Obituary	
J.J. Spivey	3
PLASMA CATALYTIC PROCESSES	
Plasma catalytic hybrid processes: gas discharge initiation and plasma activation of catalytic processes	
Th. Hammer, Th. Kappes and M. Baldauf	5
Some temperature effects on stability and carbon formation in low temperature ac plasma conversion of methane	
H. Le, L.L. Lobban and R.G. Mallinson	15
Plasma catalytic conversion of methane into syngas: the combined effect of discharge activation and catalysis	
M. Heintze and B. Pietruszka	21
Synthesis gas production via dielectric barrier discharge over Ni/ γ -Al ₂ O ₃ catalyst	
H.K. Song, J.-W. Choi, S.H. Yue, H. Lee and B.-K. Na	27
Metal effect and flow rate effect in the hydrogen production from methane	
F.-J. Spiess, S.L. Suib, K. Irie, Y. Hayashi and H. Matsumoto	35
Diagnosis of atmospheric pressure low temperature plasma and application to high efficient methane conversion	
S. Kado, Y. Sekine, T. Nozaki and K. Okazaki	47
Dissociation of vibrationally excited methane on Ni catalyst. Part 1. Application to methane steam reforming	
T. Nozaki, N. Muto, S. Kado and K. Okazaki	57
Dissociation of vibrationally excited methane on Ni catalyst. Part 2. Process diagnostics by emission spectroscopy	
T. Nozaki, N. Muto, S. Kado and K. Okazaki	67
Oxidation of 2-heptanone in air by a DBD-type plasma generated within a honeycomb monolith supported Pt-based catalyst	
C. Ayrault, J. Barrault, N. Blin-Simiand, F. Jorand, S. Pasquiers, A. Rousseau and J.M. Tatibouët	75
Oxidation of propene and the formation of methyl nitrate in non-thermal plasma discharges	
I. Orlandini and U. Riedel	83
Synergistic effect of silent discharge plasma and catalysts on benzene decomposition	
S. Futamura, H. Einaga, H. Kabashima and L.Y. Hwan	89
Oxidative dehydrogenation of ethane with CO ₂ over catalyst under pulse corona plasma	
X. Zhang, A. Zhu, X. Li and W. Gong	97
Basic study for gas cleaning using discharge and electrophoresis	
Z.-Z. Su, J. Sawada, K. Takashima, S. Katsura and A. Mizuno	103
Abatement of perfluorocarbons with combined plasma catalysis in atmospheric-pressure environment	
M.B. Chang and H.M. Lee	109
Plasma–catalyst interactions in the treatment of volatile organic compounds and NO _x with pulsed corona discharge and reticulated vitreous carbon Pt/Rh-coated electrodes	
M.J. Kirkpatrick, W.C. Finney and B.R. Locke	117
NO _x removal from a flue gas in a corona discharge-catalyst hybrid system	
M. Dors and J. Mizeraczyk	127
Non-thermal plasma-assisted NO _x reduction over alkali and alkaline earth ion exchanged Y, FAU zeolites	
J.H. Kwak, J. Szanyi and C.H.F. Peden	135
Combination of low and high temperature catalytic materials to obtain broad temperature coverage for plasma-facilitated NO _x reduction	
K.G. Rappé, J.W. Hoard, C.L. Aardahl, P.W. Park, C.H.F. Peden and D.N. Tran	143

The reactions of NO ₂ and CH ₃ CHO with Na-Y zeolite and the relevance to plasma-activated lean NO _x catalysis T.M. Orlando, A. Alexandrov, A. Lebsack, J. Herring and J.W. Hoard	151
Recombination of oxygen atomic excited states produced by non-equilibrium RF plasma on different semiconductor materials: catalytic phenomena and modelling C. Guyon, S. Cavadias, I. Mabilie, M. Moscota-Santillan and J. Amouroux	159

PLASMA CATALYST PREPARATION

Non-thermal plasma

Microwave plasma assisted preparation of disperse chromium oxide supported catalysts. Influence of the microwave plasma treatment on the properties of the supports A. Dittmar, H. Kosslick and D. Herein	169
Application of a dihydrogen afterglow to the preparation of zeolite-supported metallic nanoparticles J.-C. Legrand, A.-M. Damiy, G. Riahi, Z. Randriamanantenasa, M. Polisset-Thfoin and J. Fraissard	177
Partial oxidation of methane to syngas over glow discharge plasma treated Ni-Fe/Al ₂ O ₃ catalyst J.-g. Wang, C.-j. Liu, Y.-p. Zhang, K.-l. Yu, X.-l. Zhu and F. He	183
Plasma-assisted reduction of supported metal catalyst using atmospheric dielectric-barrier discharge S.-S. Kim, H. Lee, B.-K. Na and H.K. Song	193
New palladium catalysts prepared by glow discharge plasma for the selective hydrogenation of acetylene M.H. Chen, W. Chu, X.Y. Dai and X.W. Zhang	201

Thermal plasma

Plasma-chemical preparation of nanostructured catalysts for low-temperature steam conversion of carbon monoxide: thermodynamic and model studies G.P. Vissokov	205
Plasma-chemical preparation of nanostructured catalysts for low-temperature steam conversion of carbon monoxide: properties of catalysts G.P. Vissokov	213
Plasma-chemical preparation of nanostructured catalysts for low-temperature steam conversion of carbon monoxide: catalytic activity G.P. Vissokov	223
Effect of catalysis on coal to nanotube in thermal plasma Y.J. Tian, Y.L. Zhang, Q. Yü, X.Z. Wang, Z. Hu, Y.F. Zhang and K.C. Xie	233
Plasma torch generation of carbon supported metal catalysts H. Zea, C.-K. Chen, K. Lester, A. Phillips, A. Datye, I. Fonseca and J. Phillips	237
Some peculiarities of nano-dispersed catalysts synthesized or regenerated in an arc plasma conditions G.P. Vissokov	245
