Styrene
Solid base catalysts for side-chain alkylation of toluene with methanol 443
- Supported bimetallic catalysts
Preparation of supported bimetallic catalysts by means of selective deposition using mobile metal compounds as precursors 215
- Surface acidity
Niobia–alumina supported hydroprocessing catalysts: relationship between activity and support surface acidity 159
- Surface reactions
Surface reactions and structures of niobium oxide superfine particles 183
- Surface science
Study of the structure of niobium oxide by X-ray absorption fine structure and surface science techniques 59
- Surface structures
Surface structures and catalytic properties of supported niobium oxides 49
- Synthesis
Structure–activity relationship in Sb-V-oxide catalysts for the direct synthesis of acrylonitrile from propane 351
- Temperature programmed desorption
Generation of active sites over Pt powder catalysts by UHV treatment. Temperature programmed desorption study 205
- Tetralin
Mechanochemical reaction of niobium with decalin and tetralin. Hydrogenation of niobium with decalin and tetralin 99
- Thermal stability of hydrocarbon fragments
Thermal stability and reactions of CH_2 , CH_3 and C_2H_5 species on the metal surfaces 193
- Titanium oxide
Effects of loading niobium compounds on sensing factor and function of TiO_2 191
- Toluene
Solid base catalysts for side-chain alkylation of toluene with methanol 443
- UHV treatment
Generation of active sites over Pt powder catalysts by UHV treatment. Temperature programmed desorption study 205
- Vanadyl pyrophosphate
Promotional effect of niobium phosphate for vanadyl pyrophosphate catalyst on selective oxidation of butane to maleic anhydride 133
- V_2O_5
A comparative study of the partial oxidation of methane to formaldehyde on bulk and silica supported MoO_3 and V_2O_5 catalysts 363
- X-ray absorption fine structure
Study of the structure of niobium oxide by X-ray absorption fine structure and surface science techniques 59
XAFS study of niobium oxide on alumina 71
- Zeolite
Solid base catalysts for side-chain alkylation of toluene with methanol 443
- Zinc oxide
The role of ZnO in Cu/ZnO methanol synthesis catalysts 223
