

EDITORIAL COMMENT

We wish to inform our readers that the articles published in *Catalysis Letters* will be filed and catalogued by international abstract services and data centers. To help this process, which should also facilitate the subsequent retrieval and referencing of the papers, we shall provide each manuscript with **keywords** (index terms) that describe the topic/subject of the article.

From now on, we shall ask our authors to provide the **keywords** to ensure the accuracy of the cataloguing process.
