International Symposium on Multiple Risk Factors in Cardiovascular Disease

Washington, 10–12 December 1990

This Symposium will provide information on the state-of-the-art and on the most recent therapeutic advances to research investigators, cardiologists, internists and geriatricians who are often confronted with selecting either a single risk factor for treatment, or treating several risk factors simultaneously but less aggressively.

The evaluation of risk factors is a critical problem in the treatment of chronic diseases, and especially cardiovascular disorders. In depth knowledge of the physiopathology, pharmacology (including pharmacokinetics) and therapeutic effectiveness of treatment is necessary. Bioethical considerations may also be required in the decision-making process.

For further information please contact the Organizing Secretariat: c/o Dr. Marjorie G. Horning, Baylor College of Medicine, One Baylor Plaza, Houston, Texas 77030 (USA), Phone: (713) 797.0401, Fax (713) 796.88 53.

Switzerland

EUCHEM Conference on Stereochemistry

The 26th EUCHEM Conference on Stereochemistry, covering a wide range of topics in chemistry with emphasis on its interdisciplinary character in natural sciences, will be held at the Bürgenstock near Luzern, Switzerland from 28 April–4 May 1991.

Inquiries and applications (no special forms are required) should be addressed before 10 January, 1991, to the President: Professor H. Ringsdorf, Institute of Organic Chemistry, Johannes Gutenberg University, J. J. Becher Weg 18–20, D-6500 Mainz, Germany.

Instructions to Authors

Experientia is a monthly journal for life sciences devoted to publishing articles which are interdisciplinary in character and which are of general scientific interest. Considered for publication will be hitherto unpublished papers that fall within the following categories:

Multi-author Reviews

Reviews

Mini-reviews

Research Articles

Research articles reporting on work that is preliminary in nature, without the support of adequate experimental data, or not conforming to the guidelines on animal experimentation set by the ethics committee of the Swiss academies of medical and natural sciences, will not be accepted. It is understood and agreed that all authors of a manuscript are equally and fully responsible for its entire contents.

Manuscripts (including all tables and figures) must be submitted in triplicate and must be in English. Title pages should bear the author's name and address (placed directly below the title), a brief abstract mentioning new results only, and a listing of key words. Footnotes must be avoided. Tables, and then figures, are to follow the body of the text and should be marked with self-explanatory captions and be identified with the author's name. All data should be expressed in units conforming to the Système International (SI). Drawings are to be on heavy bond paper and marked clearly in black. Photographs should be supplied as glossy positive prints. Please note that we use two different systems for citing references. 1. For Review Articles, references should be arranged alphabetically and be numbered. Within the text, literature should be referred to by number and, where indicated, by author. The references should contain full journal article titles and the first as well as the last page of the article cited. 2. For Research Articles and Mini-reviews, an abbreviated bibliography is requested and references should be listed chronologically. Please consult a current issue of Experientia or inquire at the editorial office for details on form.

Authors are requested to specify into which discipline their papers fall:

1. Anatomy, Physiology
2. Biochemistry and Biophysics
Metabolism
Neurobiology
Pharmacology
3. Endocrinology
4. Cellular Biology
Molecular Biology
Immunology
5. Genetics, Developmental Biology
6. Ethology, Ecology
Natural Product Chemistry

All incoming manuscripts are acknowledged immediately. Authors will be notified of the editorial board's publishing decision once their manuscripts have been evaluated by a minimum of two field experts. Fifty reprints of papers accepted for publication will be sent to authors free of charge; additional reprints may be ordered.

Manuscripts and all communications to the editors should be addressed to:
