

Announcement

39th International Conference on the Biochemistry of Lipids (ICBL), Davos, Switzerland, 23–26 September 1998

Organizing Committee: P. Ott (Chairman), H. Hauser (Co-Chairman), J. Seelig, P. Bütikofer

Scientific Programme: The scientific programme will include plenary lectures by invited speakers and both poster and oral communications. Oral communications will be selected from the submitted abstracts relevant to the topics of the conference.

The meeting will focus on three central themes:

1. Cellular trafficking of cholesterol and other lipids
2. Biophysical aspects of membrane lipid research
3. Functional aspects of membrane lipid topology

Poster communications may relate to the conference themes or to other areas of lipid biochemistry.

Key Dates:

March 1998: Mailing of the second announcement containing full details of the scientific and social programme of the conference

20 May 1998: Deadline for submission of abstracts

To receive the second announcement of the 39th ICBL, with registration forms, hotel information and abstract information, please contact:
