

## Publisher's Note

The "Directory of Catalysis", published in *Catalysis Today* as Volume 34, Nos. 1–2, raised some questions among our readers, which we would like to answer here.

This directory contains information on 746 individuals active in the field of catalysis worldwide. It has been compiled by Elsevier Science BV as a service to the journal's readers and to the catalysis community.

The entries are based on a questionnaire, publicized widely, returned by people active in catalysis. Every effort has been made to ensure that the information contained in this directory is correct. If, however, there are mistakes, we invite you to bring these to our attention. Likewise, we would be happy to hear from you if you feel that changes or additions are necessary to improve the directory. In due course, we consider publishing a revised and updated directory. Please direct your correspondence to Drs. Huub Manten-Werker, Elsevier Science BV, P.O. Box 330, 1000 AH Amsterdam, The Netherlands.

Elsevier Science BV would like to emphasize that no unauthorized use of the addresses contained in the directory is permitted.
