

## Subject index

- Ag  
Catalytic combustion of CH<sub>4</sub> and CO on La<sub>1-x</sub>M<sub>x</sub>MnO<sub>3</sub> perovskites 155
- Aluminum hydroxide  
New technology for production of spherical alumina supports for fluidized bed combustion 51
- Barium oxide  
Catalytic combustion of methane over supported bimetallic Pd catalysts: Effects of Ru or Rh addition 141
- Bimetallic catalyst  
Catalytic combustion of methane over supported bimetallic Pd catalysts: Effects of Ru or Rh addition 141
- Catalysed combustion  
Catalysis of H<sub>2</sub>, CO and alkane oxidation–combustion over Pt/Silica catalysts: evidence of coupling and promotion 45
- Catalyst synthesis  
Catalytic oxidation of methane over hexaaluminates and hexaaluminate-supported Pd catalysts 103
- Catalyst  
Advanced technology catalytic combustor for high temperature ground power gas turbine applications 305  
Catalytic combustion of lean methane–air mixtures 149  
The development of novel metal-based combustion catalysts 191
- Catalysts, for combustion of natural gas  
Stability of supported metal and supported metal oxide combustion catalysts 5
- Catalytic combustion of chlorinated hydrocarbons  
Perovskite-type oxide monolithic catalysts for combustion of chlorinated hydrocarbons 429
- Catalytic combustion  
A study of Nusselt and Sherwood numbers in a monolith reactor 295  
Advanced technology catalytic combustor for high temperature ground power gas turbine applications 305  
Application concepts and evaluation of small-scale catalytic combustors for natural gas 325  
Application of catalytic combustion to a 1.5 MW industrial gas turbine 369  
Catalytic combustion concept for gas turbines 377  
Catalytic combustion in a domestic natural gas burner 415  
Catalytic combustion of CH<sub>4</sub> and CO on La<sub>1-x</sub>M<sub>x</sub>MnO<sub>3</sub> perovskites 155  
Catalytic combustion of hydrocarbons with Mn and Cu-doped ceria–zirconia solid solutions 133  
Catalytic combustion of lean methane–air mixtures 149  
Catalytic combustion of methane over supported bimetallic Pd catalysts: Effects of Ru or Rh addition 141  
Catalytic oxidation of methane over hexaaluminates and hexaaluminate-supported Pd catalysts 103  
Catalytic oxidation over lanthanum-transition metal perovskite materials 123  
Catalytic radiant burner for stationary and mobile applications 407  
Circumventing fuel-NO<sub>x</sub> formation in catalytic combustion of gasified biomass 359  
Complete methane oxidation over Pd catalyst supported on  $\alpha$ -alumina. Influence of temperature and oxygen pressure on the catalyst activity 29  
Deactivation of palladium catalyst in catalytic combustion of methane 19  
Development of a catalytic burner with Pd/NiO catalysts 421  
Development of a catalytic combustor for a heavy-duty utility gas turbine 391  
Development of a catalytically assisted combustor for a gas turbine 399  
Fluidized bed catalytic combustion 339  
Modelling catalytic combustion in monolith reactors – challenges faced 209  
Novel compact steam reformer for fuel cells with heat generation by catalytic combustion augmented by induction heating 347  
Numerical analysis of a catalytic radiant burner: effect of catalyst on radiant efficiency and operability 253  
Oxidation of methane over Pd/mixed oxides for catalytic combustion 95  
Perovskite-type oxide monolithic catalysts for combustion of chlorinated hydrocarbons 429
- Catalytic combustor  
Unsteady state treatment of very lean waste gases in a network of catalytic burners 263
- Catalytic heater  
Catalytic radiant burner for stationary and mobile applications 407
- Catalytic hydrocarbon oxidation  
Ignition in alkane oxidation on noble-metal catalysts 219
- Catalytic ignition  
Oxidation of methane over Pd/mixed oxides for catalytic combustion 95
- Catalytic oxidation  
Monoliths in catalytic oxidation 169

- The catalytic combustion of methane and hydrogen sulphide 353
- Catalytic radiant burner
  - Catalytic radiant burner for stationary and mobile applications 407
- Catalytic
  - Catalytic activity of powder and monolith perovskites in methane combustion 199
  - Chemical modelling and measurements of the catalytic combustion of CH<sub>4</sub>/air mixtures on platinum and palladium catalysts 235
- CeO<sub>2</sub>
  - Non-steady activity during methane combustion over Pd/Al<sub>2</sub>O<sub>3</sub> and the influences of Pt and CeO<sub>2</sub> additives 279
- CeO<sub>2</sub>–ZnO<sub>2</sub>
  - Catalytic combustion of hydrocarbons with Mn and Cu-doped ceria–zirconia solid solutions 133
- Ceramic substrates
  - Thick-film coating of hexaaluminate catalyst on ceramic substrates for high-temperature combustion 181
- Ceria
  - Catalytic combustion of hydrocarbons with Mn and Cu-doped ceria–zirconia solid solutions 133
- CH<sub>4</sub> oxidation
  - Catalytic combustion of CH<sub>4</sub> and CO on La<sub>1–x</sub>M<sub>x</sub>MnO<sub>3</sub> perovskites 155
- CH<sub>4</sub>
  - Chemical modelling and measurements of the catalytic combustion of CH<sub>4</sub>/air mixtures on platinum and palladium catalysts 235
- Chlorinated hydrocarbons
  - Perovskite-type oxide monolithic catalysts for combustion of chlorinated hydrocarbons 429
- Chromium
  - Preparation and characterization of LaCrO<sub>3</sub> and Cr<sub>2</sub>O<sub>3</sub> methane combustion catalysts supported on LaAl<sub>11</sub>O<sub>18</sub>- and Al<sub>2</sub>O<sub>3</sub>-coated monoliths 73
- CO oxidation
  - Catalytic combustion of CH<sub>4</sub> and CO on La<sub>1–x</sub>M<sub>x</sub>MnO<sub>3</sub> perovskites 155
- CO
  - Catalysis of H<sub>2</sub>, CO and alkane oxidation–combustion over Pt/Silica catalysts: evidence of coupling and promotion 45
- CO–H<sub>2</sub>–CH<sub>4</sub> ignition
  - Circumventing fuel-NO<sub>x</sub> formation in catalytic combustion of gasified biomass 359
- CO-emission
  - Application of catalytic combustion to a 1.5 MW industrial gas turbine 369
- Co-precipitation
  - Preparation and characterization of LaCrO<sub>3</sub> and Cr<sub>2</sub>O<sub>3</sub> methane combustion catalysts supported on LaAl<sub>11</sub>O<sub>18</sub>- and Al<sub>2</sub>O<sub>3</sub>-coated monoliths 73
- CO<sub>2</sub> inhibition
  - Fiber-supported perovskites for catalytic combustion of natural gas 115
- Combustion catalyst
  - Preparation and characterization of LaCrO<sub>3</sub> and Cr<sub>2</sub>O<sub>3</sub> methane combustion catalysts supported on LaAl<sub>11</sub>O<sub>18</sub>- and Al<sub>2</sub>O<sub>3</sub>-coated monoliths 73
  - Fiber-supported perovskites for catalytic combustion of natural gas 115
- Combustion
  - C–H bond activation in hydrocarbon oxidation on heterogeneous catalysts 229
  - Catalytic activity of powder and monolith perovskites in methane combustion 199
  - Chemical modelling and measurements of the catalytic combustion of CH<sub>4</sub>/air mixtures on platinum and palladium catalysts 235
  - The development of novel metal-based combustion catalysts 191
  - The effect of water on the activity of supported palladium catalysts in the catalytic combustion of methane 287
  - Thick-film coating of hexaaluminate catalyst on ceramic substrates for high-temperature combustion 181
- Combustion, catalytic
  - Stability of supported metal and supported metal oxide combustion catalysts 5
- Combustor
  - Advanced technology catalytic combustor for high temperature ground power gas turbine applications 305
- Copper oxide
  - Catalytic combustion of methane on aluminate-supported copper oxide 83
- Deactivation
  - C–H bond activation in hydrocarbon oxidation on heterogeneous catalysts 229
  - Deactivation of palladium catalyst in catalytic combustion of methane 19
- Deposition–precipitation
  - Preparation and characterization of LaCrO<sub>3</sub> and Cr<sub>2</sub>O<sub>3</sub> methane combustion catalysts supported on LaAl<sub>11</sub>O<sub>18</sub>- and Al<sub>2</sub>O<sub>3</sub>-coated monoliths 73
- Diffusive catalytic combustion
  - Application concepts and evaluation of small-scale catalytic combustors for natural gas 325
- Domestic burner
  - Catalytic combustion in a domestic natural gas burner 415
- Double modification
  - New technology for production of spherical alumina supports for fluidized bed combustion 51
- Fe–Cr–Al alloys, as combustion catalyst substrates
  - Stability of supported metal and supported metal oxide combustion catalysts 5
- Fiber-supported perovskites
  - Fiber-supported perovskites for catalytic combustion of natural gas 115
- Fluidized bed
  - Fluidized bed catalytic combustion 339
  - New technology for production of spherical alumina supports for fluidized bed combustion 51

- Fuel cell drive system
  - Catalytic radiant burner for stationary and mobile applications 407
- Fuel cell feed
  - Novel compact steam reformer for fuel cells with heat generation by catalytic combustion augmented by induction heating 347
- Fuel-NO<sub>x</sub>
  - Circumventing fuel-NO<sub>x</sub> formation in catalytic combustion of gasified biomass 359
- Gas turbine
  - Application of catalytic combustion to a 1.5 MW industrial gas turbine 369
  - Catalytic combustion concept for gas turbines 377
  - Catalytic combustion of methane on aluminate-supported copper oxide 83
  - Development of a catalytic combustor for a heavy-duty utility gas turbine 391
  - Development of a catalytically assisted combustor for a gas turbine 399
  - Monoliths in catalytic oxidation 169
- Gasified biomass
  - Circumventing fuel-NO<sub>x</sub> formation in catalytic combustion of gasified biomass 359
- Gibbsite amorphization
  - New technology for production of spherical alumina supports for fluidized bed combustion 51
- Granulation
  - New technology for production of spherical alumina supports for fluidized bed combustion 51
- H<sub>2</sub>
  - Catalysis of H<sub>2</sub>, CO and alkane oxidation–combustion over Pt/Silica catalysts: evidence of coupling and promotion 45
- Heat transfer
  - The development of novel metal-based combustion catalysts 191
- Hexaaluminate catalyst
  - Thick-film coating of hexaaluminate catalyst on ceramic substrates for high-temperature combustion 181
- Hexaaluminate film
  - Thick-film coating of hexaaluminate catalyst on ceramic substrates for high-temperature combustion 181
- Hexaaluminates
  - Catalytic oxidation of methane over hexaaluminates and hexaaluminate-supported Pd catalysts 103
- Hexaaluminates, as catalyst supports
  - Stability of supported metal and supported metal oxide combustion catalysts 5
- Homogeneous-heterogeneous reactions
  - Ignition in alkane oxidation on noble-metal catalysts 219
- Honeycomb
  - Development of a catalytic burner with Pd/NiO catalysts 421
- Hybrid catalytic combustion
  - Application concepts and evaluation of small-scale catalytic combustors for natural gas 325
- Hydrocarbon activation
  - C–H bond activation in hydrocarbon oxidation on heterogeneous catalysts 229
- Hydrocarbon–ammonia molding
  - New technology for production of spherical alumina supports for fluidized bed combustion 51
- Hydrogen sulphide oxidation
  - The catalytic combustion of methane and hydrogen sulphide 353
- Ignition/extinction
  - Ignition in alkane oxidation on noble-metal catalysts 219
- Impregnation
  - Preparation and characterization of LaCrO<sub>3</sub> and Cr<sub>2</sub>O<sub>3</sub> methane combustion catalysts supported on LaAl<sub>11</sub>O<sub>18</sub>- and Al<sub>2</sub>O<sub>3</sub>-coated monoliths 73
- Induction heating
  - Novel compact steam reformer for fuel cells with heat generation by catalytic combustion augmented by induction heating 347
- Kinetic parameters
  - The effect of water on the activity of supported palladium catalysts in the catalytic combustion of methane 287
- Kinetics of H<sub>2</sub>S oxidation
  - The catalytic combustion of methane and hydrogen sulphide 353
- Kinetics
  - Modelling catalytic combustion in monolith reactors – challenges faced 209
- Lanthanum hexa-aluminate
  - Preparation and characterization of LaCrO<sub>3</sub> and Cr<sub>2</sub>O<sub>3</sub> methane combustion catalysts supported on LaAl<sub>11</sub>O<sub>18</sub>- and Al<sub>2</sub>O<sub>3</sub>-coated monoliths 73
- Lean mixture
  - Catalytic combustion of lean methane–air mixtures 149
- Manganese oxide (MnO<sub>x</sub>)
  - The reduction and oxidation behaviour of manganese oxides 161
- Mass transfer
  - A study of Nusselt and Sherwood numbers in a monolith reactor 295
- Mechanical strength
  - New technology for production of spherical alumina supports for fluidized bed combustion 51
- Metallic honeycombs
  - Catalytic combustion in a domestic natural gas burner 415
- Methane and natural gas combustion
  - Catalytic combustion of methane on aluminate-supported copper oxide 83
- Methane catalytic combustion
  - Development of a catalytic burner with Pd/NiO catalysts 421
- Methane oxidation
  - Advanced technology catalytic combustor for high temperature ground power gas turbine applications 305
  - Combustion of methane over palladium/zirconia: effect of Pd-particle size and role of lattice oxygen 245

- Deactivation of palladium catalyst in catalytic combustion of methane 19
- Non-steady activity during methane combustion over Pd/Al<sub>2</sub>O<sub>3</sub> and the influences of Pt and CeO<sub>2</sub> additives 279
- Methane
  - C–H bond activation in hydrocarbon oxidation on heterogeneous catalysts 229
  - Catalysis of H<sub>2</sub>, CO and alkane oxidation–combustion over Pt/Silica catalysts: evidence of coupling and promotion 45
  - Catalytic activity of powder and monolith perovskites in methane combustion 199
  - Catalytic combustion of lean methane–air mixtures 149
  - Catalytic combustion of methane over supported bimetallic Pd catalysts: Effects of Ru or Rh addition 141
  - Catalytic oxidation over lanthanum-transition metal perovskite materials 123
  - The effect of water on the activity of supported palladium catalysts in the catalytic combustion of methane 287
  - The reduction and oxidation behaviour of manganese oxides 161
- Methane-steam reformer
  - Novel compact steam reformer for fuel cells with heat generation by catalytic combustion augmented by induction heating 347
- Mixed oxides supports based on alumina
  - Oxidation of methane over Pd/mixed oxides for catalytic combustion 95
- Mn-substituted hexaaluminate
  - Application concepts and evaluation of small-scale catalytic combustors for natural gas 325
- Modelling
  - Modelling catalytic combustion in monolith reactors – challenges faced 209
- Modification by Mg, La, Ce, Si
  - New technology for production of spherical alumina supports for fluidized bed combustion 51
- Monolith
  - Catalytic activity of powder and monolith perovskites in methane combustion 199
  - Modelling catalytic combustion in monolith reactors – challenges faced 209
- Monolith reactor
  - A study of Nusselt and Sherwood numbers in a monolith reactor 295
- Monolith
  - Monoliths in catalytic oxidation 169
- Natural gas
  - Catalytic combustion in a domestic natural gas burner 415
  - Catalytic oxidation of methane over hexaaluminates and hexaaluminate-supported Pd catalysts 103
  - Development of a catalytically assisted combustor for a gas turbine 399
- Nitrogen oxides
  - Development of a catalytically assisted combustor for a gas turbine 399
- NO<sub>x</sub> emission
  - Development of a catalytic combustor for a heavy-duty utility gas turbine 391
  - Application of catalytic combustion to a 1.5 MW industrial gas turbine 369
- Noble metal catalysts
  - Ignition in alkane oxidation on noble-metal catalysts 219
- Non-stationary burners
  - Unsteady state treatment of very lean waste gases in a network of catalytic burners 263
- Numerical simulation
  - Numerical analysis of a catalytic radiant burner: effect of catalyst on radiant efficiency and operability 253
- <sup>18</sup>O labeled palladium oxide
  - Combustion of methane over palladium/zirconia: effect of Pd-particle size and role of lattice oxygen 245
- One-dimensional model
  - Modeling of high-temperature catalytic combustors: Comparison between theory and experimental data 315
- Organic waste
  - Fluidized bed catalytic combustion 339
- Oscillations
  - Non-steady activity during methane combustion over Pd/Al<sub>2</sub>O<sub>3</sub> and the influences of Pt and CeO<sub>2</sub> additives 279
- Oxidation
  - The reduction and oxidation behaviour of manganese oxides 161
  - XPS analysis of the oxidation of palladium model catalysts 321
- Palladium catalyst
  - Deactivation of palladium catalyst in catalytic combustion of methane 19
- Palladium combustion catalysts
  - Catalytic combustion concept for gas turbines 377
- Palladium oxide
  - Complete methane oxidation over Pd catalyst supported on  $\alpha$ -alumina. Influence of temperature and oxygen pressure on the catalyst activity 29
  - The effect of water on the activity of supported palladium catalysts in the catalytic combustion of methane 287
- Palladium platinum combustion catalysts
  - Catalytic combustion concept for gas turbines 377
- Palladium
  - Advanced technology catalytic combustor for high temperature ground power gas turbine applications 305
  - C–H bond activation in hydrocarbon oxidation on heterogeneous catalysts 229
  - Catalytic combustion of methane over supported bimetallic Pd catalysts: Effects of Ru or Rh addition 141
  - Chemical modelling and measurements of the catalytic combustion of CH<sub>4</sub>/air mixtures on platinum and palladium catalysts 235
  - Complete methane oxidation over Pd catalyst supported on  $\alpha$ -alumina. Influence of temperature and oxygen pressure on the catalyst activity 29
  - XPS analysis of the oxidation of palladium model catalysts 321

**Palladium/zirconia**

Combustion of methane over palladium/zirconia: effect of Pd-particle size and role of lattice oxygen 245

**Parameter fitting**

Modeling of high-temperature catalytic combustors: Comparison between theory and experimental data 315

**Particle size effects**

XPS analysis of the oxidation of palladium model catalysts 321

**Pd monolithic catalysts**

The catalytic combustion of methane and hydrogen sulphide 353

**Pd**

Non-steady activity during methane combustion over Pd/Al<sub>2</sub>O<sub>3</sub> and the influences of Pt and CeO<sub>2</sub> additives 279

**Pd/NiO catalyst**

Development of a catalytic burner with Pd/NiO catalysts 421

**Perovskite**

Catalytic activity of powder and monolith perovskites in methane combustion 199

Catalytic combustion of CH<sub>4</sub> and CO on La<sub>1-x</sub>M<sub>x</sub>MnO<sub>3</sub> perovskites 155

Catalytic oxidation over lanthanum-transition metal perovskite materials 123

Preparation and characterization of LaCrO<sub>3</sub> and Cr<sub>2</sub>O<sub>3</sub> methane combustion catalysts supported on LaAl<sub>11</sub>O<sub>18</sub>- and Al<sub>2</sub>O<sub>3</sub>-coated monoliths 73

Fiber-supported perovskites for catalytic combustion of natural gas 115

Perovskite-type oxide monolithic catalysts for combustion of chlorinated hydrocarbons 429

**Platinum combustion catalysts**

Catalytic combustion concept for gas turbines 377

**Platinum**

C–H bond activation in hydrocarbon oxidation on heterogeneous catalysts 229

Catalysis of H<sub>2</sub>, CO and alkane oxidation–combustion over Pt/Silica catalysts: evidence of coupling and promotion 45

Chemical modelling and measurements of the catalytic combustion of CH<sub>4</sub>/air mixtures on platinum and palladium catalysts 235

Numerical analysis of a catalytic radiant burner: effect of catalyst on radiant efficiency and operability 253

**Poisoning**

Catalytic combustion of methane over supported bimetallic Pd catalysts: Effects of Ru or Rh addition 141

**Porous solid**

Numerical analysis of a catalytic radiant burner: effect of catalyst on radiant efficiency and operability 253

**Premixed catalytic combustion**

Application concepts and evaluation of small-scale catalytic combustors for natural gas 325

**Promoter**

C–H bond activation in hydrocarbon oxidation on heterogeneous catalysts 229

**Propane**

C–H bond activation in hydrocarbon oxidation on heterogeneous catalysts 229

Catalysis of H<sub>2</sub>, CO and alkane oxidation–combustion over Pt/Silica catalysts: evidence of coupling and promotion 45

**Pseudoboehmite**

New technology for production of spherical alumina supports for fluidized bed combustion 51

**Pt monolithic catalysts**

The catalytic combustion of methane and hydrogen sulphide 353

**Pt**

Non-steady activity during methane combustion over Pd/Al<sub>2</sub>O<sub>3</sub> and the influences of Pt and CeO<sub>2</sub> additives 279

**Quasi-steady state model**

Modeling of high-temperature catalytic combustors: Comparison between theory and experimental data 315

**Radiant heater**

Monoliths in catalytic oxidation 169

**Radiant heater**

Numerical analysis of a catalytic radiant burner: effect of catalyst on radiant efficiency and operability 253

**Radioactive waste**

Fluidized bed catalytic combustion 339

**Reactor network**

Unsteady state treatment of very lean waste gases in a network of catalytic burners 263

**Reduction**

XPS analysis of the oxidation of palladium model catalysts 321

**Rhodium**

C–H bond activation in hydrocarbon oxidation on heterogeneous catalysts 229

**Rhodium**

Catalytic combustion of methane over supported bimetallic Pd catalysts: Effects of Ru or Rh addition 141

**Role of lattice oxygen**

Combustion of methane over palladium/zirconia: effect of Pd-particle size and role of lattice oxygen 245

**Ruthenium**

Catalytic combustion of methane over supported bimetallic Pd catalysts: Effects of Ru or Rh addition 141

**Scale-up of catalytic combustion**

Development of a catalytic combustor for a heavy-duty utility gas turbine 391

**Sewage treatment**

The catalytic combustion of methane and hydrogen sulphide 353

**Sintered metal**

The development of novel metal-based combustion catalysts 191

**SLMA**

Thick-film coating of hexaaluminate catalyst on ceramic substrates for high-temperature combustion 181

**Spherical alumina**

New technology for production of spherical alumina supports for fluidized bed combustion 51

**Spinel support**

Catalytic combustion of methane on aluminate-supported copper oxide 83

**Sulphur dioxide**

C–H bond activation in hydrocarbon oxidation on heterogeneous catalysts 229

**Sulphur poisoning**

Catalytic combustion concept for gas turbines 377

**Support–active phase interaction**

Preparation and characterization of  $\text{LaCrO}_3$  and  $\text{Cr}_2\text{O}_3$  methane combustion catalysts supported on  $\text{LaAl}_{11}\text{O}_{18}$ - and  $\text{Al}_2\text{O}_3$ -coated monoliths 73

**Supported PdO catalysts**

Oxidation of methane over Pd/mixed oxides for catalytic combustion 95

**Temperature-programmed oxygen desorption**

Oxidation of methane over Pd/mixed oxides for catalytic combustion 95

**Thermal stability**

New technology for production of spherical alumina supports for fluidized bed combustion 51

Preparation and characterization of  $\text{LaCrO}_3$  and  $\text{Cr}_2\text{O}_3$  methane combustion catalysts supported on  $\text{LaAl}_{11}\text{O}_{18}$ - and  $\text{Al}_2\text{O}_3$ -coated monoliths 73

The development of novel metal-based combustion catalysts 191

**TPR**

Catalytic combustion of hydrocarbons with Mn and Cu-doped ceria–zirconia solid solutions 133

**Transients**

Modelling catalytic combustion in monolith reactors – challenges faced 209

**Vaporization, during catalytic combustion**

Stability of supported metal and supported metal oxide combustion catalysts 5

**Waste gases**

Unsteady state treatment of very lean waste gases in a network of catalytic burners 263

**Waste-water treatment**

Fluidized bed catalytic combustion 339

**Water inhibition**

The effect of water on the activity of supported palladium catalysts in the catalytic combustion of methane 287

**X-ray photoelectron spectroscopy**

XPS analysis of the oxidation of palladium model catalysts 321

**Zirconia**

Catalytic combustion of hydrocarbons with Mn and Cu-doped ceria–zirconia solid solutions 133
