

Alzheimer's disease

olfactory function, Parkinson's disease, odor identification, odor memory 105

Anosmics

odor, odor quality, trigeminal perception, Kallmann syndrome 447

Autonomic nervous system

odorants, emotions, hedonic axis, phasic variations 237

Bimodal fibers

bimodal response, taste/tactile, suppression, quinine, facial-trigeminal complex, electrophysiology, catfish 477

Biogenic amines

vomeranase organ, serotonin, HPLC, catecholamine, vertebrate 439

Capsaicin

NaCl, chorda tympani, salt-taste transduction, rat 249
nicotine, oral irritation, sensitization, desensitization, psychophysics, human 483
piperine, chemesthesis, trigeminal nerve, glossopharyngeal nerve, vagus nerve, pharynx, irritation 257

Chemesthesis

capsaicin, piperine, trigeminal nerve, glossopharyngeal nerve, vagus nerve, pharynx, irritation 257

Chemoreception

taste, epidermal chemoreception, cutaneous chemical sense, nervous facialis, viscerosensory system 111

Chemosensory event related potentials (CSERP)

odor, odor concentration, linalool, menthol, attention 9

Chronobiology

nasal chemosensitivity, circadian rhythm, olfactory threshold, trigeminal threshold 593

Glossopharyngeal nerve

taste, Ni^{2+} -enhanced response to Mg^{2+} ions, inhibition by Ca^{2+} ions, frog 613

D-Glucono-1,5-lactone

taste, structure, solution properties 53

Gustation

greater superficial petrosal nerve, chorda tympani, gustatory neural response, amiloride sensitivity, sugar response, rat 133

taste, amiloride, LiCl, magnitude estimation, transduction 267
taste, chorda tympani, NaCl, taste psychophysics 171

Gustatory neurons

taste, neural pathways, entropy measure (H), rat 287

Insular cortex

baroreceptor, chemoreceptor, convergence, oropharyngolaryngeal nerve, rat 399

NaCl

capsaicin, chorda tympani, salt-taste transduction, rat 249

Nasal chemosensitivity

chronobiology, circadian rhythm, olfactory threshold, trigeminal threshold 593

Nicotine

capsaicin, oral irritation, sensitization, desensitization, psychophysics, human 483

Odor

anosmics, odor quality, trigeminal perception, Kallmann syndrome 447

chemosensory event related potentials (CSERP), odor concentration, linalool, menthol, attention 9

nasal dilators, odor intensity, psychophysics 177

off-odor, electronic nose, pharmaceutical products 119

olfactory bulb, specific odor reception, high odorant concentration, fluorescence polarization, DPH, cross-adaptation, turtle 553

olfactory memory, semantic factors, episodic recognition 623

Odorant receptors

olfaction, sensory transduction, functional expression, Ca^{2+} -imaging 467

Odorant-binding proteins

olfaction, EAG kinetics, pheromone deactivation, trifluoromethyl ketones, moth 503

olfaction, lipocalins, chemical communication, perireceptor events, 2-isobutyl-3-methoxypyrazine, rabbit 383

Odorants

autonomic nervous system, emotions, hedonic axis, phasic variations 237

Olfaction

adsorption, statistical thermodynamics, grand canonical ensemble, Hill model 67

cilia, odor receptors, G-proteins, adenylyl cyclase, cyclic nucleotide-gated channels, immunocytochemistry, freeze-fracturing and -etching 295

clinical olfaction, human psychophysics, University of Pennsylvania Smell and Taste Center 565

discrimination ability, aliphatic esters, humans, squirrel monkeys 457

electrical stimulation, evoked potential, olfactory mucosa, olfactory bulb, human 77

identification, discrimination, thresholds, age 39

magnetic source imaging (MSI), olfactory event-related magnetic fields (OERMF), olfactory event-related potentials 493

odorant receptors, sensory transduction, functional expression, Ca^{2+} -imaging 467

odorant-binding proteins, EAG kinetics, pheromone deactivation, trifluoromethyl ketones, moth 503

odorant-binding proteins, lipocalins,

- 2-isobutyl-3-methoxypyrazine, chemical communication, perireceptor events, rabbit 383
 olfactory quality, descriptors profiles, similarities 1
 psychophysics, classical conditioning, salamanda, *Ambystoma trigrinum* 277
 taste, feeding behavior, chemical stimuli, visual stimuli, rainbow trout (*Oncorhynchus mykiss*) 375
- Olfactory bulb**
 odor, specific odor reception, high odorant concentration, fluorescence polarization, DPH, cross-adaptation, turtle 553
- Olfactory conditioning**
 discrimination, oilseed rape volatiles, honeybee 391
- Olfactory function**
 Parkinson's disease, Alzheimer's disease, odor identification, odor memory 105
- Olfactory memory**
 odor, semantic factors, episodic recognition 623
- Olfactory receptor cells**
 sustentacular cells, Bowman's glands, Na,K-ATPase, corticosteroids, ion-transport 141
- Olfactory receptor database (ORDB)**
 World Wide Web, receptor information, related information 321
- Olfactory receptor neurons**
 G-protein $\beta\gamma$ -subunits, olfactory transduction, RT-PCR, Western blotting, catfish 587
- Parkinson's disease**
 olfactory function, Alzheimer's disease, odor identification, odor memory 105
- Phenylthiocarbamide**
 quinine hydrochloride, taste, taste sensitivity, Japanese 547
- Pheromone**
 trifluoromethyl ketones, behavioural responses, EAG response, male moths 407
 urinary estrous pheromone, flehmen response, chemosensory responses, (Z)-7-dodecen-1-yl acetate, Asian elephant 417
- Piperine**
 capsaicin, chemesthesis, trigeminal nerve, glossopharyngeal nerve, vagus nerve, pharynx, irritation 257
- 6-n-Propylthiouracil (PROP)**
 taste, genetic taste markers, detection threshold, intensity scaling, hedonic preference, bitter taste, sweet taste 27
- Quinine hydrochloride**
 phenylthiocarbamide, taste, taste sensitivity, Japanese 547
- Receptor neuron**
 vomeronasal receptor neuron, inositol 1,4,5-trisphosphate, voltage-clamp, action potential, rat 93
- Sugar alcohol**
 taste, hydrostatic volume, hydrodynamic volume, sweet taste chemoreception 149
- Sustentacular cells**
 olfactory receptor cells, Bowman's gland, Na,K-ATPase, ion-transport, corticosteroids, guinea-pig 313
- Sweeteners**
 taste, transduction, whole cell patch clamp method, gerbil 163
- Taste**
 bitter-tasting compounds, pigs 129
 chemoreception, epidermal chemoreception, cutaneous chemical sense, nervous facialis, viscerosensory system 111
 detection, sucrose masker, citric acid masker, sucrose and citric acid masker 529
 glossopharyngeal nerve, Ni^{2+} -enhanced response to Mg^{2+} ions, inhibition by Ca^{2+} ions, frog 613
 D-glucono-1,5-lactone, structure, solution properties 53
 gustation, amiloride, LiCl, magnitude estimation, transduction 267
 gustation, chorda tympani, NaCl, taste psychophysics 171
 gustatory neurons, neural pathways, entropy measure (*H*), rat 287
 insular cortex, cross-correlation, efficacy contribution, rat 517
 phenylthiocarbamide, quinine hydrochloride, taste sensitivity, Japanese 547
 6-n-propylthiouracil (PROP), genetic taste markers, detection threshold, intensity scaling, hedonic preference, bitter taste, sweet taste 27
 sugar alcohol, hydrostatic volume, hydrodynamic volume, sweet taste chemoreception 149
 sweet taste transductions, amino acid sweeteners, taste cells, gerbil 83
 sweeteners, transduction, whole cell patch clamp method, gerbil 163
 taste quality discrimination, gustatory cortex, cross-correlation analysis, temporal coding, rat 363
- Taste bud**
 embryonic period, fetal period, fungiform papillae, circumvallate papillae, electron microscopy, human 601
- Taste buds**
 development, metamorphosis, glossopharyngeal nerve, salamanders 535
- Vomeronasal organ**
 biogenic amines, serotonin, HPLC, catecholamine, vertebrate 439
- World Wide Web**
 olfactory receptor database (ORDB), receptor information, related information 321
