Announcements

Italy

1st International Workshop – Pore Forming Toxins: their Role in the Competition among Different Organisms

Ivano Fracena, Trento, Italy, 26–29 September 1991

Topics – Channel forming toxins from bacteria: role and function; – general aspects in the study of channel forming toxins; – virulence factors in *E. coli* and other gram-negative bacteria; – animal cytolysins: arms of attack and defense.

Contact: G. Menestrina, Dipartimento di Fisica, I-38050 Povo (Trento), Italy,
Fax 39 461 881696 or 39 461 881624.

XI. International Symposium on 'Drugs affecting lipid metabolism'

Florence, 13–16 May 1992

Chairmen: A. M. Gotto (Houston, USA), R. Paoletti (Milan, Italy)

Preliminary list of **topics**: – Risk factors; – new aspects of lipoprotein metabolism; – drugs affecting atherosclerosis and thrombosis; – **workshops** will cover a broad range of topics including molecular biology of lipoproteins and atherosclerosis; cell to cell interaction in the arterial wall; modified lipoproteins; progression and regression of atherosclerotic plaques; various classes of drugs affecting plasma lipids and lipoproteins; drugs interfering with thrombosis and fibrinolysis; diabetes lipids, and atherosclerosis.

For further information please contact the Organizing Secretariat: *XI DALM*. Fondazione Giovanni Lorenzini, Via Monte Napoleone 23, I-20121 Milan (Italy).

Phone: (02) 76002267 – 783868

Telefax: (02) 781511

For USA: *XI DALM*. Giovanni Lorenzini Medical Foundation, Houston, Texas.

Phone: 713-797.0401

Telefax: 713-796.8853
