

Announcements

Italy

1st European conference on advances in antitumor agents

Milano, 30 May – 1 June 1984

The meeting has been planned to be restricted to basic sciences (chemistry and biology) and will focus on critical reexamination of present approaches and proposals of new ones. The following topics will be dealt with: a) New antitumor agents of natural and synthetic origin. b) Molecular interactions and metabolism. c) Evaluation of screening programs. d) Peptides and hormones. For information, please contact the conference secretariat: A.F.I., c/o Farmitalia-Carlo Erba, Via Santa Tecla 4, I-20122 Milano/Italy.

Federal Republic of Germany

4th international meeting of the Electrophoresis Society

Göttingen, 27–31 August 1984

Symposia, Round tables and Workshops are planned which will not run in parallel. All inquiries related to the meeting should be addressed to Prof. Dr. Volker Neuhoff, Max-Planck-Institut für experimentelle Medizin, Hermann Rein-Strasse 3, D-3400 Göttingen/FRG.

Austria

6th international symposium on 'Prevention and detection of cancer'

Vienna, 26–29 November 1984

The program of the symposium includes overview lectures, panels, poster sessions, scientific exhibits and special workshops designed for critical appraisal of current data. For information, please write to 'Prevention and detection of Cancer, AMEX P.O.B. 790459, DALLAS, Texas 75379/USA.

France

IXth European symposium on hormones and cell regulation

Ste-Odile, Strasbourg, 24–27 September 1984

For information, please contact the organizer of the symposium, Dr. B. Hamprecht, Physiologisch-Chemisches Institut, Universität Würzburg, Koellikerstrasse 2, D-87 Würzburg, Federal Republic of Germany.

Instructions to Authors

Experientia is a monthly journal of natural sciences devoted to publishing articles which are interdisciplinary in character and which are of general scientific interest. Considered for publication will be hitherto unpublished papers that fall within one of four categories:

Reviews (one-man and multi-author reviews)

Full Papers (in-depth reports not exceeding 4–6 printed pages)

Mini-reviews (1–2 printed pages)

Short Communications (1–2 printed pages)

Papers reporting on work that is preliminary in nature, or wherein animal experiments have been conducted without the appropriate anesthesia, will not be accepted.

Manuscript (including all tables and figures) must be submitted in *triplicate* and must be in *English*. *Title pages* should bear the author's name and address (placed directly below the title), a brief *abstract* (of approximately 50 words for short communications) mentioning new results only, and a listing of *key words*. *Footnotes* must be avoided. *Tables*, and then *figures*, are to follow the body of the text and should be marked with self-explanatory captions and be identified with the author's name. All *data* should be expressed in units conforming to the *Système International* (SI). *Drawings* are to be on heavy bond paper and marked clearly in black. *Photographs* should be supplied as glossy positive prints. Please note that we use two different systems for citing references. 1. For *Review Articles* and *Full Papers*, references should be arranged alphabetically and be numbered. Within the text, literature should be referred to by number and, where indicated, by author. The references should contain full journal article titles and the first as well as the last page of the article cited. 2. For *Short Communications*, an abbreviated bibliography is requested and references should be listed chronologically. Please consult a current issue of *Experientia* or inquire at the editorial office for details on form.

Authors are requested to specify under which section heading they would wish their communication to appear:

1. Chemistry, Physics, Biomathematics
2. Physiology, Pathophysiology (animals)
3. Physiology, Pathophysiology (plants)
4. Biochemistry
5. Anatomy, Histology, Histochemistry
6. Pharmacology, Toxicology
7. Molecular Biology
8. Immunology
9. Cellular Biology
10. Genetics, Developmental Biology, Aging
11. Oncology
12. Endocrinology
13. Neurobiology, Behavior
14. Environment, Ecology
15. Experimental Pathology and Clinical Research
16. Microbiology
17. New Methods and Apparatus

All incoming manuscripts are acknowledged immediately. Authors will be notified of the editorial board's publishing decision once their manuscripts have been evaluated by a minimum of two field experts. Fifty reprints of papers accepted for publication will be sent to authors free of charge; additional reprints may be ordered.

Manuscripts and all communications to the editors should be addressed to:
