

Contemporary Organic Synthesis

NEW
REVIEW
JOURNAL

... a milestone in organic chemistry publishing ...

Contemporary Organic Synthesis, is a NEW bi-monthly critical review journal, bringing you:

- Regular, up-to-date coverage of all major functional group interconversions
- Chemo-, regio- and stereo-selectivity in modern synthesis
- Design and development of chiral auxiliaries, catalytic asymmetric processes and biological methods
- Scope for organometallic reagents in rational, efficient design
- Timely reviews of the place of synthesis in all areas of natural product chemistry, medicine, agriculture and materials science
- Developments at the cutting edge of molecular recognition phenomena, supramolecular chemistry and self-assembly processes
- The needs of modern industry and the industrial chemist, taking into account economic and environmental factors

A subscription to **Contemporary Organic Synthesis** will give you:

- New approaches and new directions in synthesis design
- Coverage of major areas each year, and more specialised areas every two or three years
- International outlook and coverage
- An attractive, highly readable publication with clear diagrams and figures

NEW

Issues in Environmental Science and Technology

Editors: **R E Hester**, *University of York, UK*
R M Harrison, *University of Birmingham, UK*

***A new series to
tackle important
environmental issues . . .***

In response to the rapid growth of interest in the environment and the acute need for concise, authoritative and up-to-date reviews of topical issues, the Royal Society of Chemistry is launching **Issues in Environmental Science and Technology**.

This new series will publish review articles on topics of global concern, written by world experts in their specialized fields. It will present a multidisciplinary approach to pollution and environmental science and in addition to covering the chemistry of environmental processes, will focus on broader issues such as economic, legal and political considerations.

Each issue will address a different theme and will contain approximately six articles, most of which will be specially commissioned by the editors.

The first two issues will cover:

1 Mining and its Environmental Impact

ISBN 0 85404 200 8

April 1994

Price £15.00

2 Waste Incineration and the Environment

ISBN 0 85404 205 9

July 1994

Price £15.00

Also Available ISSN 1350-7583
on subscription . . . EC £25.00 USA \$47.00

Published twice yearly from 1994
Canada £28.00 + GST Rest of World £27.00
