

The following papers were presented in a symposium: *Antisense Oligonucleotides: Strategies and Successes*, at the annual meeting of the Association for Chemoreception Sciences (AChemS XVII), April 21, 1995, in Sarasota, Florida, USA.

Chairperson: Barbara Talamo

Speakers:

Barbara Talamo
Tufts University

Introduction: Antisense Oligonucleotides: Strategies and Successes*

Barbara R. Talamo

Richard Wagner
Gilead Sciences

Gene Inhibition Using Antisense Oligonucleotides

K.S. Kosik
Harvard University

Use of Antisense Nucleotides in Neuronal Cell Culture

D.W. Pfaff
Rockefeller University

Current Status of Antisense DNA Methods in Behavioral Studies*

S. Ogawa and D.W. Pfaff

*Written contributions

Sponsored by the National Institute of Deafness and Other Communication Disorders
