

Contents

Preface	91
Biocatalysis from the perspective of an industrial practitioner: let a biocatalyst do a job that no chemocatalyst can M. Ikunaka	93
Enzymatic reactions in supercritical CO ₂ : carboxylation, asymmetric reduction and esterification T. Matsuda, K. Watanabe, T. Harada and K. Nakamura	103
Apatite-coated titanium dioxide photocatalyst for air purification T. Nonami, H. Hase and K. Funakoshi	113
Sol-gel preparation and photocatalysis of titanium dioxide C. Su, B.-Y. Hong and C.-M. Tseng	119
Transesterifications over titanosilicate molecular sieves D. Srinivas, R. Srivastava and P. Ratnasamy	127
Tertiary butylation of phenol over mesoporous MeMCM-48 and MeMCM-41 (Me = Ga, Fe, Al or B) solid acid catalysts P. Selvam and S.E. Dapurkar	135
Syntheses and catalytic properties of polystyrene supported nickel(II) carborane complexes Z. Yinghuai, A. Parthiban and F.B. Hedi Kooli	143
Isomerisation of α -pinene oxide over B ₂ O ₃ /SiO ₂ and Al-MSU catalysts D.B. Ravindra, Y.T. Nie, S. Jaenicke and G.K. Chuah	147
Catalytic conversion of methanol to gasoline range hydrocarbons H.A. Zaidi and K.K. Pant	155
Synthesis, characterization and application of nano-structured Mo ₂ C thin films H.Y. Chen, L. Chen, Y. Lu, Q. Hong, H.C. Chua, S.B. Tang and J. Lin	161
Synthesis of PdO/CeO ₂ mixed oxides catalyst for automotive exhaust emissions control A. Hadi and I.I. Yaacob	165
Development of hydrocarbon adsorbents, oxygen storage materials for three-way catalysts and NO _x storage-reduction catalyst T. Kanazawa	171
