

Errata

Surface complexes in zeolite-catalysed acylation reactions detected by ^{13}C MAS NMR spectroscopy, V. Bosáček, E.A. Gunnewegh and H. van Bakkum, Catal. Lett. 39 (1996) 57.

Due to a publisher's oversight an error was printed on page 59, left column, 4th line from the bottom:

... for the case of the single bond system in $>\text{C}=\text{O}-\text{OH}$ or in surface methoxyls $>\text{C}=\text{O}-\text{CH}_3$.

The correct sentence should read:

... for the case of the single bond system in $>\text{O}-\text{H}$ or in surface methoxyls $>\text{O}-\text{CH}_3$.

Shape-selective isopropylation of naphthalene over dealuminated mordenites. Increasing β -substitution selectivity by adding water, A.D. Schmitz and C. Song, Catal. Lett. 40 (1996) 59.

In the original fig. 1, p. 60, one of the isopropyl groups in the structure of 2,7-DIPN was placed erroneously in position 6. It should be attached to the carbon at position 7:

Fig. 1. Structures of β -substituted mono- and diisopropylnaphthalenes.
