

CORRIGENDA

In this communication, we failed to acknowledge the support of Dr. David W. Christenson and his group (Department of Chemistry, University of Pennsylvania) in pursuing X-ray crystallography, in particular the assistance of Dr. Luigi Di Costanzo in crystal mounting, data collection, and the initial phases of the refinement of the presented GSK-3 structure. We apologize for this oversight.

Origin of Life

Chemical Approach

This book reflects the state of the art of the research on the chemical aspects of the origin of life. It includes philosophical, theoretical, and experimental contributions from experts in this field.

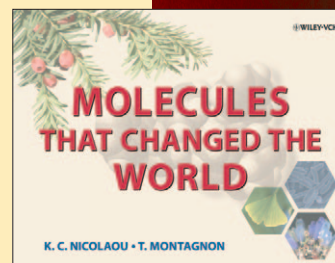

429 pp, cl, € 129.00
ISBN: 978-3-906390-50-5

K. C. Nicolaou / T. Montagnon

Molecules that Changed the World

Intriguing, inspirational, highly rewarding! Lay persons, students, teachers and specialists alike will take pleasure in reading fascinating stories about legendary molecules such as aspirin, penicillin and taxol, as well as their impact on science and society.

385 pp, cl, € 34.90
ISBN: 978-3-527-30983-2
