

# XXI International Symposium on MACROCYCLIC CHEMISTRY

VITTORIA CONGRESS CENTER

Montecatini Terme, Italy

23-28 June 1996

*The XXI International Symposium on Macrocyclic Chemistry will be held in Montecatini Terme, Italy, beginning on the afternoon of Sunday, June 23 and running until the afternoon of Friday, June 28, 1996. The National, and International Committees invite you to attend the symposium and to discuss recent and future trends in macrocyclic chemistry, host-guest chemistry, supramolecular chemistry, and related topics. Presentation will include invited lectures, Young Scientist Symposium and poster sessions. Special emphasis will be placed on making the poster sessions the centers of discussion.*
