### Instructions to authors

**Experientia** is published on the 15th of every month and can be obtained in any country through booksellers or from the publishers. All communications to the editors should be addressed to the publishers. All manuscripts for publication in a given number must be in the hands of the editors 3 months before publication.

**Articles** of general scientific interest: briefly stated and hitherto unpublished original reports of sufficient novelty value.

**Text** should not exceed 2-3 typewritten pages (50-60 lines). 1-2 relevant figures or tables. English summary of maximum 4 lines. Abbreviations should be properly explained. References should be numbered consecutively and be presented on a separate page. Name and address have to be placed directly under the title. Linguistically inadequate manuscripts will be returned. Manuscripts in languages other than English should be supplemented by an English translation of the title. Footnotes should be avoided.

**Figures** Illustrations should be separate from the text, with the author's name on the back in soft pencil. The desired labelling should be shown on a second set of figures, which will be used as a model for inscriptions. Drawings for reproductions should be on good paper in Indian ink, photographs should be supplied as glossy positive prints.

The illustrations should be at least one and a half times as large as the definitive size desired. Over-large figures can be easily damaged in the mail. Captions should be self-explanatory, without reference to the text.

**Tables** should be provided with a title and with self-explanatory captions.
