### Instructions to Authors

**Experientia** is a monthly journal for life sciences devoted to publishing articles which are interdisciplinary in character and which are of general scientific interest. Considered for publication will be hitherto unpublished manuscripts that fall within the following categories:

**Multi-author Reviews** (collections of reviews on one topic assembled by an appointed Coordinator)

**Reviews**

**Mini-reviews**

**Research Articles**

Manuscripts reporting only preliminary results will not be accepted. Experiments on animals must conform to the *Ethical Guidelines of the Swiss Academy of Medical Sciences* and must be conducted with the appropriate anesthesia. Copies of the Guidelines can be obtained from the editorial office (see address below).

In order to emphasize the *interdisciplinary* character of papers submitted as *Research Articles*, authors are requested to explain the import and significance of the research described in both the *Abstract* and the *Introduction* in clear and simple terms for the benefit of readers outside their own field of interest.

*Manuscripts* must be submitted in *triplicate*, typed double-spaced and written in *English*.

- A *title page* should bear the author's name and address, an *Abstract* (not more than 10 lines), and a listing of not more than 7 *Key Words*.
- *Footnotes* must be avoided.
- *Tables* and *Figures* should be submitted on separate pages. Explanatory *legends (captions)* should be listed together on separate pages.
- All *data* should be expressed in units conforming to the *Système International (SI)*.
- *Drawings* are to be on heavy bond paper and marked clearly in black. *Computer graphs* are acceptable only if of highest quality and high contrast.

- *Photographs* should be supplied as glossy positive prints. Color photographs are not usually published. They can be accepted at the author's expense.
- *References*: For *Reviews*, references should be listed alphabetically and be numbered. Citation in the text should be by number. The references should contain full article titles and both first and last pages of the cited article. For *Research Articles* and *Mini-reviews*, an abbreviated bibliography is used: references are listed and numbered in order of appearance; titles and last pages are omitted.

Authors are requested to specify into which of the following disciplines their paper falls:

1. Anatomy, Physiology
2. Biochemistry, Biophysics, Metabolism, Neurobiology, Pharmacology
3. Endocrinology (vertebrate, invertebrate, plant hormones, pheromones)
4. Cellular Biology, Molecular Biology, Immunology and Immunochemistry
5. Genetics, Developmental Biology
6. Ethology, Ecology, Natural Product Chemistry

All incoming manuscripts are acknowledged immediately. Authors will be notified of the editorial board's publishing decision once their manuscripts have been evaluated by a minimum of two referees.

Fifty reprints of papers accepted for publication will be sent to the authors free of charge; additional reprints may be ordered.

Manuscripts and all communications to the editors should be addressed to:
